FEDERAL REGISTER
Area Code 202 Phone 962–8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

HIGHLIGHTS—Continued

NEW DRUGS—
FDA notice of withdrawal of approval of certain antifungal drugs, tranquilizers and ophthalmic drugs (3 documents) 14276
FDA notices of efficacy studies on methylphenidate hydrochloride parenteral and streptomycin sulphate (2 documents) 14278
FDA notice of opportunity for hearing on proposed withdrawal; comments within 30 days 14277
AIR CARGO RATES—CAB notice of approval of IATA agreement 14281
ENVIRONMENT—TVA notice of hearings on Duck River Project, Tennessee, 8–24–71; comments by 8–13–71 14289

Title 3—The President

PROCLAMATION 4070

American Trial Lawyers Week

By the President of the United States of America

A Proclamation

The idea of a fair trial, a legal scholar has observed, "has been the greatest contribution made to civilization by our Anglo-American polity." For twenty-five years, the members of the American Trial Lawyers Association have sought to translate this noble inspiration into an every-day reality for those whose disputes and grievances must be settled in a court of law.

Through the adversary process, these lawyers have now established a long and proud tradition and have shown that the methods and values of the trial advocate may serve as a model for the just resolution of disputes among men. Their continuing commitment to fair and orderly trials has become an essential part of the administration of justice in America.

In honor of the American Trial Lawyers Association on the occasion of its twenty-fifth anniversary, the Congress, by House Joint Resolution 714, has designated the week beginning August 1, 1971, as American Trial Lawyers Week and has requested the President to encourage appropriate observance of that week.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby call upon each American, during American Trial Lawyers Week, to renew his commitment to enhance the administration of justice for the public good; and I direct the appropriate Government officials to display the flag of the United States on all public buildings on Monday, August 2, 1971.

IN WITNESS WHEREOF, I have hereunto set my hand this thirtieth day of July, in the year of our Lord nineteen hundred seventy-one, and of the Independence of the United States of America the one hundred ninety-sixth.

Richard Nixon

Title 7—AGRICULTURE

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Amdt. 8]

PART 906—ORANGES AND GRAPEFRUIT GROWN IN THE LOWER RIO GRANDE VALLEY IN TEXAS

Container, Pack, and Container Marking Regulations

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas, effective under

the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the Texas Valley Citrus Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation on the handling of Texas citrus fruits, as hereinafter provided, will tend to effectuate the declared policy of the Act.

(2) The recommendations of the Texas Valley Citrus Committee reflects its appraisal of the need for restricting the use of containers and pack sizes to those most suitable for the packing and handling of fruit to promote orderly marketing, so as to provide consumers with good quality fruit and maximize returns to producers pursuant to the declared policy of the act. The amendment authorizes handlers to continue to ship grapefruit and oranges in mesh or women type bags having a capacity of 18 pounds of fruit after August 1, 1971. Containers of this type were authorized for temporary use during the periods January 1 through March 31, 1971, and April 1 through August 1, 1971, under amendments 6 and 7, respectively, of § 906.340 (7 CFR 906.340; 36 F.R. 143; 5962), while the container's suitability and effectiveness was being evaluated under a committee research project. On the basis of the findings of the research project and other available information, the committee recommends that mesh or woven type bags having a capacity of 18 pounds of fruit continue to be authorized for the shipment of grapefruit and oranges.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (i) the handling of fruit is now in progress and to be of maximum benefit the provisions of this amendment should be effective upon the date hereinafter specified, (ii) the effective date hereof will not require of handlers any preparation that cannot be completed prior thereto, (iii) this amendment was recommended by members of the Texas Valley Citrus Committe in an open meeting at which all interested persons were afforded opportunity to submit their views, (iv) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and (v) this amendment relieves restrictions on the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas.

(4) It is hereby found that the amendment hereinafter set forth is in accordance with the provisions of said marketing agreement and order, and will tend to effectuate the declared policy of the Act.

Order. It is therefore ordered that the provisions of § 906.340 (7 CFR 906.340; 36 F.R. 143; 5962) are amended as follows:

Paragraph (a)(1)(iv) is amended to read:

§ 906.340 Container, pack, and container marking regulations.

(a) * * *

(1) * * *

(iv) Bags having a capacity of 5 or 8 pounds of fruit: *Provided,* That handlers may ship fruit in mesh or woven type bags having a capacity of 18 pounds of fruit;

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 29, 1971, to become effective August 2, 1971.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[FR Doc.71-11122 Filed 7-30-71;12:35 pm]

PART 909—GRAPEFRUIT GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Increase in Expenses for 1970–71 Fiscal Year

On July 17, 1971, notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 13272) regarding a proposed increase in expenses for the fiscal year September 1, 1970, through August 31, 1971, pursuant to Order No. 909, as amended (7 CFR Part 900; 35 F.R. 16637), regulating the handling of Grapefruit grown in Arizona and designated parts of California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

After consideration of all relevant matters presented, including the proposal set forth in such notice which was submitted by the Grapefruit Administrative Committee (established pursuant to said amended marketing order), it is hereby found and determined that due increased expenses caused by greater than anticipated shipments of regulated fruit, the currently approved expenses are not sufficient to meet the expenses of the committee, thus rendering necessary an increase in expenses.

It is, therefore, ordered that paragraph (a) *Expenses* of § 909.209 (35 F.R. 17653; 36 F.R. 12000) are hereby amended to read as follows:

§ 909.209 Expenses, rate of assessment, and carryover of unexpended funds.

(a) *Expenses.* The expenses that are reasonable and likely to be incurred by the Administrative Committee during the period September 1, 1970, through August 31, 1971, will amount to $122,500.

* * * * *

It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective time hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) said committee in the performance of its duties and functions is likely to incur obligations which may be in excess of that previously thought likely to be incurred, (2) the increase in the budget set forth does not involve an increase in the rate of assessment heretofore established by the Secretary (35 F.R. 17653; 36 F.R. 12000), and (3) it is essential that the specification of expenses herein provided be issued immediately so that said committee can meet it's obligations and perform it's duties and functions within the fiscal period in accordance with said marketing order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 28, 1971.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

PART 214—NONIMMIGRANT CLASSES

Nonimmigrants

Correction

In F.R. Doc. 71-10696 appearing on page 13910 in the issue of Wednesday, July 28, 1971, the word "any" appearing in the 10th line of subparagraph (3a) of § 214.2(h) under amendment 2 should read "and".

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 71-SW-20]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate a 700-foot transition area at Winnsboro, Tex.

On June 15, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 11523) stating the Federal Aviation Administration proposed to designate the Winnsboro, Tex., transition area.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 14, 1971, as hereinafter set forth.

In § 71.181 (36 F.R. 2140), the following transition area is added:

WINNSBORO, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Winnsboro Municipal Airport (latitude 32°56'22" N., longitude 95°16'43" W.) and within 1.5 miles each side of the Quitman, Tex., VOR 054° radial extending from the 5-mile-radius area to the VOR.

Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c)

Issued in Fort Worth, Tex., on July 26, 1971.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[Airspace Docket No. 71-WA-23]

PART 73—SPECIAL USE AIRSPACE

Designation of Temporary Restricted Area

On June 19, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 11816) stating that the Federal Aviation Administration was considering an amendment to Part 73 of the Federal Aviation Regulations that would designate a restricted area at Amchitka, Alaska.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., September 16, 1971, for 60 days duration, as hereinafter set forth.

Section 73.22 is amended by adding the following:

R-2207. AMCHITKA ISLAND, ALASKA

Boundaries: Within the boundary of Amchitka Island, Alaska, including the airspace within 3 nautical miles from and parallel to the shoreline.

Designated altitude: Surface to 18,000 feet MSL.

Time of designation: As activated by NOTAM issued by the using agency at least 24 hours in advance.

Controlling agency: Federal Aviation Administration, Anchorage, Alaska, ARTC Center.

Using agency: Manager, Nevada Operation Office, U.S. Atomic Energy Commission, Las Vegas, Nev.

(Sec. 307(a), 1110, Federal Aviation Act of 1958, 49 U.S.C. 1348(a), 1510; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on July 27, 1971.

H. B. HELSTROM,
Chief, Airspace and Air Traffice Rules Division.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 2—ADMINISTRATIVE FUNCTIONS, PRACTICES, AND PROCEDURES

Subpart H—Delegations of Authority

CERTIFICATION OF TRUE COPIES AND USE OF THE DEPARTMENT SEAL

Under authority vested in the Secretary of Health, Education, and Welfare and delegated to the Commissioner of Food and Drugs (21 CFR 2.120), § 2.121(d) is revised to read as follows to update the subject authority delegations:

§ 2.121 Redelegations of authority from the Commissioner to other officers of the Administration.

* * * * *

(d) *Delegations regarding certification of true copies and use of Department seal.* (1) The following officials are authorized to certify true copies of or extracts from any books, records, papers, or other documents on file within the Food and Drug Administration, to certify that copies are true copies of the entire file, to certify the complete original record, or to certify the nonexistence of records on file within the Administration, and to cause the seal of the Department to be affixed to such certifications.

(i) Associate and Deputy Associate Commissioners.

(ii) Assistant and Deputy Assistant Commissioners.

(iii) Federal Register Writer, Office of the Associate Commissioner for Compliance.

(iv) Director and Deputy Director, Policy Management Staff, Office of the Assistant Commissioner for Program Coordination.

(v) Directors and Deputy Directors of Bureaus and Executive Director and Deputy Executive Director of Regional Operations.

(vi) Assistant Director for Planning and Analysis of the Bureau of Drugs, the Director and Deputy Director of the Office of Compliance of that Bureau, and the Director of the Division of Case Guidance of that Office and Bureau.

(vii) Assistant Director for Management of the Bureau of Foods, the Director and Associate Director of the Office of Compliance of that Bureau, the Director of the Division of Regulatory Guidance of that Office and Bureau, and the Director of the Division of Food Service and Milk Sanitation of the Office of Food Sanitation of that Bureau.

(viii) Assistant Director for Management of the Bureau of Product Safety and the Director of the Compliance Office of that Bureau.

(ix) Director and Deputy Director of the Division of Compliance of the Bureau of Veterinary Medicine.

(x) Executive Officer of the Bureau of Radiological Health.

(2) The following officials are authorized to cause the seal of the Department to be affixed to agreements, awards, citations, diplomas, and similar documents:

(i) Associate and Deputy Associate Commissioners.

(ii) Assistant and Deputy Assistant Commissioner for Administration.

(iii) Director and Deputy Director of the FDA Training Institute.

* * * * * *

Effective date. This order shall be effective upon FEDERAL REGISTER publication (8-3-71).

Dated: July 22, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER E—ALCOHOL, TOBACCO, AND OTHER EXCISE TAXES

PART 179—MACHINE GUNS, DESTRUCTIVE DEVICES, AND CERTAIN OTHER FIREARMS

On April 14, 1971, a notice of proposed rule making to issue 26 CFR Part 179 to implement the provisions of title II, Machine Guns, Destructive Devices, and Curtain Other Firearms, of the Gun Control Act of 1968, was published in the FEDERAL REGISTER (36 F.R. 7059 (1971)). In accordance with the notice, interested parties were afforded an opportunity to submit written comments and an opportunity to be heard at a public hearing upon written request for the same. No request for a public hearing was received.

After consideration of all such relevant matters as was presented by interested parties regarding the rules proposed, and in order to make certain clarifying changes, the regulations as so published are hereby adopted subject to the changes set forth below:

PARAGRAPH 1. Section 179.11 is changed by adding two sentences at the end of the

definition of "Firearm" which sentences read: "For purposes of this definition, the length of the barrel on a shotgun or rifle shall be determined by measuring the distance between the muzzle and the face of the bolt, breech, or breechlock when closed and when the shotgun or rifle is cocked. The overall length of a weapon made from a shotgun or rifle is the distance between the extreme ends of the weapon measured along a line parallel to the center line of the bore."

PAR. 2. Section 179.112(a) is changed by deleting the words "in duplicate", from the first sentence thereof so that the sentence reads: "Each importer shall file with the Director an accurate notice on Form 2 (Firearms), Notice of Firearms Manufactured or Imported, executed under the penalties of perjury, showing his importation of a firearm."

PAR. 3. Section 179.116 is changed by deleting the words "Collector of Customs" and inserting in lieu thereof the words "District Director of Customs".

PAR. 4. Section 179.117 is changed by deleting the words "Collector of Customs" which appear in the first two sentences and inserting in lieu thereof the words "District Director of Customs".

PAR. 5. Section 179.118 is changed by deleting the words "Collector of Customs" and inserting in lieu thereof the words "District Director of Customs".

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

Approved: July 28, 1971.

WILLIAM L. DICKEY,
Acting Assistant Secretary of the Treasury.

In order to implement the provisions of Title II, Machine Guns, Destructive Devices, and Certain Other Firearms (U.S.C., Title 26, Chapter 53), of the Gun Control Act of 1968 (Public Law 90-618, 82 Stat. 1213), the following regulations are hereby prescribed as Part 179 of Title 26 of the Code of Federal Regulations:

Preamble. 1. These regulations, 26 CFR Part 179, "Machine Guns, Destructive Devices, and Certain Other Firearms," supersede Regulations 26 CFR Part 179 (1955 edition, 20 F.R. 6739, as amended) issued under the National Firearms Act of 1954 (U.S.C., Title 26, Chapter 53).

2. These regulations shall not affect any act done or any liability, or right accruing, or accrued, or any suit or proceeding had or commenced before the effective date of these regulations.

3. These regulations shall be effective on the first day of the first month following their publication in the FEDERAL REGISTER.

Subpart A—Scope of Regulations

Sec.
179.1 General.

179.50 Delinquency.
179.51 Fraudulent return.

APPLICATION OF STATE LAWS

179.52 State regulations.

Subpart E—Tax on Making Firearms

179.61 Rate of tax.

APPLICATION TO MAKE A FIREARM

179.62 Application to make.
179.63 Identification of applicant.
179.64 Procedure for approval of application.
179.65 Denial of application.
179.66 Subsequent transfer of firearms.
179.67 Cancellation of stamp.

EXCEPTIONS TO TAX ON MAKING FIREARMS

179.68 Qualified manufacturer.
179.69 Making a firearm for the United States.
179.70 Certain government entities.

REGISTRATION

179.71 Proof of registration.

Subpart F—Transfer Tax

179.81 Scope of tax.
179.82 Rate of tax.
179.83 Transfer tax in addition to import duty.

APPLICATION AND ORDER FOR TRANSFER OF FIREARM

179.84 Application to transfer.
179.85 Identification of transferee.
179.86 Action on application.
179.87 Cancellation of stamp.

EXEMPTIONS RELATING TO TRANSFERS OF FIREARMS

179.88 Special (occupational) taxpayers.
179.89 Transfers to the United States.
179.90 Certain government entities.
179.91 Unserviceable firearms.
179.92 Transportation of firearms to effect transfer.

OTHER PROVISIONS

179.93 Transfers of firearms to certain persons.

Subpart G—Registration and Identification of Firearms

179.101 Registration of firearms.
179.102 Identification of firearms.
179.103 Registration of firearms manufactured.
179.104 Registration of firearms by certain governmental entities.

Subpart H—Importation and Exportation

IMPORTATION

179.111 Procedure.
179.112 Registration of imported firearms.
179.113 Conditional importation.

EXPORTATION

179.114 Application and permit for exportation of firearms.
179.115 Action by Director.
179.116 Procedure by exporter.
179.117 Action by Customs.
179.118 Proof of exportation.
179.119 Transportation of firearms to effect exportation.
179.120 Refunds.
179.121 Insular possessions.

MUTUAL SECURITY ACT

179.122 Requirements.

179.131 Records.

Subpart J—Stolen or Lost Firearms or Documents

179.141 Stolen or lost firearms.
179.142 Stolen or lost documents.

Subpart K—Examination of Books and Records

179.151 Failure to make returns: substitute records.
179.152 Penalties (records and returns).

Subpart L—Distribution and Sale of Stamps

Sec.
179.161 Orders for stamps.
179.162 Stamps authorized.
179.163 Reuse of stamps prohibited.

Subpart M—Redemption of or Allowance for Stamps or Refunds

179.171 Redemption of or allowance for stamps.
179.172 Refunds.

Subpart N—Penalties and Forfeitures

179.181 Penalties.
179.182 Forfeitures.

Subpart O—Other Laws Applicable

179.191 Applicability of other provisions of internal revenue laws.
179.192 Commerce in firearms and ammunition.
179.193 Mutual Security Act.

AUTHORITY: The provisions of this Part 179 issued under 68A Stat. 917; 26 U.S.C. 7805 and 26 U.S.C. Chapter 53, unless otherwise noted.

Subpart A—Scope of Regulations

§ 179.1 General.

This part contains the procedural and substantive requirements relative to the importation, manufacture, making, exportation, identification and registration of, and the dealing in, machine guns, destructive devices and certain other firearms under the provisions of the National Firearms Act (Chapter 53, I.R.C.).

Subpart B—Definitions

§ 179.11 Meaning of terms.

When used in this part and in forms prescribed under this part, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, terms shall have the meanings ascribed in this section. Words in the plural form shall include the singular, and vice versa, and words importing the masculine gender shall include the feminine. The terms "includes" and "including" do not exclude other things not enumerated which are in the same general class or are otherwise within the scope thereof.

Antique firearm. Any firearm not designed or redesigned for using rim fire or conventional center fire ignition with fixed ammunition and manufactured in or before 1898 (including any matchlock, flintlock, percussion cap, or similar type of ignition system or replica thereof, whether actually manufactured before or after the year 1898) and also any firearm using fixed ammunition manufactured in or before 1898, for which ammunition is no longer manufactured in the United States and is not readily available in the ordinary channels of commercial trade.

Any other weapon. Any weapon or device capable of being concealed on the person from which a shot can be discharged through the energy of an explosive, a pistol or revolver having a barrel with a smooth bore designed or redesigned to fire a fixed shotgun shell, weapons with combination shotgun and rifle barrels 12 inches or more, less than 18 inches in length, from which only a single discharge can be made from either barrel without manual reloading, and shall include any such weapon which may be readily restored to fire. Such term shall not include a pistol or a revolver having a rifled bore, or rifled bores, or weapons designed, made, or intended to be fired from the shoulder and not capable of firing fixed ammunition.

Assistant Regional Commissioner. An Assistant Regional Commissioner, Alcohol, Tobacco and Firearms, who is responsible to, and functions under, the direction and supervision of a Regional Commissioner, Internal Revenue.

Commissioner. The Commissioner of Internal Revenue.

Customs officer. Any officer of the Bureau of Customs or any agent or other person authorized by law or by the Secretary of the Treasury, or appointed in writing by a Regional Commissioner of Customs, or by another principal customs officer under delegated authority, to perform the duties of an officer of the Bureau of Customs.

Dealer. Any person, not a manufacturer or importer, engaged in the business of selling, renting, leasing, or loaning firearms and shall include pawnbrokers who accept firearms as collateral for loans.

Destructive device. (a) Any explosive, incendiary, or poison gas (1) bomb, (2) grenade, (3) rocket having a propellent charge of more than 4 ounces, (4) missile having an explosive or incendiary charge of more than one-quarter ounce, (5) mine, or (6) similar device; (b) any type of weapon by whatever name known which will, or which may be readily converted to, expel a projectile by the action of an explosive or other propellant, the barrel or barrels of which have a bore of more than one-half inch in diameter, except a shotgun or shotgun shell which the Director finds is generally recognized as particularly suitable for sporting purposes; and (c) any combination of parts either designed or intended for use in converting any device into a destructive device as described in paragraphs (a) and (b) of this definition and from which a destructive device may be readily assembled. The term shall not include any device which is neither designed or redesigned for use as a weapon; any device, although originally designed for use as a weapon, which is redesigned for use as a signaling, pyrotechnic, line throwing, safety, or similar device; surplus ordnance sold, loaned, or given by the Secretary of the Army pursuant to the provisions of section 4684 (2), 4685, or 4686 of title 10 of the United States Code; or any device which the Director finds is not likely to be used as a weapon, or is an antique or is a rifle which the owner intends to use solely for sporting purposes.

Director. The Director, Alcohol, Tobacco, and Firearms Division, Internal Revenue Service, Treasury Department, Washington, D.C. 20224.

Director of the Service Center. A Director of an Internal Revenue Service Center in an internal revenue region.

District Director. A District Director of Internal Revenue.

Executed under penalties of perjury. Signed with the prescribed declaration under the penalties of perjury as provided on or with respect to the return, form, or other document or, where no form of declaration is prescribed, with the declaration: "I declare under the penalties of perjury that this—(insert type of document, such as, statement, application, request, certificate), including the documents submitted in support thereof, has been examined by me and, to the best of my knowledge and belief, is true, correct, and complete."

Exportation. The severance of goods from the mass of things belonging to this country with the intention of uniting them to the mass of things belonging to some foreign country.

Exporter. Any person who exports firearms from the United States.

Firearm. (a) A shotgun having a barrel or barrels of less than 18 inches in length; (b) a weapon made from a shotgun if such weapon as modified has an overall length of less than 26 inches or a barrel or barrels of less than 18 inches in length; (c) a rifle having a barrel or barrels of less than 16 inches in length; (d) a weapon made from a rifle if such weapon as modified has an overall length of less than 26 inches or a barrel or barrels of less than 16 inches in length; (e) any other weapon, as defined in this subpart; (f) a machine gun; (g) a muffler or a silencer for any firearm whether or not such firearm is included within this definition; and (h) a destructive device. The term shall not include an antique firearm or any device (other than a machine gun or destructive device) which, although designed as a weapon, the Director finds by reason of the date of its manufacture, value, design, and other characteristics is primarily a collector's item and is not likely to be used as a weapon. For purpose of this definition, the length of the barrel on a shotgun or rifle shall be determined by measuring the distance between the muzzle and the face of the bolt, breech, or breechlock when closed and when the shotgun or rifle is cocked. The overall length of a weapon made from a shotgun or rifle is the distance between the extreme ends of the weapon measured along a line parallel to the center line of the bore.

Fixed ammunition. That self-contained unit consisting of the case, primer, propellant charge, and projectile or projectiles.

Frame or receiver. That part of a firearm which provides housing for the hammer, bolt or breechblock and firing mechanism, and which is usually threaded at its forward portion to receive the barrel.

Importation. The bringing of a firearm within the limits of the United States or any territory under its control or jurisdiction, from a place outside thereof (whether such place be a foreign country or territory subject to the jurisdiction of the United States), with intent to unlade. Except that, bringing a firearm from a foreign country or a territory subject to the jurisdiction of the United States into a foreign trade zone for storage pending shipment to a foreign country or subsequent importation into this country, pursuant to the I.R.C. and this part, shall not be deemed importation.

Importer. Any person who is engaged in the business of importing or bringing firearms into the United States.

I.R.C. The Internal Revenue Code of 1954, as amended.

Machine gun. Any weapon which shoots, is designed to shoot, or can be readily restored to shoot, automatically more than one shot, without manual reloading, by a single function of the trigger. The term shall also include the frame or receiver of any such weapon, any combination of parts designed and intended for use in converting a weapon into a machine gun, and any combination of parts from which a machine gun can be assembled if such parts are in the possession or under the control of a person.

Make. This term and the various derivatives thereof shall include manufacturing (other than by one qualified to engage in such business under this part), putting together, altering, any combination of these, or otherwise producing a firearm.

Manual reloading. The inserting of a cartridge or shell into the chamber of a firearm either with the hands or by means of a mechanical device controlled and energized by the hands.

Manufacturer. Any person who is engaged in the business of manufacturing firearms.

Muffler or silencer. Any device for silencing or diminishing the report of any portable weapon, such as a rifle, carbine, pistol, revolver, machine gun, submachine gun, shotgun, fowling piece, or other device from which a shot, bullet, or projectile may be discharged by an explosive, and is not limited to mufflers or silencers for "firearms" as defined.

Person. A partnership, company, association, trust, estate, or corporation, as well as a natural person.

Pistol. A weapon originally designed, made, and intended to fire a small projectile (bullet) from one or more barrels when held in one hand, and having (a) a chamber(s) as an integral part(s) of, or permanently aligned with, the bore(s); and (b) a short stock designed to be gripped by one hand and at an angle to and extending below the line of the bore(s). The term shall not include any gadget device, any gun altered or converted to resemble a pistol, any gun that fires more than one shot, without manual reloading, by a single function of the trigger, or any small portable gun such as: Nazi belt buckle pistol, glove pistol, or a one-hand stock gun designed to fire fixed shotgun ammunition.

Regional Commissioner. A regional commissioner of internal revenue.

Revolver. A small projectile weapon, of the pistol type, having a breechloading chambered cylinder so arranged that the cocking of the hammer or movement of the trigger rotates it and brings the next cartridge in line with the barrel for firing.

Rifle. A weapon designed or redesigned, made or remade, and intended to be fired from the shoulder and designed or redesigned and made or remade to use the energy of the explosive in a fixed cartridge to fire only a single projectile through a rifled bore for each single pull of the trigger, and shall include any such weapon which may be readily restored to fire a fixed cartridge.

Shotgun. A weapon designed or redesigned, made or remade, and intended to be fired from the shoulder and designed or redesigned and made or remade to use the energy of the explosive in a fixed shotgun shell to fire through a smooth bore either a number of projectiles (ball shot) or a single projectile for each pull of the trigger, and shall include any such weapon which may be readily restored to fire a fixed shotgun shell.

Transfer. This term and the various derivatives thereof shall include selling, assigning, pledging, leasing, loaning, giving away, or otherwise disposing of.

United States. The States and the District of Columbia.

U.S.C. The United States Code.

Unserviceable firearm. A firearm which is incapable of discharging a shot by means of an explosive and incapable of being readily restored to a firing condition.

Subpart C—Administrative and Miscellaneous Provisions

§ 179.21 Forms prescribed.

The Director is authorized to prescribe all forms required by this part. All of the information called for in each form shall be furnished, as indicated by the headings on the form and in the instructions thereon or issued in respect thereto, and as required by this part. Each form requiring that it be executed under penalties of perjury shall be executed under penalties of perjury.

§ 179.22 Right of entry and examination.

Any internal revenue officer or employee of the Internal Revenue Service duly authorized to perform any function relating to the administration or enforcement of this part may enter during business hours the premises (including places of storage) of any importer or manufacturer of or dealer in firearms, to examine any books, papers, or records required to be kept pursuant to this part, and any firearms kept by such importer, manufacturer or dealer on such premises, and may require the production of any books, papers, or records necessary to determine any liability for tax under chapter 53, I.R.C., or the observance of chapter 53, I.R.C., and this part.

§ 179.23 Restrictive use of required information.

No information or evidence obtained from an application, registration, or record required to be submitted or retained by a natural person in order to comply with any provision of chapter 53, I.R.C., or this part or section 207 of the Gun Control Act of 1968 shall be used, directly or indirectly, as evidence against that person in a criminal proceeding with respect to a violation of law occurring prior to or concurrently with the filing of the application or registration, or the compiling of the record containing the information or evidence: *Provided, however,* That the provisions of this section shall not preclude the use of any such information or evidence in a prosecution or other action under any applicable provision of law with respect to the furnishing of false information.

§ 179.24 Destructive device determination.

The Director shall determine in accordance with section 5845(f), I.R.C., whether a device is excluded from the definition of a destructive device. A person who desires to obtain a determination under that provision of law for any device which he believes is not likely to be used as a weapon shall submit a written request, in triplicate, for a ruling thereon to the Director. Each such request shall be executed under the penalties of perjury and contain a complete and accurate description of the device, the name and address of the manufacturer or importer thereof, the purpose of and use for which it is intended, and such photographs, diagrams, or drawings as may be necessary to enable the Director to make his determination. The Director may require the submission to him, of a sample of such device for examination and evaluation. If the submission of such device is impracticable, the person requesting the ruling shall so advise the Director and designate the place where the device will be available for examination and evaluation.

§ 179.25 Collector's items.

The Director shall determine in accordance with section 5845(a), I.R.C., whether a firearm or device, which although originally designed as a weapon, is by reason of the date of its manufacture, value, design, and other characteristics primarily a collector's item and is not likely to be used as a weapon. A person who desires to obtain a determination under that provision of law shall follow the procedures prescribed in § 179.24 relating to destructive device determinations, and shall include information as to date of manufacture, value, design and other characteristics which would sustain a finding that the firearm or device is primarily a collector's item and is not likely to be used as a weapon.

Subpart D—Special (Occupational) Taxes

§ 179.31 Liability for tax.

Every person who engages in the business of importing, manufacturing or dealing in (including pawnbrokers) firearms in the United States is required to pay a special (occupational) tax for each place where such business is conducted.

§ 179.32 Special (occupational) tax rates.

(a) The special (occupational) taxes are as follows:

	Per year or fraction thereof
Class 1—Importer of firearms	$500
Class 2—Manufacturer of firearms	500
Class 3—Dealer in firearms	200
Class 4—Importer only of weapons classified as "any other weapon"	25
Class 5—Manufacturer only of weapons classified as "any other weapon"	25
Class 6—Dealer only in weapons classified as "any other weapon"	10

(b) The tax year begins July 1 and ends June 30. Special (occupational) taxes are due and payable on first engaging in business, and thereafter on or before the first day of July each year. Special (occupational) taxes may not be prorated. Persons commencing business at any time after the first day of July in any year are liable for the special (occupational) tax for the complete tax year.

§ 179.33 Special exemption.

(a) Any person required to pay special (occupational) tax under this part shall be relieved from payment of that tax if he establishes to the satisfaction of the Director that his business is conducted exclusively with, or on behalf of, the United States or any department, independent establishment, or agency thereof. The Director may relieve any person manufacturing firearms for or on behalf of the United States from compliance with any provision of this part in the conduct of the business with respect to such firearms.

(b) The exemption in this section may be obtained by filing with the Director an application, in letter form, setting out the manner in which the applicant conducts his business, the type of firearm to be manufactured, and proof satisfactory to the Director of the existence of the contract with the United States, department, independent establishment, or agency thereof, under which the applicant intends to operate.

§ 179.34 Registration, return, and payment of special (occupational) taxes.

(a) Each person, prior to commencing any business taxable under section 5801, I.R.C., shall, for each place of business operated by such person, register, file a return (Form 11) with, and pay the proper tax to, the District Director of the internal revenue district in which each such place of business is located, except that, where instructions on or relating to Form 11 so provide, Form 11 shall be filed with the Director of the Service Center serving the internal revenue district in which the place of business is located. Thereafter, such person shall, for each place of business, register, file a return (Form 11), and pay the proper tax on or before the 1st day of July each year during which he continues such business. If a person has paid special (occupational) taxes for a taxable year he will be furnished a return (Form 11) which shall be filled out and executed for registration and tax payment for the succeeding taxable year if that person intends to continue in business. Properly completing, executing, and timely filing of a return (Form 11) will constitute compliance with section 5802, I.R.C. A person doing business under a style or trade name shall give his own name, followed by his style or trade name. In the case of a partnership, unincorporated association, firm, or company, other than a corporation, its style or trade name shall be given, also the name of each member and his place of residence. In the case of a corporation, its style or trade name shall be given, also the name of each responsible officer and his place of residence. The class of business, as described in § 179.32, and the period for which special (occupational) tax is due, shall also be stated. The Form 11 shall be executed under penalties of perjury.

(b) Notwithstanding the provisions of this part relating to the filing of returns on Form 11 for special (occupational) tax, such returns which are required, by the instructions on the form or issued in respect thereof, to be filed with the Director of the Service Center and which are filed by hand carrying shall be filed with the District Director of the internal revenue district in which the taxpayer's business is located.

(68A Stat. 752, as amended; 26 U.S.C. 6091)

§ 179.35 Employer identification number.

(a) The employer identification number (defined at § 301.7701–12 of this chapter) of the taxpayer who has been assigned such a number shall be shown on each Form 11, including amended Form 11, filed pursuant to the provisions of this part. Failure of the taxpayer to include his employer identification number on Form 11 may result in assertion and collection of the penalty specified in § 301.6676–1 of this chapter.

(b) An employer identification number will be assigned pursuant to application on Form SS–4 filed by the taxpayer. Form SS–4 may be obtained from any District Director or any Director of a Service Center.

(c) An application on Form SS–4 for an employer identification number shall be made by every taxpayer who files a return on Form 11, but who prior to the filing of his first return on Form 11 has neither secured an employer identification number nor made application therefor. Such application on Form SS–4 shall be filed on or before the seventh day after the date on which such first return on Form 11 is filed.

(d) Each taxpayer shall make application for and shall be assigned only one employer identification number, regardless of the number of places of business for which the taxpayer is required to file Form 11. This same number is used for all internal revenue purposes requiring the use of a taxpayer identification number.

(e) The application on Form SS–4, together with any supplementary statement, shall be prepared in accordance with the form, instructions, and regulations applicable thereto, and shall set forth fully and clearly the data therein called for. The application shall be filed with the District Director of any internal revenue district in which the taxpayer operates a business subject to special tax, except that, where the instructions on or relating to Form SS–4 so provide, Form SS–4 shall be filed with the Director of the Service Center serving such district. The application shall be signed by (1) the individual, if the person is an individual; (2) the president, vice president, or other principal officer, if the person is a corporation; (3) a responsible and duly authorized member or officer having knowledge of its affairs, if the person is a partnership or other unincorporated organization; or (4) the fiduciary, if the person is a trust or estate.

(75 Stat. 828; 26 U.S.C. 6109, 6676)

§ 179.36 The special tax stamp, receipt for special (occupational) taxes.

Upon filing a properly completed and executed return (Form 11) accompanied by remittance of the full amount due, the taxpayer will be issued a special tax stamp as evidence of payment of the special (occupational) tax.

§ 179.37 Certificates in lieu of stamps lost or destroyed.

When a special tax stamp has been lost or destroyed, such fact should be reported immediately to the Director of the Service Center who issued the stamp. A certificate in lieu of the lost or destroyed stamp will be issued to the taxpayer upon the submission of an affidavit showing to the satisfaction of the Director of the Service Center that the stamp was lost or destroyed.

§ 179.38 Engaging in business at more than one location.

A person shall pay the special (occupational) tax for each location where he engages in any business taxable under section 5801, I.R.C. However, a person paying a special (occupational) tax covering his principal place of business may utilize other locations solely for storage of firearms without incurring special (occupational) tax liability at such locations. A manufacturer, upon the single payment of the appropriate special (occupational) tax, may sell firearms of the type(s) covered by such tax, if such firearms are of his own manufacture, at the place of manufacture and at his principal office or place of business if no such firearms, except samples, are kept at such office of place of business. When a person changes the location of a business for which he has paid the special (occupational) tax, he will be liable for another such tax unless the change is properly registered with the Director of the Service Center serving the internal revenue district in which the special tax stamp was issued, as provided in § 179.46.

§ 179.39 Engaging in business at the same location.

If more than one business taxable under section 5801, I.R.C., is carried on at the same location during a taxable year, the special (occupational) tax imposed on each such business must be paid. This section does not require a qualified manufacturer or importer to qualify as a dealer if such manufacturer or importer also engages in business on his qualified premises as a dealer. However, a qualified manufacturer who engages in business as an importer must also qualify as an importer. Further, a qualified dealer is not entitled to engage in business as a manufacturer or importer. Also, one qualified to manufacture, for example, only "any other weapons" shall not be qualified to manufacture or deal in other categories of firearms. Conversely, a person qualified, for example, to manufacture all firearms may manufacture and deal in firearms in the "any other weapons" category.

§ 179.40 Partnership liability.

Any number of persons doing business in partnership at any one location shall be required to pay but one special (occupational) tax.

§ 179.41 Single sale.

A single sale, unattended by circumstances showing the one making the sale to be engaged in business, does not create special (occupational) tax liability.

CHANGE OF OWNERSHIP

§ 179.42 Changes through death of owner.

Whenever any person who has paid special (occupational) tax dies, the surviving spouse or child, or executors or administrators, or other legal representatives, may carry on such business for the remainder of the term for which tax has been paid and at the place for which the tax was paid without any additional payment, subject to the conditions hereinafter stated. If the surviving spouse or child, or executor or administrator, or other legal representative of the deceased taxpayer continues the business, such person shall, within 30 days after the date on which the successor begins to carry on the business, file a new return, Form 11, with the Director of the Service Center serving the internal revenue district in which the business is located. The return thus executed shall show the name of the original taxpayer, together with the basis of the succession. (As to liability in case of failure to register, see § 179.49.)

§ 179.43 Changes through bankruptcy of owner.

A receiver or referee in bankruptcy may continue the business under the stamp issued to the taxpayer at the place and for the period for which the tax was paid. An assignee for the benefit of creditors may continue business under his assignor's special tax stamp without incurring additional special (occupational) tax liability. In such cases, the change shall be registered with the Director of the Service Center serving the internal revenue district in which the business is located in a manner similar to that required by § 179.42.

§ 179.44 Change in partnership or unincorporated association.

When one or more members withdraw from a partnership or an unincorporated association, the remaining member, or members, may, without incurring additional special (occupational) tax liability, carry on the same business at the same location for the balance of the taxable period for which special (occupational) tax was paid, provided any such change shall be registered in the same manner as required by § 179.42. Where new member(s) are taken into a partnership or an unincorporated association, the new firm so constituted may not carry on business under the special tax stamp of the old firm. The new firm must file a return, pay the special (occupational) tax and register in the same manner as a person who first engages in business is required to do under § 179.34 even though the name of the new firm may be the same as that of the old. Where the members of a partnership or an unincorporated association, which has paid special (occupational) tax, form a corporation to continue the business, a new special tax stamp must be taken out in the name of the corporation.

§ 179.45 Changes in corporation.

Additional special (occupational) tax is not required by reason of a mere change of name or increase in the capital stock of a corporation if the laws of the State of incorporation provide for such change or increase without the formation of a new corporation. A stockholder in a corporation who after its dissolution continues the business, incurs new special (occupational) tax liability.

CHANGE OF BUSINESS LOCATION

§ 179.46 Notice by taxpayer.

Whenever during the taxable year a taxpayer intends to remove his business to a location other than specified in his last special (occupational) tax return (see § 179.34), he shall file with the Director of the Service Center serving the internal revenue district in which the special tax stamp was issued (a) a return, Form 11, bearing the notation "Removal Registry," and showing the new address intended to be used, (b) his current special tax stamp, and (c) a letter application requesting the amendment of his registration. The Director of the Service Center, upon approval of the application, shall return the special tax stamp, amended to show the new business location. Firearms operations shall not be commenced at the new business location by the taxpayer prior to the required approval of his application to so change his business location.

CHANGE OF TRADE NAME

§ 179.47 Notice by taxpayer.

Whenever during the taxable year a taxpayer intends to change the name of his business, he shall file with the Director of the Service Center serving the internal revenue district in which the special tax stamp was issued (a) a return, Form 11, bearing the notation "Amended," and showing the trade name intended to be used, (b) his current special tax stamp, and (c) a letter application requesting the amendment of his registration. The Director of the Service Center, upon approval of the application, shall return the special tax stamp, amended to show the new trade name. Firearms operations shall not be commenced under the new trade name by the taxpayer prior to the required approval of his application to so change the trade name.

PENALTIES AND INTEREST

§ 179.48 Failure to pay special (occupational) tax.

Any person who engages in a business taxable under section 5801, I.R.C., without timely payment of the tax imposed with respect to such business (see § 179.34), shall be liable for such tax, plus the interest and penalties thereon (see sections 6601 and 6651 I.R.C.). In addition, such person may be liable for criminal penalties under section 5871, I.R.C.

§ 179.49 Failure to register change or removal.

Any person succeeding to and carrying on a business for which special (occupational) tax has been paid without registering such change within 30 days thereafter, and any taxpayer removing his business with respect to which special (occupational) tax has been paid to a place other than that for which tax was paid without obtaining approval therefor (see § 179.46), will incur liability to an additional payment of the tax, addition to tax and interest, as provided in sections 5801, 6651, and 6601, respectively, I.R.C., for failure to make return (see § 179.50), or pay tax, as well as criminal penalties for carrying on business without payment of special (occupational) tax (see section 5871 I.R.C.).

§ 179.50 Delinquency.

Any person liable for special (occupational) tax under section 5801, I.R.C., who fails to file a return (Form 11), as prescribed, will be liable for a delinquency penalty computed on the amount of tax due unless a return (Form 11) is later filed and failure to file the return timely is shown to the satisfaction of the District Director or the Director of the Service Center, whichever is designated to receive the return (Form 11), to be due to reasonable cause. The delinquency penalty to be added to the tax is 5 percent if the failure is for not more than 1 month, with an additional 5 percent for each additional month or fraction thereof during which failure continues, not to exceed 25 percent in the aggregate (section 6651, I.R.C.). However, no delinquency penalty is assessed where the 50 percent addition to tax is assessed for fraud (see § 179.51).

§ 179.51 Fraudulent return.

If any part of any underpayment of tax required to be shown on a return is due to fraud, there shall be added to the tax an amount equal to 50 percent of the underpayment, but no delinquency penalty shall be assessed with respect to the same underpayment (section 6653, I.R.C.).

APPLICATION OF STATE LAWS

§ 179.52 State regulations.

Special tax stamps are merely receipts for the tax. Payment of tax under Federal law confers no privilege to act contrary to State law. One to whom a special tax stamp has been issued may still be punishable under a State law prohibiting or controlling the manufacture, possession or transfer of firearms. On the other hand, compliance with State law confers no immunity under Federal law. Persons who engage in the business of importing, manufacturing or dealing in firearms, in violation of the law of a State, are nevertheless required to pay special (occupational) tax as imposed under the internal revenue laws of the United States. For provisions relating to restrictive use of information furnished to comply with the provisions of this part see § 179.23.

Subpart E—Tax on Making Firearms

§ 179.61 Rate of tax.

Except as provided in this subpart, there shall be levied, collected, and paid upon the making of a firearm a tax at the rate of $200 for each firearm made. This tax shall be paid by the person making the firearm. Payment of the tax on the making of a firearm shall be represented by a $200 adhesive stamp bearing the words "National Firearms Act."

APPLICATION TO MAKE A FIREARM

§ 179.62 Application to make.

No person shall make a firearm unless he has filed with the Director a written application on Form 1 (Firearms), Application to Make and Register a Firearm in duplicate, executed under the penalties of perjury, to make and register the firearms and has received the approval of the Director to make the firearm which approval shall effectuate registration of the weapon to the applicant. The application shall identify the firearm to be made by serial number, type, model, caliber or gauge, length of barrel, other marks of identification, and the name and address of original manufacturer (if he is not the original manufacturer). The applicant must identify himself on the Form 1 (Firearms) by name and address and, if other than a natural person, the name and address of the principal officer or authorized representative and the employer identification number and, if an individual, the identification must include the date and place of birth and the social security number of the applicant and the information prescribed in § 179.63. Each applicant shall identify the Federal firearms license and special (occupational) tax stamp issued to him, if any. The applicant also shall show required information evidencing that his making or possession of the firearms would not be in violation of law. Further, the applicant shall show why he intends to make the firearm. A National Firearms Act stamp (see § 179.61) must be affixed to the original application in the space provided therefor and properly canceled (see § 179.67) if the making is taxable. If the making of the firearm is tax exempt under this part, an explanation of the basis of the exemption shall be attached to the Form 1 (Firearms). Form 1 (Firearms) and appropriate tax stamp may be obtained from any District Director of Internal Revenue.

§ 179.63 Identification of applicant.

If the applicant is an individual, he shall attach to each copy of the Form 1 (Firearms) a properly executed Form 4539, Identification of Transferee or Maker of Firearm, containing an individual photograph of himself, taken within 1 year prior to the date of such application, and his fingerprints. The fingerprints must be clear for accurate classification and should be taken by someone properly equipped to take them. The application must be supported by a certificate of the local chief of police, sheriff of the county, United States attorney, United States marshal, or such other person whose certificate may in a particular case be acceptable to the Director, certifying that he is satisfied that the fingerprints and photograph appearing on the application are those of the applicant and that he has no information indicating that the possession of the firearm by the maker would be in violation of State or local law or that the maker will use the firearm for other than lawful purposes.

§ 179.64 Procedure for approval of application.

The application to make a firearm, Form 1 (Firearms), must be forwarded directly, in duplicate, by the maker of the firearm to the Director. The Director will consider the application for approval or disapproval. If the application is approved, the Director will return the original thereof to the maker of the firearm and retain the duplicate. Upon receipt of the approved application, the maker is authorized to make the firearm described therein. The maker of the firearm shall not, under any circumstances, make the firearm until the application, satisfactorily executed, with the "National Firearms Act" stamp attached, has been forwarded to the Director and has been approved and returned by him. If the application is disapproved, the original Form 1 (Firearms) with the "National Firearms Act" stamp attached thereto will be returned to the applicant with the reasons for disapproval stated on the form, and tax will be refunded as provided in § 179.172.

§ 179.65 Denial of application.

An application to make a firearm shall not be approved by the Director if the making or possession of the firearm would place the person making the firearm in violation of law.

§ 179.66 Subsequent transfer of firearms.

Where a firearm which has been made in compliance with section 5821, I.R.C., and the regulations contained in this part, is to be transferred subsequently, the transfer provisions of the firearms laws and regulations must be complied with. (See Subpart F of this part).

§ 179.67 Cancellation of stamp.

The person affixing to a Form 1 (Firearms) a "National Firearms Act" stamp shall cancel it by writing or stamping thereon, in ink, his initials, and the day, month and year, in such manner as to render it unfit for reuse. The cancellation shall not so deface the stamp as to prevent its denomination and genuineness from being readily determined.

EXCEPTIONS TO TAX ON MAKING FIREARMS

§ 179.68 Qualified manufacturer.

A manufacturer qualified under this part to engage in such business may make the type of firearm which he is qualified to manufacture without payment of the making tax. However, such manufacturer shall report and register each firearm made in the manner prescribed by this part.

§ 179.69 Making a firearm for the United States.

A firearm may be made by, or on behalf of, the United States or any department, independent establishment, or agency thereof without payment of the making tax. However, if a firearm is to be made on behalf of the United States, the maker must file an application, in duplicate, on Form 1 (Firearms) and obtain the approval of the Director in the manner prescribed in § 179.62.

§ 179.70 Certain government entities.

A firearm may be made without payment of the making tax by, or on behalf of, any State, or possession of the United States, any political subdivision thereof, or any official police organization of such a government entity engaged in criminal investigations. Any person making a firearm under this exemption shall first file an application, in duplicate, on Form 1 (Firearms) and obtain the approval of the Director as prescribed in § 179.62.

REGISTRATION

§ 179.71 Proof of registration.

The approval by the Director of an application, Form 1 (Firearms), to make a firearm under this subpart shall effectuate registration of the firearm described in the Form 1 (Firearms) to the person making the firearm. The original Form 1 (Firearms) showing approval by the Director shall be retained by the maker to establish proof of his registration of the firearm described therein, and shall be made available to any internal revenue officer on request.

Subpart F—Transfer Tax

§ 179.81 Scope of tax.

Except as otherwise provided in this part, each transfer of a firearm in the United States is subject to a tax to be represented by an adhesive stamp of the proper denomination bearing the words "National Firearms Act" to be affixed to the Form 4 (Firearms), Application for Transfer and Registration of Firearm, as provided in this subpart.

§ 179.82 Rate of tax.

The transfer tax imposed with respect to firearms transferred within the United States is at the rate of $200 for each firearm transferred, except that the transfer tax on any firearm classified as "any other weapon" shall be at the rate of $5 for each such firearm transferred. The tax imposed on the transfer of the firearm shall be paid by the transferor.

§ 179.83 Transfer tax in addition to import duty.

The transfer tax imposed by section 5811, I.R.C., is in addition to any import duty.

APPLICATION AND ORDER FOR TRANSFER OF FIREARM

§ 179.84 Application to transfer.

Except as otherwise provided in this subpart, no firearm may be transferred

in the United States unless an application, Form 4 (Firearms), Application for Transfer and Registration of Firearm, in duplicate, executed under the penalties of perjury to transfer the firearm and register it to the transferee has been filed with and approved by the Director. The application, Form 4 (Firearms), shall be filed by the transferor and shall identify the firearm to be transferred by type; serial number; name and address of the manufacturer and importer, if known; model; caliber, gauge or size; in the case of a short-barreled shotgun or a short-barreled rifle, the length of the barrel; in the case of a weapon made from a rifle or shotgun, the overall length of the weapon and the length of the barrel; and any other identifying marks on the firearm. In the event the firearm does not bear a serial number, the applicant shall obtain a serial number from the Assistant Regional Commissioner and shall stamp (impress) or otherwise conspicuously place such serial number on the firearm in a manner not susceptible of being readily obliterated, altered or removed. The application, Form 4 (Firearms), shall identify the transferor by name and address; shall identify the transferor's Federal firearms license and special (occupational) tax stamp, if any; and if the transferor is other than a natural person, shall show the title or status of the person executing the application. The application also shall identify the transferee by name and address, and, if the transferee is a natural person not qualified as a manufacturer, importer or dealer under this part, he shall be further identified in the manner prescribed in § 179.85. The application also shall identify the special (occupational) tax stamp and Federal firearms license of the transferee, if any. Any tax payable on the transfer must be represented by an adhesive stamp of proper denomination being affixed to the application, Form 4 (Firearms), properly cancelled. Form 4 (Firearms) and appropriate tax stamp may be obtained from any District Director of Internal Revenue.

§ 179.85 Identification of transferee.

If the transferee is an individual, he shall attach to each copy of the application, Form 4 (Firearms), a properly executed Form 4539, Identification of Transferee or Maker of Firearm, containing an individual photograph of himself, taken within one year prior to the date of such application, and shall affix his fingerprints to the form. The fingerprints must be clear for accurate classification and should be taken by someone properly equipped to take them. The Form 4539 must be supported by a certificate of the local chief of police, sheriff of the county, U.S. attorney, U.S. marshal or such other person whose certificate may in a particular case be acceptable to the Director certifying that he is satisfied that the fingerprints and photograph appearing on the Form 4539 are those of the transferee and that he has no information indicating that the receipt or possession of the firearm would place the transferee in violation of State or local law or that the transferee will use the firearm for other than lawful purposes.

§ 179.86 Action on application.

The Director will consider a completed and properly executed application, Form 4 (Firearms), to transfer a firearm. If the application is approved, the Director will return the original thereof showing approval to the transferor who may then transfer the firearm to the transferee along with the approved application. The approval of an application, Form 4 (Firearms), by the Director will effectuate registration of the firearm to the transferee. The transferee shall not take possession of a firearm until the application, Form 4 (Firearms), for the transfer filed by the transferor has been approved by the Director and registration of the firearm is effectuated to the transferee. The transferee shall retain the approved application as proof that the firearm described therein is registered to him, and shall make the approved Form 4 (Firearms) available to any internal revenue officer on request. If the application, Form 4 (Firearms), to transfer a firearm is disapproved by the Director, the original application will be returned to the transferor with reasons for the disapproval stated on the application, and any tax paid will be refunded as provided in § 179.172. An application, Form 4 (Firearms), to transfer a firearm shall be denied if the transfer, receipt, or possession of a firearm would place the transferee in violation of law.

§ 179.87 Cancellation of stamp.

The method of cancellation of the stamp required by this subpart as prescribed in § 179.67 shall be used.

EXEMPTIONS RELATING TO TRANSFERS OF FIREARMS

§ 179.88 Special (occupational) taxpayers.

(a) A firearm registered to a person qualified under this part to engage in business as an importer, manufacturer, or dealer may be transferred by that person without payment of the transfer tax to any other person qualified under this part to manufacture, import or deal in that type of firearm.

(b) The exemption provided in paragraph (a) of this section shall be obtained by the transferor of the firearm filing with the Director an application, Form 3 (Firearms), Application for Tax-exempt Transfer of Firearm and Registration to Special (Occupational) Taxpayer, in duplicate, executed under the penalties of perjury. The application, Form 3 (Firearms), shall (1) show the name and address of the transferor and of the transferee, (2) identify the Federal firearms license and special (occupational) tax stamp of the transferor and of the transferee, (3) show the name and address of the manufacturer and the importer of the firearm, if known, (4) show the type, model, overall length (if applicable), length of barrel, caliber, gauge or size, serial number, and other marks of identification of the firearm, and (5) contain a statement by the transferor that he is entitled to the exemption because the transferee is a person qualified under this part to manufacture, import or deal in the type of firearm to be transferred. If the Director approves an application, Form 3 (Firearms), he shall return the original Form 3 (Firearms) to the transferor with the approval noted thereon. Approval of an application, Form 3 (Firearms), by the Director shall remove registration of the firearm reported thereon from the transferor and shall effectuate the registration of that firearm to the transferee. Upon receipt of the approved Form 3 (Firearms), the transferor shall deliver same with the firearm to the transferee. The transferor shall not transfer the firearm to the transferee until his application, Form 3 (Firearms), has been approved by the Director and the original thereof has been returned to the transferor. If the Director disapproves the application, Form 3 (Firearms), he shall return the original Form 3 (Firearms) to the transferor with the reasons for the disapproval stated thereon.

(c) The transferor shall be responsible for establishing the exempt status of the transferee before making a transfer under the provisions of this section. Therefore, before engaging in transfer negotiations with the transferee, the transferor should satisfy himself as to the claimed exempt status of the transferee and the bona fides of the transaction. If not fully satisfied, the transferor should communicate with the Director, report all circumstances regarding the proposed transfer, and await the Director's advice before making application for the transfer. An unapproved transfer or a transfer to an unauthorized person may subject the transferor to civil and criminal liabilities. (See sections 5852, 5861, and 5871 I.R.C.)

§ 179.89 Transfers to the United States.

A firearm may be transferred to the United States or any department, independent establishment or agency thereof without payment of the transfer tax. However, the procedures for the transfer of a firearm as provided in § 179.90 shall be followed in a tax-exempt transfer of a firearm under this section, unless the transferor is relieved of such requirement under other provisions of this part.

§ 179.90 Certain government entities.

(a) A firearm may be transferred without payment of the transfer tax to any State, possession of the United States, any political subdivision thereof, or any official police organization of such a government entity engaged in criminal investigations.

(b) The exemption provided in paragraph (a) of this section shall be obtained by the transferor of the firearm filing with the Director an application, Form 5 (Firearms), Application for Tax-exempt Transfer and Registration of Firearm, in duplicate, executed under the penalties of perjury. The application shall (1) show the name and address of the transferor and of the transferee, (2) identify the Federal firearms license and special (occupational) tax stamp, if any, of the transferor and of the transferee, (3) show the name and address of the manufacturer and the importer of the firearm, if known, (4) show the type, model, overall length (if applicable), length of barrel, caliber, gauge or size, serial number, and other marks of identification of the firearm, and (5) contain a statement by the transferor that he is entitled to the exemption because the transferee is a governmental entity coming within the purview of paragraph (a) of this section. If the Director approves an application, Form 5 (Firearms), he shall return the original Form 5 (Firearms) to the transferor with the approval noted thereon. Approval of an application, Form 5 (Firearms), by the Director shall effectuate the registration of that firearm to the transferee. Upon receipt of the approved Form 5 (Firearms), the transferor shall deliver same with the firearm to the transferee. The transferor shall not transfer the firearm to the transferee until his application, Form 5 (Firearms), has been approved by the Director and the original thereof has been returned to the transferor. If the Director disapproves the application, Form 5 (Firearms), he shall return the original Form 5 (Firearms) to the transferor with the reasons for the disapproval stated thereon.

(c) The transferor shall be responsible for establishing the exempt status of the transferee before making a transfer under the provisions of this section. Therefore, before engaging in transfer negotiations with the transferee, the transferor should satisfy himself of the claimed exempt status of the transferee and the bona fides of the transaction. If not fully satisfied, the transferor should communicate with the Director, report all circumstances regarding the proposed transfer, and await the Director's advice before making application for transfer. An unapproved transfer or a transfer to an unauthorized person may subject the transferor to civil and criminal liabilities. (See sections 5852, 5861, and 5871 I.R.C.)

§ 179.91 Unserviceable firearms.

An unserviceable firearm may be transferred as a curio or ornament without payment of the transfer tax. However, the procedures for the transfer of a firearm as provided in § 179.90 shall be followed in a tax-exempt transfer of a firearm under this section, except a statement shall be entered on the transfer application, Form 5 (Firearms), by the transferor that he is entitled to the exemption because the firearm to be transferred is unserviceable and is being transferred as a curio or ornament. An unapproved transfer, the transfer of a firearm under the provisions of this section which is in fact not an unserviceable firearm, or the transfer of an unserviceable firearm as something other than a curio or ornament, may subject the transferor to civil and criminal liabilities. (See sections 5811, 5852, 5861, and 5871 I.R.C.)

§ 179.92 Transportation of firearms to effect transfer.

Notwithstanding any provision of § 178.28 of this chapter, it shall not be required that authorization be obtained from any Assistant Regional Commissioner for the transportation in interstate or foreign commerce of a firearm in order to effect the transfer of a firearm authorized under the provisions of this subpart.

OTHER PROVISIONS

§ 179.93 Transfers of firearms to certain persons.

Where the transfer of a destructive device, machine gun, short-barreled shotgun, or short-barreled rifle is to be made by a person licensed under the provisions of Title I of the Gun Control Act of 1968 (82 Stat. 1213) to a person not so licensed, the sworn statement required by § 178.98 of this chapter shall be attached to and accompany the transfer application required by this subpart.

Subpart G—Registration and Identification of Firearms

§ 179.101 Registration of firearms.

(a) The Director shall maintain a central registry of all firearms in the United States which are not in the possession of or under the control of the United States. This registry shall be known as the National Firearms Registration and Transfer Record and shall include:

(1) Identification of the firearm as required by this part;

(2) Date of registration; and

(3) Identification and address of person entitled to possession of the firearm as required by this part.

(b) Each manufacturer, importer, and maker shall register each firearm he manufactures, imports, or makes in the manner prescribed by this part. Each firearm transferred shall be registered to the transferee by the transferor in the manner prescribed by this part. No firearm may be registered by a person unlawfully in possession of the firearm except during an amnesty period established under section 207 of the Gun Control Act of 1968 (82 Stat. 1235).

(c) A person shown as possessing firearms by the records maintained by the Director pursuant to the National Firearms Act (Chapter 53, I.R.C.) in force on October 31, 1968, shall be considered to have registered the firearms in his possession which are disclosed by that record as being in his possession on October 31, 1968.

(d) The National Firearms Registration and Transfer Record shall include firearms registered to the possessors thereof under the provisions of section 207 of the Gun Control Act of 1968.

(e) A person possessing a firearm registered to him shall retain proof of registration which shall be made available to any internal revenue officer upon request.

(f) A firearm not identified as required by this part shall not be registered.

§ 179.102 Identification of firearms.

Each manufacturer, importer, or maker of a firearm shall legibly identify it by engraving, casting, stamping (impressing), or otherwise conspicuously placing or causing to be engraved, cast, stamped (impressed) or placed on the frame or receiver thereof in a manner not susceptible of being readily obliterated, altered, or removed, an individual serial number not duplicating any serial number placed by the manufacturer, importer, or maker on any other firearm, and by engraving, casting, stamping (impressing), or otherwise conspicuously placing or causing to be engraved, cast, stamped (impressed), or placed on the frame, receiver, or barrel thereof in a manner not susceptible of being readily obliterated, altered or removed, the model, if such designation has been made; the caliber or gauge; the name (or recognized abbreviation of same) of the manufacturer, or maker, and also, when applicable, of the importer; in the case of a domestically made firearm, the city and State (or recognized abbreviation thereof) wherein the manufacturer or importer maintains his place of business, or the maker made the firearm; and in the case of an imported firearm, the name of the country in which manufactured and the city and State (or recognized abbreviation thereof) of the importer: *Provided*, That the Director may authorize other means of identification of the manufacturer, importer, or maker upon receipt of letter application, in duplicate, from same showing that such other identification is reasonable and will not hinder the effective administration of this part: *Provided, further*, That in the case of a destructive device, the Director may authorize other means of identifying that weapon upon receipt of letter application, in duplicate, from the manufacturer, importer, or maker showing that engraving, casting, or stamping (impressing) such a weapon would be dangerous or impracticable. A firearm frame or receiver which is not a component part of a complete weapon at the time it is sold, shipped, or otherwise disposed of by a manufacturer, importer, or maker, shall be identified as required by this section.

§ 179.103 Registration of firearms manufactured.

Each manufacturer qualified under this part shall file with the Director an accurate notice on Form 2 (Firearms), Notice of Firearms Manufactured or Imported, executed under the penalties of perjury, to show his manufacture of firearms. The notice shall set forth the name and address of the manufacturer, identify his special (occupational) tax stamp and Federal firearms license, and show

the date of manufacture, the type, model, length of barrel, overall length, caliber, gauge or size, serial numbers, and other marks of identification of the firearms he manufactures, and the place where the manufactured firearms will be kept. All firearms manufactured by him during a single day shall be included on one notice, Form 2 (Firearms), filed by the manufacturer no later than the close of the next business day. The manufacturer shall prepare the notice, Form 2 (Firearms), in duplicate, file the original notice as prescribed herein and keep the copy with the records required by Subpart I of this part at the premises covered by his special (occupational) tax stamp. Receipt of the notice, Form 2 (Firearms), by the Director shall effectuate the registration of the firearms listed on that notice. The requirements of this part relating to the transfer of a firearm are applicable to transfers by qualified manufacturers.

§ 179.104 Registration of firearms by certain governmental entities.

Any State, any political subdivision thereof, or any official police organization of such a government entity engaged in criminal investigations, which acquires for official use a firearm not registered to it, such as by abandonment or by forfeiture, will register such firearm with the Director by filing Form 10 (Firearms), Registration of Firearms Acquired by Certain Governmental Entities, and such registration shall become a part of the National Firearms Registration and Transfer Record. The application shall identify the applicant, describe each firearm covered by the application, show the location where each firearm usually will be kept, and, if the firearm is unserviceable, the application shall show how the firearm was made unserviceable. This section shall not apply to a firearm merely being held for use as evidence in a criminal proceeding. The Form 10 (Firearms) shall be executed in duplicate in accordance with the instructions thereon. Upon registering the firearm, the Director shall return the original Form 10 (Firearms) to the registrant with notification thereon that registration of the firearm has been made.

Subpart H—Importation and Exportation

IMPORTATION

§ 179.111 Procedure.

(a) No firearm shall be imported or brought into the United States or any territory under its control or jurisdiction unless the person importing or bringing in the firearm establishes to the satisfaction of the Director that the firearm to be imported or brought in is being imported or brought in for:

(1) The use of the United States or any department, independent establishment, or agency thereof or any State or possession or any political subdivision thereof; or

(2) Scientific or research purposes; or

(3) Testing or use as a model by a registered manufacturer or solely for use as a sample by a registered importer or registered dealer.

The burden of proof is affirmatively on any person importing or bringing the firearm into the United States or any territory under its control or jurisdiction to show that the firearm is being imported or brought in under one of the above subparagraphs. Any person desiring to import or bring a firearm into the United States under this paragrah shall file with the Director an application on Form 6 (Firearms), Application and Permit for Importation of Firearms, Ammunition and Implements of War, in triplicate, executed under the penalties of perjury. The application shall show the information required by Subpart G of Part 178 of this chapter. A detailed explanation of why the importation of the firearm falls within the standards set out in this paragraph shall be attached to the application. The person seeking to import or bring in the firearm will be notified of the approval or disapproval of his application. If the application is approved, the original Form 6 (Firearms) will be returned to the applicant showing such approval and he will present the approved application, Form 6 (Firearms), to the Customs officer at the port of importation. The approval of an application to import a firearm shall be automatically terminated at the expiration of six (6) months from the date of approval unless, upon request, it is further extended by the Director. If the firearm described in the approved application is not imported prior to the expiration of the approval, the Director shall be so notified. Customs officers will not permit release of a firearm from Customs custody, except for exportation, unless covered by an application which has been approved by the Director and which is currently effective. The importation or bringing in of a firearm not covered by an approved application may subject the person responsible to civil and criminal liabilities. (See sections 5861, 5871 and 5872 I.R.C.)

(b) Part 178 of this chapter also contains requirements and procedures for the importation of firearms into the United States. A firearm may not be imported into the United States under this part unless those requirements and procedures are also complied with by the person importing the firearm.

(c) The provisions of this subpart shall not be construed as prohibiting the return to the United States or any territory under its control or jurisdiction of a firearm by a person who can establish to the satisfaction of Customs that (1) the firearm was taken out of the United States or any territory under its control or jurisdiction by such person, (2) the firearm is registered to that person, and (3) if appropriate, the authorization required by Part 178 of this chapter for the transportation of such a firearm in interstate or foreign commerce has been obtained by such person.

§ 179.112 Registration of imported firearms.

(a) Each importer shall file with the Director an accurate notice on Form 2 (Firearms), Notice of Firearms Manufactured or Imported, executed under the penalties of perjury, showing his importation of a firearm. The notice shall set forth the name and address of the importer, identify his special (occupational) tax stamp and Federal firearms license, and show the date of release from Customs custody, the type, model, length of barrel, overall length, caliber, gauge or size, serial number, and other marks of identification of the firearm imported, and the place where the imported firearm will be kept. The Form 2 (Firearms) covering an imported firearm shall be filed by the importer no later than fifteen (15) days from the date the firearm was released from Customs custody. The importer shall prepare the notice, Form 2 (Firearms), in duplicate, file the original return as prescribed herein, and keep the copy with the records required by Subpart I of this part at the premises covered by his special (occupational) tax stamp. The timely receipt by the Director of the notice, Form 2 (Firearms), and the timely receipt by the Assistant Regional Commissioner of the copy of Form 6A (Firearms), Release and Receipt of Imported Firearms, Ammunition and Implements of War, required by § 178.112 of this chapter, covering the weapon reported on the Form 2 (Firearms) by the qualified importer, shall effectuate the registration of the firearm to the importer.

(b) The requirements of this part relating to the transfer of a firearm are applicable to the transfer of imported firearms by a qualified importer or any other person.

§ 179.113 Conditional importation.

The Director may permit the conditional importation or bringing into the United States of any firearm for the purpose of examining and testing the firearm in connection with making a determination as to whether the importation or bringing in of such firearm will be authorized under this subpart. An application under this section shall be filed, in triplicate, with the Director. The Director may impose conditions upon any importation under this section including a requirement that the firearm be shipped directly from Customs custody to the Director and that the person importing or bringing in the firearm must agree to either export the weapon or destroy it if a final determination is made that it may not be imported or brought in under this subpart. A firearm so imported or brought into the United States may be released from Customs custody in the manner prescribed by the conditional authorization of the Director.

EXPORTATION

§ 179.114 Application and permit for exportation of firearms.

Any person desiring to export a firearm without payment of the transfer tax must file with the Director an application on Form 9 (Firearms), Application and Permit for Exportation of Firearms, in quadruplicate, for a permit providing for deferment of tax liability. Part 1 of the application shall show the name and address of the foreign consignee, number of firearms covered by the application, the intended port of exportation, a complete description of each firearm to be exported, the name, address, State Department license number (or date of application if not issued), and identification of the special (occupational) tax stamp of the transferor. Part 1 of the application shall be executed under the penalties of perjury by the transferor and shall be supported by a certified copy of a written order or contract of sale or other evidence showing that the firearm is to be shipped to a foreign designation. Where it is desired to make a transfer free of tax to another person who in turn will export the firearm, the transferor shall likewise file an application supported by evidence that the transfer will start the firearm in course of exportation, except, however, that where such transferor and exporter are registered special-taxpayers the transferor will not be required to file an application on Form 9 (Firearms).

§ 179.115 Action by Director.

If the application is acceptable, the Director will execute the permit, Part 2 of Form 9 (Firearms), to export the firearm described on the form and return three copies thereof to the applicant. Issuance of the permit by the Director will suspend assertion of tax liability for a period of six (6) months from the date of issuance. If the application is disapproved, the Director will indicate thereon the reason for such action and return the forms to the applicant.

§ 179.116 Procedure by exporter.

Shipment may not be made until the permit, Form 9 (Firearms), is received from the Director. If exportation is to be made by means other than by parcel post, two copies of the form must be addressed to the District Director of Customs at the port of exportation, and must precede or accompany the shipment in order to permit appropriate inspection prior to lading. If exportation is to be made by parcel post, one copy of the form must be presented to the postmaster at the office receiving the parcel who will execute Part 4 of such form and return the form to the exporter for transmittal to the Director. In the event exportation is not effected, all copies of the form must be immediately returned to the Director for cancellation.

§ 179.117 Action by Customs.

Upon receipt of a permit, Form 9 (Firearms), in duplicate, authorizing the exportation of firearms, the District Director of Customs may order such inspection as deemed necessary prior to lading of the merchandise. If satisfied that the shipment is proper and the information contained in the permit to export is in agreement with information shown in the shipper's export declaration, the District Director of Customs will, after the merchandise has been duly exported, execute the certificate of exportation (Part 3 of Form 9 (Firearms)). One copy of the form will be retained with the shipper's export declaration and the remaining copy thereof will be transmitted to the Director.

§ 179.118 Proof of exportation.

Within a six-month's period from date of issuance of the permit to export firearms, the exporter shall furnish or cause to be furnished to the Director (a) the certificate of exportation (Part 3 of Form 9 (Firearms)) executed by the District Director of Customs as provided in § 179.117, or (b) the certificate of mailing by parcel post (Part 4 of Form 9 (Firearms)) executed by the postmaster of the post office receiving the parcel containing the firearm, or (c) a certificate of lading executed by a Customs officer of the foreign country to which the firearm is exported, or (d) a sworn statement of the foreign consignee covering the receipt of the firearm, or (e) the return receipt, or a reproduced copy thereof, signed by the addressee or his agent, where the shipment of a firearm was made by insured or registered parcel post. Issuance of a permit to export a firearm and furnishing of evidence establishing such exportation under this section will relieve the actual exporter and the person selling to the exporter for exportation from transfer tax liability. Where satisfactory evidence of exportation of a firearm is not furnished within the stated period, the transfer tax will be assessed.

§ 179.119 Transportation of firearms to effect exportation.

Notwithstanding any provision of § 178.28 of this chapter, it shall not be required that authorization be obtained from any Assistant Regional Commissioner for the transportation in interstate or foreign commerce of a firearm in order to effect the exportation of a firearm authorized under the provisions of this subpart.

§ 179.120 Refunds.

Where, after payment of tax by the manufacturer, a firearm is exported, and satisfactory proof of exportation (see § 179.118) is furnished, a claim for refund may be submitted on Form 843 (see § 179.172). If the manufacturer waives all claim for the amount to be refunded, the refund shall be made to the exporter. A claim for refund by an exporter of tax paid by a manufacturer should be accompanied by waiver of the manufacturer and proof of tax payment by the latter.

§ 179.121 Insular possessions.

Transfers of firearms to persons in the insular possessions of the United States are exempt from transfer tax, provided title in cases involving change of title (and custody or control, in cases not involving change of title), does not pass to the transferee or his agent in the United States. However, such exempt transactions must be covered by approved permits and supporting documents corresponding to those required in the case of firearms exported to foreign countries (see §§ 179.114 and 179.115), except that the Director may vary the requirements herein set forth in accordance with the requirements of the governing authority of the insular possession. Shipments to the insular possessions will not be authorized without compliance with the requirements of the governing authorities thereof. In the case of a nontaxable transfer to a person in such insular possession, the exemption extends only to such transfer and not to prior transfers.

MUTUAL SECURITY ACT

§ 179.122 Requirements.

(a) Persons engaged in the business of importing firearms are required by the Mutual Security Act (22 U.S.C. 1934) to register with the Secretary of the Treasury. (See Part 180 of this chapter.)

(b) Persons engaged in the business of exporting firearms caliber .22 or larger are subject to the requirements of a license issued by the Secretary of State. Application for such license should be made to the Office of Munitions Control, Department of State, Washington, D.C. 20502, prior to exporting firearms.

Subpart I—Records and Returns

§ 179.131 Records.

For the purposes of this part, each manufacturer, importer, and dealer in firearms shall keep and maintain such records regarding the manufacture, importation, acquisition (whether by making, transfer, or otherwise), receipt, and disposition of firearms as are prescribed, and in the manner and place required, by Part 178 of this chapter. In addition, each manufacturer, importer, and dealer shall maintain, in chronological order, at his place of business a separate record consisting of the documents required by this part showing the registration of any firearm to him. If firearms owned or possessed by a manufacturer, importer, or dealer are stored or kept on premises other than the place of business shown on his special (occupational) tax stamp, the record establishing registration shall show where such firearms are stored or kept. The records required by this part shall be readily accessible for inspection at all reasonable times by internal revenue officers.

Subpart J—Stolen or Lost Firearms or Documents

§ 179.141 Stolen or lost firearms.

Whenever any registered firearm is stolen or lost, the person losing possession thereof will, immediately upon discovery of such theft or loss, make a report to the Director showing the following: (a) Name and address of the person in whose name the firearm is registered, (b) kind of firearm, (c) serial number, (d) model, (e) caliber, (f) manufacturer of the firearm, (g) date and place of theft or loss, and (h) complete statement of facts and circumstances surrounding such theft or loss.

§ 179.142 Stolen or lost documents.

When any Forms 1, 2, 3, 4, 5, 6A, or 10 (Firearms) evidencing possession of a firearm is stolen, lost, or destroyed, the person losing possession will immediately

upon discovery of the theft, loss, or destruction report the matter to the Director. The report will show in detail the circumstances of the theft, loss, or destruction and will include all known facts which may serve to identify the document. Upon receipt of the report, the Director will make such investigation as appears appropriate and may issue a duplicate document upon such conditions as the circumstances warrant.

Subpart K—Examination of Books and Records

§ 179.151 Failure to make returns: substitute returns.

If any person required by this part to make returns shall fail or refuse to make any such return within the time prescribed by this part or designated by the Director, then the return shall be made by an internal revenue officer upon inspection of the books, but the making of such return by an internal revenue officer shall not relieve the person from any default or penalty incurred by reason of failure to make such return.

(53 Stat. 437; 26 U.S.C. 6020)

§ 179.152 Penalties (records and returns).

Any person failing to keep records or make returns, or making, or causing the making of, a false entry on any application, return or record, knowing such entry to be false, is liable to fine and imprisonment as provided in section 5871, I.R.C.

Subpart L—Distribution and Sale of Stamps

§ 179.161 Orders for stamps.

Each order for stamps to be used under this part shall be made in writing to the District Director or his duly authorized agent in the internal revenue collection district in which the stamps are to be used, showing the date of the order, the number of "National Firearms Act" stamps applied for, and the name and address of the purchaser, and shall be signed in ink by the purchaser.

§ 179.162 Stamps authorized.

Adhesive stamps of the $5 and $200 denomination, bearing the words "National Firearms Act," have been prepared and distributed to District Directors, and only such stamps shall be used for the payment of the transfer tax and for the tax on the making of a firearm.

§ 179.163 Reuse of stamps prohibited.

A stamp once affixed to one document cannot lawfully be removed and affixed to another. Any person willfully reusing such a stamp shall be subject to the penalty prescribed by section 7208, I.R.C.

Subpart M—Redemption of or Allowance for Stamps or Refunds

§ 179.171 Redemption of or allowance for stamps.

Where a "National Firearms Act" stamp is destroyed, mutilated or rendered useless after purchase, and before liability has been incurred, such stamp may be redeemed by giving another stamp in lieu thereof. Claim for redemption of the stamp should be filed on Form 843. Such claim shall be accompanied by the stamp or by a satisfactory explanation of the reasons why the stamp cannot be returned, and shall be filed within 3 years after the purchase of the stamp. The claim shall be filed with the Director of the Service Center serving the internal revenue district in which the tax was paid. (For provisions relating to hand-carried documents and manner of filing, see §§ 301.6091-1(b) and 301.6402-2(a), respectively, of this chapter.)

(68A Stat. 830; 26 U.S.C. 6805)

§ 179.172 Refunds.

As indicated in this part, the transfer tax or tax on the making of a firearm is ordinarily paid by the purchase and affixing of stamps, while special tax stamps are issued in payment of special (occupational) taxes. However, in exceptional cases, transfer tax, tax on the making of firearms, and/or special (occupational) tax may be paid pursuant to assessment. Claims for refunds of such taxes, whether paid pursuant to assessment or voluntarily paid, shall be filed on Form 843 within 3 years next after payment of the taxes. Such claims shall be filed with the Director of the Service Center serving the internal revenue district in which the tax was paid. (For provisions relating to hand-carried documents and manner of filing, see §§ 301.6091-1(b) and 301.6402-2(a), respectively, of this chapter.)

(68A Stat. 808, 830; 26 U.S.C. 6511, 6805)

Subpart N—Penalties and Forfeitures

§ 179.181 Penalties.

Any person who violates or fails to comply with the requirements of Chapter 53, I.R.C., shall upon conviction, be subject to the penalties imposed under section 5871, I.R.C.

§ 179.182 Forfeitures.

Any firearm involved in any violation of the provisions of Chapter 53, I.R.C., shall be subject to seizure, and forfeiture under the internal revenue laws: *Provided, however,* That the disposition of forfeited firearms shall be in conformance with the requirements of section 5872, I.R.C. In addition, any vessel, vehicle or aircraft used to transport, carry, convey, or conceal or possess any firearm with respect to which there has been committed any violation of any provision of Chapter 53, I.R.C., or the regulations in this part issued pursuant thereto, shall be subject to seizure and forfeiture under the Customs laws, as provided by the act of August 9, 1939 (49 U.S.C. 781–788).

Subpart O—Other Laws Applicable

§ 179.191 Applicability of other provisions of internal revenue laws.

All of the provisions of the internal revenue laws not inconsistent with the provisions of Chapter 53, I.R.C., shall be applicable with respect to the taxes imposed by sections 5801, 5811, and 5821, I.R.C. (see section 5846, I.R.C.).

§ 179.192 Commerce in firearms and ammunition.

For provisions relating to commerce in firearms and ammunition, including the movement of destructive devices, machine guns, short-barreled shotguns, or short-barreled rifles, see 18 U.S.C., chapter 44, and Part 178 of this chapter issued pursuant thereto.

§ 179.193 Mutual Security Act.

For provisions relating to the registration and licensing of persons engaged in the business of manufacturing, importing or exporting arms, ammunition, or implements of war, see section 414 of the Mutual Security Act of 1954 (22 U.S.C. 1934), and the regulations issued pursuant thereto.

Title 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

SUBCHAPTER C—PUBLIC RELATIONS

PART 830—PROFESSIONAL ENTERTAINMENT PROGRAM IN OVERSEAS AREAS

PART 831—AWARDS TO ENTERTAINERS AND SPONSORS OF ENTERTAINMENT UNITS

Parts 830 and 831 are hereby deleted from Title 32 of the Code of Federal Regulations. The Air Force regulation on which it was based has been superseded by a joint regulation under which the Secretary of the Army acts as Executive Agent for Administration of the Armed Forces Professional Entertainment Program Overseas.

By order of the Secretary of the Air Force.

ALEXANDER J. PALENSCAR, Jr.,
Colonel, U.S. Air Force, Chief, Special Activities Group, Office of the Judge Advocate General.

Title 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

Whiskeytown Unit, Whiskeytown-Shasta-Trinity National Recreation Area, Calif.

A proposal was published on page 7143 of the FEDERAL REGISTER of April 15, 1971, to amend Part 7 of Title 36 of the Code of Federal Regulations to add § 7.91. The effect of this amendment is to insure the availability of water of quality adequate for resource management and domestic use, and to insure its return at the same level of quality for other users of the Central Valley Project.

Interested persons were given 30 days within which to submit written comments, suggestions, or objections with respect to the proposed amendment. Comments received were in support of this addition, and the proposed amendment is hereby adopted without change and is set forth below. This amendment shall take effect 30 days following the date of publication in the FEDERAL REGISTER.

Section 7.91 is added as follows:

§ 7.91 Whiskeytown Unit, Whiskeytown-Shasta-Trinity National Recreation Area.

(a) *Water sanitation.* (1) Vessels with marine toilets so constructed as to permit wastes to be discharged directly into the water shall have such facilities sealed to prevent discharge.

(2) Chemical or other type marine toilets with approved holding tanks or storage containers will be permitted, but will be discharged or emptied only at designated sanitary pumping stations.

(5 U.S.C. 553; 39 Stat. 535; 16 U.S.C. 3; 79 Stat. 1298; 16 U.S.C. 460q-3)

DANIEL J. TOBIN, Jr.,
Acting Director, Western Region.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 14H—Bureau of Indian Affairs, Department of the Interior

PART 14H-1—GENERAL

Designation of Contracting Officer Position

JULY 27, 1971.

Pursuant to the authority contained in the Act of November 2, 1921, C. 115, 42 Stat. 208 (25 U.S.C. 13) and 41 CFR 14-1.008, § 14H-1.451-2(a)(1) of 41 CFR Chapter 14H is being amended to designate the Deputy Commissioner as a contracting officer position.

Since this amendment involves internal Bureau procedures, advance notice and public procedure thereon have been deemed unnecessary and are dispensed with under the exception provided in subsection (b)(B) of 5 U.S.C. 553 (Supp. V, 1965–1969).

Since delay in the amendment becoming effective could delay the internal processing of contracts in the Bureau with resultant delay in providing services to Indian people, the 30-day deferred effective date is dispensed with under the exception provided in subsection (d)(3) of 5 U.S.C. 553 (Supp. V, 1965–1969). Accordingly, these regulations will become effective upon the date of publication in the FEDERAL REGISTER (8–3–71).

As amended, § 14H-1.451-2(a)(1) of 41 CFR Chapter 14H reads as follows:

§ 14H-1.451-2 Designation of Contracting officer positions.

(a) Each of the following organizational titles are designated as contracting officer positions.

(1) Headquarters Office Officials:

(i) Deputy Commissioner.

(ii) Associate Commissioner for Support Services.

(iii) Director of Operating Services.

(iv) Chief, Division of Property and Supply Management.

(v) Engineering Contract Adviser.

(vi) Chief, Division of Plant Design and Construction, Albuquerque, N. Mex.

(vii) Chief, Plant Management Engineering Center, Denver, Colo.

(viii) Executive Officer, Indian Affairs Data Center, Albuquerque, N. Mex.

(ix) Property and Supply Officer, Indian Affairs Data Center, Albuquerque, N. Mex.

* * * * *

LOUIS R. BRUCE,
Commissioner.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

Brigantine National Wildlife Refuge, N.J.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8–3–71).

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

NEW JERSEY

BRIGANTINE NATIONAL WILDLIFE REFUGE

Public hunting of rails, gallinules, waterfowl, and coots on the Brigantine National Wildlife Refuge, N.J., is permitted during established State and Federal seasons on only those areas designated by signs as open to hunting.

These open areas are delineated as Hunting Units 1, 2, and 3 on maps available at Refuge Headquarters, Oceanville, N.J., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Mass. 02109.

Hunting shall be in accordance with State and Federal regulations covering the hunting of migratory game birds subject to the following special conditions:

(1) Hunting on Unit 3 during the waterfowl season is restricted to certified Young Waterfowler Program Trainees only, by permit from designated blind sites, from the opening of the duck hunting season up to and including the third Saturday.

(2) Hunting on Unit 3, after the third Saturday of the duck hunting season is restricted to certified Young Waterfowler Program Trainees and program instructors only, by permit from designated blind sites.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, as set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 30, 1972.

RICHARD E. GRIFFITH,
Regional Director, Bureau of Sport Fisheries and Wildlife.

[FR Doc.71-11033 Filed 8-2-71;8:46 am]

PART 32—HUNTING

Erie National Wildlife Refuge, Pa.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8–3–71).

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

PENNSYLVANIA

ERIE NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Erie National Wildlife Refuge, Pa., is permitted. The open hunting area is delineated on maps available at refuge headquarters, Guys Mills, Pa., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Mass. 02109.

Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of deer.

The provisions of this special regulation supplement the regulations governing hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 9, 1972.

RICHARD E. GRIFFITH,
Regional Director, Bureau of Sport Fisheries and Wildlife.

Subpart B—Consequences of Books and Records

[illegible]

Subpart L—Distribution and Sale of Stamps

§ 179.161 Orders for stamps.

Each order for stamps to be used under this part shall be made in writing to the District Director or his duly authorized agent in the internal revenue collection district in which the stamps are to be used, showing the date of the order, the number of "National Firearms Act" stamps applied for, and the name and address of the purchaser, and shall be signed in ink by the purchaser.

§ 179.162 Stamps authorized.

Adhesive stamps of the $5 and $200 denomination, bearing the words "National Firearms Act," have been prepared and distributed to District Directors, and only such stamps shall be used for the payment of the transfer tax and for the tax on the making of a firearm.

§ 179.163 Reuse of stamps prohibited.

A stamp once affixed to one document cannot lawfully be removed and affixed to another. Any person willfully reusing such a stamp shall be subject to the penalty prescribed by section 7208, I.R.C.

Subpart M—Redemption of or Allowance for Stamps or Refunds

§ 179.171 Redemption of or allowance for stamps.

Where a "National Firearms Act" stamp is destroyed, mutilated or rendered useless after purchase, and before liability has been incurred, such stamp [illegible]

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 35]

WILDERNESS PRESERVATION AND MANAGEMENT

Notice of Proposed Rule Making

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the Wilderness Act (78 Stat. 890; 16 U.S.C. 1131–1136), and 43 U.S.C. 1201, and in accordance with the Administrative Procedures Act as amended (5 U.S.C. 553), it is proposed to add a new Part 35, Wilderness Preservation and Management, to Title 50, Code of Federal Regulations, as set forth below.

The purpose of the new part is to carry out provisions of the Wilderness Act and subsequent Acts establishing wilderness areas within the National Wildlife Refuge System under the jurisdiction of the Secretary of the Interior.

While this addition does not require public review pursuant to statute, it is made available for review to afford the public an opportunity to participate in the rule making process. Interested persons are invited to submit written comments, suggestions, or objections with respect to the proposed new part to the Director, Bureau of Sport Fisheries and Wildlife, Washington, D.C. 20240, within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

It is intended that the new part will become effective 30 days following the date of publication of final rulemaking in the FEDERAL REGISTER.

A new Part 35 is added as follows:

PART 35—WILDERNESS PRESERVATION AND MANAGEMENT

Subpart A—General Rules

Sec.
35.1 Definitions.
35.2 Objectives.
35.3 General regulations.
35.4 Appropriations and personnel.
35.5 Commercial enterprises, roads, motor vehicles, motorized equipment, motorboats, aircraft, mechanical transport, structures, and installations.
35.6 Public use.
35.7 Control of wildfires, insects, pest plants, and disease.
35.8 Forest Management.
35.9 Livestock grazing.
35.10 Scientific uses.
35.11 Water rights.
35.12 Access to State and private lands.
35.13 Special regulations.

Subpart B—Special Regulations for Specific National Wildlife Refuge Wildernesses [Reserved]

AUTHORITY: The provisions of this Part 35 issued under 78 Stat. 890; 16 U.S.C. 1131–1136; 43 U.S.C. 1201.

Subpart A—General Rules

§ 35.1 Definitions.

"National Wildlife Refuge Wilderness" shall consist of lands in the National Wildlife Refuge System that have been designated by Act of Congress as units of the National Wilderness Preservation System.

"Secretary" means the Secretary of the Interior.

"Director" means the Director of the Bureau of Sport Fisheries and Wildlife.

"Refuge System" means the lands of the National Wildlife Refuge System.

"Wilderness System" means the lands designated as wilderness by the Congress under the provisions of the Wilderness Act.

§ 35.2 Objectives.

(a) Units of the National Wildlife Refuge System have been established by diverse legal means and are administered for a variety of wildlife program purposes. The establishment of each National Wildlife Refuge Wilderness is within and supplemental to the purposes for which a specific national wildlife refuge was established and is administered. Each wilderness shall be administered for such other purposes for which the national wildlife refuge was established and shall be also administered to preserve its wilderness character.

(b) Except as otherwise provided by law, wilderness areas shall be devoted to the public purposes of recreational, scenic, scientific educational, conservation, and historical use and shall be administered in such a manner as will leave them unimpaired for future use and enjoyment as wilderness. Natural ecological succession will be allowed to operate freely to the extent feasible.

§ 35.3 General regulations.

Parts 25, 26, 27, 28, 32 and 33 of this subchapter, pertaining to the National Wildlife Refuge System, are hereby incorporated as a part hereof by reference, insofar as said parts do not conflict with the provisions of the Wilderness Act of 1964 and subsequent Acts establishing wilderness areas within units of the National Wildlife Refuge System.

§ 35.4 Appropriations and personnel.

No appropriation shall be made available for the payment of expenses or salaries for the administration of a National Wildlife Refuge Wilderness as a separate unit nor shall any appropriation be made available for additional personnel stated as being required solely for the purpose of managing or administering areas solely because they are included within the National Wilderness Preservation System.

§ 35.5 Commercial enterprises, roads, motor vehicles, motorized equipment, motorboats, aircraft, mechanical transport, structures, and installations.

Except as specifically provided by law, and subject to existing private rights, there shall be no commercial enterprise and no permanent road within a National Wildlife Refuge Wilderness, and except as necessary to meet minimum requirements for the administration of the area as wilderness (including measures required in emergencies involving the health and safety of persons within the area) there shall be no temporary road, no use of motor vehicles, motorized equipment or motorboats, no landing of aircraft, no other form of mechanized transport, and no structure or installation within any such area.

(a) The Director may authorize occupancy and use of a national wildlife refuge by officers, employees, agencies, and agents of Federal, State, and county governments to carry out the purposes of the Wilderness Act and the Act establishing the wilderness and will prescribe conditions under which motorized equipment, mechanical transport, aircraft, motorboats, installations, or structures may be used to meet the minimum requirements for authorized activities to protect and administer the wilderness. The Director may also prescribe the conditions under which such equipment, transport, aircraft, installations, or structures may be used in emergencies involving the health and safety of persons, damage to property, violations of civil and criminal law, or other purposes.

(b) The Director may permit, subject to such restrictions as he deems desirable, the landing of aircraft and the use of motorboats at places within a wilderness where such uses were established prior to the date the wilderness was designated by Act of Congress as a unit of the National Wilderness Preservation System: *Provided*, Such use is permitted by the enabling legislation covering such area.

§ 35.6 Public use.

Public uses of a National Wildlife Refuge Wilderness will be in accordance with the purposes for which the individual national wildlife refuge was established and laws and regulations governing public uses within the National Wildlife Refuge System.

(a) When public uses are authorized within a National Wildlife Refuge Wilderness, the Refuge Manager may regulate such use when he determines that certain uses have an adverse effect on wilderness resources and values. Regulating will include limiting the numbers of persons allowed in the wilderness in point of time, imposing restrictions on time, seasons, kinds and location of public uses, requiring a permit or reservation to visit the area, and similar actions.

(b) All persons entering a National Wildlife Refuge Wilderness may be required to remove such materials as they carry in, except as provided by specific wilderness regulations contained in Subpart B of this part.

(c) Informational signs for the convenience of visitors will not be permitted in a National Wildlife Refuge Wilderness: *Provided*, That rustic directional signs for visitor safety may be installed in locations appropriate to a wilderness setting.

(d) Limited public use facilities and improvements may be provided as necessary for the protection of the refuge and wilderness and for public safety. Facilities and improvements will not be provided for the comfort and convenience of wilderness visitors.

(e) Public services and temporary structures generally offered by packers, outfiitters, and guides for realizing the recreational or other wilderness purposes of a wilderness may be permitted. Temporary installations and structures which existed for these and subsistence purposes under valid special use permit or easement when the wilderness was established may be continued if their use is necessary to administer the refuge for the purposes for which it was established and for wilderness purposes. The number, nature, and extent of such temporary structures and services will be controlled through regulations and special use permits issued by the Refuge Manager so as to provide maximum protection of wilderness resources and values.

(f) Hunting and fishing in a refuge wilderness will be in accordance with Federal and State regulations including special regulations for the specific wildlife refuge. Hunting or fishing which requires motorized equipment will not be permitted except as provided in § 35.5 (a) and (b).

§ 35.7 Control of wildfires, insects, pest plants, and disease.

To the extent necessary the Director shall prescribe measures to control wildfires, insects, pest plants, and disease to prevent unacceptable loss of wilderness resources and values, loss of life, and damage to property.

§ 35.8 Forest management.

Forest management activities in a National Wildlife Refuge Wilderness will be directed toward allowing natural ecological processes to operate freely. Commercial harvesting of timber shall not be permitted except where necessary to control attacks of insects or disease as prescribed in § 35.7.

§ 35.9 Livestock grazing.

(a) The grazing of livestock, where established prior to the date of legislation which includes an area in the National Wilderness Preservation System, shall be permitted to continue subject to the provisions of the enabling Act and Part 29 of this subchapter and in accordance with special provisions which may be prescribed for individual units. Numbers of permitted livestock will not be more liberal than those utilizing a wilderness prior to establishment and may be more restrictive.

(b) The Director may permit, subject to such conditions as he deems necessary, the maintenance, reconstruction or relocation, by nonmechanical means, of only those livestock management improvements and structures which existed within a wilderness when it was incorporated into the National Wilderness Preservation System.

§ 35.10 Scientific uses.

Recognizing the scientific value of wilderness, research data gathering and similar scientific uses not requiring mechanical or motorized equipment or permanent structures or installations will be encouraged providing that wilderness values are not impaired. The person or agency involved in scientific investigation must be willing to accept reasonable limitations on activities and location and size of the area to be used for research purposes. A special use permit authorizing scientific uses shall be required.

§ 35.11 Water rights.

Nothing in the regulations in this part constitutes an expressed or implied claim or denial on the part of the Department of the Interior as to exemption from State water laws.

§ 35.12 Access to State and private lands.

Rights of States or persons, and their successors in interest, whose land is surrounded by a National Wildlife Refuge Wilderness, will be recognized to assure adequate access to that land. Adequate access is defined as the combination of modes and routes of travel which will best preserve the wilderness character of the landscape. Mode of travel designated shall be reasonable and consistent with accepted, conventional, contemporary modes of travel in said vicinity. Use will be consistent with reasonable purposes for which such land is held. The Director will issue such permits as are necessary for access, designating the means and route of travel for ingress and egress so as to preserve the wilderness character of the area.

§ 35.13 Special regulations.

(a) Special regulations will be issued for individual units of wilderness within the Refuge System as established by Public Law. These special regulations will supplement the provisions of this part.

(b) Special regulations may contain Administrative and Public uses as recognized in the:

(1) Legislative Record of the establishing Act.

(2) Committee Reports of the Congress.

(3) Departmental and Executive Reports to the Congress.

(4) Other provisions.

(c) Such special regulations shall be published in Subpart B of this part after a wilderness has been established by Public Law and shall become effective upon publication in the FEDERAL REGISTER.

FRESH PRUNES GROWN IN DESIGNATED COUNTIES IN IDAHO AND IN MALHEUR COUNTY, OREG.

Approval of Expenses and Fixing of Rate of Assessment for the 1971–72 Fiscal Period

Consideration is being given to the following proposals submitted by the Idaho-Malheur County, Oreg., Fresh Prune Marketing Committee, established under the marketing agreement and Order No. 925 (7 CFR Part 925), regulating the handling of fresh prunes grown in designated counties in Idaho and in Malheur County, Oreg., effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(1) Expenses that are reasonable and likely to be incurred by the Idaho-Malheur County, Oreg., Fresh Prune Marketing Committee, during the period July 1, 1971, through June 30, 1972, will amount to $5,870.

(2) That there be fixed, at $0.01 per one-half bushel 30-pound containers or equivalent quantity of fresh prunes when in other containers or in bulk, the rate of assessment payable by each handler in accordance with § 925.41 of the aforesaid marketing agreement and order.

(3) That unexpended assessment funds, in excess of expenses incurred during the fiscal period ended June 30, 1971, be carried over as a reserve in accordance with the applicable provisions of § 925.42 of said marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the 10th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the

office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: July 29, 1971.

Food and Drug Administration

[21 CFR Part 146c]

CHLORTETRACYCLINE HYDROCHLORIDE POWDER TOPICAL VETERINARY

Proposed Revocations

In the FEDERAL REGISTER of August 5, 1970 (35 F.R. 12492), the Food and Drug Administration announced (DESI 0054 NV) that it concurred with conclusions of the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, regarding the effectiveness of Aureomycin Powder 2 Percent, a drug for veterinary use containing chlorotetracycline hydrochloride and benzocaine and marketed by American Cynamid Co., Box 400, Princeton, N.J. 08540.

The notice provided for the submission of certain information within 6 months and no new information was submitted in response. Based on the NAS/NRC report and other relevant material, the Commissioner of Food and Drugs concludes (1) that substantial evidence is lacking that the subject drug is effective under the conditions of use prescribed, recommended, or suggested in its labeling and (2) that the antibiotic drug regulation covering this drug should therefore be amended by deleting provisions for its certification.

Since an order was published April 29, 1971 (36 F.R. 8033), amending § 146c.230 of the antibiotic drug regulations to restrict tetracycline hydrochloride powder topical to use in man, and since neither that drug nor chlortetracycline hydrochloride powder topical is currently marketed for use in man, the Commissioner also concludes that § 146c.230 should be revoked and that § 146c.242 covering a similar product no longer marketed should be revoked.

Accordingly, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 512, 52 Stat. 1050-51, as amended, 59 Stat. 463, as amended, 82 Stat. 343-51; 21 U.S.C. 352, 357, 360b) and under authority delegated to him (21 CFR 2.1230), the Commissioner proposes that Part 146c be amended by revoking § 146c.230 *Chlortetracycline hydrochloride powder topical; tetracycline hydrochloride powder topical for human use* and § 146c.242 *Tetracycline-neomycin complex powder topical; tetracycline hydrochloride-neomycin sulfate powder topical.*

Interested persons may, within 30 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof.

Dated: July 19, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

Office of the Secretary

[41 CFR Part 3-4]

RESEARCH CONTRACTS WITH EDUCATIONAL INSTITUTIONS IN THE UNITED STATES

Notice of Proposed Rule Making

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that pursuant to the Federal Property and Administrative Services Act of 1949, as amended, the Office of the Secretary is considering an amendment to 41 CFR Chapter 3 by adding a new Subpart 3-4.56, Research Contracts with Educational Institutions in the United States. The new subpart will establish Department policy on the review and direction requirements for application in certain research contracts.

Any person who wishes to submit written data, views, or objections pertaining to the proposed amendment may do so by filing them in duplicate with the Director of Procurement and Materiel Management, OASAM, Room 3340, HEW North Building, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, DC 20201, within 30 days following publication of this notice in the FEDERAL REGISTER. All comments submitted pursuant to this notice will be available for public inspection during regular business hours in the Division of Procurement and Materiel Management.

Dated: July 27, 1971.

ROBERT C. COULTER,
Acting Deputy Assistant Secretary for Administration.

As proposed, the new Subpart 3-4.56 would read as follows:

Subpart 3-4.56—Research Contracts With Educational Institutions in the United States

Sec.

3-4.5600 Scope of subpart.
3-4.5601 Changes in research methods, procedures, objectives or phenomena under study.
3-4.5602 Change or absence of the principal investigator or project leader.
3-4.5603 Subcontracting or transferring the research effort.

§ 3-4.5600 Scope of subpart.

This subpart sets forth the Department's policy on review and direction of research contracts with educational institutions in the United States, and implements Part I, Attachment A, OMB Circular No. A-101, establishing Government policy on review and direction of the research effort under research projects.

§ 3-4.5601 Changes in research methods, procedures, objectives or phenomena under study.

(a) Review and direction requirements for research contracts with educational institutions should, whenever possible, permit the principal investigator to change the methods and procedures for conducting the research without obtaining prior Government approval. Significant changes in the methods or procedures utilized by the contractor shall be reported in subsequent technical reports.

(b) In the event the methodology or experiment is stated as a specific objective of the contract, such stated objectives shall not be changed by the contractor without obtaining prior approval from the contracting officer.

(c) The phenomenon or phenomena under study, i.e., the broad category of research, shall not be changed by the contractor without obtaining prior approval of the contracting officer.

(d) The degree of review or direction exercised may vary from contract to contract depending upon the amount of detail used in stating the objectives of the research effort. If the review or direction requirements are to differ from those specified in paragraphs (a), (b), and (c) of this section, the contract should clearly specify such additional or different requirements as necessary.

§ 3-4.5602 Change or absence of the principal investigator or project leader.

(a) The decision as to whether the Department is interested in a proposed research contract is based, to a considerable extent, upon its evaluation of the proposed contractor's principal investigator or project leader's knowledge of the field and his capabilities to manage the contract in an efficient and productive manner. Therefore, the Department desires that the named principal investigator or project leader be continuously responsible for the conduct of the contract and be closely involved with the research efforts.

(b) Written prior approval of the contracting officer is required by the contractor to change the contractor's principal investigator or project leader or to continue work under the contract without participation of the principal investigator or project leader for a period in excess of 3 continuous months. Any substantial reduction in the effort devoted to the contract work by the contractor's principal investigator or project leader also requires the prior written approval of the contracting officer. If the contracting officer determines that the reduction of effort would be so substantial as to impair the successful prosecution of the contract, he may request a change of principal investigator or project leader suitable to the Department, or terminate or appropriately modify the contract.

(c) The provisions of paragraph (b) of this section also apply when the contract identifies coprincipal investigators or project leaders or otherwise includes and identifies additional contractor personnel considered essential to the conduct of the proposed research contract.

§ 3-4.5603 Subcontracting or transferring the research effort.

The Department's decision to enter into a research contract with an educational institution is based in part upon its evaluation of the principal investigator(s) or project leader(s) as well as the support available to the contract from the institution, such as facilities and administrative assistance. During the negotiation of the contract the contracting officer (contract negotiator) shall to the extent possible, obtain complete information concerning the contractor's plans for subcontracting any portion of the research effort. None of the research effort shall be subcontracted or transferred to another organization without having been specifically set forth in the contract, or without the prior approval of the contracting officer. This does not preclude the purchase of supplies, materials, equipment or general support services. None of the foregoing shall be construed to authorize transfer of a research contract or any interest therein, where prohibited by law.

[FR Doc.71-11076 Filed 8-2-71;8:50 am]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 47]

[Docket No. 11271; Notice 71-21]

NOTICE OF OWNERSHIP BY TRANSFEREE OF U.S. REGISTERED AIRCRAFT

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending Part 47 of the Federal Aviation Regulations to require the buyer or other transferee of an aircraft last registered in the United States to notify the FAA of his ownership within 10 days after he becomes the owner, unless within that period he submits an Application for Aircraft Registration under that part.

Interested persons are invited to participate in the making of the proposed rule submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, GC-24, 800 Independence Avenue SW., Washington, DC 20590. All communications received on or before September 3, 1971, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments in the Rules Docket for examination by interested persons.

Section 47.41 requires the holder of a Certificate of Aircraft Registration to return the certificate to the FAA Aircraft Registry, showing on the reverse side of the certificate the termination of registration that occurs, among other things, upon the transfer of ownership. However, few certificates are returned (although the imposition of a tax by the Airport and Airway Revenue Act of 1970, 84 Stat. 236, has been followed by a noted increase in the number of reported sales), and the transferor continues to be shown as the owner even though he has relinquished his interest in the aircraft.

Section 47.44 was adopted January 6, 1970 (35 F.R. 2578) to provide for obtaining updated knowledge as to registration eligibility and identification. When the certificate holder, now alerted by a mailed form yearly under § 47.44, does advise the FAA Aircraft Registry of a transfer of his ownership, his name is removed from the records as the registered owner; however, the transferee's name is not added until registration in his name is completed. Also, many transfers occur where the transferor is not the holder of the certificate, such as a dealer or a person within the chain from the registered owner, in which case the transferor is not now required to notify the FAA Aircraft Registry.

The buyer or other transferee of an aircraft is not now required to notify the FAA Aircraft Registry at the time he becomes the owner. However, he must apply for registration before he can legally operate the aircraft or, in the case of a dealer, he must first show that he is the owner.

It is now proposed to provide more current and accurate aircraft records as to the movement, between owner registrations, of aircraft bearing U.S. registration numbers, by requiring the buyer or other transferee of aircraft last registered in the United States to notify the

FAA Aircraft Registry of his ownership, within 10 days after he becomes the owner, unless within that period of time he applies for registration.

In consideration of the foregoing, it is proposed to insert a new § 47.7 after § 47.5 of the Federal Aviation Regulations to read as follows:

§ 47.7 Notice of ownership.

Within 10 days after a citizen of the United States becomes the owner of an aircraft last previously registered under the Federal Aviation Act of 1958, or under other laws of the United States, he shall sign and submit to the FAA Aircraft Registry a notice of his ownership, unless within that period of time he submits an Application for Aircraft Registration under this part. The notice shall contain—

(a) The name and address of the previous owner;

(b) The date of the transfer; and

(c) The make, model, serial number, and United States registration number of the aircraft.

This amendment is proposed under the authority of sections 313(a), 501, 503, and 505 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1401, 1403, 1405), section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)), and section 1.47(a) of the Regulations of the Office of the Secretary of Transportation.

Issued in Oklahoma City, Okla., on July 15, 1971.

A. L. COULTER,
Director, Aeronautical Center.

[14 CFR Part 71]

[Airspace Docket No. 71-EA-91]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Pennington Gap, Va., transition area.

The authorization of a new NDB instrument approach procedure for Lee County Airport, Pennington Gap, Va., will require designation of a 700-foot floor transition area to provide controlled airspace for aircraft executing this procedure.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment.

No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Pennington Gap, Va., proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71, Federal Aviation Regulations, so as to designate a Pennington Gap, Va., 700-foot floor transition area as follows:

PENNINGTON GAP, VA.

That airspace extending upward from 700 feet above the surface within a 9-mile radius of the center, 36°44'33" N., 83°01'50" W. of Lee County Airport, Pennington Gap, Va.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on July 20, 1971.

BRIAN J. VINCENT,
Acting Director, Eastern Region.

[FR Doc.71-11040 Filed 8-2-71;8:47 am]

[14 CFR Part 71]

[Airspace Docket No. 71-EA-96]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Farmville, Va., transition area.

The NDB Runway 3 instrument approach procedure for Farmville Municipal Airport, Farmville, Va., requires designation of a 700-foot floor transition area to provide airspace protection for aircraft executing the instrument approach procedure.

Interested parties may submit such written data or views as they may desire. Communciations should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment.

No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Farmville, Va., proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Farmville, Va., 700-foot floor transition area as follows:

FARMVILLE, VA.

That airspace extending upward from 700 feet above the surface within a 7-mile radius of the center, 37°21'22" N., 78°26'16" W. of Farmville Municipal Airport, Farmville, Va.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on July 20, 1971.

BRIAN J. VINCENT,
Acting Director, Eastern Region.

[14 CFR Part 71]

[Airspace Docket No. 71-EA-109]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Galax, Va., transition area.

The VOR/DME Runway 17 and NDB-A instrument approach procedures for Twin County Airport require designation of a 700-foot floor transition area to provide airspace protection for aircraft executing the instrument approach procedures.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment.

No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Galax, Va., proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Galax, Va., 700-foot floor transition area as follows:

GALAX, VA.

That airspace extending upward from 700 feet above the surface within a 10.5-mile radius of the center, 36°45'52" N., 80°49'20" W. of Twin City Airport; and within 4.5 miles each side of the Pulaski VORTAC 196° radial, extending from the 10.5-mile radius area to 8 miles south of the VORTAC.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on July 20, 1971.

BRIAN J. VINCENT,
Acting Director, Eastern Region.

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket 71-19; Notice 1]

TIRE AND RIM SELECTION AND RIM PERFORMANCE

Proposed Motor Vehicle Safety Standard

The purpose of this notice is to propose a new motor vehicle safety standard No. 120, which would establish tire and rim selection requirements for multipurpose passenger vehicles, trucks, buses, trailers, and motorcycles, performance and marking requirements for rims for use on these vehicles, and requirements for a vehicle tire and rim information label.

The proposed standard would require each vehicle to which the standard applies to be equipped with tires that meet the requirements either of Standard No. 109 or Standard No. 119, and with rims that are designated by both the manufacturer of the tires and the manufacturer of the rims as suitable for use with those tires. The tires would be required to have maximum load ratings that equal or exceed the gross axle weight rating of the axle on which they are mounted divided by the number of tires on the axle, and in the case of tires listed under Standard No. 109 (basically passenger-car tires), to exceed this rating quotient by 10 percent.

Each vehicle would also be required to carry a permanent label, of the type specified in the certification regulations (49 CFR Part 567), that would specify the tires and rims with which the vehicle is equipped by its manufacturer, with applicable maximum loads and inflation pressures, and speed restrictions, if any.

One performance requirement for rims would be that they must withstand the tests of Standard No. 119 for high speed and endurance, when any tires are mounted on them that are specified in the tire and rim association publications as suitable for use with them, except for tires the manufacturer expressly designates as unsuitable. This designation, which it is assumed would be used only in exceptional cases, would be by permanent marking on the rim. The other rim performance requirement would be that a rim retain a tire (that is, prevent complete disengagement) when the tire suffers sudden deflation at 60 m.p.h., followed by a controlled stopping of the vehicle.

Each rim would be required to be marked on its outer side with the DOT certification symbol, the name or identifying symbol of the manufacturer, and the rim's maximum load and inflation pressure ratings.

Proposed effective date: January 1, 1973.

Interested persons are invited to submit written data, views, and arguments concerning the proposed standard. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street SW., Washington, DC 20591. It is requested, but not required, that 10 copies be submitted. All comments received before the close of business on November 2, 1971, will be considered, and will be available for examination in the docket room at the above address both before and after the closing date. To the extent possible, comments filed after the closing date will be considered by the Administration. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The Administration will continue to file relevant material, as it becomes available, in docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

This notice of proposed rulemaking is issued under the authority of sections 103, 112, 113, 114, 119, and 201 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1392, 1401, 1402, 1403, 1407, 1421) and the delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.

Issued on July 29, 1971.

ROBERT L. CARTER,
Acting Associate Administrator, Motor Vehicle Programs.

§ 571.21 Federal Motor Vehicle Safety Standards.

* * * * *

MOTOR VEHICLE SAFETY STANDARD NO. 120

TIRE AND RIM SELECTION AND RIM PERFORMANCE

S1. *Scope.* This standard establishes performance and marketing requirements for rims, requires vehicles to be equipped with tires of appropriate size that conform to Standard No. 109 or Standard No. 119 and with rims that meet the requirements of this standard, and requires vehicles to have a tire and rim information label.

S2. *Purpose.* The purpose of this standard is to insure that vehicles are equipped with tires and rims of adequate size and strength to provide safe operational performance.

S3. *Application.* This standard applies to multipurpose passenger vehicles, trucks, buses, trailers, and motorcycles, and to rims for use on those types of vehicles.

S4. *Definitions.* All terms defined in the Act and the rules and standards issued under its authority are used as defined therein.

S5. *Requirements.*

S5.1 *Tire and rim selection.* Each vehicle shall be equipped with tires that meet the requirements of Standard No. 109 or Standard No. 119, and with rims that are designated by both the manufacturer of the tires and the manufacturer of the rims as suitable for use with those tires. The maximum load rating of each tire and each rim shall be not less than the gross axle weight rating of the axle on which they are mounted divided by the number of tires on the axle. The maximum load rating of tires that are listed in Appendix A of Standard No. 109 shall be at least 10 percent greater than the gross axle weight rating divided by the number of tires on the axle.

S5.2 *Information label.* Each vehicle shall have a tire and rim information label, of the type and affixed in the manner and location described in paragraphs (b) through (f) of § 567.4 of this chapter (the certification regulations), containing the information set forth below, in the English language, lettered in block capitals and numerals not less than three thirty-seconds of an inch high. The information may, at the option of the vehicle manufacturer, be appended to the certification label required by Part 567 of this chapter.

(a) The tire size and rim designations of the tires and rims with which the vehicle is equipped.

(b) The maximum load ratings of the tires and rims, and the maximum cold inflation pressures of the tires, with which the vehicle is equipped, as marked on the

tires and rims in accordance with applicable motor vehicle safety standards.

(c) The speed restrictions, if any, of tires with which the vehicle is equipped, as marked on the tires in accordance with Standard No. 119.

S5.3 *Rim performance.* Each rim shall be capable of meeting the performance requirements of S5.3.2 and S5.3.3 when used with any tire, except for nonmatching tires designated in accordance with S5.3.1, for which the rim is listed as appropriate in the publications, current at the time of manufacture of the rim, of the following organizations:

The Tire and Rim Association.
The European Tyre and Rim Organisation.
Japan Standards Association.
The Japan Automobile Tire Manufacturers Association.
Deutsche Industrie Norm.
The Society of Motor Manufacturers & Traders, Ltd.
Scandinavian Tire and Rim Organization.

S5.3.1 If a rim is—

(a) Listed in the publications specified in S5.3 as appropriate for matching with one or more tire size designations; and

(b) Determined by its manufacturer not to be appropriate for matching with one or more of those tire size designations; then the rim shall be permanently marked or labeled with the words "Not to be used" followed by all such nonmatching tire size designations.

S5.3.2 The tire shall not become completely disengaged from the rim, when the rim is tested according to the following procedure.

(a) Mount the tire on the rim.

(b) Mount the rim in a single-tire, single-axle position (i.e., not a dual-tire, or tandem-axle installation) in the left front position on a four-wheeled vehicle loaded so that the tire is loaded to its maximum load rating.

(c) Adjust the tire pressure to the tire's maximum inflation pressure.

(d) Drive the vehicle in a straight line on a level surface at 60 m.p.h., or at the tire's maximum speed, if any, as marked on the tire, whichever is less.

(e) Deflate the tire, completely (i.e., to ambient atmospheric pressure) through an opening of 0.15 square inch for tires listed in Appendix A of Standard No. 109 whose maximum inflation pressure is 45 p.s.i. or less and for motorcycle tires, and of 0.31 square inch for all other tires.

(f) As soon as the tire is deflated, decelerate the vehicle to a stop at a rate of 8 feet per second per second.

S5.3.3 When the tire and rim are subjected to the endurance test or the high speed performance test of Standard No. 119 (S6.2 and S6.4 of that standard), the rim shall show no visible deformation at any point.

S5.4 *Rim marking.* Each rim shall be marked on the outer side with the following information, in the English language, with lettering not less than one-eighth of an inch high, impressed to a depth of not less than 0.005 inch below the surrounding surface:

(a) The symbol DOT, which shall constitute the manufacturer's certification that the rim conforms to all applicable motor vehicle safety standards.

(b) The name of the manufacturer, or identifying symbol assigned by the NHTSA.

(c) The rim's maximum load rating and maximum inflation pressure, as follows: "Max load_____lbs. Max pressure_____p.s.i."

Notices

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

TARGHEE NATIONAL FOREST, IDAHO

Order of Transfer of Administrative Jurisdiction of Land

By virtue of the authority vested in the Secretary of the Interior by section 7(c) of the Act of July 9, 1965 (79 Stat. 217), and his delegation of authority to the Commissioner of Reclamation dated February 25, 1966, published March 4, 1966 (31 F.R. 3426), jurisdiction over the following described lands, aggregating some 6.90 acres which lie within or adjacent to exterior boundaries of the Targhee National Forest, Idaho, and which were acquired by the Bureau of Reclamation in the development of the Island Park Reservoir, Minidoka Project, is hereby transferred to the Secretary of Agriculture for recreational and other National Forest System purposes:

BOISE MERIDIAN

WITHDRAWN LAND

T. 13 N., R. 42 E.,
Sec. 25, that portion of lot 8 lying north of the east-west centerline of said section 25, containing 6.90 acres, more or less.

Pursuant to said section 7(c) of the aforesaid Act of July 9, 1965, the above lands shall become National Forest Lands provided that all lands and waters within the Island Park Reservoir area needed or used for the operation of the project or for other Reclamation purposes shall continue to be administered by the Commissioner of Reclamation to the extent he determines to be necessary for such operation.

This order shall be effective upon publication in the FEDERAL REGISTER (8–3–71).

Dated: July 27, 1971.

ELLIS L. ARMSTRONG,
Commissioner of Reclamation.

NATIONAL REGISTER OF HISTORIC PLACES

Additions, Deletions, or Corrections

By notice in the FEDERAL REGISTER of February 20, 1971, Part II, there was published a list of the properties included in the National Register of Historic Places. This list has been amended by a notice in the FEDERAL REGISTER of March 2 (pp. 3930–31), April 6 (pp. 6526–28), May 4 (pp. 8333–36), June 3 (pp. 10811–13), and July 8 (pp. 12868–70). Further notice is hereby given that certain amendments or revisions, in the nature of additions, deletions, or corrections to the previously published list are adopted as set out below.

It is the responsibility of all Federal agencies to take cognizance of the properties included in the National Register as herein amended and revised in accordance with section 106 of the National Historic Preservation Act of 1966, 80 Stat. 915, 16 U.S.C. 470.

The following corrections should be made:

FLORIDA

Everglades and Seminole Indian Reservations (Collier County) are removed from the Register.
Olustee Battlefield is in Baker County (not Columbia).

ALABAMA

Barbour County

Eufaula, *McNab Bank Building*, Broad Street.

Lowndes County

Hayneville, *Lowndes County Courthouse*, Washington Street.

ALASKA

Gateway Borough, Ketchikan, *Alaska Totems*, between Park and Deermont Avenues.

Interior District

Flaxman Island, *Leffingwell Camp*, Arctic coast, 58 miles west of Barter Island.

ARIZONA

Cochise County

Fairbank vicinity, *Quiburi*, north of Fairbank.

ARKANSAS

Independence County

Batesville, *Garrott House (Case-Maxfield House)*, 561 East Main Street.

Jefferson County

Pine Bluff, *Du Bocage*, 1115 West Fourth Street.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. FDC-D-350; NDA's 12-349; 12-471]

AMERICAN CYANAMID CO. ET AL.

Mephenoxalone Tablets and Emylcamate Tablets; Notice of Withdrawal of Approval of New-Drug Applications

In the FEDERAL REGISTER of June 25, 1970 (35 F.R. 10394), the Commissioner of Food and Drugs announced (DESI 6566) his conclusions pursuant to evaluating reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, concerning the following drugs, stating that these drugs lack substantial evidence of effectiveness for some labeled indications and were regarded as possibly effective for other labeled indications. Six months from the date of that publication were allowed for the holders of the applications and any person marketing such drugs without approval to obtain and submit data providing substantial evidence of effectiveness of the drugs for the indications for which they were regarded as possibly effective. Such evidence has not been received. Both firms have voluntarily requested withdrawal of approval of their new drug applications and thereby waived the opportunity for a hearing.

1. Trepidone tablets containing mephenoxalone; Lederle Laboratories Division, American Cyanamid Co., Pearl River, N.Y. 10965 (NDA 12-741).

2. Striatran Tablets containing emylcamate; Merck Sharp & Dohme, Division of Merck & Co., West Point, Pa. 19486 (NDA 12-349).

The Commissioner of Food and Drugs, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505 (e), 52 Stat. 1053, as amended; 21 U.S.C. 355(e)) and under authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with respect to each of said drugs, evaluated together with the evidence available to him when each application was approved, there is a lack of substantial evidence that each of the drugs will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore, pursuant to the foregoing findings, approval of the above new-drug applications, and all amendments and supplements thereto, is withdrawn effective on the date of the signature of this document.

Dated: July 19, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.71-11057 Filed 8-2-71;8:48 am]

[Docket No. FDC-D-356; NDA 10-231]

BROEMMEL PHARMACEUTICALS

Op-Hydrin Ophthalmic Suspension; Notice of Withdrawal of Approval of New Drug Application

In the FEDERAL REGISTER of September 17, 1970 (35 F.R. 14577), the Commissioner of Food and Drugs announced (DESI 6762) his conclusions pursuant to evaluating reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, concerning Op-Hydrin Ophthalmic Suspension (hydrocortisone acetate and phenylephrine hydrochloride), stating that this drug is regarded as possibly effective for its labeled indications. Six months from the date of that publication were allowed for the holder of the new-drug application and any person marketing the drug without approval to obtain and submit data providing substantial evidence of effectiveness for the drug.

By letter of March 1, 1971, Broemmel Pharmaceuticals, 1235 Sutter Street, San Francisco, California 94109, holder of NDA 10-231 for Op-Hydrin Ophthalmic Suspension, stated that manufacturing of the drug has been discontinued and voluntarily requested withdrawal of approval of their new drug application, thereby waiving the opportunity for hearing.

The Commissioner of Food and Drugs, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505(e), 52 Stat. 1053, as amended; 21 U.S.C. 355(e)), and under authority delegated to him (21 CFR 2.120 finds that on the basis of new information before him with respect to said drug, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore, pursuant to the foregoing findings, approval of the above new-drug application, and all amendments and supplements thereto, is withdrawn effective on the date of the signature of this document.

Dated: July 19, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.71-11059 Filed 8-2-71;8:48 am]

[DESI 4837; Docket No. FDC-D-349; NDA 4-837, etc.]

KAHLENBERG LABORATORIES, INC., ET AL.

Certain Antifungal Drugs; Notice of Withdrawal of Approval of New-Drug Applications

In the FEDERAL REGISTER of August 26, 1970 (35 F.R. 13591), the Commissioner announced (DESI 4837) his conclusions pursuant to evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, concerning the following drugs for topical use:

1. Cerosal Ointment containing salicylic acid, cerium salicylate, butylparaben, thymol, chlorobutanol, and dioctyl sodium sulfosuccinate; Kahlenberg Laboratories, Inc., Post Office Box 3318, Sarasota, Fla. 33578 (NDA 4-837).

2. Sporostacin Solution containing chlordantoin and benzalkonium chloride; Ortho Pharmaceutical Corp., Raritan, N.J. 08869 (NDA 12-569).

3. Keralac, nail lacquer, containing chloranil; Philip T. Paul, doing business as Salem Pharmacal, 23 Summit Road, Naugatuck, Conn. 06770 (NDA 11-379).

The announcement stated that these drugs are regarded as possibly effective for their labeled indications. Six months from the date of that publication were allowed for the holders of the applications and any person marketing such drug without approval to obtain and submit data providing substantial evidence of effectiveness of the drugs. No such data have been received, and the holders of said new-drug applications have requested withdrawal of approval of their new-drug applications and thereby have waived opportunity for a hearing.

The Commissioner of Food and Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505 (e), 52 Stat. 1053, as amended; 21 U.S.C. 355(e)), and under authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with respect to each of said drugs, evaluated together with the evidence available to him when each application was approved, there is a lack of substantial evidence that each of the drugs will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore, pursuant to the foregoing findings, approval of the above-listed new-drug applications, and all amendments and supplements thereto, is withdrawn effective on the date of the signature of this document.

Dated: July 19, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.71-11053 Filed 8-2-71;8:48 am]

[Docket No. FDC-D-351; NDA 6-566, etc.]

WILLIAM S. MERRILL CO. ET AL.

Oxanamide and Certain Other Drugs; Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New-Drug Applications

In the FEDERAL REGISTER of June 25, 1970 (35 F.R. 10394), the Food and Drug Administration announced its conclusions (DESI 6566) pursuant to evaluation by the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, of the following drugs:

NDA No.	Drug	NDA holder
10-811	Quiactin Tablets, containing oxanamide.	The William S. Merrell Co., Division Richardson Merrell, Inc., 110 East Amity Road, Cincinnati, Ohio 45215.
13-261	Lemetran Tablets, containing mephenoxalone.	Lakeside Laboratories, Division Colgate-Palmolive Co., 1707 East North Avenue, Milwaukee, Wis. 53201
6-566	Tolserol Tablets, Capsules,[1] Elixir, Injection, and Powder [1] for Injection, containing mephenesin.	E. R. Squibb & Sons, Inc., Division Olin Mathieson Chemical Corp., 745 Fifth Avenue, New York, N.Y. 10022
9-157	Tolseram Tablets and Suspension, containing mephenesin carbamate.	E. R. Squibb & Sons, Inc.
16-934	Dioloxol Tablets, Capsules, and Elixir, containing mephenesin.	G. W. Carnrick Co., 65 Horse Hill Road, Cedar Knolls, N.J. 07927.

[1] Although not specifically reviewed by the Academy, these are regarded as similarly affected.

The announcement stated that the drugs are regarded as possibly effective for some of their labeled indications and lacking substantial evidence of effectiveness for others. Six months were allowed for the submission of data providing substantial evidence of effectiveness for the indications for which the drugs were regarded as possibly effective. Since such evidence was not received, the drugs are now regarded as lacking substantial evidence of effectiveness for all of their labeled indications.

Therefore, notice is given to the holders of the new-drug applications listed above and to any person who may be adversely affected, that the Commissioner of Food and Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the listed new-drug applications and all amendments and supplements thereto on the grounds that new information before him with respect to such drugs, evaluated together with the evidence available to him when the applications were approved, shows there is a lack of substantial evidence that the drugs will have all the effects they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner will give the applicants, and any interested person who would be adversely affected by an order withdrawing such approval, an opportunity for a hearing to show why approval of the new-drug applications should not be withdrawn. Any related drug for human use, not the subject of an approved new-drug application, may be affected by this action.

Within 30 days after publication hereof in the FEDERAL REGISTER, such persons are required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-62, 5600 Fishers Lane, Rockville, Maryland 20852, a written appearance electing whether:

1. To avail themselves of the opportunity for a hearing; or

2. Not to avail themselves of the opportunity for a hearing.

If such persons elect not to avail themselves of the opportunity for a hearing the Commissioner without further notice will enter a final order withdrawing approval of the new-drug applications. Failure of such persons to file a written appearance of election within said 30 days will be construed as an election by such persons not to avail themselves of the opportunity for a hearing.

The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

If such persons elect to avail themselves of the opportunity for a hearing they must file, within 30 days after publication of this notice in the FEDERAL REGISTER, a written appearance requesting the hearing, giving the reasons why approval of the new-drug application should not be withdrawn, together with a well-organized and full factual analysis of the clinical and other investigational data they are prepared to prove in support of their opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing. When it clearly appears from the data in the application and from the reasons and factual analysis in the request for the hearing that no genuine and substantial issue of fact precludes the withdrawal of approval of the application, the Commissioner will enter an order on these data, making findings and conclusions on such data.

If a hearing is requested and justified by the response to this notice, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after the expiration of such 30 days, a written notice of the time and place at which the hearing will commence (35 F.R. 7250, May 8, 1970; 35 F.R. 16631, October 27, 1970).

Received requests for a hearing and/or elections not to request a hearing may be seen in the office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355) and under the authority delegated to the Commissioner (21 CFR 2.120).

Dated: July 19, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.71-11058 Filed 8-2-71;8:48 am]

[DESI 5887]

STREPTOMYCIN SULFATE FOR PARENTERAL USE

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice

In a notice (DESI 5887) published in the FEDERAL REGISTER of May 21, 1969 (34 F.R. 7997), the Commissioner of Food and Drugs announced his conclusions pursuant to evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on streptomycin sulfate preparations for parenteral use stating that these drugs were regarded as effective, possibly effective, and lacking substantial evidence of effectiveness for the various labeled indications. The possibly effective indications have been reclassified as lacking substantial evidence of effectiveness in that no new evidence of effectiveness of these drugs has been submitted pursuant to the notice of May 21, 1969.

Batches of such drugs with labeling bearing indications for which substantial evidence of effectiveness is lacking are no longer acceptable for certification or release.

Any person who will be adversely affected by the deletion from labeling of the indications for which the drug has been reclassified from possibly effective to lacking substantial evidence of effectiveness may, within 30 days after the date of publication of this notice in the FEDERAL REGISTER, petition for the issuance of a regulation providing for other certification of the drug for such indications. The petition must be supported by a full factual and well documented medical analysis which shows reasonable grounds for the issuance of such regulation.

A petition for issuance of said regulation should be filed (preferably in quintuplicate) with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1050-51 as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: July 19, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.71-11054 Filed 8-2-71;8:48 am]

[Docket No. FDC-D-345; NADA 9-242V]

HESS AND CLARK

Cadmium Anthranilate; Notice of Opportunity for Hearing

Notice is hereby given to Hess and Clark, Division of Richardson-Merrell, Inc., Ashland, Ohio 44805, and to any interested persons who may be adversely affected that the Commissioner of Foods and Drugs proposes to issue an order under section 512(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b(e)) withdrawing approval of NADA (new animal drug application) No. 9-242V, Cadmium Wormer for Hogs which contains cadmium anthranilate.

The Commissioner, on the basis of an evaluation of new information before him with respect to such drug together with evidence available to him when the application was approved, concludes that the drug is not shown to be safe under the conditions of use upon the basis of which the application was approved.

Data available to the Commissioner fail to establish the absence of unsafe residues of this product in the edible tissue of swine when this product is administered in accordance with the conditions of use prescribed, recommended, or suggested in its labeling.

In accordance with the provisions of section 512 of the act (21 U.S.C. 360b), the Commissioner hereby gives the applicant and any interested persons who would be adversely affected by an order withdrawing such approval an opportunity for a hearing at which time such persons may produce evidence and arguments to show why approval of NADA No. 9-242V should not be withdrawn. Promulgation of the order will cause any drug similar in composition to the above-listed drug product and recommended for similar conditions of use to be a new animal drug for which an approved new animal drug application is not in effect. Any such drug then on the market would be subject to appropriate regulatory action.

Within 30 days after publication hereof in the FEDERAL REGISTER, such persons are required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Office of the General Counsel, Food, Drug, and Environmental Health Division, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, a written appearance electing whether:

1. To avail themselves of the opportunity for a hearing; or
2. Not to avail themselves of the opportunity for a hearing.

If such persons elect not to avail themselves of the opportunity for a hearing, the Commissioner, without further notice, will enter a final order withdrawing approval of the new animal drug application.

Failure of such persons to file a written appearance of election within 30 days will be construed as an election by such persons not to avail themselves of the opportunity for a hearing.

The hearing contemplated by this notice will be open to the public except that any portion of the hearing concerning a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

If such persons elect to avail themselves of the opportunity for a hearing, they must file a written appearance requesting the hearing and giving the reasons why approval of the new animal drug application should not be withdrawn together with a well-organized and full-factual analysis of the clinical and other investigational data they are prepared to prove in support of their opposition to the grounds for this notice of opportunity for a hearing. A request for a hearing may not rest upon mere allegations or denials but must set forth specific facts showing that there is a genuine and substantial issue of fact requiring a hearing. When it clearly appears from the data in the application and from the reasons and factual analysis in the request for the hearing that no genuine and substantial issue of fact precludes the withdrawal of approval of the application, the Commissioner will enter an order stating his findings and conclusions on such data. If a hearing is requested and justified by the response to this notice, the issues will be defined, a hearing examiner will be named, and he shall issue a written notice of the time and place at which the hearing will commence. The time shall be not more than 90 days after the expiration of said 30 days, unless the hearing examiner and the applicant otherwise agree.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-51; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: July 19, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.71-11056 Filed 8-2-71;8:48 am]

[DESI 10899]

METHYLPHENIDATE HYDROCHLORIDE PARENTERAL

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on Ritalin Hydrochloride lyophilized powder for injection, containing methylphenidate hydrochloride; Ciba Pharmaceutical Co., 556 Morris Avenue, Summit, New Jersey 07901 (NDA 10-899).

The drug is regarded as a new drug. The effectiveness classification and marketing status are described below.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that:

1. Methylphenidate hydrochloride parenteral is possibly effective in sedative overdosage emergencies, in hastening recovery from anesthesia, in overcoming

sedation in the newborn, in helping treat acute overdosage of barbiturates, alcohol, and other sedative drugs, and in overcoming drug-induced lethargy.

2. The drug lacks substantial evidence of effectiveness in increasing response to psychotherapy and in psychiatric conditions associated with depression.

B. *Marketing status.* 1. Within 60 days of the date of publication of this announcement in the FEDERAL REGISTER, the holder of any previously approved new drug application for a drug described in paragraph A above is requested to submit a supplement to his application to provide for revised labeling, as needed, which deletes those indications for which such drug has been classified as lacking substantial evidence of effectiveness. Such supplement should be submitted under the provisions of § 130.9 (d) and (e) of the new drug regulations (21 CFR 130.9 (d) and (e)), which permit certain changes to be put into effect at the earliest possible time, and the revised labeling should be put into use within the 60-day period. Failure to do so may result in a proposal to withdraw approval of the new drug application.

2. If any such preparation is on the market without an approved new drug application, its labeling should be revised if it includes those claims for which substantial evidence of effectiveness is lacking as described in paragraph A above. Failure to delete such indications and put the revised labeling into use within 60 days after the date of publication hereof in the FEDERAL REGISTER may cause the drug to be subject to regulatory proceedings.

3. The notice "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study," published in the FEDERAL REGISTER July 14, 1970 (35 F.R. 11273), describes in paragraphs (d), (e), and (f) the marketing status of a drug labeled with those indications for which it is regarded as possibly effective.

The above-named holder of the new drug application for this drug has been mailed a copy of the Academy's report. Any interested person may obtain a copy of these reports by writing to the Press Relations Office, Food and Drug Administration (CE-200), 200 C Street SW., Washington, D.C. 20204.

Communications forwarded in response to this announcement should be identified with the reference number DESI 10899, directed to the attention of the following appropriate office, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Maryland 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD-100), Bureau of Drugs.
Original new drug applications: Office of Scientific Evaluation (BD-100), Bureau of Drugs.
All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD-5), Bureau of Drugs.

This notice is issued pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050-53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: June 25, 1971.

ATOMIC ENERGY COMMISSION

[License No. 22-00057-37E]

MINNESOTA MINING AND MANUFACTURING CO.

Notice of Issuance of Byproduct Material License

Please take notice the Atomic Energy Commission has, pursuant to § 32.22 of 10 CFR 32, issued License No. 22-00057-37E to Minnesota Mining and Manufacturing Co., 3M Center, St. Paul, Minn. 55101, which authorizes the distribution of 3M Model 1D2D Radioluminescent Wrist Compasses to persons exempt from the requirements of the license pursuant to § 30.19 of 10 CFR 30.

1. The wrist compass is designed for use primarily by hunters and campers. It is 1⅛ inches in diameter and ⅜-inch high and is encased in a brass housing with a 1/16-inch wall and a 3/32-inch base. It is covered with a 1/16-inch thick acrylic face plate.

2. Each compass contains up to 2 mCi of promethium 147 (Pm-147) as 3M Model 1A2A radioluminescent paint applied to the dial and inside the face plate. The radioactive promethium 147 in the paint is fixed in 3M Brand Radiating Microspheres.

3. Each exempt compass will bear a label identifying the distributor (3M) and the radioisotope (Pm-147).

A copy of the license and a safety evaluation containing additional information, prepared by the Division of Materials Licensing, are available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, DC 20545.

Dated at Bethesda, Md., July 26, 1971.

For the Atomic Energy Commission.

Secretary.

[FR Doc.71-11085 Filed 8-2-71;8:50 am]

[Docket No. 21115; Order 71-7-163]

OUTAGAMIE COUNTY, WIS., ET AL.

Order Granting Reconsideration and Setting Matter for Hearing

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 28th day of July 1971.

Outagamie County, Wis., the city of Appleton, Wis., and the Appleton Area Chamber of Commerce (hereinafter referred to as the Appleton Parties) have filed a petition for reconsideration of Order 71-1-69, insofar as that order denied their request for an immediate hearing on their application, Docket 21115, to amend the certificate of North Central Airlines, Inc. (North Central), for Route 86 so as to redesignate the hyphenated point Oshkosh-Appleton as Oshkosh.[1] Answers in support of the Appleton Parties' petition have been filed by the National Air Transportation Conference (NATC)[2] and by Air Wisconsin.[3] North Central has filed an answer opposing the relief requested and also opposing Appleton's motion for leave to file late.

Upon consideration of the foregoing pleadings and all relevant facts, we have decided to grant the Appleton Parties' petition for reconsideration of Order 71-1-69, and to set for hearing their application for decertification of Appleton as part of a hyphenated point.

Upon reconsideration of our decision in Order 71-1-69, we believe that the petition for reconsideration of the Appleton Parties sets forth matters demonstrating that the application for decertification of Appleton should be set for hearing. In particular, the Appleton Parties have shown that there is a need to investigate the extent to which the City of Appleton has now emerged as a separate marketing entity for air service since it was first hyphenated with Oshkosh in 1964,[4] and the extent to which air travelers destined for Appleton may be confused by the present hyphenated designation.[5] Inasmuch as the community itself is requesting decertification as a point on North Central's system, and desires to rely on the noncertificated scheduled service provided by Air Wisconsin, we believe that an early hearing on the issues raised by the Appleton request would be desirable.

Accordingly, it is ordered, That:

1. The motion of Outagamie County, Wis., the city of Appleton, Wis., and the Appleton Area Chamber of Commerce for leave to file an otherwise unauthorized document be and it hereby is granted;

2. The petition of Outagamie County, Wis., the city of Appleton, Wis., and the Appleton Area Chamber of Commerce, for reconsideration of Order 71-1-69 be and it hereby is granted;

3. The motion of Outagamie County, Wis., the city of Appleton, Wis., and the Appleton Area Chamber of Commerce for hearing on their petition in Docket 21115, be and it hereby is granted;

4. The Appleton Parties' application, Docket 21115, be and it hereby is set for hearing before an Examiner of the Board at a time and place to be hereafter designated;

5. Motions or petitions for modification or reconsideration of this order shall be filed no later than 20 days after the date of service of this order, and answers to such pleadings shall be filed no later than 20 days thereafter; and

6. A copy of this order shall be served upon North Central Airlines, Inc., Air Wisconsin, Inc., the cities of Appleton, Oshkosh, Neenah, Menasha, and Fond du Lac, Wis., Outagamie County, Wis., Winnebago County, Wis., and the Governors of Wisconsin, Illinois, Minnesota, Indiana, and Michigan.

This order will be published in FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[Docket No. 23333; Order 71-7-165]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Cargo Matters

Issued under delegated authority July 28, 1971.

By Order 71-7-74, dated July 14, 1971, action was deferred with a view toward eventual approval, subject to condition, on an agreement adopted at the worldwide cargo rate conference in Singapore. The agreement incorporates a procedural resolution relating to the establishment of Mid and South Atlantic specific commodity rates.

In deferring action on the agreement, 10 days were granted in which interested persons might file petitions in support of or in opposition to the proposed action. No petitions have been received within the filing period, and the tentative conclusions in Order 71-7-74 will herein be made final.

Accordingly, it is ordered, That:

Agreement CAB 22460, R-7, be and hereby is approved, provided that rates established to/from points in Puerto Rico and the U.S. Virgin Islands pursuant to said resolution shall be filed with the Board as agreements under section 412 of the Federal Aviation Act of 1958 and approved by the Board prior to being placed in effect.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

FEDERAL HOME LOAN BANK BOARD

[H. C. No. 103]

TRANS-COAST INVESTMENT CO.

Notice of Receipt of Application for Approval of Acquisition of Control of Independent Savings and Loan Association

JULY 29, 1971.

Notice is hereby given that the Federal Savings and Loan Insurance Corporation has received an application from the Trans-Coast Investment Co., Sherman Oaks, Calif., a multiple savings and loan holding company, for approval of acquisition of control of the Independent Savings and Loan Association, Salinas, Calif., an insured institution under the provisions of Section 408(e) of the National Housing Act, as amended (12 U.S.C. 1730a(e)), and § 584.4 of the Regulations for Savings and Loan Holding Companies, said acquisition to be effected by the purchase for cash of the guarantee stock of Independent Savings and Loan Association. Comments on the proposed acquisition should be submitted to the Director, Office of Examinations and Supervision, Federal Home Loan Bank Board, Washington, D.C. 20552, within 30 days of the date this notice appears in the FEDERAL REGISTER.

[SEAL] GRENVILLE L. MILLARD, JR.,
Assistant Secretary,
Federal Home Loan Bank Board.

[FR Doc.71-11083 Filed 8-2-71;8:50 am]

[1] Appleton's petition for reconsideration was accompanied by a motion for leave to file an untimely pleading. We have decided to accept Appleton's late-filed petition for reconsideration.

[2] NATC is organized as an association of air taxi operators and its answer is filed in behalf of six of its constituent members (Air Wisconsin, Amityville Flying Service, Cross Sound Commuter, Henson Aviation, Houston Metro Airlines, and Key Airlines).

[3] Air Wisconsin's filing was nominally a "petition for leave to intervene" but, inasmuch as it advances arguments in support of Appleton's request in the nature of an answer to that pleading, we will so consider it.

[4] North Central Area Airline Service Airport Investigation, 41 CAB 326 (1964).

[5] The hyphenated point Oshkosh-Appleton is served by North Central Airlines through the Winnebago County Airport which is near Oshkosh and approximately 20 miles from Appleton. The New Outagamie County Airport, near Appleton, is served by Air Wisconsin, a commuter air carrier but not by North Central.

FEDERAL POWER COMMISSION

[Docket No. CI72-48]

MOBIL OIL CORP.

Notice of Application

JULY 30, 1971.

Take notice that on July 22, 1971, Mobil Oil Corp. (applicant), Post Office Box 1774, Houston, TX 77001, filed in Docket No. CI72-48 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corp. (Texas Eastern) in Jackson County, Tex., or at other mutually agreeable points on Texas Eastern's pipeline system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it either has or will in the near future commence the subject sale within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and that it proposes to continue said sale within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70) through June 30, 1972, at the rate of 35 cents per Mcf at 14.65 p.s.i.a.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before August 13, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.71-11145 Filed 8-2-71;8:51 am]

[Docket No. RP72-11]

NORTH PENN GAS CO.

Notice of Proposed Changes in Rates and Charges

JULY 30, 1971.

Take notice that on July 12, 1971, North Penn Gas Co. (North Penn) filed revised tariff sheets to its FPC Gas Tariff (Twentieth Revised Sheets Nos. 4 and 5 to its FPC Gas Tariff First Revised Volume No. 1), to be effective as of August 11, 1971. The proposed changes would increase jurisdictional revenues by approximately $90,000 based on operations for the 12-month period ended May 31, 1971. North Penn states that the purpose of the filing is to track the rate increases of its suppliers—Consolidated Gas Supply Co., Transcontinental Gas Pipeline Co., and Tennessee Gas Pipeline Co.

Any person desiring to be heard or to make protest with respect to said filing should on or before August 5, 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestant parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The filing is available at the Commission's office for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP71-252]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Petition To Amend

JULY 22, 1971.

Take notice that on July 13, 1971, Transcontinental Gas Pipe Line Corp. (petitioner), Post Office Box 1396, Houston, TX 77001, filed in Docket No. CP71-252 a petition to amend the order of the Commission, issued pursuant to section 7(c) of the Natural Gas Act on July 2, 1971 (46 FPC—), in said docket, by authorizing an allocation of additional long-term and 1-year GSS natural gas storage service, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

The order of July 2, 1971, issued in lead Docket No. CP71-251 et al., authorized, inter alia, the rendition of additional natural gas storage service for petitioner by Consolidated Gas Supply Corp. and the construction and operation of facilities by petitioner to enable it to pass this service on to its customers. The total increase in the volumes of gas available as a result of the storage service is approximately 7,250,000 Mcf, with an increase in petitioner's long-term daily entitlement of approximately 90,000 Mcf and short-term daily entitlement of 45,000 Mcf. No allocation of this service was heretofore proposed in Docket No. CP71-252. Petitioner now submits the following proposed allocation of service:

Customer	Long term		1 year	
	Demand	Capacity	Demand	Capacity
Alexander City, Ala.	70	3,960	35	1,750

Winder, Ga.	120	6,860	60	3,000
Total	89,325	4,962,700	44,655	2,232,750

Petitioner requests that the order of the Commission heretofore issued in Docket No. CP71-252, be amended to provide for this allocation of GSS storage service.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 13, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

AFFILIATED BANKSHARES OF COLORADO, INC.

Notice of Application for Approval of Acquisition of Shares of Bank

Notice is hereby given that application has been made, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)), by Affiliated Bankshares of Colorado, Inc., which is a bank holding company located in Boulder, Colo., for prior approval by the Board of Governors of the acquisition by Applicant of 80 percent or more of the voting shares of University National Bank of Fort Collins, Fort Collins, Colo.

Section 3(c) of the Act provides that the Board shall not approve:

(1) Any acquisition or merger or consolidation under section 3 which would result in a monopoly, or which would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States, or

(2) Any other proposed acquisition or merger or consolidation under section 3 whose effect in any section of the country may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Section 3(c) further provides that, in every case, the Board shall take into consideration the financial and managerial resources and future prospects of the company or companies and the banks concerned, and the convenience and needs of the community to be served.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The application may be inspected at the office of the Board of Governors or the Federal Reserve Bank of Kansas City.

Board of Governors, July 27, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

FIRST SECURITY NATIONAL CORP.

Notice of Application for Approval of Acquisition of Shares of Bank

Notice is hereby given that applications have been made, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)), by First Security National Corp., which is a bank holding company located in Beaumont, Tex., for prior approval by the Board of Governors of the acquisition by applicant of the following:

(1) 56.95 percent of the voting shares of the Sour Lake State Bank, Sour Lake, Tex.;

(2) 51 percent of the voting shares of the Peoples State Bank of Kountze, Kountze, Tex., and

(3) 24 percent of the voting shares of The Village State Bank, Beaumont, Tex.;

Notice of application made by applicant to acquire 37.5 percent of the Gateway National Bank of Beaumont, Beaumont, Tex., was published in the FEDERAL REGISTER on July 23, 1971 (36 F.R. 13709).

Section 3(c) of the Act provides that the Board shall not approve:

(1) Any acquisition or merger or consolidation under section 3 which would result in a monopoly, or which would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States, or

(2) Any other proposed acquistion or merger or consolidation under section 3 whose effect in any section of the country may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Section 3(c) further provides that, in every case, the Board shall take into consideration the financial and managerial resources and future prospects of the company or companies and the banks concerned, and the convenience and needs of the community to be served.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisitions may be

filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The applications may be inspected at the office of the Board of Governors or the Federal Reserve Bank of Dallas.

Board of Governors, July 28, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

[FR Doc.71-11021 Filed 8-2-71;8:45 am]

FIRST VIRGINIA BANKSHARES CORP.

Order Approving Acquisition of Bank Stock by Bank Holding Company

In the matter of the application of First Virginia Bankshares Corp., Arlington, Va., for approval of acquisition of 80 percent or more of the voting shares of the successor by merger to Bank of Bland County, Bland, Va.

There has come before the Board of Governors, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)), and § 222.3 (a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by First Virginia Bankshares Corp., Arlington, Va. (Applicant), a registered bank holding company, for the Board's prior approval of the acquisition of 80 percent or more of the voting shares of the successor by merger to Bank of Bland County, Bland, Va. (Bank).

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Virginia Commissioner of Banking, and requested his views and recommendation. The Commissioner recommended approval.

Notice of receipt of the application was published in the FEDERAL REGISTER on June 9, 1971 (36 F.R. 11127), providing an opportunity for interested persons to submit comments and views with respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired and all those received have been considered.

The Board has considered the application in the light of the factors set forth in section 3(c) of the Act, including the effect of the proposed acquisition on competition, the financial and managerial resources and future prospects of the Applicant and the banks concerned, and the convenience and needs of the communities to be served, and finds that:

Applicant is the sixth largest banking organization and the fifth largest holding company in Virginia, controlling 15 banks with $474.5 million in deposits. (Banking data are as of June 30, 1971, and reflect holding company acquisitions and formations approved by the Board to date.) Acquisition of Bank (deposits $4 million) would not change Applicant's ranking and consummation of the proposal would not increase concentration in any market.

Bank, located in Bland and having a branch at Rocky Gap, is the only bank located in Bland County, and there is no competition between it and Applicant's closest subsidiary located in Narrows, 21 miles northeast of Rocky Gap. For geographic reasons such competition appears unlikely to develop, and the declining population of the Bland area makes de novo entry by Applicant unlikely. Consummation of the proposed transaction would neither eliminate existing competition, foreclose potential competition, nor have adverse effects on the viability or competitive effectiveness of any competing banks. The proposal, by allowing Bank to provide full banking services, might strengthen Bank's ability to compete for Bland County deposits with Banks in Wytheville, Va., and Bluefield, W. Va., and thus stimulate competition. Based upon the foregoing, the Board concludes that consummation of the proposed acquisition would not have an adverse effect on competition in any relevant area, and might have a procompetitive effect in Bland County.

Applicant, through Bank, proposes to introduce to the area additional types of deposit services, such as certificates of deposit, additional loan services, such as overdraft checking accounts, and trust services, and considerations relating to the convenience and needs of the communities to be served lend strong weight in favor of approval due to the proposed local availability of full banking services. Considerations relating to the banking factors lend some weight toward approval of the application, in that Bank's financial condition and prospects, although generally satisfactory, would be enhanced through affiliation with Applicant. It is the Board's judgment that the proposed transaction would be in the public interest and should be approved.

It is hereby ordered, For the reasons set forth above, that said application be and hereby is approved, provided that the acquisition so approved shall not be consummated (a) before the 30th calendar day following the date of this order, or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Richmond, pursuant to delegated authority.

By order of the Board of Governors,[1] July 26, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

[FR Doc.71-11029 Filed 8-2-71;8:46 am]

GALBANK, INC.

Notice of Application for Approval of Acquisition of Shares of Bank

Notice is hereby given that application has been made, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)), by Galbank, Inc., which is a bank holding company located in Galveston, Tex., for prior approval by the Board of Governors of the indirect acquisition (through its wholly owned subsidiary United States National Bancshares, Inc., Galveston, Tex.) of approximately 61 percent of the voting shares of Sugar Land State Bank, Sugar Land, Tex.

Section 3(c) of the Act provides that the Board shall not approve:

(1) Any acquisition or merger or consolidation under section 3 which would result in a monopoly, or which would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States, or

(2) Any other proposed acquisition or merger or consolidation under section 3 whose effect in any section of the country may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Section 3(c) further provides that, in every case, the Board shall take into consideration the financial and managerial resources and future prospects of the company or companies and the banks concerned, and the convenience and needs of the community to be served.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The application may be inspected at the office of the Board of Governors or the Federal Reserve Bank of Dallas.

By order of the Board of Governors, July 26, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

MID AMERICA BANCORPORATION, INC.

Notice of Application for Approval of Acquisition of Shares of Bank

Notice is hereby given that application has been made, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)), by Mid America Bancorporation, Inc., which is a bank holding company located in St. Paul, Minn., for prior approval by the Board of Governors of the acquisition by applicant of 90 percent or more of the voting shares of Mid America State Bank of Mendota Heights, Mendota Heights, Minn., a proposed new bank.

Section 3(c) of the Act provides that the Board shall not approve:

(1) Any acquisition or merger or consolidation under section 3 which would result in a monopoly, or which would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States, or

(2) Any other proposed acquisition or merger or consolidation under section 3 whose effect in any section of the country may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Section 3(c) further provides that, in every case, the Board shall take into consideration the financial and managerial resources and future prospects of the company or companies and the banks concerned, and the convenience and needs of the community to be served.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The application may be inspected at the office of the Board of Governors or the Federal Reserve Bank of Minneapolis.

Board of Governors, July 27, 1971.

NORTHWEST BANCORPORATION

Notice of Application for Approval of Acquisition of Shares of Bank

Notice is hereby given that application has been made, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)), by Northwest Bancorporation, which is a bank holding company located in Minneapolis, Minn., for prior approval by the Board of Governors of the acquisition by applicant of 90 percent or more of the voting shares of Farmers and Merchants State Bank, Stillwater, Minn.

Section 3(c) of the Act provides that the Board shall not approve:

(1) Any acquisition or merger or consolidation under section 3 which would result in a monopoly, or which would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States, or

(2) Any other proposed acquisition or merger or consolidation under section 3 whose effect in any section of the country may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Section 3(c) further provides that, in every case, the Board shall take into consideration the financial and managerial resources and future prospects of the company or companies and the banks concerned, and the convenience and needs of the community to be served.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The application may be inspected at the office of the Board of Governors or the Federal Reserve Bank of Minneapolis.

Board of Governors, July 28, 1971.

SECURITY CORP.

Notice of Application for Approval of Acquisition of Shares of Bank

Notice is hereby given that application has been made, pursuant to section 3(a)(1) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(1)), by Security Corp., Duncan, Okla., for prior approval by the Board of Governors of action whereby applicant would become a bank holding company through the acquisition of 89.75 percent of the voting shares of The Security National Bank & Trust Co. of Duncan, Duncan, Okla.

Section 3(c) of the Act provides that the Board shall not approve:

(1) Any acquisition or merger or consolidation under section 3 which would result in a monopoly, or which would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States, or

(2) Any other proposed acquisition or merger or consolidation under section 3 whose effect in any section of the country may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Section 3(c) further provides that, in every case, the Board shall take into consideration the financial and managerial resources and future prospects of the company or companies and the banks concerned, and the convenience and needs of the community to be served.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The application may be inspected at the office of the Board of Governors or the Federal Reserve Bank of Kansas City.

Board of Governors, July 27, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

UNITED CAROLINA BANCSHARES CORP.

Notice of Application for Approval of Acquisition of Shares of Bank

Notice is hereby given that application has been made, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)), by United Carolina Bancshares Corp., which is a bank holding company located in Whiteville, N.C., for prior approval by the Board of Governors of the acquisition by applicant of 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Cape Fear Bank and Trust Co., Fayetteville, N.C.

Section 3(c) of the Act provides that the Board shall not approve:

(1) Any acquisition or merger or consolidation under section 3 which would result in a monopoly, or which would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States, or

(2) Any other proposed acquisition or merger or consolidation under section 3 whose effect in any section of the country may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Section 3(c) further provides that, in every case, the Board shall take into consideration the financial and managerial resources and future prospects of the company or companies and the banks concerned, and the convenience and needs of the community to be served.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The application may be inspected at the office of the Board of Governors or the Federal Reserve Bank of Richmond.

Board of Governors, July 27, 1971.

[1] Voting for this action: Governors Mitchell, Daane, Maisel, and Brimmer. Absent and not voting: Chairman Burns and Governors Robertson, and Sherrill.

UNITED STATES NATIONAL BANCSHARES, INC.

Notice of Application for Approval of Acquisition of Shares of Bank

Notice is hereby given that application has been made, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)), by United States National Bancshares, Inc., which is a bank holding company located in Galveston, Tex., for prior approval by the Board of Governors of the acquisition by applicant of approximately 61 percent of the voting shares of Sugar Land State Bank, Sugar Land, Tex.

Section 3(c) of the Act provides that the Board shall not approve:

(1) Any acquisition or merger or consolidation under section 3 which would result in a monopoly, or which would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States, or

(2) Any other proposed acquisition or merger or consolidation under section 3 whose effect in any section of the country may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Section 3(c) further provides that, in every case, the Board shall take into consideration the financial and managerial resources and future prospects of the company or companies and the banks concerned, and the convenience and needs of the community to be served.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The application may be inspected at the office of the Board of Governors or the Federal Reserve Bank of Dallas.

By order of the Board of Governors, July 26, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 2-27055 (22-4634)]

KIMBERLY-CLARK CORP.

Notice of Application and Opportunity for Hearing

JULY 28, 1971.

Notice is hereby given that Kimberly-Clark Corp. (the "Company") has filed an application under clause (ii) of section 310(b)(1) of the Trust Indenture Act of 1939 (the "Act") for a finding that the trusteeship of First National City Bank (FNCB) under an indenture heretofore qualified under the Act, and a new indenture not qualified under the Act, is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify FNCB from acting as Trustee under either of the indentures.

Section 310(b) of the Act provides in part that if a trustee under an indenture qualified under the Act has or shall acquire any conflicting interest, it shall within 90 days after ascertaining that it has such conflicting interest, either eliminate such conflicting interest or resign. Subsection (1) of such section provides, in effect, with certain exceptions, that a trustee under a qualified indenture shall be deemed to have a conflicting interest if such trustee is trustee under another indenture under which any other securities of the same issuer are outstanding. However, under clause (ii) of subsection (1), there may be excluded from the operation of this provision another indenture under which other securities of the issuer are outstanding, if the issuer shall have sustained the burden of proving, on application to the Commission and after opportunity for hearing thereon, that trusteeship under the qualified indenture and such other indenture is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify such trustee from acting as trustee under either of said indentures.

The Company alleges that:

(1) It has issued and outstanding $50 million principal amount of 5⅞ percent debentures due August 15, 1992, under an indenture, dated as of August 15, 1967 (the "1967 Indenture"), between the Company and FNCB and qualified under the Act.

(2) FNCB has entered into an indenture dated as of April 15, 1971 (the "1971 Indenture"), with Kimberly-Clark International Finance Corp. N. V. (K-C International) and the Company pursuant to which there have been issued $20 million principal amount of K-C International's 8½ percent guaranteed debentures due 1986. The Company is a party to the 1971 Indenture solely as a guarantor of the debentures issued thereunder. Inasmuch as the debentures issued under the 1971 Indenture have been offered and sold outside the United States, its territories and possessions to persons who are not nationals or residents thereof, the 1971 Indenture has not been qualified under the Act and the debentures issued thereunder have not been registered under the Securities Act of 1933.

(3) The 1967 Indenture and the 1971 Indenture are wholly unsecured and the Company is not in default under either indenture. All debentures issued under the 1967 Indenture rank equally with the guarantee of the Company of the debentures issued under the 1971 Indenture. Except for variations as to amounts, dates, and interest rates and certain other figures, with certain exceptions set forth in the application, the provisions of the 1967 Indenture and the 1971 Indenture are substantially identical.

(4) Such differences as exist between the 1967 Indenture and the 1971 Indenture are not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify FNCB from acting as trustee under both indentures.

The Company has waived notice of hearing, and hearing, in connection with the matter referred to in this application.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application, which is a public document on file in the offices of the Commission at 500 North Capitol Street NW., Washington, DC 20549.

Notice is further given that any interested person may, not later than August 25, 1971, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by such application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. At any time after said date, the Commission may issue an order granting the application, upon such terms and conditions as the Commission may deem necessary or appropriate in the public interest and the interest of investors, unless a hearing is ordered by the Commission.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

[SEAL] THEODORE L. HUMES,
Associate Secretary.

[812-2970]

MASSACHUSETTS INVESTORS GROWTH STOCK FUND, INC.

Notice of Filing of Application for Order Exempting Sale by Open-End Company of Securities at Other Than Public Offering Price

JULY 28, 1971.

Notice is hereby given that Massachusetts Investors Growth Stock Fund, Inc. (Applicant), 200 Berkeley Street, Boston, MA 02116, a Massachusetts corporation registered under the Investment Company Act of 1940 (Act) 15 U.S.C. sec. 80a-1 et seq., as an open-end diversified management investment company, has filed an application pursuant to 6(c) of the Act requesting an order of the Commission exempting from the provisions of section 22(d) of the Act of transaction in which Applicant's redeemable securities will be issued at a price other than the current public offering price in exchange for substantially all of the assets of National Worsted Mills, Inc. (National). All interested persons are referred to the application on file with the Commission for a statement of Applicant's representation which are summarized below.

National, a New York corporation, is a personal holding company, all of whose outstanding stock is owned by not more than 42 individuals, and is thus exempted from the definition of an investment company and the necessity to register under the Act by reason of the provisions of section 3(c)(1) thereof. Pursuant to an agreement between Applicant and National, assets owned by National with a value of approximately $4,220,804 on May 21, 1971, will be transferred to Applicant in exchange for shares of Applicant's stock.

The number of shares of Applicant to be issued to National is to be determined by dividing the aggregate market value of the assets of National (subject to certain adjustments as set forth in the application) to be transferred to the Applicant by the net asset value per share of Applicant (as defined in the agreement), both to be determined as of the valuation time. If the valuation in the agreement had taken place on May 4, 1971, when the net asset value per share of Applicant's shares was $13.36, National would have received approximately 343,526 shares of Applicant's stock.

When received by National, the shares of Applicant are to be distributed to the National shareholders upon the liquidation of National. Applicant has been advised by the management of National that the shareholders of National do not have any present intention of selling the shares of Applicant to be received upon such liquidation following the sale of assets of National to Applicant, or of redeeming any substantial number thereof. Applicant does presently intend to sell a portion of the securities acquired from National subsequent to their acquisition as set out in the application.

Applicant represents that no affiliation exists between National or any director or stockholder thereof and Applicant, and that the agreement was negotiated at arm's-length by the principals of both corporations.

Section 22(d) of the Act provides that registered open-end investment companies may sell their shares only at the current public offering price as described in the prospectus. Section 6(c) permits the Commission, upon application, to exempt such a transaction if it finds that such an exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant contends that the proposed offering of its stock will comply with the provisions of the Act, other than section 22(d), and submits that the granting of the application would be in accordance with established practice of the Commission, and is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than August 19, 1971 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commssion's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

THEODORE L. HUMES,
Associate Secretary.

NORTHERN GROWTH FUND OF NORTHERN TRUST CO.

Notice of Application for Order Declaring Company Has Ceased To Be an Investment Company

JULY 28, 1971.

Notice is hereby given that Northern Growth Fund of The Northern Trust Company (Applicant), 50 South La Salle Street, Chicago, IL 60670, an Illinois corporation registered as a diversified open-end management investment company under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations as set forth therein, which are summarized below.

Applicant registered under the Act on September 10, 1970, by filing both a notification of registration on Form N-8A and a registration statement on Form N-8B-1. On the same date a registration statement on Form S-5 was filed with the Commission under the Securities Act of 1933.

Applicant abandoned its intended public offering of its units of participation because of the decision of the U.S. Supreme Court in Investment Company Institute v. Camp, 401 U.S. 617 (1971).

Applicant represents that it has no assets or shareholders, and that no public offering or sale of its units of participation has been made or is intended to be made. Applicant has also filed an amendment to its registration statement under the Securities Act of 1933 reducing the number of units of participation registered thereby, and has requested withdrawal of its registration statement pursuant to Rule 477 under the Securities Act of 1933.

Section 3(c)(1) of the Act excepts from the definition of investment company any issuer whose outstanding securities are beneficially owned by not more than 100 persons, and which is not making and does not presently propose to make a public offering of its securities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than August 18, 1971, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted or he may request he be notified if the Commision should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of attorney at law by certificate) shall be filed contemporaneously with the request. At any time later than said date as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in such application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] THEODORE L. HUMES,
Associate Secretary.

TENNESSEE VALLEY AUTHORITY

PROPOSED DUCK RIVER PROJECT

Notice of Public Hearing

Notice is hereby given that the Tennessee Valley Authority will hold a public hearing on the proposed Duck River Project beginning at 9 a.m., c.d.t., on August 24, 1971, at the Columbia State Community College Auditorium in Columbia, Tenn. A session will also be held beginning at 7 p.m., c.d.t., for the purpose of receiving statements from persons unable to attend the daytime session. The purpose of the hearing is to provide relevant information concerning the proposed Duck River Project and to obtain views of interested parties. The proposed project includes construction of two dams and reservoirs on the Duck River, one a 3,200-acre impoundment in Bedford and Coffee Counties, Tenn., to be created by a dam near Normandy, the other a 12,600-acre impoundment in Maury and Marshall Counties, Tenn., to be created by a dam near Columbia.

The draft environmental statement prepared in connection with the proposed project, dated June 30, 1971, has previously been filed with the Council on Environmental Quality and been made available to the public. Single copies are available upon request to the Director of Information, Tennessee Valley Authority, Knoxville, Tenn. 37902. Copies of the statement and of the TVA project planning report are available for inspection at the following places:

PUBLIC LIBRARIES

Coffee County Library, 312 North Collins, Tullahoma, TN 37388.
Argie Cooper Library, 100 South Main Street, Shelbyville, TN 37160.
Maury County Library, 211 West Eighth Street, Columbia, TN 38401.
Coffee County Library, 112 East Fort, Manchester, TN 37355.
Marshall County Library, 438 Eighth Avenue North, Lewisburg, TN 37091.

TVA OFFICES

Director of Information, Tennessee Valley Authority, 333 New Sprankle Building, 500 Union Avenue, Knoxville, TN 37902.
Tennessee Valley Authority, 437 Woodward Building, 15th and H Streets, Washington, DC 20444.

Copies of the report and the statement will also be available for inspection at the place of hearing.

The hearing will begin with a presentation by TVA of information concerning the proposed project. The balance of the hearing will be devoted to the presentation of statements by or on behalf of representatives of State and local government, citizens' groups, and other interested persons. The submission of written statements for inclusion in the hearing record is encouraged. It is requested that such statements be submitted to TVA in advance of the hearing; however, all written statements received by September 3, 1971, will be so included.

Persons desiring to present brief oral statements at the meeting, in addition to or in lieu of written statements, are requested to give TVA written notice of their intention to do so not later than August 13, 1971, specifying the session of the hearing (morning or evening) at which they desire to be heard. In order that all persons desiring to present statements may do so, it is requested that oral statements not exceed 10 minutes.

Written statements and notifications of intent to make statements should be sent to the Presiding Officer, Duck River Project Hearing, Division of Law, Tennessee Valley Authority, New Sprankle Building, Knoxville, TN 37902.

The hearing will be conducted by a presiding officer who will be a representative of the TVA Division of Law. The presiding officer will insure that the hearing is conducted in an orderly manner and in accordance with these procedures. In so doing, the presiding officer shall make such parliamentary rulings and establish such supplemental procedures, including allocation of time available, as may be appropriate in his discretion to afford all interested parties a reasonable opportunity to be heard.

A hearing record will be prepared by TVA. The record will include a verbatim transcription of the oral proceedings and a copy of each written statement supplied to TVA by September 3, 1971. A copy of the record will be available for public inspection at a public place in the area of the project, such place to be announced at the hearing. Another copy will be available for inspection during regular business hours in the office of the Director of Information, Tennessee Valley Authority, Knoxville, Tenn. 37902.

INTERSTATE COMMERCE COMMISSION

[Section 5a Application 65, Amdt. 4]

NATIONAL EQUIPMENT INTERCHANGE AGREEMENT

Applications for Approval of Amendments

JUNE 30, 1971.

The Commission is in receipt of an application in the above-entitled proceeding for approval of amendments to the agreement therein approved.

Filed June 9, 1971 by: Kenneth R. Hauck, 1616 P Street NW., Washington, DC 20036, attorney-in-fact for petitioners. Roland Rice, Elliott Bunce, 618 Perpetual Building, Washington, DC 20004, counsel for petitioners.

The amendments involve changes in the bylaws of the association comprising the present agreement so as to: (1) (a) Include carriers subject to the jurisdiction of the Federal Maritime Commission and section 15 of the Shipping Act of 1916 (section 3.1), and (b) establish a new associate membership class embracing any interested corporation engaged in manufacturing or services related to transportation believed by the

Finance and Membership Committee to offer mutual advantage, subject to terms prescribed by the Board of Directors, but precluding execution of the agreement or participation in any subject covered thereby (section 3.4); (2) expand the joint activities of the members to embrace matters relating to interline of freight, in addition to equipment interchange (Article II), and provide separate practices and procedures therefor in revised Articles IX, X, XI, transferring those present article provisions to Articles XIII, XIV and XV, respectively; (3) revise the agreement form for execution by member carriers and the association to reflect the changes proposed in carrier membership and joint activity described in (1)(a) and (2) above (Article IV); (4) eliminate mandatory election on the Board of Directors of a specified number of members of the Regular Common Carrier Conference of the American Trucking Associations, Inc. (Article V); (5) create a new elective office of Third Vice President (Article VI); (6) change the composition of the executive committee to include elected officials, any carrier member, and the three most recent past presidents, in lieu of only the immediate past president, and exclude the managing director (Article VII); (7) modify the independent action provisions to reflect the expanded joint activity by deleting section 8.9, and provide new procedures in a separate Article XII, and transfer present provisions of Article XII—Vacancies, to new Article XVI; and (8) make other incidental changes made necessary to clarify or effectuate the foregoing changes.

Any interested persons desiring to protest and participate in this proceeding shall notify the Commission in writing within 20 days from the date of publication of this notice in the FEDERAL REGISTER. As provided by the Commission's general rules of practice, persons other than applicant should fully disclose their interest, and the position they intend to take with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved without public hearing.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Section 5a Application 103]

TRANS-SERVICE RATE CONFERENCE

Application for Approval of Agreement

JULY 21, 1971.

The Commission is in receipt of the above-entitled and numbered application for approval of an agreement under the provisions of section 5a of the Interstate Commerce Act.

Filed June 28, 1971, by: Harold Hunt, Jr., 426 Barclay Building, Bala-Cynwyd, Pa. 19004, attorney-in-fact. Alan Kahn, Winokur & Kahn, Suite 1920, 2 Penn Center Plaza, Philadelphia, Pa. 19102.

Agreement involves: Organization, practices, and procedures between and among common carriers by motor vehicle, members of Trans-Service Rate Conference, for the joint consideration, initiation, or establishment of rates, rules, and provisions, applicable to the transportation of commodities in interstate, intrastate, and foreign commerce, between points in the States of Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, and Wisconsin.

The complete application may be inspected at the Office of the Commission, in Washington, D.C.

Any interested person desiring to protest and participate in this proceeding shall notify the Commission in writing within 20 days from the date of publication of this notice in the FEDERAL REGISTER. As provided by the general rules of practice of the Commission, persons other than applicants should fully disclose their interest, and the position they intend to take with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved without public hearing.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Rev. S.O. 994; ICC Order 59, Amdt. 1]

CERTAIN RAILROADS

Rerouting or Diversion of Traffic

Upon further consideration of ICC Order No. 59 (various railroads), and good cause appearing therefor:

It is ordered, That:

ICC Order No. 59 be, and it is hereby, amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date.* This order shall expire at 11:59 p.m., August 15, 1971, unless otherwise modified, changed, or suspended.

It is further ordered, That this amendment shall become effective at 11:59 p.m., July 31, 1971; and that it shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., July 29, 1971.

LIST OF CFR SECTIONS AFFECTED

1949–1963

This volume contains a compilation of the "List of Sections Affected" for all titles of the Code of Federal Regulations for the years 1949 through 1963. All sections of the CFR which have been expressly affected by documents published in the daily Federal Register are enumerated.

Reference to this list will enable the user to find the precise text of CFR provisions which were in force and effect on any given date during the period covered.

Price: $6.75

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962–8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

VETERINARY DRUGS—
FDA proposals on use of furazolidone and antibiotics in animal feed and furaltadone for treatment of mastitis (2 documents); comments within 30 days 14335, 14336

FDA notices on withdrawal of approval of furazolidone and furaltadone (2 documents); comments within 30 days 14343

FAIR HOUSING—HUD proposal on display of poster on dwellings and land for sale or lease; comments by 9–17–71 14336

PATENTS—USDA notice on certain inventions available for exclusive licensing; effective 8–4–71 14340

AGRICULTURAL RESEARCH—USDA notice on evaluation of chemicals for potential development 14341

NEW DRUGS—FDA notice withdrawing approval of applications; effective 8–4–71 14342

OCCUPATIONAL SAFETY AND HEALTH—National Advisory Committee notice of public meeting on 8–11–71 14358

Title 3—The President

PROCLAMATION 4071

National Clown Week

By the President of the United States of America

A Proclamation

Whoever has heard the laughter of a child or seen sudden delight on the face of a lonely old man has understood in those brief moments mysteries deeper than love.

All men are indebted to those who bring such moments of quiet splendor—who redeem sickness and pain with joy. All across America, good men in putty noses and baggy trousers, following a tradition as old as man's need to touch gently the lives of his fellowman, go into orphanages and children's hospitals, homes for the elderly and for the retarded, and give a part of themselves. Today, as always, clowns and the spirit they represent are as vital to the maintenance of our humanity as the builders and the growers and the governors.

In the folklore of the world is the persistent claim that the heart of a clown is sad, and that all the gladness he provokes is simply a facade for the pain he cannot reveal to the world. In the myth is the kernel of reason: the clown leaves happiness where he goes, and takes misery away with him.

Yet, we cannot suppose there is real truth in the myth. For surely the laugh-makers are blessed: they heal the heart of the world.

To call public attention to the charitable activities of clowns and the wholesome entertainment they provide for all our citizens, the Congress by a joint resolution approved October 8, 1970 (Public Law 91–433), has requested the President to designate the week of August 1 through August 7, 1971, as National Clown Week.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby proclaim the week of August 1

through August 7, 1971, as National Clown Week. I invite the Governors of the States and the appropriate officials of other areas under the United States flag to issue similar proclamations.

I urge the people of the United States to recognize the contributions made by clowns in their entertainment at children's hospitals, charitable institutions, institutions for the mentally retarded, and generally helping to lift the spirits and boost the morale of our people.

IN WITNESS WHEREOF, I have hereunto set my hand this second day of August, in the year of our Lord nineteen hundred seventy-one, and of the Independence of the United States of America the one hundred ninety-sixth.

Richard Nixon

[FR Doc.71-11242 Filed 8-3-71; 9:02 am]

EXECUTIVE ORDER 11613

Membership of Environmental Protection Agency on Established River Basin Commissions

By virtue of the authority vested in me by section 202 of the Water Resources Planning Act (79 Stat. 247; 42 U.S.C. 1962 b-1) and as President of the United States, it is ordered as follows:

SECTION 1. Section 3(2) of each of the following-described Executive orders is amended by adding "Environmental Protection Agency," immediately after "Department of Transportation,"—

(1) Executive Order No. 11331 of March 6, 1967, establishing the Pacific Northwest River Basins Commission;

(2) Executive Order No. 11345 of April 20, 1967, establishing the Great Lakes Basin Commission;

(3) Executive Order No. 11359 of June 20, 1967, establishing the Souris-Red-Rainy River Basins Commission; and

(4) Executive Order No. 11371 of September 6, 1967, establishing the New England River Basins Commission, as amended by Executive Order No. 11528 of April 24, 1970.

SEC. 2. The Administrator of the Environmental Protection Agency shall appoint a member to each river basin commission to serve as the representative of that Agency as soon as practicable after the date of issuance of this Order.

Richard Nixon

THE WHITE HOUSE,
August 2, 1971.

Chapter II—Food and Nutrition Service, Department of Agriculture

[Amdt. 5]

PART 210—NATIONAL SCHOOL LUNCH PROGRAM

State Matching of Funds

On April 22, 1971, there was published in the FEDERAL REGISTER (36 F.R. 7603) a notice of proposed rule making to amend the regulations governing the National School Lunch Program (35 F.R. 753, as amended, 35 F.R. 3900, 35 F.R. 14061, 36 F.R. 1246, 36 F.R. 7592) for the purpose of implementing the matching requirements of the National School Lunch Act, as amended by Public Law 91–248, approved May 14, 1970. Interested persons were given 20 days in which to submit comments, suggestions, or objections regarding the proposed regulations.

Numerous communications were received. The comments, suggestions, and objections made in such communications have been considered and a number of changes from the proposed regulations have been made.

In order that the amendment to the regulations may become effective as soon as possible in view of the fact that it applies to the fiscal year beginning July 1, they are hereby issued without an analysis of the comments, suggestions, and objections received. Such analysis will be issued and published at an early date.

Regulations for the operation of the general cash-for-food assistance phase of the National School Lunch Act, as amended, are further amended as follows:

1. Section 210.6 is revised to read as follows:

§ 210.6 Matching of funds.

(a) Each State Agency shall match each dollar of general cash-for-food assistance funds paid to it each fiscal year with $3 of funds from sources within the State determined by the Secretary to have been expended in connection with the Program: *Provided, however,* That, if the per capita income of any State is less than the per capita income of the United States, the matching requirement for any fiscal year shall be decreased by the percentage by which the State per capita income is below the per capita income of the United States. The amount of general cash-for-food assistance to be so matched shall be the net amount of such funds taking into consideration any funds transferred into the general cash-for-food assistance funds account and any funds transferred out of such account under the authority of section 10 of the Child Nutrition Act of 1966, as amended.

(b) For the fiscal year beginning July 1, 1971, and the fiscal year beginning July 1, 1972, State revenues (other than revenues derived from the Program) appropriated or specifically utilized for Program purposes (other than salaries and administrative expenses at the State, as distinguished from local, level) shall constitute at least 4 per centum of the matching requirement set forth in paragraph (a) of this section; for each of the 2 succeeding fiscal years, at least 6 per centum of such matching requirement; for each of the subsequent 2 fiscal years, at least 8 per centum of such matching requirement; and for each fiscal year thereafter, at least 10 per centum of such matching requirement.

(c) The following funds from sources within the State shall be eligible to be counted in meeting the matching requirement prescribed in paragraph (a) of this section: (1) Funds expended for the Program, including Program administration, by the State or its political subdivisions or by or on behalf of any School Food Authority from any source of State or local funds (including, but not limited to, children's payments), except funds expended for land or the acquisition, construction or alteration of buildings; and (2) the value of commodities, services, supplies, facilities, and equipment donated to the Program, except the value of commodities donated by FNS or the value of land or the rental value of buildings used in connection with the Program: *Provided, however,* That the percentage of such matching requirements specified in paragraph (b) of this section shall be met by State revenues meeting the requirements of paragraph (d) of this section. The value of donations eligible for matching shall be certified by the State Agency or by the School Food Authorities of nonprofit private schools with respect to which the Program is administered by FNSRO.

(d) The following State revenues, appropriated or otherwise made available which are expended for any fiscal year shall be eligible for meeting the applicable percentage of the matching requirements prescribed in paragraph (b) of this section for that fiscal year: (1) State

revenues disbursed by the State Agency to School Food Authorities for Program purposes, including revenues disbursed to nonprofit private schools where the State administers the Program in such schools: (2) State revenues made available to School Food Authorities and transferred by the School Food Authorities to the nonprofit school lunch program accounts or otherwise expended by the School Food Authorities in connection with the nonprofit school lunch programs; and (3) State revenues used to finance the costs (other than State salaries or other State administrative costs) of (i) local Program supervision (ii) operating the Program in participating schools and (iii) the intrastate distribution of foods donated under Part 250 of this chapter to schools participating in the Program.

(e) The State revenues made available under paragraph (b) of this section shall be disbursed to School Food Authorities, to the extent the State deems practicable, in such manner that each School Food Authority receives the same proportionate share of such revenues as it receives of funds apportioned to the State for the same year under sections 4 and 11 of the Act and sections 4 and 5 of the Child Nutrition Act of 1966, as amended. Determinations of practicability may be made with respect to a class of School Food Authorities as well as with respect to individual School Food Authorities.

(f) The State agency shall establish or cause to be established a system whereby all expended State revenues counted in meeting the matching requirement prescribed in paragraph (b) of this section are properly documented and accounted for.

(g) During the course of each fiscal year, it shall be the responsibility of the State Agency, or FNSRO where applicable, to determine whether the matching requirements of this section (other than the requirements relating to the portion representing State revenues) are being met. If it appears that the matching requirements will not be met, the State Agency or FNSRO shall take corrective action to assure compliance with these requirements.

(h) FNS shall determine that the required amount of funds from sources within the State and the required amount of State revenues have been expended in connection with the Program during any fiscal year, based upon reports to be submitted by the State Agency at the close of such fiscal year.

(i) If, in any fiscal year, a State fails to meet the State revenue matching requirement, as prescribed in paragraph (b) of this section, such State shall return to FNS, upon demand by FNS, a portion of the general cash-for-food assistance funds equal to the per centum by which it failed to meet such requirement, e.g., if a State has met only 50 percent of the State revenue matching requirement for any fiscal year, such State shall return 50 percent of the general cash-for-food assistance funds utilized by the State in that fiscal year. If in any fiscal year a State meets the State revenue matching requirement prescribed in paragraph (b) of this section but fails to meet its overall matching requirement prescribed in paragraph (a) of this section, such State shall return to FNS, upon demand by FNS, a portion of the general cash-for-food assistance funds equal to the per centum by which it failed to meet its overall matching requirement.

(j) In any State where FNSRO administers the Program with respect to nonprofit private schools, each dollar of general cash-for-food assistance funds paid by FNS to the School Food Authorities of such schools in the aggregate for any fiscal year shall be matched by $3 of funds from sources within the State determined by the Secretary to have been expended by School Food Authorities of nonprofit private schools in connection with the Program: *Provided, however,* That, if the per capita income of the State is less than the per capita income of the United States, the matching requirement for any fiscal year shall be decreased by the percentage by which the State per capita income is below the per capita income of the United States. If the aggregate payment of general cash-for-food assistance funds for such schools is not matched as provided in this paragraph, any School Food Authority not matching the general cash-for-food assistance funds paid to it shall return upon demand by FNS its pro rata share of the amount of the funds determined by FNS not to have been matched.

§ 210.14 [Amended]

2. In § 210.14, paragraph (g)(4) is amended by adding the following before the period at the end thereof: "and a report on the full matching requirements set forth in § 210.6 including a report on the matching with State revenue prescribed in § 210.6(g)."

NOTE: The reporting and/or recordkeeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Effective date. These regulations shall be effective July 1, 1971.

Dated: July 28, 1971.

RICHARD E. LYNG,
Assistant Secretary.

[FR Doc.71-11172 Filed 8-3-71;8:51 am]

Chapter VII—Agricultural Stabilization and Conservation Service, (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 718—DETERMINATION OF ACREAGE AND COMPLIANCE

Basis and purpose. The provisions of Part 718 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.), to provide for ascertaining crop and land use acreages and compliance with program requirements.

This document is a revision of rules currently in effect under §§ 718.1 to 718.30 of this part (35 F.R. 11560, 12193, 12640; basic regulation with no amendments). Sections have been rewritten to incorporate changes attributable to the Agricultural Act of 1970. The changes herein are applicable to the 1971 and subsequent crop years.

Since farmers need to know the changes herein as soon as possible in connection with 1971 programs, it is hereby found and determined that compliance with the notice, public procedure, and 30-day effective date provisions of 5 U.S.C. 553 is impracticable and contrary to the public interest. Accordingly, Part 718 shall become effective upon publication in the FEDERAL REGISTER.

Sec.

718.1 Applicability.
718.2 Definitions.
718.3 Farm entry authority.
718.4 Committee functions and authority.
718.5 Measurement service.
718.6 Determination of compliance by farmer certification.
718.8 Determination of crop and land use acreage by farm visit.
718.9 Reliance by producer on previously determined acreage.
718.10 Determining acreage of unusual cases.
718.11 Notice of acreage to farm operator.
718.12 Redetermination of acreage.
718.13 Adjustment of acreage.
718.14 Crop disposition dates.

AUTHORITY: The provisions of this Part 718 issued under secs. 314, 373, 374, 375, 52 Stat. 48, as amended, 65, as amended, 66, as amended; 7 U.S.C. 1314, 1373, 1374, 1375.

§ 718.1 Applicability.

The provisions of this part apply to compliance determinations for 1971 and subsequent years under any program administered by the Agricultural Stabilization and Conservation Service through State and county committees. The provisions of §§ 718.1 to 718.30 (35 F.R. 11560, 12193, 12640) are superseded.

§ 718.2 Definitions.

(a) *General.* As used in this part, and in all instructions, forms and documents issued in connection therewith, the words and phrases defined in Part 719 of this chapter shall have the meanings so assigned and the terms defined in paragraph (b) of this section shall have the meanings so assigned, unless the text or subject matter otherwise requires.

(b) *Compliance terms.* (1) Allotment crop—any crop for which an acreage allotment (including a base acreage and domestic allotment) base, or proportionate share is established pursuant to regulations of the Department implementing Federal law.

(2) Director—Director or Acting Director, Program Performance Division, Agricultural Stabilization and Conservation Service, Department of Agriculture.

(3) Farmer certification—the determination of compliance with acreage allotments or other program requirements, by acceptance of the farm operator's certification in lieu of a farm visit.

(4) Normal row width—distance between rows of crops in the field provided such distance is 32 inches or more.

(5) Report—person employed to secure the necessary information and measurements to determine the acreages for which measurement are required.

(6) Disposition date—the day by which a farm operator must complete adjustment of applicable crop or land use acreages for compliance with program provisions. This date shall be the earlier of:

(i) The date a farm operator certifies to a final crop or land use acreage, or

(ii) The date published in § 718.14 for the crop or land use acreage.

§ 718.3 Farm entry authority.

(a) *General.* Any authorized representative of the Agricultural Stabilization and Conservation Service shall have authority to enter any farm for the purpose of measuring or ascertaining acreage or determining compliance with any mandatory or voluntary program administered by ASCS. For voluntary programs, application of the producer to participate in the program shall constitute his consent to the authority to enter the farm to measure or ascertain acreage or determine compliance. The person authorized to enter any farm shall present his written authorization upon request of any producer interested in the farm.

(b) *Refusal to permit measurement.* If a farm operator refuses to permit acreage measurement for any crop or program for which such measurements are required, the county executive director shall notify the farm operator in writing as soon as possible of the following consequences, as applicable, of the refusal to permit measurement and inspection on the farm:

(1) Program benefits will be denied;

(2) For ELS cotton and rice, buyers in the vicinity will be notified that the farm is considered to be in excess of the allotment;

(3) For peanuts and tobacco (except Flue-cured tobacco when acreage-poundage quotas are in effect and burley when poundage quotas are in effect), a 100 percent excess penalty card will be issued;

(4) For Flue-cured tobacco when acreage-poundage quotas are in effect, no marketing card showing the farm is eligible for price support will be issued; and

(5) The farm operator shall have 14 days from the date of the written notice to notify the county office that he will permit measurement and pay the cost thereof.

If the farm operator continue to refuse to permit a farm visit after the 14-day period prescribed in the written notice to him, any case involving a crop subject to a marketing quota (except Flue-cured and burley tobacco) shall be submitted by the county office to the State committee for referral to the applicable field representative of the Office of the General Counsel.

(c) *Refusal to furnish information concerning other interested persons on the farm.* If a farm operator refuses to furnish information concerning other interested persons on the farm, the farm operator may be denied program benefits until such information is furnished to the county committee.

§ 718.4 Committee functions and authority.

(a) *County committee.* The county committee shall provide for determining acreages on farms and compliance with the various farm programs in accordance with this part.

(b) *State committee.* The State committee may:

(1) Take any action required of the county committee which the county committee fails to take.

(2) Correct or require the county committee to correct any action taken by such committee which is not in accordance with this part.

(3) Require the county committee to withhold taking any action which is not in accordance with this part.

(4) Upon approval by the Deputy Administrator, prescribe deviations from standards in § 718.8, § 718.12, or § 718.13 as applicable, for the State so as to establish:

(i) A minimum row width for specific crops or less than 32 inches;

(ii) A minimum area requirement for deduction or adjustment credit larger than 0.03 acre for tobacco or 0.1 acre for other crops and land uses;

(iii) A minimum width requirement for deduction or adjustment credit greater than 32 inches;

(iv) A minimum error equipment of less than 0.5 acre;

(v) A standard perimeter deduction of 3 percent of the area planted to a row crop and zero for a close sown crop in lieu of measuring perimeter deductions on all farms visited in specified counties except that perimeter deductions shall be measured for those crops for which measurement service is provided. The State committee may recommend a different percentage when the 3 percent of zero deduction would cause undue hardship.

(c) *Approved deviations from prescribed standards.* The following deviations from prescribed standards pursuant to paragraph (b) of this section have been recommended by the State committee and approved by the Deputy Administrator:

ALABAMA

Minimum row width. Sixteen inches for peanuts.

ARIZONA

Standard deduction. (i) *Row crops.* Approved counties and percentage deductions are: (*a*) Graham, 5 percent; (*b*) Yuma, 1–20 acres, 12 percent; 21–50 acres, 10 percent; all over 50 acres, 9 percent.

(ii) *Close-sown crops.* "Zero" deduction applies in the counties listed in (i) above.

CALIFORNIA

(1) *Deduction credit.* (i) *Minimum area.* Five-tenths acre for all crops.

(ii) *Minimum width.* (*a*) Perimeter of field, 10 links for all crops; (*b*) Within the planted area:

(*1*) *Row crops.* Four rows except when planted in a skip-row pattern.

(*2*) *Close-sown crops.* Twenty links.

(*3*) *Standard deduction.* Three percent for row crops and zero for close-sown crops applies to Fresno, Imperial, Kern, Kings, Madera, Merced, Riverside, and Tulare.

COLORADO

Standard deduction. Three percent for row crops and zero for close-sown crops.

DELAWARE

(1) *Minimum row width.* Thirty inches all crops.

(2) *Deduction credit. Minimum width.* Six links.

(3) *Remeasurement refund.* The larger of 3 percent of 0.5 acre.

FLORIDA

(1) *Minimum row width.* Eighteen inches for peanuts.

(2) *Standard deduction.* Three percent for row crops and zero for close-sown crops applies to Alachua, Baker, Lake, Levy, Marion, and Union.

GEORGIA

Remeasurement refund. The larger of 3 percent or 0.1 acre.

INDIANA

(1) *Deduction credit. Minimum width.* Five links except 15 links for terraces, permanent irrigation, drainage ditches, and sod waterways.

(2) *Adjustment credit.* (i) *Minimum area.* Five-tenths acre for all crops and land uses except tobacco.

(ii) *Minimum width.* Five links.

(3) *Remeasurement refund.* One-tenth acre for tobacco.

IOWA

Deduction credit. (i) *Minimum width.* Seven links.

(ii) *Minimum area.* Five-tenths acre for all crops and land uses.

KENTUCKY

Adjustment credit. Minimum width for tobacco. (i) *Inside planted area and along end boundaries.* The smaller of 10 links or two rows.

(ii) *Along boundaries parallel to the rows in the field.* One row.

MISSISSIPPI

(1) *Deduction credit. Minimum width.* Ten links.

(2) *Adjustment credit.* (i) *Minimum area.* Total excess or deficiency or three-tenths (0.3) acre, whichever is smaller, except that if the excess or deficiency is more than three-tenths (0.3) acre, one plot may be less than three-tenths (0.3) acre.

(ii) *Minimum width.* Two-tenths (0.2) chain.

(3) *Standard deduction.* Three percent for row crops and zero for close-sown crops applies to Adams, Alcorn, Amite, Attala, Carroll, Claiborne, Copiah, Franklin, Hinds, Issaquena, Jefferson, Lee, Leflore, Lincoln, Madison, Marshall, Noxubee, Pike, Prentiss, Rankin, Warren, Washington, Wilkinson, Winston, and Yalobusha.

MISSOURI

Deduction credit. Minimum width. Ten links.

MONTANA

Minimum row width. Twenty-two inches for sugar beets.

NEBRASKA

Minimum row width. Twenty-two inches for sugar beets.

NEW HAMPSHIRE

Minimum row width. Thirty inches for corn.

NEW MEXICO

Standard deduction. (i) *Row crops.* Approved counties and percentage deductions are: (*a*) 4.5 percent in Chaves Dona Ana, Eddy, Hidalgo, Sierra; (*b*) 3 percent in all other counties.

(ii) *Close-sown crops.* Zero deduction applies to all counties.

NORTH CAROLINA

(1) *Minimum row width.* Eighteen inches for peanuts and 30 inches for corn.

(2) *Remeasurement refund.* One-tenth acre.

NORTH DAKOTA

Minimum row width. Twenty inches for sugar beets.

OHIO

(1) *Minimum row width.* Thirty inches for all crops.

(2) *Deduction credit. Minimum width.* Eight links for all crops except tobacco.

(3) *Adjustment credit. Minimum width.* Eight links for all crops except tobacco.

(4) *Remeasurement refund.* (i) *Tobacco.* Larger of 3 percent or 0.1 acre.

(ii) *Other crops.* Larger of 3 percent or 0.5 acre.

OKLAHOMA

Remeasurement refund. Larger of 3 percent or 0.3 acre.

OREGON

(1) *Minimum row width.* Twenty inches for sugar beets.

(2) *Deduction credit. Minimum width for close-sown crops within the planted area.* Six feet.

SOUTH DAKOTA

(1) *Deduction credit. Minimum area.* Five-tenths acre for all crops except sugar beets.

(2) *Adjustment credit. Minimum area.* Five-tenths acre for all crops except sugar beets.

TENNESSEE

(1) *Adjustment credit. Minimum width.* (i) *Row crops other than tobacco.* Four rows.

(ii) *Tobacco:* (*a*) *Along field boundary.* One row; (*b*) *Within planted area.* Two rows.

(2) *Remeasurement refund.* One-tenth acre for tobacco.

(3) *Standard deduction.* (i) *Row crops.* A 4-percent deduction applies to all fields of 10 acres or less than 3 percent applies to all fields over 10 acres.

TEXAS

(1) *Minimum row width.* Thirty inches for sugar beets.

(2) *Deduction credit. Minimum width.* Nine links.

(3) *Adjustment credit. Minimum width.* Nine links.

(4) *Standard deduction.* (i) *Row crops.* Approved counties and percentage deductions are: (*a*) 1 percent, Archer; (*b*) 2 percent, Baylor, Dickens, Foard, Haskell, Kent, King, Stonewall, Throckmorton, Wichita, and Wilbarger; (*c*) 3 percent, Hardeman and Knox.

(ii) *Close-sown crops.* The percentage deductions for the counties listed in (i) above shall be zero except that the percentage shall be 2.2 in Hardeman, 0.8 in Knox, and 0.5 in Wilbarger.

VIRGINIA

Remeasurement refund. The larger of 0.1 acre or 10 percent of acreage for areas less than 5 acres.

WASHINGTON

Minimum row width. Twenty-two inches for sugar.

WISCONSIN

(1) *Deduction credit. Minimum width.* Ten links for all crops except tobacco.

(2) *Remeasurement refund.* The larger of 0.1 acre or 3 percent for tobacco.

WYOMING

(1) *Minimum row width.* Twenty inches for sugar beets.

(2) *Standard deduction.* Three percent for row crops and zero for close-sown crops applies to all counties except Carbon, Park, and Weston.

§ 718.5 Measurement service.

(a) *Staking and referencing service.* The county committee shall provide a staking service for any crop or land use if the producer requests such service and pays the cost. If a staking and referencing service is found to be in error, and the producer has taken any action in reliance in good faith on such service, the acreage in the staked areas shall be considered to be the acreage for which the service was requested, except that the county committee may use the actual acreage if the producer would be adversely affected by use of the acreage for which the service is requested. Compliance with the farm acreage requirement shall be guaranteed under the following conditions:

(1) *For crops.* The acreage requested to be staked and referenced shall not exceed the farm allotment for marketing quota crops or CAP permitted acreage. If all of the crop(s) for which the service is performed is within the staked area, the farm shall be considered in compliance with the allotment or permitted acreage.

(2) *For set-aside acreage.* If the producer requests that not less than the farm set-aside acreage requirement be staked and referenced and the entire area within the stakes is treated as set-aside acreage in accordance with program regulations, the farm shall be considered as having sufficient designated set-aside acreage.

(b) *Other measurement services.* The county committee shall provide other measurement services if the producer requests such service and pays the cost. An acreage measured under this paragraph shall be considered an official acreage. A producer shall not be adversely affected by an error made by an ASCS employee in performing a measurement service when such producer has acted in reliance in good faith on such service.

§ 718.6 Determination of compliance by farmer certification.

(a) *Certification by farm operator.* A report of acreage and land use on farms shall be furnished to the county committee by the farm operator on a prescribed form for applicable crops and land uses not later than the applicable crop disposition date in § 718.14, except that for:

(1) *Set-aside acres*—(i) *Wheat only farms.* In the case of farms that are enrolled in the wheat program only, certification shall be furnished not later than the disposition date for wheat in the county.

(ii) *Wheat-feed grain and feed grain only farms.* In the case of farms that are enrolled in both the wheat and feed grain programs or in the feed grain program only, certification shall be furnished not later than the latest disposition date for food grain in the county, unless an earlier date is recommended by the State committee and approved by the Deputy Administrator. The following earlier dates under this subdivision have been recommended by the State committee and approved by the Deputy Administrator:

CALIFORNIA

May 1 in Imperial and Riverside Counties.

GEORGIA

All counties. The disposition date established for corn.

TEXAS

All counties. The disposition date established for corn and spring-seeded grain sorghum.

(2) *Peanuts*—(i) *Initial certification.* Certification shall be furnished not later than the latest disposition date for feed grain in the county, unless an earlier date is recommended by the State committee and approved by the Deputy Administrator. The following earlier dates under this subdivision have been recommended by the State committee and approved by the Deputy Administrator:

SOUTH CAROLINA

All counties. The disposition dates established for cotton.

TEXAS

(1) *Spring-seeded peanuts in all counties.* The disposition date for corn and spring-seeded grain sorghum.

(2) *Summer-seeded peanuts in all counties.* The disposition date for summer-seeded grain sorghum.

(ii) *Final certification.* In cases where the initially certified peanuts acreage exceeded the allotment, any final certification shall be furnished after the peanuts are dug, but not later than the date recommended by the State committee and approved by the Deputy Administrator. The following dates under this subdivision have been recommended by the State committee and approved by the Deputy Administrator:

SEPTEMBER 15

Georgia.

OCTOBER 1

Alabama.

OCTOBER 15

California, Louisiana, Mississippi, Missouri, and South Carolina.

NOVEMBER 1

Arizona, Arkansas, New Mexico, North Carolina, Tennessee, and Virginia.

DECEMBER 1

Florida and Oklahoma.

DECEMBER 15

Texas.

(3) *Sugar crops*—(i) *Initial certification for sugar beets.* Certification shall be furnished not later than 30 days after normal completion of planting or such later date approved by the State committee.

(ii) *Initial certification for sugarcane.* Certification shall be furnished not later than 45 days prior to the earliest harvest date or such earlier date approved by the State committee.

(iii) *Final certification for sugar beets and sugarcane.* If the sugar crop acreage initially certified exceeded the farm proportionate share and the farm operator adjusts the acreage, the farm operator shall notify the county office of his intention to adjust not later than 15 days prior to start of harvest of the crop. Upon completion of the acreage adjustment or completion of harvest of an acreage within the farm proportionate share, whichever is earlier, the farm operator shall report such completion to the county office. Where the excess acreage is disposed of prior to harvest, the farm operator shall file the report after completion of acreage adjustment and prior to start of harvest. Where the excess acreage will be disposed of after harvest, the farm operator shall file the report after completion of harvest but prior to disposition of any of the crop.

(b) *Consequences of failure to file a timely certification*—(1) *General.* Except as provided in paragraph (c) of this section, the producers on the farm shall be deemed ineligible for any benefits under the program for which the certification was not timely filed.

(2) *Additional consequences for allotment crops.* Except as provided in paragraphs (c) and (d) of this section, the acreage of an allotment crop for which the farm operator failed to file a certification, shall be considered to be zero for purposes of establishing future allotments. In addition:

(i) *For ELS cotton and rice.* Buyers of the crop in the area shall be notified that the farm is considered in excess of the farm marketing quota.

(ii) *For peanuts.* A 100-percent excess penalty card shall be issued.

(iii) *For all tobacco, except Burley and Flue-cured.* A 100-percent excess penalty card shall be issued, unless the farm operator disposes of all excess tobacco in accordance with § 718.13.

(c) *Failure to file a certification.* If the farm operator fails to file the certification under this section but requests the county committee to measure the crop and pays the cost thereof, the county committee shall determine the acreage if it is possible to accurately measure the acreage within 15 days after such request. In such case, the measured acreage, except as provided in § 718.13 for tobacco, other than Flue-cured, shall be used to determine whether a marketing quota penalty is applicable and the amount of any such penalty, the appropriate action to be taken with respect to collection of penalties or issuance of marketing cards, and whether producers on the farm shall be eligible for any benefits under the program for which the certification was not timely filed.

(d) *Late filed certification.* The county committee may accept a certification under this section after the final date if it determines that the farm operator was prevented from timely filing because of reasons beyond his control.

(e) *Consequences of failure to file an accurate certification*—(1) *Marketing quota crops except Burley tobacco.* In the absence of evidence to the contrary, a producer of a crop specified in subdivision (i) or (ii) of this subparagraph (1) on a farm for which a certification under this section is furnished and for which acreages are subsequently measured shall be presumed not to have knowingly exceeded the farm acreage allotment for the crop for purposes of price support programs except that excess tobacco must be disposed of pursuant to § 724.80 of this chapter (but the farm, except in the case of tobacco, other than Flue-cured, for which the operator disposed of excess tobacco pursuant to § 724.80 of this chapter, shall not be considered in compliance with the allotment for the crop for purposes of determining any marketing quota penalty) when the acreage of the crop on the farm determined by measurement does not exceed the allotment by more than the amount set forth in the appropriate subdivision (i) or (ii) of this subparagraph (1). In any case in which the acreage determined by measurement exceeds the allotment by more than the amount set forth in the appropriate subdivision (i) or (ii) of this subparagraph (1), the allotment shall be considered to have been knowingly exceeded: *Provided,* That the allotment shall not be considered to have been knowingly exceeded for price support purposes (but the farm, except a farm having excess tobacco, other than Flue-cured, which is disposed of by the operator pursuant to § 724.80 of this chapter shall not be considered in compliance for purposes of determining any marketing quota penalty) if it is shown to the satisfaction of the Deputy Administrator that the farm operator did not knowingly exceed the farm acreage allotment.

(i) *Peanuts on farms with an effective allotment of more than 1 acre, rice, and ELS cotton.* The larger of 0.5 acre or 5 percent of the allotment not to exceed 15 acres.

(ii) *Tobacco.* In the case of Flue-cured tobacco, the larger of 0.1 acre or 10 percent of the allotment not to exceed 2 acres. In the case of all other types of tobacco, the larger of 0.03 acre or 5 percent of the allotment not to exceed 1 acre.

(2) *Other crops and programs.* The failure to file an accurate certification in the case of other applicable crops and programs not covered under subparagraph (1) of this paragraph shall render the producers on the farm ineligible for program benefits for such crops and programs except as may be authorized in accordance with the provisions of Part 791 of this chapter.

§ 718.8 Determination of crop and land use acreage by farm visit.

(a) *Applicability.* A representative number of farms as prescribed by the Deputy Administrator shall be visited to determine the accuracy of farmer certifications.

(b) *Equipment and materials.* The Deputy Administrator shall prescribe the basic equipment and materials to be used in the determination of crop and land use acreages. The use of other equipment and materials is not authorized.

(c) *Administrative variance*—(1) *General.* Crop and land use acreages determined in accordance with this section shall be deemed to be in compliance with program requirements when such acreages do not deviate from such program requirements by more than the applicable amount in subdivision (i), (ii), or (iii) of this subparagraph (1). Such administrative variance shall not apply in the case of adjusted acreage.

(i) *Tobacco.* The larger of 0.01 acre or 2 percent of the allotment not to exceed 0.09 acre.

(ii) *Other crop and land use.* The larger of 0.1 acre or 2 percent of the applicable crop or land use acreage limitation or other requirement for the program, not to exceed 0.9 acre.

(iii) *Rural Environmental Assistance Program.* When the difference between the acreage reported by the farmer and the measured acreage does not exceed the larger of 0.1 acre or 2 percent of the reported acreage, not to exceed 0.9 acre.

(2) *Farmer certification.* If the crop or land use acreage certified by the farm operator and the acreage determined by measurement do not differ by more than the applicable amount in subdivision (i) or (ii) of this subparagraph (2), the acreage certified by the operator shall be considered as the crop or land use acreage.

(i) *Tobacco.* The larger of 0.01 acre or 2 percent of the certified acreage not to exceed the 0.09 acre.

(ii) *Other crop and land use.* The larger of 0.1 acre or 2 percent of the certified acreage not to exceed 0.9 acre.

(d) *Official acreages.* If an acreage has been determined for an area delineated on an aerial photograph, such acreage may be recognized by the county committee as the "official acreage" for the area as delineated for purposes of acreage determinations until such time as the boundaries of such area are changed.

(e) *Measurement of row crops.* Measurements of any row crop shall extend beyond the planted area to a point equal to the larger of (1) 16 inches, or (2) one-half the distance between the rows.

(f) *Deviations due to use of mechanical equipment.* Deviations from prescribed width requirements which are attributable to variations normal to the operation of mechanical equipment shall not disqualify a planting pattern or deductible strip.

(g) *Rule of fractions*—(1) *Tobacco.* Each field or subdivision computed for tobacco shall be recorded in acres and hundredths of acre, dropping all thou-

sandths of acre, except where such field or subdivision is less than one-hundredth (0.01) acre, in which case the computation shall be carried to five decimal places and the acreage recorded in acres and thousandths of acre. The total farm acreage of each kind of tobacco shall be the sum of the field and subdivision acreage of each kind of tobacco and shall be recorded in acres and hundredths of acre, dropping all thousandths of acre.

(2) *Other crop and land uses.* For crops and land uses not covered by subparagraph (1) of this paragraph, each field or subdivision acreage shall be computed in acres and tenths of acre, dropping all hundredths of acre.

(h) *Acreage considered as devoted to crop or land use.* The entire acreage in an area devoted to a crop or land use shall be considered as devoted to the crop or land use subject to any allowable deductions or adjustments under this paragraph except as otherwise provided in this part.

(1) *Acreages of row crops planted in skip-row patterns*—(i) *Crops planted in strips of two or more rows alternating with idle land.* The entire area shall be considered as devoted to the crop where (*a*) the crop being measured is planted in strips of two or more rows alternating with idle land, and (*b*) the distance from plant row to plant row of the crop between strips of the crop is not more than 63 inches. However, if the distance from plant row to plant row between strips of the crop is more than 63 inches, the larger of one-half the distance between rows of the crop in the strip or 16 inches shall be considered as devoted to the crop.

(ii) *Crop being measured alternating with another crop.* The entire area shall be considered as devoted to the crop where (*a*) the crop being measured is planted in strips of one or more rows alternating with another crop, and (*b*) the distance from plant row to plant row between the strips of the crop being measured is not more than 63 inches. However, if the distance from plant row to plant row between the strips of the crop being measured is more than 63 inches, one-half the distance between the crops but not to exceed 32 inches shall be considered as devoted to the crop being measured; except that if the crop alternating with the crop being measured does not have substantially the same growing season or is not cared for in a workmanlike manner, the crop being measured shall be treated as alternating with idle land in accordance with subdivision (i) or (iii) of this subparagraph (1), as applicable.

(iii) *Single wide rows.* The entire area shall be considered as devoted to the crop where (*a*) such crop is planted in single wide rows, and (*b*) the distance from plant row to plant row is not more than 63 inches. However, when the distance from plant row to plant row is more than 63 inches, 32 inches beyond the row shall be considered as devoted to the crop.

(2) *Deductions.* Any continuous area which is not devoted to the crop or land use being measured shall be deducted from the acreage of the crop or land use if such area meets the following minimum requirements:

(i) *Minimum width requirement.* Thirty-two inches.

(ii) *Minimum area requirement*—(*a*) *Tobacco.* Three-hundredths (0.03) acre except that a minimum of one-hundredth (0.01) acre shall apply to turn rows and noncropland area which could not be planted to tobacco. Terraces, permanent irrigation and drainage ditches, and sod waterways of at least 32 inches width may be combined to meet the 0.03 acre minimum requirement.

(*b*) *All other crops and land uses.* One-tenth (0.1) acre. Terraces, permanent irrigation and drainage ditches, and sod waterways of at least 32 inches width which contain 0.1 acre or more may be combined to meet any larger minimum prescribed for a State under a State committee option in § 718.4.

(3) *Adjustment credit*—(i) *General.* Any area of land which is not eligible for deductions under subparagraph (2) of this paragraph shall not be eligible for adjustment credit except that an area ineligible because of size may be enlarged to meet the minimum adjustment requirements. Otherwise, adjustment credit may be permitted under subdivision (ii) of this subparagraph (3). Adjustment credit shall be given only for areas of reasonable shape and for a reasonable number of such areas. If a crop is disposed of in alternating pattern so that a single wide row or skip-row pattern of the crop is left standing within the adjusted area, adjustment credit shall not exceed the acreage reduction obtained by recomputing the standing crop acreage of the adjusted area in the same manner as applicable for an initial acreage determination.

(ii) *Crops and land uses.* Subject to the conditions of subdivision (i) of this subparagraph (3), adjustment credit shall be given for any area in which the crop or land use is adjusted in accordance with applicable regulations and which meets one of the following criteria:

(*a*) The area is 32 inches or more in width, and contains at least one-tenth (0.1) acre for crops other than tobacco, and contains at least three-hundredths (0.03) acre for tobacco, or

(*b*) An entire field or subdivision is adjusted, or

(*c*) The area being adjusted constitutes the total excess or deficient acreage of the crop or land use for the farm or is the remaining area required for adjustment after adjusting entire fields or subdivisions.

§ 718.9 Reliance by producer on previously determined acreage.

If a producer relies in good faith on an acreage for an identical area previously determined by the county committee, and the acreage is subsequently determined by the county committee to be incorrect, the county committee shall consider the acreage on which the producer relied to be correct for that program year upon obtaining satisfactory proof from the producer on the circumstances showing his good faith reliance.

§ 718.10 Determining acreage for unusual cases.

The Deputy Administrator shall determine the method for determining acreage in the following two groups of unusual cases which require equitable treatment and cannot be equitably handled under this part:

(a) *Reliance by farm operator on erroneous advice.* The farm operator has acted in good faith in reliance upon advice, which is not in accordance with this part, given by a representative of the State or county committee who is authorized to furnish information concerning the determination of acreage.

(b) *Practices which defeat program intent.* The method of planting the crop or the method of adjusting the crop or land use acreage has the effect of defeating program provisions or is contrary to the intent of the program involved.

§ 718.11 Notice of acreage to farm operator.

(a) *Written notice.* The county committee shall furnish written notice to the farm operator of acreages determined for the farm. Such notice shall be on a prescribed form and shall constitute notice to all producers on the farm.

(b) *Erroneous notice of acreage*—(1) *Within program requirements.* When an erroneous notice of acreage within program requirements is issued by the county committee for a farm determined to be out of compliance for marketing quota, price support, or other program purposes, such farm shall be deemed to be in compliance for such purposes if the county committee determines and the State committee concurs that lack of compliance was caused by all of the following:

(i) Reliance in good faith by the farm operator on the erroneous notice of acreage.

(ii) The erroneous notice was the result of an error made by an employee of the county or State office in reporting, computing, or recording an acreage for the farm.

(iii) Neither the farm operator nor any producer on the farm was in any way responsible for the error.

(iv) The extent of the error was such that the farm operator would not reasonably be expected to question the acreage of which he was erroneously notified.

(2) *Exceeds program requirements.* When an erroneous notice of acreage in excess or deficient of program requirements is issued by the county committee for a farm and such excess or deficiency is not adjusted in accordance with § 718.13, the farm shall not be deemed to be in compliance. However, if the four conditions listed in subparagraph (1) of this paragraph are met with respect to additional excess or deficient acreage not shown on the notice, the acreage shown on the notice shall be used for program purposes.

§ 718.12 Redetermination of acreage.

(a) *General.* A redetermination of crop and land use acreage for a farm may be initiated by the county committee, State committee, or Deputy Administrator at any time; or by any producer with an interest in the farm upon filing a request within the earlier of 15 days from the date of the notice of acreage or the disposition date for the crop and upon payment of the cost of making the remeasurement. Remeasurement shall be accomplished as prescribed by the Deputy Administrator, and the acreage of crop or land use measured under this section shall be used in lieu of any prior measurement or report of acreage in all cases where such acreage differs from the prior measurement or report.

(b) *Late filed request.* The county committee may accept a late filed request when such request is filed within a reasonable length of time after the final date and the county executive director is satisfied that the late filing was due to conditions beyond the control of producers on the farm.

(c) *Notice to farm operator.* The county committee shall notify the farm operator of the acreage on the farm as redetermined under this section in the manner prescribed under § 718.11.

(d) *Refund of deposit.* The county committee shall refund the deposit for cost of remeasurement of initially determined acreage or of the adjusted acreage where because of an error made in the determination of such acreage:

(1) The redetermined acreage is considered to be within the allotment, permitted acreage, or intended acreage, or

(2) The redetermination of the acreage involved results in a change from the previously determined acreage of as much as 3 percent or 0.5 acre, whichever is larger.

§ 718.13 Adjustment of acreage.

(a) *General.* If the farm operator or other producer on a farm elects to adjust the acreage of a crop or land use in accordance with applicable regulations, the farm shall be visited for the purpose of determining the adjusted acreage. The adjusted acreage shall be used for program purposes except that if requirements of this section are not met, the acreage initially determined shall be considered as the crop or land use acreage for the farm.

(b) *Farmer certification.* No adjustment of crop or land use acreage is permitted after certification has been furnished to the county committee, except that:

(1) *Set-aside acres*—(i) *Adjustment of a deficiency.* An adjustment of a deficiency in set-aside acreage will be permitted when there is additional eligible land on the farm which does not require disposition of a crop to make it eligible. If a producer elects to designate additional set-aside acreage, he must file a notification of intent to adjust within 15 days from the date of notice of failure to comply.

(ii) *Substitution.* Substitution of set-aside acres will be permitted under conditions prescribed by the Deputy Administrator. If a producer elects to substitute set-aside acres, he must notify the county office of his intention.

(2) *Reclassification.* A final crop or land use certification may be revised to show a change in classification to comply with the applicable crop or land use definition except that a revised certification shall not be allowed if such would enable a producer to regain program compliance or escape the consequences of an erroneous certification after the farm is found out of compliance under § 718.18.

(3) *Peanuts.* Adjustment of excess peanut acreage shall be made as provided in Part 729 of this chapter.

(4) *Sugar.* Adjustment of sugar crop acreage shall be made as provided in Parts 850 and 855 of this title.

(5) *Tobacco, except Burley and Flue-cured.* The farm operator may dispose of excess tobacco as provided in § 724.80 of this chapter (i) to avoid marketing quota penalty, and (ii) to regain eligibility for price support when the excess acreage is within the limitations prescribed in § 718.6.

(i) *Timing requirements*—(*a*) *Initial notice.* Except as provided in subparagraph (6) of this paragraph (b), when the operator or other producer on a farm elects to adjust, an acreage, he shall notify the county executive director not later than 15 days from the date of the notice of acreage for price support purposes or before any marketing to avoid marketing quota penalty that he adjusted the acreage or, that he intends to adjust the acreage. A request for remeasurement will extend the date sufficient to allow such request to be serviced.

(*b*) *Revised notice.* Not later than the disposition date shown on the original notice or 7 days from the date of the notice, whichever is later.

(ii) *Extension of time for adjustment.* If producers on a farm are unable to adjust an acreage within the time limit specified on the notice of acreage, any producer having an interest in the crop or program involved, may request an extension of time. Upon determination that such producers were prevented from adjusting the acreage in the specified time by reasons beyond their control, the date may be extended to provide a reasonable period of time to make the adjustment.

(6) *Late notification of intent or completion of adjustment*—(i) *Report of adjustment.* A report of an acreage adjustment filed after the applicable date specified in this paragraph (b) may be accepted if it is determined that the adjust was made by the prescribed disposition date.

(ii) *Notice of intention.* A late notification of intention to adjust an acreage, when such notification is required, may be accepted upon determination that the notification was late due to reasons beyond the producer's control.

§ 718.14 Crop disposition dates.

(a) *General.* The final dates for disposal of excess acreage and certification of such acreage and program compliance when applicable under the cotton, rice, tobacco, wheat, and feed grain programs in a county or area within a county shall be the dates specified in paragraph (b) of this section except as otherwise provided in this part. The dates specified for each crop except tobacco are considered to be at least 30 days prior to the date harvest of such crop normally begins in the county or area within the county. In the case of tobacco, the dates specified are considered to be early enough to permit the making of acreage determinations for administrative control purposes prior to the normal start of harvest of such tobacco.

(b) *Crop disposition dates.*

ALABAMA

(1) *Wheat, barley, oats, and rye. May 1.* All counties.

(2) *Cotton, corn, and grain sorghums. July 15.* All counties.

(3) *Flue-cured tobacco. May 15.* All counties.

(4) *Other tobacco. June 15.* All counties.

ARIZONA

(1) *Winter-seeded wheat, barley, and rye. May 5.* All counties.

(2) *Spring-seeded wheat, barley, and rye. August 1.* All counties.

(3) *Oats. May 5.* All counties.

(4) *Early-planted corn. May 1.* All counties.

(5) *Early-planted grain sorghums. June 20.* All counties.

(6) *Cotton, late-planted corn and grain sorghums. August 15.* All counties.

(7) *Rice.* (i) *Fall-seeded. June 1.* All counties.

(ii) *Spring-seeded. September 10.* All counties.

ARKANSAS

(1) *Wheat, barley, oats, and rye. May 1.* All counties.

(2) *Corn, grain sorghums, cotton, and rice. July 15.* All counties.

(3) *Tobacco other than Flue-cured. July 15.* All counties.

CALIFORNIA

(1) *Wheat, barley, oats, and rye.* (i) *May 1.* Early-planted in Imperial and Riverside.

(ii) *May 15.* All counties not otherwise provided for in this subparagraph (1).

(iii) *June 15.* Monterey, San Benito, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, and Santa Cruz.

(iv) *July 1.* Early-planted in Del Norte, Humboldt, Lassen, Mendocino, Plumas, Shasta, and Siskiyou.

(v) *August 15.* Late-planted in Imperial, Riverside, and the counties listed in (iv) above.

(2) *Corn and grain sorghums.* (i) *May 1.* Early-planted in Imperial and Riverside.

(ii) *August 15.* Fresno, Inyo, Kern, Kings, Los Angeles, Madera, Merced, Monterey, Orange, San Benito, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, Tulare, Ventura, and late-planted in Imperial and Riverside.

(iii) *September 1.* All counties not otherwise provided for in this subparagraph (2).

(3) *Cotton. August 15.* All counties.

(4) *Rice. September 1.* All counties.

COLORADO

(1) *Wheat, barley, oats, and rye.* (i) *June 5.* Adams, Arapahoe, Baca, Bent, Boulder, Cheyenne, Crowley, Douglas, Elbert, El Paso, Huerfano, Jefferson, Kiowa, Kit Carson, Larimer, Las Animas, Lincoln, Logan, Morgan, Otero, Phillips, Prowers, Pueblo, Sedgwick, Washington, Weld, and Yuma.

(ii) *July 5.* Alamosa, Archuleta, Chaffee, Conejos, Costilla, Custer, Delta, Dolores, Eagle, Fremont, Garfield, Grand, Gunnison, Jackson, La Plata, Mesa, Moffat, Montezuma,

Montrose, Ouray, Park, Pitkin, Rio Blanco, Rio Grande, Routt, Saguache, San Miguel, and Teller.

(2) *Corn and grain sorghums. August 15.* All counties.

CONNECTICUT

(1) *Wheat and rye. June 1.* All counties.

(2) *Oats and barley. May 15.* All counties.

(3) *Corn and grain sorghums. August 1.* All counties.

(4) *Tobacco types 51 and 52. August 5.* Hartford.

DELAWARE

(1) *Wheat, barley, oats (winter), and rye. May 31.* All counties.

(2) *Oats (spring-seeded). June 15.* All counties.

(3) *Corn and grain sorghums. July 1.* All counties.

(4) *Soybeans. September 1.* All counties.

FLORIDA

(1) *Wheat, barley, oats, and rye. April 9.* All counties.

(2) *Corn, cotton, and Flue-cured tobacco.* (i) *June 1.* All counties except those listed in subdivision (ii) below.

(ii) *June 10.* Bay, Calhoun, Escambia, Gulf, Holmes, Jackson, Liberty, Okaloosa, Santa Rosa, Walton, and Washington.

(3) *Grain sorghums.* (i) *June 10.* Counties listed in subparagraph (2) (ii) above.

(ii) *August 1.* All other counties.

(4) *Rice. October 15.* All counties.

GEORGIA

(1) *Wheat, barley, oats, and rye. May 1.* All counties.

(2) *Corn, cotton, and grain sorghums. July 1.* All counties.

(3) *Flue-cured tobacco. June 1.* All counties.

(4) *Other tobacco. July 1.* All counties.

(5) *Soybeans. September 1.* All counties.

IDAHO

(1) *Wheat, barley, oats, and rye.* (i) *July 1.* Ada, Canyon, Cassia, Elmore, Gem, Gooding, Jerome, Kootenai, Lincoln, Minidoka, Nez Perce, Owyhee, Payette, Twin Falls, and Washington.

(ii) *July 15.* Adams, Bannock, Bear Lake, Benewah, Bingham, Blaine, Boise, Bonner, Bonneville, Boundary, Butte, Camas, Caribou, Clark, Clearwater, Custer, Franklin, Fremont, Idaho, Jefferson, Latah, Lembi, Lewis, Madison, Oneida, Power, Teton, and Valley.

(2) *Corn and grain sorghums. August 15.* All counties.

ILLINOIS

(1) *Wheat, barley, and rye.* (i) *June 1.* Alexander, Bond, Calhoun, Christian, Clark, Clay, Clinton, Coles, Crawford, Cumberland, Douglas, Edgar, Edwards, Effingham, Fayette, Franklin, Gallatin, Greene, Hamilton, Hardin, Jackson, Jasper, Jefferson, Jersey, Johnson, Lawrence, Macoupin, Madison, Marion, Massac, Monroe, Montgomery, Morgan, Moultrie, Perry, Pope, Pulaski, Randolph, Richland, St. Clair, Saline, Sangamon, Scott, Shelby, Union, Wabash, Washington, Wayne, White, and Williamson.

(ii) *June 15.* All other counties.

(2) *Oats.* (i) *June 15.* Counties listed in (1) (i) above.

(ii) *July 1.* All other counties.

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Valencia Orange Reg. 358, Amdt. 1]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908, 35 F.R. 16625), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Valencia oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1) (i), and (ii) of § 908.658 (Valencia Orange Regulation 358, 36 F.R. 13583) during the period July 23, through July 29, 1971, are hereby amended to read as follows:

§ 908.658 Valencia Orange Regulation 358.

* * * * *

(b) *Order.* (1) * * *

(i) District 1: 126,000 cartons.

(ii) District 2: 424,000 cartons.

[Bartlett Pear Reg. 5]

PART 931—FRESH BARTLETT PEARS GROWN IN OREGON AND WASHINGTON

Limitation of Shipments

Findings. (1) Pursuant to the marketing agreement and Order No. 931 (7 CFR Part 931) regulating the handling of fresh Bartlett pears grown in Oregon and Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the recommendations of the Northwest Fresh Bartlett Pear Marketing Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of fresh Bartlett pears, in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) The recommendations of the committee reflect its appraisal of the crop and current and prospective market conditions. Shipments of Bartlett pears from the production area are expected to begin on or about August 9, 1971. The grade and size requirements provided herein are necessary to prevent the handling on and after August 9, 1971, of any Bartlett pears of lower grades and smaller sizes than those herein specified, so as to provide consumers with good quality fruit, consistent with the overall quality of the crop, while maximizing returns to producers pursuant to the declared policy of the act.

The provisions which provide for less stringent grade and size regulations for pears packed in the "Western lug" recognizes the fact that pears in this container are sold primarily to markets in the northwestern States primarily for home canning, and that pears packed in the "14- to 15-pound containers" are sold primarily in markets in the midwestern States also primarily for home canning. Conversely, the application of more stringent grade and size regulations for pears packed in the "standard western pear box", the "L.A. lug", or their carton equivalents, or in "tight-filled" containers, recognizes the fact that pears packed in these containers are primarily sold in supermarkets throughout the country for fresh consumption to be eaten out of hand. The provision which sets a smaller diameter limit for red Bartlett pears recognizes the fact that the demand for this variety differs from that for regular Bartlett pears because of their red color and because they are less desirable for canning. The exemption for individual shipments of 500 pounds or less of Bartlett pears sold for home use and not for resale and for pears in gift packages follows the custom and pattern of prior years. The quantity of pears so handled is relatively inconsequential when compared with the total quantity handled, and it would be administratively impractical to regulate the handling of such shipments due to the nearness to the source of supply.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that, as hereinafter set forth, the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than August 9, 1971. A reasonable determination as to the supply of, and the demand for, Bartlett pears must await the development of the crop and adequate information thereon was not available to the Northwest Fresh Bartlett Pear Marketing Committee until July 13, 1971; recommendation as to need for, and the extent of, regulation of shipments of such pears was made at the meeting of said committee on July 13, 1971, after consideration of all available information relative to the supply and demand conditions for such pears, at which time the recommendation and supporting information were submitted to the Department, necessary supplemental data for consideration in connection with the specifications of the provisions were not available until July 21, 1971; shipments of the current crop of such pears are expected to begin on or about the effective time hereof; this regulation should be applicable, insofar as practicable, to all shipments of such pears in order to effectuate the declared policy of the act; and compliance with the provisions of this regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

§ 931.305 Bartlett Pear Regulation 5.

(a) Order: During the period August 9, 1971, through September 12, 1971, no handler shall handle any lot of Bartlett pears unless such pears meet the following applicable requirements, or are handled in accordance with subparagraph (4) or (5) of this paragraph.

(1) *Minimum grade and size requirements.* Such pears grade at least U.S. No. 1, and be of a size not smaller than 165 size when packed in the "standard western pear box", the "L.A. lug", or their carton equivalents, or in "tight-filled" containers, or be at least 2¼ inches in diameter when packed in the "western lug" or in containers containing at least 14 pounds, net weight, but not more than 15 pounds, net weight, of pears: *Provided,* That pears which grade at least U.S. No. 2 which are not smaller than the 120 size, or not smaller than the 150 size for the red Bartlett variety, may be handled if they are packed in the "standard western pear box", the "L.A. lug", or their carton equivalents; or if they are not smaller than 2¼ inches in diameter they may be handled if packed in the "western lug" or in containers containing at least 14 pounds, net weight, but not more than 15 pounds, net weight, of pears; or

(2) *Pack and container requirements.* Such pears are packed in the "standard western pear box", the "L.A. lug" or their carton equivalents, in "tight-filled" containers, in containers containing at least 14 pounds, net weight, but more than 15 pounds, net weight, of pears, or in containers having a capacity equal to, or greater than the "western lug".

(3) *Special inspection requirements for minimum quantities.* During the aforesaid period any handler may ship on any conveyance up to but not to exceed 200 containers (of those types specified herein) of pears without regard to the inspection requirements of § 931.55 under the following conditions: (i) Each handler desiring to make shipment of pears pursuant to this subparagraph shall first apply to the committee on forms furnished by the committee for permissions to make such shipments. The application form shall provide a certification by the shipper that all shipments made thereunder during the marketing season shall meet the marketing order requirements, that he agrees such shipments shall be subject to spot check inspection, and that he agrees to report such shipments at time of shipment to the committee on forms furnished by the committee, showing the car or truck number and destination; and (ii) on the basis of such individual reports, the committee shall require spot check inspection of such shipments.

(4) *Special purpose shipments.* Notwithstanding any other provision of this section, any shipment of pears in gift packages may be handled without regard to the provisions of this paragraph, of § 931.41 (Assessments), and of § 931.55 (Inspection and certification).

(5) Notwithstanding any other provision of this secton, any individual shipment of pears which meets each of the following requirements may be handled without regard to the provisions of this paragraph, of § 931.41 (Assessments), and of § 931.55 (Inspection and certification):

(i) The shipment consists of pears sold for home use and not for resale;

(ii) The shipment does not, in the aggregate, exceed 500 pounds, net weight, of pears; and

(iii) Each container is stamped or marked with the handler's name and address and with the words "not for resale" in letters at least one-half inch in height.

(b) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order; "U.S. No. 1," "U.S. No. 2", and "size" shall have the same meaning as when used in the U.S. Standards for Summer and Fall Pears (§§ 51.1260-51.1280 of this title); "120 size", "150 size", "165 size" shall mean that the pears are of a size which, as in-

dicated by the size number, will pack, in accordance with the sizing and packing specifications of a standard pack, as specified in said U.S. Standards, 120, 150, or 165 pears, respectively, in a standard western pear box (inside dimensions 18 inches long by 11½ inches wide by 8½ inches deep); the term "L.A. lug" shall mean a container with inside dimensions of 5¾ by 13½ by 16⅛ inches; the term "western lug" shall mean a container with inside dimensions of 7 by 11½ by 18 inches; and the term "tight-filled" shall mean that the pears in any container shall have been well settled by vibration, according to approved and recognized methods.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 29, 1971.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 71–NE–2]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 11221 of the FEDERAL REGISTER for June 10, 1971, the Federal Aviation Administration published a proposed rule which would designate a Fryeburg, Maine, transition area (36 F.R. 11221).

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulations are hereby adopted effective 0901 G.m.t., October 14, 1971.

Issued in Burlington, Mass., on July 22, 1971.

FERRIS J. HOWLAND,
Director, New England Region.

Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Fryeburg, Maine, 700-foot-floor transition area described as follows:

FRYEBURG, MAINE

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the center, 43°59'28" N., 70°56'53" W., of Eastern Slopes Airport, Fryeburg, Maine, and within 4.5 miles north and 6.5 miles south of the 118° bearing and the 298° bearing from the Fryeburg NDB, 43°59'21" N., 70°56'58" W., extending from 5.5 miles west of the NDB to 11.5 miles east of the NDB, excluding the portions within the North Conway, N.H., area.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 2—ADMINISTRATIVE FUNCTIONS, PRACTICES, AND PROCEDURES

Delegations From the Secretary and Assistant Secretary

Under authority vested in the Secretary of Health, Education, and Welfare and delegated to the Commissioner of Food and Drugs (21 CFR 2.120), § 2.120 is amended to conform with the Department's notice of June 18, 1971 (36 F.R. 11770), regarding the Poison Prevention Packaging Act of 1970, by revising the introductory text of paragraph (a) and by adding a new subparagraph to paragraph (a), as follows:

§ 2.120 Delegations from the Secretary and Assistant Secretary.

(a) The Assistant Secretary for Health and Scientific Affairs has redelegated to the Commissioner of Food and Drugs with authority to redelegate (35 F.R. 606, 3000; 36 F.R. 8893, 11770, 12803) all authority delegated to him by the Secretary of Health, Education, and Welfare as follows.

• • • • • •

(7) Functions vested in the Secretary and delegated by him to the Assistant Secretary for Health and Scientific Affairs under the Poison Prevention Packaging Act of 1970 (P.L. 91–601).

• • • • • •

Effective date: June 18, 1971.

Dated: July 21, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

COMPONENTS OF PAPER AND PAPERBOARD IN CONTACT WITH FOOD

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 9B2420) filed by Sun Chemical Corp., Wood River Junction, R.I. 02894, and other relevant material, concludes that the food additive regulations should be amended to provide for the safe use of the substance set for the below as a water repellent employed as described. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2526(a)(5) is amended by alphabetically inserting in the list of substances a new item, as follows:

§ 121.2526 Components of paper and paperboard in contact with aqueous and fatty foods.

• • • • • •

(a) • • •

(5) • • •

List of Substances	*Limitations*
• • •	• • •
Bis(methoxymethyl) tetrakis [(octadecyloxy)-methyl] melamine resins having a 5.8–6.5 percent nitrogen content.	For use only under the following conditions: 1. As a water repellent employed prior to the sheet-forming operation in the manufacture of paper and paperboard in such amount that the finished paper and paperboard will contain the additive at a level not in excess of 1.6 percent by weight of the finished dry paper and paperboard fibers. 2. The finished paper and paperboard will be used in contact with foods only of the types identified in paragraph (c) of this section, table 1, under types I, II, IV–B, VI–B, VII–B, and VIII.
• • •	• • •

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–62, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (8–4–71).

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: July 21, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

SUBCHAPTER J—BRIDGES

[CGFR 71–292]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Indian River, Fla.

This amendment changes the regulations for the Eau Gallie and Melbourne highway bridges across the Indian River at mile 197.4 and mile 201.2 to increase the closed periods during the morning by ½ hour, i.e., from 7:45 to 8:15. This amendment was circulated as a public notice dated May 12, 1971 in the FEDERAL REGISTER as a notice of proposed rulemaking (CGFR 71–29) on May 5, 1971 (36 F.R. 8382). Several comments were received and considered.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by revising § 117.436(b) to read as follows:

§ 117.436 Indian River, Fla.; Florida State Road Department bridges at Titusville, Eau Gallie, Melbourne, and the National Aeronautics and Space Administration bridge at Addison Point.

• • • • • •

(b) The draws of the bridges at Eau Gallie and Melbourne shall open on signal, except on Monday through Friday from 6:45 a.m. to 8:15 a.m. and from 4:15 to 5:45 p.m., the draw may remain closed.

• • • • • •

(Sec. 5, Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05–1(c)(4) (35 F.R. 15922))

Effective date. This revision shall become effective on August 30, 1971.

Dated: July 21, 1971.

R. E. HAMMOND,
Rear Admiral, U.S. Coast Guard, Chief, Office of Operations.

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

APPORTIONMENT OF DEATH PENSION

In § 3.460, the introductory portion preceding paragraph (a) and paragraph (c)(3) are amended to read as follows:

§ 3.460 Death pension.

Death pension will be apportioned, if the child or children of the deceased veteran are not in the custody of the widow, at the rates specified in this section. Where the widow's rate is in excess of $70 monthly, because of having been the wife of the veteran during his service or because of need for regular aid and attendance, the additional amount will be added to her share.

• • • • • •

(c) *Mexican border period, World War I or later war periods.* • • •

(3) On and after January 1, 1969, where pension is payable under 38 U.S.C. 541, the shares for the widow and children will be not less than the rate which would be authorized under subparagraph (2) of this paragraph. If a greater total rate is available, the additional amount will be payable to the widow or children or will be divided. See § 3.451.

(72 Stat. 1114; 38 U.S.C. 210)

This VA Regulation is effective January 1, 1971.

Approved: July 28, 1971.

By direction of the Administrator.

[SEAL] FRED B. RHODES,
Deputy Administrator.

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5093]

[Wyoming 27628]

WYOMING

Partial Revocation of Stock Driveway Withdrawal

By virtue of the authority contained in section 10 of the Act of December 29, 1916, 39 Stat. 865, as amended, 43 U.S.C. sec. 300 (1964), it is ordered as follows:

1. The departmental order of February 5, 1924, modifying Stock Driveway Withdrawal No. 3 (Wyoming No. 1), is hereby revoked so far as it affects the following described lands:

SIXTH PRINCIPAL MERIDIAN

T. 47 N., R. 87 W., sec. 29, NE¼NE¼NW¼NE¼.

The area described contains 2.5 acres in Washakie County.

The land lies approximately 1 mile south of Ten Sleep, Wyo. Vegetation consists of a sagebrush-grassland association of low carrying capacity. The terrain is gently rolling.

2. At 10 a.m. on September 2, 1971, the land shall be open to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdraws, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on September 2, 1971, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

The lands have been and continue to be open to applications and offers under the mineral leasing laws, and to location under the U.S. mining laws.

Inquiries concerning the land should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, Cheyenne, Wyo.

HARRISON LOESCH,
Assistant Secretary of the Interior.

JULY 28, 1971.

[FR Doc.71–11109 Filed 8–3–71;8:46 am]

[Public Land Order 5094]

[Wyoming 0118975]

WYOMING

Powersite Restoration No. 567; Partial Revocation of Powersite Reserves No. 5 and No. 30; Opening of Land Subject to Section 24 of Federal Power Act

By virtue of the authority contained in section 24 of the Act of June 10, 1920,

41 Stat. 1075, as amended, 16 U.S.C. sec. 818 (1964), and pursuant to the determination of the Federal Power Commission in DA–149 and DA–150–Wyoming, it is order as follows:

1. The Executive order of July 2, 1910, creating Powersite Reserves No. 5 and No. 30, is hereby revoked so far as it affects the following described land:

SIXTH PRINCIPAL MERIDIAN

T. 35 N., R. 111 W., Sec. 9, NE¼NE¼.

The area described aggregates 40 acres in Sublette County.

2. In DA–150–Wyoming, the Federal Power Commission determined that the following described land, withdrawn in Powersite Reserve No. 5, will not be injured or destroyed by restoration to location, entry, or selection under appropriate public land laws, subject to the provisions of section 24 of the Federal Power Act, *supra*.

SIXTH PRINCIPAL MERIDIAN

T. 35 N., R. 111 W.,
Sec. 3, SE¼NW¼, NW¼SW¼.

The area described aggregates 80 acres in Sublette County.

The State of Wyoming failed to exercise its preference right of application for highway rights-of-way or material sites as provided by section 24 of the Federal Power Act of June 10, 1920, supra, when notified of the proposed restoration of the lands from powersite withdrawals.

3. At 10 a.m. on September 2, 1971, the lands shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable law. All valid applications received at or prior to 10 a.m. on September 2, 1971, shall be considered as simultaneously filed at that time: Those received thereafter shall be considered in the order of filing.

Any disposals of the land described in paragraph 2, above, shall be subject to the provisions of section 24 of the Federal Power Act, supra.

The lands have been and continue to be open to applications and offers under the mineral leasing laws, and to location under the U.S. mining laws.

Inquiries concerning the land should be addressed to the Assistant Manager, Branch of Lands, Bureau of Land Management, Cheyenne, Wyo. 82001.

HARRISON LOESCH,
Assistant Secretary of the Interior.

JULY 28, 1971.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 71–775]

PART 73—RADIO BROADCAST SERVICES

Station Identification Requirements

Order. 1. Section 73.1201(a) of the Commission's rules regarding station identification requirements specifies that television stations may make their hourly station identification announcements either visually or aurally but must make both a visual and an aural announcement at the beginning and the ending of each broadcast day.

2. The latter requirement for both visual and aural identification was initially imposed to aid the Commission's enforcement activities. The requirement for only two visual identifications in addition to an appreciable number of aural identifications in the entire day's transmissions does not assist appreciably in aiding the Commission's enforcement program and there does not appear to be any other public interest reason why both visual and aural identification announcements should be required at the beginning and ending of each broadcast day. Accordingly, § 73.1201(a) of the Commission's rules is amended to read as follows:

§ 73.1201 Station identification.

(a) *When regularly required.* Broadcast stations shall announce station identification: (1) At the beginning and ending of each time of operation, and (2) regularly, during operation, within 2 minutes of each hour. Standard, FM, and noncommercial educational FM broadcast stations shall, additionally, announce station identification regularly within 2 minutes of each half hour. Television broadcast stations may make these announcements either visually or aurally.

* * * * *

3. This amendment to the rules is adopted pursuant to the authority contained in sections 4 (i) and (j) and 303(r) of the Communications Act of 1934, as amended. Since this amendment will relax restrictions rather than impose new requirements on television stations, and does not appear to adversely affect the rights of either the public or any licensee, prior notice of proposed rule making and the effective date requirements of the Administrative Procedure Act (5 U.S.C. 553 (b) (B) and (d) (3)) do not apply.

4. *Accordingly, it is ordered,* That effective August 6, 1971, § 73.1201(a) of the Commission's rules and regulations is amended to read as set forth above.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: July 28, 1971.

Released: July 30, 1971.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sports Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

Audubon National Wildlife Refuge, N. Dak.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8–4–71).

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NORTH DAKOTA

AUDUBON NATIONAL WILDLIFE REFUGE

Public hunting of pronghorn antelope on the Audubon National Wildlife Refuge, N. Dak., is permitted only in the area designated by signs as open to hunting. This open area, comprising 13,837 acres, is delineated on a map available at refuge headquarters and from the Regional Director, Bureau of Sports Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, MN 55111. Hunting shall be in accordance with all applicable State regulations covering the hunting of pronghorn antelope, subject to the following special conditions:

(1) Hunting is permitted from 12 noon, c.s.t., until sunset, September 24, and from sunrise until sunset September 25 through October 3, 1971.

(2) Hunting will be by permit only, with a maximum of 25 antelope hunting permits to be issued by the North Dakota Game and Fish Department for Audubon Refuge.

(3) All hunters must exhibit their hunting license, antelope tag and permit, game, and vehicle contents to Federal and State officers upon request.

(4) Vehicular traffic, including the use of boats, is prohibited by hunters on the refuge during the antelope season.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 3, 1971.

DAVID C. MCGLAUCHLIN,
Refuge Manager, Audubon National Wildlife Refuge, Colebarbor, N. Dak.

JULY 28, 1971.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Ch. IX]

[Docket No. AO–373]

LETTUCE GROWN IN CALIFORNIA, ARIZONA, COLORADO, NEW MEXICO, AND A DESIGNATED PART OF TEXAS

Notice of Recommended Decision and Opportunity To File Written Exceptions With Respect to Proposed Marketing Agreement and Order

Pursuant to the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk, U.S. Department of Agriculture, of this recommended decision of the Department, with respect to a proposed marketing agreement and order (hereinafter referred to collectively as the "order") regulating the handling of lettuce grown in California, Arizona, Colorado, New Mexico, and a designated part of Texas. Any order that may result from this proceeding will be effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U.S.C. 601–674), hereinafter referred to as the "act."

Interested persons may file written exceptions to this recommended decision with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than the close of business of the 20th day after publication of this recommended decision in the FEDERAL REGISTER. They should be filed in quadruplicate. All such communications will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Preliminary statement. The public hearing, on the record of which the order was formulated, was held in Los Angeles, Calif., March 2–6, 1971, and continued at Albuquerque, N. Mex., March 10–12, 1971, pursuant to a notice thereof which was published in the January 27, 1971, issue of the FEDERAL REGISTER (36 F.R. 1266) with a minor correction in the February 2, 1971, issue (36 F.R. 1541). Such notice set forth a proposed marketing agreement and order prepared and presented with a petition for a hearing thereon by the Western States Lettuce Producers Committee.

Material issues. The material issues presented on the record of the hearing are as follows:

(1) The existence of the right to exercise Federal jurisdiction in this instance;

(2) The need for the proposed regulatory program to effectuate the declared purposes of the act;

(3) The definition of the commodity and determination of the production area to be affected by the order;

(4) The identity of the commodity, the persons, and the marketing transactions to be regulated; and

(5) The specific terms and provisions of the order including:

(a) Definition of terms used therein which are necessary and incidental to attain the declared objectives of the act, and including all those set forth in the notice of hearing, among which are those applicable to the following additional terms and provisions;

(b) The establishment, maintenance, composition, powers, and duties of a committee which shall be the local administrative agency for assisting the Secretary in administration of the order;

(c) The incurring of expenses and the levying of assessments on handlers to obtain revenue for paying such expenses;

(d) The method of regulating the handling of lettuce grown in the production area, including the establishment of base quantities and allocations and other terms and provisions relating to volume regulations;

(e) The establishment of requirements for reporting and recordkeeping on marketing transactions;

(f) The requirements of compliance with all provisions of the order and with regulations issued pursuant thereto; and

(g) Additional terms and conditions of miscellaneous provisions published (36 F.R. 1266) as §§ ___.86 through ___.96 which are common to marketing orders and other terms and conditions published as §§ ___.97 through ___.99 which are common to marketing agreements only.

Findings and conclusions. The findings and conclusions on the aforementioned material issues, all of which are based on the evidence adduced at the hearing and the record thereof, are as follows:

The proposed program should regulate the handling of lettuce by restricting the quantity that handlers may purchase from or handle on behalf of any and all producers during an allocation period of 1 or more weeks duration. It should provide a method of allotting the quantity of lettuce during any base quantity period among handlers based on amounts sold by producers during a prior representative period determined by the Secretary to the end that the total quantity to be handled from such crop will be apportioned equitably among producers. This is for the purpose of carrying out the declared policy of the act by establishing and maintaining orderly marketing conditions and increasing returns to producers of lettuce as provided therein.

(1) Lettuce is the Nation's most important fresh vegetable crop in terms of volume and total value. Its average annual farm value during the past 3 years was over $220 million. The average U.S. annual production of lettuce over the past 3 years was nearly 4.5 billion pounds, of which over 90 percent was grown in the proposed production area.

Production area lettuce is marketed in substantial volume in every month of the year. During 1970 the average monthly shipments were approximately 7,800 carlot equivalents. Approximately 65 percent of the unloads of production area lettuce shown in USDA's Market News reports of unloads in 41 cities are accounted for by 38 major cities outside of the production area. Every one of the 41 cities reported unloads of production area lettuce in 1970 and for practically every month. Expert testimony indicates that production area lettuce is shipped to virtually every city in the United States.

Production area lettuce is so grown, harvested, and packed that virtually any given lot may be, and often is, sold or transported to any market in the United States. The industry's domestic market for lettuce is the entire United States and its members are in daily contact with buyers across the Nation. At times shipments are diverted from initial destinations to other destinations either within or outside of the States of origin. With modern communication and transportation systems, lettuce prices or supplies in any one location are promptly known elsewhere and have a direct effect on lettuce prices and supplies in all other locations.

No significant differentiations occur in sales as between lettuce for use within a State in the production area as compared with lettuce for use in other parts of the United States or the world. If a program regulating only interstate and foreign commerce in lettuce were to be made effective, the market for lettuce in some States within the production area would be greatly overburdened with the unregulated supplies resulting in lower prices in such States. In turn, this would adversely affect the price of lettuce in other States. The evidence of record is that all movement of lettuce in marketing channels is inextricably intermingled and in direct competition, and hence it is concluded that the handling of lettuce within the respective States in the production area directly burdens, obstructs, or affects interstate and foreign commerce to such an extent as to make necessary the regulation of intrastate commerce in lettuce as well as the interstate and foreign commerce in lettuce.

Lettuce is an agricultural commodity within the group of vegetables named in the act to which its marketing authority may be applied.

It is determined from substantial evidence in the record of hearing that the right to exercise Federal jurisdiction in the marketing of lettuce grown in the production area hereinafter defined is proper and appropriate under the act and the order hereinafter set forth.

(2) Production of lettuce in the proposed production area has trended upward in the past decade, going from 34.2 million hundredweight in 1961 to over 42.4 million in 1970. Both increased acreage and improving yields accounted for the rise. During most years from 1961 through 1970, some lettuce was not marketed due to adverse market conditions. However, such losses of seasonal crops became more frequent and larger during the latter half of the period. Less than one-tenth of 1 percent of New Mexico's 1965 lettuce tonnage was not marketed. But growers in that State abandoned 3 percent of their 1969 output, and California growers did not market 5 percent of the lettuce that was available for marketing during the last half of 1970.

Season average farm prices for lettuce were less than parity prices each year during the 1961–70 period. The simple average for the 10 years is less than 82 percent of parity, ranging from only 69 percent of parity in 1961 to 95 percent in 1966. The ratio of farm to parity prices has declined since 1966, reaching a low of 70 percent in 1970.

During this period of relatively low prices, producers' costs for virtually all supplies and especially labor have steadily increased. Record evidence shows that costs per acre to grow and harvest lettuce in the Salinas, Calif. area, were approximately $1,067 in 1970. This represented an approximate 57 percent increase over 1964 costs.

Exhibit 47 regarding operations in the Yuma, Ariz., area further illustrates the cost trend, showing increases over the last 10 years in virtually every item. These included increases of 114 percent for growing costs per acre; 100 percent for preharvest labor, 84 percent for harvest labor, and 67 percent in cooling charges.

A number of witnesses presented evidence that lettuce prices have not been returning the cost of production. For example, Exhibit 65 (table 6) shows the North Texas area lettuce industry had negative producer returns in eight of the last 11 years with total losses of $519,000 or more in 1960 and 1969. The average annual total producer return for the 11 years was a minus $181,000.

Exhibits 14 through 17 show lettuce industry losses in Imperial County, Calif., as follows: 1966–67—$8,875,744; 1967–68—$4,558,153; and 1969–70—$10,801,920. Although official figures are not available for the 1970–71 season, it was generally expected that they will show a heavy loss. All of the areas that compete during the Imperial County, Calif., shipping season have about the same costs and experience the same market conditions. So the negative returns likely were common in all competing areas as well.

While burdensome on an annual basis, lettuce supplies vary sharply within the year. Exhibit 36 shows that U.S. weekly shipments during the January 1969–January 1971 period ranged from 1,033 to 2,459 carlot equivalents. Such drastic changes in short-run supply resulted in U.S. average prices ranging in 1970 from a low of 50 percent of parity in February to 127 percent in September.

With both supplies and prices swinging widely, gross returns have been volatile. Production area lettuce has produced agricultural income ranging from about $109 million to nearly $218 million in annual farm value during the last decade. The element of economic risk in lettuce production is among the highest in agriculture.

Many farmers have not been able to withstand the extreme income variability and continuing periods of loss. Census data show that 1,800 farms in the five-State area harvested lettuce for sale in 1959, 1,400 did so in 1964, and by 1970, their number was down to about a thousand. Evidence by hearing witnesses attested that more growers were likely to be forced out soon if the current marketing system continued.

Record evidence also indicates that total lettuce marketings have been below its potential because retailers are reluctant to promote lettuce even in times of abundant supply due to the short-term irregularity in production and price. Growers and shippers believe that by eliminating the wide variations in shipments they can smooth out price levels, reduce the need for the wide spreads between shipping point and retail prices, and sell more lettuce than at present.

It was contended by several witnesses at the hearing that the order would reduce industry income from lettuce because the demand for lettuce was elastic. The foundation for this contention was a statistical analysis of supply-price relationships in New York City published in 1957 by the University of Arizona. The applicability of that study to current conditions is at best questionable in view of the substantial changes in marketing practices that have occurred in the past decade. In addition, the fact that the analysis concerned terminal market relationships discounts its value as a measure of elasticity at the shipping point level. Subsequently, the University of Arizona analyzed economic relationships for more recent years at the shipping point level and concluded in effect that the total demand for lettuce is inelastic throughout almost all of the relevant range, and therefore, it is to be expected that any reduction in total quantity shipped that would likely result from a marketing control program would cause the total net revenue to the grower to increase.

Several witnesses at the hearing testified that although overproduction was a real problem to the lettuce industry, the situation was self-correcting through voluntary reductions in production to bring supply in line with demand. Recent downtrends in New Mexico lettuce output were cited as illustrations of better ways of attaining orderly and stable marketing conditions. Production in New Mexico in 1970 was reduced 29 percent from a year earlier, largely because of less acreage. However, aggregate production in other production area States increased, so for the much smaller crop, New Mexico producers received a 27 percent lower price. This indicates that efforts to regulate supply voluntarily do not succeed.

The record evidence shows that individual lettuce growers have been unable to cope with the industrywide problem of balancing supply with demand. Reductions by individual producers, or in one area, have been negated by increases by other producers or in other producing districts.

On the basis of their experience over the past decade, numerous grower and handler witnesses with long experience in production area lettuce production and marketing attested that in the absence of a program such as they proposed, supplies will likely continue to exceed demand, resulting in depressed prices. The need exists to regulate marketings through allocations to producers, thereby stabilizing supplies, promoting orderly marketing, and tending to improve prices toward parity, with due regard to interests of consumers.

The need for the order hereinafter set forth, is determined to exist in fact. Further, the terms and provisions of such order are authorized by the act as a means of establishing and maintaining orderly marketing conditions for this commodity.

(3) The term "lettuce" should be defined to identify the commodity to be regulated hereunder. Such term should mean all varieties of lettuce classified under the botanic name *Lactuca sativa*, commonly known as iceberg-type head lettuce, grown within the production area. It should exclude "soft lettuce" such as Romaine, endive, and Bibb lettuce and should also exclude iceberg-type lettuce grown outside the production area because these have significantly different characteristics and they are not considered as exact substitutions for production area lettuce.

A definition of the term "production area" should be incorporated into the marketing order to designate the specific area in which the lettuce to be regulated is grown. It should include all of the States of California, Arizona, Colorado, and New Mexico, and those counties in the State of Texas north of and in which no part of U.S. Highway 90 is located. This production area has accounted for over 90 percent of the U.S. lettuce production during the past 3 years. It is the smallest regional production area practicable for application of the order. The lettuce from all districts in the production area is of the same varieties and grown under similar cultural practices. It is harvested, packed, cooled, and transported in a similar manner and is

purchased by the trade at comparable prices for similar quality and is all known as Western iceberg lettuce.

There are numerous producer-shippers who operate in more than one of the States or districts of the production area. Applying the order to any lesser area could materially jeopardize the effectiveness of the program. California usually accounts for two-thirds or more of the annual U.S. lettuce supply. Arizona, New Mexico, Colorado, and a designated part of Texas each account for substantially smaller proportions of annual shipments. But each assumes an important role as a supplier within the year. If any district were excluded from the production area, its shipments could have a very detrimental effect on the program, especially during the months when its shipments are at a peak. The acreage in any one of the production area districts would likely be expanded if it were excluded from the order. Thus, while contributing to the oversupply of lettuce, producers in such districts would benefit from the operation of the order at the expense of other producers whose lettuce was being regulated.

(4) The term "handler" should be defined in the order to identify the persons who would be subject to regulation under the order. Therefore, the term should apply to all persons who perform any of the activities within the scope of the term "handle" as hereinafter defined. Obligations are placed on such persons for meeting requirements of the order and the regulations issued thereunder such as volume limitations, assessments, and reporting requirements.

Common or contract carriers transporting lettuce owned by another person should be excluded from this definition as their function is solely to supply freight or other services on an agency basis for other persons who own the commodity.

A producer who handles the lettuce he has produced is considered to be a handler when he performs the handling function on such lettuce. However, harvest crews, whether or not permanently employed by the owner of the lettuce, are considered as performing harvest activities on a custom basis, i.e., service on a fee basis, and have no other interest in or control over the commodity or its disposition. It is not necessary for purposes of order operation that the crew or its members be considered as handlers.

"Handle" should mean the act or function, or both, whereby any person places lettuce in the current of the commerce within the production area or between the production area and any point outside thereof.

According to the record, lettuce harvesting and market preparation processes generally are as follows: Lettuce in most fields matures at irregular rates so that in harvesting it is necessary to select and harvest each individual head, leaving the immature heads for later harvest. As many as five different harvestings may be required to complete the harvest on an individual field, but most fields require three.

Nearly all of the production area lettuce volume is harvested and packed by the so-called field pack method. Handlers' crews consist of about 30 to 35 individuals—typically 16 cutters, eight packers, four loaders, and two water boys plus a crew foreman and his assistants—who work as a unit. The cutters examine each individual head, and if the proper size and maturity, cut it from its roots. The head is then inspected for defects, and trimmed to allow four to five wrapper leaves to remain. The packers follow, placing the heads in a two-layer-pack standard corrugated carton. The top layer is washed with water, and the carton is closed, stapled, and loaded on pallets aboard field trucks, to be transported to vacuum cooler plants. The packaged lettuce is cooled to 34° and loaded into rail cars and trucks for shipment to market under controlled refrigeration. Although most harvested lettuce is field packed, some is moved to packing sheds for packaging and other handling.

The harvesting of lettuce terminates its production and brings the harvested lettuce into the visible supply on which trading takes place. Therefore, the harvesting of lettuce should be considered as an act of handling and the person responsible for such act as a handler.

Since harvesting is the initial act of handling, it should be the point of impact for the application of allocations, as hereinafter discussed, and for the determination of compliance therewith, except as otherwise specifically provided.

Applying the allocation in this manner at an early stage of trading should effectively coordinate the quantities of lettuce that may be purchased from producers, and handled on behalf of producers, with the allocations established for a particular allocation period. Conformance with the respective allocations of producers, in terms of the amount that may be handled, should be readily ascertainable by measurement on the basis of number of cartons of harvested lettuce, regardless of whether packed in the field or at the packinghouse.

In addition to the harvesting function, handlers are responsible for packaging, selling, shipping, and transporting harvested lettuce, and such acts should be construed as handling whether or not on behalf of a producer.

The record evidence shows that some lettuce is harvested but subsequently condemned by regulatory authorities because of quality factors, or rendered unsaleable by mishandling during packing, moving, loading, cooling, etc. When such lettuce, condemned or otherwise rendered unsaleable, is destroyed before shipment, the committee may credit an equal quantity to the producer's allocation as a replacement for such quantity of lettuce already charged. It should not be creditable to any allocation period subsequent to the period in which the destroyed lettuce was originally handled.

Although it is normally considered that the handler function begins with the cutting of the lettuce in the field, the harvested heads of lettuce continue as the property of the producer unless and until he sells his lettuce. In such circumstances, the handler acts on behalf of the producer in performing the various handling functions to prepare it for market as a matter of practical convenience in the operation of this industry.

(5) (a) Certain terms applying to specific individuals, agencies, legislation, concepts, or things are used throughout the order. These terms should be defined for the purpose of designating specifically their applicability and establishing appropriate limitations on their respective meanings wherever they are used.

"Secretary" should be defined to include not only the Secretary of Agriculture of the United States, the official charged by law with the responsibility for programs of this nature, but also, in order to recognize the fact that it is physically impossible for him to perform personally all functions and duties imposed upon him by law, any other officer or employee of the U.S. Department of Agriculture who is, or who may hereafter be, authorized to act in his stead.

The definition of "act" provides the correct legal citations for the statute pursuant to which the proposed regulatory program is to be operative and avoids the need for referring to these citations throughout the order.

The definition of "person" follows the definition of that term as set forth in the act, and will insure that it will have the same meaning as it has in the act.

"Producer" should mean any person engaged in a proprietary capacity in the production of lettuce in the production area for market. Such a person would normally have the right to sell lettuce so that handlers may purchase from such person or may handle it on such person's behalf.

Producers include individuals, partnerships, corporations, or any other business units which in any way own all or a portion of the lettuce produced. The term "partnership" should include husband-and-wife with respect to ownership of the lettuce produced and vested in them as tenants in common, joint tenants by the entirety, or under community property laws as community property.

Record evidence indicates that a substantial amount of production area lettuce is produced under joint venture arrangements by which several persons contribute resources to a single endeavor to produce and market a lettuce crop. In such ventures, one party is the farmer who may contribute one or more factors such as his labor, time, production facilities, or cultural skills. The other party typically is a handler who may contribute money and cultural supervision, the latter particularly as the crop nears the harvest stage. The handler generally also contractually agrees to harvest and market the venture's lettuce at a fixed fee per unit, such as a carton.

For purposes of determining base quantities under the order pursuant to

§ ___.53, all parties to a joint venture should each be considered as a producer, provided they each had a proprietary interest in the lettuce produced by the venture. "Proprietary interest" is construed as sharing in the risk of loss in the production and marketing of a joint venture's crop of lettuce through a direct contractual arrangement between the parties in the venture. The handler usually shares in the risk by financing the production, advancing as a guarantee, part or all of the growing expenses. Each party to the joint venture should be considered a producer in proportion to the share of his proprietary interest as specified in the contract—i.e., each party to a typical 50–50 joint venture should be considered the producer of half of the lettuce that was sold.

Occasionally a field of lettuce may be sold before it is ready to be harvested. The buyer of such unharvested lettuce should then also be considered a "producer" along with the seller as each would be bearing the risks and have proprietary interest. They should share 50-50 in any resulting credit for base quantity purposes unless otherwise specified in a written agreement. If the second producer sells the same crop in the field unharvested he should similarly share his half, or other percentage, ownership with the purchaser.

Since there are so many other possibilities regarding producer arrangements or actions such as foreclosures, bankruptcies, et cetera, rather than try to outline all cases, the order should provide for rule making recommended by the committee and approved by the Secretary to cover such situations.

Some lettuce is also raised by contract farmers, essentially salaried personnel who have no proprietary interest in the crop. Such individuals should not be considered "producers" under this program.

"Registered producer" means any producer registered with the committee pursuant to § ___.53. To obtain a base quantity, a producer should register with the committee, indicate his desire for a base quantity, and report and substantiate the number of cartons of his lettuce sold during a specified prior period or periods. The information furnished should clearly evidence sales by him in the representative period or on his behalf.

"Pack" should be defined as a specific quantity of lettuce in any type of container and which falls within prescribed weight limits, numerical limits, size limits, or any combination of the three, as prescribed by the Secretary upon recommendation by the committee so that whenever a pack regulation is issued under the order its meaning will be readily ascertainable.

"Carton" should be defined as set forth in the order as a basis of providing a standard unit of measure for identifying lettuce production, shipments, sales, base quantities and allocations. Even though containers other than those covered by the term "carton" may be used, the quantity of lettuce in such containers could readily be converted to an equivalent in terms of "cartons."

"Marketing year," "season," and "fiscal period" should be defined to set forth an appropriate annual period of time with respect to financial operations and regulatory provisions and records under the order. Although production area lettuce is produced and marketed in or from the production area each month of the year, the most desirable annual period at the present time is the 12-month period beginning August 1 through the following July 31. This period is appropriate since on August 1 the number of districts engaged in production or marketing is at a seasonal low. Several States in the production area (Arizona, New Mexico, and Texas) are generally not shipping lettuce at that time. Planting of most fall and winter crops is not yet underway. However, to allow sufficient operational flexibility, authority should be provided to permit changing the term of the marketing year to cover a different series of 12 consecutive calendar months. Any such change should, however, be made effective by the Secretary upon recommendation of the committee. In this way the views of the administrative agency, the committee, should be able to apprise the Secretary of needed changes based on operational experiences.

(5) (b) Section 608c(7)(C) of the act provides for an administrative agency for effective operation of an order. It is desirable to establish such an agency to administer this order, as an aid to the Secretary in carrying out the purposes of the order and the declared policy of the act. The term "Western States Lettuce Administrative Committee" is a proper identification of the agency and reflects the character thereof. A committee of 18 members, with representation as hereinafter provided in § ___.20, with a like number of alternates, should be a workable, equitable, representative committee adequate to judiciously recommend marketing regulations and to satisfactorily handle the other various committee duties and responsibilities. Record evidence shows that because of the size of the production area and the nature of the program involved, a committee of 18 is considered the least number which would allow good representation from the various districts while holding, within reason travel and other committee expenses incidental to attendance at potential weekly committee meetings.

Since a primary purpose of the act is to increase returns to producers, a preponderance of committee members should be producers. Therefore, 15 of the committee members should be persons who are producing lettuce for market in the respective districts at the time of selection and during their term of office, or who are officers or employees of such corporate producers in that district. A handler who is also a producer should not be precluded from being appointed as a producer member and vice versa. Three handler members and their alternates, selected from the production area at large and who handled lettuce during each of the 12 months of the season, should complement the producer representation, providing balanced judgments and a broad perspective of the production area lettuce marketing situation from month to month and district to district.

San Luis Obispo County of California, which was listed in District No. 5 in the notice of hearing, should be in District No. 1. The districts (i.e. the geographical divisions of the production area) delineate the producing sections generally in accordance with industry understanding of subdivisions of the production area. Producer representation on the committee should be distributed among such districts on the basis of their past record of acreage and production in each district. This basis should provide equitable representation on the committee and should also provide the separate districts with reasonable representation. This should be accomplished by allowing District No. 5, with one-third of the harvested acres, three producer members. Districts No. 3 and 8, each with over 15 percent of the acreage should have two each. Each of the remaining districts should have one member.

The order should provide for reapportionment and redistricting so that the Secretary may, upon recommendation of the committee, give consideration to adjustments and to make adjustments when warranted in committee representation in the event of significantly changing conditions in the future, such as major shifts in production within the production area.

A 1-year term of office, with no limitation on successions in office, seems reasonable and will allow the lettuce industry to express its approval or disapproval of the committee membership near the end of each marketing year and prior to the beginning of a new one.

The proponents' proposal that a public meeting be held in each district to nominate producer members and alternates prior to May 15 of each year, or such other date as may be specified by the Secretary, is a proper and practical method of providing the Secretary with names of nominees the industry desires to have serve on the committee.

Persons who produce in more than one district have invested time, effort, and resources in each such district and have a direct interest in any regulation affecting their lettuce wherever grown. Thus if a producer grows lettuce in more than one district he should be represented in each such district and able to vote at nomination meetings in each such district.

Since the three handler members and their alternates are elected from the production area at large, an assembled nomination meeting might be impractical. Therefore, a mail balloting procedure should be permitted if recommended by the committee and approved by the Secretary. The committee could submit to every known handler a list of persons affiliated with and designated by handlers who handled production area lettuce during each month of the im-

mediately preceding season. From such list each handler should vote for three persons. The committee should tabulate the returned ballots, with the three handlers having the most votes being nominated as members and the next three as alternates. The handler with the fourth largest vote should be the nominee for alternate to the handler with the highest vote, the fifth highest, alternate to the second, and the sixth highest alternate to the third. The entire voting process should be completed not less than 45 days prior to the pending term of office.

As the Western States Lettuce Administrative Committee will not be in a position to act until after the selection by the Secretary of its initial members, the order should provide a special procedure for selection of the initial members.

Proponent testimony stressed the urgent need for prompt issuance of the order and regulations thereunder. It would be desirable to hold public meetings to nominate the initial committeemen. However, as this procedure might cause undue delay, the Secretary should have the flexibility of accepting nominations obtained in other manners. The Secretary should be authorized to select the committee without regard to nomination in this case, or in other cases if for some reason nominations are not submitted to him in conformance with the procedures prescribed herein. Such selection should, of course, be on the basis of the representation provided in the order.

Each person selected by the Secretary as a committee member or alternate should qualify by filing with the Secretary a written acceptance of his willingness and intention to serve in his position.

Provisions should be set forth in the order for the filling of any vacancies on the committee, including selection by the Secretary without regard to nominations where such nominations are not made as prescribed, in order to provide for maintaining a full membership on the committee.

The order should provide that an alternate member shall be selected for each member of the committee in order to insure that each district has the opportunity to have representation at meetings. Each alternate who is selected shall have the same qualifications for membership as the member for whom he is alternate so that during the member's absence or in the event that the member should die, resign, be removed from office, or be disqualified, the district representation on the committee will remain unchanged. In such cases, the alternate should serve until a successor to such member has been appointed and has qualified.

With regard to committee meetings and procedure, the evidence of record shows that on actions not involving volume regulations, 10 members, including alternates acting as members, should be necessary to constitute a quorum and pass any motion. This should be adequate to reflect a representative and accurate cross section of industry thoughts and attitudes. However, on all motions to recommend volume regulations for a particular base quantity period, the record supports a different voting procedure. Since such action will vitally affect producers whose lettuce is or will be handled during that period of regulation, the only committee men who should qualify to vote are the three handler members including alternates acting as such and those producer members or their alternates from districts which are subject to allocation during that regulation period: *Provided*, That both the quorum and the number of concurring votes needed should be the majority of all those eligible to vote whether they are present or not.

The committee should have authority to follow procedures which will assure its proper and efficient operation. In order to facilitate the transaction of routine, noncontroversial business where it might be expensive and unreasonable to call an assembled meeting, or in other instances when rapid action may be necessary, the committee should be authorized to conduct meetings by telephone, telegraph or other means of communication. Since the committee may find it necessary to meet every week and since individual committeemen may have to travel many miles round trip to attend an assembled meeting, other arrangements may be vital to expedite transactions of the committee. Such possibilities as conference telephone calls or simultaneous meeting of groups of its members in two or more places with direct communications connections should be investigated.

Any votes cast at nonassembled meetings should be confirmed promptly in writing to provide a record of how each member, or the alternate acting in his stead, voted.

It is appropriate that the members and alternates of the committee be reimbursed for necessary expenses incurred when performing authorized committee business, since it would be unfair for them to bear personally such expenses incurred in the interests of all lettuce producers in the production area.

The committee should be given those specific powers which are set forth in section 608c(7)(C) of the act. Such powers are necessary to enable an administrative agency of this character to function properly under the marketing order. The committee's duties as set forth in the order are necessary for the discharge of its responsibilities. These duties are generally similar to those specified for administrative agencies under other programs of this nature. It should be recognized that these specified duties are not necessarily all-inclusive and it is probable that there are other duties which the committee may need to perform which are incidental to and not inconsistent with its specified duties or the marketing order.

An annual report should be prepared by the committee as soon as possible after the close of each marketing year to document fully its operations for the season to the industry and the Secretary.

(c) The committee should be authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it for its maintenance and functioning and to enable it to exercise its powers and perform its duties pursuant to the order. The committee should be required to prepare a budget at the beginning of each fiscal period, and as often as may be necessary thereafter, showing estimates of the income and expenditures necessary for the administration of the order during such period. Each such budget should be submitted to the Secretary with an analysis of its components. Such budget and report should also recommend to the Secretary the rate of assessment believed necessary to secure the income required for that period. While expenses and income cannot be anticipated with exact mathematical certainty, the committee with its knowledge of conditions within the industry will be in a good position to ascertain the necessary assessment rate and make recommendations in this regard. The funds to cover committee expenses should be obtained by levying assessments on handlers. The act specifically authorizes the Secretary to approve the incurring of expenses by the administrative agency established under the order and requires that each order of this nature contain provisions requiring handlers to pay, pro rata, the necessary expenses.

As his pro rata share of such expenses, each person who first handles lettuce during a fiscal period should pay assessments to the committee at a rate fixed by the Secretary on all lettuce he so handles. In this way, each handler's total payments of assessments during a fiscal period would be proportional to the quantity of lettuce handled by such handler, and assessments would be levied on the same lettuce only once.

The rate of assessment should be established by the Secretary on the basis of the committee's recommendation, or other available information, so as to assure the imposition of such assessments as are consistent with the act. Such rate should be fixed on a unit basis, such as a carton.

Although handling of lettuce from the production area is a continuous 12-month operation, the period near the beginning of the marketing year will be one of extra activity, for the committee will be closing out one marketing year, auditing its account, preparing the annual report, surveying the crop and marketing situation, developing a marketing policy and holding meetings to develop recommendations for regulations. This means that in all probability a large percentage of the committee's expenses will be incurred before income for the current fiscal period equals expenses.

In order to provide funds for the administration of this program during the

fiscal period prior to the time sufficient assessment income becomes available during such period, the committee should be authorized to accept advance payments of assessments from handlers and also, when such action is deemed to be desirable, to borrow money to meet such deficiency.

The provision for the acceptance by the administrative agency of advance assessment payments is included in other marketing order programs and has been found to be a satisfactory and desirable method of providing funds to cover costs of operation prior to the time when assessment collections are made in an appreciable amount. Revenue accruing to the committee from assessments later in the season would normally provide the means of repaying any loans.

Should it develop that assessment income during a fiscal period plus any funds in reserve would not, at the previously fixed rate, provide sufficient income to meet expenses, the funds to cover such expenses should be obtained by increasing the rate of assessment. Since the act requires that the administrative expenses shall be paid by handlers, this is the only source of income to meet such expenses. The increased assessment rate should be applied to all lettuce handled during the particular fiscal period, so that the total payments by each handler during each fiscal period will be proportional to his share of the total volume of lettuce handled by all handlers during that period.

Should the regulatory provisions of the order be suspended during any portion or all of a fiscal period, it will be necessary to obtain funds to cover expenses during such period unless funds in the reserve are sufficient for such purpose. Thus authorization should be provided to require the payment of assessments to meet any necessary expenses during such periods.

The assessment rates under the program would be set at the beginning of the season based on a crop of an estimated volume. However, lettuce in the production area is susceptible to damage from frosts, wind, hail, and other factors. Should crop failure or partial crop loss reduce the crop so that assessment income falls below expenses, it might be necessary for handlers to cover the deficit through increased assessments. Since this would impose an extra burden on the industry, it would be equitable and less burdensome for handlers to establish an operating reserve during years of normal production. The reserve fund would be built during years when funds exceed expenses. In order that reserve funds not be accumulated beyond a reasonable amount, however, a limit of not to exceed approximately 1 fiscal period's expenses should be provided.

Except as necessary to establish and maintain an operating reserve as set forth in the order, handlers who have paid part of any excess should be entitled to a proportionate refund of any excess funds that remain at the end of a fiscal period.

Upon termination of the order, any funds in the reserve that are not used to defray the necessary expenses of liquidation should, to the extent practicable, be returned to the handlers from whom such funds were collected. However, should the order be terminated after many years of operation, the precise equities of handlers may be impractical to ascertain. Therefore, it would be desirable and necessary to permit the unexpended reserve funds to be disposed of in any manner that the Secretary may determine to be appropriate in such circumstances.

Funds received by the committee from assessments should be used solely for the purpose of the order. The committee should as a matter of good business practice maintain up-to-date books and records clearly reflecting the operation of its affairs. It should provide the Secretary with periodic reports at appropriate times, such as at the end of each marketing year or at such other times as may be necessary, to enable him to maintain appropriate supervision and control over the activities and operations.

The marketing order should provide authority for production research, market research, and market development. Such activity could contribute to greater efficiency in production and marketing, and stimulate sales and per capita consumption. Since the act contains no authority for paid advertising for lettuce, market development does not include paid advertising.

(d) The declared policy of the act is to establish and maintain such orderly marketing conditions for lettuce, among other commodities, as will tend to establish parity prices to growers and be in the public interest. The regulation of the handling of lettuce, as authorized in the order, provides a means for carrying out such policy.

In order to facilitate the operation of the program, the committee should toward the end of each marketing year, prepare and adopt a marketing policy for the ensuing marketing season. A report on such policy should be submitted to the Secretary and made available to producers and handlers. The policy so established would serve to inform the Secretary and persons in the industry, in advance of the production and marketing of the crop, of the committee's basic plans for regulations, including estimates of the respective total allocations of lettuce and producer allocations with respect thereto. Handlers and producers could then plan their individual operations in accordance therewith and thus reduce the overproduction that has plagued the industry in the past. The policy also should be useful to the committee and the Secretary when specific regulatory action is being considered, since it would provide basic information necessary to the evaluation of such regulation.

In order to develop a comprehensive and effective policy for regulating the handling of lettuce in any marketing year, it is necessary that all of the important economic factors having a bearing on the marketing of the crop be considered by the committee. Hence, the committee in preparing its marketing policy should give consideration to the supply and demand factors, as hereinafter set forth in the order, affecting marketing conditions for lettuce since consideration of such factors is essential to the development of an economically sound and practical marketing policy.

The marketing policy report should contain forecasts of the probable demand for lettuce during the applicable base quantity periods. The record shows that the committee should be able to make reasonably accurate estimates of demand since there are detailed USDA records of weekly shipments for many years which can be correlated with economic and other relevant data. Since the committee will also have a record of the total of base quantities for any given base quantity period throughout the year, by relating the aggregate base quantities to the estimated aggregate demand it should be able to determine fairly closely the allocation percentages needed for each such period.

Information regarding the trend and level of consumer income should also be included in the marketing policy report. Changes in consumer income, particularly disposable income, influence the demand and prices for lettuce and would need to be considered by the committee.

The committee should also give consideration to prospective production of lettuce and competing vegetables by time periods, both in the production area and in competing areas.

The marketing policy report should also contain information regarding any other factors such as U.S. population and export demand conditions which have a bearing upon the economic and price-making situation for lettuce.

Section ___.50 dealing with marketing policy should also include the total of base quantities during each base quantity period. This is an important factor which must be included in considering any allocation regulation. As the divisor, it is one of two numbers used to calculate the uniform percentage which, when applied to each producer's base quantity, results in his allocation.

These factors should provide adequate criteria to consider in developing a marketing policy statement and should be adopted.

If supply or demand conditions for lettuce change significantly the committee should have authority to revise the marketing policy statement when the situation warrants. A report of each revised marketing policy should be submitted to the Secretary and made available to producers and handlers by bulletins, or other appropriate media.

The order should provide for volume regulations as hereinafter discussed under which the volume of lettuce handled during any allocation period could be limited to such quantity as may be expected to meet market requirements at fair returns to producers. The record evidence indicates that the order, as

hereinafter set forth, would provide an effective method of so regulating the handling of lettuce.

In administration of the order, the committee is given direct responsibilty for recommending to the Secretary the number of cartons of lettuce which should be marketed during an allocation period. To carry out such responsibilities effectively and equitably, and with due regard for the public interest, certain standards of operation and administration are prescribed in the marketing order. Such standards, which are deemed essential in the exercise of authority authorized by the act, relate to all the various elements which experienced lettuce producers take into consideration in planning and managing their production and marketing of production area lettuce.

Thus the order should provide that the committee should recommend to the Secretary whether regulation of lettuce is needed during a particular allocation period. The members of the committee would be represenative of lettuce producers and handlers. Consequently, it is proper that the committee should be qualified to evaluate and recommend to the Secretary whether, and the extent that, the available supplies of lettuce are excessive in relation to demand and whether restriction on the quantity of lettuce which handlers may purchase from, or handle on behalf of, producers during such period is needed to improve producer returns.

"Base quantity" should mean the number of cartons of lettuce determined for a producer pursuant to § ___.53 for a base quantity period. "Base quantity period" should mean each of the 12 calendar months or other specified periods during the marketing year.

"Allocation" means the number of cartons of lettuce which during an allocation period a handler may purchase from or handle on behalf of a producer holding a base quantity. "Allocation period" should mean 1 week or a number of consecutive weeks as established pursuant to § ___.54.

These four terms are used frequently in the order and should be defined to reduce the repetitive language that would otherwise be required.

The authority of the Secretary to limit the total quantity of lettuce to be purchased from, or handled on behalf of producers during an allocation period is granted by the act. Further, the terms and conditions of the order, as hereinafter set forth, are an appropriate means of exercising such authority. Such authority also applies to increasing such quantity previously established.

Whenever the total amount of lettuce which may be purchased from or handled on behalf of producers during any allocation period has been established by the Secretary, such total allocation should then be apportioned equitably among producers in accordance with methods and standards authorized by the act. The act authorizes more than one method of allotting the total amount of a commodity which handlers may market. Equitably allocating such total amount among producers based upon the amounts of lettuce sold by such producers in a representative prior period would best accomplish the declared policy of the act. A program based on producers' current availability of lettuce was rejected because it would stimulate lettuce plantings and thus magnify the problem of excessive production. Therefore an approach utilizing a representative base period should be adopted.

Several criteria were considered in arriving at the representative period. Use of recent years was considered imperative to reflect as nearly as possible the current status of the industry, including relative importance of areas and individual operations. At the same time, mandatory use of only one or two marketing years seemed to be disadvantageous or discriminatory to some districts and would have given excessive weight to extreme situations. On the other hand, if too many years were included, it might be difficult or impossible to obtain and verify accurate historical data on weekly lettuce sales, contracts, etc. It was originally proposed that a 5-year base period beginning the 1965–66 season would satisfy these requirements. According to the record adequate information was available for 1964–65 and inclusion of that season was necessary to provide the most equity among producers in all districts. On the basis of these criteria and considerations it is concluded that the 1964–65 season through the 1969–70 season is a proper initial representative period.

The considerations involved in determining a producer's base quantities are particularly important to producers, singularly and jointly. Vagaries of weather and the market often result in producers selling less lettuce in some years than in others although approximately the same production facilities may have been utilized. These variations may affect some producers more than others in a particular season. Therefore, some flexibility should be provided producers in selecting seasons within the representative period for the purpose of base quantity computation so that the influence of unusual seasons can be minimized. The record shows that this would be in the best interest of all producers and would provide the best method of promoting and preserving equitable apportionment among them.

The mandatory use of all seasons or a specific combination of seasons in the representative period would not treat all producers equitably. Therefore, options should be provided which would allow each producer to minimize or eliminate the influence of an unrepresentative season or seasons. By allowing the various choices or combinations hereinafter specified in the order, individual inequities will tend to be moderated to an acceptable level. These options are found to be both practical and reasonable and are incidental to the other provisions of the order and necessary to effectuate such provisions and should be adopted.

The order should provide that any person who acquired the facilities of another producer who did not grow lettuce for 2 years following the year of sale in the production area prior to the order becoming effective may, in the determination of his initial base quantities, use the lettuce sales of the selling producer during the representative period. As a matter of equity, such acquiring producers should have the same opportunity as is available to other producers to select the historical sales options most favorable to them. In recent years, several large corporations have purchased such facilities as production equipment, leasehold interests, and office equipment of lettuce producing businesses in the production area and employed the people who operated the businesses for the selling producers in the same or similar capacities. Thus, even though there was a change in producer entity, there was continuity in the lettuce producing businesses. In addition to purchase, a producer might acquire a lettuce producing business through inheritance, as a gift, in payment of debts, or in other ways. Regardless of the means whereby one becomes a lettuce producer, there should be written evidence of the transfer of the lettuce producing business.

For most purposes, 12 base quantity periods per year, based on calendar months, appear to best meet program requirements. However, the committee should have the right to recommend and the Secretary to determine modifications of this should conditions so warrant.

While 12 monthly base quantity periods would meet the needs of most producers, it is recognized that exclusive use of this approach might be inequitable for others whose sales within a month are heavily weighted within a particular part of such month. This occurrence most frequently reflects climatic conditions which influence each district's normal harvest season. A district may usually begin harvest in the last week of a calendar month or end harvest in the first week in another. The record also indicates that in some districts a harvest season may extend over only a few weeks in its entirety.

To require that a producer's base quantity be extended over a full month although earned on the basis of sales recorded within a shorter period might be inequitable to such producers in application of a uniform percentage during an allocation period since it could cause an artificial dilution of his historic sales record. To cite an extreme example, a producer's base quantity for a particular month may have been entirely earned during the final week of that month in prior seasons, and because of climatic conditions he may be unable to harvest earlier. Thus to assign this producer allocations during the first weeks of the month would require him to transfer such allocations to others, while in the final week of the month (his normal harvest period) he might be forced to acquire allocations from others by transfer in order to maintain his enterprise.

Such requirements might place an unreasonable burden on such a producer,

and means should be provided to avert this. Therefore, at least 120 days prior to any particular base quantity period, each producer not wishing his base quantity for that period to be applied throughout the period should be given the option of requesting the application of his base quantity on a proportional basis within such base quantity period. The producer exemplified above could request that his base quantity be applied entirely to the final week of the month; another producer faced with different circumstances could request 70 percent of his base quantity to be applied during the first week of the month and 30 percent in the second week. Procedures to provide for such proportional application of base quantities within a base quantity period should be recommended by the committee and approved by the Secretary.

This option would require more exact production and harvest timing than under the longer base quantity period, but flexibility would be provided by transfer authority.

Record evidence indicates that a person should have made an effort to produce lettuce in at least one of the 1967–68, 1968–69, or 1969–70 marketing years, or otherwise he should be considered as having ceased being a lettuce producer and thus ineligible for an initial base quantity under § ___.53(b)(1). If a bona fide effort to produce was made during such seasons, even though no lettuce was harvested he should be considered a producer. Determination of bona fide effort would include, but not be limited to, demonstration by the party asserting his producer status of his planting, caring for and investing money in his crop and making arrangements for its handling; then being unable to finish the crop because of a natural disaster. It would be inequitable and inappropriate to include any lettuce produced after the 1969–70 season and prior to issuance of any volume regulations under this proposed program in computing initial base quantities. To provide for such an inclusion during the formative stages of such a program would encourage harmful expansion and production of additional surplus to gain advantage over other producers in anticipation of this regulatory program.

Subsequent to the proposed program's inception, if a producer is granted a base quantity but does not make a bona fide effort during two consecutive seasons to produce and market lettuce thereunder, the committee should be empowered under rules and regulations recommended by the committee and approved by the Secretary, to declare such base quantity invalid and canceled at the end of the second season. This should enhance the committee's ability to evaluate potential production and should contribute to more efficient program operation. This provision should not be mandatory, however, in order that exceptions may be made to recognize extenuating circumstances.

Section ___.53(b)(2) provides for a moving or "rolling" base approach to annually adjust base quantities in order to recognize trends in sales volume of individual operations. This provision should be included in the program to keep base quantities relative to actual sales in recent years and thus preclude excessive rigidity in the industry structure.

For producers with base quantities calculated by use of sales in less than five seasons, each season's sales should be weighted according to the formula in § ___.53(b)(2)(ii) with a weight of one fifth assigned to sales recorded in each subsequent season. In this manner, sales in subsequent seasons would have a uniform effect on each producer's base quantities, regardless of the number of seasons used in calculating his prior base quantities.

For producers with base quantities calculated on a five-season basis, subsequent base quantities in each base quantity period would be computed by (1) arraying all sales used in computing each existing base quantity, (2) dropping the sales in the earliest season included, (3) adding his sales in the most recent season during such period, and (4) dividing by 5. The resulting average(s) would be his new base quantity(ies).

In addition to annual adjustments made on the basis of prior sales, provisions should be included to permit annual additive adjustments in total base quantities which would recognize changes in the demand for lettuce. Such additive adjustments should reflect changes in U.S. population, per capita lettuce consumption, export demand and other factors which affect the aggregate demand for the commodity. For such additive adjustments, a maximum annual limit of 5 percent of the total base quantities of the previous season should be prescribed to insure year to year stability. Such adjustments should be issued to permit new producers to gain entry into the industry, and to allow established producers to expand.

The marketing order should provide that the committee shall, with the approval of the Secretary, establish rules, standards, and procedures to be used in determining additive adjustments in base quantities to be recommended to the Secretary. Such specific criteria would help insure that additive adjustments would be fair and reasonable.

It should also be required that additive adjustments be divided equally among base quantity periods in each marketing season. There was testimony at the hearing against this requirement inasmuch as it would cause future inflation in a base quantity period which might already have an unusually high base quantity, while adding only the same amount to a relatively small total base quantity in another base quantity period. It was contended that the committee should have discretion to make assignments of additive base quantities in base quantity periods in which total base quantities were smallest in relation to market needs. However, the assignment of additive base quantities would not add quantity but would only affect the criteria for assigning allocations. Thus it would have no effect on quantities permitted to be handled. Furthermore, it would fail to provide equity to applicants for additive base quantities or to established producers. Should the committee be permitted to assign additive base quantities in specific base quantity periods and to exclude other such periods, new growers climatically limited to producing in the excluded base quantity periods would be effectively barred from entry. Moreover, the relative importance of base quantities of established producers in the excluded periods would be unaffected. But for those periods in which the base was increased, growers would experience a decline in their share of the base.

New base quantities should be issued on a scale necessary for a minimum economic enterprise. Additive adjustments in base quantities issued to established producers should also recognize the need for a minimum economic enterprise and this consideration should be given priority in authorizing such adjustments. In making its recommendations, the committee should evaluate each application for such adjustments individually, considering the acreage range and crop rotation practices of the lettuce enterprises in the district involved, land, labor, and equipment available, experience of the applicant, other enterprises of the applicant, and such other factors as it may consider relevant.

The proponents requested a postponement of such additive adjustments until the 1974–75 season. They contended that this provision would otherwise impose a substantial hardship on the initial committee struggling to become operational. Also final data on which adjustments would be based would ordinarily be issued about 1 year after the period covered. It appears the committee should be given additional time. However, making this provision effective in the 1973–74 season should provide adequate time for the committee preparations in this regard.

It was contended that the order would deny entry into lettuce growing to any new producer, would restrict expansion of acreage and would create a large monetary value for a base quantity. However, consideration has been given to these matters; and the program has been designed to give equitable treatment to producers consistent with program objectives.

Administrative procedures required to establish volume limitations during any allocation period under the marketing order are (1) determination of a base quantity for each producer and total base quantities for all producers; (2) committee recommendations for and establishment by the Secretary of the total allocation of lettuce; (3) computation of a uniform percentage which the total allocation is of total base quantities and (4) application of such uniform percentage to each producer's base quantity to determine his allocation in cartons for the period.

Administration of the marketing order is facilitated by computation of the uniform percentage. This provides a readily available and easily understood expression of the ratio of total allocation to total base quantities in the form of a ratio or percentage figure applicable to each producer's enterprise. It provides each producer with an equitable apportionment of the total allocation under a uniform rule and his allocation becomes readily ascertainable by multiplying his base quantity by the uniform percentage. The resulting number of cartons thereby becomes his allocation.

A modified procedure to determine producer's allocations should be used when an allocation period falls within two base quantity periods. Under such circumstances, the total allocation should be divided in proportion to the number of days of the allocation period in each of the base quantity periods, and the resulting computed allocations then divided by the applicable total base quantities to compute uniform percentages. Thus, for such an allocation period, the allocation for a producer holding a base quantity should be established by multiplying his base quantity referable to one of the base quantity periods by the applicable computed uniform percentage and adding the product to that derived by multiplying the producer's base quantity referable to the other base quantity period by the applicable computed uniform percentage. It would be unreasonably restrictive to require that the portion of a producer's allocation computed on the basis of a particular uniform percentage be used only in those days of the allocation period within the applicable base quantity period. Therefore, handlers should be permitted to purchase lettuce from a producer or handle lettuce on his behalf throughout the entire allocation period. However, for purposes of determining future base quantities of the producer, any sales by, or on behalf of, the producer during such an allocation period should be prorated to the separate base quantity periods in the same ratio as used in computing the respective components of the producer's allocation, so that the relationship of base quantities to particular base quantity periods continues essentially the same notwithstanding an allocation period which overlaps base quantity periods.

An adaptation of the uniform percentage would be required to apply to base quantities of producers who request proportional application of their base quantities within base quantity periods. Procedures to provide equity in such cases should be established through rules issued by the committee.

As each handler is the one who is putting lettuce in channels of commerce within the production area or between the production area and any point outside thereof, the responsibility for and burden of compliance should be on handlers.

The requirement that no handler may purchase from, or handle on behalf of a producer, lettuce unless it is within the allocation of a producer who has a base quantity provides an appropriate, administratively feasible, and effective method for allotting the amount of lettuce which handlers may purchase from or handle on behalf of any or all producers thereof.

To assist in the administration and effective enforcement of the marketing order each producer who is given an allocation should determine which handler or handlers will handle all or portions of his marketable lettuce. The requirement that each such producer shall notify the committee of the handler or handlers who will handle such lettuce and that the committee advise such handlers of the applicable quantities involved is both a necessary and a reasonable administrative requirement.

If and when marketing conditions arise which make it appropriate that the total allocation should exceed the total base quantities, it is proper that the resulting uniform percentage may be applied to each producer's allocation even though it may be more than 100 percent of his base quantity. This would tend to discourage indiscriminate overplanting by individual producers hoping that no allocation might be set but who collectively may cause the opposite effect.

Just as land, equipment, or other factors involved in producing lettuce may be shifted by loan, sale, inheritance, or in any other manner, provisions should be included in the order for transferring base quantities or allocations, in whole or in part, to other producers along the same general lines. Except as hereinafter discussed, transfers of base quantities should be made at least 4 months prior to the applicable base quantity period to be effective for such period to allow adequate time for planning and allocating the needed production resources.

Transfer of allocations, however, should be permitted at any time so that the market will tend to be provided to the extent practicable with a total allocation comprised of the best quality available. Since lettuce production is not a process which can be precisely adjusted during a growing season to meet needs, it is unlikely that producers will always be able to precisely balance their supplies of lettuce ready for harvest and their allocations. Some producers may have too much and others too little. By transferring allocations, producers should be able to greatly improve the balance of supplies and allocations. With respect to the sales of lettuce covered by a transferred allocation, credit therefor in future base quantity computations for the producers involved in the transfer should be in behalf of the transferor unless otherwise provided in the written agreement between the producers, a copy of which should be delivered to the committee. Details of all transfers should be confirmed to the committee by both parties thereto within 48 hours after the agreement so that the committee will be informed reasonably promptly of the producers and handlers who are relying on transferred allocations for their lettuce and accurate and proper program records can be maintained.

The committee should set up means to act as a clearinghouse of information so that it may assist producers and handlers in locating and identifying any unused allocations and lettuce in excess of allocations so that the total allocation, insofar as practical, is handled.

The proponents proposed two modifications of § ___.55 of the proposal in the notice of hearing which should be adopted. First, that new base quantities or adjustments to base quantities pursuant to §___.53(c) should be prohibited from being transferred for at least 2 years. This requirement should tend to minimize applications from persons who have little desire to actually grow lettuce for market to the extent permitted by the new base quantities or adjustments and inhibit applicants applying for base quantities with the sole intent of selling such base quantities to others. Also, the order should provide for rules by which the committee may facilitate pooling of allocations of producers dealing with a common handler. As discussed heretofore, by transferring allocations producers should be able to improve the balance of supplies and allocations. Authority to overship or compensate for shortages, as in §§___.56 and ___.57, provides additional flexibility. On occasion, however, allocations of producers may go unused. In such an event, a pooling arrangement where each producer would receive credit in proportion to his share of the total allocation would benefit producers for purposes of base quantity history. The proponents used the example of producers A, B, and C, each with 100 units of allocation and each in a separate joint venture with the same handler. However, producer A had a supply of 150 units of preferred lettuce, B had only 25, which were not desirable for market; and C had 75 desirable units. If efforts to transfer unneeded allocations were unsuccessful and the market demanded only the better quality lettuce, the handler might elect to harvest and market all of the lettuce of producers A and C, but none of B's for a total sale of 225 units. With a previously agreed upon pooling arrangement, producers A, B, and C would share equally in the credit of 225 units, or 75 each. Without such a feature, producer B would have gotten no credit for future base quantity history and producer A's lettuce would not have been harvested in an amount more than 100 units and would not have received the remuneration for the additional 50 units harvested.

A pooling arrangement would provide producers insurance of equal treatment, during periods of unusual market conditions, and would contribute to the shipment of the best quality lettuce available. Therefore, to provide benefits to producers and promote efficiency of handlers' operations, while providing the consumer with the best quality lettuce available, authority should be provided for such pooling of allocations, with the provisions of such pooling agreements at the discretion of the parties involved.

Some flexibility in addition to transfer authority is essential for reasonable operation of the proposed allocation program. Otherwise, transfers would have to be made to accommodate minute deviations of available supplies from assigned allocations. Harvesting might have to stop in the middle of a row, or a railroad car might have to be one carton short of a carload qualifying for a lower freight rate. At times, weather limitations or other conditions may cause a producer's allocation to be unfilled and he may find it impractical or otherwise undesirable to acquire lettuce to make up for such deficit. Therefore, there is a need for including authority for overages and shortages as hereinafter specified in §§ ___.56 and ___.57.

While it is necessary to provide a means to maintain efficiency in lettuce harvesting and to permit short run distortions of harvest patterns to be averaged out, the quantities permitted to be handled under this provision should be limited in order to avoid defeat of the general program objectives. Accordingly, the order should provide that handlers may in the aggregate purchase from or handle on behalf of a producer an additional quantity of lettuce not exceeding 10 percent of the producer's allocation pursuant to § ___.54, with the proviso that the quantity of lettuce so handled be deducted from the producer's allocation for the next allocation period. Conversely, if during an allocation period handlers do not purchase from or handle on behalf of a producer the total quantity of lettuce representing the allocation established for the producer less required deductions due to prior overshipments, then a volume not to exceed 25 percent of the producer's allocation for such period may be purchased for or handled on behalf of such producer in excess of such producer's allocation in the next allocation period. The evidence of record shows that a maximum overage of 10 percent and compensating adjustments for shortages of up to 25 percent would be adequate to provide for short term flexibility. However, the order should permit the Secretary, on the basis of a committee recommendation, to determine any other percentage that would be more appropriate so as to accommodate operations to the then current needs therefor. The producers should designate the handler or handlers who are to handle such additional quantities and notify the committee thereof. The committee would then be in a position to apprise the relevant handlers of their respective quantities, the same as with respect to quantities of lettuce that may be handled within a producer's allocation. This will assure a means of checking compliance; also, the committee will know how much lettuce is involved and who is authorized to handle the additional quantities.

In connection with the application of the total quantity of lettuce handled during an allocation period to the allocation established for a producer, if the total quantity of a producer's harvested lettuce handled during such an allocation period is in an amount less than that covered by the allocation and allocations obtained by transfer, the quantity handled should be applied first proportionately to the established allocation less any required reduction due to a prior overage, and to any allocations received by transfer but with credit for sales retained by the transferor. The remaining quantity handled should be applied in order as follows: (1) To the authorized compensation for a prior shortage and (2) the remainder to any allocation transferred to him on which he obtains credit for future base quantities. This requirement is necessary to insure equitable treatment to producers who transfer allocations and retain credit for any sales pursuant thereto, and to avoid pyramiding. If during an allocation period the quantity of a producer's lettuce handled were first applied to any additional quantity authorized to be handled (whether because of a previous shortage, or a transfer, or otherwise) and the total quantity handled failed to exhaust the total quantity permitted to be handled, the unused portions based on available allocations could then be pyramided for all producers and handled in a subsequent allocation period in an amount greatly in excess of the total allocation for such period, thereby tending to diminish the effectiveness of the program.

At times within a marketing year, a producer might not have an allocation needed in order to compensate for an overage that took place in the preceding allocation period. This could occur because he did not have a base quantity during subsequent base quantity periods of that marketing year, allocation regulations might not be issued in the remainder of the marketing year, or for other reasons. The purpose of the overage and shortage authorities is to provide weekly flexibility with respect to operations during a marketing year.

Requiring compensating adjustments during the following marketing year would not meet such an objective, but would instead result in substantial administrative problems for the committee in determining base quantities, and in evaluating allocation requirements. Under such circumstances, the producer should not be obligated to make a compensating adjustment the following marketing year. However, for purposes of determining future base quantities, a producer's sales should be reduced by the amount of overages incurred but not repaid. This would be fair and equitable to producers generally and tend to minimize advantages a producer may have derived from overages for which compensatory adjustments are not made.

The proponents recommended deleting authority for the "Other Regulations" listed in the notice of hearing, except to fix the size, capacity, weight, dimensions, or pack of the container, or containers, which may be used in the packaging, transportation, or shipment of lettuce. It is important that the order provide authority for such regulations to assure standardized containers and packs of such containers to establish a uniform basis for trading. The committee should have authority to recommend the elimination of any containers which introduce an element of competition that adversely affects prices or tends to disrupt orderly marketing conditions for lettuce. Standardization of containers to those most suitable for the packing, transportation, or shipment of lettuce, and prescribing the use of containers of sizes and capacities which can readily be distinguished from each other would tend to establish more orderly marketing conditions and increase returns to producers.

However, the exercise of this authority should not be used to close the door on experimenting with new containers more suitable for lettuce, or ones needed due to changes in marketing practices, or to preclude commercial development of new containers of different sizes, weights, dimensions, and capacities.

The order should contain authority for establishing and prescribing such pack specifications for lettuce as would be desirable for the marketing or, and reflect favorably on, production area lettuce so as to tend to improve returns to producers, increase the demand for such lettuce, and otherwise effectuate the declared policy of the act.

Provisions should be included in the order to permit certain shipments such as donation to relief or charitable institutions, and experimental shipments, to be exempt from regulation if they meet the rules and safeguards prescribed by the Secretary upon recommendation of the committee to assure the exempted shipments do not enter regulated channels of trade contrary thereto.

According to the record the committee needs authority to recommend the establishment of rules and regulations to exempt the handling of small quantities of lettuce from regulations or assessments, or both. This should be provided to eliminate expending committee time, effort and expense needed for record keeping and compliance checking far out of proportion to the benefits that such insignificant quantities of lettuce might have on improved returns to producers or assessments.

(e) The committee should have such information and data as may be needed for the performance of its functions under the order including but not limited to those necessary to establish base quantities, allocations, modifications thereof, and to verify compliance with regulations. The industry has routinely maintained such information and has it in its possession and readily available, and the requirement that such information be furnished to the committee in the form of reports would not constitute an undue burden. It is difficult to anticipate every type of report or kind of information which the committee may find necessary in the conduct of its operations under the order. One report that should be submitted each week by each handler is the quantity of lettuce the handler purchased from producers and the quantity of lettuce handled on behalf of each and all producers. Therefore, the com-

mittee should have the authority to require, with approval of the Secretary, reports and information from handlers, as needed, of the type set forth in the order, and at such times and in such manner as may be necessary.

All reports and records furnished or submitted pursuant to the order to the committee should be treated as confidential and be disclosed to no person other than the Secretary and persons authorized by the Secretary. Under certain circumstances, release of information compiled from handlers' reports may be helpful to the committee and the industry generally. However, such reported information should not be released other than on a composite basis, and such releases should not disclose information concerning individual operations. Such prohibition is necessary to prevent the disclosure of information that may affect detrimentally the business operations of the persons who furnished the reports. However, since the operation of this allocation program is inextricably involved with individual producers' base quantities and allocations, this information should not be treated as confidential.

Since it is possible that a question could arise with respect to compliance, it would be appropriate to provide in the order that handlers be required to maintain for each marketing year complete records on their receipts, handling, and disposition of lettuce. Such records should be retained for not less than 2 years after the termination of the marketing year in which the transaction occurred, so that, if needed in connection with enforcement, or other necessary purposes under the order, the requisite records will be available for that purpose. Such a 2-year period should afford an adequate and reasonable time for access thereto and should not impose an unreasonable or burdensome obligation on handlers inasmuch as such records are generally retained for similar time for purposes of business operations.

The successful operation of a program of this type depends upon the degree of compliance with its provisions. In this connection, it is necessary that the committee's designees for the purpose be given the same authority that the Secretary has to examine and verify records and ascertain the quantity of lettuce handled. The verification of records and reports and the inspection needed in connection therewith should be performed during reasonable working hours and in such manner that normal operations would not be interrupted.

(f) No handler should be permitted to handle lettuce, the handling of which is prohibited pursuant to the order; and no handler should be permitted to handle lettuce except in conformity with the order. If the program is to operate effectively, compliance therewith is essential; and, hence, no handler should be permitted to evade any of its provisions. Any such evasion on the part of even one handler could be demoralizing to the handlers who are in compliance and would tend, thereby, to impair the effective operation of the program.

(g) The provisions of §§ ___.86 through ___.96, as hereinafter set forth, are generally similar to those which are included in marketing agreements and orders now operating.

Such provisions, identified by section numbers and heading, as follows: § ___.86 *Right of the Secretary;* § ___.87 *Effective time;* § ___.88 *Termination;* § ___.89 *Proceedings after termination;* § ___.90 *Effect of termination or amendments;* § ___.91 *Duration of immunities;* § ___.92 *Agents;* § ___.93 *Derogation;* § ___.94 *Personal liability;* § ___.95 *Separability* and § ___.96 *Amendments* are incidental to and not inconsistent with the act and are necessary to effectuate the other provisions of the order and to effectuate the declared policy of the act. The hearing record supports the inclusion of each such provision in the order.

The record shows that the order should provide for the periodic presentation to the Secretary through referenda of the views of producers covering the future continuation of the order. Such a provision should be in addition to the one set forth in the act, requiring the termination of the order whenever a majority of the producers favor termination. A referendum every fifth year the order is in effect is reasonable. This should provide the opportunity for producers to express themselves as to whether or not the regulatory program should continue in effect. Five years of operations under the order should provide a sufficient amount of time for producers to evaluate the worth of the program. If the results of a referendum show that more than 50 percent of the producers by number, and volume of production, favor termination of the order, the Secretary should consider termination of the order. If such a number of the producers favor termination, it seems reasonable that the program is not measuring up to expectations. Under such circumstances continuation of the program would be precluded under the act. Therefore, the Secretary should terminate the program in accordance with the act. However, such action should be taken so as to become effective at the end of the then current marketing year provided the proposed termination is announced by June 30 of that year so as to afford producers and handlers reasonable opportunity to arrange for their future operations accordingly.

Those provisions which are applicable to the proposed marketing agreement only, identified by section number and heading, are as follows: § ___.97 *Counterparts;* § ___.98 *Additional parties;* and § ___.99 *Order with marketing agreement.* Such provisions are also included in marketing agreements now in effect and the record supports inclusion of such provisions in the marketing agreement.

Rulings on briefs of interested parties. At the conclusion of the hearing the Presiding Officer fixed April 26, 1971, as the deadline for interested parties to file briefs with respect to the evidence adduced at the hearing and the findings and conclusions to be drawn therefrom. It was later extended to May 3, 1971.

Briefs were filed by the following: Ernest J. Holcomb on behalf of the Western States Lettuce Producers Committee; Stuart H. Russell, Esq., on behalf of the New Mexico Lettuce Growers Committee; William H. Carder, Esq., on behalf of the United Farm Workers Organizing Committee, AFL–CIO; Charles F. Wheatley, Jr., Esq., on behalf of Mr. Thomas M. Bunn; Bruce Parr, on behalf of the Texas Vegetable Marketing Association; and Marshall H. Davis for Mel Finerman Co., Inc. Letters received from the following were also considered with the briefs: William J. Williams for the Irvine Co.; H. S. Raymond for the J. G. Boswell Co.; Nish Noroian for the Nish Noroian Farms; and Bill V. Kontilis for the Pacific Lettuce Co.; Adrian Ogaz; Miss Josephine M. Bunn; Thomas M. Bunn for General Farm Investment Co.; and Allan Grant for the California Farm Bureau Federation.

Every point in the briefs and letters was carefully considered along with record evidence in making the findings and reaching the conclusions herein set forth. To the extent that the findings and conclusions proposed in the briefs and letters are inconsistent with findings and conclusions contained herein, requests to make such findings or to reach such conclusions are denied on the basis of facts found and stated in connection with this recommended decision.

One of the briefs filed objected to the conduct of the hearing in that, "When counsel for UFWOC attempted to introduce farm worker testimony on this point, however, they were first denied an interpreter by the hearing officer; participation in the hearing by Spanish-speaking persons was thus precluded. Moreover, the hearing officer subsequently ruled during the cross-examination of proponent witness William B. Witner (See testimony on March 4, 1971) that such testimony was irrelevant 'under the Act' and thus inadmissible."

The applicable rules of practice governing conduct of the hearing do not provide that interpreters be furnished by the Department of Agriculture. However, statements in Spanish made by a witness were interpreted into English by counsel for the witness and entered as such in the record. No exception or objection was made to the portion of the hearing record containing the statements as so interpreted by counsel. Regarding the alleged ruling that certain testimony was "irrelevant 'under the act' and thus inadmissible," the record contains no ruling, nor any objection, with respect thereto. As provided in said rules of practice, only objections before the presiding officer may subsequently be relied upon in the proceeding. In the absence of any such objections and ruling in the hearing record for review and consideration, the appeal is denied.

General findings. Upon the basis of the evidence introduced at such hearing, and the record thereof, it is found that:

(1) The marketing agreement and order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said marketing agreement and order regulate the handling of lettuce grown in the production area in the same manner as, and are applicable only to persons in the respective classes of commercial or industrial activity specified in, a proposed marketing agreement and order upon which a hearing has been held;

(3) The said marketing agreement and order are limited in their application to the smallest regional production area which is practicable, consistent with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) There are no differences in the production and marketing of lettuce grown in the production area which make necessary different terms and provisions applicable to different parts of such area; and

(5) All handling of lettuce grown in the production area, as defined in said marketing agreement and order, is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

Recommended marketing agreement and order. The following marketing agreement and order [1] are recommended as the detailed means by which the foregoing conclusions may be carried out:

DEFINITIONS

§ ___.1 Secretary.

"Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may be hereafter delegated, to act in his stead.

§ ___.2 Act.

"Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

§ ___.3 Person.

"Person" means an individual, partnership, corporation, association, or any other business unit.

§ ___.4 Production area.

"Production area" means the States of California, Arizona, Colorado, and New Mexico and that part of the State of Texas located north of and in which no part of U.S. Highway 90 is located.

§ ___.5 Lettuce.

"Lettuce" means all varieties of *Lactuca sativa,* commonly known as iceberg type head lettuce, grown within the production area.

§ ___.6 Handler.

"Handler" means any person (except a common or contract carrier transporting, or crews harvesting, lettuce for another person) who handles lettuce on behalf of a producer or on his own behalf.

§ ___.7 Handle.

"Handle" means to harvest lettuce or to package, sell, ship, or transport harvested lettuce or in any other way to place harvested lettuce in the current of the commerce within the production area or between the production area and any point outside thereof.

§ ___.8 Producer.

"Producer" means any person engaged in a proprietary capacity in the production of lettuce for market.

§ ___.9 Registered producer.

"Registered producer" means any producer who is registered with the committee pursuant to § ___.53.

§ ___.10 Pack.

"Pack" means a quantity of harvested lettuce in any specified container and which falls within specific weight limits, numerical limits, or size limits, or any combination of these, prescribed by the Secretary upon recommendation of the committee.

§ ___.11 Carton.

"Carton" means the standard container No. 45B as described in section 43607 of the Agricultural Code of California, as amended, or the equivalent thereof or any other container prescribed by the Secretary upon recommendation of the committee.

§ ___.12 Committee.

"Committee" means the Western States Lettuce Administrative Committee established pursuant to § ___.20.

§ ___.13 Marketing year, season or fiscal period.

"Marketing year," "season," or "fiscal period" means the period from August 1 to the following July 31, both dates inclusive, or such other 12-month period recommended by the committee and approved by the Secretary: *Provided,* That in connection with such a change the period of the then current or an adjoining fiscal period may be shortened or extended to accord therewith, and the initial period shall begin on the effective date of this part and end on the following July 31.

§ ___.14 Base quantity; base quantity period.

"Base quantity" means the number of cartons of harvested lettuce determined for a producer by the committee pursuant to § ___.53 for a base quantity period. "Base quantity period" means each of the 12 calendar months, or other period during the marketing year prescribed by the Secretary upon recommendation of the committee.

§ ___.15 Allocation; allocation period.

"Allocation" means the number of cartons of harvested lettuce which during an allocation period may be purchased from, or handled on behalf of, a producer based on a producer's base quantity. "Allocation period" means 1 week or a number of consecutive weeks as established pursuant to § ___.54.

§ ___.16 District.

"District" means each of the applicable districts specified in, or pursuant to, § ___.20.

COMMITTEE

§ ___.20 Establishment and membership.

(a) There is hereby established a Western States Lettuce Administrative Committee consisting of 18 members, each of whom shall have an alternate who shall have the same qualifications as the member for whom he is an alternate.

(b) Fifteen of the members and their respective alternates shall be individuals who are producers or officers or employees of corporate producers and are hereinafter referred to as "producer members." Three of the members shall be individuals who are handlers, or officers or employees of handlers and are hereinafter referred to as "handler members." An individual who is both a producer and a handler is not precluded from being nominated and appointed as a producer member or handler member.

(1) Nominations for and selections of, producer members and their alternates shall be in such numbers and in such districts as follows:

District No. 1—Santa Barbara and San Luis Obispo Counties in the State of California—one member;

District No. 2—Ventura, Los Angeles and Orange Counties and that part of San Diego County west of a north-south line through the present post office in the city of Julian in the State of California—one member;

District No. 3—Imperial County (excluding that part of the Palo Verde Irrigation District located therein) and that part of San Diego County not located in District No. 2 in the State of California—two members;

District No. 4—Riverside, San Bernardino, Inyo, and Mono Counties and that part of the Palo Verde Irrigation District located in Imperial County in the State of California—one member;

District No. 5—Monterey, San Benito, San Clara, Santa Cruz, San Mateo, Alameda, Contro Costa, Marin, Napa, Sonoma, Mendocino, Humboldt, and Del Norte Counties in the State of California—three members;

District No. 6—All other counties in the State of California—one member;

District No. 7—Yuma County in the State of Arizona—one member;

District No. 8—All other counties in the State of Arizona—two members;

District No. 9—The State of New Mexico and El Paso County in the State of Texas—one member;

District No. 10—That part of the State of Texas north of U.S. Highway 90 and in which no part of U.S. Highway 90 or El Paso County is located—one member; and

District No. 11—The State of Colorado—one member.

(2) The three handler members and their alternates shall be selected from the production area at large and each shall have handled lettuce during each of the 12 months of the preceding season.

(c) The committee may recommend, and pursuant thereto, the Secretary may approve, the reapportionment of mem-

[1] Sections ___.97–___.99 apply only to the proposed marketing agreement and not to the proposed order.

bers among districts within the production area. With respect to any such changes, the committee and the Secretary shall give consideration to:

(1) Shifts in lettuce acreage and production within the districts and within the production area during recent years; (2) the importance of new production in its relation to existing districts; (3) the equitable relationship of committee membership and districts; (4) economies to result for producers in promoting efficient administration due to redistricting or reapportionment of members within districts; and (5) other relevant factors.

§ ___.21 Term of office.

(a) The initial term of office for members and alternates shall be the initial fiscal period and each subsequent term shall be for a fiscal period, except as otherwise specified by the Secretary pursuant to the Committee's recommendation.

(b) Each member and each alternate shall serve in such capacity during the term of office for which he is selected and has qualified and until his successor is selected and has qualified.

§ ___.22 Nominations.

Nominations for committee members and their alternates shall be made in the following manner:

(a) A meeting of producers shall be held in each district to nominate producer members and alternates of the committee in such numbers and districts as provided in § ___.20. The committee shall hold or cause to be held such meetings prior to May 15 of each year, or by such other date as may be specified by the Secretary.

(b) At each such meeting the eligibility of the nominees for producer member positions and of the producers voting for nominees shall be recorded for the purpose of determining participation.

(c) Each producer shall be entitled to cast only one vote for each producer member position in each district in which the producer's lettuce was or is being grown in the then current season.

(d) The committee shall, prior to May 15 of each year, submit to each handler, a list of persons affiliated with and designated by handlers who are qualified to serve as a handler member in accordance with § ___.20(b) and ask that they nominate at least three members and three alternates from such list to represent them.

(e) The names of nominees shall be supplied to the Secretary in such manner and form as he may prescribe not later than June 15 of each year, or by such other date as may be specified by the Secretary.

(f) Nominations for each of the initial member and alternate member positions of the committee may be submitted to the Secretary individually by growers and handlers. Such nominations may be made by means of a meeting or meetings of handlers, and a meeting or meetings of growers concerned in each district. Such nominations, if made, shall be filed with the Secretary not later than the effective date of this part. In the event such nominations for the initial members are not so filed by such time, the Secretary may select the initial members and alternates without regard to nominations, but selection shall be on the basis of the representation provided for in § ___.20.

§ ___.23 Selection.

The Secretary shall select all members and their alternates on the basis of representation provided for in § ___.20 from the nominations made pursuant to § ___.22, except with respect to the initial members and alternates, or from other eligible persons.

§ ___.24 Failure to nominate.

If recommendations are not made within the time and manner prescribed in § ___.22, the Secretary may, without regard to nominations, select the members and alternates of the committee on the basis of the representation provided for in § ___.20.

§ ___.25 Acceptance.

Any person selected by the Secretary as a member or alternate member of the committee shall, prior to serving as such, qualify by filing a written acceptance with the Secretary within the time specified by the Secretary.

§ ___.26 Vacancies.

To fill committee vacancies, the Secretary may select members or alternates from nominees on the latest nomination reports or from nominations made in the manner specified in § ___.22 or from other eligible persons. If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, such vacancy may be filled without regard to nominations, but such selection shall be made on the basis of representation provided for § ___.20.

§ ___.27 Alternate members.

An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate during such member's absence or when designated to do so by the member for whom he is an alternate. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for such member is selected and has qualified. The committee may request the attendance of alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members.

§ ___.28 Procedure.

(a) Other than to recommend volume regulation and actions relating thereto 10 members (including alternates acting as members) of the committee shall be necessary to constitute a quorum and 10 concurring votes shall be required to pass any motion or approve any committee action. At assembled meetings all votes shall be cast in person. To recommend volume regulation for an allocation period and actions related thereto, those eligible to vote shall be all handler members (including alternates acting as such members) and those producer members (including alternates acting as such members) representing producers for whom allocations are to be established for such allocation period. *Provided*: That both the quorum and the number of concurring votes in voting on volume regulations and related matters shall be a majority of those eligible to vote.

(b) The committee may meet by telephone, telegraph, or other means of communication and any vote cast at such a meeting shall be promptly confirmed in writing.

§ ___.29 Expenses.

Members and alternates of the committee shall serve without compensation, but shall be reimbursed for expenses necessarily incurred by them in attending authorized committee business and in the performance of their duties under this part.

§ ___.30 Powers.

The committee shall have the following powers:

(a) To administer this part in accordance with its terms and provisions;

(b) To make rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ ___.31 Duties.

The committee shall have, among others, the following duties:

(a) As soon as practicable after the beginning of each term of office, to meet and organize, to select from among its members and alternates such officers and subcommittees, and to adopt such rules, regulations, and bylaws for the conduct of its business as it deems necessary;

(b) To act as intermediary between the Secretary and any producer or handler;

(c) To furnish to the Secretary such available information as he may request;

(d) To appoint such employees, agents, and representatives as it may deem necessary, to determine the compensation and define the duties of each such person, and to protect the handling of committee funds through fidelity bonds;

(e) To investigate from time to time and to assemble data on the growing, harvesting, shipping, and marketing conditions with respect to lettuce;

(f) To prepare a marketing policy;

(g) To recommend regulations pursuant to this part to the Secretary;

(h) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books, and records shall be subject to examination at any time by the Secretary or by his authorized agent or representative; such minutes to be reported promptly to the Secretary:

(i) At the beginning of each fiscal period, to prepare a budget of its expenses for such fiscal period, together with a report thereon;

(j) To prepare periodic statements of the financial operations of the committee and to make copies of each such statement available to producers and handlers for examination at the office of the committee and to send two copies to the Secretary.

(k) To cause the books of the committee to be audited by a competent accountant at least once each fiscal period, and at such other time as the committee may deem necessary or as the Secretary may request; two copies of a report of each such audit shall be furnished to the Secretary and show the receipt and expenditure of funds collected pursuant to this part; a copy of each such report (excluding therefrom confidential information), shall be made available at the principal office of the committee for inspection by producers and handlers;

(l) To notify producer and handler members and alternates of meetings of the committee to consider recommendations for regulations and to give the Secretary the same notice of such meetings and of meetings of its subcommittees as is given to the applicable membership;

(m) To investigate compliance and use means available to prevent violation of the provisions of this part;

(n) To consult, cooperate, and exchange information with other marketing order committees and other individuals or agencies in connection with all proper committee activities and objectives under this part, and

(o) To the extent practicable, act as a clearing house of information, to facilitate transfers pursuant to this part.

§ ___.32 Annual report.

The committee shall, as soon as is practicable after the close of each marketing season, prepare and mail an annual report to the Secretary and make a copy available to each grower and handler who requests a copy of the report.

EXPENSES AND ASSESSMENTS

§ ___.40 Expenses.

The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Each handler's pro rata share of such expenses shall be proportionate to the ratio between the total quantity of lettuce handled by him as the first handler thereof during a fiscal period and the total quantity of lettuce so handled by all handlers as first handlers thereof during such fiscal period.

§ ___.41 Budget.

As soon as practicable after the beginning of each fiscal period and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

§ ___.42 Assessments.

(a) The funds to cover the committee's expenses shall be acquired by the levying of assessments upon handlers as provided for in this subpart. Each handler who first handles lettuce shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler's pro rata share of the committee's expenses.

(b) Assessments shall be levied during each fiscal period upon handlers at a rate per unit established by the Secretary. Such rates may be established upon the basis of the committee's recommendations and other available information.

(c) At any time during, or subsequent to, a given fiscal period the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all lettuce which was handled by each first handler thereof during such fiscal period.

(d) The payment of assessments for the maintenance and functioning of the committee may be required irrespective of whether particular provisions of this part are suspended or become inoperative.

§ ___.43 Accounting.

(a) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes alternates, employees, agents, and all specified in this part.

(b) The Secretary may at any time require the committee, its members and alternates, employees, agents, and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. Whenever any person ceases to be a member of the committee or alternate, he shall account to his successor, the committee, or to the person designated by the Secretary, for all receipts, disbursements, funds, and property (including but not being limited to books and other records) pertaining to the committee's activities for which he is responsible, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in his successor, the committee, or person designated by the Secretary, the right to all of such property and funds and all claims vested in such person.

(c) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this part, or during any period or periods when regulations under this part are not in effect, and, if the Secretary determines such action appropriate, he may direct that such person or persons may act as such trustee or trustees.

§ ___.44 Excess funds.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, each handler entitled to a proportionate refund of any such assessments which represent payments by the handler in excess of his pro rata share, shall be credited with such refund against his operations of the following fiscal period or such excess shall be accounted for in accordance with one of the following:

(1) The committee, with the approval of the Secretary, may establish an operating monetary reserve and may carry over to subsequent fiscal periods excess funds in a reserve so established: *Provided*, That funds in the reserve shall not exceed approximately one fiscal period's expenses. Such reserve funds may be used (i) to defray any expenses authorized under this part, (ii) to defray expenses during any fiscal period prior to the time assessment income is insufficient to cover such expenses, (iii) to cover deficits incurred during any fiscal period when assessment income is less than expenses, (iv) to defray expenses incurred during any period when any or all provisions of this part are suspended or are inoperative, and (v) to cover necessary expenses of liquidation in the event of termination of this part. If upon such termination any funds not required to defray the necessary expenses of liquidation, and after reasonable effort by the committee it is found impracticable to return such remaining funds to handlers, such funds shall be disposed of in such manner as the Secretary may determine to be appropriate.

(2) If such excess is not retained in a reserve or used to defray necessary expenses of liquidation, as provided in subparagraph (1) of this paragraph, it shall be refunded proportionately to the handlers from whom collected: *Provided*, That any sum paid by any handler in excess of his pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such handler.

RESEARCH AND DEVELOPMENT

§ ___.48 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of production research and marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of lettuce. The expenses of such projects shall be paid from funds collected pursuant to § ___.42.

REGULATIONS

§ ___.50 Marketing policy.

(a) For each season, prior to or at the same time as initial recommendations are made pursuant to § ___.51 or § ___.61, or both as applicable, the committee shall submit to the Secretary a report setting forth the marketing policy it deems desirable for such season. The report shall indicate the kinds or types of regulations contemplated during such season and to the extent practical, shall include recommendations for particular volume regulations or other regulations which are deemed necessary to meet market requirements and establish orderly marketing conditions. Additional reports shall be submitted if the committee adopts a new or revised marketing policy because of changes in the supply and demand situation with respect to lettuce.

(b) In determining each such marketing policy, committee considerations shall include:

(1) Prospective lettuce production within the production area by districts and periods and in competing areas;

(2) Prospective lettuce demand for such, recognizing trend and level of consumer income;

(3) Market prices for such lettuce, including prices by grade, size, quality, and pack;

(4) Total of base quantities during each base quantity period; and

(5) Other relevant factors.

(c) The committee shall publicly announce the submission of each marketing policy (including new or revised policies) and notice and contents thereof shall be provided to producers and handlers by bulletins, newspapers, or other appropriate media.

VOLUME REGULATION

§ ___.51 Recommendation for volume regulation.

(a) The committee may recommend to the Secretary of total quantity of lettuce which it deems advisable to be purchased from producers, and otherwise handled on behalf of producers during an allocation period. Each such recommendation shall be made prior to the beginning of the allocation period.

(b) In making its recommendation the committee shall give due consideration to the following factors: Market prices for lettuce, supply of lettuce on track and en route to the principal markets, and the supply, maturity, and condition of lettuce in the production area, and the market prices and supply of lettuce from competing producing areas, and any other relevant factors.

(c) At any time during an allocation period for which the Secretary, pursuant to § ___.52 has fixed the total quantity of lettuce which handlers may purchase from and otherwise handle on behalf of producers, the committee may recommend to the Secretary that such quantity be increased. Each such recommendation, together with the committee's reason for such recommendation, shall be promptly submitted to the Secretary.

§ ___.52 Issuance of volume regulation.

(a) Whenever the Secretary finds on the basis of a committee recommendation or other information, that limiting the total quantity of lettuce which handlers may purchase from, and otherwise handle on behalf of, producers during an allocation period, and establishing a total allocation or increasing a total allocation previously established, would tend to effectuate the declared policy of the act, he shall establish the total allocation which handlers may purchase from, or handle on behalf of, producers for such period, or increase a previously established total allocation.

(b) When a total allocation, including an increased total allocation, is established for any allocation period, no handler may purchase from, or handle on behalf of, producers any lettuce during such period unless (1) it is within the unused allocation of a producer holding a base quantity pursuant to § ___.53, and (2) the committee has been notified of the proposed handling as provided in § ___.54(c).

(c) The committee may, with the approval of the Secretary, establish such rules and regulations regarding obtaining, using, holding, or transferring base quantities or allocations as it feels are necessary to administer the volume regulation provisions of this part. Such rules and regulations may deal with procedures, reports, records, or other requirements, including but not limited to quantities marketed during initial and other representative periods, qualifications as producers, producer arrangements, particulars on harvesting, sale or other handling of lettuce.

§ ___.53 Base quantities.

(a) Upon request of the committee, each producer desiring one or more base quantities shall register with the committee and furnish to it, on forms provided by the committee, a report of the number of cartons of lettuce produced and sold by him, or on his behalf, during the six seasons, 1964–65 through 1969–70, broken down by cartons, handlers, and such time periods thereof as may be required by the committee and approved by the Secretary.

(b) (1) For the initial season the base quantities shall be established for each registered producer in accordance with the option of such producer as either (i) the number of cartons of harvested lettuce produced and sold by him or on his behalf in the corresponding base quantity period during the 1969–70 season or (ii) the average number of cartons of harvested lettuce produced and sold by him or on his behalf in such corresponding periods in one of the following combinations of seasons: 1968–69 and 1969–70; 1967–68 through 1969–70; 1966–67 through 1969–70; 1965–66 through 1969–70; 1967–68 and 1968–69; 1966–67 through 1968–69; 1965–66 through 1968–69; or 1964–65 through 1968–69: *Provided*, That the person must have produced lettuce in at least one of the three seasons 1967–68, 1968–69, or 1969–70 to qualify as a producer under this section: *Provided further*, That only one such option may be employed by any producer to apply to all his base quantity periods and in determining the base quantities of any applicant who acquired the facilities of a producer no longer operating in the production area, the applicant may include the quantity sold by or on behalf of such producer in previous applicable seasons.

(2) For each season subsequent to the initial season under this part, base quantities for each registered producer shall be adjusted to recognize trends in sales volume of individual operations. This shall be accomplished by annually recalculating all base quantities for all base quantity periods according to the applicable one of the following procedures:

(i) The base quantity computed on a five-season basis shall be adjusted by: (*a*) Adding the producer's latest season's sales for the corresponding base quantity period to his five-season total sales used in computing his existing base quantity; (*b*) subtracting the sales recorded for the corresponding base quantity period in the earliest season included in the existing base, and (*c*) recalculating a new five-season simple average which shall be the new base quantity.

(ii) Base quantities computed on a less than five-season basis shall be adjusted by weighting each season in the original base quantity by the following values and adding a weight of one-fifth to the producer's sales during the initial season of regulation under this part and to such producer's sales in each subsequent season:

Number of years in original base	Year of adjustment			
	First	Second	Third	Fourth
	Weight of each year in original base			
4	1/5			
3	4/15	1/5		
2	2/5	3/10	1/5	
1	4/5	1/5	2/5	1/5

(iii) For purposes of computing base quantities for seasons subsequent to the initial season, sales pursuant to agreements between producers involving transfers of allotments (§ ___.55) shall be included in the computation in accordance with such agreements.

(3) A condition for the continuing validity of a base quantity is production of lettuce thereunder. If no bona fide effort is made to produce and sell lettuce thereunder for commercial purposes during any two consecutive seasons such base quantity may be declared invalid due to lack of use and canceled at the end of the second consecutive season of non-production.

(c) (1) It shall be a policy under this part to continually provide the American public with high quality lettuce in adequate volume at a reasonable cost. In carrying out this policy the committee shall, for 1973–74 season and each subsequent season, recommend to the Secretary an adjustment in base quantities covered by this part which will reflect

(i) changes in per capita consumption of lettuce in the United States; (ii) changes in population of the United States; (iii) other factors which reflect an increase in consumer demand for lettuce; (iv) desires of new producers to gain entry, and established producers to expand, as evidenced by applications for base quantities or increased base quantities; and (v) any additional factors which bear on industry adjustments to new and changing conditions.

(2) Nothwithstanding the provisions of subparagraph (1) of this paragraph the annual increase in the quantity of lettuce provided for by all base quantities covered by this part shall be no more than 5 percent of the total base quantities encompassed by this part during the previous season. Such increase shall be distributed equally among all base quantity periods in the season.

(3) Any person may apply, under rules and procedures to be established by the committee with the approval of the Secretary either for a new base quantity or for an increase in an existing base quantity. Said applications may be submitted annually, but must be filed with the committee on or before January 1 of a given season in order to be considered for an award of a new base quantity or the adjustment of an existing base quantity to take effect the following season.

(4) The committee may, with the approval of the Secretary, establish rules, guides, bases, or standards to be used in determining base quantity awards or adjustments that are to be recommended to the Secretary taking into account among other things, the minimum economic enterprise requirements for lettuce production.

(5) The committee's recommendations, with justification, supporting data, and a listing and summary of all applications for new or adjusted base quantities, shall be submitted to the Secretary no later than February 1 of each season. Not more than sixty (60) days after receipt of the committee's recommendations, the Secretary shall either approve said recommendations or make whatever alterations therein that he deems necessary in the public interest. The decision of the Secretary shall be final: *Provided*, That he shall communicate his decision and the reasons therefor to the committee in writing.

(6) Within thirty (30) days after receipt of the Secretary's decision, the committee shall notify each applicant of the Secretary's decision and for those awarded base quantities, of their base quantity or quantities, by period, for the following season.

(d) The committee shall have the authority and responsibility to correct any errors or inaccuracies in base quantity determinations. However, the producers and others involved should have an opportunity to discuss such proposed corrections with the committee. All base quantity applications and determinations covered by this section shall be subject to review by the Secretary.

§ ___.54 Allocations.

(a) When the Secretary establishes an allocation period consisting of a specified week or number of consecutive weeks, and fixes the total allocation for such period, a uniform percentage for such period shall be determined by dividing such total allocation by the total of all existing base quantities. The percentage so determined shall be the uniform percentage for the entire allocation period unless changed by a revised total allocation.

(b) (1) Except as otherwise provided in subparagraphs (2) and (3) of this paragraph, for each allocation period, the allocation for each producer holding a base quantity shall be established by the committee by multiplying each such base quantity by such period's uniform percentage. The committee shall notify each such producer of the aggregate allocation established for him pursuant to this section.

(2) When an allocation period falls within two base quantity periods the total allocation shall be divided in proportion to the number of days of the allocation period in each of the base quantity periods. The resulting computed allocations shall then be divided by the applicable total base quantities to compute uniform percentages by which the producer's base quantities referable to each of the two base quantity periods are multiplied. The sum of the resulting two products shall be established as his allocation for that allocation period.

(3) Each producer not wishing his base quantity to be applied throughout the regular base quantity period shall be given the option of having it applied on a proportional basis within such base quantity period under rules and regulations established by the Secretary upon recommendation of the committee: *Provided*, That such option be exercised at least 120 days prior to the applicable base quantity period.

(4) Producers dealing with a common handler, who mutually agree prior to handling to pool their allocations, shall receive sales credit for purposes of base quantity history in proportion to their share of the pooled allocations.

(c) Prior to the handling of harvested lettuce during an allocation period, each such producer shall notify the committee in such manner as it may prescribe, of the handler or handlers who will first handle all or a portion of such allocation during such period. The committee shall then notify the respective handlers.

§ ___.55 Transfers.

(a) Base quantities, allocations, or both may be transferred in whole or in part, for specified periods of time, in accordance with rules and procedures prescribed by the Secretary and based on recommendations of the committee: *Provided*, That: (1) transfers of base quantities shall be made at least 4 months prior to the applicable base quantity period, and (2) that base quantities issued pursuant to § ___.53(c) shall not be transferred for at least 2 years after issuance.

(b) Details of all such transfers shall be confirmed to the committee within 48 hours by parties thereto.

(c) The committee shall be notified if a different amount will be handled by a handler or handlers due to any transfer authorized in paragraph (a) of this section. The committee, upon receipt of such notification, shall advise the handler or handlers involved of the adjustments in the amount each may handle as the first handler thereof, based upon the number of cartons involved in the transfer, and shall revise as necessary the base quantities of, and allocations to, the producers involved.

(d) As a service to producers and handlers to facilitate transfers, the committee shall act as a clearing house of information on producers with deficits in production and availability of lettuce in excess of allocations. Such information shall be available at the committee office to any producer or handler upon request.

§ ___.56 Overages.

Any handler who purchases from or handles on behalf of a producer during any allocation period a quantity of harvested lettuce covered by a regulation issued pursuant to § ___.52 may purchase from or handle on behalf of such producer and in addition to such producer's allocation, established for him pursuant to § ___.54, an amount equal to 10 percent of such producer's allocation: *Provided*, That the quantity of lettuce so handled in excess of each such producer's allocation shall be deducted from such producer's allocation for the next allocation period: *Provided further*, That the committee, with the approval of the Secretary, may change the overage percentage permitted. Similarly they shall adopt rules and regulations to ensure repayment of any overages and to effectuate the provisions of this section.

§ ___.57 Shortages.

Any handler who purchases from, or handles on behalf of, a producer during any allocation period a quantity of lettuce covered by a regulation issued pursuant to § ___.52, in any amount less than the allocation established for such producer pursuant to § ___.54 for such period, may so purchase or handle, in addition to such producer's allocation for the next allocation period only, an amount equal to any such shortage but not to exceed 25 percent of the allocation for the period in which the shortage occurred: *Provided*, That the committee, with the approval of the Secretary, may change this percentage.

§ ___.58 Priority of allocations.

Any handler who, during any allocation period, has the right to purchase from, or handle on behalf of a producer, a quantity of lettuce in addition to such producer's available allocation for such period pursuant to §§ ___.54 and ___.56 by reason of a shortage of such producer's preceding weekly allocation pursuant to § ___.57 or the transfer of allocation to him from other producers pursuant to § ___.55, and such handler so

purchases from or handles on behalf of such producer a quantity of lettuce which is less than the total quantity of lettuce which he may so purchase or handle during such period then the amount of such lettuce purchased or handled for the account of the producer shall first apply proportionately to the producer's current week's allocation and to any allocation transferred to him pursuant to § ___.55 on which the producer whose allocation was transferred retains the right to include the quantities sold or handled in the calculation of his base quantity in future years. The remainder, if any, shall be applied in the following order: (a) to any shortage of his immediate preceding weekly allocation, (b) to any allocations transferred to him on which he retains the right to include the quantity sold or handled for his account in the calculation of base quantity in future years, and (c) to any overage of his current week's allocation.

OTHER REGULATIONS

§ ___.61 Recommendations for regulation.

(a) Whenever the committee deems it advisable to regulate the handling of lettuce in the manner provided in § ___.62 it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply and demand for lettuce during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information of which such recommendation is predicted and such other available information as the Secretary may request.

§ ___.62 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section the handling of lettuce whenever he finds, from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may fix the size, capacity, weight, dimensions, or pack of the container, or containers, which may be used in the packaging or handling of harvested lettuce.

(b) The committee shall be informed immediately of any such regulation issued by the Secretary and the committee shall promptly give notice thereof to handlers.

§ ___.63 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulation issued pursuant to § ___.62 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds from the recommendations and information submitted by the committee or from other available information that a regulation should be modified, suspended, or terminated with respect to any or all shipments of lettuce in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension.

§ ___.64 Special purpose shipments.

(a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§ ___.42, ___.52, and ___.62 and the regulations issued thereunder, handle lettuce donated (1) for consumption by charitable institutions; or (2) for distribution by relief agencies.

(b) Upon the basis of recommendations and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements under or established pursuant to §§ ___.42, ___.52, and ___.62 the handling of lettuce for such specified purposes including shipments to facilitate the conduct of production or marketing research and development projects established pursuant to § ___.48.

(c) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent lettuce handled under the provisions of this section from entering the channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the committee for authorization to handle lettuce pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the lettuce will not be used for any purpose not authorized by this section.

MINIMUM QUANTITY EXEMPTION

§ ___.75 Minimum quantity exemption.

The committee, with the approval of the Secretary, may establish a minimum quantity of lettuce which may be handled free from regulations issued pursuant to:
§ ___.52 Issuance of volume regulation;
§ ___.62 Issuance of regulations; and
§ ___.42 Assessments.

REPORTS

§ ___.80 Weekly report.

On or before such day of each week as approved by the Secretary, each handler shall report to the committee, on forms prepared by it, the following information with respect to lettuce handled by such handler during the immediate preceding week:

(a) Quantity handled.

(b) Total quantity disposed of otherwise, showing the manner and quantity of each such disposition.

§ ___.81 Manifest report.

Each handler shall furnish to the committee, at such times and for such periods as the committee may designate, certified reports covering each shipment of lettuce as follows:

(a) Name of shipper and shipping point.
(b) The car or truck license number.
(c) The date of shipment.
(d) The number of cartons of lettuce.
(e) The quantity shipped.
(f) The destination.

§ ___.82 Other reports.

(a) Upon request of the committee, with the approval of the Secretary, each handler shall furnish to the committee such information as may be necessary to enable the committee to perform its duties under this part.

(b) When necessary the committee may request reports from individual handlers. Such reports may include, but are not limited to:

(1) Information regarding specific sales, transportation or other handling of lettuce.

(2) Anticipated lettuce planting intentions for the next 3 successive weeks.

(3) Fields or blocks of lettuce owned or controlled by applicant.

(4) Quantity of lettuce harvested from particular fields or blocks of lettuce with dates of harvest.

(5) Identification of each lot by original base quantity holder and subsequent transfers.

(c) All reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees or agents thereof, so that the information contained therein which may adversely affect the competitive position of any handler or producer in relation to other handlers or producers will not be disclosed. Compilations of general reports from data submitted by handlers and producers is authorized, subject to the prohibition of disclosure of individual handler's or producer's operations: *Provided*, That all individual base quantities and allocations shall be considered public information.

§ ___.83 Handler records.

Each handler shall maintain for at least 2 succeeding years after the end of the season to which they relate such records of the lettuce received, and of lettuce disposed of by him as may be necessary to substantiate the reports he submits to the committee pursuant to §§___.80–___.83.

§ ___.84 Verification of reports and records.

(a) For the purpose of assuring compliance with recordkeeping requirements and certifying reports of producers and handlers, the Secretary and the committee, through their duly authorized employees or agents, shall have access to any premises where applicable records

are located, where lettuce is handled, and at any time during reasonable business hours shall be permitted to inspect such producer and handler premises and any and all records of such persons with respect to matters within the purview of this part.

(b) Any person filing a report, record, or application that is willfully misrepresented shall be subject to the legal penalties for such misrepresentation on Government reports, as well as subject to correcting any base quantity or allocation issued by the committee based upon any such misrepresentation.

§ ___.85 Compliance.

Except as provided in this subpart, no handler shall handle lettuce, the handling of which has been prohibited by the Secretary in accordance with provisions of this subpart, or the rules and regulations thereunder, and no handler shall handle lettuce except in conformity to the provisions of this subpart.

§ ___.86 Right of the Secretary.

The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ ___.87 Effective time.

The provisions of this subpart or any amendment thereto, shall become effective at such time as the Secretary may declare and shall continue in force until terminated in one of the ways specified in this subpart.

§ ___.88 Termination.

(a) The Secretary at any time may terminate the provisions of this subpart by giving at least 1 day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary shall, whenever he finds that any or all provisions of this subpart, obstruct or do not tend to effectuate the declared policy of the act, terminate or suspend the operation of this subpart or such provision thereof.

(c) The Secretary shall conduct a referendum within the month of February of every fifth year after the effective date of this subpart to ascertain whether continuation of this part is favored by the producers.

(d) The Secretary shall terminate the provisions of this subpart at the end of the then current marketing year whenever he finds that such termination is favored by a majority of the producers who, during a representative period determined by the Secretary, have been engaged in the production for market of lettuce, within the production area: *Provided*, That such majority have during such representative period produced for market more than 50 per centum of the volume of such lettuce produced for market, but such termination shall be effective only if announced on or before June 30 of the current marketing year.

(e) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ ___.89 Proceedings after termination.

(a) Upon the termination of the provisions of this subpart the then functioning members of the committee shall continue as joint trustees for the purpose of settling the affairs of the committee by liquidating all funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such persons full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ ___.90 Effect of termination or amendments.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendments to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulation issued under this subpart, or (c) effect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ ___.91 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ ___.92 Agents.

The Secretary may, by designation in writing, name any person, including any officer or employee of the U.S. Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ ___.93 Derogation.

Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ ___.94 Personal liability.

No member or alternate of the committee nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, agent, or employee, except for acts of dishonesty, willful misconduct, or gross negligence.

§ ___.95 Separability.

If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicapability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ ___.96 Amendments.

Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

§ ___.97 Counterparts.

This agreement may be executed in multiple counterparts and when one counterpart is signed by the Secretary, all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.***

§ ___.98 Additional parties.

After the effective date hereof, any handler may become a party to this agreement if a counterpart is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.***

§ ___.99 Order with marketing agreement.

Each signatory handler requests the Secretary to issue, pursuant to the act, an order providing for regulating the handling of lettuce in the same manner as is provided for in this agreement.***

Signed at Washington, D.C., on July 29, 1971.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

[7 CFR Part 925]

FRESH PRUNES GROWN IN DESIGNATED COUNTIES IN IDAHO AND IN MALHEUR COUNTY, OREG.

Notice of Proposed Rule Making

Notice is hereby given that the Department is considering the following proposals of the Idaho-Malheur County, Oreg., Fresh Prune Marketing Committee, established under the marketing agreement and Order No. 925 (7 CFR Part 925), regulating the handling of fresh prunes grown in designated counties in Idaho and in Malheur County, Oreg., effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The recommendation of the Idaho-Malheur County, Oreg., Fresh Prune Marketing Committee reflects its appraisal of the fresh prune crop and current and prospective market conditions. Shipments of Idaho-Oregon fresh prunes are expected to begin on or about August 15, 1971. The grade and size requirements specified herein are designed to prevent the handling, on and after August 15, 1971, of prunes grading lower and being smaller in size than those herein specified, so as to provide consumers with good quality fruit, consistent with (1) the overall quality of the crop, and (2) maximizing returns to the producers pursuant to the declared policy of the act.

§ 925.310 Prune Regulation 9.

(a) *Order.* During the period August 15, 1971, through December 31, 1971, no handler shall handle any lot of prunes unless such prunes meet the following applicable requirements, or are handled in accordance with subparagraph (3) of this paragraph:

(1) *Minimum grade and size requirements.* Such prunes grade at least U.S. No. 1 and are a minimum size of 1⅛ inches in diameter: *Provided,* That prunes which are affected by healed hail marks may be shipped if they otherwise grade at least U.S. No. 1.

(2) *Pack of containers.* The net weight of prunes in any container, other than the one-half (½) bushel basket shall be either (1) less than 20 pounds, or (2) more than 30 pounds.

(3) Notwithstanding any other provision of this regulation, any individual shipment of prunes which, in the aggregate, does not exceed 150 pounds net weight may be handled without regard to the restrictions specified in this paragraph (a) or in § 925.41 (Assessment) and § 925.55 (Inspection and Certification) of this part.

(4) The terms "U.S. No. 1," "diameter," and "hail marks" shall have the same meaning as when used in the U.S. Standards for Fresh Plums and Prunes (7 CFR 51.1520–51.1538); and terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in the marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112–A, Administration Building, Washington, D.C. 20250, not later than the 7th day after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: July 29, 1971.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[FR Doc.71-11125 Filed 8-3-71;8:47 am]

[7 CFR Part 928]

PAPAYAS GROWN IN HAWAII

Notice of Proposed Rule Making

Consideration is being given to the following proposal submitted by the Papaya Administrative Committee, established under the marketing agreement and Order No. 928 (7 CFR Part 928), regulating the handling of papayas grown in Hawaii, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

It is proposed that shipments of Hawaiian papayas to destinations within the State be required to grade at least Hawaii No. 2 and that such papayas exported to destinations outside the State be required to grade at least Hawaii No. 1 except that exported papayas must be of pyriform shape and must each weigh at least 10 ounces. The higher minimum grade requirement for papayas to be exported is proposed because such papayas better justify the higher transportation costs and are aimed at fostering an expanded export market through superior quality. The proposed minimum grade for intrastate shipments of papayas will provide Hawaiian markets with fruit of satisfactory quality while providing an outlet for papayas that do not qualify for export shipment. The proposed regulation reads as follows:

§ 928.301 Papaya Regulation 1.

(a) *Order:* During the period August 25 through December 31, 1971, no handler shall ship any container of papayas:

(1) To any destination within the production area unless said papayas grade at least Hawaii No. 2;

(2) To any export destination unless said papayas grade at least Hawaii No. 1: *Provided,* That such papayas shall be of pyriform shape and weigh not less than 10 ounces each.

(b) When used herein "Hawaii No. 1", "Hawaii No. 2" and "pyriform shape" shall have the same meaning as set forth in the State of Hawaii Revised Regulation No. 1 subsection 5.32—Wholesale Standards for Hawaiian Grown Papayas. All other terms shall have the same meaning as when used in the marketing agreement and order.

All persons who desire to submit written data, views, or arguments, for consideration in connection with the proposed regulation shall file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administraton Building, Washington, D.C. 20250, not later than the 10th day after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: July 30, 1971.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[7 CFR Part 1064]

[Docket No. AO–23–A41]

MILK IN GREATER KANSAS CITY MARKETING AREA

Notice of Emergency Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Notice is hereby given of a public hearing to be held on August 12, 1971, at the Aztec Room, Hotel President, 14th and Baltimore, Kansas City, MO, beginning at 9:30 a.m., with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Greater Kansas City marketing area.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

Evidence also will be taken to determine whether emergency marketing conditions exist that would warrant omission of a recommended decision under the rules of practice and procedure (7 CFR Part 900.12(d)) with respect to proposals Nos. 1 and 2.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by Mid-America Dairymen, Inc.:

Proposal No. 1. Amend § 1064.65 of the order to provide that individual producer bases be established on the 4 months of lowest production during the year, instead of the present period of September through December.

Proposal No. 2. Add a proviso to § 1064.65 to provide that any producer who in the current base establishing period delivered on a daily basis for not less than 90 days at least 75 percent as much milk as was delivered during the September through December 1970 base establishing period will be credited with the base earned in the 1970 base establishing period. Such option to be exercised in succeeding years to use the base earned in 1970, or the current base if higher than 1970, if at least 75 percent of such base is delivered to the market in the base delivery period.

Proposed by the Dairy Division, Consumer and Marketing Service:

Proposal No. 3. Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, U. Grant Grayson, Post Office Box 4606, Overland Park, KS 66204, or from the Hearing Clerk, Room 112–A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

Signed at Washington, D.C., on July 30, 1971.

JOHN C. BLUM,
Deputy Administrator, Regulatory Programs.

[FR Doc.71-11126 Filed 8-3-71;8:47 am]

[9 CFR Parts 320, 325]

MEAT INSPECTION

Shipment of Certain Inedible Meat Products Under Seal in Lieu of Denaturing

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that the Consumer and Marketing Service is considering amending Parts 320 and 325 of the Federal Meat Inspection Regulations (9 CFR Parts 320, 325) as indicated below, pursuant to the authority contained in the Federal Meat Inspection Act, as amended by the Wholesome Meat Act (21 U.S.C. 601 et seq.).

Statement of Considerations. As a result of comments received with respect to the proposed Federal meat inspection regulations published on August 14, 1969 (34 F.R. 13194), it is proposed at this time to allow certain inedible meat products of livestock to be moved from federally inspected establishments and in commerce from such establishments or State inspected establishments, under seal and other safeguards as an alternative to denaturing as presently provided for in Part 325 of the regulations. Permission for the shipment of such inedible products would be similar to the permission already afforded for the shipment of inedible rendered animal fats from federally inspected establishments and elsewhere.

1. Section 325.11 would be amended by renumbering paragraphs (d) and (e) as paragraphs (e) and (f), respectively, and by adding a new paragraph (d) to read as follows:

§ 325.11 Inedible Articles: Denaturing and other means of identification; certificates; exceptions.

* * * * *

(d) Inedible products (excluding those products condemned except the products specified in § 314.11 of this chapter) which were prepared at any official establishments or at any State inspected establishments in any State not listed in § 331.2 of this chapter, and which have the physical characteristics of a product fit for human food, may be shipped in commerce without denaturing, if the following conditions are met:

(1) Such products shall not be bought, sold, transported, or offered for sale, or offered for transportation in commerce, or imported, except by persons who have obtained a numbered permit for such activity from the Director, Standards and Services Division. Such permit may be obtained upon written application to the Director, Standards and Services Division, Meat and Poultry Inspection Program, Consumer and Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250. The application shall state the name and address of the applicant, a description of the type of his business operations, and the purpose of making such application.

(2) Such inedible products may be distributed under this paragraph (d) only if destined to a manufacturer of technical articles other than for human food, or a manufacturer of animal food, and provided, in the case of such a product consigned to a domestic manufacturer, the product is for use solely by the consignee for manufacturing purposes in nonhuman food articles and may not be further sold or shipped in commerce without first receiving approval of the Director, Standards and Services Division.

(3) When transported from an official establishment or in commerce under this paragraph (d), the outside container of such inedible products shall be marked conspicuously, with the words "Inedible—Not Intended for Human Food" in letters not less than 2 inches high, in the case of containers such as cartons, drums, tierces, barrels, and half barrels, and not less than 4 inches high in the case of tank cars and trucks.

(4) Such inedible products may be transported from an official establishment or in commerce under this paragraph (d) only in cars, trucks, or containers which bear unofficial seals applied by the shipper, which shall include the identification number assigned to the permit holder and an individual seal serial number assigned by the shipper; and the product so transported shall be accompanied by an invoice or bill of lading specifying the identification number. The consignee in the United States must retain a record of the identification and serial numbers shown on the seals in his records as prescribed in Part 320 of this subchapter.

(5) Any diversion or effort to divert product contrary to the provisions of this paragraph (d) or other violation of the provisions of this section may result in the revocation of the permit for shipment of inedible products under this paragraph (d), at the discretion of the Administrator.

* * * * *

2. In § 325.11(a), the phrase "paragraph (c), (d), or (e)" would be deleted and the phrase "paragraph (c), (d), (e), or (f)" would be substituted therefor.

3. In § 320.1(b), a new subparagraph (3) would be added to read: "(3) A record of seal numbers required to be kept by consignees of products shipped under unofficial seals under § 325.11(c) or (d)."

Any person who wishes to submit written data, views, or arguments concerning the proposed amendments may do so by filing them, in duplicate, with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, within 60 days after the date of publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during the regular business hours (7 CFR 1.27(b)).

Done at Washington, D.C., on July 29, 1971.

RICHARD E. LYNG,
Assistant Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Parts 121, 135g, 144]

FURAZOLIDONE

Notice of Proposed Rule Making

On the basis of grounds set forth in a notice of opportunity for hearing (Docket No. FDC–D–281) published elsewhere in this issue of the FEDERAL REGISTER, the Commissioner of Food and Drugs proposes (1) to revoke the food additive regulations providing for the use of furazolidone in animal feed for specified purposes and (2) to revoke the exemptions from certification of animal feeds containing furazolidone and antibiotics.

The Commissioner, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343–51; 21 U.S.C. 360b) and under authority delegated to him (21 CFR 2.120), proposes that:

1. Part 121 be amended by revoking § 121.255 *Furazolidone.*

2. Part 135g be amended by revoking § 135g.36 *Furazolidone.*

3. Part 144 be amended in § 144.26 *Animal feed containing certifiable antibiotic drugs:*

a. In paragraph (a) by revoking subparagraphs (4) and (5).

b. In paragraph (b) by revoking subparagraphs (1)(v), (15), (16)(ii), (17)(ii), and (21)(v) and by deleting from the first sentence of subparagraph (21)(vi) the reference to subdivision (v) of that subparagraph.

Interested persons may, within 30 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–62, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: July 22, 1971.

[21 CFR Parts 121, 135g, 146a]

FURALTADONE

Notice of Proposed Rule Making

On the basis of grounds set forth in a notice of opportunity for hearing (Docket No. FDC–D–283) published elsewhere in this issue of the FEDERAL REGISTER, the Commissioner of Food and Drugs proposes (1) to revoke the food additive regulations providing for the use of furaltadone for the treatment of mastitis in cattle and (2) to delete drugs containing furaltadone and antibiotics from the list of drugs acceptable for certification.

The Commissioner, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343–51; 21 U.S.C. 360b) and under authority delegated to him (21 CFR 2.120), proposes that:

1. Part 121 be amended in § 121.249 *Food additives for use in milk-producing animals* by revoking paragraph (a)(2) and (5).

2. Part 135g be amended by revoking § 135g.20 *Furaltadone.*

3. Part 146a be amended in § 146a.45 *Procaine penicillin G in oil* by deleting the second sentence in paragraph (a) and by deleting from the fifth sentence of paragraph (a) the words, "except that it is sterile if it is packaged and labeled solely for udder instillations of cattle and it contains furaltadone."

Interested persons may, within 30 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–62, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: July 22, 1971.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[24 CFR Part 72]

[Docket No. R–71–134]

FAIR HOUSING POSTER

Notice of Proposed Rule Making

The Department of Housing and Urban Development is considering amending Title 24 of the Code of Federal Regulations to include a new Part 72 entitled "Fair Housing Poster". The proposed amendment, issued pursuant to the Civil Rights Act of 1968, 42 U.S.C. 3604, et seq., imposes a requirement for the display of a prescribed Fair Housing Poster by persons who are subject to sections 804–806 of the Act (42 U.S.C. 3604–3606).

Interested persons are invited to participate in the making of the proposed rule by submitting written data, views, or statements with regard to the proposed regulations. Communications should identify the proposed rule by the above docket number and title and should be filed in triplicate with the Assistant Secretary for Equal Opportunity, Department of Housing and Urban Development, Washington, D.C. 20410. All relevant material received on or before September 17, 1971, will be considered by the Assistant Secretary before taking action on the proposal. Copies of comments submitted will be available during business hours, both before and after the specified closing date, at the above address, for examination by interested persons.

The proposed rule is issued pursuant to section 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

The proposed Part 72 reads as follows:

PART 72—FAIR HOUSING POSTER

Subpart A—Purpose and Definitions

Sec.
72.1 Purpose.
72.5 Definitions.

Subpart B—Requirements for Display of Posters

72.10 Persons subject.
72.15 Location of posters.
72.20 Availability of posters.
72.25 Description of posters.

Subpart C—Enforcement

72.30 Violation.
72.35 Complaints.

Subpart A—Purpose and Definitions

§ 72.1 Purpose.

The regulations set forth in this Part 72 contain the procedures established by the Secretary of Housing and Urban Development with respect to the display of a Fair Housing Poster by persons subject to sections 804–806 of the Civil Rights Act of 1968, 42 U.S.C. 3604–3606.

§ 72.5 Definitions.

(a) "Department" means the Department of Housing and Urban Development.

(b) "Discriminatory housing practice" means an act that is unlawful under section 804, 805, or 806 of title VIII.

(c) "Dwelling" means any building, structure, or portion thereof which is occupied as, or designed or intended for occupancy as, a residence by one or more families, and any vacant land which is offered for sale or lease for the construction or location thereon of any such building, structure, or portion thereof.

(d) "Family" includes a single individual.

(e) "Person" includes one or more individuals, corporations, partnerships, associations, labor organizations, legal representatives, mutual companies, joint-stock companies, trusts, unincorporated organizations, trustees, trustees in bankruptcy, receivers, and fiduciaries.

(f) "Secretary" means the Secretary of Housing and Urban Development.

(g) "Fair Housing Poster" means the poster prescribed by the Secretary for display by persons subject to sections 804–806 of the Civil Rights Act of 1968.

(h) "The Act" means title VIII of the Civil Rights Act of 1968, 42 U.S.C. 3601 et seq.

(i) "Person in the business of selling or renting dwellings" means a person as defined in section 803(c) of the Act.

Subpart B—Requirements for Display of Posters

§ 72.10 Persons subject.

(a) All persons subject to section 804 of the Act, Discrimination in the Sale or Rental of Housing, shall, when a dwelling covered by the Act is offered for sale or lease, post and maintain a Fair Housing Poster at the dwelling as well as at any place of business where the dwelling is offered for sale or rental. This paragraph shall not apply to any single-family dwelling unless such dwelling is offered for sale or rental through a real estate broker, agent, salesman, or person in the business of selling or renting dwellings who shall post and maintain the Fair Housing Poster required by this part.

(b) All persons subject to section 805 of the Act, Discrimination in the Financing of Housing, shall post and maintain a Fair Housing Poster at all their places of business which participate in the financing of housing.

(c) All persons subject to section 806 of the Act, Discrimination in the Provision of Brokerage Services, shall post and maintain a Fair Housing Poster at all their places of business.

§ 72.15 Location of posters.

All Fair Housing Posters shall be prominently displayed so as to be readily apparent to all persons seeking housing accommodations or financial assistance or brokerage services in connection therewith as contemplated by sections 804–806 of the Act.

§ 72.20 Availability of posters.

All persons subject to this Part 72 may obtain Fair Housing Posters from the Department's Regional and Area Offices. A facsimile may be used if the poster and the lettering are equivalent in size and legibility to the poster available from the Department.

§ 72.25 Description of posters.

The Fair Housing Poster shall be 11 inches by 14 inches and shall bear the following legend:

WE DO BUSINESS IN ACCORDANCE WITH THE FEDERAL "FAIR HOUSING LAW"

(TITLE VIII OF THE CIVIL RIGHTS ACT OF 1968)

IT'S ILLEGAL, BECAUSE OF RACE, COLOR, RELIGION, OR NATIONAL ORIGIN, TO

Refuse to sell or rent a dwelling to any person.

Discriminate in terms or conditions of sale or rental of a dwelling.

Discriminate in advertising with respect to the sale or rental of a dwelling.

Represent that any dwelling is not available when it is.

Engage in "Blockbusting"—For profit, to induce any person to sell or rent any dwelling by representations regarding minorities moving into the neighborhood.

Deny or offer different terms or conditions in making residential real estate loans.

Deny membership or participation in real estate brokers' organizations, multiple-listing services, or other real estate services or organizations.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT PUBLICATION

Subpart C—Enforcement

§ 72.30 Violation.

A failure to display the Fair Housing Poster as required by this Part 72 shall be deemed a discriminatory housing practice and prima facie evidence of a violation of sections 804–806 of the Act, as applicable.

§ 72.35 Complaints.

Any person who claims to have been injured by a violation of these regulations or who believes that he will be irrevocably injured by a violation of these regulations may file a complaint with the Secretary. Complaints filed hereunder will be processed pursuant to Part 71 of this subtitle.

SAMUEL J. SIMMONS,
Assistant Secretary for Equal Opportunity.

WATER QUALITY ENHANCEMENT AWARDS

Notice of Proposed Rule Making

The document proposing to add a new Part 608 of Chapter V of Title 18 of the Code of Federal Regulations, published in the FEDERAL REGISTER on July 16, 1971, at 36 F.R. 13217 is corrected as follows:

Section 608.2 (d) and (e) are redesignated as (e) and (f) respectively.

Add new § 608.2(d) to read:

(d) "Preceding year" means the calendar year immediately prior to the year in which an application for award is submitted.

In § 608.9, change the period to a comma and add "and notice of the award shall be published in the FEDERAL REGISTER."

Interested persons may submit, in triplicate, written suggestions or comments concerning the above corrections to the Director, State and Interstate Programs, Office of Water Programs, Environmental Protection Agency, Washington, D.C. 20242. All relevant material received no later than 30 days after publication of this notice will be considered.

Dated: July 30, 1971.

WILLIAM D. RUCKELSHAUS,
Administrator, Environmental Protection Agency.

NONUTILITY DIVERSIFIED BUSINESS ACTIVITIES

Annual Report Forms; Notice of Extension of Time

JULY 23, 1971.

Amendments to certain schedule pages of FPC Annual Report Forms No. 1 and No. 2 to obtain additional information on nonutility diversified business activities.

On July 19, 1971, and July 21, 1971, the American Gas Association and the Independent Natural Gas Association of America, respectively, filed requests for a 60-day extension of time within which to file comments in the above-designated matter.

Upon consideration, notice is hereby given that the time is extended to and including September 27, 1971, within which any interested person may submit data, views, comments, or suggestions in writing to the notice of proposed rule making (36 F.R. 11943), issued June 15, 1971, in the above-designated matter.

KENNETH F. PLUMB,
Secretary.

Notices

DEPARTMENT OF THE TREASURY

Bureau of Customs

KANEKALON WIGS FROM HONG KONG

Antidumping Proceeding Notice

JULY 28, 1971.

On June 14, 1971, information was received in proper form pursuant to sections 153.26 and 153.27, Customs regulations (19 CFR 153.26, 153.27), indicating a possibility that kanekalon wigs from Hong Kong are being, or likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Having conducted a summary investigation as required by § 153.29 of the Customs regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the Bureau of Customs is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information received from all sources is as follows:

The information received tends to indicate that the prices of the merchandise sold for exportation to the United States are less than the prices for home consumption.

This notice is published pursuant to § 153.30 of the Customs regulations (19 CFR 153.30).

[SEAL] MYLES J. AMBROSE,
Commissioner of Customs.

[FR Doc.71-11138 Filed 8-3-71;8:48 am]

Office of the Secretary

CLEAR SHEET GLASS FROM FRANCE

Determination of Sales at Less Than Fair Value and Discontinuance of Antidumping Investigation

AUGUST 2, 1971.

Information was received on January 8, 1970, that clear sheet glass weighing over 16 ounces per square foot from France was being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act").

A "Withholding of Appraisement Notice" issued by the Acting Commissioner of Customs was published in the FEDERAL REGISTER of May 4, 1971. A statement of reasons was published in the abovementioned notice and interested parties were afforded until May 14, 1971, to make written submissions and to present oral views in connection with the withholding of appraisement.

The attorneys for the exporters submitted written requests for an opportunity to present views in person in opposition to the notice. The opportunity was afforded to the attorneys, and all interested parties were notified and were represented.

After consideration of all written and oral arguments presented, I hereby determine that clear sheet glass from France weighing over 28 ounces per square foot is being, or is likely to be, sold at less than fair value within the meaning of section 201(a) of the Act; and I hereby discontinue the antidumping investigation of clear sheet glass weighing over 16 ounces but not over 28 ounces per square foot from France.

Statement of reasons on which this determination and discontinuance of investigation are based.

The information currently before the Bureau reveals that the proper basis of comparison is between purchase price and home market price of such or similar merchandise.

Purchase price was calculated by deducting discounts, inland freight in the United States, Customs clearance charges, U.S. duty, ocean freight, marine insurance, and inland freight in France from the c.i.f. delivered price for exportation to the United States.

Home market price was based on a delivered customer warehouse or job site price list price. Deductions were made for discounts and inland freight. Adjustments were made for differences in credit terms, breakage compensation, technical assistance, selling expenses and commissions, advertising expenses, cutting and handling, and packing costs, as applicable.

Comparisons made with respect to clear sheet glass weighing over 28 ounces per square foot revealed that purchase price was lower than adjusted home market price.

Comparisons made with respect to clear sheet glass weighing over 16 ounces but not over 28 ounces per square foot revealed some instances in the case of one exporter where purchase price was lower than adjusted home market price. However, these were determined to be minimal in terms of the volume of sales involved. Formal assurances subsequently were received from this exporter that no future sales of clear sheet glass weighing over 16 ounces but not over 28 ounces per square foot would be made at less than fair value within the meaning of the Act. These facts constitute evidence warranting the discontinuance of the investigation of clear sheet glass of this weight from France.

The U.S. Tariff Commission is being advised of the determination that clear sheet glass from France weighing over 28 ounces per square foot is being, or is likely to be, sold at less than fair value.

This determination of sales at less than fair value and notice of discontinuance of investigation is published pursuant to sections 153.36 and 153.15(b) of the Customs Regulations (19 CFR 153.36, 153.15(b)).

[SEAL] EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

[FR Doc.71-11243 Filed 8-3-71;9:25 am]

CLEAR SHEET GLASS FROM ITALY

Determination of Sales at Less Than Fair Value

AUGUST 2, 1971.

Information was received on December 29, 1969, that clear sheet glass weighing over 16 ounces per square foot from Italy was being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act").

A "Withholding of Appraisement Notice" issued by the Commissioner of Customs was published in the FEDERAL REGISTER of May 4, 1971.

I hereby determine that for the reasons stated below, clear sheet glass weighing over 16 ounces per square foot from Italy is being, or is likely to be, sold at less than fair value within the meaning of section 201(a) of the Act.

Statement of reasons on which this determination is based.

Information currently before the Bureau reveals that the proper basis of comparison is between purchase price and home market price of such or similar merchandise.

Purchase price was calculated by deducting from the c.i.f. duty-paid delivered price to the United States, confidential trade and cash discounts, U.S. inland freight, duty, port, and brokerage charges, ocean freight, insurance, and Italian inland freight. Italian I.G.E. taxes refunded or not collected upon exportation are added back.

Home market price was based on the delivered price less quantity or trade discounts, confidential discounts, cash discounts, sales commission, and delivery costs. Other adjustments to be made to this price are advertising differential, after sales expenses, credit or finance costs, bad debt loss, loyalty discount and differences in commissions and packing, as applicable.

Comparison between purchase price and the adjusted home market price revealed the adjusted home market price to be higher than purchase price by an amount that is considered more than minimal in relation to the total volume of sales.

The U.S. Tariff Commission is being advised of this determination.

This determination is being published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)).

[SEAL] EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

[FR Doc.71-11244 Filed 8-3-71;9:25 am]

CLEAR SHEET GLASS FROM WEST GERMANY

Determination of Sales at Less Than Fair Value and of Sales at Not Less Than Fair Value

AUGUST 2, 1971.

Information was received on January 14, 1971, that clear sheet glass weighing over 16 ounces per square foot from West Germany was being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as the "Act").

A "Withholding of Appraisement Notice" issued by the Commissioner of Customs was published in the FEDERAL REGISTER of May 4, 1971. A statement of reasons was published in the abovementioned notice and interested parties were afforded until May 14, 1971, to make written submissions or requests for an opportunity to present views in connection with the withholding of appraisement.

The attorney for the exporter submitted a written request for an opportunity to present views in person in opposition to the notice. The opportunity was afforded to the attorney, and all interested parties were notified and were represented.

After consideration of all written and oral arguments presented, I hereby determine that clear sheet glass from West Germany weighing over 28 ounces per square foot is being, or is likely to be, sold at less than fair value within the meaning of section 201(a) of the Act; and that clear sheet glass from West Germany weighing over 16 ounces per square foot but not over 28 ounces per square foot is not being, nor is it likely to be, sold at less than fair value within the meaning of section 201(a) of the Act.

Statement of reasons on which this determination is based:

Information currently before the Bureau reveals that the proper basis of comparison is between purchase price and home market price of such or similar merchandise.

Purchase prices were calculated by deducting from the c.i.f., duty paid, prices for exportation to the United States the following included charges: a cash discount, a rebate, U.S. inland freight, customs clearance charges, U.S. duty, a selling commission, ocean freight, marine insurance, and German inland freight.

Home market prices were based on weighted average delivered prices after adjustments were made for various discounts, rebates, premiums, selling expenses, and inland freight.

Comparison between purchase price and the adjusted home market price on clear sheet glass weighing over 28 ounces per square foot revealed the adjusted home market price to be higher than purchase price.

Comparison between purchase price and the adjusted home market price on clear sheet glass weighing over 16 ounces per square foot but not over 28 ounces per square foot revealed the adjusted home market price to be lower than purchase price.

The U.S. Tariff Commission is being advised with regard to the determination on clear sheet glass weighing over 28 ounces per square foot.

This determination is being published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)).

[SEAL] EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

[FR Doc.71-11245 Filed 8-3-71;9:25 am]

6½ PERCENT TREASURY NOTES OF SERIES C-1973

Offering of Notes

[Department Circular, Public Debt Series No. 8-71]

AUGUST 2, 1971.

I. *Offering of notes.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders at a price not less than 99.76 percent of their face value for $2,500 million, or thereabouts, of notes of the United States, designated 6½ percent Treasury Notes of Series C-1973. Tenders will be received up to 1:30 p.m., e.d.s.t., Thursday, August 5, 1971, under competitive and noncompetitive bidding, as set forth in section III hereof. The 8¼ percent Treasury Notes of Series F-1971 and 4 percent Treasury Bonds of 1971 maturing August 15, 1971, will be accepted at par in payment, in whole or in part, to the extent tenders are allotted by the Treasury.

II. *Description of notes.* 1. The notes will be dated August 16, 1971, and will bear interest from that date at the rate of 6½ percent per annum, payable on a semiannual basis on February 15 and August 15, 1972, and February 15, 1973. They will mature February 15, 1973, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1 million. Provision will be made for the interchange of notes of different denominations and of coupon and registered notes, and for the transfer of registered notes, under rules and regulations prescribed by the Secretary of the Treasury.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States notes.

III. *Tenders and allotments.* 1. Tenders will be received at Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Washington, D.C. 20220, up to the closing hour, 1:30 p.m., e.d.s.t., Thursday, August 5, 1971. Each tender must state the face amount of notes bid for, which must be $1,000 or a multiple thereof, and the price offered, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a price. In the case of competitive tenders, the price must be expressed on the basis of 100, with two decimals, e.g., 100.00. Tenders at a price less than 99.76 will not be accepted. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed $200,000. It is urged that tenders be made on the printed forms and forwarded in the special envelopes marked "Tender for Treasury Notes", which will be supplied by Federal Reserve Banks on application therefor.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Other than commercial banks will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, federally insured savings and loan associations, States, political subdivisions, or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign states, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and Government accounts. Tenders from others must be accompanied by payment (in cash or the securities referred to in section I which will be accepted at par) of 5 percent of the face amount of notes applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by the Department of the Treasury of the amount and price range of accepted bids. Those submitting tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those at the highest prices will be accepted to the extent required to attain the amount offered. Tenders at the lowest accepted price will be prorated if necessary. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for $200,000 or less without stated price from any one bidder will be accepted in full at the average price[1] (in two decimals) of accepted competitive tenders.

4. All bidders are required to agree not to purchase or to sell, or to make any agreements with respect to the purchase or sale or other disposition of any notes of this issue at a specific rate or price, until after 1:30 p.m., e.d.s.t., Thursday, August 5, 1971.

[1] Average price may be at, or more or less than $100,000.

5. Commercial banks in submitting tenders will be required to certify that they have no beneficial interest in any of the tenders they enter for the account of their customers, and that their customers have no beneficial interest in the banks' tenders for their own account.

IV. *Payment.* 1. Settlement for accepted tenders in accordance with the bids must be made or completed on or before August 16, 1971, at the Federal Reserve Bank or Branch or at the Office of the Treasurer of the United States, Washington, D.C. 20220, in cash, securities referred to in section I (interest coupons dated Augst 15, 1971, should be detached) or other funds immediately available by that date. Payment will not be deemed to have been completed where registered notes are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the tender up to 5 percent of the amount of notes allotted shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. Any qualified depositary will be permitted to make settlement by credit in its Treasury Tax and Loan Account for not more than 50 percent of the amount of notes allotted to it for itself and its customers. When payment is made with eligible securities a cash adjustment will be made to or required of the bidder for any difference between the face amount of securities submitted and the amount payable on the notes allotted.

V. *Assignment of registered securities.* 1. Registered securities tendered as deposits and in payment for notes allotted hereunder should be assigned by the registered payees or assignees thereof, in accordance with the general regulations of the Department of the Treasury, in one of the forms hereafter set forth. Securities tendered in payment should be surrendered at the Federal Reserve Bank or Branch or at the Office of the Treasurer of the United States, Washington, D.C. 20220. The securities must be delivered at the expense and risk of the holder. If the notes are desired registered in the same name as the securities surrendered, the assignment should be to "The Secretary of the Treasury for 6½ percent Treasury Notes of Series C–1973"; if the notes are desired registered in another name, the assignment should be to "The Secretary of the Treasury for 6½ percent Treasury Notes of Series C–1973 in the name of_____"; if notes in coupon form are desired, the assignment should be to "The Secretary of the Treasury for 6½ percent Treasury Notes of Series C–1973 in coupon form to be delivered to_____".

VI. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] JOHN B. CONNALLY,
Secretary of the Treasury.

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

LICENSING DEPARTMENT INVENTIONS

Pursuant to authority delegated by the Secretary in 7 CFR 19.3 (35 F.R. 7493), the Administrator of the Agricultural Research Service has determined that certain Department inventions shall be made available for exclusive licensing under the provisions of Government Patent Policy (28 F.R. 10943) and 7 CFR 19.5 (35 F.R. 7493) and has made an initial selection of exclusive licensees involving four inventions. In accordance with 7 CFR 19.5(d) (35 F.R. 7493), notice thereof is published as follows:

1. Identifications of Department inventions: (1) Process for Making Powdered Fruit Juices, U.S. Patent 2,816,039; (2) Process for Making Full-Flavored Powdered Fruit Juice, U.S. Patent 2,816,840; and (3) Process for Dehydrating Liquid Foodstuffs with Preservation of Volatile Flavors, U.S. Patent 2,906,630.

Identification of the contemplated licensee: Welch Foods, Inc., Westfield, N.Y.

Terms and conditions of contemplated license: (1) The license will be granted to make, use, and sell the inventions to an unlimited field of use throughout the United States of America, its territories and possessions; (2) the period of the license will be 3 years, 3 months for patents 2,816,039 and 2,816,840; and 5 years for patent 2,906,630; (3) the maximum price of sale for the products of the inventions will not be fixed by the Administrator; (4) the license will not require the payment of royalties; (5) the license will permit the licensee to grant sublicenses; and (6) all other terms and conditions shall be in accordance with requirements specified in 7 CFR 19.5(c) (35 F.R. 7493).

2. Identification of Department invention: Cycloheximide as an Abscission Aid in Harvesting Citrus Fruit, patent application S.N. 865,199, filed October 8, 1969.

Identification of contemplated licensee: The Upjohn Co., Kalamazoo, Mich.

Terms and conditions of contemplated license: (1) The license will be granted to make, use, and sell the invention in a unlimited field of use for citrus throughout the United States of America, its territories and possessions; (2) the period of the license will be 5 years from the date of issuance; (3) a maximum price of sale for the products of the invention will not be fixed by the Administrator; (4) the license will not require the payment of royalties; (5) the license will permit the licensee to grant sublicenses; and (6) all other terms and conditions shall be in accordance with requirements specified in 7 CFR 19.5(c) (35 F.R. 7493).

The license(s) will be granted unless:

(1) A nonexclusive licensee of the invention(s) files a protest with the Administrator within 30 days after this publication, stating that he has already brought or is likely to bring the invention(s) to the point of practical application without an exclusive license, and submitting documentation in support thereof; or

(2) An application for nonexclusive license on the invention(s) is filed with the Administrator within 30 days after this publication, such application stating that the applicant is likely to bring the invention(s) to the point of practical application without an exclusive license, and containing documentation in support thereof; or

(3) A protest is filed by any person with the Administrator within 30 days after this publication, setting forth reasons why it would not be in the public interest to grant the proposed exclusive license(s).

The Administrator shall make a decision with respect to any application or protest under subparagraphs (1), (2), and (3) above, which decision shall be final and conclusive unless appeal is made therefrom as provided in 7 CFR 19.11.

This notice shall become effective upon the date of publication in the FEDERAL REGISTER (8-4-71).

Done at Washington, D.C., this 30th day of July 1971.

T. W. EDMINSTER,
Acting Administrator, Agricultural Research Service.

[FR Doc.71-10833 Filed 8-3-71;8:51 am]

SELECTION OF CHEMICALS FOR RESEARCH POTENTIALLY BENEFICIAL TO AGRICULTURE

Statement of Policies, Terms, and Conditions

I. *Purpose.* Pursuant to 7 USC 427, this notice states policy for the initial selection of, and conditions governing, the conduct of research and evaluation of potential agricultural chemicals produced by individuals or companies outside the Department. The Department will aggressively seek to assist in the evaluation of candidate chemicals under the terms set forth in this notice.

II. *Background.* In its research and action programs, the Department is interested in research to develop useful chemicals for agricultural production and for the protection of crops, livestock, and agricultural products, especially chemicals which have a low order of toxicity to man, livestock, crop and forest plants, and are compatible with a quality environment. Chemicals are needed for use as antibiotics, antiparasitic agents, antiseptics, attractants, biologics, chemotherapeutics, defoliants, desiccants, disinfectants fumigants, fungicides, herbicides, insecticides, nematocides, plant and animal growth regulators, plant and animal nutrients, repellents, seed protectants, soil conditioners, and other agricultural needs.

Many of the chemicals useful for these purposes have been synthesized and developed by industry, sometimes with the aid of the Department's research divisions or with other public research agencies. In some instances, the chemicals have been discovered by the Department or other public research agencies with subsequent commercial development by industry. Generally, the Department's programs of synthesis and analysis relate to long-term basic problems such as chemical investigations of naturally occurring products and certain classes of chemicals of importance to specific pest control programs in which the Department is engaged.

III. *Policy.* In order to achieve the objectives of its research and action programs, the Department will evaluate the effectiveness and environmental safety of biologically active and otherwise useful compounds and of formulations thereof that are proprietary and/or patented products, when such evaluation serves the best interest of the public, and when such compounds and formulations are useful in connection with an official program. However, the Department cannot assume the role of a public testing laboratory for the purpose of establishing commercial utility of proprietary materials. The results of such tests and evaluations will be made known to the public through technical or popular publications. This notice sets forth the conditions under which the Department will select chemicals and make such evaluations.

Implementation of the policy of this notice shall be consonant concerning adherence with Public Law 91-190, the National Environmental Policy Act of 1969, and Executive Order No. 11514 on Protection and Enhancement of Environmental Quality, and with any other applicable directives.

IV. *Selection and evaluation of chemicals.* The Department's Research Divisions will conduct research on agricultural chemicals when (a) they fit into a Division's program needs; (b) adequate Division personnel and facilities are available; and (c) the Division believes that the research will serve the best interests of the public.

Divisions may conduct research on chemicals, experimental formulations, proprietary compounds, and/or commercial formulations (hereafter referred to as "chemicals") developed by industry provided the supplier agrees to certain conditions. These are:

A. The supplier shall provide data to show that evaluation is warranted.

B. A statement giving the name of the chemical and its structural formula, if known, shall be furnished. If the exact formula is not known, sufficient information regarding the chemical nature of the material shall be furnished to enable the Division concerned to ascertain whether it has been previously evaluated.

C. If the supplier requests, a Division is authorized to accept chemicals and agree to hold identities in confidence for a reasonable period of time provided the chemical identity and other information required in this notice are made known to the Division. The period of confidence must be determined at the time of acceptance. A reasonable period of time is defined as up to 1 year. If there is a need for an extension and there is mutual agreement, the period of confidence may be extended for up to 1 additional year, but the total period of confidence may not exceed 2 years. Any such agreement as to confidence, and any extension thereof, must be in writing and signed by an authorized representative of the supplier and of the Division Director. It is the policy of the Department to publish results of scientific research as soon as the research data justify publication. Therefore, an agreement of confidence should be entered into only when it is determined to be in the best interest of the public.

D. The supplier will furnish to the cooperating Division available data on the toxicity of the chemical and its major impurities to man, animals, and plants; precautions necessary for safe evaluation and experimental use of the chemical; its solubility in available ordinary solvents; and other pertinent characteristics. Information on the toxicity of degradation, reaction, or metabolic products shall be fully disclosed. Compounds of unknown biological activity that are of special interest because of their chemical structure or other properties may be requested by the Research Divisions. In such cases, the provisions of this section pertaining to toxicity shall not apply.

E. The supplier shall be required to state in writing at the time of acceptance of the chemical whether steps for patent application(s) with respect to the chemical furnished have been taken or are contemplated. This information will be held in confidence. Unless the written statement specifies that the supplier reserves such patent rights, the Department shall be free to take such steps in reference to patent application(s) as it may deem to be in the public interest. No portion of the information or data generated by the Department during evaluation shall be used by the supplier in a patent application to meet the statutory requirement of utility; nor shall such information or data constitute the sole evidence of unobviousness in establishing patentability. Patentable ideas, products, processes, and equipment developed in the course of the research shall be reserved to the public in accordance with existing laws and regulations. The supplier must state his agreement to the conditions set forth in this paragraph in his written statement.

F. If a chemical is accepted for evaluation under the conditions stated in this notice, a Division may conduct preliminary evaluation under laboratory conditions or in small-plot tests. The extent to which any evaluations are made after the initial preliminary evaluations will be determined by the Division. Arrangements for large-scale field evaluations will be made with the supplier if the Division determines that such evaluations are justified. In such instances appropriate quantities of chemical formulated as specified by the Division may be accepted from the supplier as part of the cooperative arrangement.

G. Progress reports will be made to the supplier at the discretion of the Division. Upon completion of the evaluation, the Division will report its findings to the supplier for his information and comment. Information and results in progress reports or final reports shall not be published by the supplier in whole or in part without the consent of the Department and shall not be used in any advertisement to imply endorsement by the U.S. Department of Agriculture. The Department will publish promptly or make available to the public all information resulting from its research subject to any agreement as to confidence.

H. No recommendation for specific use of a chemical shall be made by any Division until the uses have been registered by appropriate Federal or State agencies if such registration is required by Federal or State laws.

I. In addition to the provisions outlined above, the following information shall be obtained for the evaluation of proprietary materials and/or commercial formulations:

1. The commercial name or designation of the product.

2. A common name of the active ingredient(s), if there is such.

3. The chemical name of the active ingredient(s).

4. The structural formula(s) of the active ingredient(s).

5. The chemical composition of impurities present, so far as they are known.

6. Percent active ingredient(s) of formulations.

7. Solubility in water and common organic solvents.

8. Adequate toxicological information to permit the investigator's taking reasonable precautions to safeguard health and other components of the environment.

9. Inert ingredients of formulations with information on the grade or purity of the inert ingredients.

V. *Forms to be used by USDA.* The supplier will complete a separate ARS Form 409, Request for Research Evaluation of Chemical, for each chemical to be evaluated. This form is a 3-part carbon-interleaved set. The supplier will retain the "Supplier's Copy" and submit the "Original" and "Notice of Acceptance Copy" with carbon intact to the appropriate USDA Division Representative. The USDA Division Representative will complete items 28 through 31 on the "Original" and the "Notice of Acceptance" copies. The original will be retained by the appropriate USDA Division as the "Agreement" copy. The "Notice of Acceptance" copy will be returned to the supplier and will constitute the Agreement for the supplier.

If there is a need for an extension of the period of confidence, the supplier will complete ARS Form 410, Request for Extension of Period of Confidence. This form will be submitted in an original and one copy to the appropriate USDA Division. The USDA Division Representative will complete items 10 through 13 and return the copy to the supplier as a record of the new period of confidence.

DEPARTMENT OF COMMERCE

[Dept. Administrative Order 203-18]

Office of the Secretary

SURETY BONDS

Delegation of Authority and Reporting Requirements

This material supersedes the material appearing at 33 F.R. 3033 of March 27, 1968.

SECTION 1. *Purpose.* The purpose of this order is to delegate authority and prescribe reporting requirements for obtaining surety bonds to cover officers and employees of the Department under the provisions of the Act of August 9, 1955 (6 U.S.C. 14).

SEC. 2. *Delegation of authority.* .01 Pursuant to the authority vested in the Assistant Secretary for Administration by Department Organization Order 10-5, the heads of operating units and the Director, Office of Financial Management Services, Office of the Secretary, are hereby authorized to obtain appropriate surety bonds to cover officers and employees of the Department who are required by law or administrative ruling to be bonded.

.02 The purchase of bonds pursuant to this authority shall be in accordance with the regulations prescribed in Treasury Department Circular No. 969, as amended, "The Purchase of Surety Bonds to Cover Civilian Officers and Employees and Military Personnel in the Executive Branch of the Federal Government," all of which are made a part hereof by reference.

.03 The authority delegated herein may be redelegated to such officers or employees as the heads of operating units and the Director, Office of Financial Management Services may designate.

SEC. 3. *Reports.* .01 In order to comply with the reporting requirements of the Act of August 9, 1955, and the Treasury Department Circular No. 969, as amended, each operating unit and the Office of Financial Management Services, Office of the Secretary, shall prepare and submit to the Director, Office of Financial Management Services, not later than August 1 of each year, a report of operations under the act for the preceding fiscal year.

.02 The reports prescribed herein shall contain the information specified in the pertinent regulations of the Department of the Treasury.

Effective date: July 22, 1971.

LAWRENCE E. IMHOFF,
Acting Assistant Secretary
for Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. FDC-D-369; NDA 7-519, etc.]

ENDO LABORATORIES, INC., ET AL.

New Drug Applications; Notice of Withdrawal of Approval

The following firms, listed with their addresses, respective drugs, and new-drug application number, have discontinued marketing of said products and requested withdrawal of approval of the new-drug applications, thereby waiving opportunity for hearing.

NDA	Drug name	Applicant's name and address
7-519	Cumertilin Tablets and Injection (mercumatilin sodium and theophylline).	Endo Laboratories, Inc., 1000 Stewart Ave., Garden City, N.Y. 11530.
9-075	Eudicalma Cream (ethylamino-benzoate, thenylpyramine hydrochloride zinc oxide and camphor).	Rexall Drug Co., 3901 North Kingshighway, St. Louis, Mo. 63115.
9-447	Rauwolfia Serpentina Tablets.	Cooper Laboratories, Inc., 2900 North
9-616	Rauwolfia Serpentina with Veratrum Virades Tablets.	17th St., Philadelphia, Pa. 19132.
9-626	Reserpine Tablets	
9-874	Tronolen Lotion (pramoxine hydrochloride and chlorcyclizine hydrochloride).	Abbott Laboratories, 14th and Sheridan Rd., North Chicago, Ill. 60064.
11-022	Predsem Tablets (prednisone, calcium pantothenate, aluminum hydroxide and magnesium trisilicate).	The S. E. Massengill Co., 527 Fifth St., Bristol, Tennessee 37620.
11-530	Op-Predrin Drops (prednisolone and phenylephrine hydrochloride).	Broemmel Pharmaceuticals, 1235 Sutter St., San Francisco, California 94109.
11-638	Nilevar Drops (norethandrolone).	G. D. Searle & Co., Post Office Box 5110, Chicago, Ill. 60680.
11-701	Mageryl Liquid (polymer of ethylene oxide and propylene oxide).	Paul B. Elder Co., 705 East Mulberry St., Box 31, Bryan, Ohio 43506.
16-541	Pen-Nitrate with phenobarbital (pentaerythritol tetranitrate and phenobarbital).	Tilden-Yates Laboratories, Inc., 328 Shrewsbury St., Worcester, Mass. 01604.
16-790	Pentaerythritol Tetranitrate Tablets (pentaerythritol tetranitrate).	Philadelphia Pharmaceuticals & Cosmetics, Inc., 5051 Lancaster Ave., Philadelphia, Pa. 19131.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505(e), 52 Stat. 1053, as amended, 21 U.S.C. 355(e) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), approval of new-drug applications Nos. 7-519, 9-075, 9-447, 9-616, 9-626, 9-874, 11-022, 11-530, 11-638, 11-704, 16-541, and 16-790 including all amendments and supplements thereto, are hereby withdrawn on the grounds that certain reports of experience with the drug required under section 505(j) of the Act (21 U.S.C. 355(j) and § 130.13 or § 130.35 of the new-drug regulations (21 CFR 130.13 and 130.35) have not been submitted.

This order shall become effective on its date of publication in the FEDERAL REGISTER (8-4-71).

Dated: July 19, 1971.

SAM D. FINE,
Associate Commissioner
for Compliance.

[FR Doc.71-11060 Filed 8-3-71;8:45 am]

[Docket No. FDC-D-281; NADA No. 9-073V et al.]

HESS AND CLARK ET AL.

Furazolidone; Notice of Opportunity for Hearing

Notice is hereby given to Hess and Clark Division of Richardson-Merrell, Inc., Ashland, Ohio 44205, to Eaton Laboratories, Division of the Norwich Pharmacal Co., Post Office Box 191, Norwich, N.Y. 13815, to the Norwich Pharmacal Co., Post Office Box 191, Norwich, N.Y. 13815, and to any interested persons who may be adversely affected that the Commissioner of Food and Drugs proposes to issue an order under section 512(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b(e)) with drawing approval of NADA (new animal drug application) Nos. 9-073V, 11-405V, 11-698V, 11-016V, 11-810V, and 9-393V with respect to furazolidone for the treatment of specified conditions in poultry, swine, and rabbits.

The Commissioner, based on an evaluation of new information before him with respect to such drugs together with the evidence available to him when the applications were approved, concludes that the drugs are not shown to be safe under the conditions of use upon the basis of which the applications were approved.

Information available to the Commissioner establishes that the drugs, when administered to laboratory animals, have been shown to produce tumors. The drugs are, therefore, not considered to be safe for use in the absence of appropriately sensitive methods of analysis to establish their absence in food derived from treated animals.

In accordance with the provisions of section 512 of the act (21 U.S.C. 360b), the Commissioner hereby gives the applicants and any interested persons who would be adversely affected by an order withdrawing such approval, an opportunity for a hearing at which time such persons may produce evidence and arguments to show why approval of the above listed new animal drug applications should not be withdrawn. Promulgation of the order will cause any such preparation containing furazolidone to be a new animal drug for which no approved new animal drug application is in effect. Any such drug or any animal feed bearing or containing such drug then on the market would be subject to regulatory proceedings.

Within 30 days after publication hereof in the FEDERAL REGISTER, such persons are required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Office of the General Counsel, Food, Drug, and Environmental Health Division, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, a written appearance electing whether:

1. To avail themselves of the opportunity for a hearing or

2. Not to avail themselves of the opportunity for a hearing.

If such persons elect not to avail themselves of the opportunity for a hearing, the Commissioner, without further notice, will enter a final order withdrawing approval of the new animal drug applications.

Failure of such persons to file a written appearance of election within 30 days will be construed as an election by such persons not to avail themselves of the opportunity for a hearing.

The hearing contemplated by this notice will be open to the public except that any portion of the hearing concerning a method or process that the Commissioner finds is entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

If such persons elect to avail themselves of the opportunity for a hearing, they must file a written appearance requesting the hearing and giving the reasons why the approval of the new animal drug applications should not be withdrawn together with a well-organized and full-factual analysis of the clinical and other investigational data they are prepared to prove in support of their opposition to the grounds for the notice of opportunity for a hearing. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. When it clearly appears from the data in the application and from the reasons and factual analysis in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, the Commissioner will enter an order stating his findings and conclusions on such data. If a hearing is requested and is justified by the response to the notice of hearing, the issues will be defined, a hearing examiner will be named, and he shall issue a written notice of the time and place at which the hearing will commence. Such time shall be not more than 90 days after the expiration of said 30 days, unless the hearing examiner and the applicant otherwise agree.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-51; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: July 22, 1971.

SAM D. FINE,
Associate Commissioner
for Compliance.

[FR Doc.71-11134 Filed 8-3-71;8:48 am]

[Docket No. FDC-D-283; NADA Nos. 12-738V, 14-283V]

HESS AND CLARK ET AL.

Furaltadone; Notice of Opportunity for Hearing

Notice is hereby given to Hess and Clark, Division of Richardson-Merrell, Inc., Ashland, Ohio 44205, to the Norwich Pharmacal Co., Post Office Box 191, Norwich, N.Y. 13815, and to any interested persons who may be adversely affected that the Commissioner of Food and Drugs proposes to issue an order under section 512(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b(e)) withdrawing approval of NADA (new animal drug application) Nos. 12-738V and 14-283V with respect to furaltadone for the treatment of bovine mastitis.

The Commissioner, based on an evaluation of new information before him with respect to such drugs together with the evidence available to him when the applications were approved, concludes that the drugs are not shown to be safe under the conditions of use upon the basis of which the applications were approved.

Information available to the Commissioner establishes that the drugs, when administered to laboratory animals, have been shown to produce tumors. The drugs are, therefore, not considered to be safe for use in the absence of appropriately sensitive methods of analysis to establish their absence in food derived from treated animals.

In accordance with the provisions of section 512 of the act (21 U.S.C. 360b), the Commissioner hereby gives the applicants and any interested persons who would be adversely affected by an order withdrawing such approval an opportunity for a hearing at which time such persons may produce evidence and arguments to show why approval of the above-listed new animal drug applications should not be withdrawn. Promulgation of the order will cause any such preparation containing furaltadone to be a new animal drug for which no approved new animal drug application is in effect. Any such drug then on the market would be subject to regulatory proceedings.

Within 30 days after publication hereof in the FEDERAL REGISTER, such persons are required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Office of the General Coun-

FEDERAL REGISTER, VOL. 36, NO. 150—WEDNESDAY, AUGUST 4, 1971

sel, Food, Drug, and Environmental Health Division, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, a written appearance electing whether:

1. To avail themselves of the opportunity for a hearing; or

2. Not to avail themselves of the opportunity for a hearing.

If such persons elect not to avail themselves of the opportunity for a hearing, the Commissioner, without further notice, will enter a final order withdrawing approval of the new animal drug applications.

Failure of such persons to file a written appearance of election within 30 days will be construed as an election by such persons not to avail themselves of the opportunity for a hearing.

The hearing contemplated by this notice will be open to the public except that any portion of the hearing concerning a method or process that the Commissioner finds is entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

If such persons elect to avail themselves of the opportunity for a hearing, they must file a written appearance requesting the hearing and giving the reasons why the approval of the new animal drug applications should not be withdrawn together with a well-organized and full-factual analysis of the clinical and other investigational data they are prepared to prove in support of their opposition to the grounds for the notice of opportunity for a hearing. A request for a hearing may not rest upon mere allegations or denials but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. When it clearly appears from the data in the application and from the reasons and factual analysis in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, the Commissioner will enter an order stating his findings and conclusions on such data. If a hearing is requested and is justified by the response to this notice, the issues will be defined, a hearing examiner will be named, and he shall issue a written notice of the time and place at which the hearing will commence. Such time shall be not more than 90 days after the expiration of said 30 days, unless the hearing examiner and the applicant otherwise agree.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-51; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120).

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGFR 71-76]

AMCHITKA ISLAND, ALASKA

Security Zone

By virtue of the authority vested in the Commandant, U.S. Coast Guard, by Executive Order 10173, as amended (33 CFR Part 6), sec. 6(b)(1), 80 Stat. 937, 49 U.S.C. 1655(b)(1), 49 CFR 1.46(b) and the redelegation of authority to Chief, Office of Operations, U.S. Coast Guard, as contained in the FEDERAL REGISTER of May 27, 1970 (35 F.R. 8279) I hereby affirm for publication in the FEDERAL REGISTER the order of J. A. Palmer, Rear Admiral, U.S. Coast Guard, Commander, 17th Coast Guard District, who has exercised authority as District Commander, such order reading as follows:

AMCHITKA ISLAND, ALASKA

SECURITY ZONE

Under the present authority of section I of title II of the Espionage Act of June 15, 1917, 40 Stat. 220, as amended, 50 U.S.C. 191, and Executive Order 10173, as amended, I declare that from 12 o'clock Bering Sea daylight time on Wednesday, August 25, 1971, until 12 o'clock Bering Sea daylight time on Thursday October 14, 1971, the following area is a security zone and I order it be closed to any person or vessel due to U.S. Atomic Energy Commission experiments:

The waters of Amchitka Island, Alaska, and those waters extending seaward to the limits of the U.S. Territorial Sea of Amchitka Island, Alaska.

No person or vessel shall remain in or enter this security zone without the permission of the U.S. Coast Guard.

The Commander, 17th Coast Guard District, Juneau, Alaska, shall enforce this order. In the enforcement of this order, the Coast Guard may utilize, by appropriate agreement, personnel and facilities of any other Federal agency, or of any State or political subdivision thereof.

For violation of this order, section 2 of title II of the Espionage Act of June 15, 1917 (40 Stat. 220 as amended, 50 U.S.C. 192), provides:

If any owner, agent, master, officer, or person in charge, or any member of the crew of any such vessel fails to comply with any regulation or rule issued or order given under the provisions of this chapter, or obstructs or interferes with the exercise of any power conferred by this chapter, the vessel, together with her tackle, apparel, furniture, and equipment, shall be subject to seizure and forfeiture to the United States in the same manner as merchandise is forfeited for violation of the customs revenue laws, and the person guilty of such failure, obstruction, or interference, shall be punished by imprisonment for not more than 10 years and may, in the discretion of the court, be fined not more than $10,000.

(a) If any other person knowingly fails to comply with any regulation or rule issued or order given under the provisions of this chapter, or knowingly obstructs or interferes with the exercise of any power conferred by this chapter, he shall be punished by imprisonment for not more than 10 years and may, at the discretion of the court, be fined not more than $10,000.

Dated: July 29, 1971.

R. E. HAMMOND,
Rear Admiral, U.S. Coast Guard, Chief, Office of Operations.

CIVIL AERONAUTICS BOARD

[Docket No. 23595; Order 71-7-181]

BUCKEYE AIR SERVICE, INC.

Order to Show Cause Regarding Establishment of Service Mail Rate

Issued under delegated authority, July 29, 1971.

The Postmaster General filed a notice of intent July 7, 1971, pursuant to 14 CFR Part 298, petitioning the Board to establish for the above-captioned air taxi operator, a final service mail rate of 68.4 cents per great circle aircraft mile for the transportation of mail by aircraft between Youngstown, Akron/Canton, Columbus, Ohio, Indianapolis, and South Bend, Ind., based on 10 one-way trips weekly.

No protest or objection was filed against the proposed services during the time for filing such objections. The Postmaster General states that the Postal Service and the carrier agree that the above rate is a fair and reasonable rate of compensation for the proposed services. The Postmaster General believes these services will meet postal needs in the market. He states the air taxi plans to initiate mail service with two Beechcraft C-45 or 99 or equivalent aircraft.

It is in the public interest to fix, determine, and establish the fair and reasonable rate of compensation to be paid by the Postmaster General for the proposed transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, between the aforesaid points. Upon consideration of the notice of intent and other matters officially noticed, it is proposed to issue an order[1] to include the following findings and conclusons:

The fair and reasonable final service mail rate is to be paid to Buckeye Air Service, Inc., in its entirety by the Postmaster General pursuant to section 406 of the Act for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, shall be 68.4 cents per great circle aircraft mile between Youngstown, Akron/Canton, Columbus, Ohio, Indianapolis, and South Bend, Ind., based on 10 one-way trips weekly, flown with two Beechcraft C-45 or 99 or equivalent aircraft.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and regulations promulgated in 14 CFR Part 302, 14 CFR Part 298, and 14 CFR 385.16(f),

It is ordered, That:

1. Buckeye Air Service, Inc., the Postmaster General, Allegheny Airlines, Inc., American Airlines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., and all other interested persons are directed to show cause why the Board should not adopt the foregoing proposed findings and conclusions and fix, determine, and publish the final rate specified above for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith as specified above as the fair and reasonable rate of compensation to be paid to Buckeye Air Service, Inc.;

2. Further procedures herein shall be in accordance with 14 CFR Part 302, and notice of any objection to the rate or to the other findings and conclusions proposed herein, shall be filed within 10 days, and if notice is filed, written answer and supporting documents shall be filed within 30 days after service of this order;

3. If notice of objection is not filed within 10 days after service of this order, or if notice is filed and answer is not filed within 30 days after service of this order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order incorporating the findings and conclusions proposed herein and fix and determine the final rate specified herein;

4. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable final rate shall be limited to those specifically raised by the answer, except insofar as other issues are raised in accordance with Rule 307 of the Rules of Practice (14 CFR 302.307); and

5. This order shall be served on Buckeye Air Service, Inc., the Postmaster General, Allegheny Airlines, Inc., American Airlines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., Trans World Airlines, Inc., and United Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.71-11169 Filed 8-3-71;8:50 am]

[1] As this order to show cause is not a final action, it is not regarded as subject to the review provisions of 14 CFR Part 385. These provisions will apply to final action taken by the staff under authority delegated in § 385.16(g).

[Docket No. 23596; Order 71-7-177]

JIM HANKINS AIR SERVICE, INC.

Order To Show Cause Regarding Establishment of Service Mail Rate

Issued under delegated authority, July 29, 1971.

The Postmaster General filed a notice of intent July 7, 1971, pursuant to 14 CFR Part 298, petitioning the Board to establish for the above-captioned air taxi operator, a final service mail rate of 58.7 cents per great circle aircraft mile for the transportation of mail by aircraft between Bristol, Va., Bluefield and Charleston, W. Va., Columbus and Cleveland, Ohio, based on 10 one-way trips weekly.

No protest or objection was filed against the proposed services during the time for filing such objections. The Postmaster General states that the Postal Service and the carrier agree that the above rate is a fair and reasonable rate of compensation for the proposed services. The Postmaster General believes these services will meet postal needs in the market. He states the air taxi plans to initiate mail service with two Beech S-18 or equivalent twin-engine aircraft.

It is in the public interest to fix, determine, and establish the fair and reasonable rate of compensation to be paid by the Postmaster General for the proposed transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, between the aforesaid points. Upon consideration of the notice of intent and other matters officially noticed, it is proposed to issue an order[1] to include the following findings and conclusions:

The fair and reasonable final service mail rate to be paid to Jim Hankins Air Service, Inc., in its entirety by the Postmaster General pursuant to section 406 of the Act for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, shall be 58.7 cents per great circle aircraft mile between Bristol, Va., Bluefield and Charleston, W. Va., Columbus and Cleveland, Ohio, based on 10 one-way trips weekly flown with two Beech S-18 or equivalent twin-engine aircraft.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and regulations promulgated in 14 CFR Part 302, 14 CFR Part 298, and 14 CFR 385.16(f),

It is ordered, That:

1. Jim Hankins Air Service, Inc., the Postmaster General, Allegheny Airlines, Inc., American Airlines, Inc., Eastern Air Lines, Inc., Pidemont Aviation, Inc., United Air Lines, Inc., and all other interested persons are directed to show cause why the Board should not adopt the foregoing proposed findings and conclusions and fix, determine, and publish the final rate specified above for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith as specified above as the fair and reasonable rate of compensation to be paid to Jim Hankins Air Service, Inc.;

2. Further procedures herein shall be in accordance with 14 CFR Part 302, and notice of any objection to the rate or to the other findings and conclusions proposed herein, shall be filed within 10 days, and if notice is filed, written answer and supporting documents shall be filed within 30 days after service of this order;

3. If notice of objection is not filed within 10 days after service of this order, or if notice is filed and answer is not filed within 30 days after service of this order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order incorporating the findings and conclusions proposed herein and fix and determine the final rate specified herein;

4. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable final rate shall be limited to those specifically raised by the answer, except insofar as other issues are raised in accordance with Rule 307 of the Rules of Practice (14 CFR 302.307); and

5. This order shall be served on Jim Hankins Air Service, Inc., the Postmaster General, Allegheny Airlines, Inc., American Airlines, Inc., Eastern Air Lines, Inc., Piedmont Aviation, Inc., and United Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[1] As this order to show cause is not a final action, it is not regarded as subject to the review provisions of 14 CFR Part 385. These provisions will apply to final action taken by the staff under authority delegated in § 385.16(g).

[Dockets Nos. 20398, 22859; Order 71-7-184]

MINIMUM CHARGES PER SHIPMENT OF AIR FREIGHT

Order of Suspension

Adopted by the Civil Aeronautical Board at its office in Washington, D.C., on the 28th day of July 1971.

By tariff revisions[1] bearing a posting date of June 14 and an issue date of July 2 for American Airlines, Inc. (American), and an issue date of July 13 for Braniff Airways, Inc. (Braniff), the carriers propose to increase the minimum charges per shipment of air freight, effective August 13 1971, as follows: For

[1] Revisions to Airline Tariff Publishers, Inc., agent's Tariff CAB No. 8 (Agent J. Aniello series) and CAB No. 158.

general commodity rate traffic, from the charges for 50 pounds but not less than $10, to the charges for 100 pounds but not less than $12; for exception-rated traffic, from the charges for 50 pounds but not less than $10 to a minimum of $12, the 50-pound rule remaining unchanged; and for specific commodity traffic from the charges for the minimum weights in effect but not less than $10 to a minimum of $12, the minimum-weight rule remaining unchanged.

Complaints requesting investigations and suspension were filed by the Society of American Florists and Ornamental Horticulturists and the Allied American Bird Co., division of Hartz Mountain Products Corp. against American's proposed increases for general commodity and exception-rated shipments. The complaints variously assert, inter alia, that (1) the proposed increases are premature, since the current minimum charges are now under investigation, (2) rising costs have been met by rising minimum charges since 1968 to the extent that they are based on the charges for 50 pounds, (3) the proposed increases are exorbitant, and would have a serious effect on the movement of live animals and floral products, since they would be added to previous increases in minimum charges, (4) American's cost methodology is questionable and its justification inadequate, (5) it is not practicable for live animal shipments to be consolidated and such shipments will be fully subject to the increases proposed.

In justification of their proposals and in American's answer to the complaints, the carriers variously assert that (1) all-cargo services are being operated at substantial losses, to which the losses from small shipments contribute significantly, (2) costs of handling small shipments have increased and generally exceed charges, (3) the increased minimum charges are designed to encourage shippers to use "specialists," that transport small shipments more efficiently and at lower charges, (4) the increases proposed will not have an adverse effect on the movement of cut flowers, and (5) American's cost computation method is reasonable.[2]

The higher minimum charges proposed come within the scope of Minimum charges per shipment of air freight, Docket 20398, and the forthcoming Domestic Air Freight Rate Investigation, Docket 22859, and the lawfulness of those charges will be determined in those proceedings. The issue now before us is whether to suspend the proposed charges or to permit them to become effective, pending the final determination of their lawfulness in those investigations.

The minimum charges proposed will produce increases of 10 to 26 percent for eastbound traffic and increases of 20 to 54 percent for westbound traffic. These significant increases would contravene the Board's concept that carriers should not be permitted large increases that may have significant impact upon shippers.[3] It should be noted that the proposed increases would be on top of the minimum dollar charge increase from $6 to $10 per shipment, effective in the latter part of 1968.[4]

We do not believe that the carriers have adequately justified their proposals. In support of their proposed higher charges, the carriers present cost data estimated for 1971 or 1972 for selected shipments sizes at certain lengths of haul. The costs are based upon the carriers' methodologies presented in the Minimum Charge case, Docket 20398, which were challenged by the noncarrier parties, but the Board has not yet issued its decision in that case. Moreover, regardless of the accuracy of the cost data, Docket 20398 involves a number of highly controversial issues as to the proper basis for minimum charges. One such issue is the propriety of basing minimum charges on the charges for a given shipment weight, 50 pounds. In light of the pendency of this issue, the Board would not be prepared to permit to become effective the carriers' present proposal, a minimum based on the charge for a 100-pound shipment.[5]

In view of the foregoing, we shall suspend the changes in air freight minimum charges as herein proposed.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, and 1002 thereof,

It is ordered, That:

1. Pending hearing and decision by the Board, the charges and provisions described in Appendix A hereto[6] are suspended and their use deferred to and including November 10, 1971, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

2. Except to the extent granted herein, the complaints by the Society of American Florists and Ornamental Horticulturists, in Docket 23562, and the Allied American Bird Co., division of Hartz Mountain Products Corp., in Docket 23569, are dismissed;

3. Copies of this order shall be filed with the tariffs and served upon all parties in Docket 20398, and upon the Allied American Bird Co., division of Hartz Mountain Products Corp., which is hereby made a party to that proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.71-11171 Filed 8-3-71;8:50 am]

[2] In its answer, American also stated that its proposed minimum charges for exception-rated shipments, the charges for 50 pounds (reduced from its initial proposal of 100 pounds) but not less than $12, should dispose of Allied's complaint.

[3] See, for example, Orders 69-2-111, 69-3-94, 69-5-65, 69-5-105, and 71-2-119.

[4] Since 1968, furthermore, the alternative minimum charges, those for 50-pound shipments, have also risen significantly.

[5] For general commodity-rated traffic.

[6] Appendix A filed as part of the original document.

[Docket No. 23597; Order 71-7-175]

WRIGHT AIRLINES, INC.

Order to Show Cause Regarding Establishment of Service Mail Rate

Issued under delegated authority, July 29, 1971.

The Postmaster General filed a notice of intent July 7, 1971, pursuant to 14 CFR Part 298, petitioning the Board to establish for the above-captioned air taxi operator, a final service mail rate of 83 cents per great circle aircraft mile for the transportation of mail by aircraft between Cleveland, Columbus and, Cincinnati, Ohio, based on 10 one-way trips weekly.

No protest or objection was filed against the proposed services during the time for filing such objections. The Postmaster General states that the Postal Service and the carrier agree that the above rate is a fair and reasonable rate of compensation for the proposed services. The Postmaster General believes these services will meet postal needs in the market. He states the air taxi plans to initiate mail service with two Beech C-45 or 99 or equivalent twin-engine aircraft.

It is in the public interest to fix, determine, and establish the fair and reasonable rate of compensation to be paid by the Postmaster General for the proposed transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, between the aforesaid points. Upon consideration of the notice of intent and other matters officially noticed, it is proposed to issue an order[1] to include the following findings and conclusions:

The fair and reasonable final service mail rate to be paid to Wright Airlines, Inc., in its entirety by the Postmaster General pursuant to section 406 of the Act for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, shall be 83 cents per great circle aircraft mile between Cleveland, Columbus, and Cincinnati, Ohio, based on 10 one-way trips weekly flown with two Beech C-45 or 99 or equivalent twin-engine aircraft.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and regulations promulgated in 14 CFR Part 302, 14 CFR Part 298, and 14 CFR 385.16(f),

It is ordered, That:

1. Wright Airlines, Inc., the Postmaster General, Allegheny Airlines, Inc., American Airlines, Inc., Delta Air Lines, Inc., Trans World Airlines, Inc., and all other interested persons are directed to show cause why the Board should not adopt the foregoing proposed findings and conclusions and fix, determine, and publish the final rate specified above for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith as specified above as the fair and reasonable rate of compensation to be paid to Wright Airlines, Inc.;

2. Further procedures herein shall be in accordance with 14 CFR Part 302, and notice of any objection to the rate or to the other findings and conclusions proposed herein, shall be filed within 10 days, and if notice is filed, written answer and supporting documents shall be filed within 30 days after service of this order;

3. If notice of objection is not filed within 10 days after service of this order, or if notice is filed and answer is not filed within 30 days after service of this order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order incorporating the findings and conclusions proposed herein and fix and determine the final rate specified herein;

4. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable final rate shall be limited to those specifically raised by the answer, except insofar as other issues are raised in accordance with Rule 307 of the Rules of Practice (14 CFR 302.307); and

5. This order shall be served on Wright Airlines, Inc., the Postmaster General, Allegheny Airlines, Inc., American Airlines, Inc., Delta Air Lines, Inc., and Trans World Airlines, Inc.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.71-11168 Filed 8-3-71;8:50 am]

[1] As this order to show cause is not a final action, it is not regarded as subject to the review provisions of 14 CFR Part 385. These provisions will apply to final action taken by the staff under authority delegated in § 385.16(g).

FEDERAL COMMUNICATIONS COMMISSION

[FCC 71-763]

JERSEY CAPE BROADCASTING CORP.

Declaratory Ruling Regarding Broadcast of Lottery Information

JULY 27, 1971.

It has been brought to the attention of the Commission that certain licensees and/or news services may be misinterpreting the declaratory ruling (FCC 71-722) handed down by the Commission on July 14, 1971, which concerned the broadcast of the winning New Jersey State lottery number (36 F.R. 13813).

The ruling was given in response to a request for a declaratory ruling made by Jersey Cape Broadcasting Corp. in which it was stated that the winning numbers would be announced on news programs. The Commission stated that such broadcasting of winning New Jersey State lottery numbers was prohibited by 18 U.S.C. § 1304 and Commission regulations.

The Commission noted that the proposed broadcast of the winning lottery numbers was of interest only to that limited class of persons who actually hold tickets and did not have the general news interest of announcements of the names of persons who have won.

The Commission's ruling appears to have been interpreted in some quarters as holding that winning numbers may be broadcast if they are given as part of a news item. All licensees and other interested persons should note that this is not a correct interpretation of the ruling, and that the Commission considers such announcement of winning lottery numbers to be prohibited by the statute and its rules.

Action by the Commission July 23, 1971.[1]

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.71-11150 Filed 8-3-71;8:51 am]

[Dockets Nos. 19291, 19292; FCC 71-768]

KFPW BROADCASTING CO. AND GEORGE T. HERNREICH

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In regard applications of George T. Hernreich, trading as KFPW Broadcasting Co. (KFPW-TV), Fort Smith, Ark., Docket No. 19291, File No. BLCT-2093, for license to cover construction permit; and George T. Hernreich (KAIT-TV), Jonesboro, Ark., Docket No. 19292, File No. BRCT-623, for renewal of license.

1. We have before us for consideration: (a) the captioned applications; (b) the request of George T. Hernreich Hernreich), trading as KFPW Broadcasting Co., for program test authority (PTA) for Station KFPW-TV, filed in conjunction with the captioned licensed application;[1] (c) our letter of June 30, 1971, which stated that action on Hernreich's request for PTA would be withheld pending consideration of the license application; and (d) a "Petition for Reconsideration and Urgent Request for Immediate Grant of Program Test Authority," filed July 20, 1971, by Hernreich, directed against "c", above.

2. On May 28, 1969, the Commission granted Hernreich's application for a construction permit for Station KFPW-TV. After that date, matters came to our attention as a result an investigation in Docket No. 18811,[2] which raise a substantial question as to Hernreich's qualifications to be a licensee of the Commission. Accordingly, when Hernreich filed his license application and his request for program test authority (PTA) on June 11, 1971, we advised him that action on his request for PTA would be withheld pending Commission consideration of his license application (BLCT-2093). Hernreich now urges an immediate grant of his request for PTA.

3. In view of the evidence adduced in Docket No. 18811 and representations made to this Commission by Hernreich, we are unable to conclude that a grant of the captioned applications would serve the public interest. Accordingly, it is necessary to designate the applications for hearing. Since the evidence taken will be relevant to our disposition of both applications, we shall order a consolidated hearing.

4. There are also pending before the Commission the application for the renewal of license of standard broadcast stations KFPW (BR-623) and WZNG (BR-2913) for Fort Smith and Hot Springs, Ark., respectively. Action on these two applications will be held in abeyance pending final resolution of the issues in this docketed proceeding. George T. Hernreich, the principal in this docketed proceeding, is also the licensee

[1] Commissioners Bartley, Robert E. Lee, Johnson and H. Rex Lee.

[1] Requests for program test authority are governed by § 73.629 of our rules. That section states:

(a) Upon completion of construction of a television broadcast station in accordance with the terms of the construction permit, the technical provisions of the application therefor, and the rules and regulations, and when an application for station license has been filed showing the station to be in satisfactory operating condition, the permittee may request authority to conduct program tests: *Provided*, That such request shall be filed with the Commission at least 10 days prior to the date on which it is desired to begin such operation and that the Engineer in Charge of the radio district in which the station is located is notified. (All data necessary to show compliance with the terms and conditions of the construction permit must be filed with the license application.)

(b) Program tests shall not commence until specific Commission authority is received. The Commission reserves the right to change the date of the beginning of such tests or to suspend or revoke the authority for program tests as and when such action may appear to be in the public interest, convenience, and necessity.

(c) Unless sooner suspended or revoked, the program test authority continues valid during Commission consideration of the application for license and during this period further extension of the construction permit is not required. Program test authority shall be automatically terminated by final determination upon the application for station license.

(d) All operations under program test authority shall be in strict compliance with the rules governing television broadcast stations and in strict accordance with representations made in the application for license pursuant to which the tests were authorized.

(e) The granting of program test authority shall not be construed as approval by the Commission of the application for station license.

[2] In Docket No. 18811, the Commission, pursuant to sections 403 and 409(1) of the Communications Act of 1934, as amended, instituted an inquiry to determine whether broadcast licensees or permittees, or any principal, agent or employee thereof, made payments to employees or principals of networks for the purpose of obtaining affiliation with such networks. The Commission emphasized that any such payment raises questions as to the particular party's qualifications to remain a licensee or permittee of the Commission, FCC 70-267, released Mar. 16, 1970.

of Stations KZNG and KFPW. The Commission's resolution of the issues in this docketed proceeding will be binding on George T. Hernreich and will be res judicata as to him. Gordon County Broadcasting Co. (WCGA) v. Federal Communications Commission, slip opinion No. 24,093, decided June 29, 1971, U.S. Court of Appeals for the District of Columbia Circuit. There is presently in hearing status (Docket No. 18241) an application of George T. Hernreich for a construction permit for a new FM broadcast station at Fort Smith, Ark. (BPH-6180). In the event that the issues in that proceeding are resolved in favor of the applicant, final action on that application (BPH-6180) should be withheld until dispositive action in taken in the instant docketed proceeding. Further, the final resolution in the instant proceeding will be determinative of Hernreich's qualifications in Docket No. 18241. Peoples Broadcasting Co. (WPBC), FCC 63-102, 24 RR 1169 (Rev. Bd. 1963).

5. We turn now to Hernreich's request for PTA for station KFPW-TV. The only local television station now serving Fort Smith is VHF Station KFSA-TV, which is owned by the only local Fort Smith newspaper, The Southwest American and Times Record. No other television signals are reliably received off the air in Fort Smith and the immediately surrounding area. Therefore, a grant of PTA would provide the Fort Smith area with its second television outlet and its first competing local television station. Under these circumstances, we believe that a grant of PTA, subject to whatever action we may deem appropriate as a result of the hearing ordered herein, would serve the public interest.

6. *Accordingly, it is ordered*, That pursuant to section 309(e) of the Communications Act of 1934, as amended, the captioned applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine all of the facts and circumstances surrounding the payments made by George T. Hernreich to a representative of the American Broadcasting Co. and the changes in the Station KAIT-TV affiliation agreement relevant thereto.

2. To determine whether George T. Hernreich made any misrepresentations to the Commission or was lacking in candor in connection with his representations to the Commission.

3. To determine in light of the evidence adduced pursuant to the above issues, whether George T. Hernreich has the requisite qualifications to be a licensee of the Commission.

4. To determine in light of the evidence adduced pursuant to the above issues, whether a grant of the applications would serve the public interest, convenience and necessity.

7. *It is further ordered*, That the Chief of the Broadcast Bureau shall serve upon the captioned applicants, within ninety (90) days of the release of this order, a bill of particulars setting forth the basis for the adoption of the above hearing issues (1) and (2).

8. *It is further ordered*, That the Broadcast Bureau shall proceed with the initial introduction of evidence with respect to issues (1) and (2) and the applicants shall have the burden of proof with respect to all the issues.

9. *It is further ordered*, That the request for programs test authority, for Station KFPW-TV, Fort Smith, Ark. is granted subject to whatever action the Commission may deem appropriate as a result of the hearing ordered herein.

10. *It is further ordered*, That the petition filed by George T. Hernreich, trading as KFPW Broadcasting Co., is granted to the extent indicated herein and denied in all other respects.

11. *It is further ordered*, That the Commission's Order (FCC 68-705, released July 11, 1968) designating the Hernreich application for a new FM broadcast station at Fort Smith, Ark., is amended to provide that in the event the application (BPH-6180) is not dismissed or denied, final action on such application will be withheld until dispositive action is taken in the instant proceeding and that action in the instant proceeding shall be determinative as to Hernreich's qualifications to build the proposed new FM broadcast station at Fort Smith, Ark.

12. *It is further ordered*, That the evidence adduced in this proceeding shall be res judicata in connection with any further proceedings which the Commission may subsequently institute with respect to George T. Hernreich's ownership and operation of stations KFPW, Fort Smith, Ark., and KZNG, Hot Springs, Ark.

13. *It is further ordered*, That to avail themselves of the opportunity to be heard, the applicant's pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within twenty (20) days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

14. *It is further ordered*, That the applicants shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing within the time and in the manner specified in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: July 27, 1971.

Released: July 28, 1971.

FEDERAL COMMUNICATIONS COMMISSION,[3]
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.71-11152 Filed 8-3-71;8:51 am]

[3] Commissioners Johnson and H. Rex Lee concurring in part and dissenting in part; Commissioner Houser not participating.

[Dockets Nos. 19157-19159; FCC 71R-235]

PETTIT BROADCASTING CO. ET AL.

Memorandum Opinion and Order Enlarging Issues

In regard applications of Claud M. Pettit and Margaret E. Pettit, doing business as Pettit Broadcasting Co., Brush, Colo., Docket No. 19157, File No. BP-18125; A. V. Bamford, Colorado Springs, Colo., Docket No. 19158, File No. BP-18467; and Enid C. Pepperd and Dona B. West, doing business as Brocade Broadcasting Co., Boulder, Colo., Docket No. 19159, File No. BP-18470; for construction permits.

1. This proceeding, involving the mutually exclusive applications of Pettit Broadcasting Co. (Pettit), A. V. Bamford (Bamford), and Brocade Broadcasting Co. (Brocade) for a new standard broadcast station in Brush, Colo., Colorado Springs, Colo., and Boulder, Colo., respectively, was designated for hearing under various issues, including a 307(b) issue by Commission memorandum opinion and order, FCC 71-189, 36 F.R. 4634, published March 10, 1971. Presently before the Review Board is a petition to enlarge issues, filed March 25, 1971, by Brocade seeking the addition of a financial qualifications issue, as well as as a programing issue, against Pettit.[1]

Financial issue. 2. The main focus of Brocade's petition is its questioning of the value and marketability of certain real estate relied upon by Pettit's principals to satisfy their financial commitments to the applicant. According to its application, Pettit proposes to meet its estimated construction and first-year operating costs of $56,870 by reliance on the financial resources of its two principals, Claud M. Pettit and Margaret E. Pettit. To meet their commitments, the Pettits' balance sheet shows net liquid assets of at least $17,215.63[2] and real estate appraised by experienced real estate agents in the area[3] at $69,466.27 which the Pettits have indicated they will sell or pledge. Specifically, the real estate appraised valuations are, as follows:

	Appraised valuations
Truitt Subdivision, Arvada, Colo.	$50,350.00
Rhoades Subdivision (Allison Street), Arvada, Colo.	7,500.00
Residence, 2761 East 93d Place, Thornton, Colo. ($19,000 value minus $7,383.73 mortgage outstanding)	11,616.27
Total, real estate, appraised valuations	69,466.27

3. As indicated above, the Pettits would have to acquire approximately $34,000-$40,000—[4] or approximately 50-60 percent of the appraised value ($69,500) of this property—from a sale or pledge of this property in order to meet their commitment to the applicant company for the financing of construction costs and first-year operating expenses. Section III, paragraph 4b, FCC Form 301, the application for a construction permit, requires an applicant to make a supplementary showing as to the manner in which such a nonliquid asset as real estate will provide the necessary cash funds. As further shown above, the Pettits made such a supplementary showing by submitting real estate appraisals of the property which were deemed acceptable and adequate by the Commission in accordance with its traditional and customary practice of accepting such appraisals as constituting prima facie evidence of the approximate fair market value, as well as the marketability, of such real estate. Hence, without discussion in its designation order, the Commission accepted the Pettits' prima facie showing, and did not specify a financial qualifications issue.

4. By the subject petition, Brocade attempts to challenge this prima facie showing with respect to the value and marketability of this real estate. Petitioner (a) cites a Colorado statute[5] which provides that tax assessments are to be made at 30 percent of actual value; (b) specifies the actual tax assessments of the properties in question; and (c) applying the 30 percent tax formula, calculates the fair market value at approximately $25,000 rather than the $69,500 figure as appraised and represented by the Pettits. Significantly, in our view, petitioner does not contend that the Pettits' real estate appraisals are not objective ones, or are inconsistent with the fair market value of similar properties situated in this area.

5. Thus, with due regard for the terms of the Colorado statute which petitioner relies upon to challenge the Pettit's prima facie showing, the Board believes that the Colorado statute, standing alone, does not controvert this showing under the circumstances here (a) where the Pettits have proffered competent evidence that there is a "generally accepted practice" in Colorado for unimproved land to be assessed at much less than the 30 percent formula prescribed by the statute, and (b) where this competent evidence of such a "generally accepted practice" has not been contradicted, let alone rebutted, by the petitioner. More specifically, the Board believes that petitioner had a burden of coming forward with evidence from the County Assessor setting forth the method and basis of his assessment of this property, or, alternatively, with verified statements from other real estate agents or lawyers in the area either (a) disputing the "generally accepted practice" alleged by the Pettits, or (b) disputing the fair market values as appraised by Pettits' real estate agents. Considering the grossly deficient state of this record, the contentions of Brocade, which attempt to challenge the value of this property, in our view, narrow down to mere cavilling.[6]

6. We also believe the Pettits have established reasonable assurance of marketability. This is land located in the suburban area of Denver and, in addition to comparing the saleability of nearby land, the Pettits have submitted undisputed evidence of inquiries from prospective purchasers for lots in the Truitt Subdivision at a minimum price level of $4,000 per lot.[7] There is also undisputed evidence that most of the available acreage in the Rhoades Subdivision is now selling for $7,500 to $10,000 per acre.[8]

7. It is our further view that any support for petitioner's position drawn from the language of Orange County Broadcasting Co., 15 FCC 2d 991, 15 RR 2d 306 (1969) and of Nelson Broadcasting Co., FCC 64R-505, 4 RR 2d 86, is decisively repelled by the difference in the facts of the instant case. Unlike the situation in Orange, supra, there are no conflicting allegations here with respect to the meaning of certain terms of valuation in tax records; nor is there a substantial question concerning unreported encumbrances which was the major basis of the specification of the financial issue in Orange, *supra*. *Cf.* Note 6, *supra*. Further, it is of significance in Nelson, *supra*, that (a) there was a narrow margin of only 11 percent as between the appraised value of certain real estate and the applicant's cash requirements, and (b) in light of this narrow margin, the Board held that an applicant must provide concrete assurance that such real estate could be sold at approximately the appraised value by demonstrating the availability of a prospective purchaser. Here, there is a wide margin (paragraph 3) between the appraised value and the Pettits' cash requirement to the applicant company. John M. Traxler, FCC 65R-191, 5 RR 2d 738, also relied upon by the petitioner, involved personal property of an applicant, such as automobiles, household and business furnishings, etc., and there the Board held that an applicant cannot rely on such types of personal property to meet its financial qualifications unless those assets are several times greater than the cash requirements. The instant case involves real property, unlike Traxler, and in any event, there is a wide margin (paragraph 3) as betweenthe appraisals and the Pettits' cash requirements.

Local programing issue. 8. The requested issue "to determine the extent to which the programing of existing stations meet the local needs of Brush, Colo.," derives from these facts: Brush, Colo., with a population of approximately 4,000 persons, is located 9 miles from Fort Morgan, Colo., where KFTM AM and FM are situated. On the basis of the allegations in the pleadings before us, there is no question that Brush receives a 5 mv./m. daytime service from KFTM (AM), and that this station does broadcast some programs on a regular basis geared to serve the local needs of Brush.

9. The Brush proposal is mutually exclusive with the proposals for the use of this frequency in Boulder, Colo., and in Colorado Springs. Brocade, the petitioner here seeking the requested issue, is the Boulder applicant. The population of the city of Boulder is 66,870, according to the 1970 Census of Population, Advance Report of Final Population Counts. Boulder has one AM station (KBOL), and two operating FM stations, one of which is KBVL(FM), under common ownership with KBOL. The other FM station is KRNW(FM). The thrust of petitioner's position seeking the requested issue is that its proposal for Boulder would represent a second AM station or first competitive AM station in Boulder, just as Pettit's (Brush) proposal would—in petitioner's view—represent a second AM station and first com-

[1] Other pleadings before the Review Board are: (a) Opposition, filed May 10, 1971, by Pettit; (b) comments, filed May 10, 1971, by the Broadcast Bureau; and (c) reply, filed June 2, 1971, by Brocade.

[2] This figure is increased to approximately $23,000 according to the balance sheet filed with Pettit's opposition.

[3] Traditionally, the Commission has accepted the appraisals of experienced local real estate agents with respect to the fair market value of real estate in a particular area. Although the qualifications or experience of the local real estate agents here were not set forth in their original appraisals, such information was supplied after this deficiency had been pointed out by the petitioner. Now that this information has been supplied and there is no question that the real estate agents are experienced persons in this area, petitioner suggests a new standard of qualification, i.e., that such real estate appraisers be "registered appraisers or an appraiser associated with the Master Appraisers Institute." Under the circumstances of this case, we find no need for such a stringent requirement.

[4] See Note 2, supra.

[5] The applicable Colorado Statute reads:
137-1-4 Valuation for assessment.—(1) (a) Except when otherwise prescribed in this chapter, the calculation for assessment of all taxable property in the State shall be 30 percent of the actual value thereof as determined by the assessor and the commission in the manner prescribed by law, and such percentage shall be uniformly applied, without exception, to the actual value, so determined, of the various classes and subclasses of real and personal property located within the territorial limits of the authority levying a property tax, and all property taxes shall be levied against the aggregate valuation for assessment resulting from the application of such percentage.

[6] The facts also do not support Brocade's allegation that the properties are encumbered: Pettit has clearly demonstrated that the encumbrance on the Truitt Subdivision was transferred to others, and that the mechanics liens on the Pettit's residence in Thornton have either been disposed of or are invalid. Similarly, Brocade's footnote one, questioning Pettit's cost estimates with regard to the latter's transmitter site, is equally without merit. As Pettit explains, the site was purchased from payments received by the Pettits on notes receivable not included in their financial statement and no improvements are necessary to render the property suitable for use as a transmitter site. Thus, there is no basis for petitioner's request: It is not unreasonable for an applicant to make such an expenditure with funds other than those set aside to prosecute its application, see Central Westmoreland Broadcasting Co., 27 FCC 2d 298, 20 RR 2d 1267 (1971), and Brocade does not dispute that the transmitter site, while once a city dump 35 years ago, has long been filled in and is now usable for a transmitter site without the expenditure of additional resources.

[7] Claud Pettit possesses at least 13 lots in this subdivision.

[8] Petit indicates ownership by Claud Pettit of 1.3 acres of the Rhoades Subdivision.

petitive AM station for Brush considering KFTM(AM) as a station serving the local needs of Brush, as well as Fort Morgan where it is situated.

10. On the basis of substantially the same basic facts detailed above, the Broadcast Bureau does not believe that the petitioner has made the required threshhold showing that the requested programing issue might be of decisional significance. And it is the position of Pettit, the Brush applicant, that the Commission's first local outlet preference, combined with "Brush's demonstrable need for a first local outlet, require denial of the request for addition of the specified issue."

11. Without deciding or prejudging any of the issues of fact which are patently revealed by the above recitations and which must await the outcome of the forthcoming evidentiary hearing, the Board believes that it is evident from the foregoing factual recitation that evidence concerning the programing of existing stations may be material to a determination under section 307(b) of the Communications Act, of which community has the greater need for the broadcast facility. However, in accordance with our usual practice, the requested issue will be added on a contingent basis and is authorized only in the event that the Brush proposal otherwise would prevail under the standard section 307(b) criteria. See, e.g., Radio Collinsville, Inc., 14 FCC 2d 1058, 14 RR 2d 559 (1968).

12. *Accordingly, it is ordered*, That the petition to enlarge issues, filed March 25, 1971, by Enid C. Pepperd and Dona B. West doing business as Brocade Broadcasting Co., is granted to the extent indicated below, and is denied in all other respects; and that the issues in this proceeding are enlarged by the addition of the following issue:

In the event that Pettit Broadcasting Co. should be deemed superior under the existing section 307(b) issue in this proceeding, to determine the extent to which programing of existing stations meet the local needs and interest of Brush, Colo., and to determine in light of such evidence which of the applicants should be preferred.

13. *It is further ordered*, That the burden of proceeding with the introduction of evidence on the contingent issue added herein will be on Brocade Broadcasting Co. and the burden of proof will be on Pettit Broadcasting Co.

Adopted: July 27, 1971.

Released: July 28, 1971.

Secretary.

[FR Doc.71-11153 Filed 8-3-71;8:51 am]

[Docket No. 19290; FCC 71-764]

JOHN M. SPOTTSWOOD

Memorandum Opinion and Order Designating Application for Hearing on Stated Issues

In regard application of John M. Spottswood, for renewal of license for Station WKWF, Key West, Fla., File No. BR-1229.

1. The Commission has before it for consideration (1) the above-captioned renewal application; (2) a petition to deny the above-captioned renewal application filed January 16, 1970, by the Florida Keys Broadcasting Co.; (3) an opposition to the petition to deny filed April 2, 1970, by the above-captioned licensee; (4) a reply to the opposition to the petition to deny filed April 24, 1970, by the petitioner; (5) a "further opposition" to the petition to deny filed June 18, 1970, by the above-captioned licensee; and (6) other correspondence relating to these pleadings.

2. John M. Spottswood (hereinafter referred to as "Spottswood") is the licensee of Station WKWF, Key West, Fla. He is also the owner of Cable-Vision, Inc., a CATV system serving Key West. Petitioner, Florida Keys Broadcasting Co. (hereinafter referred to as "Florida Keys") is the licensee of Stations WKIZ and WFYN-FM, Key West, Fla. WKWF, WKIZ, and WFYN-FM are the only stations licensed to Key West.

3. Initially, there is a question regarding the timeliness of Florida Keys' petition to deny. Section 1.581 of the Commission rules requires that petitions to deny be filed on or before the first day of the last full month of the expiring license term of the station against which the petition is directed. The license for WKWF expired February 1, 1970. Therefore, a petition to deny renewal of license for WKWF was due on or before January 1, 1970. The petition was filed on January 16, 1970.

4. Florida Keys acknowledges the timeliness problem in its petition to deny and urges waiver of the provisions of § 1.580(i) on the grounds that a family illness occupied most of the time of the president and principal stockholder of Florida Keys for approximately 10 weeks ending December 24, 1969. Florida Keys also states that the serious public interest questions presented in the petition warrant waiver of the requirements of § 1.580(i).

5. Spottswood opposes waiver of § 1.580(i), stating that other officers and owners of Florida Keys reside in Key West and could have prepared a timely petition. Spottswood also argues that RKO General, Inc., 17 R.R. 2d 1126 (Broadcast Bureau 1969), held against a "similarly untimely pleading filed against a renewal application for obvious purposes of harassment."

6. The Commission is of the opinion that RKO General, Inc., supra, is inapposite to this case. RKO General, Inc. involved a petition for reconsideration of grants of renewal of license for Washington, D.C., and Bethesda, Md., stations on the alleged ground that a company controlled by the licensee of the stations had been harassing the petitioner, a television station in Colorado. Certain distinctions between RKO General, Inc., and the present case are apparent: in the former, the dispute was far removed from the operation of the stations against which the petition was directed; in the present case, the petition alleges abuse in the operation of the station petitioned against. Furthermore, in RKO General, Inc., the petition was not filed until after the grant of the renewal applications; in this case, the petition preceded action on the renewal application. The Commission is not convinced that the sound decision would be to ignore allegations of abusive operation of a station by its licensee at the time it is examining that licensee's qualifications to remain a licensee for an additional 3 year period. In RKO General, Inc. the Broadcast Bureau stated:

> In spite of the procedural deficiencies outlined above, the Bureau could set aside the grant of the renewal applications and treat the petitions as informal objections filed pursuant to § 1.587 of the rules.

The Commission chooses to so treat the petition in this case for the reasons discussed above.

7. According to the 1970-1971 edition of Television Factbook Services Volume (No. 40), p. 393-a, Cable-Vision, Inc. is a five channel CATV system with 10,000 subscribers. One channel carries a weather scan on video and WKWF on audio. Florida Keys states that it has requested that Cable-Vision, Inc. carry the signal of WKIZ but that that request has not been granted. Florida Keys asserts that:

> The exclusive carriage of the WKWF signal on the Key West cable system and the refusal by Mr. Spottswood to grant similar carriage to the competing signal of WKIZ is an unfair competitive practice detrimental to free radio broadcasting in Key West and contrary to the public interest.

Florida Keys argues that because Cable-Vision, Inc. serves approximately 85 percent of the homes in Key West, the advantage to WKWF of carriage on the CATV system poses a threat to Florida Keys and could result in Spottswood "eventually assuming a position of absolute control of the broadcast-cable communications media on Key West," a situation which Florida Keys suggests would be abhorrent in an isolated area such as Key West because Spottswood could control all outlets for local self-expression. In conclusion, Florida Keys states that Spottswood's carriage of his own station on the CATV system and refusal to carry the competitor station constitutes an unfair business practice contrary to the public interest and that, therefore, the renewal application for Station WKWF should be denied unless Spottswood agrees to carry Stations WKIZ and WFYN-FM on the CATV system on a par with Station WKWF.

8. In the opposition to the petition to deny, Spottswood asserts that Florida Keys, as the licensee of two of the three radio stations in Key West, is in an "awkward" position to raise the spectre of concentration of control. Furthermore, Spottswood asserts that he has never refused Florida Keys carriage on the CATV system. Spottswood states that Florida Keys originally inquired about carriage of Station WKIZ on the Cable-Vision, Inc. CATV system in 1966, but that he (Spottswood) suggested that any arrangement await a planned move of Cable-Vision, Inc's. facilities. He continues that this move was delayed 18 months due to essential telephone company construction Spottswood states that the petitioner made no attempts to contact him to further discuss carriage of Florida Keys' stations during the period from after the original discussion to a few days prior to the filing of the petition to deny, at which time he was not in his office. Finally, Spottswood argues that it is irrelevant whether or not he has refused carriage to petitioner's stations because they have no right to carriage and his carriage of WKWF on the CATV system does not violate any Commission Rules. Harvit Broadcasting Corp., 16 R.R. 2d 713 (Review Board 1969) is cited as authority for this proposition.[1]

9. In its reply to Spottswood's opposition to the petition to deny, Florida Keys states that

> Although Spottswood had been smart enough not to explicitly "refuse" WKIZ's request for carriage, the fact is that his continuing delaying tactics over the past four years has [sic] resulted in an effective denial of WKIZ's request.

Florida Keys also disputes Spottswood's assertion that it did not pursue the question of WKIZ's carriage on the CATV system. Florida Keys states that it responded to Spottswood's 1966 letter with a request for treatment equivalent to that given WKWF by the CATV system but that it received no response to this request. In January 1970 Florida Keys again tried to contact Spottswood but he was not available. At this point, Florida Keys states that it concluded that "Spottswood's excuses for delay in granting WKIZ's request for carriage was [sic] merely his method of denying the request" and therefore the petition to deny was filed.

10. Florida Keys' reply cites United States v. Radio Corporation of America, 358 U.S. 334 (1959), for the proposition that the Commission has and should consider anticompetitive practices of licensees as bearing on their qualifications to be licensees. Florida Keys also argues that Harvit Broadcasting Corp., supra, is not relevant because in that case the petitioner had been offered equivalent carriage on the CATV system, whereas the opposite is true in this case. Florida Keys continues that it does not assert that common ownership of a broadcast station and a CATV system in the same community is per se contrary to the public interest, but rather that Spottswood has unfairly utilized his common ownership contrary to the public interest.

11. Florida Key's reply then states that Florida Keys is attempting to establish a CATV system to compete with Cable-Vision, Inc. and asserts that there is dissatisfaction in Key West with the service and rates of Cable-Vision, Inc. The Commission considers these allegations completely irrelevant to the question of whether Spottswood's renewal application should or should not be granted.

12. Spottswood requests permission pursuant to § 1.41 of the Commission's rules to file a "further opposition to [the] petition to deny", asserting that such filing is necessary because the reply of Florida Keys contained new material. In the further opposition, Spottswood states that the operation of Cable-Vision, Inc. is a matter of local concern only. He reasserts that Florida Keys did not pursue the carriage issue for 3½ years between 1966 and 1970, thus revealing the "lack of bona fides" in its argument. Finally, Spottswood states that:

> Despite WKIZ's blatent allegations, there has been no refusal to carry the signal of WKIZ, merely a reasonable request on the part of the cable system that WKIZ perform in a business-like manner.

13. On October 19, 1970, the Chief, Renewal and Transfer Division wrote counsel for Spottswood requesting that the Commission be given an unequivocal answer whether Cable-Vision, Inc. would or would not carry the signal of Station WKIZ. By letter dated October 28, 1970, counsel for Spottswood stated that a meeting between representatives of Cable-Vision, Inc. and WKIZ had been scheduled "to work out the details for the carriage of WKIZ on the CATV system" and that the Commission would be provided with details of the carriage arrangement. That meeting was held November 20, 1970. No further written information was forthcoming for a period of a few months and telephone inquiries of the Commission staff were answered by counsel for Spottswood with statements that the initial meeting had been held and that further meetings would be necessary. On February 18, 1971, the Chief, Renewal and Transfer Division again wrote counsel for Spottswood requesting an immediate answer whether or not the Cable-Vision, Inc. intended to offer WKIZ carriage on the CATV system. By letter dated February 19, 1971, counsel for Spottswood informed the Commission that Spottswood and Cable-Vision, Inc. did not intend to carry WKIZ on the CATV system at this time, but that Spottswood proposes to cease carriage of WKWF on the system until the number of channels on the CATV system is expanded, at which time both WKWF and WKIZ would be accorded equal opportunities for carriage.

14. Counsel for Florida Keys submitted a letter to the Commission February 19, 1971, in which they state that they left the November 20, 1970, meeting between representatives of Cable-Vision, Inc. and WKIZ with the impression that Cable-Vision, Inc. would submit a written carriage offer to WKIZ within 1 or 2 weeks. They state that nothing further was heard until January 20, 1971, at which time Spottswood informed Florida Keys' counsel that he (Spottswood) proposed to accord WKWF and WKIZ equivalent treatment by ceasing carriage of WKWF on the CATV system. Counsel for Florida Keys state that they do not find this proposal satisfactory, that WKWF was carried on the CATV system for many years while similar carriage was denied WKIZ, and that Spottswood only used the "negotiating" time from November to January to further delay carriage of WKIZ. The letter concludes that Spottswood's failure to ever present a firm carriage offer to WKIZ after informing the Commission that he intended to make such an offer reflects adversely on Spottswood's qualifications to remain a licensee.

15. In a letter dated March 5, 1971, counsel for Florida Keys stated that the possibility of Cable-Vision, Inc. ceasing carriage of WKWF as a solution to the dispute had not been discussed at any length at the November 20, 1970, meeting, that there is an available channel on the CATV system which could be used for the carriage of WKIZ, and that Spottswood's actions in this matter indicate that he never had any intention of carrying WKIZ on the CATV system, contrary to his statements to the Commission.

16. On March 25, 1971, counsel for Spottswood submitted another proposal: to cease carriage of WKWF as of April 1,

[1] Harvit Broadcasting Corp., supra, involved mutually exclusive applications for construction permits for FM stations by AM licensees in two neighboring communities. The petitioner requested addition of an "unfair competition" issue to the hearing on the grounds that the other licensee was importing the signal of its AM station via a CATV system it owned into the principal community of the petitioner's AM station. The petitioner contended that this constituted an attempt to establish a second broadcast station in the petitioner's community without Commission approval and that the "second station" so established violated the Commission's duopoly rules; that the CATV carriage was an improper extension of the service area of the AM station beyond the area authorized by its license and contemplated by the Commission's allocation system; and that, at the least, such carriage was an unfair business practice which had produced increased revenues for the station carried on the CATV system. The respondent stated that there had been no ascertainable increase in revenue for the station, and that the petitioner's station had declined an opportunity to have its station carried on the CATV system. The Review Board held that the requested issue would not be added, stating that the carriage of the AM signal on the CATV system was not per se prohibited and that the petitioner had not submitted any specific facts to establish economic injury or unfair competition.

1971, and to afford equivalent carriage to WKWF and WKIZ once the Cable-Vision, Inc. CATV system is all-banded, with a guarantee that whether or not all-banding is completed, WKIZ will be given carriage opportunity within eight months from March 25, 1971. The offer is contingent upon WKIZ's submission to Cable-Vision Inc. of a formal demand for carriage, WKIZ's guarantee that it will provide audio plus a moving video picture for the channel, and a statement describing the source of the signals and the arrangements for delivering the signals to the CATV input. The offer is also contingent upon Florida Keys seeking to dismiss the pending petition to deny.

17. By letters of April 22, 1971, and May 4, 1971, counsel for Florida Keys reject the proposal of March 25, 1971, stating that they believe that the facts in the case indicate an unfair competitive practice for a number of years and excessive delaying tactics by Spottswood in the course of the attempt to arrange for carriage of WKIZ. Further, they state that Spottswood is attempting to sell WKWF and may be attempting to sell Cable-Vision, Inc., and that the sale of either might render an agreement for future carriage of WKIZ worthless. Florida Keys suggests that the proper resolution of this matter would be for the Commission to order carriage of WKIZ on the Cable-Vision, Inc. CATV system and to make that order binding on subsequent owners of the CATV system if it is sold or transferred. Finally, Florida Keys states that it is ready now to provide an audio and moving video signal for the CATV system and therefore there is no reason that its signal cannot be carried immediately by Cable-Vision, Inc.

18. Commission rules do not prohibit the common ownership of a standard broadcast station and a CATV system in the same community. However, cross-ownership of communications media is not authorized when that cross-ownership is utilized in an unfair manner against competitors. In view of the foregoing, the Commission finds that there exist substantial and material questions of fact as to whether Spottswood utilized his cross-ownership of Station WKWF and Cable-Vision, Inc. in an unfair manner against Florida Keys.

19. *Therefore, it is ordered,* That the above-captioned renewal application is designated for hearing on the following issues:

1. To determine whether John M. Spottswood's carriage of Station WKWF on the Cable-Vision, Inc. CATV system and refusal to afford equivalent carriage to Stations WKIZ and WFYN–FM constituted an unfair method of competition.

2. To determine, in light of the evidence adduced under the foregoing issue, whether a grant of the application for renewal of license for Station WKWF would serve the public interest, convenience, and necessity.

20. *It is further ordered,* That the Florida Keys Broadcasting Co. shall be made a party and shall have the right to appear as such in the proceeding ordered herein.

21. *It is further ordered,* That the hearing ordered herein shall be held at Key West, Fla., with the date to be specified in a subsequent order.

22. *It is further ordered,* That respecting Issue No. 1, the initial burden of coming forward with the introduction of evidence shall be on Florida Keys Broadcasting Co., and that the Broadcast Bureau shall then proceed with the introduction of the evidence it has with respect to such issue. The burden of proof on all issues shall be on the applicant.

23. *It is further ordered,* That to avail himself of the opportunity to be heard, the applicant herein, pursuant to § 1.221 (c) of the Commission's rules, in person or by attorney, shall within twenty (20) days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

24. *It is further ordered,* That the applicant shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594(a) of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rule and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: July 23, 1971.

Released: July 29, 1971.

FEDERAL MARITIME COMMISSION

W. R. GRACE & CO. AND LYKES-YOUNGSTOWN CORP.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mark P. Schlefer, Esquire
Kominers, Fort, Schlefer & Boyer
Tower Building
1401 K Street, N.W.
Washington, D.C. 20005

Ly-Gra Corp.'s sole operating asset is Gulf & South American Steamship Co., a wholly owned subsidiary. Agreement No. 9963 is a stock purchase agreement between W. R. Grace & Co. and Lykes-Youngstown Corp., each of whom owns 50 percent of the capital stock of Ly-Gra Corp. Lykes-Youngstown Corp. will buy from W. R. Grace & Co. its 50 percent of the capital stock of Ly-Gra Corp.

The purchase is being made for Lykes-Youngstown Corp.'s account for investment purposes and not with a view to resale or distribution of all or any part of the shares. The closing of the purchase shall take place on the later of September 15, 1971, or the fifth calendar day following the day on which both Lykes-Youngstown Corp. and W. R. Grace & Co. have received notice of the last of the approvals specified in the agreement.

Lykes-Youngstown Corp. intends to continue the operations of Gulf & South American Steamship Co. by integrating them into the existing subsidized operations of Lykes Bros. Steamship Co., Inc., its wholly owned subsidiary. Agreement No. 9963 will supersede and cancel Agreement No. 7612, as amended, which authorized the formation of Gulf & South American Steamship Co. by Grace Line, Inc. and Lykes Bros. Steamship Co., Inc.

Dated: July 30, 1971.

[Docket No. 71-49; Special Permission No. 5369]

GULF PUERTO RICO LINES, INC.

General Increases in Rates in the U.S. Gulf/Puerto Rico Trade; Third Supplemental Order

By the original order in this proceeding served April 30, 1971, the Commission placed under investigation a general rate increase of the subject carrier, and suspended to and including September 1, 1971, supplement No. 7 and various revised pages to Tariff FMC–F No. 1. The Commission's order prohibits changes in tariff matter held in effect by reason of suspension, during the period of suspension, unless otherwise ordered by the Commission.

By Special Permission Application No. 56 authority is sought to depart from the terms of Rule 20(c) of Tariff Circular No. 3 and the terms of the original order in this proceeding to permit the filing, upon not less than 1 day's notice, to make changes in rates and provisions held in effect by reason of suspension in said docket, but only to the extent that such changes will result in the filing of maximum trailerload charges on furniture, n.o.s.

A full investigation of the matters involved in the application having been made, which application is hereby referred to and made a part thereof:

It is ordered, That:

1. Authority to depart from Rule 20 (c) of Tariff Circular No. 3 and the terms of the order in Docket No. 71–49 to make the changes in rates and provisions as set forth in Special Permission Application No. 56, said charges to become effective on not less than 1 day's notice, is hereby granted.

2. The authority granted hereby does not prejudice the right of this Commission to suspend any publications submitted pursuant thereto, either upon receipt of protest or upon the Commission's own motion under section 3 of the Intercoastal Shipping Act, 1933.

3. Publications issued and filed under this authority shall bear the following notation. "Issued under authority of Third Supplemental Order in Docket No. 71–49 and Federal Maritime Commission Special Permission No. 5369."

4. This special permission does not modify any outstanding formal orders of the Commission except insofar as it allows the aforementioned changes, nor waive, except as herein authorized, any of the requirements of its rules relative to the construction and filing of tariff publications.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[FR Doc.71-11156 Filed 8-3-71;8:49 am]

[First Supplemental Order; Docket No. 71–68]

HAWAIIAN FREIGHT SERVICE, INC.

Increases in Rates in the New York/Hawaiian Trade; Order of Investigation and Suspension

Hawaiian Freight Service, Inc., has filed with the Federal Maritime Commission 3d Revised Page No. 9 to its Tariff FMC–F No. 2 to become effective August 2, 1971. This page increases delivery rates on the Island of Oahu.

Upon consideration of said tariff page, the Commission is of the opinion that the above designated tariff matter may be unjust, unreasonable, or otherwise unlawful and that a public investigation and hearing should be instituted to determine its lawfulness under section 18 (a) of the Shipping Act, 1916, and/or sections 3 and 4 of the Intercoastal Shipping Act, 1933, and good cause appearing therefore;

It is ordered, That pursuant to the authority of section 22 of the Shipping Act, 1916, and sections 3 and 4 of the Intercoastal Shipping Act, 1933, an investigation is hereby instituted into the lawfulness of said increased rates with a view to making such findings and orders in the premises as the facts and circumstances warrant. In the event the matter hereby placed under investigation is further changed, amended, or reissued, such matter will be included in this investigation.

It is further ordered, That pursuant to section 3, Intercoastal Shipping Act, 1933, 3d Revised Page 9 to Tariff FMC–F No. 2 is suspended and the use thereof deferred to and including December 1, 1971, unless otherwise ordered by this Commission;

It is further ordered, That there shall be filed immediately with the Commission by Hawaiian Freight Service, Inc., a consecutively numbered supplement to the aforesaid tariff which supplement shall bear no effective date, shall reproduce the portion of this order wherein the suspended matter is described and shall state that the aforesaid matter is suspended and may not be used until December 2, 1971, unless otherwise authorized by the Commission; and the rates and charges heretofore in effect, and which were to be changed by the suspended matter shall remain in effect during the period of suspension, and neither the matter suspended, nor the matter which is continued in effect as a result of such suspension, may be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission;

It is further ordered, That the current proceeding in Docket 71–68, investigation of Hawaiian Freight Service, Inc.'s general commodity rate increase published on 5th Revised Page No. 8 to its Tariff FMC F No. 2, be expanded to include this investigation of increased delivery rates published on 3d Revised Page No. 9 to Hawaiian Freight Service, Inc.'s Tariff FMC–F No. 2;

It is further ordered, That copies of this order shall be filed with the said tariff schedules in the Bureau of Compliance of the Federal Maritime Commission;

It is further ordered, That the provisions of Rule 12 of the Commission's rules of practice and procedure which require leave of the Commission to take testimony by deposition or by written interrogatory if notice thereof is served within 20 days of the commencement of the proceeding, are hereby waived for this proceeding inasmuch as the expeditious conduct of business so requires. The provisions of Rule 12(h) which requires leave of the Commission to request admissions of fact and genuineness of documents of the proceeding, is similarly waived;

It is further ordered, That (I) a copy of this order shall forthwith be served on the respondent herein and published in the FEDERAL REGISTER; and (II) the said respondent be duly served with notice of time and place of the hearing.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with Rule 5(1) of the Commission's rules of practice and procedure (14 CFR 502.72) with a copy to all parties to this proceeding.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. CP68-231; Phase II]

TENNESSEE GAS PIPELINE CO., ET AL.

Order Granting Interventions, Prescribing Procedures and Setting Hearing

JULY 27, 1971.

On March 8, 1971, Tennessee Gas Pipeline Co., a division of Tenneco Inc., Columbia Gulf Transmission Co., Bonita Transmission Co., and Columbia Offshore Pipeline Co. filed a third amendment to the original application for certificate of public convenience and necessity. The authorization requested would permit the construction and operation of pipeline and related facilities in the Gulf of Mexico, offshore Louisiana, for the transportation and sale for resale of natural gas and associated liquids from gas fields in the Vermilion Block 255 Field and Eugene Island Block 292 Field, and additional gas from Vermillion Block 272 Field referred to by applicants as the "Blue Water Project". Other facilities indirectly related to the "Blue Water Project" are also included in the proposal.

By order issued March 6, 1969, in Phase I of this Docket, 41 FPC 231, Columbia Gulf Transmission Co. was authorized to construct and operate related onshore facilities. The application by the Columbia Co. to construct the offshore project was designated as Phase II and consideration thereof has been held in abeyance until the present time.

Bonita Transmission Co., presently owned and controlled by Mr. Roy H. Bettis and Mr. Frank S. McGee, proposes to construct, own and lease the "Blue Water Project" facility to Tennessee Gas Pipeline and Columbia Gulf Transmission Co., which will operate and maintain the facilities.

The total estimated cost of all proposed facilities is $44,196,000 which includes $41,592,700 for the facilities covered by the "Blue Water Project" agreement. The total costs including filing fees attributable to Bonita Transmission Company is $39,930,000. Bonita proposes to finance its cost of facilities with a capital structure with approximately 83.3 percent debt and 16.7 percent equity.

The initial capacity of the proposed "Blue Water Project" is 1,083,000 Mcf per day of which 59 percent will be allocated to Tennessee Gas Pipeline Co. and 41 percent to Columbia Gulf Transmission Co.

Pursuant to the letter agreement between Bonita Transmission Co., Columbia Gulf Transmission and Tennessee Gas Pipeline, the lease payments (estimated in the third year of operation at $6,682,000) will consist of Bonita's actual interest expense, depreciation at 5 percent per annum, all of Bonita's Federal income tax, net income to Bonita by prescribed method of computation and other expenses. Based on estimated interest at 9 percent per annum on Bonita's long-term debt, estimated net income to Bonita is $900,170.

Columbia Offshore Pipeline Co. states that it is no longer participating in the project as described in the "Blue Water Project" amendment and requests permission to withdraw as an applicant in this proceeding. Columbia Offshore proposed to construct a 30-inch diameter pipeline to connect these reserves prior to the proposal of Bonita Transmission Co.

Petitions to intervene have been filed by:

Brooklyn Union Gas Co.; Michigan Wisconsin Pipe Line Co.; Public Service Commission of New York; Sea Robin Pipeline Co.; Southern Natural Gas Co.; United Gas Pipe Line Co.

No other petitions to intervene or notice of intervention or protest to the granting of the third amendment to the application have been filed.

At the public hearing to be held in this proceeding, the following subjects, among others, will be explored by the participants in determining whether a certificate of public convenience and necessity shall be issued to the joint applicants:

(1) Whether the proposed "Blue Water Project" owned by Bonita Transmission Co. is more desirable in the public interest than a pipeline connecting the offshore fields owned by the principal pipeline companies here involved;

(2) Whether the proposed 36-inch diameter or a 30-inch diameter pipeline extending approximately 74.5 miles to transport the reserves dedicated in this area to the major transmission companies is required by the public interest;

(3) Whether the terms and conditions of the lease agreement proposed by Bonita Transmission Co. are in the public interest and should be authorized without modification or condition;

The Commission finds:

(1) It is desirable and in the public interest to allow the above-named petitioners to intervene in this proceeding in order that they may establish the facts and the law from which the nature and validity of their alleged rights and interest may be determined and show what further action may be appropriate under these circumstances in the administration of the Natural Gas Act.

(2) The expeditious disposition of this proceeding will be effectuated by providing for service of testimony by applicants and persons in support thereof prior to the convening of formal hearing.

(3) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that a public hearing be held on the issues presented by the pending applications in Docket No. CP68-231 (Phase II) and as identified above herein.

The Commission orders:

(A) Pursuant to the authority conferred on the Federal Power Commission by the Natural Gas Act and the Commission's rules of practice and procedure, a public hearing will be held on August 24, 1971, at 10 a.m. e.d.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, respecting the matters set forth above and more fully by the applications in this docket. Cross-examination of the presentations submitted pursuant to this order by applicants and other persons in support of the applications will commence at the above-stated hearing date. Upon completion of the examination of the case-in-chief in support of the applications, all parties shall be permitted further opportunity to present additional evidence as required so that the complete record may be made on all issues in this proceeding.

(B) A hearing examiner to be hereinafter designated by the Chief Examiner shall preside at the hearing and, in his discretion, shall control the proceedings hereafter.

(C) The applicants, and persons in support of the applications, shall serve prepared evidence in support of the applications, including prepared testimony of witnesses and exhibits, on the Office of Hearing Examiners, the Commission's staff and every party to this proceeding on or before August 16, 1971. Included in such prepared evidence shall be testimony and exhibits relative to the issues and subjects hereinabove mentioned; in addition, Columbia Gas Transmission and Tennessee Gas Pipeline shall submit evidence indicating the economic and financial feasibility of the construction and ownership by such companies, either singularly or jointly, of the abovementioned 30-inch line and 36-inch line.

(D) The petitioners named above are hereby permitted to intervene in this proceeding subject to the Commission's rules and regulations: *Provided, however,* That they shall comply with the terms of this order and that their participation shall be limited to matters affecting rights and interests expressly asserted in the petitions to intervene: *And provided further,* That granting of the petitions to intervene shall not be construed as recognition by the Commission that any intervener might be aggrieved by any orders entered in this proceeding. Persons granted intervention in Phase I in this proceeding (order issued March 6, 1969, 41 FPC 231), are hereby granted the right to continued participation in this proceeding without the necessity of filing further petitions to intervene.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.71-11107 Filed 8-3-71; 8:46 am]

[Docket No. RP72-13]

LOUISIANA-NEVADA TRANSIT CO.

Notice of Proposed Changes in FPC Gas Tariff To Establish Policy Regarding Curtailment of Deliveries

JULY 28, 1971.

Take notice that on May 14, 1971, as supplemented on July 20, 1971, Louisiana-Nevada Transit Co. (Louisiana-Nevada) filed a written report, pursuant to paragraph (A)(2) of the Commission's Order No. 431, issued April 15, 1971, in Docket No. R-418, and tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1, consisting of Fourth Revised Sheet No. 3A and Original Sheet Nos. 3B, 12C, and 12D, to become effective August 19, 1971, in order to establish curtailment procedures which Louisiana-Nevada will employ in the event curtailments of gas deliveries become necessary.

Louisiana-Nevada's report states that because of a critical shortage of gas supply on peak days, it may have to invoke a curtailment program during the 1971-72 heating season. Original Sheet No. 12C would add a new Section 10 to the General Terms and Conditions of its tariff providing that if for any cause whatsoever it is unable to deliver to all its customers all of their natural gas requirements which it is obligated to supply, it will operate its system to the best of its ability to apportion deliveries from the impaired system as described below.

First, deliveries to direct sale customers served under interruptible contracts and interruptible overrun gas delivered to Louisiana-Nevada's sole resale customer will be curtailed proportionately or interrupted entirely to the extent necessary to protect deliveries to customers served under firm contracts. Thereafter, its direct sale customers and one resale customer served under firm contracts shall be entitled to such proportion of the total impaired deliveries from Louisiana-Nevada's pipeline as the maximum daily quantity of gas which Louisiana-Nevada is then obligated to deliver to each such customer bears to the total maximum daily quantities of gas Louisiana-Nevada is then obligated to deliver to all customers affected by such impairment, provided that at such time as it becomes necessary to reduce deliveries below the customer's firm maximum daily quantity which Louisiana-Nevada is obligated to deliver, priority shall be given to deliveries for domestic consumers' use, up to the volume of such firm maximum daily quantity.

Louisiana-Nevada also proposes to add a new section 11 to the General Terms and Conditions of its tariff stating that until it can obtain adequate additional gas supplies, its policy concerning additional requests for gas will be not to add any new firm customers or increase its obligation to deliver additional firm maximum daily quantities to any of its existing customers.

In addition to the foregoing tariff revisions concerning curtailment of deliveries for any reason, Louisiana-Nevada has submitted proposed Fourth Revised Sheet No. 3A Superseding Substitute Third Revised Sheet No. 3A and Original Sheet No. 3B in order to insert three new sections in its Rate Schedule G–1 which would permit Louisiana-Nevada to charge an unauthorized overrun penalty of $10 per Mcf for any gas taken by any buyer in excess of 2 percent of Louisiana-Nevada's maximum daily delivery obligation to such buyer, or 100 Mcf in excess of such delivery obligation, whichever is greater. The proposed overrun sections further state that payment of the overrun penalty will not entitle a buyer to take such excess gas nor be considered a substitute for any other remedies Louisiana-Nevada might employ to curb violations by customers of their contracts or orders issued pursuant to its curtailment procedures contained in the proposed new Section 10 of the General Terms and Conditions of its tariff. In December of each year any amount collected in the form of unauthorized overrun penalties will be proportionately distributed among its customers who would have purchased gas to which they were entitled except for the unauthorized takes by the offending buyer or buyers.

In view of the fact that comments are desirable prior to the requested effective date of August 19, 1971, good cause exists to shorten the notice period with respect to Louisiana-Nevada's filing.

Louisiana-Nevada's report states that copies of its filing have been served on its resale and direct sale customers and on the Arkansas and Louisiana Public Service Commissions.

Any person desiring to be heard or to make any protest with reference to the proposed tariff sheets submitted by Louisiana-Nevada to establish curtailment procedures in response to Order No. 431 should on or before August 9, 1971, file with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to participate as parties in any hearing therein must file petitions to intervene in accordance with the Commission's rules. Louisiana-Nevada's report and proposed tariff sheets, submitted pursuant to Order No. 431, are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.71–11146 Filed 8–3–71;8:48 am]

[Dockets Nos. RP71–11, RP71–58]

TENNESSEE NATURAL GAS LINES, INC.

Notice of Proposed Change in Rates and Charges

JULY 29, 1971.

Take notice that on July 13, 1971, Tennessee Natural Gas Lines, Inc. (Tennessee Natural) tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1, to track increases in purchased gas costs from its supplier, Tennessee Gas Pipeline Co. which are proposed to become effective as of August 1, 1971, in Docket No. RP72–1. The tendered filing designated as 10th Revised Sheet No. 4, is proposed to supersede rates currently in effect subject to further order in Dockets Nos. RP71–11 and RP71–58. The increased rates reflected in the filing are stated to increase Tennessee Natural's revenues from jurisdictional customers by approximately $76,500 per year based on sales volumes realized during the calendar year 1970. The company requests waiver of the rules to permit an effective date of August 1, 1971, coincident with the proposed increase from its supplier.

Any person desiring to be heard or to make protest with reference to said tender should on or before August 13, 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file applications to intervene in accordance with the Commission's rules. The tender is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.71–11147 Filed 8–3–71;8:48 am]

[Docket No. E–7645]

PUBLIC SERVICE COMPANY OF INDIANA

Notice of Proposed Rate Schedule Changes

JULY 29, 1971.

Take notice that on July 9, 1971, the Public Service Company of Indiana (applicant) filed rate schedule changes for wholesale service to municipal utilities and rural electric membership corporations. The changes are proposed to become effective on September 8, 1971.

The new schedules, designated FPC Electric Tariff Original Volume No. 1 (first revision) and REMC–1 will supersede FPC Electric Tariff Original Volume No. 1, and REMC–X and REMC–O. Also, REMC–1 is also proposed to apply to firm power sales to Hoosier Energy Division of Indiana Statewide Rural Electric Cooperative, Inc. (Statewide), on and after March 9, 1974, pursuant to the provisions of Exhibit I of an Interconnection Agreement, dated March 9, 1971, between the United States of America, acting by and through the Administrator of the Rural Electrification Administration, Statewide, Southern Indiana Gas and Electric Company, and the applicant. Concurrently with the new rate schedules, applicant filed a revised Exhibit I to the interconnection agreement amended to include the new rate levels, and requested that the Commission waive the 90 day requirement of § 35.3 of the regulations under the Federal Power Act and permit the revised Exhibit I to become effective as of March 9, 1974.

Applicant states that revised Tariff Volume No. 1 and REMC–1 will provide increases of approximately 1.61 mills per kilowatt hour and 3.66 mills per kilowatt hour, respectively. Applicant further states that these raise the rate of return from 5.24 percent to 7.75 percent for the municipal customers and from 2.29 percent to 7.73 percent for the electric membership corporations.

Applicant requests that in view of the 11.5 percent reduction in its earnings the first 5 months of 1971, the Commission suspend the operation of the proposed rate schedules for only 1 day rather than statutory maximum of 5 months.

Any person desiring to be heard or to make any protest with any reference to said application should on or before August 16, 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission rules of practice and procedure. (18 CFR 1.8 or 1.10.) All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection..

BTNB CORP.

Proposed Acquisition of Cobbs, Allen & Hall Mortgage Co., Inc.

BTNB Corp., Birmingham, Ala., a registered bank holding company, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 222.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Cobbs, Allen & Hall Mortgage Co., Inc., Birmingham, Ala. Notice of the application was published in newspapers and circulated in:

Huntsville, Ala., The Huntsville Times, June 17, 1971.
New Orleans, La., Times-Picayune, June 18, 1971.
Birmingham, Ala., The Birmingham News, June 18, 1971.
Montgomery, Ala., The Montgomery Advertiser, June 18, 1971.
Pensacola, Fla., The Pensacola Journal, June 19, 1971.
Mobile, Ala., The Mobile Register, June 21, 1971.

Applicant states that, upon consummation of its proposal, the proposed subsidiary would engage solely in activities (specifically mortgage lending) already specified by the Board in § 222.4(a)(1) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 222.4(b). The permissibility of such activities in general is not in issue with respect to this application.

The application may be inspected in Room 1020 of the Board's building or at the Federal Reserve Bank of Atlanta.

Interested persons may express their views on the question whether performance of the mortgage banking function by Cobbs, Allen & Hall Mortgage Co., Inc., as an affiliate of Applicant can, as set forth in section 4(c)(8) of the Act "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competi-

tion, conflicts of interests, or unsound banking practices". Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 30, 1971.

Board of Governors of the Federal Reserve System, July 29, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

FIRST UNION NATIONAL BANCORP, INC.

Proposed Acquisition of Reid-McGee & Co.

First Union National Bancorp, Inc., Charlotte, N.C., a bank holding company, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 222.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Reid-McGee & Co., Jackson, Miss. Notice of the application was published in newspapers and circulated in:

Monroe, La., Monroe News Star, June 10, 1971.
Jackson, Miss., The Clarion-Ledger, June 11, 1971.
Gulfport, Miss., The Daily Herald, June 11, 1971.
Greenville, Miss., Delta Democrat Times, June 11, 1971.

Applicant states that, upon consummation of its proposal, the proposed subsidiary would engage solely in activities (specifically mortgage lending) already specified by the Board in § 222.4(a)(1) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 222.4(b). The permissibility of such activities in general is not in issue with respect to this application.

The application may be inspected in Room 1020 of the Board's building or at the Federal Reserve Bank of Richmond.

Interested persons may express their views on the question whether performance of the mortgage banking function by Reid-McGee & Co. as an affiliate of Applicant can, as set forth in section 4(c)(8) of the Act "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices". Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 30, 1971.

Board of Governors of the Federal Reserve System, July 28, 1971.

KENNETH A. KENYON,
Deputy Secretary.

NATIONAL ADVISORY COMMITTEE ON OCCUPATIONAL SAFETY AND HEALTH

OCCUPATIONAL SAFETY AND HEALTH

Notice of Meeting Open to the Public

Advice, consultations, and recommendations under the Williams-Steiger Occupational Safety and Health Act of 1970.

Notice is hereby given that the first meeting of the newly appointed National Advisory Committee on Occupational Safety and Health will commence at 9 a.m., on August 11, 1971, in Conference Room 102 A, B, C, and D of the Department of Labor building, 14th and Constitution Avenue NW., Washington, D.C.

The National Advisory Committee on Occupational Safety and Health is established under section 7(a) of the Williams-Steiger Occupational Safety and Health Act (29 U.S.C. 656). The Committee is directed to advise, consult with, and make recommendations to the Secretary of Labor and the Secretary of Health, Education, and Welfare on matters relating to the administration of the Act.

The meeting of the Committee shall be open to the public. A verbatim transcript shall be kept. The transcript shall be available for public inspection and copying at the office of the Committee's Executive Secretary, which is located in Room 1064, 1726 M Street NW., Washington, D.C. Copies may also be obtained by making arrangements at the meeting with the Executive Secretary. If copies are subsequently requested, the applicants shall be referred to the reporting service.

Signed at Washington, D.C., this 28th day of July 1971.

ROGER N. GRANT,
Executive Secretary.

NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

JULY 30, 1971.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's Rules of Practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

State Docket No. 24953 (Sub-No. 1), filed May 4, 1971. Applicant: BRUCE BROWN, 2119 Dublin Road, Oklahoma City, OK. Applicant's representative: Glen Ham, Box 198, Pauls Valley, OK. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *General commodities*, over the following route: Oklahoma City to Watonga via Highways 3, 81, and 33 to Thomas via Highway 33 to Custer City via Highway 33 to Arapaho via Highways 33 and 183 to Clinton via Highway 183 to Weatherford via Highway 66 to Oklahoma City via Highway 66; with Burns Flat as off route point. Applicant proposes to serve the towns of Oklahoma City, Watonga, Thomas, Custer City, Arapaho, Clinton, Weatherford, with Burns Flat as off route point; and with terminals at Oklahoma City and Clinton with no towns to be passed through and not served. The total mileage of above route is 242 miles with daily arrivals and departures in the a.m., from Clinton terminal and in the p.m. from the Oklahoma City terminal. Both intrastate and interstate authority sought.

HEARING: August 9, 1971, at Corporation Commission Court Room, Jim Thorpe Building, State Capitol, Oklahoma City, Okla. Requests for procedural information including the time for filing protests concerning this application should be addressed to Corporation Commission of Oklahoma, Jim Thorpe Building, State Capitol, Oklahoma City, Okla., and should not be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 21]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JULY 30, 1971.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PASSENGERS

No. MC-1515 (Deviation No. 590) (Cancels Deviation No. 437), GREYHOUND LINES, INC. (Eastern Division), 1400 West Third Street, Cleveland, OH 44113, filed July 22, 1971. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over deviation route as follows: (1) From Chattanooga, Tenn., over Interstate Highway 24 to junction Interstate Highway 59, thence over Interstate Highway 59 to junction U.S. Highway 11 at Argo, Ala., with the following access roads: (a) From Fort Payne, Ala., over Alabama Highway 35 to junction Interstate Highway 59, (b) from Collinsville, Ala., over Alabama Highway 68 to junction Interstate Highway 59, and (c) from Asheville, Ala., over U.S. Highway 231 to junction Interstate Highway 59, and (2) from Bessemer, Ala., over Interstate Highway 59 to junction Alabama Highway 19, thence over Alabama Highway 19 to junction U.S. Highway 11 at Boligee, Ala., with the following access roads: (a) From Tuscaloosa, Ala., over U.S. Highway 82 to junction Interstate Highway 59, and (b) from Eutaw, Ala., over Alabama Highway 14 to junction Interstate Highway 59, and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over pertinent service routes as follows: (a) From Murfreesboro, Tenn., over U.S. Highway 41 to Chattanooga, Tenn., thence over U.S. Highway 11 to Attalla, Ala., thence over U.S. Highway 411 to Asheville, Ala., thence over Alabama Highway 23 to Springville, Ala., thence over U.S. Highway 11 to Birmingham, Ala. (also from Attalla over U.S. Highway 11 to Springville), and (2) from Birmingham, Ala., over U.S. Highway 11 via Bucksville and Box Springs, Ala., to New Orleans, La., and return over the same routes.

No. MC-2890 (Deviation No. 86), AMERICAN BUSLINES, INC., 1501 South Central Avenue, Los Angeles, CA 90021, filed July 20, 1971. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passegers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over a deviation route as follows: From junction Interstate Highway 80 and Interstate Highway 880 east of Sacramento, Calif., over Interstate Highway 880 to junction Interstate Highway 80 west of Sacramento, Calif., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From Salt Lake City, Utah, over U.S. Highway 40 (portion now Interstate Highway 80) via Reno, Nev., and Roseville, Calif., to junction unnumbered highway near Fairfield, Calif., and return over the same route.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.71-1164 Filed 8-3-71;8:50 am]

[Notice No. 26]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JULY 30, 1971.

The following letter-notices of proposals to operate other deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969 (49 CFR 1042.4(d)(11)), and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(d)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(d)(12)), at any time, but will not operate to say commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices, by number.

MOTOR CARRIERS OF PROPERTY

No. MC-45657 (Deviation No. 11), PIC-WALSH FREIGHT CO., 731 Campbell Avenue, St. Louis, MO 63147, filed July 20, 1971. Carrier's representative: G. M. Rodman, Suite 1230, Boatmen's Bank Building, St. Louis, Mo. 63102. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Cincinnati, Ohio, over Interstate Highway 71 to Louisville, Ky., thence over Interstate Highway 65 to Nashville, Tenn., thence over Interstate Highway 40 to Memphis, Tenn., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent regular routes as follows: (1) From Cincinnati, Ohio, over Ohio Highway 264 to junction U.S. Highway 50, thence over U.S. Highway 50 to East St. Louis, Ill., thence over Illinois Highway 3 to junction Illinois Highway 146, thence over Illinois Highway 146 and the Mississippi River bridge to Cape Girardeau, Mo., thence over U.S. Highway 61 to junction U.S. Highway 60 near Sikeston, Mo., thence over U.S. Highway 60 to Dexter, Mo., thence over Missouri Highway 25 to junction Missouri Highway 84 (formerly Missouri Highway 25), thence over Missouri Highway 84 via Kennett, Mo., to junction County Highway EE, thence over County Highway EE to junction Missouri Highway 25, thence over Missouri Highway 25 to the Missouri-Arkansas State line, thence over Arkansas Highway 25 via Paragould, Ark., to junction Arkansas Highway 1, thence over Arkansas Highway 1 to Jonesboro, Ark., thence over Arkansas Highway 1 (formerly U.S. Highway 63) to junction U.S. Highway 63, thence over U.S. Highway 63 to junction unnumbered highway (formerly U.S. Highway 63), thence over unnumbered highway to junction U.S. Highway 63, thence over U.S. Highway 63 to junction unnumbered highway (formerly U.S. Highway 61), thence over unnumbered highway to junction U.S. Highway 63 (formerly U.S. Highway 61), thence over U.S. Highway 63 to West Memphis, Ark., thence over U.S. Highway 70 to Memphis, Tenn., and (2) from Memphis, Tenn., over U.S. Highway 51 to junction Illinois Highway 37, thence over Illinois Highway 37 to Salem, Ill., and return over the same routes.

By the Commission.

[Notice 340]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 30, 1971.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 21455 (Sub-No. 22 TA) (Correction), filed June 10, 1971, published FEDERAL REGISTER, issues June 22, 1971, and July 2, 1971, respectively, corrected and republished as corrected this issue. Applicant: GENE MITCHELL CO., 1106 Division Street, West Liberty, IA 52776. Applicant's representative: Kenneth F. Dudley, Post Office Box 279, Ottumwa, IA 52501. NOTE: The purpose of this partial republication is to reflect the correct *MC No. 21455 Sub-22 TA*, in lieu of MC 21445 Sub-No. 22 TA, shown erroneously in previous publication. The rest of the notice remains the same.

No. MC 26377 (Sub-No. 15 TA), filed July 22, 1971. Applicant: LEONARDO TRUCK LINES, INC., 511 South First Street, Selah, WA 98942. Applicant's representative: David C. White, Farley Building, 2400 Southwest Fourth Avenue, Portland, OR 97201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas and agricultural commodities*, otherwise exempt from economic regulation under section 203(b)(6) of the Interstate Commerce Act, when moving in mixed shipments with bananas, from Los Angeles and Long Beach, Calif., and Seattle, Wash., to ports of entry on the international boundary line between the United States and Canada in Washington and Idaho, for 180 days. Supporting shippers: Slade and Steward, Ltd., Post Office Box 3687, Seattle, WA 98124.; Vance Bros., Ltd., Post Office Box 500, Trail, BC, Canada. Send protests to: District Supervisor W. J. Huetig, Interstate Commerce Commission, Bureau of Operations, 450 Multnomah Building, 319 Southwest Pine Street, Portland, OR 97204.

No. MC 31600 (Sub-No. 653 TA), filed July 22, 1971. Applicant: P. B. MUTRIE MOTOR TRANSPORTATION, INC., Calvary Street, Waltham, MA 02154. Applicant's representative: Frank Hand (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal feed ingredients*, dry, in bulk, in tank vehicles, from Chicago, Ill., to Woburn, Mass., for 150 days. Supporting shipper: Lipton Pet Foods, Inc., Box 89, 209 New Boston Street, Woburn, MA 01801. Send protests to: James F. Martin, Jr., Assistant Regional Director, Interstate Commerce Commission, Bureau of Operations, John F. Kennedy Building, Government Center, Boston, Mass. 02203.

No. MC 52014 (Sub-No. 1 TA), filed July 22, 1971. Applicant: LAFAYETTE STORAGE AND MOVING CORPORATION, Sheldon and West Drullard Streets, Lancaster, NY 14086, 285 Lathrop Street, Buffalo, NY 14211. Applicant's representative: Thomas J. Runfola,, 631 Niagara Street, Buffalo, NY 14201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Uncrated new furniture and applicances, and returned and rejected shipments moving in shipper-owned containers*, between points in Erie County, N.Y., and points in Erie County, Pa., for 150 days. Supporting shipper: W. T. Grant Co., 1441 Broadway, New York, NY. Send protests to: George M. Parker, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 518 Federal Office Building, 121 Ellicott Street, Buffalo, NY 14203.

No. MC 56244 (Sub-No. 27 TA) (Correction), filed June 18, 1971, published FEDERAL REGISTER, July 1, 1971, corrected and republished in part as corrected this issue. Applicant: KUHN TRANSPORTATION COMPANY, INC., Route No. 2, Box 71, Gardners, PA 17324. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, PA 17101. NOTE: The purpose of this partial republication is to include points in Missouri, Iowa, Illinois, Indiana, and Kentucky as destination points, which were inadvertently omitted in previous publication. The rest of the notice remains the same.

No. MC 60607 (Sub-No. 1 TA), filed July 22, 1971. Applicant: NEW BELL STORAGE CORPORATION, Post Office Box 2140, Office: 3489 West Minster Avenue (23504), Norfolk, VA 23501. Applicant's representative: Robert J. Gallagher, 1776 Broadway, New York, NY 10019. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in North Carolina, South Carolina, Virginia, Maryland, Delaware, and the District of Columbia. Restriction: The service authorized herein is restricted to the transportation of traffic having a prior or subsequent movement, in containers, beyond the points authorized, for 180 days. Supporting shippers: Getz Bros. & Co. (U.S.), 640 Sacramento Street, San Francisco, CA 94111; International Export Packers, Inc., 5340 Eisenhower Avenue, Alexandria, VA 22304; Jet Forwarding, Inc., 200 West Central Avenue, Santa Ana, CA 92707; Home Pack Transport, Inc., 57–48 49th Street, Maspeth, NY 11378; MC&D Moving and Storage Co., Inc., 321 Valencia Street, San Francisco, CA 94103; Asiatic Forwarders, Inc., 335 Valencia Street, San Francisco, CA 94103; Smyth Worldwide Movers, Inc., 11616 Aurora Avenue North, Seattle, WA 98133. Send protests to: R. W. Waldron, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 10–502 Federal Building, Richmond, Va. 23240.

No. MC 76032 (Sub-No. 285 TA) (Correction), filed July 12, 1971, published FEDERAL REGISTER, July 23, 1971, corrected and republished in part as corrected this issue. Applicant: NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver, CO 80223. Applicant's representative: David N. Inwood (same address as above). NOTE: The purpose of this partial republication is to include the tacking possibilities. Applicant states requested authority can be tacked with applicant's presently existing authority, but applicant has no present intention to tack and therefore cannot identify points or territories which can be served through tacking. The rest of the notice remains the same.

No. MC 82492 (Sub-No. 56 TA), filed July 22, 1971. Applicant: MICHIGAN & NEBRASKA TRANSIT CO., INC., 2109 Olmstead Road, Post Office Box 2853, Kalamazoo, MI 49003. Applicant's representative: William C. Harris (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from the plantsite of Tama Corp., near Tama, Iowa, to points in Illinois, Indiana, Michigan, Minnesota, Missouri, Nebraska, Ohio, and Wisconsin, for 180 days. Supporting shipper: Fred Shove, President, Tama Corp., Tama, Iowa 52339. Send protests to: C. R. Flemming, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 225 Federal Building, Lansing, Mich. 48933.

No. MC 107295 (Sub-No. 539 TA), filed July 22, 1971. Applicant: PRE-FAB TRANSIT CO., Post Office Box 146, 100 South Main Street, Farmer City, IL 61842. Applicant's representative: Bruce J. Kinnee (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wallboard, fiberboard, plastic sheeting, wall and ceiling panels, tile, molding, and materials and accessories required for the installation thereof* (except commodities in bulk), from Lodi, N.J., to points in Ohio, Kentucky, Louisiana, and Texas, for 180 days. Supporting Shipper: Larry Kurnentz, Traffic Manager, Barclay Industries, Inc., 65 Industrial Road, Lodi, NJ 07644. Send protests to: Harold C. Jolliff, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 325 West Adams Street, Room 476, Springfield, IL 62704.

No. MC 107496 (Sub-No. 817 TA), filed July 22, 1971. Applicant: RUAN TRANSPORT CORPORATION, Keosauqua Way at Third Street, Post Office Box 855 (50304), Des Moines, IA 50309. Applicant's representative: Henry L. Fabritz (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk, in tank vehicles, having prior movement by

rail or barge, from Winona, Minn., to points in Minnesota and Wisconsin, for 150 days. Supporting shipper: Dewey Portland Cement Co., a division of Martin Marietta, 802 Kahn Building, Davenport, Iowa 52808. Send protests to: Ellis L. Annett, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 677 Federal Building, Des Moines, Iowa 50309.

No. MC 107515 (Sub-No. 762 TA), filed July 22, 1971. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 308, 3901 Jonesboro Road SE., Forest Park, GA 30050. Applicant's representative: Alan E. Serby, Suite 1600, First Federal Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, from Sabetha, Kans., and Norfolk, Nebr., to points in Georgia, and Florida, for 150 days. Supporting shipper: Breakstone Sugar Creek Foods, 450 East Illinois Street, Chicago, IL 60611. Send protests to: William L. Scroogs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 309, 1252 West Peachtree Street NW., Atlanta, GA 30309.

No. MC 108241 (Sub-No. 7 TA), filed July 21, 1971. Applicant: BARROWS TRANSFER & STORAGE COMPANY, Armory Road, Post Office Box 560, Waterville, ME 04901. Applicant's representative: Arthur E. Finger, Jr., 30 Boylston Street, Cambridge, MA 02138. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in Maine, for 100 days. NOTE: Applicant states it is my opinion that tacking is not applicable due to the nature of authority sought. Supporting shipper: Department of the Army, Office of the Judge Advocate General, Washington, D.C. 20310. Send protests to: Donald G. Weiler, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 307, 76 Pearl Street, Post Office Box 167, PSS, Portland, ME 04112.

No. MC 113024 (Sub-No. 114 TA), filed July 22, 1971. Applicant: ARLINGTON J. WILLIAMS, INC., Rural Delivery No. 2, South DuPont Highway, Smyrna, Del. 19977. Applicant's representative: Samuel W. Earnshaw, 833 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Rubber hose and materials, and materials and supplies*, except commodities in bulk, used in the manufacture thereof, between Wilmington, Del., on the one hand, and points in Allen, Huntington, and Kosciusko Counties, Ind., Jefferson County, Ky., and Franklin, Lake, Paulding, and Van Wert Counties, Ohio, on the other. The above to be performed under a continuing contract or contracts with Electric Hose & Rubber Co., Wilmington, Del., for 180 days. Supporting shipper: F. H. Evick, Traffic Manager, Electric Hose & Rubber Co., Post Office Box 910, Wilmington, DE 19899. Send protests to: Paul J. Lowry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 227 Old Post Office Building, Salisbury, MD 21801.

No. MC 116947 (Sub-No. 18 TA), filed July 22, 1971. Applicant: HUGH H. SCOTT, doing business as SCOTT TRANSFER CO., 920 Ashby Street SW., Atlanta, GA 30310. Applicant's representative: William Addams, 1776 Peachtree Street NW., Atlanta, GA 30309. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Metal containers, metal container ends and crowns, wooden pallets, and parts and accessories* used in the distribution of the above named commodities, from Fruitland, Md., to Atlanta and Tucker, Ga., and Wilson, N.C., for 150 days. Supporting shipper: Crown Cork and Seal Co., Inc., 9300 Ashton Road, Philadelphia, PA 19136. Send protests to: William L. Scroogs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 309, 1252 West Peachtree Street NW., Atlanta, GA 30309.

No. MC 123325 (Sub-No. 9 TA), filed July 22, 1971. Applicant: WRIGHT MOTOR LINES, INC., 24 Pisgah View Avenue, Asheville, NC 28803. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated houses, buildings, and parts thereof*, from Fletcher, N.C., to points in the United States, except Alaska and Hawaii, for 180 days. Supporting shipper: Carolina Log Buildings, Inc., Post Office Box 368, Fletcher, NC. Send protests to: District Supervisor, Interstate Commerce Commission, Bureau of Operations, 316 East Morehead, Suite 417 (BSR Bldg.), Charlotte, NC 28202.

No. MC 128273 (Sub-No. 101 TA) (Correction), filed June 30, 1971, published FEDERAL REGISTER, issue of July 16, 1971, and republished as corrected this issue. Applicant: MIDWESTERN EXPRESS, INC., Post Office Box 189, 121 Humboldt Street, Fort Scott, KS 66701. Applicant's representative: Harry Ross, 848 Warner Building, Washington, D.C. 20004. NOTE: The purpose of this republication is to show the correct name of the supporting shipper, in lieu of others that were shown in error. Supporting shipper: The Mead Corp., Talbott Tower, Dayton, Ohio 45402. This notice also shows the name of applicant's representative which was omitted from previous publication. The rest of the notice of filing remains as previously published.

No. MC 129830 (Sub-No. 3 TA), filed July 22, 1971. Applicant: JACOBSMA TRANSPORTATION COMPANY, 108 South Virginia Street, Sioux City, IA 51101. Applicant's representative: Patrick E. Quinn, Post Office Box 82028, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum casting, and iron and steel articles* as defined in Appendix V to the report in *Descriptions in Motor Carrier Certificates* 61 M.C.C. 209 (1952), from the plantsite and warehouse facilities of State Steel Supply Co. at or near Sioux City, Iowa to points in Iowa, Minnesota, Kansas, Nebraska, South Dakota, North Dakota, and Missouri, for 180 days. Supporting shipper: State Steel Supply Co., 214 Court Street, Sioux City, IA 51101. Send protests to: Carroll Russell, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 304 Post Office Building, Sioux City, Iowa 51101.

No. MC 134286 (Sub-No. 11 TA), filed July 22, 1971. Applicant: ARCTIC TRANSPORT, INC., 1005 West South Omaha Bridge Road, Council Bluffs, IA 51501. Applicant's representative: Charles J. Kinball, Post Office Box 82028, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen food*, from the plantsite and storage facilities of Platte Valley Foods at Wahoo, Nebr., to points in Arkansas, Alabama, Connecticut, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Massachusetts, Michigan, Missouri, New York, New Jersey, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia, Maryland, Wisconsin, and Minnesota, for 180 days. Supporting shipper: Platte Valley Foods, Wahoo, Nebr. 68066. Send protests to: Carroll Russell, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 705 Federal Office Building, Omaha, Nebr. 68102.

No. MC 134430 (Sub-No. 1 TA), filed July 22, 1971. Applicant: RICHARD LONG SYSCUE, Route 1, Box 3, Kelford, N.C. 27847. Applicant's representative: John R. Jenkins, Jr., Post Office Box 187, Aulander, NC. 27805. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wood residuals* (woodbark, wood chips, wood shavings, wood sawdust), from Franklin, Va., to Moncure, N.C., for 180 days. Supporting shipper: Union Camp Corp., 1600 Valley Road, Wayne, NJ 07070. Send protests to: Archie W. Andrews, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Post Office Box 26896, Raleigh, NC 27611.

No. MC 134806 (Sub-No. 2 TA), filed July 22, 1971. Applicant: B–D–R TRANSPORT, INC., Post Office Box 813, Brattleboro, VT 05301. Applicant's representative: Francis J. Ortman, 1100 17th Street NW., Suite 613, Washington, DC 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Tanned leather*, from points in San Francisco, Alameda, Napa, Solano, San Mateo, and Santa Cruz Counties, Calif., to points in Maine, New Hampshire, Massachusetts, and New York, for 180 days. Supporting shipper: West Coast Tanners Production Club, Post Office Box 1120, Santa Cruz, CA 95060. Send protests to: Martin P. Monaghan, Jr., District Supervisor, Interstate Commerce, Commission, Bureau

of Operations, 52 State Street, Room 5, Montpelier, VT 05602.

No. MC 135234 (Sub-No. 2 TA), filed July 22, 1971. Applicant: FRANK C. DODGE, JR., 618 Maywood Avenue, Schenectady, NY 12303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crushed motor vehicles and component parts thereof*, from points in Albany, Columbia, Dutchess, Fulton, Greene, Montgomery, Orange, Rensselaer, Saratoga, Ulster, Schenectady, and Washington Counties, N.Y., to Boston, Mass., Champlain N.Y., New Haven, Conn., and Providence, R.I. and from points in Dutchess, Fulton, Montgomery, Orange, and Ulster Counties, N.Y., to Lewiston, N.Y., and Jersey City, N.J., for 150 days. Supporting shipper: Barbata's Auto Parts, 1892 Central Avenue, Albany, NY. Send Protests to: Charles F. Jacobs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 518 Federal Building, Albany, N.Y. 12207.

No. MC 135705 AT (CORRECTION), filed June 18, 1971, published FEDERAL REGISTER, July 1, 1971, corrected and republished in part as corrected this issue. Applicant: LELAND L. MELROSE, doing business as MELROSE TRUCKING COMPANY, Post Office Box 6360, Casper, WY 82601. Applicant's representative: Max F. Parrish, Center at Second, Pocatello, ID 83201. NOTE: The purpose of this partial republication is to reflect that applicant intends to *interline* with railroad carriers at railroad siding near Casper and Douglas, Wyo. The rest of the notice remains the same.

No. MC 135706 (Sub-No. 1 TA), filed July 21, 1971. Applicant: AAA CONTRACTING COMPANY, 2634 North Foster Drive, Baton Rouge, LA 70805. Applicant's representative: Bryan E. Bush, Jr., 610 Reymond Building, Baton Rouge, La. 70801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bauxite*, in bulk, from Sharp Station, Baton Rouge, La., to Burnside Terminal Co., Burnside, La., with a subsequent movement by water, for 180 days. Supporting shipper: Burnside Terminal Co., division of Leonard J. Buck, Inc., Burnside, La. 70738. Send protests to: Paul D. Collins, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room T–4009, Federal Building, 701 Loyola Avenue, New Orleans, LA 70113.

No. MC 135787 TA, filed July 21, 1971. Applicant: TENNANT & PIERCE TRUCKING, INC., 7450 Northeast 122d, Kirkland, WA 98133. Applicant's representative: George R. LaBissoniere, 1424 Washington Building, Seattle, Wash. 98101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Plumbing and heating fixtures, equipment, supplies, and accessories*, from San Pablo, Montebello, Torrance, and city of Industry, Calif., to points in Oregon on and west of U.S. 97 and points in Washington, under contract with American Standard, Inc., for 180 days. Supporting shippers: American Standard, Post Office Box 2003, New Brunswick, NJ 08903; Johnson's Wholesale Plumbing, Inc., Post Office Box 3025, Seattle, WA 98114. Send protests to: E. J. Casey, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 6130 Arcade Building, Seattle, Wash. 98101.

No. MC 135794 TA, filed July 22, 1971. Applicant: ROBERT G. SCHNUCKLE, doing business as B & B TRUCKING, 2101 West Fifth Street, Duluth, MN 55806. Applicant's representative: Steven J. Seiler, 811 First American National Bank Building, Duluth, Minn. 55802. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by retail department stores and mail order houses, between the facilities of Montgomery Ward & Co. at Duluth, Minn., and Superior, Wis., on the one hand, and, on the other, to points in Douglas, Bayfield, Burnett, Sawyer and Washburn Counties, Wis., for 180 days. Supporting shipper: Montgomery Ward & Co., Duluth, Minn. Send protests to: District Supervisor Raymond T. Jones, Interstate Commerce Commission, Bureau of Operations, 448 Federal Building and U.S. Courthouse, 110 South Fourth Street, Minneapolis, MN 55401.

No. MC 135795 TA, filed July 22, 1971. Applicant: WILLIAM J. JAMES, doing business as BILL JAMES, 541 Willow Lane, Hereford, TX 79045. Applicant's representative: Bill James (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Dry animal and poultry feeds*, from Hereford, Tex., to points in Oklahoma and New Mexico, under a continuing contract with Moorman Manufacturing Co., for 180 days. Supporting shipper: Arnold L. Walter, Traffic Manager, Moorman Manufacturing Co., 1000 North 30th Street, Quincy, IL 62301. Send protests to: Haskell E. Ballard, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room H–4395, Herring Plaza, Amarillo, Tex. 79101.

No. MC 135796 TA, filed July 22, 1971. Applicant: ASSELIN TRANSPORT LTEE, 263 106th Avenue, Laviolette County, St.-Georges de Champlain, PQ, Canada. Applicant's representative: Adrien R. Paquette, 200, rue St-Jacques, Suite 1010, Montreal 126, PQ, Canada. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lumber*, from the ports of entry between the international boundary line at or near Champlain, N.Y., Derby Line, Vt., to Norton, Vt.; Ashland, Maine, and to Ticonderoga, Tonawanda, and Amityville, N.Y.; Orleans, Bellows Falls, Brattleboro, Bennington, Randolph, and Newport, Vt., Athol, Baldwinville, Boston, Gardner, Tewksbury, Winchendon, and Clinton, Mass.; Roxbury, Conn.; Suncook and Merriwack, N.H., and Beecher Falls, Vt. Restrictions: The operations authorized above are limited to a transportation service originating from Beaumont and points within a radius of 100 miles, St-Rock-de-Mekinac, Ste-Thecle, and St-Georges-de-Champlain in Laviolette County, Province of Quebec, Canada; (2) *concrete porous pipes*, from international boundary line at or near Derby Line, Vt., to points in Massachusetts, Rhode Island, and Connecticut, returned with special equipment for transportation of material used in connection with outbound traffic. Restrictions: The operations authorized above are limited to a transportation service originating from St-Georges-de-Champlain, Laviolette County, Province of Quebec, Canada; and (3) *canoes, boats, and accessories*, from the international boundary line at or near Trout River to Maline, N.Y., returned with special equipment for transportation of material used in connection with outbound traffic. Restrictions: The operations authorized above are limited to a transportation service originating from Grand'Mere, Laviolette County, Province of Quebec, Canada, for 150 days. Supporting shippers: St-Maurice Hardwood, Inc., Garneau Junction, Laviolette County, Province of Quebec, Canada; Groleau, Inc., Ste-Thecle, P.Q., Canada; Interprovincial Lumber Co., Inc., La Tuque, P.Q., Canada; Gelinite, Inc., St-Georges de Champlain, P.Q., Canada; and Canots Cadorette Canoes, Inc., Grand'Mere, P.Q., Canada. Send protests to: Martin P. Monaghan, Jr., District Supervisor, Interstate Commerce Commission, Bureau of Operations, 52 State Street, Room 5, Montpelier, VT 05602.

By the Commission.

[Notice 61]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

JULY 30, 1971.

The following publications are governed by the new Special Rule 247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 66886 (Sub-No. 16) (Republication), filed March 23, 1970, published in the FEDERAL REGISTER, issue of April 16, 1970, and republished this issue. Applicant: BELGER CARTAGE SERVICE, INC., 2100 Walnut Street, Kansas City, MO 64108. Applicant's representative: Frank W. Taylor, Jr., 1221 Baltimore Avenue, Kansas City, MO 64105. A report and order of the Commission, Division 1,

Acting as an Appellate Division, decided July 6, 1971, and served July 13, 1971, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of (1) tractors, and (2) accessories, attachments, and parts of tractors when moving in connection therewith, from the plantsite and storage facilities of the Daybrook-Ottawa Division, Gulf & Western Metal Forming Co., at Ottawa, Kans., to points in the United States (except Alaska and Hawaii), restricted to the transportation of traffic originating at the above-named plantsite and storage facilities; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; that a certificate authorizing such operation should be granted, subject to the condition that the grant of authority to applicant herein, and the existing authority of applicant that it duplicates, shall be construed as conferring only a single operating right. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition or other pleading setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 111545 (Sub-No. 125) (Republication), filed November 3, 1969, published in the FEDERAL REGISTER, issue of December 11, 1969, and republished this issue. Applicant: HOME TRANSPORTATION COMPANY, INC., Post Office Box 6426, Station A, Marietta, GA 30060. Applicant's representative: Robert E. Born, 1425 Franklin Road SE., Marietta, GA 30060. A report and order of the Commission, Division 1, Acting as an Appellate Division, decided July 6, 1971, and served July 13, 1971, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of (1) tractors, and (2) accessories, attachments, and parts of tractors when moving in connection therewith, from the plantsite and storage facilities of the Daybrook-Ottawa Division, Gulf & Western Metal Forming Co., at Ottawa, Kans., to points in the United States (except Alaska and Hawaii), restricted to the transportation of traffic originating at the above-named plantsite and storage facilities; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; that a certificate authorizing such operation should be granted, subject to the condition that the grant of authority to applicant herein, and the existing authority of applicant that it duplicates, shall be construed as conferring only a single operating right. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings, a notice of the authority actually granted will be published in the FEDERAL REGISTER and the issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition or other pleading setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 125771 (Sub-No. 6) (Republication), filed October 26, 1970, published in the FEDERAL REGISTER, issue of November 26, 1970, and republished this issue. Applicant: CAYUGA SERVICE, INC., Post Office Box 74, South Lansing, NY 48901. Applicant's representative: E. Stephen Heisley, 705 McLachlen Bank Building, 666 11th Street NW., Washington, DC 20001. An order of the Commission, Review Board No. 3, dated July 15, 1971, and served July 27, 1971, finds: That operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of salt products: (1) From the facilities of Cayuga Rock Salt Co., Inc., at or near South Lansing, N.Y., to points in New Jersey, Connecticut, Massachusetts, and Vermont; (2) from points in Coxsackie Township, Green County, N.Y., to points in New Jersey, New York, Connecticut, Massachusetts, and Vermont; (3) from Schenectady and Delanson, N.Y., to points in Connecticut, New York, Massachusetts, and Vermont; (4) from Castleton, Vt., to points in Massachusetts, Vermont, New Hampshire, and New York; and (5) from Warwick Township, N.Y., to points in Connecticut, Pennsylvania, and New Jersey (except points in Cumberland, Salem, Gloucester, Cape May, Atlantic, Camden, and Burlington Counties, N.J.) under a continuing contract or contracts with (1) Cayuga Rock Salt Co., Inc., of Myers, N.Y., (2) Highway Materials, Co., Inc., of South Lansing, N.Y., and (3) Yankee Salt Corp., of Castleton, Vt., respectively, will be consistent with the public interest and the national transportation policy. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 134153 (Sub-No. 1) (Republication), filed July 21, 1970, published in the FEDERAL REGISTER, issue of August 27, 1970, and republished this issue. Applicant: JOSEPH O. DICKERSON, Jr., AND JOSEPH O. DICKERSON, Sr., a partnership, doing business as D & D TRANSPORTATION COMPANY, 1415 Park Boulevard, Camden, NJ 08103. Applicant's representative: Robert D. Stair, 71 Knox Boulevard, Marlton, NJ 08053. A report and order of the Commission, Review Board No. 4, decided July 1, 1971, and served July 27, 1971, finds: That operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of steel articles from Philadelphia, Pa., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virgina, and the District of Columbia, under a continuing contract or contracts with Bayou, Ltd., of Pennsauken, N.J., will be consistent with the public interest and the national transportation policy. Because it is possible that other persons who may have relied upon the notice of the application as published in the FEDERAL REGISTER may have an interest in and would be prejudiced by the lack of proper notice, a notice of the authority actually granted applicant will be published in the FEDERAL REGISTER and issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

NOTICE OF FILING OF PETITIONS

No. MC 95540 (Sub-No. 565) (Notice of Filing of Petition To Modify), filed July 16, 1971. Petitioner: WATKINS MOTOR LINES, INC., Lakeland, Fla. Petitioner's representative: Clyde W. Carver, Suite 527, 1776 Peachtree Street NW., Atlanta, GA 30309. Petitioner holds authority in No. MC 95540 (Sub-No. 565), to perform transportation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of: *Canned lemon juice*, in vehicles equipped with mechanical refrigeration, from Covina, Fresno, and Los Angeles, Calif., to points in Mississippi, Tennessee, Florida, Georgia, Alabama, North Carolina, and South Carolina, with no transportation for compensation on return except as otherwise authorized; *frozen foods and canned goods*, in vehicles equipped with mechanical refrigeration, from Mesa, Ariz., to points in Georgia, Florida, Alabama, and South Carolina, with no transportation for compensation on return except as otherwise authorized; *canned whipping cream and topping*, in vehicles equipped with mechanical refrigeration, from Gustine, Calif., to points in Mississippi, Tennessee, Georgia, Florida, Alabama, North Carolina, South Carolina, with no transportation for compensation on return except as otherwise authorized; *citrus products*, frozen and nonfrozen in vehicles equipped with mechanical refrigeration, from Ontario and Corona, Calif., to points in North Carolina, South Carolina, Georgia, Florida, Alabama (except Mobile), and Tennessee (except Memphis), with no transportation for compensation on return except as otherwise authorized; *canned fish*, in vehicles equipped with mechanical refrigeration, from Los Angeles, Calif., to points in North Carolina, South Carolina, Alabama, Florida, and Georgia (except points in Bartow, Catoosa, Chattooga, Cherokee, Cobb, Fannin, Floyd, Gilmer, Gordon, Haralson, Murray, Paulding, Pickens, Polk, Walker, and Whitfield Counties, Ga.), with no transportation for compensation on return except as otherwise authorized; and *fresh fruit and fresh vegetables*, in vehicles equipped with mechanical refrigeration, when moving in the same vehicle and at the same time as commodities the transportation of which is subject to economic regulation under part II of the Interstate Commerce Act, from points in California and Litchfield Park, Ariz., to points in Mississippi, Tennessee, Georgia, Florida, Alabama, North Carolina, and South Carolina, with no transportation for compensation on return except as otherwise authorized. The purpose of this petition, is to request that the commodity description "Canned whipping cream and topping", be modified to "Foodstuffs", and to request that the restrictive language, ". . . , in vehicles equipped with mechanical refrigeration, . . .", be eliminated from each of the six granting paragraphs. Any interested person desiring to participate may file an original and six copies of his written representations, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 116810 and No. MC 116810 (Sub-No. 4) (Notice of Filing of Petition for Alternate Gateways and Elimination of Gateways), filed June 23, 1971. Petitioner: BAIR TRANSPORT, INC., Riverside, N.J. Petitioner's representative: Kenneth R. Davis, 999 Union Street, Taylor, PA 18517. Petitioner is authorized in No. MC 116810 to transport: *General commodities*, except those of unusual value, classes A and B explosives, liquor, commodities in bulk, household goods as defined by the Commission, commodities requiring special equipment, and those injurious or contaminating to other lading, between Philadelphia, Pa., and New York, N.Y., serving all intermediate points, and serving the off-route points of Riverside, N.J., those in New Jersey within 25 miles of Riverside, N.J., those in New Jersey within 25 miles of Newark, N.J., and New Brunswick, N.J. From Philadelphia across the Delaware River to Camden, N.J., thence over U.S. Highway 130 to junction U.S. Highway 1, and thence over U.S. Highway 1 to New York, and return over the same route. From Philadelphia across the Delaware River to Camden, N.J., thence over New Jersey Secondary Highway 543 via Burlington, N.J., to junction U.S. Highway 130, thence over U.S. Highway 130 to junction U.S. Highway 206, thence over U.S. Highway 206 to Trenton, N.J., and thence over U.S. Highway 1 to New York, and return over the same route.

General commodities, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between points in Bergen, Passaic, and Sussex Counties, N.J., on the one hand, and, on the other, Providence, R.I., Corning, N.Y., points in that part of Pennsylvania east of the Susquehanna River, that part of New York within 150 miles of Newark, N.J., that part of Massachusetts on and east of U.S. Highway 5, and that part of Connecticut on and east of U.S. Highway 5 and those on U.S. Highway 1 between the Connecticut-New York State line and New Haven, Conn., between points in Philadelphia, Pa. *General commodities*, except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, films, silk, tobacco, new automobiles, commodities requiring tank trucks or refrigeration, and those injurious or contaminating to other lading. Between Wilmington, Del., and points in Delaware within 50 miles thereof, and points in Pennsylvania within 15 miles of Wilmington, Del., on the one hand, and, on the other, Washington, D.C., points in the New York, N.Y., commercial zone as defined by the Commission, points in that part of Pennsylvania bounded on the north by a line beginning at the Susquehanna River and extending east along U.S. Highway 22 to junction unnumbered highway near Walbert, Pa., and thence along unnumbered highway via Allentown, Bethlehem, Kutztown, Wilson, and Easton, Pa., to the Pennsylvania-New Jersey State line, and on the west by the Susquehanna River, and points in that part of New Jersey and Maryland on and east of U.S. Highway 1.

MC-116810 Sub 4, *General Commodities*, except those of unusual value, classes A and B explosives, liquor, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between New York, N.Y., on the one hand, and, on the other, Providence, R.I., points in that part of Massachusetts on and east of U.S. Highway 5, and points in that part of Connecticut on and east of U.S. Highway 5 and points on U.S. Highway 1 between Connecticut-New York State line and New Haven, Conn. By the instant petition, petitioner requests an *alternate gateway* of *Delanco, N.J.*, in serving points in that part of New Jersey and Maryland on and east of U.S. Highway 1, on the one hand, and, on the other, points in that part of Massachusetts on the east of U.S. Highway 5 and that part of Connecticut on and east of U.S. Highway 5 and those on U.S. Highway 1 between the Connecticut-New York State line and New Haven, Conn. Petitioner requests the elimination of the Gateway of Passaic County, N.J., and points within 15 miles of Wilmington, Del., allowing the following between points in Pennsylvania east of the Susquehanna River, north of U.S. Route 309, on the one hand, and, on the other, points in New Jersey and Maryland on and east of U.S. Highway 1 observing the Philadelphia, Pa., commercial zone—Points in Pennsylvania within 15 miles of Wilmington, Del., gateway. Any interested person desiring to participate may file an original and six copies of his written representations, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC-125293 (Sub-No. 2) (Notice of Filing of Petition To Modify Permit), filed June 17, 1971. Petitioner: INDUSTRIAL CONTRACT CARRIERS, INC., 617 Southwest 17th Avenue, Portland, OR. Petitioner's representative: George R. LaBissoniere, 1424 Washington Building, Seattle, Wash. 98101. Petitioner holds Permit No. MC-125293 (Sub-No. 2) authorizing operations as a motor contract carrier, transporting: (1) Aluminum sulphate, sodium sulphate, soda ash, methylene chloride, copper sulphate, carbon tetrachloride mixtures, boric acid, pentachlorophenol, metasilicates, trichloroethylene, nitric, phosphoric, acetic, and hydrofluoric acids, plating and buffing compounds, detergents, and filtering agents, all moving in drums, cartons, or bags, from points in California, to points in Oregon, Washington, and Idaho, under a continuing contract, or contracts, with the Great Western Chemical Co. of Richmond, Calif., and (2) aluminum and steel sheet-metal building materials and supplies, space heaters, furnace pipe, furnace accessories, garbage cans, and pails, from Portland, Oreg., to points in Washington, Idaho, Utah, and California, under a continuing contract, or contracts, with General Metalcraft, Inc., of Portland, Oreg. By the instant petition, petitioner requests that Permit No. MC-125293 (Sub-No. 2) be modified: (a) In part (1) above, by adding the following territorial authorization: From Seattle and Tacoma, Wash., to points in Montana; (b) in part (1) above, by adding the following authority: Soda ash, from Green River, Wyo., to points in Oregon and Washington, under a continuing contract, or contracts with the shipper specified; and (c) in part (2) above, by adding the destination States of Arizona and Nevada. Any interested person desiring to participate, may file an original and six copies of his written representation, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 128648 (Sub-No. 1), (Notice of Filing of Petition For Modification of Permit To Add a Contracting Shipper),

filed July 20, 1971. Petitioner: TRANS-UNITED, INC., Torrance, Calif. Petitioner's representative: William J. Lippman, Suite 960, 1819 H Street NW., Washington, DC 20006. Its permit No. MC 128648 (Sub-No.), now authorizes the following contract carrier service: Tractor parts, loader parts, tractor attachments, and equipment, materials and supplies used in the manufacture of the above-named commodities, between Mercer, Pa., Torrance, Calif., Montgomery, Ala., Aurora, Ill., Portland, Oreg., Phoenix, Ariz., Salt Lake City, Utah, Dallas and Houston, Tex., Tulsa, Okla., Topeka, Kans., Cedar Rapids, Iowa, New Orleans, La., Memphis, Tenn., Defiance, Columbus, and Cleveland, Ohio, Atlanta, Ga., Jacksonville and Tampa, Fla., Boston, Mass., Denver, Colo., and the storage and distribution facilities of Pettibone Mulliken Corp. at East Rutherford, N.J., between the points described above, on the one hand, and, on the other, points in the United States, except Alaska and Hawaii. Restriction: The operations authorized herein are limited to a transportation service to be performed under a continuing contract, or contracts, with Pettibone Mulliken Corp. of Torrance, Calif. By the instant petition, petitioner seeks to add the name of Industrial Parts Depot as a contracting shipper. Any interested person desiring to participate may file an original and six copies of his written representations, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 134560 (Notice of Filing of Petition To Add Additional Shipper), filed July 21, 1971. Petitioner: ROBERT J. LITTLE, Jackson, Miss. 39212. Petitioner holds authority in No. MC 134560 to conduct operations as a motor contract carrier,, over irregular routes, transporting: Lumber (1) from Memphis, Tenn., to points in Alabama, Louisiana, Mississippi, and Texas, and (2) between points in Alabama, Louisiana, Mississippi, and Texas under continuing contract, or contracts with Owens Lumber, Inc., of Jackson, Miss. By the instant petition, petitioner requests permission to add the contracting shipper, Southern Pacific Lumber Co., Inc., Jackson, Miss. Any interested person desiring to participate may file an original and six copies of his written representations, views, or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 59583 (Sub-No. 130) filed June 30, 1971. Applicant: THE MASON AND DIXON LINES, INC., Post Office Box 969, Eastman Road, Kingsport, TN 37662. Applicant's representative: Carl W. Eilers, Post Office Box 3740, Kingsport, TN 37664. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, those requiring special equipment, and those injurious or contaminating to other lading), between Birmingham, Ala., and points within 15 miles thereof, and Mobile, Ala., and points within 10 miles thereof, over U.S. Highway 31, serving all intermediate points and the off-route points of Kilby, Prattville, and Siluria, Ala. NOTE: This application is a matter directly related to MC–F–11150, published in the FEDERAL REGISTER issue of April 28, 1971. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Montgomery, Ala.

No. MC 112617 (Sub-No. 292), filed July 20, 1971. Applicant: LIQUID TRANSPORTERS, INC., Post Office Box 21395, Louisville, KY 40221. Applicant's representative: Leonard A. Jaskiewicz, 1730 M Street, NW., Suite 501, Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, in bulk, in tank vehicles, between Midway, Meade County, Ky., and Louisville, Jefferson County, Ky., from Midway over Kentucky Highway 448 to junction U.S. Highway 60 at Flaherty Road, thence over U.S. Highway 60 to junction U.S. Highway 31–W at Tip Top, thence over U.S. Highways 60 and 31–W to Louisville, restricted to a closed door operation on U.S. Highway 31–W between Tip Top and Louisville, Ky. NOTE: Applicant states that the requested authority will be tacked at Louisville and/or Doe Run, Ky. This application is a matter directly related to MC–F–11243, published in the FEDERAL REGISTER issue of August 4, 1971. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Washington, D.C.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1100.240).

MOTOR CARRIERS OF PROPERTY

No. MC–F–10684. CLARK ENTERPRISES, INC.—Control—HARMS PACIFIC TRANSPORT, INC., AND SERVICE TANK LINES, INC., published in December 24, 1969 issue of the FEDERAL REGISTER. [Notice 337]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 23, 1971.

The following are notices of filing of applications for temporary authority under section 210(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such

protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 111 (Sub-No. 8 TA), filed July 16, 1971. Applicant: VIGEANT MOTOR FREIGHT, INC., Post Office Box 157, Castleton-on-Hudson, NY 12033. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pharmaceutical products*, except in bulk, from Rouses Point, N.Y., to Lenexa, Kans., Mesquite, Tex., Los Angeles, Calif., and Seattle, Wash., with stopoff and pickup for same shipper at Chicago, Ill., for 150 days. Supporting shipper: Ayerst Laboratories, Inc., Division of American Home Products Corp., Rouses Point, N.Y. Send protests to: Charles F. Jacobs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 518 Federal Building, Albany, N.Y. 12207.

No. MC 41432 (Sub-No. 115 TA), filed July 19, 1971. Applicant: EAST TEXAS MOTOR FREIGHT LINES, INC., 2355 Stemmons Freeway, Post Office Box 10125, Dallas, TX 75207. Applicant's representative: W. P. Furrh (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving Norcross, Ga., and points in its commercial zone as defined by the Commission, as off-route points in connection with carrier's authorized regular-route operations in MC 41432 and Subs thereunder. NOTE: Applicant does not intend to transport any traffic, direct or interline, between Atlanta, Ga., on the one hand, and points within 15 miles thereof, on the other and is willing to accept a restriction to that effect, for 180 days. Supporting shippers: Wittaker Corp., Jenks Metals, 4570 Northeast Expressway, Doraville, GA 30340; J. M. Tull Industries, Inc., Post Office Box 4628, Atlanta, GA 30302; Zim Chemical Co., Inc., Post Office Box 13641, Station K, Atlanta, GA 30324; Kearney Division of Kearney National, Post Office Box 49167, Atlanta, GA 30329; Kan-Dee Pak, Inc., Post Office Box 47726, Atlanta, GA 30340; Peachtree Doors, Inc., Post Office Box 700, Norcross, GA 30071; Lamex, Inc., 1245 Old Peachtree Road, Norcross, GA. Send protests to: District Supervisor E. K. Willis, Jr., Bureau of Operations, Interstate Commerce Commission, 1100 Commerce Street, Room 13C12, Dallas, Tex. 75202.

No. MC 4687 (Sub-No. 10 TA), filed July 19, 1971. Applicant: BURGESS & COOK, INC., 21 North Second Street, Post Office Box 458, Fernandina Beach, FL 32034. Applicant's representative: Archie B. Culbreth, 1252 West Peachtree Street NW., Atlanta, GA 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Polystyrene plastic products, such as expanded plastic foam egg cartons, meat and produce trays* (except commodities in bulk) from Lithonia, Ga., to points in Florida, for 180 days. NOTE: This authority will, however be used in conjunction with the authority to serve the shipper from Covington, Ga., under Sub 9TA, copy attached. Supporting shipper: Mobil Chemical Co., Plastics Division, Covington, Ga. Send protests to: District Supervisor G. H. Fauss, Jr., Bureau of Operations, Interstate Commerce Commission, 288 Federal Building, Box 35008, Jacksonville, FL 32202.

No. MC 107227 (Sub-No. 123 TA), filed July 16, 1971. Applicant: INSURED TRANSPORTERS, INC., 1944 Williams Street, Post Office Box 1697, San Leandro, CA 94577. Applicant's representative: A. J. Jackson (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New foreign made automobiles and busses*, in secondary movements, in truckaway service, in foreign commerce, from points in California on the international boundary between the United States and Mexico to (1) points in California, north of the northern boundaries of San Luis Obispo, Kern, and San Bernardino counties; (2) points in Nevada, excepting Las Vegas, Nev.; and (3) points in Utah, restricted to shipments having a prior movement by water, for 180 days. Guide to Record Retention Requirements

[Revised as of January 1, 1971]

This useful reference tool is designed to keep businessmen and the general public informed concerning the many published requirements in Federal laws and regulations relating to record retention.

The 90-page "Guide" contains over 1,000 digests which tell the user (1) what type records must be kept, (2) who must keep them, and (3) how long they must be kept. Each digest carries a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index, numbering over 2,200 items, lists for ready reference the categories of persons, companies, and products affected by Federal record retention requirements.

Price: $1.00

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

PNEUMATIC TIRES—DoT proposal on safety standards; comments by 11–2–71 14392

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1971, and specifies how they are affected.

Rules and Regulations

Title 7—AGRICULTURE

Chapter I—Consumer and Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Subpart—United States Standards for Grades of Canned Fruit Cocktail [1]

LIQUID MEDIA AND BRIX MEASUREMENTS

The U.S. Standards for Grades of Canned Fruit Cocktail (7 CFR 52.1051 to 52.1064) are hereby amended pursuant to the authority of the Agricultural Marketing Act of 1946 (sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624).

Statement of consideration leading to the amendment. The Federal Food and Drug Standard of Identity for Canned Fruit Cocktail was amended to include slightly sweetened water, the density of which is less than 14° Brix, as optional packing media and became effective April 7, 1971.

Current USDA Grade Standards for Canned Fruit Cocktail are amended to include slightly sweetened water as a packing media. This amendment will bring the grade standards in line with the Food and Drug Standard of Identity and current packing practices.

It is hereby found that it is unnecessary and contrary to public interest to give preliminary notice, engage in public rule making procedure, or to postpone the effective date beyond the date of publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) in that:

(1) The Federal Food and Drug Standards of Identity now provide for slightly sweetened water as an optional packing media in canned fruit cocktail;

(2) It will not cause a change in packing practices;

(3) It will not affect the quality levels for canned fruit cocktail provided in the USDA Grade Standards; and

(4) It is in the interest of the public and canning industry to make this amendment effective at the earliest possible date.

The amendment is as follows:

In § 52.1054 the table of liquid media designations and Brix measurements is changed by adding "Slightly Sweetened Water" thereto as follows:

Designations	*Brix Measurement*
"Extra heavy sirup" or "Extra heavy fruit juice sirup"	22° or more but not more than 35°.
"Heavy sirup" or "Heavy fruit juice sirup"	18° or more but less than 22°.
"Light sirup" or "Light fruit juice sirup"	14° or more but less than 18°.
"Slightly sweetened water"	Less than 14°.
"In water"	Not applicable.
"In fruit juice"	Not applicable.

This amendment to the U.S. Standards for Grades of Canned Fruit Cocktail which have been in effect since 1953 set forth herein shall become effective upon publication in the FEDERAL REGISTER (8–5–71).

(Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624)

Dated: July 30, 1971.

G. R. GRANGE,
Deputy Administrator,
Marketing Services.

[FR Doc.71–11207 Filed 8–4–71;8:4¢ am]

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Subpart—U.S. Standards for Grades of Canned Apricots [1]

UNIFORMITY OF SIZE AND SYMMETRY

The U.S. Standards for Grades of Canned Apricots (7 CFR 52.2641 to 52.2657) are hereby amended pursuant to the authority of the Agricultural Marketing Act of 1946 (sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624).

Statement of consideration leading to the amendment. Current U.S. Standards for Grades of Canned Apricots contain a requirement under the factor of uniformity of size in the different grade classifications that states in part—"the weight of each half is not less than ⅖ ounce". Prior to February 23, 1971, this requirement was also contained in the Federal Food and Drug Standard of Quality for Canned Apricots. These standards were amended and became effective on the aforementioned date to eliminate this minimum weight requirement in the style of halves.

The USDA grade standards for canned apricots are amended to also delete the minimum weight requirement, thereby bringing them in line with the Federal Food and Drug minimum quality standards.

It is hereby found that it is unnecessary and contrary to the public interest to give preliminary notice, engage in public rule making procedure, or postpone the effective date beyond the date of publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) in that:

(1) Apricot canning has started in most producing areas;

(2) The apricot canning industry is already prepared to include apricot halves less than two-fifths of an ounce in their packs; and

(3) It is in the interest of the public and the industry to make these amendments effective at the earliest possible date.

The amendments are as follows:

In § 52.2653 *Uniformity of size and symmetry:*

1. In paragraphs (c) (*A*) *classification*, (d) (*B*) *classification*, and (e) (*C*) *classification* the wording: "that the weight of each half is not less than ⅖ ounce" is deleted.

2. Paragraph (f) (*D*) *and* (*SStd*) *classification* is amended to read as follows:

(f) (*D*) *and* (*SStd*) *classifications.* Canned apricots of the applicable styles which fail to meet paragraph (e) of this section may be given a score of 0 to 13 points and shall not be grade above the following stated grade, regardless of the total score for the product (this is a limiting rule).

(1) Halves or whole canned apricots in which the weight of the largest full-size unit is more than twice the weight of the smallest full-size unit shall not be graded above U.S. Grade D and are also "Below Standard in Quality—Mixed Sizes".

(2) Unpeeled halves of canned apricots in which more than 30 percent, by count, of the units are off-suture cuts shall not be graded above U.S. Grade D.

These amendments to the U.S. Standards for Grades of Canned Apricots which have been in effect since August 17, 1962, set forth herein shall become effective upon publication in the FEDERAL REGISTER (8–5–71).

(Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624)

Dated: July 30, 1971.

G. R. GRANGE,
Deputy Administrator,
Marketing Services.

[FR Doc.71–11232 Filed 8–4–71;8:51 am]

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

PART 68—REGULATIONS AND STANDARDS FOR INSPECTION AND CERTIFICATION OF CERTAIN AGRICULTURAL COMMODITIES AND PRODUCTS THEREOF

Fees and Charges for Federal Rice Inspection Services

Pursuant to sections 203 and 205 of the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1622, 1624), the provisions of 7 CFR Part 68 are amended by (1) adopting a new § 68.42c (7 CFR 68.42c) prescribing fees and charges for the inspection of rice by Federal employees; (2) deleting § 68.42 (7 CFR 68.42); (3) adding a new § 68.42a; and (4) making certain other changes as explained below.

Inspection services under the Agricultural Marketing Act of 1946 are voluntary in nature. Further, the Act provides for the collection of fees equal as nearly as possible to the cost of the services rendered under its provisions.

Statement of considerations. Section 68.42 prescribes the fees and charges for certain Federal inspection services including the inspection of rice. Users of the rice inspection service find the format difficult to follow; therefore, it is concluded that the fees and charges for the inspection of rice should be grouped in a separate section.

Currently, the charge for checkloading, checkweighing, condition examination, and other special inspection services for rice is $8.80 per hour. The time spent performing special inspection services varies per service call. As a result, applicants for inspection find it difficult to estimate their inspection costs in advance.

Members of the rice industry have recommended that in lieu of the hourly rate, a charge of $0.0025 per 100 pounds be assessed for checkloading and special inspection services when performed concurrently with sampling and grading. Studies indicate that the additional charge of $0.0025 per hundredweight will cover the Department's costs of providing such services. The hourly rate will be continued when the services are not performed concurrently with sampling and grading during packaging.

Members of the rice industry further recommend that there be no minimum fee for hourly services, because the fee is frequently excessive for small mills. It is believed that assessing a minimum of 2 hours per man per service call is excessive for small mills and is not needed. Accordingly, the minimum fee per service call is deleted.

§ 68.42 [Deleted]

1. Section 68.42 is deleted.

2. Section 68.45a is added to read as follows:

§ 68.42a Fees and charges for certain Federal inspection services.

The following fees and charges apply to the Federal inspection services specified below:

Service	Fee or Charge
Appeal inspection:	
(a) Basis original sample	(1)
(b) Basis new sample	(2)
Bean, lentil, and pea inspection (including chick peas, cowpeas, split peas, and similar commodities):	
(a) Lot inspection:	
(1) Field run (quality and dockage analysis)—per lot	$5.60
(2) Other than field run (grade, class, and quality)—per lot	4.20
(In addition to the fee for analysis or grading in (1) and (2) above, a fee for sampling, checkweighing, and checkloading, if any, will be assessed at the prescribed rate.)	
(b) Sample inspections:	
(1) Field run (quality and dockage analysis)—per lot	5.60
(2) Other than field run (grade, class, and quality)—per sample	4.20
Checkloading—per man-hour	[3] 8.80
Checkweighing—per man-hour	[3] 8.80
Condition examination—per man-hour	[3] 8.80
Extra copies of certificates—per copy	.75
Grade factor analysis (as defined in any official U.S. Standards) per factor	2.80
Hay and straw inspection:	
(a) Lot inspection:	
For sampling and grading—per man-hour	8.80
(b) Sample inspection:	
(1) Grade only—per sample	5.60
(2) Factor analysis—per man-hour	8.80
Hop inspection:	
(a) Lot inspection:	
(1) For seed, leaf, and stem content—per lot	6.65
(2) Aphid infestation—per lot	8.80
(In addition to the fee for analysis in (1) and (2) above, a charge for sampling, if any, will be assessed at the prescribed rate.)	
(b) Sample inspection:	
(1) For seed, leaf and stem content—per sample	6.66
(2) Aphid infestation—per sample	8.80
Laboratory testing:	
In addition to the charges, if any, for sampling or other requested service, a fee will be assessed for each laboratory analysis or test as follows:	
(1) Acetyl value	5.00
(2) Acidity—Greek	1.70
(3) Acid value—oil	2.35
(4) Appearance, flavor, and odor of oils	1.10
(5) Ash	1.70
(6) Bacteria count	3.50
(7) Baking test—Bread	3.96
(8) Baking test—Prepared mix	3.05
(9) Baume	4.50
(10) Break test	3.05
(11) Calcium—AOAC	4.00
(12) Calcium enrichment	4.00
(13) Calcium carbonate	4.00
(14) Carotenoid color	4.50
(15) Clarity of oils involving heating	1.45
(16) Cold test—oil	.75
(17) Color—bleached	2.10
(18) Color—Gardner	2.10
(19) Color—Lovibond	2.10
(20) Color—Wesson	2.10
(21) Color—oil and shortening	2.10
(22) Congeal point	4.30
(23) Consistency	1.35
(24) Cooking test	1.85
(25) Crude fat	2.25
(26) Crude fiber	3.35
(27) Density	1.20
(28) Diatomaceous earth—on grain	3.05
(29) Diastatic activity of flour	2.80
(30) Enrichment—quick test	.85
(31) Falling number	1.25
(32) Fat—acid hydrolysis	4.40
(33) Fat, crude	2.25
(34) Fat, extraction	2.25
(35) Fat acidity	1.70
(36) Fat stability—AOM	4.80
(37) Fiber, crude	3.35
(38) Filth—heavy	3.05
(39) Filth—light	4.85
(40) Flash point—open and closed cup	3.05
(41) Flavor, odor, and appearance of oils	1.10
(42) Foots — heated and/or chilled	2.15
(43) Foreign material—processed grain products	2.65
(44) Free fatty acids—oil and shortening	2.35
(45) Gossypol, free	3.00
(46) Grade and class of unprocessed grain	[4] 2.00
(47) Heating test—oil and shortening	2.25
(48) Hydrogen-ion concentration—pH	1.70
(49) Insoluble bromides	2.20
(50) Insoluble impurities—oil and shortening	2.80
(51) Iodine number or value	2.60
(52) Iron—enrichment	6.65
(53) Keeping time — oil and shortening	4.90
(54) Kjeldahl—protein	2.05
(55) Linolenic acid	12.00
(56) Lipoid phosphoric acid	5.75
(57) Loss on heating (oil)	1.35
(58) Lysine	15.00
(59) Maltose value	2.80
(60) Marine oil in vegetable oil—qualitative	2.20
(61) Melting point—Wiley	2.60
(62) Milling—wheat to flour	4.65
(63) Moisture—distillation	2.15
(64) Moisture—oven	1.45
(65) Moisture and volatile matter—oil and shortening	2.60
(66) Nitrogen solubility index	2.60
(67) Odor, appearance, and flavor of oils	1.10
(68) Oil content—oilseeds	3.50
(69) pH—Hydrogen-ion concentration	1.70
(70) Peroxide value	1.75
(71) Peroxide value after 8 hours AOM	4.80
(72) Phosphorus—photometric	3.65
(73) Popping value—popcorn	1.50
(74) Potassium bromate — qualitative	.85
(75) Potassium bromate — quantitative	3.25
(76) Protein for cargo wheat—duplicate test required	[5] 5.45
(77) Protein—Kjeldahl	2.05
(78) Reducing sugars	8.40
(79) Refining loss—oils	5.75
(80) Refractive index	1.20
(81) Riboflavin	6.80
(82) Rope spore count	11.10
(83) Salt	3.50
(84) Saponification number	3.05
(85) Sedimentation value—wheat	[5] 1.25
(86) Sieve test	2.20
(87) Smoke point	1.40
(88) Softening point	4.30
(89) Solid fat index	9.90
(90) Solubility in alcohol (oil)	1.10
(91) Specific baking volume—prepared mix	3.05
(92) Specific gravity—oils	2.95
(93) Test weight per bushel—other than grain	1.20
(94) Unsaponifiable matter	5.80
(95) Urease activity	2.25
(96) Viscosity—Gardner-Holdt—oils	1.50
(97) Viscosity—Saybolt	3.85
(98) Water soluble protein	2.60
(99) Xanthydrol test for rodent urine	2.50
(If a requested analysis or test is on the basis of a specified moisture content, a charge for an oven moisture test will also be made.)	
Lentil inspection: (See Bean inspection)	
Minimum fee for services covered by hourly rates—a minimum fee for 2 hours per man, per service request, will be assessed at the applicable hourly rate.	
New inspection (retest)—fees and charges to be based on services requested.	
Pea inspection: (See Bean inspection)	
Split pea inspection: (See Bean inspection)	
Standby time per man-hour	8.80
Straw inspection: (See Hay inspection)	

See footnotes at end of document.

3. A new § 68.42c is added to read as follows:

§ 68.42c Fees and charges for Federal rice inspection services.

The following fees and charges apply to the Federal rice inspection services specified below:

Service	Fee or Charge
Appeal inspection:	
(a) Basis original sample	(1)
(b) Basis new sample	(2)
Checkloading—per man-hour	[3] $8.80
Checkweighing—per man-hour	[3] 8.80
Condition examination—per man-hour	[3] 8.80
Extra copies of certificates—per copy	.75
Grade factor analysis (as defined in any official U.S. Standards) per factor	2.80
Lot inspection:	
(a) For sampling, inspection for grade, factor analysis, equal to type, or milling yield—whether singly or combined	
(1) Per 100 lbs	[4] 0.0125
(2) Minimum fee—per lot:	
Milled rice	2.50
Brown rice or rough rice	4.00
(b) For checkloading, condition examination, and/or special inspection services when performed concurrently during packaging with sampling, inspection for grade, factor analysis, equal to type, or milling yield	
(1) Per 100 lbs	[4] 0.0150
(2) Minimum fee—per lot:	
Milled rice	2.50
Brown rice or rough rice	4.00
(c) For sampling and inspection for origin	
(1) Per 100 lbs	[4] 0.005
(2) Minimum fee—per lot	2.00
(d) For inspection for origin when inspected for grade, factor analysis, equal to type, or milling yield—per lot	1.00
Sample inspection for grade, factor analysis, equal to type, or milling yield—whether singly or combined—per sample:	
(a) Brown rice or rough rice (including milling yield)	3.50
(b) Brown rice or rough rice (excluding milling yield)	2.00
(c) Milled rice	2.00
Sampling per man-hour	[3] 8.80
Special inspection service per man-hour	[3] 8.80
Standby time per man-hour	8.80
Type samples, rice milling degrees	[5] 50.00

The need for amendment to the rice inspection fees and charges is dependent on facts within the knowledge of the Consumer and Marketing Service. The amendment of the fees should be made effective as soon as possible in order to be of maximum benefit to those who use the rice inspection service. Therefore, under the administrative procedure provisions of 5 U.S.C. § 553, it is found upon good cause that notice and other public rule-making procedures on the amendment are impracticable and unnecessary and that this amendment shall become effective less than 30 days after publication in the FEDERAL REGISTER.

(Secs. 203, 205, 60 Stat. 1087, 1090, as amended; 7 U.S.C. 1622, 1624)

This amendment shall become effective upon publication in the FEDERAL REGISTER (8-5-71).

Done in Washington, D.C., this 30th day of July 1971.

G. R. GRANGE,
Deputy Administrator,
Marketing Services.

[FR Doc.71-11231 Filed 8-4-71;8:50 am]

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 6]

PART 725—FLUE-CURED TOBACCO

Subpart—Flue-Cured Tobacco, 1970-71 and Subsequent Marketing Years

MISCELLANEOUS AMENDMENTS

Basis and purpose. This amendment is issued pursuant to and in accordance with the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281, et seq.).

The main purpose of this amendment is to relax the provision of the regulation which prohibits warehousemen from retaining producer marketing cards at the warehouse between sales. The basis for the change is to facilitate the scheduling of farmers' tobacco to warehouses to reduce congestion at the marketplace. Other minor changes are included.

The changes needed in the regulations to put this amendment into effect are described as follows:

1. Section 725.51(h) changes the definition of Director to conform to an organizational change.

2. Section 725.87(a)(1) is amended to add Florida to the States where harvested acreage will be entered on the faces of marketing cards.

3. Section 725.99(a)(4) is amended to eliminate "Commodity Programs Division" in referring to the Director.

4. Section 725.107 is amended to change the name "Commodity Programs Division" to "Commodity Stabilization Division" to conform to an organizational change and to require that records to be retained by warehousemen shall include the journal of producer marketing cards retained at the warehouse.

5. A new § 725.112 is added to establish provisions for warehouses to retain producer marketing cards between tobacco sales, with the grower's permission, if the warehouse operator has executed and filed a "Request for Authorization to

---

[1] The applicable grading or laboratory analysis or testing charge. Minimum fee, if any, $8.80.

[2] Applicable sampling charge, if any, plus applicable grading, or laboratory analysis or testing fee.

[3] Only one fee will be charged for these services whether performed singly or concurrently. (But see minimum fee requirement.)

[4] To be used only in conjunction with the inspection of a processed product for compliance with contract specifications.

[5] No sampling fee will be assessed if a portion of an appeal sample, licensed inspector's sample, or submitted sample is used for these tests. (In no instance will more than one sampling fee be assessed per service request.)

[1] One quarter of the fee for the original inspection. Minimum fee, if any, $8.80.

[2] Applicable sampling charge, if any, plus applicable grading fee.

[3] Only one fee will be charged for these services whether performed singly or concurrently.

[4] In the case of railroad cars, the weight shall be based on weight tickets, or weight certificates, if available at the time of inspection; otherwise, on the marked capacity of the railroad car.

[5] The type samples illustrate the lower limit for milling degrees only. Type samples will be available for examination at, or may be purchased from the Grain Inspection Branch, Grain Division, Consumer and Marketing Service, U.S. Department of Agriculture, 6525 Belcrest Road, Hyattsville, MD 20782. Type samples will also be available for examination at selected Field Offices of the Grain Division. A list of the Field Offices may be obtained from the above address.

Retain Producers' Tobacco Marketing Cards".

Since warehouse operators are currently making plans for the opening of tobacco auction markets in the Georgia-Florida Area it is essential that this amendment be effective at the earliest possible date. Accordingly, it is hereby found and determined that compliance with the notice, public procedure and 30-day effective date requirements of 5 U.S.C. 553 is impracticable and contrary to the public interest. The amendment contained herein shall become effective upon the date of filing with the Director, Office of the Federal Register.

1. Section 725.51(h) is amended to read as follows:

§ 725.51 Definitions.

• • • • • •

(h) *Director.* The Director, or Acting Director, Commodity Stabilization Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture.

• • • • • •

2. The fourth sentence of subparagraph (1) of paragraph (a) of § 725.87 is amended as follows:

§ 725.87 Issuance of marketing cards.

(a) *General.* (1) • • • For cards issued in Florida, North Carolina, South Carolina, and Virginia, the harvested acreage shall be shown on the face of the card. • • •

• • • • • •

3. The third sentence of § 725.99(a)(4) is amended as follows:

§ 725.99 Warehouseman's records and reports.

(a) *Record of marketing.* • • •

(4) *Tobacco sale bill and daily warehouse sales summary.* • • • Copies of the suggested format may be obtained from the Director. • • •

• • • • • •

4. Section 725.107 is amended to read as follows:

§ 725.107 Examination of records and reports.

For the purpose of ascertaining the correctness of any report made or record kept, or of obtaining the information required to be furnished, in any report, but not so furnished, any warehouseman, processor, dealer, buyer, trucker, or person engaged in the business of sorting, redrying, prizing, stemming, packing, or otherwise processing tobacco for producers, shall make available at one place for examination by representatives of the State executive director and by employees of the Office of the Inspector General, and of the Commodity Stabilization Division and Tobacco Division of the Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, upon written request by the State executive director, all such books, papers, records, basket tickets, tobacco sale bills, buyer adjustment invoices, accounts, canceled checks, check register, check stubs, correspondence, contracts, documents, journal of producer marketing cards retained at warehouse and memoranda as the State executive director or the Director has reason to believe are relevant and are within the control of such person.

5. A new § 725.112 is added as follows:

§ 725.112 Warehouses authorized to retain producer marketing cards between sales.

Notwithstanding any other provision of this part, to facilitate the scheduling of farmers' tobacco to the warehouse, marketing cards with the permission of the producer, may be retained at the warehouse between sales even though no producer on the farm for which the card is issued has tobacco on the floor for sale or to be settled for, as provided in this section.

(a) *Warehouses eligible to retain producer marketing cards between sales.* A warehouse shall be eligible to retain producer marketing cards between sales if the operator thereof shall:

(1) Execute and file on a form approved by ASCS a written request with the State committee (or county committee if designated by the State committee).

(2) Agree to be responsible to ASCS for an amount of money equal to the amount that may be assessed against any producer as marketing quota penalties, if the marketing that is the basis of assessment of penalty occurred while the warehouse was authorized to have custody of the marketing card, for:

(i) Overmarketings resulting from errors made at the warehouse in entering "balance after sale" pounds on the producer's marketing card or failure to deduct pounds sold on producer's marketing card.

(ii) Tobacco falsely identified for marketing by use of the producer's marketing card.

(iii) Producer's failure to account for any tobacco marketed by use of the producer's marketing card.

(iv) Tobacco marketed at the warehouse in excess of 110 percent of quota as shown on the producer's marketing card.

(3) Agree to maintain an accurate and up-to-date journal containing a listing of all producer marketing cards retained by the warehouse to facilitate the scheduling of farmer's tobacco. The journal shall show for each card retained the:

(i) Name of farm operator;

(ii) Serial number of farm;

(iii) Date marketing card obtained from producer; and

(iv) Date marketing card returned to producer.

Such journals shall be maintained for the length of time and under the conditions required for other warehouse records.

(4) Agree to return the marketing card to the producer at any time the producer may so request or, in the absence of a request, return it to the producer within seven (7) days after the close of the warehouse for the season.

(5) Agree that this authorization may be terminated by ASCS for failure to comply with provisions of this agreement.

(b) *Penalties considered to be the responsibility of warehouseman.* Notwithstanding any other provision of this part, a warehouse operator who executes and files a written request with the State committee (or county committee if designated by the State committee) for authorization to retain producers' marketing cards at the warehouse, with grower permission, shall be responsible to ASCS for an amount of money equal to the amount that may be assessed against producer as marketing quota penalties, provided, the marketing that is the basis of such assessment occurred while the warehouse was authorized to have custody of the marketing card, for:

(1) Overmarketings resulting from errors made at the warehouse in entering "balance after sale" pounds on the producer's marketing card or failure to deduct pounds sold on the producer's marketing card.

(2) Tobacco falsely identified for marketing by use of the producer's marketing card.

(3) Producer's failure to account for any tobacco marketed by use of the producer's marketing card.

(4) Tobacco marketed at the warehouse in excess of 110 percent of quota as shown on the producer's marketing card.

(Secs. 301, 314, 317, 372, 373, 375, 52 Stat. 38, as amended, 48, as amended, 79 Stat. 66, as amended, 52 Stat. 65, as amended, 66, as amended; 7 U.S.C. 1301, 1314, 1314c, 1372, 1373, 1375)

Effective date: Date of filing this document with the Director, Office of the Federal Register.

Signed at Washington, D.C., on August 2, 1971.

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Valencia Orange Reg. 360]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.660 Valencia Orange Regulation 360.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908, 35 F.R. 16625), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 3, 1971.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period August 6 through August 12, 1971, are hereby fixed as follows:

(i) District 1: 88,000 Cartons;

(ii) District 2: 312,000 Cartons;

(iii) District 3: Unlimited.

(2) As used in this section, "handler", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: August 4, 1971.

FLOYD F. HEDYLND,
Director, Fruit and Vegetable, Division, Consumer and Marketing Service.

[FR Doc.71-11385 Filed 8-4-71;11:15 am]

PART 917—FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

Order Amending Order Regulating Handling

§ 917.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary, and in addition, to the findings and determinations which were made in connection with the issuance of the order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such previous findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) Findings upon the basis of the hearing record. Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900), a public hearing was held in Fresno, Calif., on January 13, 1971, upon a proposed further amendment of the marketing agreement and order (7 CFR Part 917; 36 F.R. 7510) regulating the handling of fresh pears, plums, and peaches grown in California. On the basis of the evidence adduced at the hearing, and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order, as amended and as hereby further amended, regulates the handling of pears, plums, and peaches grown in the State of California in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in the marketing agreement upon which hearings have been held;

(3) The said order, as amended and as hereby further amended, is limited in its application to the smallest regional production area that is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of such regional production area would not effectively carry out the declared policy of the act;

(4) The said order, as amended and as hereby further amended, prescribes, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to the differences in production and marketing of the fruit covered thereby; and

(5) All handling of plums grown in the production area is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

(b) *Determinations.* It is hereby determined that:

(1) The "Marketing Agreement, as Amended, Regulating the Handling of Fresh Pears, Plums, and Peaches Grown in California," upon which the aforesaid public hearing was held, has been executed by handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the fruit covered by this order), who, during the period March 1, 1970, through October 31, 1970, handled not less than 50 percent of the volume of fresh pears and plums covered by the said order as hereby amended; and

(2) The issuance of this order amending the aforesaid amended order is favored or approved in a referendum held during the period June 23, 1971, through July 3, 1971, by producers who, during the determined representative period (March 1, 1970, through October 31, 1970) produced for market within the production area specified in this order, at least two-third of the volume of fresh pears and two-thirds of the volume of fresh plums produced for market within said production area by all producers who participated in said referendum.

It is, therefore, ordered, That, on and after the effective time hereof, all handling of fresh pears, plums, and peaches grown in California shall be in conformity to, and in compliance with, the terms and conditions of the said order, as amended, and as hereby further amended as follows:

1. Section 917.4 *Fruit* is revised to read as follows:

§ 917.4 Fruit.

"Fruit" means the edible product of the following three kinds of trees (a) all varieties of plums, (b) all varieties of peaches, and (c) all varieties of pears except Beurre Hardy, Beurre D'Anjou, Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau.

4. Paragraphs (k), (q), and (r) of § 917.14 *District* are amended to read as follows:

§ 917.14 District.

• • • • • •

(k) "South Coast District" includes and consists of San Luis Obispo County, Santa Barbara County, and Ventura County.

• • • • • •

(q) "Tehachapi District" includes and consists of that portion of Kern County not included in Kern District, and Inyo County.

(r) "Southern California District" includes and consists of San Bernardino County, Orange County, San Diego County, Imperial County, Riverside County, and Los Angeles County.

5. Paragraph (b) of § 917.18 *Nomination of grower members of the Control Committee* is revised to read as follows:

§ 917.18 Nomination of grower members of the Control Committee.

* * * * *

(b) A person nominated by any commodity committee for membership on the Control Committee shall be an individual person who produced fruit during the previous season, and who is a member or alternate member of the commodity committee which nominates him. Such persons shall have the qualifications specified in § 917.24(c). Each member of each commodity committee shall have only one vote in the selection of nominees for membership on the Control Committee.

7. Section 917.20 *Designation of members of commodity committees* is amended to read as follows:

§ 917.20 Designation of members of commodity committees.

There are hereby established a Pear Commodity Committee and a Plum Commodity Committee each consisting of 12 members, and a Peach Commodity Committee consisting of 13 members. The members of each said committees shall be selected biennially for a term ending on the last day of February of odd numbered years, and such members shall serve until their respective successors are selected and have qualified. The members of each commodity committee shall be selected in accordance with the provisions of § 917.25.

12. The introductory language and paragraph (a) of § 917.35 *Powers and duties of each commodity committee* are amended to read as follows:

§ 917.35 Powers and duties of each commodity committee.

Each commodity committee shall have the following powers and duties.

(a) With regard to the respective fruit for which it was established, to establish production research and marketing research and development projects as authorized under § 917.39, to recommend to the Secretary regulation of shipments pursuant to the provisions of this part, and to possess such other powers and exercise such other duties as will properly effectuate the purpose of this part: *Provided, however,* That the Pear and Plum Commodity Committees shall each approve actions under § 917.39 and make said recommendation pursuant to § 917.40 through § 917.43 only upon the affirmative vote of not less than 8 members of each said committee: *Provided further,* That the Peach Commodity Committee shall approve such actions pursuant to § 917.39 or make said recommendations pursuant to § 917.40 through § 917.43 only upon the affirmative vote of not less than 9 members of said committee.

* * * * *

12a. Section 917.39 *Market research and development* is amended to read as follows:

§ 917.39 Market research and development.

The committees, with the approval of the Secretary, may establish or provide for the establishment of production research, marketing research, and development projects designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of fruit. Such projects, with respect to plums may provide for any form of marketing promotion including paid advertising. The expenses of such projects shall be paid from funds collected pursuant to § 917.37.

14. Paragraph (e) of § 917.61 *Termination* is revised to read as follows:

§ 917.61 Termination.

* * * * *

(e) The Secretary shall conduct a referendum within the period beginning December 1, 1974, and ending February 15, 1975, to ascertain whether continuance of this part as to any fruit included in this part is favored by the growers. The Secretary shall conduct such a referendum within the same period of every fourth fiscal period thereafter.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, July 30, 1971, to become effective 30 days after publication in the FEDERAL REGISTER.

RICHARD E. LYNG,
Assistant Secretary.

Correction

In F.R. Doc. 71–10892 appearing at page 14178 in the issue for Saturday, July 31, 1971, the table appearing in § 224.2 should be transferred to appear as the table for § 224.4, and the table presently appearing in § 224.4 should be transferred to appear as the table for § 224.2.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 71–SO–105]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area and Designation of Transition Area

On June 16, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 11601), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Lexington, Ky., control zone and transition area and designate the Frankfort, Ky., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 14, 1971, as hereinafter set forth.

In § 71.171 (36 F.R. 2055), the Lexington, Ky., control zone is amended to read:

LEXINGTON, KY.

Within a 5-mile radius of Blue Grass Airport (lat. 38°02'16" N., long. 84°36'16" W.); within 1.5 miles each side of the ILS localizer northeast course, extending from the 5-mile-radius zone to 5 miles northeast of the runway end.

In § 71.181 (36 F.R. 2140), the Lexington, Ky., transition area is amended to read:

LEXINGTON, KY.

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Blue Grass Airport (lat. 38°02'16" N., long. 84°36'16" W.); within 3 miles each side of the ILS localizer northeast course, extending from the 8.5-mile radius area to 14 miles northeast of the runway end; within 9.5 miles northwest and 4.5 miles southeast of the ILS localizer southwest course, extending from the 8.5-mile-radius area to 18.5 miles southwest of the OM.

In § 71.181 (36 F.R. 2140), the following transition area is added:

FRANKFORT, KY.

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Capital City Airport (lat. 38°10'55" N., long. 84°54'16" W.); within 3 miles each side of the 062° bearing from Jett RBN (lat. 38°12'56" N., long. 84°49'32" W.), extending from the 8.5-mile radius area to 8.5 miles northeast of the RBN; within 3 miles each side of Frankfort VOR 063° radial, extending from the 8.5-mile radius area to 8.5 miles northeast of Jett RBN; within 3 miles each side of Frankfort VOR 240° radial, extending from the 8.5-mile radius area to 8.5 miles southwest of the VOR.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 27, 1971.

GORDON W. BECKER,
Acting Director, Southern Region.

[Airspace Docket No. 71–SO–106]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On June 16, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 11601), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Bowling Green, Ky., control zone and transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 14, 1971, as hereinafter set forth.

In § 71.171 (36 F.R. 2055), the Bowling Green, Ky., control zone is amended to read:

BOWLING GREEN, KY.

Within a 5-mile radius of Bowling Green-Warren County Airport (lat. 36°57'47" N., long. 86°25'07" W.); within 3 miles each side of Bowling Green VORTAC 206° radial, extending from the 5-mile radius zone to 9.5 miles southwest of the VORTAC.

In § 71.181 (36 F.R. 2140), the Bowling Green, Ky., transition area is amended to read:

BOWLING GREEN, KY.

That airspace extending upward from 700 feet above the surface within an 11-mile radius of Bowling Green-Warren County Airport (lat. 36°57'47" N., long. 86°25'07" W.); within 3.5 miles each side of Bowling Green VORTAC 206° radial, extending from the 11-mile radius area to 10.5 miles southwest of the VORTAC.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 27, 1971.

GORDON W. BECKER,
Acting Director, Southern Region.

ADP SHARING EXCHANGE ADDRESSES

This amendment provides the current addresses and regional locations of ADP sharing exchanges in line with the realignment of GSA regions and includes a revised map designating the GSA regional realignment.

Sections 101–32.4801 and 101–32.4802 are revised to read as follows:

§ 101–32.4801 ADP sharing exchange addresses.

GSA Region 1, ADP Sharing Exchange, Boston, Mass.: Federal ADP Resources Staff (1 FTR), Automated Data Management Services Division, Federal Supply Service, General Services Administration, Post Office and Courthouse, Boston, MA 02109. Telephone: Area Code 617, 223–6277.

GSA Region 2, ADP Sharing Exchange, New York, N.Y.: Federal ADP Resources Staff (2 FTR), Automated Data Management Services Division, Federal Supply Service, General Services Administration, 26 Federal Plaza, New York, NY 10007. Telephone: Area Code 212, 264–8349.

GSA Region 3, ADP Sharing Exchange, Washington, D.C.: Federal ADP Resources Staff (3 FTR), Automated Data Management Services Division, Federal Supply Service, General Services Administration, 7th and D Streets SW., Washington, DC 20407. Telephone: Area Code 202, 963–4900 or 202, 962–6871, IDS Code 13–34900 or 13–26871.

Philadelphia ADP Sharing Exchange, Veterans Administration, Post Office Box 8079, Philadelphia, PA 19101. Telephone: Area Code 215, 438–5629.

Tidewater ADP Sharing Exchange, Headquarters 5th Naval District, Norfolk, VA 23511. Telephone: Area Code 703, 444–7557.

GSA Region 4, ADP Sharing Exchange, Atlanta, Ga.: Federal ADP Resources Staff (4FTR), Automated Data Management Services Division, Federal Supply Service, General Services Administration, 1776 Peachtree Street NW., Atlanta, GA 30309. Telephone: Area Code 404, 526–5772.

GSA Region 5, ADP Sharing Exchange, Chicago, Ill.: Federal ADP Resources Staff (5FTR), Automated Data Management Services Division, Federal Supply Service, General Services Administration, Everett McKinley Dirksen Building, 219 South Dearborn Street, Chicago, IL 60604. Telephone: Area Code 312, 353–5406.

GSA Region 6, ADP Sharing Exchange, Kansas City, Mo.: Federal ADP Resources Staff (6FTR), Automated Data Management Services Division, Federal Supply Service, General Services Administration, Federal Building, 1500 East Bannister Road, Kansas City, MO 64131. Telephone: Area Code 816, 361–7540 (FTS calls only) and Area Code 816, 361–0860 ext. 7540 (commercial/long distance).

St. Louis ADP Sharing Exchange, Federal Supply Service, General Services Administration, 9700 Page Boulevard, St. Louis, MO 63132. Telephone: Area Code 314, 268–7152.

GSA Region 7, ADP Sharing Exchange, Fort Worth, Tex.: Federal ADP Resources Staff (7FTR), Automated Data Management Services Division, Federal Supply Service, General Services Administration, 819 Taylor Street, Fort Worth, TX 76102. Telephone: Area Code 817, 334–3684.

South Texas ADP Sharing Exchange, National Aeronautics and Space Administration, Manned Spacecraft Center, Houston, TX 77058. Telephone: Area Code 713, 483–5075.

GSA Region 8, ADP Sharing Exchange, Denver, Colo.: Federal ADP Resources Staff (8FTR), Automated Data Management Services Division, Federal Supply Service, General Services Administration, Building 41, Denver Federal Center, Denver, CO 80225. Telephone: Area Code 303, 233–8495 (FTS calls only) and Area Code 303, 233–3611 ext. 8495 (commercial/long distance).

GSA Region 9, ADP Sharing Exchange, San Francisco, Calif.: Federal ADP Resources Staff (9FTR), Automated Data Management Services Division, Federal Supply Service, General Services Administration, 49 Fourth Street, San Francisco, CA 94103. Telephone: Area Code 415, 556–7877.

Southern California ADP Sharing Exchange, Headquarters 11th Naval District, San Diego, CA 92130. Telephone: Area Code 714, 293–5587.

Las Vegas ADP Sharing Exchange, Nevada Operations Office of Atomic Energy Commission, Post Office Box 14100, Las Vegas, NV 89114. Telephone: Area Code 702, 734–3121.

Hawaii ADP Sharing Exchange, Federal Supply Service, General Services Administration, Hickam AFB, HI 96824. Telephone: Area Code 808, 443–951.

GSA Region 10, ADP Sharing Exchange, Auburn, Wash.: Federal ADP Resources Staff (10FTR), Automated Data Management Services Division, Federal Supply Service, General Services Administration, Regional Headquarters Building, Auburn, WA 98002. Telephone: Area Code 206, 833–6500 ext. 281 (commercial/long distance) and Area Code 206, 833–5281 (FTS only).

Oregon ADP Sharing Exchange, Bonneville Power Administration, Post Office Box 3621, Portland, OR 97208. Telephone: Area Code 503, 234–3513 or Area Code 503, 234–3607.

Alaska ADP Sharing Exchange, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, AK 99501. Telephone: Area Code 907, 272–5561 ext. 519 or 623.

§ 101-32.4802 Map showing GSA regions and locations of ADP sharing exchanges.

NOTE: Map illustration filed as part of original document.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. This regulation is effective upon publication in the FEDERAL REGISTER (8-5-71).

Dated: July 28, 1971.

ROBERT L. KUNZIG,
Administrator of General Services.

Title 49—TRANSPORTATION

Chapter X—Interstate Commerce Commission

[Ex Parte MC-67]

SUBCHAPTER C—ACCOUNTS, RECORDS, AND REPORTS

PART 1131—TEMPORARY AUTHORITY APPLICATIONS UNDER SECTION 210a(a) OF THE INTERSTATE COMMERCE ACT

General Policy Statement Concerning Motor Carrier Temporary Authority Procedures

This Commission has become increasingly aware that the processing of emergency temporary authority extension applications results in the misallocation of valuable resources, not only by the Commission, but by the public as well. In order to simplify these procedures, within the existing rules and regulations pertaining thereto, and to give full notice to the public of those procedures which we shall employ, the following is promulgated:

1. APPLICATIONS FOR EMERGENCY TEMPORARY AUTHORITY

Applications for emergency temporary authority shall continue to be filed on form OP-OR-95. Telegraphic or telephone filing shall also be acceptable in the manner now permitted and the subsequent confirmation filing of such application must be made by filing on form OP-OR-95.

2. APPLICATIONS FOR EXTENSION OF EMERGENCY TEMPORARY AUTHORITY

Applications seeking extension of emergency temporary authorities may be filed in two ways:

A. *If corresponding 180-day temporary authority application is filed within 15 days of the date of filing the initial emergency temporary authority application.* If an applicant for emergency temporary authority, utilizing form OP-OR-95 will, within 15 days of the date of filing with the Bureau of Operation's Field Office for such emergency temporary authority, file with such Field Office a corresponding application seeking temporary authority for a period of 180 days, he may state on the emergency application form OP-OR-95: "Applicant hereby certifies that within 15 days of the date of filing this application, a corresponding application will be filed seeking temporary authority for a period of 180 days, and requests that two successive extensions of any emergency temporary authority granted each for a period of 30 days, be issued." In accordance with the fee schedule promulgated in Ex Parte No. 246, "Regulations Governing Fees for Services," 339 I.C.C. 555 (decided May 19, 1971), an application for emergency temporary authority which contains this certification must be accompanied by the fee applicable to two extensions, which presently is $20.

Pursuant to this procedure, it will no longer be necessary for an applicant, in the event emergency temporary authority is issued in the first instance, to seek extensions thereof pending determinations of its 180-day temporary authority application, unless processing of the 180-day application exceeds 90 days. The filing of the 180-day application, within the 15-day period, will automatically serve to extend the former for two successive 30-day periods. The Commission, however, at all times, reserves the authority to revoke any emergency temporary authority, or extension thereof, should such action be warranted.

In order to maintain rate continuity, an applicant availing itself of this procedure shall file a supplement to its "W" publication together with its 180-day temporary authority application, extending the effectiveness of its "W" publication an additional 45 days (i.e., to be effective on the 45th day after the grant of the initial emergency temporary authority application, but in no case to be effective subsequent to the date with which the initial publication is indicated to expire, and to expire on the 90th day thereafter).

Thus, it is contemplated that the applicant's emergency temporary authority, as extended, and its "W" publication, as supplemented, will both expire on the same day.

Should 180-day temporary authority be granted to such an applicant, it will be effective upon the expiration of the emergency temporary authority, as extended. Should 180-day temporary authority be denied, the Commission's order to that effect will revoke the outstanding emergency temporary authority as of a date certain, and require applicant to cancel its "W" publication.

Should an applicant, having made the aforementioned certification, fail to file within the 15-day period an application for corresponding 180-day temporary authority, the initial emergency temporary authority shall not be extended in accordance with the above provisions, but applicant shall, in seeking any such extension thereafter, observe the procedures set forth in the next succeeding section.

B. *If corresponding 180-day temporary authority application is not filed within 15 days of the date of filing the initial emergency temporary authority application.* Any request for extension of emergency temporary authority, except as delineated in paragraph (A) above, shall be filed utilizing form OP-TA-19. Such requests must be filed not later than the 10th day preceding the expiration date of the emergency temporary authority sought to be extended. The Field Office shall require that any request for continuation of service authorized by the issuance of emergency temporary authority not filed prior to such 10th day be filed on form OP-OR-95 as a separate application.

3. WITH WHOM FILED

All applications for emergency temporary authority, requests for extension of emergency temporary authority, and applications for 180-day temporary authority shall be filed with the Commission's District Supervisor for the District in which the applicant is domiciled (except as to other Field Offices that the Commission may designate in special circumstances).

The above procedures and policies will be effective as of the date of service hereof, and notice of this General Policy Statement will be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register. This General Policy Statement shall appear in the Code of Federal Regulations as a note following 49 CFR 1131.2.

[No. 35345]

PART 1249—REPORTS OF MOTOR CARRIERS

Quarterly Report of Freight Loss and Damage Claims

At a session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 6th day of July 1971.

On December 3, 1970, notice of proposed rule making was published in the FEDERAL REGISTER (35 F.R. 18403) advising all interested persons that the Commission had under consideration a requirement for filing of quarterly reports of freight loss and damage claims by all common and contract carriers of property having average annual operating revenues (including interstate and intrastate) of $1 million, or more, from property motor carrier operations. After consideration of all relevant matters submitted by interested persons, the reports proposed are hereby adopted with modifications, as shown by the instructions and schedules attached to and made a part of this order. Wherefore, and good cause appearing:

It is ordered, That quarterly reports of motor carriers of property, form QL&D, Quarterly Report of Freight Loss and Damage Claims, as shown in appendix A attached hereto,[1] are adopted and prescribed.

It is further ordered, That the reporting requirements prescribed hereby are applicable to all common and contract carriers of property by motor vehicles having average annual operating revenues (including interstate and intrastate) of $1 million, or more, from property motor carrier operations, based on the average of latest 3 calendar years.

It is further ordered, That the reporting requirements prescribed hereby are effective with reports for the quarter beginning October 1, 1971.

[1] Not filed with the Office of the Federal Register.

It is further ordered, That a new § 1249.15 be added to Title 49, Chapter X, Subchapter C, Part 1249, Code of Federal Regulations, to read as follows:

§ 1249.15 Quarterly report of freight loss and damage claims.

Commencing with reports for the quarter beginning October 1, 1971, and for subsequent quarters thereafter, until further ordered, all common and contract carriers of property having average annual operating revenues (including interstate and intrastate) of $1 million, or more, from property motor carrier operations, based on the average annual gross operating revenues of the latest 3 calendar years, shall compile and file quarterly reports in accordance with Motor Carrier Quarterly Report of Freight Loss and Damage Claims, form QL&D. Such quarterly reports shall be filed in duplicate in the office of the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, within 40 days after the close of each quarter.

And it is further ordered, That service of this order shall be made on all parties that filed representations, on all class I motor carriers of property; and notice shall be given the general public by depositing a copy of this order in the office of the secretary of the Commission at Washington, D.C., and by filing the order with the Director, Office of the Federal Register.

(Secs. 204, 220, 49 Stat. 546, 563, as amended; 49 U.S.C. 304, 320)

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

Eufaula National Wildlife Refuge, Ala.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8-5-71)

§ 32.12 Special regulations; migratory birds; for individual wildlife refuge areas.

ALABAMA

EUFAULA NATIONAL WILDLIFE REFUGE

Public hunting of mourning doves on the Eufaula National Wildlife Refuge, Ala., is permitted only on those areas designated by signs as open to hunting. These open areas, comprising 365 acres, are delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of mourning doves subject to the following special conditions:

(1) Hunting shall be permitted from 12 noon until sunset on the following dates: (a) Houston Tract Unit: Saturdays only during season September 25-November 13, 1971. (b) Molnar Tract Unit: December 22 and 29, 1971 and January 8, 1972.

(2) Each hunter must have on his person a validated refuge hunting permit. Permits will be issued at the refuge on each day of the hunt on a first-come, first-served basis.

(3) No hunters will be permitted within hunting areas before 11:45 a.m. each day.

(4) All firearms must be encased and/or unloaded when outside designated hunting area.

(5) Each hunter who successfully takes a limit of mourning doves must leave the hunting area immediately.

(6) Retrievers used by hunters shall be under the control of the owner at all times.

(7) All hunters must check in and check out of the refuge at the designated checking station.

(8) All litter (paper, empty shell boxes, etc.) must be removed by individual hunters.

(9) Wounded or dead doves falling outside the hunting area may be recovered, but firearms must be left inside hunting area.

(10) Vehicle parking will be limited to areas designated by refuge personnel.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 8, 1972.

ERNEST C. MARTIN,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

JULY 29, 1971.

[FR Doc.71-11181 Filed 8-4-71;8:46 am]

PART 32—HUNTING

Certain National Wildlife Refuges in Arkansas, Tennessee, and Kentucky

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER (8-5-71).

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

ARKANSAS

HOLLA BEND NATIONAL WILDLIFE REFUGE

Public hunting of mourning doves on the Holla Bend National Wildlife Refuge, Ark., is permitted on two areas delineated by public hunting signs. These open areas comprising approximately 800 acres are delineated on a map available at refuge headquarters, Russellville, Ark. 72801, and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of mourning doves, subject to the following special conditions:

(1) Hunting dates: September 1, 6, and 11, 1971.

(2) Two hundred permits will be issued for each hunt. Only one permit will be issued to a hunter and permits are nontransferable. Applications for permits will be accepted from August 1 to 15. Each application may contain the name of only one hunter and must indicate a preference for either the 1st, 6th, or 11th.

(3) Retrievers used by hunters must be kept under control at all times.

(4) All firearms must be enclosed and/or unloaded when outside designated hunting areas.

(5) Hunters under 15 years of age must be accompanied by an adult.

(6) Hunting shall be from 12 noon until sunset each day of the hunt.

(7) No alcoholic beverages will be allowed in the hunting area.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 11, 1971.

§ 32.22 Special regulations; upland game, for individual wildlife refuge areas.

TENNESSEE

HATCHIE NATIONAL WILDLIFE REFUGE

The public hunting of squirrels and raccoons on the Hatchie National Wildlife Refuge is permitted on the area designated by signs as open to hunting. This open area comprising 8,417 acres is delineated on a map available at the refuge headquarters, Brownsville, Tenn. 38012 and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all State and Federal regulations subject to the following conditions:

Squirrels. (1) The open season for squirrels is August 28 through September 30, 1971.

(2) Only .22 caliber rifles or shotguns incapable of holding more than three shells are permitted.

(3) Dogs are prohibited.

(4) The hunting of feral hogs is permitted during this hunt.

Racoons. (1) The open season for raccoons will be October 15 through November 15, 1971.

(2) Hunting hours shall be from 7 p.m. to midnight.

(3) Axes, saws, or other cutting implements are prohibited.

The provisions of this special regulation supplement the regulations which

govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 15, 1971.

REELFOOT NATIONAL WILDLIFE REFUGE

Public hunting of raccoons and squirrels on the Reelfoot National Wildlife Refuge, Tenn., is permitted only on the area designated by signs as open to hunting. This open area, comprising 9,585 acres, is delineated on maps available at refuge headquarters, Samburg, Tenn., and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State regulations covering the hunting of raccoons and squirrels subject to the following special conditions:

Raccoons. (1) Raccoons may be taken, without limit, on both the North Unit and Grassy Island from October 4 through 9, 1971 and from October 11 through 16, 1971.

(2) Hunting hours shall be from 7:30 p.m. to 12:30 a.m.

(3) The use of guns and dogs is permitted.

(4) No axes, saws or other cutting implements will be permitted.

(5) A Federal permit will not be required; however, all hunters will be required to check in and check out at the designated check station, the location of which may be obtained from the Refuge Manager, Reelfoot National Wildlife Refuge, Samburg, Tenn.

Squirrels. (1) Squirrels may be hunted on the refuge from September 1 through September 30, 1971.

(2) The hunting of crows, woodchuck, and gray foxes, without limit, is permitted during the refuge squirrel hunt.

(3) Only shotguns incapable of holding more than three shells and .22 caliber rifles are permitted.

(4) Dogs are not permitted.

(5) A Federal permit is not required to enter this public shooting area.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 16, 1971.

LAKE ISOM NATIONAL WILDLIFE REFUGE

Public hunting of squirrels on the Lake Isom National Wildlife Refuge, Tenn., is permitted only on the area designated by signs as open to hunting. This open area, comprising 1,850 acres, is delineated on maps available at the refuge headquarters, Samburg, Tenn. and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State regulations covering the hunting of squirrels subject to the following special conditions:

(1) Squirrels may be hunted on the refuge from September 1 through 30, 1971.

(2) The hunting of crows, woodchuck, and gray foxes, without limit, is permitted during the refuge squirrel hunt.

(3) Only shotguns incapable of holding more than three shells and .22 caliber rifles are permitted.

(4) Dogs are not permitted.

(5) A Federal permit is not required to enter the public shooting area.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 1, 1971.

KENTUCKY

REELFOOT NATIONAL WILDLIFE REFUGE

Public hunting of raccoons and squirrels, on the Reelfoot National Wildlife Refuge, Ky., is permitted only on the area designated by signs as open to hunting. This open area, comprising 2,034 acres, is delineated on maps available at refuge headquarters, Samburg, Tenn., and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State regulations covering the hunting of raccoons and squirrels subject to the following special condition:

Raccoons. (1) Raccoons may be taken without limit on the refuge area from October 4 through 9, 1971 and from October 11 through 16, 1971.

(2) Hunting hours shall be from 7:30 p.m. to 12:30 a.m.

(3) The use of guns and dogs is permitted.

(4) No axes, saws, or other cutting implements will be permitted.

(5) A Federal permit will not be required; however, all hunters will be required to check in and out at the designated check stations, the location of which may be obtained from the Refuge Manager, Reelfoot National Wildlife Refuge, Samburg, Tenn. 38254.

Squirrels. (1) Squirrels may be hunted on the refuge from September 1 through 30, 1971.

(2) The hunting of crows, woodchuck, and gray foxes, without limit, is permitted during the refuge squirrel hunt.

(3) Only shotguns incapable of holding more than three shells and .22 caliber rifles are permitted.

(4) Dogs are not permitted.

(5) A Federal permit is not required to enter the public shooting area.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 16, 1971.

JULY 27, 1971.

PART 32—HUNTING

Agassiz National Wildlife Refuge, Minn.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8-5-71).

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

MINNESOTA

AGASSIZ NATIONAL WILDLIFE REFUGE

Public hunting of moose on the Agassiz National Wildlife Refuge, Minn., is permitted from sunrise to sunset October 2 to October 17, 1971, and from December 4 to December 19, 1971, all dates inclusive, on all areas except those designated by closed area signs. This open area comprises approximately 57,600 acres and is delineated on a map available at the refuge headquarters at Middle River, Minn., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Hunting shall be in accordance with all applicable State regulations subject to the following special conditions:

1. All parties hunting Agassiz National Wildlife Refuge are required to report to the Agassiz check station, located 11 miles east of Holt, Minn., before they begin to hunt.

2. All moose killed on Agassiz Refuge must be registered at the Agassiz Refuge check station within 48 hours of the kill.

3. All radio collars, neck collars, and ear tags on killed moose will remain the property of the Bureau of Sports Fisheries and Wildlife and will be returned to the Agassiz Refuge check station.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 19, 1971.

THOMAS D. ATKINS,
Acting Refuge Manager, Agassiz National Wildlife Refuge, Middle River, Minn.

JULY 30, 1971.

[FR Doc.71-11184 Filed 8-4-71;8:46 am]

PART 32—HUNTING

Arrowwood National Wildlife Refuge, N. Dak.

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER (8-5-71).

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NORTH DAKOTA

ARROWWOOD NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Arrowwood National Wildlife Refuge, N. Dak., is permitted only on the area designated by signs as open to hunting. This open area, comprising 15,900 acres, is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following conditions:

(1) Hunting with guns is not permitted.

(2) The open season for hunting deer on the refuge is from 12 noon to sunset on August 27, 1971, through sunset November 7, 1971, and from sunrise to sunset December 3, 1971, through December 31, 1971.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 31, 1971.

ARNOLD D. KRUSE,
Refuge Manager, Arrowwood National Wildlife Refuge, Edmunds, N. Dak.

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Part 19]

CUSTOMS WAREHOUSE AND CONTROL OF MERCHANDISE THEREIN

Proposed Increase in Charge for Intermittent WAE Customs Warehouse Officer

Notice is hereby given that under the authority contained in section 301 of title 5 of the United States Code and section 555 of the Tariff Act of 1930, as amended (19 U.S.C. 1555), it is proposed to amend the Customs Regulations to provide for reimbursement of the Government's contribution under the Federal Insurance Contributions Act and employee uniform allowance made for intermittent when-actually-employed employees when services by such employees are performed on a reimbursable basis. It is proposed that the charge for services of such employees be computed at a rate per hour equal to 107 percent of the hourly rate of the regular pay of such employees, such rate computed as follows:

	Percent
Gross hourly rate of intermittent WAE employees	100.0.
Federal Employees Contributions Act tax	5.2.
Employee uniform allowance	1.5.
Total	106.7. or 107.

The proposed regulation in tentative form is set forth below:

Section 19.5(b) is amended to include the following sentence after the second full sentence of the paragraph.

§ 19.5 Customs warehouse officer; compensation of.

* * * * * *

(b) * * * When services of a Customs warehouse officer or a Customs employee temporarily assigned to act as a Customs warehouse officer at a bonded warehouse are performed by an intermittent when-actually-employed employee, the charge for such services shall be computed at a rate per hour equal to 107 percent of the hourly rate of the regular pay of such employee to provide for reimbursement of the Government contribution under the Federal Insurance Contributions Act and employee uniform allowance. * * *

* * * * * *

Prior to the issuance of the proposed amendment, consideration will be given to any relevant data, views, or arguments which are submitted in writing to the Commissioner of Customs, Washington, D.C. 20226, and received not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

[SEAL] MYLES J. AMBROSE,
Commissioner of Customs.

Approved: July 27, 1971.

WILLIAM L. DICKEY,
Acting Assistant Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Oil Import Administration

[32A CFR Ch. X]

[Oil Import Reg. 1 (Rev. 5)]

IMPORTS OF RESIDUAL FUEL OIL TO BE USED AS FUEL; DISTRICT I

Notice of Proposed Rule Making

Several years' experience with respect to the making of allocations in District I of imports of residual fuel oil to be used as fuel, and the issuance of licenses, has indicated that the system now prescribed by section 12 of Oil Import Regulation 1 (Revision 5), as amended, is unduly cumbersome both for the Oil Import Administration and for importers of such oil. It appears that the purposes for which section 12 is designed could be accomplished more simply by providing for annual allocations based on business estimates within a maximum level prescribed by the Secretary for a particular allocation period. Accordingly, it is proposed to amend section 12 as set forth below. It is also proposed to amend section 5 of the regulations (as set forth below) to make that section applicable to applications for imports into District I of residual fuel oil to be used as fuel. It is contemplated that the proposed amendments would become effective with respect to the allocation period April 1, 1972 through March 31, 1973—that is, applications would have to be filed 60 days prior to April 1, 1972, and on the basis of such applications, allocations would be made for the allocation period April 1, 1972 through March 31, 1973. Final action on the proposed amendments will be subject to the concurrence of the Director of the Office of Emergency Preparedness.

Interested persons are invited to submit written comments on the proposed amendments before August 31, 1971, to the Administrator, Oil Import Administration, Department of the Interior, Washington, D.C. 20240. Each person who submits comments is asked to submit fifteen (15) copies.

R. W. SNYDER, JR.,
Acting Administrator, Oil Import Administration.

AUGUST 3, 1971.

1. Section 12 of Oil Import Regulation 1 (Revision 5), 32 F.R. 1175, would be amended to read as follows:

Sec. 12 Allocations of residual fuel oil—District I.

(a) This section provides for the making of allocations, for periods of 12 months beginning April 1, of imports into District I of residual fuel oil to be used as fuel in District 1.

(b) To be eligible for an allocation of imports into District I of residual fuel oil to be used as fuel, a person must:

(1) Be in the business in District I of selling residual fuel oil to be used as fuel and have under his management and operational control a deepwater terminal located in District I into which there has been delivered residual fuel oil to be used as fuel which he owned at the time of delivery, or

(2) Be in the business in District I of selling residual fuel oil to be used as fuel and have a throughput agreement (warehouse agreement) with a deepwater terminal operator under which agreement the person has delivered to the terminal residual fuel oil to be used as fuel which he owned when it was so delivered. For the purpose of this section, "throughput agreement" means an agreement which provides for the delivery to a deepwater terminal by a person of residual fuel oil which he owns and for a right in such person to withdraw on call an identical quantity of such oil from the terminal. A bona fide throughput agreement will be deemed to exist only if the person operating under the agreement owns the oil at the time it is delivered to the terminal.

(c) The maximum level of imports into District I of residual fuel oil to be used as fuel for a particular allocation period will be established by the Secretary. Within the level prescribed by the Secretary for a particular allocation period, the Administrator shall make allocations as requested by Federal agencies and of any quantity which may be awarded by the Oil Import Appeals Board. Within the balance of imports available for allocations during a particular allocation period, the Administrator shall make allocations according to paragraph (d) of this section.

(d) In an application for an allocation under this section, an applicant shall estimate the quantity of imports of residual fuel oil to be used as fuel that he will require to serve present and prospective customers in District I during the allocation period and shall certify that the estimate is made in good faith and in the exercise of his best business judgment. The Administrator may require further justification of an estimate or an adjustment of an estimate. The Administrator shall make an allocation to each eligible applicant of imports into District I of residual fuel oil to be used as fuel in the amount of the estimate shown in his application or, if an adjustment is made, in the amount of the estimate as adjusted.

(e) For good cause shown, the Administrator may adjust allocations during an allocation period within the maximum level of imports prescribed by the Secretary. The Administrator may recommend to the Secretary that adjustments be made in the maximum level of imports prescribed for an allocation period.

(f) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred.

2. Section 5 of Oil Import Regulation 1 (Revision 5) would be amended to read as follows:

Sec. 5 Applications for allocations and licenses.

Unless otherwise provided in this regulation, applications for allocations of imports of crude oil, unfinished oils, or finished products and for a license or licenses must be filed with the Administrator, in such form as he may prescribe, not later than 60 calendar days prior to the beginning of the allocation period for which the allocations are required. However, if the 60th day is a Saturday, Sunday, or holiday, the application may be filed on the next succeeding business day. This section does not apply to an application for an allocation pursuant to paragraph (c) of section 15.

[FR Doc.71-11311 Filed 8-3-71;4:12 pm]

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 52]

CANNED GRAPEFRUIT

Standards for Grades [1]; Drained Weight

Notice is hereby given that the U.S. Department of Agriculture is considering an amendment to the U.S. Standards for Grades of Canned Grapefruit (7 CFR 52.1141-52.1154) pursuant to the authority contained in the Agricultural Marketing Act of 1946 (sec. 205, 60 Stat. 1090, as amended, 7 U.S.C. 1624).

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendment should file the same in duplicate, not later than 30 days after publication hereof in the FEDERAL REGISTER, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250. All written submissions made pursuant to this notice will be available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27 (b)).

Statement of consideration leading to the proposed amendment. The sole purpose of this amendment is to correct a technical inequity in the existing standards.

Drained weight, a factor of quality in these standards, is based on the average drained weight of the sample except when any of the sample units are unusually low, in which case the score of each sample unit for this factor is based on the drained weight of each sample unit in the sample. The purpose of this provision is to properly penalize lots with excessive variation in the drained weights of the sample units.

In general the provision has served its purpose well. In a few instances, however, under official USDA grading the penalty for variations between containers becomes unrealistically restrictive because of the automatic application of other provisions in the acceptance procedures given in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables.

The amendment, in connection with Grade A, would permit any individual sample unit to score less than 15 points, instead of less than 16 points, before the provision to assign different score points for each individual sample unit would apply.

The effort of the amendment, as proposed, would be to prevent an occasional lot from being degraded to Substandard because of low individual drained weights when a more appropriate grade would be Grade A or Grade B depending on the actual variation of the drained weights.

The proposed amendment is as follows:

Section 52.1147 *Drained weight*, paragraph (b) would be revised to read as follows:

§ 52.1147 Drained weight.

* * * * * *

(b) (*A*) *Classification.* Canned grapefruit that has a drained weight of not less than 56.25 percent of the capacity of the container may be given a score of 18 to 20 points as indicated in Table I. Whenever more than one container of the product is being graded and the average drained weight of the containers indicates a score in this classification, the score point indicated by such average drained weight is assigned to each container; except that, if the drained weight of any individual container indicates a score of less than 15 points each container will be assigned the score for its own drained weight.

* * * * *

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable state laws and regulations.

(Sec. 205, 60 Stat. 1090, as amended, 7 U.S.C. 1624)

Dated: July 30, 1971.

G. R. GRANGE,
Deputy Administrator, Marketing Services.

SPEARMINT OIL PRODUCED IN THE STATES OF WASHINGTON, IDAHO, AND OREGON AND DESIGNATED PART OF CALIFORNIA, NEVADA, UTAH, AND MONTANA

Determination on Basis of Results of Referendum on Proposed Marketing Agreement and Order

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Richland, Wash., on February 24-26, 1971, pursuant to a notice thereof which was published in the February 2, 1971, issue of the FEDERAL REGISTER (36 F.R. 1535) upon a proposed marketing agreement and order regulating the handling of spearmint oil produced in the designated production area. The recommended decision (36 F.R. 9640) and the decision (36 F.R. 12232) setting forth the proposed marketing agreement and order were published in the FEDERAL REGISTER on May 27, 1971, and June 29, 1971, respectively. The decision also contained a referendum order directing that a referendum be conducted among the producers of spearmint oil produced in the designated production area to determine whether the requisite majority of such producers favor issuance of the proposed marketing order.

It is hereby determined on the basis of the results of such referendum conducted July 1 through July 12, 1971, pursuant to the aforesaid referendum order, that the issuance of the proposed Marketing Order No. 934, regulating the handling of spearmint oil produced in the States of Washington, Idaho, and Oregon and designated part of California, Nevada, Utah, and Montana is not favored (1) by at least two-thirds of the producers participated in such referendum and who during the determined representative period (June 1, 1970, through May 31, 1971) were engaged within the designated production area in the production for market of spearmint oil produced in such production area, or (2) by producers of at least two-thirds of the volume of production of such spearmint oil represented in the aforesaid referendum.

It is hereby found and determined that the proposed order set forth in the decision of June 29, 1971 (36 F.R. 12232),

should not be made effective and, in view of the circumstances, that the proposed marketing agreement should not be entered into.

Dated: July 30, 1971.

RICHARD E. LYNG,
Assistant Secretary.

[7 CFR Part 1094]

[Docket No. AO 103-A32]

MILK IN NEW ORLEANS, LA., MARKETING AREA

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Notice is hereby given of a public hearing to be held August 11, 1971, at Fontainebleau Motor Hotel, 4040 Tulane Avenue, New Orleans, LA, beginning at 9:30 a.m., local time, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the New Orleans, La., marketing area.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The hearing shall consider also what milk should be eligible for diversion and the point of receipt of diverted milk for the purpose of applying location differentials. In considering these subjects and the proposals set forth herein, § 1094.14 in its entirety shall be open for modification on the basis of this hearing.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by Dairymen, Inc.:

Proposal No. 1. Amend § 1094.14 (c) (1) and (c) (2) to read as follows:

(1) A cooperative association may divert for its account the milk of any member-producer without limit during the month if the total volume of milk so diverted does not exceed 35 percent of its member-producer milk physically received at all pool plants during the month: *Provided,* That if the percentage limitation is exceeded all diversions by such association during the month shall be subject to the 15-day limitation prescribed above.

(2) A handler in its capacity as the operator of a pool plant may divert for his account the milk of any nonmember producer without limit during the month if the total volume of nonmember milk so diverted does not exceed 35 percent of the nonmember producer milk physically received at such pool plant during the month: *Provided,* That if this percentage limitation is exceeded all diversions by such handler during the month shall be subject to the 15-day limitation prescribed above.

Proposal No. 2. Amend § 1094.10(c) to read as follows:

(c) Any supply plant that was a pool plant during each of the months of August through November immediately preceding shall continue to be a pool plant and any supply plant that was a pool plant pursuant to paragraph (b) of this section during each of the months of August through November shall continue to be a pool plant the following months of December through July, unless the operator notifies the market administrator in writing before the first day of any such month of its intent to withdraw such plant as a pool plant, in which case, such plant shall thereafter be a nonpool plant except in any month it qualifies as a supply plant pursuant to paragraph (b) of this section; and

Proposal No. 3. Amend § 1094.10(d) to read as follows:

(d) A plant other than a distributing plant which is operated by a cooperative association and which does not meet the requirements of paragraph (b) or (c) of this section in any of the months in which the volume of milk received at pool distributing plants from member-producers of such cooperative association plus milk which was transferred thereto from the plant(s) operated by the cooperative association is not less than 35 percent of the total pounds of such association's member-producer milk (including that milk received at such plant) if written request is made to the market administrator by the cooperative association prior to or during the month that the plant be a pool plant pursuant to the provision for the month, or for each month, such request to be effective until withdrawn.

Proposal No. 4. Amend the order by adding a new subdivision, between § 1094.44(c)(3)(ii) and § 1094.44(c)(3)(iii) to read as follows:

Skim milk and butterfat transferred to a nonpool plant shall be assigned to the skim milk and butterfat in transfers of milk, skim milk, and cream in bulk from the nonpool plant to pool plants classified as if it were a direct transfer pursuant to paragraph (a) of this section from one pool plant to another pool plant with the Class II utilization indicated: *Provided,* That if the classification limitations provided in paragraph (a) of this section result in any skim milk or butterfat being classified as Class I from pool plants of two or more handlers, such classification shall be shared pro rata between such handlers unless at or before the time of reporting signed statements by operators of such plants indicate agreement on a different sharing of such Class I classification.

Proposal No. 5. Amend § 1094.51(b) to read as follows:

(b) *Class II price.* The Class II price shall be the basic formula price for the month computed pursuant to § 1094.50 provided that the price for milk, skim milk, and cream used in the manufacture of American cheese, butter, and nonfat dry milk shall be 25 cents less subject to the following limitations:

(1) For the purpose of computing the Class II price, credit the volume of milk used in a pool plant for the manufacture of American cheese, butter, and nonfat dry milk shall be reduced by the volume of milk received from other handlers under this order or any other order, on which a similar price credit has been allowed.

(2) Milk used in the manufacture of American cheese, butter, and nonfat dry milk within a nonpool plant which has received milk from a handler(s) regulated under this or any other order which permits a similar price credit, shall be prorated among such handlers, for the purpose of determining the amount of price credit to be allowed such handlers.

Proposed by Borden, Inc.:

Proposal No. 6. In § 1094.17, delete the word "yogurt" from the definition of a Class I product.

Proposed by Gold Seal Creamery, Inc.:

Proposal No. 7. Amend § 1094.10(b) to read as follows:

(b) A supply plant from which during the month an amount equal to 35 percent or more of its receipts of milk from dairy farmers which is eligible for distribution in the marketing area under a Grade A label is moved to and received at a pool plant(s) described in paragraph (a) of this section.

Proposal No. 8. Amend § 1094.14(c) by deleting: "but not more than 15 days' production of any dairy farmer during any such month:" to read "but not more than 20 days' production of any dairy farmer during any said month."

Proposal No. 9. Amend § 1094.53 by adding a new paragraph (c) and in the same section redesignate current paragraph (c) as paragraph (d):

(c) For (1) milk received from producers at a pool plant more than 50 miles, by the shortest toll-free highway distance, as determined by the market administrator, from the nearer of the City Hall in New Orleans or the Terrebonne Parish, Courthouse, Houma, La., and classified as Class II; and (2) for milk received from producers at a pool plant 50 miles or less from the basing points in New Orleans or Houma and classified as Class II pursuant to § 1094.41 (b) (3), (4), and (6) shall be reduced by 13.5 cents.

Proposal No. 10. Add subparagraph (5) to § 1094.51(b), Class Price, to read as follows:

(5) Subtract 35 cents for milk delivered over 125 miles to cheese plants of condenseries, from pool or supply plants.

Proposed by the Dairy Division, Consumer and Marketing Service:

Proposal No. 11. Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, William J. Larzelere, Post Office Box 456, Metairie, LA 70004, or from the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

Signed at Washington, D.C., on August 2, 1971.

JOHN C. BLUM,
Deputy Administrator, Regulatory Programs.

[Docket No. N-71-102]

INTERSTATE LAND SALES FULL DISCLOSURE ACT

Enforcement Proceedings Provision Implementation; Notice of Hearing

On January 21, 1971, proposed informal procedures and rules of practice (Part 1720) were published inviting comment on the proposed regulations to implement the enforcement proceedings of the Interstate Land Sales Full Disclosure Act.

On February 24, 1971, notice of proposed rule making (Part 1710) was published inviting comment on the proposed revision of the regulations promulgated pursuant to the Interstate Land Sales Full Disclosure Act.

The Administrator of the Office of Interstate Land Sales Registration as a result of comments received on the notice of proposed rule making and proposed informal procedures and rules of practice finds that it is appropriate in the public interest in carrying out the provisions of the Interstate Land Sales Full Disclosure Act that an informal public proceeding of record be conducted with an opportunity for all interested parties, by their counsel if they so desire, to present oral comment with respect to Parts 1710 and 1720 of the regulations.

Opportunity will be afforded for an exchange of comments between representatives of consumer organizations, interested State regulatory officials and others regarding the land sales industry.

Accordingly, notice is hereby given that an informal proceeding will be held in Conference Room 7233, 7th floor, Department of HUD Building, 451 Seventh Street SW., Washington, D.C., at 10 a.m., e.d.t., on August 16 and August 17, 1971.

Persons wishing to appear and make statements should file with the Rules Docket Clerk, Room 10256, Office of the General Counsel, a request to be allocated time for their respective statements. Time will also be allocated for unscheduled appearances.

Issued at Washington, D.C., August 2, 1971.

EUGENE A. GULLEDGE,
Assistant Secretary for Housing Production and Mortgage Credit.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 11281]

HAWKER SIDDELEY MODEL DH-104 "DOVE" AIRPLANES

Proposed Airworthiness Directive

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Hawker Siddeley Model DH-104 "Dove" airplanes. There has been a case of fatigue cracking adjacent to the ball race housing connecting with the short reversal link on the upper arm of the rudder control pedal reversal lever, P/N 4CF.767A. The cracking reduced the effective cross-sectional area of the lever arm and resulted in failure of the rudder control pedal reversal lever. Failure of this lever could result in jamming and loss of rudder control. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require periodic inspection of the upper arm of the rudder control pedal reversal lever for cracks, using a dye penetrant method, and a visual inspection for mechanical damage, and the replacement of cracked parts and the repair of damaged parts.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, GC-24, 800 Independence Avenue SW., Washington, DC 20590. All communications received on or before September 3, 1971, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following airworthiness directive:

HAWKER SIDDELEY AVIATION. Applies to Hawker Siddeley Model DH-105 "Dove" airplanes.

Compliance is required as indicated.

To detect cracks in the upper arm of the rudder control pedal reversal lever, P/N 4CF.767A, accomplish the following:

(a) Within the next 200 hours' time in service after the effective date of this AD, unless already accomplished within the last 2,200 hours' time in service, and thereafter at intervals not to exceed 2,400 hours' time in service from the last inspection, inspect the upper arm of the rudder control pedal reversal lever, P/N 4CF.767A, for cracks, using a dye penetrant method, in accordance with Hawker Siddeley Technical News Sheet Series: CT(104) No. 219, Issue I, dated October 19, 1970, or later ARB-approved issue or FAA-approved equivalent. If no cracks are found, visually inspect the upper radiused surface of the upper arm of the rudder control reversal lever for marks or other evidence of mechanical damage.

(b) If a crack is found during an inspection required by paragraph (a), before further flight replace the rudder control pedal reversal lever, P/N 4CF.767A, with a new part of the same part number and continue to inspect in accordance with paragraph (a).

(c) If marks or other evidence of mechanical damage are found during an inspection required by paragraph (a), before further flight smoothly blend out the marks and renew the protective treatment, using selenious acid treatment, and repaint the part. After refitting the part, continue to inspect in accordance with paragraph (a).

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on July 29, 1971.

R. S. SLIFF,
Acting Director, Flight Standards Service.

[FR Doc.71-11191 Filed 8-4-71;8:47 am]

[14 CFR Part 39]

[Docket No. 11282]

HAWKER SIDDELEY MODEL DH-114 "HERON" AIRPLANES

Proposed Airworthiness Directive

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Hawker Siddeley Model DH-114 "Heron" airplanes. There has been a case of fatigue cracking adjacent to the ball race housing connecting with the short reversal link on the upper arm of the rudder control pedal reversal lever, P/N 4CF.767A, on a Hawker Siddeley "Dove" airplane. The cracking reduced the effective cross-sectional area of the lever arm and resulted in failure of the rudder control pedal reversal lever. Failure of this lever could result in jamming and loss of rudder control. Since the rudder control pedal reversal lever for the "Dove" airplane is the same as that for the "Heron" airplane the same condition is likely to exist or develop in the "Heron," and the proposed airworthiness directive would require periodic inspection of the upper

arm of the rudder control pedal reversal lever for cracks, using a dye penetrant method, and a visual inspection for mechanical damage, and the replacement of cracked parts and the repair of damaged parts.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, GC-24, 800 Independence Avenue SW., Washington, DC 20590. All communications received on or before September 3, 1971, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following airworthiness directive:

HAWKER SIDDELEY AVIATION. Applies to Hawker Siddeley Model DH-114 "Heron" airplanes.

Compliance is required as indicated.

To detect cracks in the upper arm of the rudder control pedal reversal lever, P/N 4CF.767A, accomplish the following:

(a) Within the next 200 hours' time in service after the effective date of this AD, unless already accomplished within the last 2,200 hours' time in service, and thereafter at intervals not to exceed 2,400 hours' time in service from the last inspection, inspect the upper area of the rudder control pedal reversal lever, P/N 4CF.767A, for cracks using a dye penetrant method in accordance with Hawker Siddeley Technical News Sheet Series: "Heron" 114, No. C.F. 15, Issue 1, dated October 19, 1970, or later ARB-approved issue or FAA-approved equivalent. If no cracks are found, visually inspect the upper radiused surface of the upper arm of the rudder control reversal lever for marks or other evidence of mechanical damage.

(b) If a crack is found during an inspection required by paragraph (a), before further flight replace the cracked part with a new part of the same part number and continue to inspect in accordance with paragraph (a).

(c) If marks or other evidence of mechanical damage are found during an inspection required by paragraph (a), before further flight smoothly blend out the marks and renew the protective treatment, using a selenious acid treatment, and repaint the part. After refitting the part, continue to inspect in accordance with paragraph (a).

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), and 1423) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on July 29, 1971.

R. S. SLIFF,
Acting Director,
Flight Standards Service.

[FR Doc.71-11192 Filed 8-4-71;8:47 am]

[14 CFR Part 39]

[Docket No. 11283]

HAWKER SIDDELEY MODEL DH-114, SERIES 2, "HERON" AIRPLANES

Proposed Airworthiness Directive

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Hawker Siddeley Model DH-114, Series 2, "Heron" airplanes. There have been reports of cracks in the lugs on the main undercarriage down lock operating lever, P/N 14-2U.573, which is the basic casting of the down lock operating lever assembly, P/N 14-2U.181A/1 (post-Modification 608), and in the basic casting that could cause failure of the down lock operating lever and result in wheels-up landings. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require inspection using a dye penetrant method of the main undercarriage down lock operating lever assembly for cracks; and the replacement of assemblies found to be cracked. Cracked assemblies, P/N 14-2U.181A (pre-Modification 608), may be replaced with new or serviceable assemblies of the same part number, or by improved assemblies, P/N 14-2U.181A/2. Cracked assemblies, P/N 14-2U.181A/1 (post-Modification 608), must be replaced with improved assemblies, P/N 14-2U.181A/2.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, GC-24, 800 Independence Avenue SW., Washington, DC 20590. All communications received on or before September 3, 1971, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

In consideration of the foregoing, it is proposed to amend § 39.13 of the Federal Aviation Regulations by adding the following new airworthiness directive:

HAWKER SIDDELEY. Applies to Hawker Siddeley Model DH-114, Series 2, "Heron" airplanes which do not incorporate Heron Modification 1592, Part A.

Compliance is required as indicated.

To prevent failure of the main undercarriage down lock operating lever assembly, accomplish the following:

(a) For airplanes with main undercarriage down lock operating lever assembly, P/N 14-2U.181A (pre-Modification 608), within the next 150 hours' time in service after the effective date of this AD unless accomplished within the last 150 hours' time in service, remove the lever assembly from the airplane, remove the protective coating and paint from the assembly and inspect for cracks, using a dye penetrant method, in accordance with Hawker Siddeley Technical News Sheet Series: Heron (114) No. U.12, Issue 1, dated April 13, 1970, or later ARB-approved issue or FAA-approved equivalent. If no cracks are found visually inspect the lever assembly for corrosion.

(b) If cracks, or corrosion that cannot be removed by cleaning are found during the inspection required by paragraph (a), before further flight replace the affected part with a serviceable part of the same part number or replace the lever assembly with a new lever assembly, P/N 14-2U.181A/2, in accordance with Hawker Siddeley "Heron" Modification 1592.

(c) For airplanes with main undercarriage down lock operating lever assembly, P/N 14-2U.181A/1 (post-Modification 608), within the next 150 hours' time in service after the effective date of this AD, or within 300 hours' time in service from the last inspection, whichever occurs later, and thereafter at intervals not to exceed 300 hours' time in service from the last inspection, remove the lever assembly from the airplane, remove the protective coating and paint from the assembly and inspect for cracks, using a dye penetrant method, in accordance with Hawker Siddeley Technical News Sheet Series: Heron (114) No. U.12, Issue 1, dated April 13, 1970, or later ARB-approved issue or FAA-approved equivalent.

(d) If cracks are found during an inspection required by paragraph (c), before further flight replace the lever assembly with a new lever assembly, P/N 14-2U.181A/2 in accordance with Hawker Siddeley "Heron" Modification 1592.

(e) The repetitive inspections required by paragraph (c) may be discontinued after lever assembly, P/N 14-2U.181A/2, has been installed in accordance with Hawker Siddeley "Heron" Modification 1592.

(f) Replacement parts and serviceable parts that are reinstalled must be protected with a coat of lanolin, or FAA-approved equivalent prior to their installation in the airplane.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on July 29, 1971.

R. S. SLIFF,
Acting Director,
Flight Standards Service.

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket 71-18; Notice 1]

TIRES FOR MULTIPURPOSE PASSENGER VEHICLES, TRUCKS, BUSES, TRAILERS, AND MOTORCYCLES

Proposed Motor Vehicle Safety Standard

The purpose of this notice is to propose a new motor vehicle safety standard, No. 119, for tires for use on multipurpose passenger vehicles, trucks, buses, trailers, and motorcycles. An advance notice of proposed rulemaking on the subject was issued on Ocober 14, 1967 (32 F.R. 14280), and a public meeting was held on June 1 and 2, 1970.

Approximately 15 percent of the domestic tire production is for these vehicles. The vehicle mileage of the group is, however, considerably higher than that percentage of the total. These vehicles are involved in approximately 14 percent of the motor vehicle accidents, and the fatality rate in this group of accidents is higher than the rate for all vehicles. Tire technology has advanced rapidly in recent years, but tire failure is still a frequent cause of vehicle disablement, and one that is often accompanied by sudden impairment or loss of vehicle control. Thus, a performance standard for tires for use on vehicles other than passenger cars appears to be fully justified.

On the basis of the discussion at the June 1970 public meeting, and other comments and information received, the "single system" that was suggested at the meeting, providing one universal load and inflation table for each tire, has not been adopted in this proposal. The standardization work that is presently in process has not progressed sufficiently to allow for the universal concept of one table. This proposal is therefore based on the current basic industry criteria for dimensions, size designations, load and inflation values, and test procedures, and represents an interim position pending international standardization in these areas. The criteria selected, based on the geographic areas of greatest usage, are those of the American Tire and Rim Association for bias-ply tires and tires for recreational, boat and special trailer usage, of the European Tyre and Rim Technical Organisation for radial-ply tires, and the Japan Automobile Tire Manufacturers Association for motorcycle tires.

As recommended by several of the manufacturers' associations, the load range concept has been adopted in this proposal as a basis for test performance requirements, with the letter denoting the tire's range marked on the tire. It is expected that this concept will further the process of standardization of tire designations, and is already in wide use throughout the user industries.

The proposed test for strength determination is based on the load range of the tire, using 5/16-inch, 1/2-inch, 3/4-inch, and 1 1/4-inch diameter plungers on previously untested tires.

The endurance and high-speed test loads are the values in use by the industry, corrected for use with a curved test surface (the 67.23-inch-diameter wheel).

Instead of the "city-suburban" and "city (only)" designations for certain bus tires that presently are in common use, the proposed standard includes provisions for maximum speed ratings on the tires intended for such use. Unrestricted bus tires would be tested in the same manner as other tires. Comments are requested on the possibility of eliminating some of the speed categories, such as by combining the 55-m.p.h. and 50-m.p.h. categories.

The endurance test schedule proposed would require slower test speeds for the heavier tires in the higher load ranges, as is done in current industry testing, in order to compensate for the higher buildup of heat in these tires. Comments are specifically requested on the feasibility of establishing consistent test parameters for all tires, and on suggested test methods to accompany them.

Under this proposal, each tire would have to meet requirements that are qualitatively similar to those in Standard No. 109 for passenger car tires. A given tire would be generally required to meet the performance requirements when mounted on any rim listed as suitable for its size designation in the publications, current at the time of the tire's manufacture, of the tire and rim associations that are listed in the standard. It would be required to meet the dimensional requirements when mounted on any such rim of the width listed in the load-inflation tables of this standard. However, a tire manufacturer would be able to make exceptions to this requirement, and deny the appropriateness of a listed rim for use with a tire, by permanently marking the tire with the information that the tire is not to be used with specified rim designations. It is assumed that this exception procedure would not normally be necessary, since the associations generally provide tire-rim matches that are agreed on by their member manufacturers. In addition to the permanent marking for any nonmatching listed rims, each tire manufacturer would be required to attach to the tire, for the information of distributors, dealers and users, a label listing the designations of rims appropriate for use with the tire.

Proposed effective date: September 1, 1972.

Interested persons are invited to submit written data, views, and arguments concerning the proposed standard. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5217, 400 Seventh Street SW., Washington DC 20591. It is requested, but not required, that 10 copies be submitted. All comments received before the close of business on November 2, 1971, will be considered, and will be available for examination in the docket room at the above address both before and after the closing date. To the extent possible, comments filed after the closing date will be considered by the Administration. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The Administration will continue to file relevant material, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

This notice of proposed rulemaking is issued under the authority of sections 103, 112, 113, 114, 119, and 201 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1392, 1401, 1402, 1403, 1407, 1421), and the delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.

Issued on July 29, 1971.

ROBERT L. CARTER,
Acting Associate Administrator,
Motor Vehicle Programs.

§ 571.21 Federal Motor Vehicle Safety Standards.

* * * * * *

MOTOR VEHICLE SAFETY STANDARD NO. 119

NEW PNEUMATIC TIRES—MULTIPURPOSE PASSENGER VEHICLES, TRUCKS, BUSES, TRAILERS, AND MOTORCYCLES

S1. *Scope.* This standard establishes performance, marking, and dimensional requirements for tires for use on motor vehicles other than passenger cars.

S2. *Purpose.* The purpose of this standard is to provide safe operational performance levels for tires used on motor vehicles other than passenger cars, and to have information marked on the tires sufficient for their proper selection and use.

S3. *Application.* This standard applies to new pneumatic tires for use on multipurpose passenger vehicles, trucks, buses, trailers, and motorcycles manufactured after 1948.

S4. *Definitions.* All terms defined in the Act and the rules and standards issued under its authority are used as defined therein.

S5. *Requirements.* Each tire shall be capable of meeting any of the requirements set forth below, when mounted on a rim selected in accordance with S5.1. However, a particular tire need not meet further requirements after having been subjected to, and having met the requirements of, either the endurance test (S6.2), the strength test (S6.3), or the high speed performance test (S6.4).

S5.1 *Tire and rim matching.* Each tire shall be capable of meeting the requirements of—

(a) S5.3, S5.4, and S5.5 when mounted on any rim, except for nonmatching rims designated in accordance with S5.1.2, listed as appropriate for that tire size designation in the publications specified in S5.1.1; and

(b) S5.2 when mounted on any rim, listed as in (a), that is of the width specified in Table I, II, III, or IV of Appendix A for its tire size designation.

S5.1.1 The rims to be matched with a given tire in accordance with S5.1 shall be those so listed in the publications, current at the time of manufacture of the tire, of the following organizations:

The Tire and Rim Association.
The European Tyre and Rim Organisation.
Japan Standards Association.
The Japan Automobile Tire Manufacturers Association.
Deutsche Industrie Norm.
The Society of Motor Manufacturers & Traders, Ltd.
Scandinavian Tire and Rim Organization.

S5.1.2 If a tire is—

(a) Listed in the publications specified in S5.1.1 as appropriate for matching with one or more rim designations; and

(b) Determined by its manufacturer not to be appropriate for matching with one or more of those rim designations; then the tire shall be permanently marked or labeled with the words "Not To Be Used With" followed by the designations of all such nonmatching rims.

S5.1.3 Each tire shall have affixed to it a label listing the designation of each rim that is appropriate for use with that tire. The label may be detachable, but shall be affixed in such a manner that it will not become inadvertently detached in the normal course of the tire's distribution.

S5.2 *Physical dimensions.* The average overall width at any set of locations and the overall diameter of the tire when mounted on a rim of the width specified in Table I, II, III, or IV of Appendix A for its size designation, measured in accordance with S6.1, shall be not more than the dimensions specified in those tables.

S5.3 *Endurance.* When tested in accordance with the endurance test specified in S6.2—

(a) There shall be no separation, splitting, or breaking of any portion or component of the tire;

(b) Immediately after the first test period (the time specified in column I of Table VI), the tire pressure shall be not less than the adjusted pressure at the beginning of the test; and

(c) The tire pressure as measured at the end of the 15-minute interval in S6.2(h) shall not differ by more than 2 p.s.i. from the pressure as measured at the beginning of the interval.

S5.4 *Strength.* When tested in accordance with S6.3, the tire's average breaking energy value shall be not less than the applicable value specified in Table V.

S5.5 *High speed performance.* When tested in accordance with the high speed performance test specified in S6.4, the tire shall meet the requirements set forth in S5.3 (a) and (c). This requirement applies only to motorcycle tires, traller tires listed in Table IV of Appendix A, and tires with no speed restriction that have the suffix ST, TR, or LT.

S5.6 *Treadwear indicators.* The tire shall have at least six treadwear indicators, spaced approximately equally around the circumference of the tire. The indicators shall enable a person inspecting the tire to determine visually whether the tire has worn to a depth, in the case of any tire except a motorcycle tire, of one-sixteenth of an inch, and in the case of a motorcycle tire, of one thirty-second of an inch. The indicators shall, as a minimum, show treadwear—

(a) At points on the tread not more than one-fourth of the tread width from the edge of the tread; and

(b) At points not farther from the tread centerline than the shortest distance of a tread groove from the centerline. For the purpose of this requirement, "tread groove" means any tread opening or space between raised tread elements, regardless of direction or configuration.

S5.7 *Tire marking.* The tire shall be marked on each sidewall, except as otherwise specified, in locations described in figure 1 of Part 574 of this chapter (the Tire Identification and Record Keeping regulations), with the information specified in (a) through (i) below. The marking shall be raised above or sunk below the tire surface not less than 0.020 inch and not more than 0.040 inch.

(a) The symbol DOT, which shall constitute a certification that the tire conforms to applicable Federal motor vehicle safety standards. This symbol need be shown only on one sidewall.

(b) The tire identification number required by Part 574 of this chapter. This number need be shown only on one sidewall.

(c) The tire size designation. This shall be one of those shown in Table I, II, III, or IV of Appendix A, as applicable according to the tire's type of construction and intended use.

(d) The maximum load rating and inflation pressure, shown as follows:

Maximum Load Single ------ lbs. at ------ Inflation Pressure.
Maximum Load Dual ------ lbs. at ------ Inflation Pressure.

The inflation pressure shown for single-tire usage shall be one of those shown in the applicable table of Appendix A, and the maximum load rating for single-tire usage shall be the figure given in the table for that pressure. The load rating and inflation pressure shown for dual-tire usage shall be as determined by the tire manufacturer, except that the maximum inflation pressure shall be not more than the figure shown for single-tire usage, and the maximum load shall be not more than 95 percent of the figure shown for single-tire usage.

(e) The speed restriction of the tire, if any, by the words: "Max. speed ___ m.p.h." A maximum speed may be shown only for the tire sizes and load ranges listed in Tables I–F and I–G of Appendix A, and the speed shown shall be an applicable one listed in that table.

(f) The actual number of plies and the composition of the ply cord material in the sidewall, and if different, in the tread area.

(g) The words "tubeless" or "tube type", as applicable.

(h) The word "regroovable", if the tire is designed for regrooving.

(i) A letter designating the tire load range. This letter shall be the one listed in Table I, II, III, or IV of Appendix A, as applicable, for the tire size designation and the maximum load for single-tire usage marked on the tire in accordance with S5.7(d). The applicable letter shall be the first one to the right of the maximum load value in the table.

S6. *Test procedures.*

S6.1 *Physical dimensions.*

(a) Mount the tire on the rim and inflate it to the pressure marked on the tire for maximum load for single-tire usage.

(b) Condition the tire-rim assembly at an ambient temperature of 70° F. for 24 hours.

(c) Readjust the tire pressure to that specified in (a).

(d) Measure the overall width of the tire at six points equally spaced around the tire circumference, and compute the average of these measured values.

(e) Measure the maximum circumference of the tire. The overall diameter of the tire is this value divided by pi.

S6.2 *Endurance.*

(a) Mount the tire on the rim and inflate it to the pressure marked on the tire for maximum load for single-tire usage.

(b) Condition the tire-rim assembly at an ambient temperature of 100° F. for 3 hours.

(c) Readjust the tire pressure to that specified in (a).

(d) Mount the tire-rim assembly on an axle and press it against a flat-faced steel test wheel that is 67.23 inches in diameter and at least as wide as the tread width of the tire.

(e) During the test, including the pressure measurements, maintain the temperature of the ambient air, as measured 12 inches from each point on the tire sidewall, at 100° F. Locate the temperature sensor so that its readings are not affected by heat radiation, drafts, variations in the temperature of the surrounding air, or guards and other devices.

(f) Apply the applicable test loads and rotate the tire at the indicated speed in Table VI of Appendix A. Conduct the test without interruption except to measure the tire pressure immediately after the end of the first test period (specified in column I of Table VI).

(g) After running the tire for the required distance, allow the tire-rim assembly to cool, without readjusting the inflation pressure until the tire shoulder temperature reaches 100° F. or until 2 hours elapse, whichever occurs last. Determine the tire shoulder temperature by inserting a temperature probe three-eighths of an inch into a raised tread element one-half inch from the outer edge of the tread, or if there is no raised element at that point, at the center of the outermost raised element.

(h) Measure the tire inflation pressure at the end of the cooling period, and again 15 minutes later.

S6.3 *Strength.*

(a) Mount the tire on the rim and inflate it to the pressure marked on the tire for maximum load for single-tire usage.

(b) Condition the tire-rim assembly at an ambient temperature of 70° F. for 3 hours.

(c) Readjust the tire pressure to that specified in (a).

(d) Force a cylindrical steel plunger, with a hemispherical end and of the diameter specified in Table V–A for the tire, perpendicularly into a raised tread

element as near as possible to the centerline of the tread, at a rate of 2 inches per minute, until the tire breaks or the plunger is stopped by the rim.

(e) Record the force and the distance of penetration just before the tire breaks, or if it fails to break, just before the plunger is stopped by the rim.

(f) Repeat the plunger application at 72° intervals around the circumference of the tire, until five measurements are made.

(g) Compute the breaking energy for each test point by the following formula:

$$W = \frac{FP}{2}$$

where
W = Breaking energy,
F = Force in pounds, and
P = Penetration in inches.

(h) Determine the average breaking energy value for the tire by computing the average of the five values obtained in accordance with S6.3(g).

S6.4 *High speed performance.*

(a) Perform steps (a) through (e) of S6.2

(b) Apply the applicable test load specified in Table VII, and rotate the tire at 50 m.p.h. for 2 hours.

(c) Remove the load, allow the tire to cool to 100° F., and then readjust the pressure to that marked on the tire for minimum load for single-tire usage.

(d) Reapply the load, and without interruption or readjustment of inflation pressure, rotate the tire at 75 m.p.h. for 30 minutes, then at 80 m.p.h. for 30 minutes, and then at 85 m.p.h. for 30 minutes.

(e) Perform steps (g) and (h) of S6.2.

S7. *Requirements for reclassified tires.* Reclassified tires may be sold by the manufacturer under the following conditions only:

S7.1 *Marking.* Each reclassified tire shall be conspicuously marked on both sidewalls with the information described in subparagraphs (a) through (d) of this paragraph, which shall be permanently molded into or onto the tires. Other marking required by S5.7 of this standard shall be removed.

(a) Size designation.

(b) Name of manufacturer or brand name and approved code mark.

(c) Serial number that enables the manufacturer or brand name owner to identify the week and year of production.

(d) The words "tubeless" or "tube type", as applicable.

S7.1.1 Each reclassified tire shall have the words "Unsafe for Highway Use" impressed on both sidewalls in letters not less than one-half of an inch high between the maximum section width and tread. The depth and the stroke of the letters shall be not less than one-sixteenth of an inch.

S7.2 *Labeling.* Each reclassified tire shall have two labels affixed to the tread surface, approximately 180° apart, in a manner so that they are not easily removable, and containing the following information in the English language in lettering not less than three thirty-seconds of an inch high:

(a) Name of manufacturer;

(b) The word "Manufactured", followed by the week of the year and the year, expressed numerically, as "25–72."

(c) The following statement:

This Tire Does Not Conform to the Requirements of Federal Motor Vehicle Safety Standards and Should Not Be Used On Vehicles That Travel on the Public Roads. Anyone Who Sells This Tire for Use on Such Vehicles, or Who Removes This Label Before Sale to the User, or Who Removes or Alters the Legend "Unsafe for Highway Use" Imprinted on This Tire Is Subject to a Civil Penalty of up to $1,000.

S7.3 *Reporting.* On January 31, 1973, each manufacturer reclassifying tires to which this standard applies shall submit to: Reclassified Tires, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, DC 20591, a report containing the information specified below for the period covering September 1, 1972, through December 31, 1972. Thereafter each such manufacturer shall submit a report containing the information specified below on July 31 of each year for the period covering the preceding January 1 to June 30 and on January 31 of each year for the period covering the preceding July 1 to December 31.

(a) The number of tires reclassified that are not certified as meeting this standard and that are reclassified and branded "Unsafe for Highway Use."

(b) A list of the serial numbers of the tires reclassified and the distributors or dealers to whom these tires were sold.

APPENDIX A—FEDERAL MOTOR VEHICLE SAFETY STANDARD NO. 119

TABLE I-A—BIAS PLY TYPE—SINGLE TIRE USAGE—NORMAL—HIGHWAY SERVICE

Maximum tire loads, measuring rims, maximum overall widths and diameters, load range designations[1] for ultra light truck, light truck, bus, trailer, and multipurpose passenger vehicle tires:

Tire size designation	Maximum tire loads (pounds) at various cold inflation pressures (p.s.i.)															Measuring rim width (inches)	Maximum overall tire width (inches)	Maximum overall tire diameter (inches)
	30	35	40	45	50	55	60	65	70	75	80	85	90	95	100

[1] The load range letter adjacent to the load values indicates the maximum permissible load and/or inflation pressure for that load range with that particular tire.

[2] The letter "C" may be included in any tire size designation adjacent to the "LT".

TABLE I-B—BIAS PLY TYPE—SINGLE TIRE USAGE—NORMAL HIGHWAY SERVICE

Maximum tire loads, measuring rims, maximum overall widths and diameters, load range designations [1] for truck, bus, trailer, and multipurpose passenger vehicle tires:

Tire size designation	Maximum tire loads (pounds) at various cold inflation pressures (p.s.i.)													Measuring rim width (inches)	Maximum overall tire width (inches)	Maximum overall tire diameter (inches)

[1] The load range letter adjacent to the load values indicates the maximum permissible load and or inflation pressure for that load range with that particular tire.

TABLE V-A—STRENGTH TEST SCHEDULE—PLUNGER DIAMETER

Table	Description	Plunger diameter
I–A	Light truck	⅝-inch.
I–G	Conventional-wide base	⅝-inch.
II–A	Light truck-radial	¾-inch.
III–A, B	Motorcycle	5/16-inch.
IV	Recreational, boat, baggage and Special Type Trailer.[1]	¾-inch.
All other		1¼-inch.

[1] 1.10–6 use ½-inch diameter plunger.

TABLE V-B—PLUNGER ENERGY

Minimum static breaking energy values for truck, trailer, and bias tires—bias ply construction:

Load range	Plunger energy ¾-inch diameter: Conventional tire (Table I–A), minimum value [1] (in.-lbs.)	¾-inch diameter: Wide base tire (Table I–G), minimum value [1] (in.-lbs.)	1¼-inch diameter: Conventional tire (all other than Table I), minimum value [1] (in.-lbs.)	1¼-inch diameter: Wide base tire (Table I–G), minimum value [1] (in.-lbs.)
B	2,600			
C	3,200	3,200	6,800	
D	4,550	4,550	7,900	
E	5,100	5,100	12,800	8,600
F	5,700		15,200	12,000
G	6,300		20,200	15,000
H			23,000	18,000
J			25,000	19,500
L			27,000	
N			28,500	
X			30,000	

[1] Rayon cord tires to be 60 percent of the value shown.

TABLE V-C—PLUNGER ENERGY

Minimum static breaking energy values for truck, trailer and bias tires—radial ply construction:

Load range	Plunger energy ¾-inch diameter plunger (Table II–A), minimum value [1] (in.-lbs.)	1¼-inch diameter plunger (all other than Table II), minimum value [1] (in.-lbs.)
C	3,200	6,800
D	4,550	7,900
E	6,100	12,800
F		15,200
G		20,200
H		23,000
J		25,000
L		27,000
N		28,500
X		30,000

[1] Rayon cord tires to be 60 percent of the value shown.

TABLE IV—BIAS PLY TYPE—SINGLE TIRE USAGE—NORMAL HIGHWAY SERVICE

Maximum tire loads, measuring rims, maximum overall widths and diameters, load range designations [1] for recreational, boat, baggage, and special type trailer tires:

Tire size designation	Maximum tire loads (pounds) at various cold inflation pressures (p.s.i.) 15	20	25	30	35	40	45	50	55	60	65	Measuring rim width (inches)	Maximum overall tire width (inches)	Maximum overall tire diameter (inches)

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 21, 43, 61]

[Docket No. 18920]

DOMESTIC PUBLIC POINT-TO-POINT MICROWAVE RADIO SERVICE

Establishment of Policies and Procedures for Consideration of Applications To Provide Specialized Common Carrier Services

1. On July 28, 1971, Microwave Communications, Inc. (MCI), filed a "Motion for Extension of Time for Comments and Reply Comments" on the further notice of inquiry and proposed rule making released on June 21, 1971, in this proceeding (FCC 71-655). The present due dates for comments and reply comments are August 2, 1971, and August 16, 1971, respectively. MCI seeks an extension to August 16, 1971, for comments and to September 9, 1971, for reply comments.[1] It states that an extension is necessary to permit completion of engineering studies it has undertaken in order to respond to the further notice.

2. In view of the Commission's expressed intent to expedite the further proceedings on the local distribution aspect so that "those authorized entrants contemplating local construction can plan and build such facilities without delay to the inauguration of the system" (paragraph 159 of the First Report and Order released on June 3, 1971, FCC 71-547), any substantial extension of filing times would require a stronger showing of good cause than that contained in MCI's motion. However, since MCI is one of the applicants most directly involved and considering the shortness of the requested extension as well as the brief period originally allowed for reply comments, it appears that a grant of this motion would serve the public interest by facilitating the compilation of a full record without unduly delaying Commission action.

3. *Accordingly, it is ordered*, Pursuant to § 0.303 of the Commission's rules and regulations, that the time for filing comments and/or statements of interest on the further notice of inquiry and proposed rule making is extended to August 16, 1971, and the time for filing reply comments is extended to September 9, 1971.

[1] MCI indicates that it is proposing a longer extension for reply comments at the request of A.T. & T.

TABLE V-D—PLUNGER ENERGY

Minimum static breaking energy values for motorcycle tires:

Load range:	*Plunger Energy, 5/16-inch diameter plunger, minimum value*[1] *(in.-lbs.)*
A	150
B	300

[1] Rayon cord tires to be 60 percent of the value shown.

TABLE V-E—PLUNGER ENERGY

Minimum static breaking energy values for recreational, boat, baggage, and special type trailer tires:

Load range	Plunger energy: ½-inch diameter plunger (4.10-6 tire size only), minimum value[1] (in.-lbs.)	¾-inch diameter plunger, minimum value[1] (in.-lbs.)
A		600
B	300	1,200
C		2,400
D		2,400
E		3,000

[1] Rayon cord tires to be 60 percent of the value shown.

TABLE VI—ENDURANCE TEST SCHEDULE

Description	Load range	Speed (m.p.h.)	Test load percent of maximum load labeled on tire			Total test (miles)
			I	II	III	
			7 hours	16 hours	24 hours

[Docket No. 19153; RM-1737]

RENEWAL OF BROADCAST LICENSES

Formulation of Rules and Policies; Order Extending Time for Filing Comments

1. The Commission has before it the petition filed by the Citizens Communication Center and Black Efforts for Soul in Television for extension of time to file comments in the above-captioned proceeding from August 2, 1971, to and including August 9, 1971. The request emphasizes the significant ramifications of the proceeding upon those community groups seeking to insure that local broadcasters are responsive to the needs, problems, and interests of the communities they serve. The petitioners state that a 1-week extension will provide them with adequate relief from their current extraordinarily heavy workload to insure that the multifaceted aspects of this inquiry receive full and thoughtful consideration from two of the most active organizations devoted to citizen participation in broadcasting.

2. We are of the opinion that, considering the importance of these matters, the limited nature of the requested extension and the fact that the September 15 deadline for filing reply comments will not be affected, the petition should be granted. *Accordingly, it is hereby ordered*, That the date for filing comments in Docket No. 19153 is extended until August 9, 1971.

Adopted: July 28, 1971.

Released: July 30, 1971.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[Group 488]

ARIZONA

Notice of Filing of Plats of Survey

JULY 29, 1971.

Plats of Survey of the lands described below will be officially filed in the Arizona State Office, Phoenix, Ariz., effective at 10 a.m., on September 3, 1971:

1. Gila and Salt River Meridian, Arizona:

T. 28 N., R. 21 W.,
Sec. 3, lots 1, 2, 3, 4, S½N½, and S½;
Sec. 4, lots 1, 2, 3, 4, S½N½, and S½;
Sec. 5, lots 1, 2, 3, 4, S½N½, and S½;
Sec. 6, lots 1 to 7, inclusive, S½NE¼, SE¼ NW¼, E½SW¼, and SE¼;
Sec. 7, lots 1, 2, 3, 4, E½W½, and E½;
Secs. 8 to 15 inclusive, and sec. 17;
Sec. 18, lots 1, 2, 3, 4, E½W½, and E½;
Sec. 19, lots 1, 2, 3, 4, E½W½, and E½;
Secs. 20 to 29, inclusive;
Sec. 30, lots 1, 2, 3, 4, E½W½, and E½;
Sec. 31, lots 1, 2, 3, 4, E½W½, and E½;
Secs. 32 to 36, inclusive.

The areas described aggregate 21,083.90 acres of public land.

2. The lands described above range from nearly level to broken. The soil is rocky and gravelly to sandy clay loam. The vegetation consists of creosote bush, cacti, grass, and scattered Josuha trees.

3. All of the above described lands are included in Temporary Withdrawal for Classification, Executive Order 5339 dated April 25, 1930, which precludes entry under the public land laws except general mining laws and mineral leasing laws.

KENNETH F. HANSEN,
Acting Chief, Division of Technical Services.

IDAHO

Notice of Filing of Plats of Survey

JULY 28, 1971.

1. Plats of survey for the following described lands, accepted June 3, 1971 and June 22, 1971, will be officially filed in the Idaho State Office, Bureau of Land Management, Boise, Idaho, effective at 10 a.m. on September 1, 1971:

BOISE MERIDIAN, IDAHO

T. 15 N., R. 18 E.,
Sec. 1, lots 1, 2, 3, 4, S½NE¼, S½NW¼, S½;
Secs. 12, 13, 24.
T. 16 N., R. 18 E.,
Sec. 13, lot 1, NW¼NE¼, S½NE¼, NW¼, S½;
Secs. 24, 25, 36.
T. 12 N., R. 21 E.,
Sec. 19, lots 1, 2, 3, 4, E½, E½W½;
Sec. 30, lots 1, 2, 3, 4, E½, E½W½;
Sec. 31, lots 1, 2, 3, 4, E½, E½W½;
Sec. 32, all.
T. 16 N., R. 21 E.,
Sec. 3, lots 1, 2, 3, 4, 5, 6, 7, S½NE¼, SE¼ NW¼, E½SW¼, SE¼;
Sec. 10, lots 1, 2, 3, 4, E½, E½W½;
Sec. 15, lots 1, 2, 3, 4, E½, E½W½;
Sec. 22, lots 1, 2, 3, 4, E½, E½W½;
Sec. 27, all.
T. 17 N., R. 21 E.,
Sec. 3, lots 1, 2, 3, 4, S½NE¼, S½NW¼, S½;
Secs. 10, 15, 22, 27, 34.
T. 14 N., R. 24 E.,
Sec. 30, lots 1, 2, 3, 4, E½, E½W½;
Sec. 31, lots 1, 2, 3, 4, E½, E½W½.

The areas described aggregate 15,891.92 acres.

2. The following lands are embraced in the Challis National Forest by Executive Order No. 840 dated June 26, 1908 and Executive Order No. 7986 dated October 8, 1938, or the Salmon National Forest by Executive Order No. 841 dated June 26, 1908, and will therefore be opened to such forms of disposition as may by law be made of national forest land:

BOISE MERIDIAN, IDAHO

T. 16 N., R. 18 E.,
Sec. 13, lot 1, NW¼NE¼, S½NE¼, NW¼;
Sec. 25, SW¼;
Sec. 36, all.
T. 12 N., R. 21 E.,
Sec. 32, N½.
T. 16 N., R. 21 E.,
Sec. 3, lots 1, 2, S½NE¼, SE¼;
Sec. 10, lots 3, 4, E½, E½SW¼;
Sec. 15, lots 1, 2, 3, 4, E½, E½W½;
Sec. 22, lots 3, 4, E½, E½SW¼;
Sec. 27, all.
T. 17 N., R. 21 E.,
Secs. 10, 15, 22;
Sec. 27, E½, NW¼;
Sec. 34, E½.
T. 14 N., R. 24 E.,
Sec. 30, E½.

Containing 7,054.83 acres.

3. The remaining lands not affected by paragraph 2 above are included in the Custer County Multiple Use Classification I-2834, or the Lemhi Multiple Use Classification I-1639 and will therefore be opened only to such forms of disposition as are allowed under the provisions of the multiple use classifications on the effective date of the filing of these plats.

4. The lands have been subject to the operation of the U.S. mining laws and mineral leasing laws at all times.

Inquiries concerning the lands should be addressed to the Idaho State Office, Bureau of Land Management, 550 West Fort Street, Boise, ID 83702.

EUGENE E. BABIN,
Acting Chief, Branch of Records, Boise, Idaho.

[Serial No. Idaho 4422]

IDAHO

Notice of Proposed Withdrawal and Reservation of Lands

JULY 28, 1971.

The Bureau of Reclamation has filed an application, Serial No. I-4422, for the withdrawal of the lands described below from all forms of appropriation under the public land laws, including the mining laws but not the mineral leasing laws, subject to valid existing rights.

The applicant desires the land for public purposes as additional upstream areas needed for the proposed Grindstone Butte Dam and Reservoir, Bruneau Division, Southwest Idaho Water Development Project on Deadman Creek.

For a period of 30 days from the date of publication of this notice all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Room 334 Federal Building, 550 West Fort Street, Boise, ID 83702.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's and to reach agreement on the concurrent management of the lands and their resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the Bureau of Reclamation.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

T. 8 S., R. 11 E.,
Sec. 21, NE¼SE¼;
Sec. 22, NW¼NE¼, S½NE¼, NW¼, N½SW¼, SE¼.

The areas described aggregate 560 acres in Owyhee County.

DONALD B. SNYDERS,
Acting Chief, Division of Technical Services.

[FR Doc.71-11179 Filed 8-4-71;8:46 am]

MONTANA

Order Providing for Opening of Public Lands

JULY 29, 1971.

1. The exchanges of lands made under the provisions of section 8 of the Act of June 28, 1934 (48 Stat. 1272; 43 U.S.C. 315g) as amended, the following described lands have been conveyed to the United States:

PRINCIPAL MERIDIAN, MONTANA

T. 37 N., R. 24 E.,
Sec. 25, S½NE¼, NE¼SW¼, and N½SE¼.

The area described contains 200 acres in Blaine County.

T. 26 N., R. 38 E.,
Sec. 25, SE¼NE¼ and E½NE¼.
T. 26 N., R. 39 E.,
Sec. 30, lots 1, 2, and 3, E½NW¼.

The area described contains 313.74 acres in Valley County.

2. The above described grazing lands have been acquired to block up Federal land to further Federal programs. Public lands in this general area have been classified for multiple use management and retention in Federal ownership and are not open to application under agricultural land laws (43 U.S.C. Chapters 7 and 9; 25 U.S.C. 334) or to public sale under section 2455 of the Revised Statutes (43 U.S.C. 1171).

3. The mineral rights in the lands were not exchanged and their status is not affected by this order.

4. Subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law the lands will at 10 a.m. on September 3, 1971, be open to application, petition, and selection under the public land laws. All valid applications received at or prior to September 3, 1971, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

5. Inquiries concerning the lands should be addressed to the Bureau of Land Management, 316 North 26th Street, Billings, MT 59101.

JAMES A. MINNIE,
Acting Chief, Division of Technical Services.

CHIEF, BRANCH OF RECORDS AND DATA MANAGEMENT, DIVISION OF MANAGEMENT SERVICES, ARIZONA STATE OFFICE

Redelegation of Authority

JULY 22, 1971.

1. Pursuant to the authority contained in section 1.1 of BLM Order No. 701 (29 F.R. No. 147, July 29, 1964) as amended, authority is hereby redelegated to the Chief, Branch of Records and Data Management to take action in all matters listed in sections 2.2(c), 2.3(c), and 2.4(a)(4) of the above-cited order.

2. The Chief, Branch of Records and Data Management, may, by written order, designate any qualified employee of the Branch to perform the functions of his position in his absence. Such order will be approved by the State Director.

3. Effective date: This redelegation will become effective August 1, 1971.

JOE T. FALLINI,
State Director.

Approved: July 29, 1971.

GEORGE L. TURCOTT,
Acting Director.

FEDERAL LEASES IN SANTA BARBARA CHANNEL OFF CALIFORNIA

Proposal To Continue Exploratory Drilling; Availability of Final Environmental Impact Statement

Notice is hereby given of the public availability of a final report dated July 23, 1971, which discusses the potential environmental impact of the proposal to continue exploratory drilling on Federal oil and gas leases on the Outer Continental Shelf in the Santa Barbara Channel off the coast of California. A preliminary draft on this same subject was released on February 23, 1971.

The Federal program for drilling exploratory wells in the channel began with the competitive leasing of a tract in January 1967. The exploratory drilling program was subsequently applied to another 71 leases that were also acquired by private entities by competitive bidding. Presently there are 70 existing Federal leases in the channel.

This report pertains to any future exploratory drilling that may take place on existing Federal leases in the channel.

With consideration of the comments received on the draft report of February 23, this final statement is the document by which the ultimate decision and assessment of the environmental impact will be based.

Copies of the final document with attached colored map of the Santa Barbara Channel may be purchased from the National Technical Information Service, Department of Commerce, Washington, D.C., for $3. A microfiche copy can be obtained for $0.95. Order by number USDI EIS 71 024. Copies of the final statement can be examined at any of the following locations:

U.S. Geological Survey, Map Information Office, Room 1038, GSA Building, Washington, D.C. 20242.
Geological Survey Public Inquiries Office, Room 1012 Federal Building, Denver, Colo. 80202.
Geological Survey Public Inquiries Office, 7638 Federal Building, 300 North Los Angeles Street, Los Angeles, CA 90012.
Geological Survey District Office, 214 Post Office Building, 836 Anacapa Street, Santa Barbara, CA 93101.
Geological Survey Public Inquiries Office, Room 504 Customhouse, 555 Battery Street, San Francisco, CA 94111.

ROGERS C. B. MORTON,
Secretary.

UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT OF 1970

Amendment to Interim Regulations and Procedures for Implementation

JULY 30, 1971.

The Interim regulations and procedures of this Department for implementing the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Public Law 91-646, 84 Stat. 1894, were published in the FEDERAL REGISTER on April 16, 1971, 36 F.R. 7265. These regulations were subsequently amended to clarify the appeals procedures found in section 6D(1), which amendment was published in the FEDERAL REGISTER on June 18, 1971, 36 F.R. 11753.

Section 6D(1) is hereby further amended as follows:

The citation to 43 CFR Subpart G should be changed to read "43 CFR 4, Subpart G", in two places.

WARREN F. BRECHT,
Deputy Assistant Secretary of the Interior.

[Amdt. 1]

SALES OF CERTAIN COMMODITIES

Monthly Sales List

The CCC Monthly Sales List for the fiscal year ending June 30, 1972, published in 36 F.R. 13044, is amended as follows:

1. Section 36 entitled "Cotton, Upland—Unrestricted Use Sales", is revised to read as follows:

Competitive offers under the terms and conditions of Announcement NO-C-33 (Disposition of Upland Cotton—For Unrestricted Use and Under Barter Contracts). Cotton may be acquired at the highest price offered, but not less than the higher of (1) the market price as determined by CCC, or (2) a minimum price determined by CCC, which will be based on the 1971 loan rate for Middling 1-inch cotton (micronaire 3.5-4.9) at average location with adjustments for other qualities based on current market differentials, plus markups for the month in which the sale is made. In no event will the price for any quality of cotton be less than 120 points (1.2 cents) per pound above the loan rate for such quality of cotton. Loan differentials for location will be used.

MONTHLY MARKUPS—POINTS PER POUND

1971		1972	
August	245	January	275
September	245	February	290
October	245	March	305
November	245	April	320
December	260	May	335
		June	335
		July	335

2. Section 37 entitled "Cotton, Upland—Export Sale—CCC Disposals for Barter", is revised to read as follows:

Competitive offers under the terms and conditions of Announcement CN-EX-30 (Acquisition of Upland Cotton Under Barter Contracts) and NO-C-33, at the prices described in the preceding section.

3. Section 38 entitled "Cotton, Extra Long Staple—Unrestricted Use Sales", is revised to read as follows:

Competitive offers under the terms and conditions of Announcement NO-C-6 (Revision 2), as amended. Extra long staple cotton may be acquired at the highest price offered, but not less than the higher of (1) the market price as determined by CCC, or (2) 115 percent of the current loan rate for such cotton plus reasonable carrying charges for the month in which the sale is made.

MONTHLY CARRYING CHARGES—POINTS PER POUND

1971		1972	
August	45	January	75
September	45	February	90
October	45	March	105
November	45	April	120
December	60	May	135
		June	135
		July	135

4. The second sentence of Section 25 entitled "Rice, Rough—Unrestricted Use Sales—F.O.B. Warehouse" is revised to read as follows:

The formula price for August 1971, is the 1971 loan rate plus 5 percent plus 8 cents per hundredweight.

5. The provisions of section 26 entitled "Rice, Rough—Export as Milled or Brown" are deleted.

Effective date: 2:30 p.m., July 30, 1971, for rice and August 2, 1971, for cotton.

Signed at Washington, D.C., on July 30, 1971.

CARROLL G. BRUNTHAVER,
Acting Executive Vice President, Commodity Credit Corporation.

[Case No. 423]

D. K. CHAN AND HERTZ RESEARCH LABORATORY

Order Denying Export Privileges

In the matter of D. K. Chan, also known as Damon K. Chan, and Hertz Research Laboratory, Sincere Insurance Building, 17th Floor, West Wing, 4 Hennessy Road, Hong Kong, B.C.C., respondent.

The respondents D. K. Chan, also known as Damon K. Chan, and Hertz Research Laboratory, were charged by the Director, Investigations Division, Office of Export Control with violations of the regulations under the Export Control Act of 1949 and Export Administration Act of 1969.[1] The charging letter dated May 14, 1971, was duly served on respondents and no reply has been received. Pursuant to § 388.4 of the Export Control Regulations the respondents were held in default. In accordance with the usual practice the case was referred to the Compliance Commissioner. He held an informal hearing on July 13, 1971, at which time evidence in support of the charging letter was presented on behalf of the Investigations Division.

On February 19, 1971, effective February 25, 1971 (36 F.R. 3476), an order denying export privileges for an indefinite period was issued against these respondents. Said order was superseded by an order issued on May 4, 1971 (36 F.R. 8819), temporarily denying export privileges, which was to be effective until the completion of administrative compliance proceedings. The temporary order is still in effect.

The Compliance Commissioner considered the evidence that was presented in support of the charges and has submitted to the undersigned a report which summarizes the essential evidence, considers the various charges, and which includes findings of fact and conclusions. The Compliance Commissioner recommended sanctions that should be imposed.

After considering the record in the case, I adopt the findings of fact made by the Compliance Commissioner. These findings were applicable at the time the transactions in question took place and are as follows:

FINDINGS OF FACT

1. The respondent Hertz Research Laboratory was established in December 1968 in Hong Kong, B.C.C., as a dealer in scientific and electronic equipment and components. The registered owner of the firm was Mrs. Eckila S. Chan. Mrs. Chan's husband D. (for Damon) K. Chan, was manager of the firm. In the transactions hereinafter described the respondent Chan acted on behalf of Hertz Research Laboratory.

2. Commencing in April 1969 and through February 1970 Chan placed purchase orders with three different suppliers in the United States for six different types of strategic electronic equipment used for testing purposes. The total value of said equipment was approximately $17,000.

3. Each of the pieces of equipment in question required a validated license for exportation from the United States to Hong Kong. The U.S. exporters in each instance filed an application with the Office of Export Control for a license to permit the exportation. With respect to the commodities to be exported the respondent Chan furnished to the U.S. suppliers an Import License issued by the Hong Kong Government in which he declared that the commodities to be imported were for local consumption. The Import License when issued bore the statement that reexport was not permitted except under special license and subject, in addition, to concurrence of the Government of the supplying country concerned. The U.S. exporters submitted said Import Licenses in support of their applications for export licenses.

4. The respondent Chan knew that the Import Certificates he furnished to the U.S. suppliers would be submitted by them in support of their applications for export licenses and his declarations in said Import License were representations and statements indirectly to the Office of Export Control through a foreign government agency.

5. At the time that Chan made the aforesaid declarations he knew and had reason to know that the commodities that were being imported into Hong Kong under said Import Licenses were not for consumption in Hong Kong but were intended to be reexported. The declarations by Chan on the Import Licenses were false and misleading and Chan concealed material facts from the Office of Export Control.

6. Based in part on the Import Licenses which had been obtained through Chan's false and misleading declarations, export licenses to export said commodities were issued by the Office of Export Control and the commodities were exported to Hong Kong. The respondents disposed of said commodities contrary to the provisions of the Export Control Regulations.

7. On September 10, 1970, Chan placed an order with a U.S. supplier for strategic recording equipment valued at approximately $26,500. Accompanying said order was a Hong Kong Import License in which a firm in Hong Kong was named as ultimate consignee. The said firm in Hong Kong was not the ultimate consignee. The said firm in Hong Kong was not the ultimate consignee but had been solicited by Chan to pose as the customer. Chan was attempting to obtain the equipment for reexportation to an unauthorized destination.

8. The U.S. supplier filed application for a license to export said recording equipment to Hertz Research Laboratory in Hong Kong as intermediate consignee. Before the license was issued Chan's illegal purpose was discovered and the application for license was rejected.

9. In connection with the transactions described in Findings 2 through 6, Chan acted in concert with other parties in ordering, buying, and receiving the commodities therein described knowing that they were intended to be reexported to unauthorized destinations.

10. In connection with the transaction described in Finding 7 Chan acted in concert with other parties in ordering the commodities therein described knowing that they were intended to be reexported to an unauthorized destination.

Based on the foregoing I have concluded that the respondents violated §§ 387.3 and 387.4 of the Export Control Regulations in that they solicited and acted in concert with other parties in buying and disposing of U.S.-origin commodities with knowledge that it was intended that the commodities would be reexported to unauthorized destinations in violation of said regulations. I have further concluded that the respondents violated section 387.5 of said regulations in that they made false and misleading statements directly to the Office of Export Control and concealed material facts from the Office of Export Control for the purpose of effecting exports from the United States.

Now, after considering the record in the case and the report and recommendation of the Compliance Commissioner and being of the opinion that his recommendation as to the sanction that should be imposed is fair and just and calculated to achieve effective enforcement of the law: *It is hereby ordered:*

I. This order is effective forthwith and supersedes the temporary denial order issued against the above respondents on May 4, 1971 (36 F.R. 8819), but the terms and restrictions of said temporary denial order are continued in full force and effect.

II. Except as qualified in Paragraph IV hereof, the respondents for the period of 5 years are hereby denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transactions involving commodities or technical data exported from the United States in whole or in part, or to be exported, or which are otherwise subject to the Export Control Regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction, either in the United States or abroad, shall include participation: (a) As a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control documents; (d) in the carrying on of negotiations with respect to, or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data; (e) in the financing, forwarding, transporting, or other servicing of such commodities or technical data.

III. Such denial of export privileges shall extend not only to the respondents, but also to their successors, representatives, agents, and employees, and also to any person, firm, corporation, or other business organization with which they now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith. This order is also applicable to Eckila S. Chan who was registered owner of the respondent Hertz Research Laboratory.

IV. Three years after the effective date of this order the respondents may apply to have the effective denial of their export privileges held in abeyance while they remain on probation. Such applications as may be filed by said respondents shall be supported by evidence showing their compliance with the terms of this order and such disclosure of their import and export transactions as may be necessary to determine their compliance with this order. Such applications will be considered on their merits and in the light of conditions and policies existing at that time. The respondents' export privileges may be restored under such terms and conditions as appear to be appropriate.

V. During the time when the respondents or other parties within the scope of this order are prohibited from engaging in any activity within the scope of Part II hereof, no person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of International Commerce, shall do any of the following acts, directly or indirectly, in any manner or capacity, on behalf of or in any association with the respondents or other parties denied export privileges within the scope of this order, or whereby the respondents or such other parties may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for any such respondents or other person denied export privileges within the scope of this order; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

Dated: July 27, 1971.

RAUER H. MEYER,
Director, Office of Export Control.

[FR Doc.71-10548 Filed 8-4-71;8:45 am]

[1] The Export Control Act of 1949 was succeeded by the Export Administration Act of 1969, approved Dec. 30, 1969, 50 U.S.C. App. 2401-2413. Section 2412(b) of the new Act provides, "All outstanding delegations, rules, regulations, orders, licenses, or other forms of administrative action under the Export Control Act of 1949 • • • shall, until amended or revoked, remain in full force and effect, the same as if promulgated under this Act". The violations in question occurred in 1969 and 1970 and the same regulations are applicable.

ATOMIC ENERGY COMMISSION

[Docket No. 50-395]

SOUTH CAROLINA ELECTRIC & GAS CO.

Notice of Receipt of Application for Construction Permit and Facility License; Time for Submission of Views on Antitrust Matters

South Carolina Electric & Gas Co. 328 Main Street, Post Office Box 764, Colum-

bia SC 29202, pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed an application dated June 30, 1971, for authorization to construct and operate a pressurized water nuclear reactor designated as Virgil C. Summer Nuclear Station, Unit 1, on the applicant's site in Fairfield County, S.C.

The site is located immediately north of Parr, S.C., and is adjacent to a man-made lake created by placing a series of dams across Frees Creek, a tributary of the Broad River. The lake is located east of the Broad River and west of South Carolina State Highway 215, about 26 miles north of Columbia, in western Fairfield County, S.C.

The proposed nuclear power station will consist of a pressurized water nuclear reactor, which is designed for a power output of 2,785 megawatts thermal (MWt), with an equivalent station net electrical output of approximately 900 megawatts electrical (MWE).

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the Commission within sixty (60) days after July 22, 1971.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, and a copy has been sent to the Fairfield County Library, Vanderhorst Street, Winnsboro, SC 29180, Miss Jean Metelll, Librarian.

Dated at Bethesda, Md., this 15th day of July 1971.

For the Atomic Energy Commission.

PETER A. MORRIS,
Director,
Division of Reactor Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 20650; Order 71-8-5]

AIR TRAFFIC CONFERENCE OF AMERICA

Order Deferring Action on Agreements

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 2d day of August 1971.

The air carrier members of the Air Traffic Conference of America (ATC) have filed with the Board under section 412 of the Federal Aviation Act of 1958, as amended, agreements (hereinafter denominated as the Financial Resolution) proposing significant changes in the business relationships between such carriers and their sales agents.[1]

The principal provisions of the Financial Resolution are as follows:

(1) Deletes the requirement that applicants and existing agents procure and maintain a bond for the benefit of ATC members;

(2) Establishes, in lieu of bonding, credit evaluation procedures to be administered by ATC as follows: (a) each applicant submits to ATC prescribed financial and credit data;[2] (b) such data is evaluated by the ATC staff; if deemed satisfactory, the applicant is approved from a financial standpoint; (c) if the evaluation does not support such an approval, the application is referred by the Executive Secretary of ATC to the Credit Review Subcommittee of the ATC Agency Committee (NOTE: When the financial statement of an applicant (or of an approved agent) fails to reflect a cash balance of $10,000 or a tangible net worth of at least $15,000 the matter is automatically referred to the Subcommittee for review);[3] and (d) if the Subcommittee's findings are unfavorable the matter must be referred to the full ATC Agency Committee, which is empowered to approve or disapprove the application;[4]

(3) Provides for investigation at least annually by the Executive Secretary of ATC, of the financial condition and credit standing of each agent;

(4) Increases application fees; e.g. for each new agent from the present $50 to $500, and for an additional agency location from the present $30 to $250;[5]

(5) Increases the annual agency fees for main and branch offices from the present $20 and $10, respectively, to $75 and $50, respectively, and removes the current maximum fee of $300 per agent; and

(6) Increases from the present $500 to $2,000 the annual fee payable by non-ATC carriers who participate in the ATC Area Settlement Plan.

The foregoing credit review procedures apply equally to agent-applicants and to approved agents.

The intended effective date for the Financial Resolution is January 1, 1972, subject to prior Board approval.

[1] The initial agreement (Agreement CAB 20727) was filed with the Board on Dec. 23, 1968; an amendment thereto (Agreement CAB 20727-A1) was filed on July 24, 1970. The initial resolution contemplated (a) the utilization by ATC of specific credit standards in assessing the financial qualifications of approved and prospective agents, and (b) the substitution of a Joint Indemnity Fund (Joint Fund) for the present ATC bonding system. The amendment removed the Joint Fund provisions but retained the other features of the initial resolution.

ATC resolutions amended by the Financial Resolution are the following: Resolution 80.10 (Agency Resolution); Resolution 80.15 (ATC Sales Agency Agreement); Resolution 80.1 (Standard Agents' Ticket and Area Settlement Plan); Resolution 80.35 (The Initial Agency Fee Resolution); Resolution 80.40 (The Annual Agency Fee Resolution); Resolution 80.72 (Sharing Financial Losses Which Occur in Connection With the ATA Administration of the Plan); and Resolution 80.85 (The Tariff Subscription by Agents Resolution). In addition, Resolution 80.71 (The Sharing of Losses on Standard Agent's Ticket Agreement) is repealed.

[2] In the case of an established business, this would include a complete financial statement—including a notarized balance sheet and a profit and loss statement. The ATC staff would also secure a Dun and Bradstreet report and/or retail credit reports on individuals, and a bank reference letter.

[3] The ATC staff would employ a numerical rating system to evaluate an agent's credit. A copy of the "ATC Sales Agency Credit Evaluation Worksheet" is attached as Appendix A (filed as part of the original document). If the ATC rating results in a total score of 31 or more, the applicant is approved from a financial standpoint. If the score is 30 or less, the matter is referred to the Subcommittee for consideration.

[4] The question of whether a person's credit standing is satisfactory is decided (1) by the Subcommittee on the basis of a majority vote of all of the Subcommittee's members, and (2) if reviewed by the ATC Agency Committee, by that Committee on the basis of a two-thirds vote of the members present at a meeting. The resolution states that the credit Review Subcommittee shall meet at least twice annually to review credit matters referred to it by the Executive Secretary of ATC, and that the Agency Committee shall meet no more frequently than twice each year to act on agency applications. The Subcommittee would be comprised of from three to five of the top credit executives of the airlines.

It is not clear what period of time would be required by the carriers to process applications under the various circumstances that might obtain.

[5] The total fee schedule is as follows:

	Present	Propose	Nonrefundable
New agent	$50	$500	$100
Additional location	30	250	100
Transfer	50	250	100
New location	30	100	50
Change of name		25	

If an application is disapproved, the fee is refundable except to the extent shown above. Based upon 1969 application volumes, ATC estimates that the proposed fees above would have resulted in collections of $422,350 versus expenses of $439,641.

The Air Traffic Conference, in explanation of the credit standards, submits "that no one has more interest, knowledge from experience, or has more at stake than the airlines themselves in matters involving the credit evaluation of travel agents." It is further argued by ATC that establishing credit standards is a difficult task because it is impossible to have them completely objective and free of the need for some judgment. Thus, under the proposed program, ATC retains some flexibility "to make individual personal judgments where experience dictates," e.g., in assigning values to the standards enumerated in the Credit Evaluation Worksheet. ATC also states that the proposed new screening process is intended to protect both the carriers and conscientious travel agents, and that although the ATC bonding program has considerable merit in many respects from the viewpoint of the carriers, it has not completely achieved one of its original intentions—the continuing assurance of an agent's credit stability—because of inadequate standards applied by many sureties in approving individual bonds. Thus, the carriers believe that the credit stability of agents can best be assured, and defaults reduced, through the carriers' own program of credit standards.[6]

The proposed application fee schedule, according to ATC, relates to the cost of administering the agency program. ATC states "that the fees are unrelated to default experience and that the revenue derived from the fees will not be used in any way to defray carrier losses from agency defaults."

Comments concerning the Financial Resolution (Agreements CAB 20727 and 20727-A1) have been received from the American Society of Travel Agents (ASTA), the Association of Bank Travel Bureaus, Inc. (ABTB), the Association of Retail Travel Agents (ARTA), Victor O. Schinnerer and Co., Inc. (Schinnerer), underwriting manager for the Insurance Company of North America, and various individual travel agencies.

ASTA supports the proposal and reiterates its earlier opposition to the current ATC bonding program because of the high premium costs in the face of relatively few defaults.[7] In ASTA's view, the more stringent credit standards proposed as well as the provision for periodic review of existing agents, are designed to minimize potential losses resulting from travel agency defaults. ASTA further asserts that the formula for agency fees set forth in the resolution, permitting the offsetting of administrative expenses in connection with the agency program, appears to be an equitable method of assuring that the costs to agents bears a direct relationship to benefits to be realized by them. ASTA therefore concludes: "Although the agreement does impose rather stringent requirements on both applicants for approval and existing agents, these requirements may be justified if the Board finds now and upon timely review that they are necessary to assure the continuance of a financially sound travel agency industry, to minimize potential financial loss for carriers and permit the elimination of the current bonding program."[8]

ARTA, in its comments filed prior to amendment of the Resolution (footnote 1, supra), objects to retention of the present bonding system and to the proposed evaluation system. The basic purpose of the bonding program, according to ARTA, was not to reimburse the carriers for losses from defaulting agents, but to provide an impartial procedure for evaluating agents' fiscal responsibility in lieu of the subjective credit standards previously applied by the carriers. ARTA suggests that an independent study be conducted to determine appropriate credit evaluation standards. Coupled with such a study, ARTA believes there should be a system utilizing a professional independent credit analyst (selected with the consent of the agents themselves) and equal representation of agents and carriers on any review committee that considers cases not approved by the credit analyst. Also, such committee should be headed by an impartial chairman from outside the industry. ARTA also contends that the proposed increases in application fees are unjustified and unsupported, and will result in a transfer from the air carriers to the agents of the cost of running the ATC agency program. ARTA further alleges that the proposed credit evaluation system is unduly subjective, biased in favor of existing agents and generally lends itself to arbitrary results.

Schinnerer requests that the proposal be disapproved and the present bonding system continued. It argues that the present bonding program has achieved objectivity in evaluating an agent's financial responsibility, relieves the carriers of the administrative burden of this responsibility, and, at a moderate cost, protects the carriers from excessive agency defaults. Schinnerer asserts that the principal purpose of the bonding program was to substitute objective for subjective criteria, and that such purpose is better served by the present bonding program. In this connection, Schinnerer asserts that the credit criteria proposed by ATC are too broad and subjective, e.g. the lack of a definition for the term "reasonable success" as used in the Credit Evaluation Work Sheet. Schinnerer also notes that the total (gross) travel agent defaults represent on an average .0603 percent of travel agency sales, that by comparison air carrier reserves for bad debts for the period 1963 through 1970 averaged .2894 percent of revenues. It further points out that agents will pay the cost of the program, and more, through fees from applicants, etc.

All but one of the individual agents who filed comments did so before the resolution was amended to delete the Joint Indemnity Fund. Two agents approved the Resolution as then drafted; the others opposed it. The one agent (Norberg Travel Service) who submitted a statement concerning the amended resolution objects to the proposal and asks the Board to reject it.

Upon consideration of the foregoing, the Board has decided to defer action temporarily on the matter and allow a further opportunity for interested persons to file initial or additional comments. Such a course of action appears desirable because of the significance of the proposal, the fact that a major change in the Resolution was made after certain comments were filed, and the general inadequacies of the record.

In reviewing this matter, it is pertinent to recall certain earlier events. ATC formerly required all applicants to present evidence of a satisfactory credit standing and the ability to maintain either a trust account or a bond in the amount of $10,000. However, on November 1, 1960, the Board issued Order E-15977 (Docket 8300 et al. the ATC Agency Resolution Investigation) stating its belief that the ATC criteria then used to judge travel agent qualifications (including the term satisfactory credit standing) were so broad and indefinite as to be susceptible to arbitrary and nonuniform application. Accordingly, the Board directed ATC to show cause why continued approval of the Agency Resolution should not be conditioned upon the submission by ATC of objective definitions of various terms including satisfactory credit standing.

By Order E-17968, dated January 30, 1962, the Board approved various

[6] An explanation of the resolution is contained in a brochure prepared under the direction of the ATC Agency Committee and submitted with Agreement CAB 20727, and in a letter to the Board from ATC, dated Feb. 22, 1971.

[7] Prior to amendment of the Resolution, ASTA filed a joint statement with ABTB supporting disapproval of the Financial Resolution as set forth initially by Agreement CAB 20727 principally because of the provisions for the Joint Fund, since deleted. However, at that time both organizations supported the proposal insofar as it would establish more stringent financial responsibility criteria for new applicants and existing agencies.

[8] This position was reiterated in letters to the Board from ASTA, dated Oct. 23, 1970, and Dec. 2, 1970.

amendments to the Agency Resolution which were submitted by the members of ATC in response to Order E–15977. Among other things, the amendments provided for the substitution of a mandatory bond requirement in minimum and maximum amounts of $10,000 and $50,000, respectively, in lieu of the requirements to maintain a trust account and to submit evidence of a satisfactory credit standing.[9] In granting its approval, the Board noted that the bonding provision eliminated the need for a showing of a satisfactory credit standing, and stated again that it believed the use of objective standards in the agency program was desirable. Thus, the Board approved a program which would in effect provide for an objective credit analysis by third persons—various surety companies.

Subsequently on April 24, 1964, the Board approved the ATC Area Settlement Plan.[10] In doing so, the Board noted that under the Plan the risk of loss to carriers from agency defaults would be reduced by 35 percent but that no adjustment had been made in the amount of the required bond. Thereafter, on June 24, 1965, by Order E–22358, the Board approved an amendment to the Area Settlement Plan providing for a 10 percent or maximum of $2,500 reduction in the bond requirement for ATC agents who had been on the agency list for 1 year. However, the Board indicated that an additional reduction in the amount of the bond appeared appropriate. Further study of the agency program by various ATC committees culminated in adoption of the Financial Resolution.

The Resolution presents a number of issues which warrant the further appraisal, or reappraisal, as the case may be, of both the agents and the carriers. Perhaps foremost is the question of whether ATC should be so intimately and exclusively involved in passing on the financial credentials of persons desiring to enter the travel agency business, as well as for the more than 7,000 approved agents as their operations undergo the annual scrutiny required by the resolution. Most certainly the carriers have a substantial stake in the persons they appoint as their agents, particularly as agents are playing an ever increasing role in the sale of domestic air transportation. The carriers, therefore, are not without merit in claiming that they have a significant interest and knowledge in matters involving the credit evaluation of agents. On the other hand, and viewing the matter from a long-term perspective, it is possible that the carriers' interest would be best served by having the financial portion of the overall agency evaluation conducted on an independent and impartial basis. In short, is the credit evaluation proposal defensible as being as objective as one can make it? Are there cogent reasons which can be advanced in rebuttal of a potential claim that the credit procedures are arbitrary or will be used to restrict unduly admittance into the travel agency field? Again, is there substance in the argument advanced by some that if objective standards are not possible, then objective procedures administered by an outside party are needed?

There has been conjecture in certain comments received as to why the present bonding system was adopted and what it was designed to accomplish. Whatever the reasons may have been on the part of all concerned, and they may have been different, it seems more important now to define objectives clearly in today's climate. Thus, as we understand it, the carriers' principal goals in adopting the instant Financial Resolution were twofold: (1) To provide a mechanism for examining the financial health of applicant-agents and approved agents from the standpoint of determining whether a person either should be approved initially as an agent or his appointment as one continued, and (2) thereby to protect carrier funds in the hands of approved agents to a greater degree than is possible under the present bonding system.[11] These objectives, if correctly stated, obviously are related, but is not clear that the procedures for the attainment of each necessarily need be identical as is contemplated by the instant resolution. In other words, would a different combination of procedures provide a more objective and effective approach?[12] Then, too, there is the basic question of whether each of the goals is valid—in terms of the product (resolution) produced to achieve the desired result.

One advantage of the Financial Resolution from the agents' standpoint is that it eliminates the bonding program, a move long championed by ASTA. This factor and the resultant elimination of the cost of bonding must, of course, be weighed by each agent against the substitute procedures which are proposed, including the fee schedule. Certainly answers are needed to the questions raised by Schinnerer and others regarding the credit evaluation procedures, including the credit evaluation worksheet.[13] Also, a more detailed justification is needed of the basis of all proposed increases in fees.

The Board hopes that persons filing comments will address themselves not only to the details of the instant resolution but to the broader issues as well. We would also hope that those who may oppose the resolution in whole or in part would offer constructive alternative proposals.

Accordingly, it is ordered, That:

1. Action on Agreement CAB 20727, as amended by Agreement CAB 20727–A1, be and it hereby is deferred;

2. Interested persons be and they hereby are afforded a period of 30 days from the date of this order within which to file comments on the matters set forth in this order;

3. Rebuttal comments may be filed within 21 days after the due date for initial comments but only by those persons filing initial comments;

4. This order shall be served upon the Air Traffic Conference of America; the American Society of Travel Agents; the Association of Bank Travel Bureaus, Inc.; the Association of Retail Travel Agents; Victor O. Schinnerer and Co., Inc.; and the Department of Justice;

5. Comments filed pursuant to ordering paragraph 2 above shall be served on all persons named in ordering paragraph 4 above; and

6. Rebuttal comments filed pursuant to ordering paragraph 3 above shall be served upon all persons filing initial comments under ordering paragraph 2 above.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.71–11238 Filed 8–4–71;8:51 am]

[Docket No. 23676]

COMPANIA MEXICANA DE AVIACION, S.A. (CMA)

Mexico City/Ciudad Juarez-Denver Authority; Notice of Prehearing Conference and Hearing

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on August 16, 1971, at 2 p.m., local time, in room 503, Universal Building, 1825 Connecticut Avenue NW., Washington, DC, before Examiner Joseph L. Fitzmaurice.

Notice is also given that the hearing may be held immediately following conclusion of the prehearing conference unless a person objects or shows reason for postponement on or before August 11, 1971.

Dated at Washington, D.C., July 30, 1971.

[SEAL] RALPH L. WISER,
Acting Chief Examiner.

[FR Doc.71–11239 Filed 8–4–71;8:51 am]

[9] Additional features of the Agency Resolution amendments were the following: (1) substitution of the Executive Secretary for the Agency Committee as the reviewing authority for most applications, and thus the processing of most applicants in 45 days, and (2) the substitution of specific personal experience qualifications for the general standards concerning "qualified personnel" and "ability to sell."

[10] Order E–20741. Under the Plan, the agents remit three times a month to area banks, rather than as before directly to individual carriers twice a month.

[11] Agents' defaults for the past 5 years is set forth in Appendix B, which is filed as part of the original document.

[12] For example, what are the implications here of the joint carrier/agent project recently undertaken to develop mandatory requirements aimed at improving an agents' managerial and technical competence?

[13] The Board also believes that detailed information is needed with respect to (a) the technical basis for development of the numerical rating system utilized in the Credit Evaluation Worksheet; (b) the method used for selection of the specific number of points allocated to each section of the worksheet; (c) the reason for selection of 31 points as the point at which an applicant or agent can be approved; and (d) the specific procedures to be followed by ATC in validating the numerical analysis utilized in the worksheet.

FEDERAL COMMUNICATIONS COMMISSION

[Report 555]

COMMON CARRIER SERVICES INFORMATION [1]

Domestic Public Radio Services Applications Accepted for Filing [2]

AUGUST 2, 1971.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the list below, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business 1 business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed below if filed by the end of the 60-day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[1] All applications listed below are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations and other requirements.

[2] The above alternative cutoff rules apply to those applications listed below as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio, and Local Television Transmission Services (Part 21 of the rules).

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

File No., applicant, call sign, and nature of application

278–C2–P–72—Clarksdale Mobile Telephone, Inc. (New), C.P. for a new two-way station to be located at 1107 Desota Avenue, Clarksdale, MS, to operate on 152.18 MHz.

279–C2–MP–72—Telephone Answering Service of Hyannis (KRS669), Modification of C.P. to replace the transmitter operating on 152.18 MHz located near Union Street and Route No. 6, Yarmouth, MA.

299–C2–P–72—Florida Radio Phone (KIA958), C.P. to add frequency 454.275 MHz at station located 100 Southeast Third Avenue, Fort Lauderdale, FL.

300–C2–P–72—AAA Answerphone, Inc., Jackson (KKV692), C.P. to add frequency 152.09 MHz at station located at the Deposit Guaranty Bank Building, corner of Capital and Lamar Streets, Jackson, MS.

301–C2–AL–72—Haywood & Stevens, Consent to assignment of license from James H. Stevens and David H. Haywood, doing business as Haywood & Stevens, Assignor, to James H. Stevens, doing business as Stevens Radio Communications, Assignee Station KLF491 Ocala, Fla.

302–C2–P–72—Central Mobile Radio Phone Service (KQA770), C.P. for additional facilities to operate on 152.12 MHz at a new site described as location No. 2: 3165 Olentangy River Road, Columbus, OH.

305–C2–P–72—Tel-Illinois, Inc. (New), C.P. for a new two-way station to be located at Alton Box Board Building, Alton, Ill., to operate on 454.325 MHz.

311–C2–P–72—Pat's Mobil Phone, Inc. (New), C.P. for a new two-way station to be located at 1.5 miles west Public Square, Highway No. 20 and Lick Creek Road, Linden, TN, to operate on frequency 152.09 MHz.

312–C2–MP–72—John W. Bennett (KRS671), Modification of C.P. to relocate the two-way facilities operating on 152.21 MHz to 1020 South Washington, Owosso, MI.

313–C2–P–72—Wisconsin Telephone Co. (KSA807), C.P. to change the antenna system and relocate facilities operating on 152.63 MHz to 315 Algoma Boulevard, Oshkosh, WI.

324–C2–MP–72—Mobile Radio Communications, Inc. (KSV904), Modification of C.P. to change the antenna system and relocate facilities operating on 158.70 MHz at location No. 3: to 0.8 mile north of Piper, Kans.

325–C2–P–72—Phillips County Telephone Co. (KAQ609), C.P. to replace the transmitter operating on 152.60 MHz and change the antenna system located at 249 West Denver Street, Holyoke, CO.

365–C2–P–(4)72—Jackson Radio Dispatch Service (KIB388), C.P. to replace transmitters operating on 152.03, 152.09, and 152.21 MHz, add frequency 152.06 MHz and relocate facilities at Jacksonville, Fla.

366–C2–MP–72—Jackson Radio Dispatch Service (KLF632), Modification of C.P. to replace the transmitter operating on 158.70 MHz and relocate facilities at location No. 2: to 1510 Montana Avenue, Jacksonville, FL.

367–C2–P–72—Jackson Radio Dispatch Service (KIQ510), C.P. to relocate facilities operating on 35.58 MHz at location No. 1: to 1510 Montana Avenue, Jacksonville, FL.

368–C2–P–72—American Radio-Telephone Service, Inc. (KGA590), C.P. to replace the transmitter and change the antenna system operating on 152.09 MHz at the corner of Charles and Fayette Streets, Baltimore, MD.

370–C2–P–(4)72—Salinas Valley Telephone Co. (KMA837), C.P. to increase the power for 152.03, 152.06, 152.15, and 152.18 MHz for facility located at Mount Toro, 10.3 miles south-southeast of Salinas, Calif.

Major Amendment

56–C2–P–(3)–72—Com-Nav, Inc. (KQZ780), Amended to change the base frequency to 152.18 MHz. See Public Notice dated July 19, 1971, Report No. 553.

Correction

4033–C2–P–(3)–70—ATS Mobile Telephone, Inc. (KBM512) and 5035–C2–P–70—ATS Mobile Telephone, Inc. (New), Correct to read: 4033–C2–P–(4)70 ATS Mobile Telephone, Inc. (KBM512). C.P. for additional facilities at a new site described as location No. 2: Woodmen Tower Building, 1700 Farnam Street, Omaha, NE, to operate on frequencies 152.18, 454.050, and 454.300 MHz and location No. 3: Near Junction of Lynn and Skyline, Council Bluffs, IA, to operate on frequency 152.15 MHz. See Public Notice dated February 2, 1970, Report No. 477.

7983–C2–P–(3)–70—ATS Mobile Telephone, Inc. (KBM512), Correct to read: Major amendment to 4033–C2–P–(4)–70, ATS Mobile Telephone, Inc. (KBM512). Amended to add base frequencies 454.175, 454.275, and 454.325 MHz at location No. 2: Woodmen Tower Building, 1700 Farnam Street, Omaha, NE. See Public Notices dated February 2, 1970, Report No. 477 and June 8, 1970, Report No. 495.

INFORMATIVE: It appears that the following applications may be mutually exclusive and subject to the Commission's rules regarding ex parte presentations, by reasons of potential electrical interference.

Nevada

4304–C2–P–71—Vegas Instant Page (New).
6261–C2–P–71—Vegas Valley Associates, Inc. (New).

RURAL RADIO SERVICE

307–C1–P–72—The Mountain States Telephone & Telegraph Co. (KSV88), C.P. to relocate the antenna tower operating on 454.40 MHz at Casper Mountain, 6 miles south-southwest of Casper, Wyo.

360–C1–P–72—Continental Telephone Company of California (New), C.P. for a new rural subscriber station to be located at Havasu Palms, Lake Havasu, Calif., to operate on frequency 157.89 MHz communicating with station KMM598 Black Metal Mountain, Calif.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIER)

280–C1–P–72—South Central Bell Telephone Co. (KJH23), C.P. to add frequency 6197.2 MHz toward Brooks, Ky. Station location: 521 West Chestnut Street, Louisville, KY.

281–C1–P–72—South Central Bell Telephone Co. (KJJ58), C.P. to add frequency 6152.8 MHz toward Elizabethtown, Ky., and 6093.5 MHz toward Louisville, Ky. Station location: 2.25 miles northwest of Brooks, Ky.

282–C1–P–72—South Central Bell Telephone Co. (KJJ59), C.P. to add frequency 6375.2 MHz toward Horse Cave, Ky., and 6197.2 MHz toward Brooks, Ky. Station location: 6 miles east of Elizabethtown, Ky.

283–C1–P–72—South Central Bell Telephone Co. (KJJ60), C.P. to add frequency 6123.1 MHz toward Smiths Grove, Ky., and change power on frequency 6063.8 and 5945.2 MHz toward Elizabethtown, Ky., and add 6123.1 MHz toward Elizabethtown, Ky.

284–C1–P–72—South Central Bell Telephone Co. (KJJ61), C.P. to add frequency 6256.5 MHz toward Bowling Green, Ky., and 6286.2 MHz toward Horse Cave, Ky. Station location: 3.8 miles northeast of Smiths Grove, Ky.

285–C1–P–72—South Central Bell Telephone Co. (KJJ62), C.P. to add frequency 6123.1 MHz toward Smiths Grove, Ky. Station location: 1150 State Street, Bowling Green, KY.

286–C1–P–72—South Central Bell Telephone Co. (KJM54), C.P. to add frequency 3930 MHz toward Horn Mountain, Ala. Station location: 3 miles south of Odenville, Ala. (Elbow Gap).

287–C1–72—South Central Bell Telephone Co. (KJM55), C.P. to add frequency 3890 MHz toward Goldville and Elbow Gap, Ala. Station location: Approximately 7.5 miles south-southeast of Talladega, Ala.

288–C1–P–72—South Central Bell Telephone Co. (KJM56), C.P. to add frequency 3930 MHz toward Horn Mountain and Roxana, Ala. Station location: 3.3 miles north-northwest of Newsite, Ala.

289–C1–P–72—South Central Bell Telephone Co. (KJM57), C.P. to add frequency 3890 MHz toward Goldville and Tuskegee, Ala. Station location: Approximately 7 miles south-southwest of Camp Hill, Ala. (Roxana).

290–C1–P–72—South Central Bell Telephone Co. (KJG78), C.P. to add frequency 3930 MHz toward Roxana and Shopton, Ala. Station location: 210 Northside Street, Tuskegee, AL.

291–C1–P–72—South Central Bell Telephone Co. (KJM58), C.P. to add frequency 3890 MHz toward Tuskegee and Troy, Ala. Station location: 3 miles north of China Grove, Ala. (Shopton).

292–C1–P–72—South Central Bell Telephone Co. (KJA25), C.P. to add frequency 3930 MHz toward Shopton, Ala. Station location: Approximately 1 mile northeast of Troy, Ala.

298–C1–MP–72—New England Telephone & Telegraph Co. (KCL60), Modification of C.P. to change frequency 6189.8 MHz to 6397.4 MHz toward Tiverton, R.I. Station location: Mendall Road, Acushnet, MA.

303–C1–P–72—Interdata Communications, Inc. (New), C.P. for a new station at 1900 L Street NW., Washington, DC, at latitude 38°54'13'' N., longitude 77°02'38'' W. Frequencies 10,735.0 and 10,895 MHz on azimuth 31°07'.

304–C1–P–72—Interdata Communications, Inc. (New), C.P. for a new station at Williamstown Road, 1.1 miles south-southeast of Erial, N.J., at latitude 39°45'29'' N., longitude 75°00'08'' W. Frequency 6375.2 MHz on azimuth 269°39'. Frequency 6315.9 MHz on azimuth 42°50', and 11,425 MHz on azimuth 326°51'.

(INFORMATIVE: These two applications are to be considered with applications, Files Nos. 3386 through 3396–C1–P–69. A major amendment to these applications appears on Public Notice dated August 2, 1971. Applicant proposes to use frequency diversity between the two Washington, D.C., stations because of the tower height restrictions applicable in the District of Columbia.)

306–C1–AL–72—Michigama Western Telephone Co. (KQE83), Consent to assignment of license from Michigama Western Telephone Co., Assignor to Michigama Telephone Co. (To be renamed Continental Telephone Company of Michigan, Assignee.)

314–C1–P–72—American Telephone & Telegraph Co. (KIM60), C.P. to add frequencies 3730, 3750, 3810, 3830, and 3890 MHz toward Fordsville, Ky., and 4050, 4070, 4130, and 4150 MHz toward Lanesville, Ind. Station location: 0.7 mile northwest of Paynesville, Ky.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIER)—Continued

315–C1–P–72—American Telephone & Telegraph Co. (KSJ47), C.P. to add frequencies 3710, 3770, 3790, 3850, and 3930 MHz toward Paynesville, Ky., formerly directed toward Guston, Ky. Station location: 3.8 miles southeast of Lanesville, Ind.

7777–C1–P–71—Southern Pacific Communications Co. (New), C.P. for a new station in Lewisville, Ark., at latitude 33°21'19'' N., longitude 93°35'22'' W. Frequency 11,385 MHz on azimuth 93°53' toward Waldo, Ark.

(INFORMATIVE: This application was filed in conjunction with amendments to pending applications, Files Nos. 6422 and 6423–C1–P–70.)

326–C1–P–72—American Telephone & Telegraph Co. (KPE97), C.P. to add frequency 3890 MHz toward Boise Junction, Idaho. Station location: 619 Bannock Street, Boise, ID.

327–C1–P–72—American Telephone & Telegraph Co. (KPE98), C.P. to add frequency 3930 MHz toward Boise, Idaho, and 3910 and 3990 MHz toward Mountain Home, Idaho. Station location: 9 miles southeast of Boise, Idaho (Boise Junction).

328–C1–P–72—American Telephone & Telegraph Co. (KPE99), C.P. to add frequencies 3870 and 3950 MHz toward Boise Junction and Indian Butte, Idaho. Station location: 7.5 miles northeast of Mountain Home, Idaho.

329–C1–P–72—American Telephone & Telegraph Co. (KPF20), C.P. to add frequencies 3910 and 3990 MHz toward Mountain Home, Idaho, and Jerome, Idaho. Station location: Indian Butte, 8 miles southwest of Hagerman, Idaho.

330–C1–P–72—American Telephone & Telegraph Co. (KPF22), C.P. to add frequencies 3870 and 3950 MHz toward Indian Butte, Idaho. Station location: 4.5 miles east of Jerome, Idaho.

Major Amendments

(INFORMATIVE: Applicant Interdata Communications, Inc., is amending 11 applications for point-to-point microwave facilities for specialized services between New York City and Washington, D.C. See also applications for new stations in Washington, D.C., and Erial, N.J. All other particulars same as reported in Public Notice dated Dec. 16, 1968.)

3386–C1–P–69—Interdata Communications, Inc. (New), Change frequency toward Jessup, Md., to 6286.2V MHz on azimuth 46°27'. Add point of communication at 1900 L Street NW., Washington, DC, using frequencies 11,305V and 11,625V MHz on azimuth 211°08'. Location: Riggs Road and First Place NE., Washington, DC.

3387–C1–P–69—Interdata Communications, Inc. (New), Change frequencies to 6034.2H on azimuth 226°37' and 5989.7V on azimuth 23°52'. Location: Jessup, Md., latitude 39°08'27'' N., longitude 76°45'10'' W.

3388–C1–P–69—Interdata Communications, Inc. (New), Change location to Investment Building, Interstate Route 45 near York Road, Towson, MD, at latitude 39°24'10'' N., longitude 76°36'12'' W. Change frequencies to 6241.7V MHz on azimuth 203°58' and 6404.8H MHz on azimuth 71°08'.

3389–C1–P–69—Interdata Communications, Inc. (New), Change location to 3.1 miles northwest of Perryman, Md., at latitude 39°29'52'' N., longitude 76°14'33'' W. Change frequencies to 6034.2H MHz on azimuth 251°21' and 6063.8H on azimuth 65°29'.

3390–C1–P–69—Interdata Communications, Inc. (New), Change frequencies to 6286.2H MHz on azimuth 245°43' and 6256.5H MHz on azimuth 69°32'. Location: 2.8 miles northeast of North East, Md.

3391–C1–P–69—Interdata Communications, Inc. (New), Change location to Pennsgrove-Pedricktown Road, Five Points, NJ, at latitude 39°45'19'' N., longitude 75°25'18'' W. Change frequencies to 6034.2H MHz on azimuth 249°50' and 6093.5H MHz on azimuth 89°22'.

3392–C1–P–69—Interdata Communications, Inc. (New), Change location to 15th and Market Street, Philadelphia, PA, at latitude 39°57'04'' N., longitude 75°09'56'' W. Delete points of communication at Five Points and Arneys Mount, N.J. Add frequency 11,175H MHz on azimuth 146°45'.

3393–C1–P–69—Interdata Communications, Inc. (New), Delete Philadelphia as a point of communications. Add frequency 6123.1H MHz on azimuth 223°02' and change frequency to 6004.5V MHz on azimuth 48°27'. Location: 0.5 mile southwest of Arneys Mount, N.J., at latitude 40°00'25'' N., longitude 74°42'04'' W.

NOTICES

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIER)—Continued

3394–C1–P–69—Interdata Communications, Inc. (New), Change location to Carrs Corner, N.J., at latitude 40°13'51'' N., longitude 74°22'15'' W. Change frequencies to 6226.9V MHz on azimuth 228°40' and 6404.8H MHz on azimuth 42°38'.

3395–C1–P–69—Interdata Communications, Inc. (New), Change frequencies to 6093.5H MHz on azimuth 222°45' and 6152.8V MHz on azimuth 21°13'. Location: Keyport, N.J.

3396–C1–P–69—Interdata Communications, Inc. (New), Change location to 11 Broadway, New York, NY, at latitude 40°42'20'' N., longitude 74°00'15'' W. Change frequency to 6286.2V MHz on azimuth 201°19'.

Major Amendment (Specialized Carrier)

6422–C1–P–70—Southern Pacific Communications Co. (New), Delete point of communication at Bright Star, Ark., and add frequency 10,775 MHz on azimuth 274°02' toward Lewisville, Ark. Location: 1 mile southwest of Waldo, Ark.

6423–C1–P–70—Southern Pacific Communications Co. (New), Delete point of communication at Waldo, Ark., and add frequency 6004.5 MHz on azimuth 55°28' toward Lewisville, Ark. Location: 0.5 mile north of Bright Star, Ark.

Major Amendments

(INFORMATIVE: Applicant proposes to amend Files Nos. 8300–8307, 8309–8311, 8313–8314, 8316–8326–C1–P–70 proposing "Low Cost Customized" interstate communications between Denver, Colo.; North Platte, Hastings, Lincoln, and Omaha, Nebr.; Sioux City, Iowa, and Sioux Falls, S. Dak.)

8300–C1–P–70—Western Tele-Communications, Inc. (New), Change geographic coordinates to latitude 39°37'03'' N., longitude 104°53'36'' W. and change frequencies to 6034.2 MHz on azimuth 292°39'. Station location: Denver Technological Center, 3 miles southeast of Denver, Colo.

8302–C1–P–70—Western Tele-Communications, Inc. (New), Change frequencies to 3850 MHz on azimuth 55°15'. Station location: 17 miles south-southwest of Fort Morgan, Colo.

8303–C1–P–70—Western Tele-Communications, Inc. (New), Change frequencies to 4110 MHz on azimuth 235°48' and to 3810 MHz on azimuth 86°48'. Station location: Eagle Point, 12 miles south-southeast of Sterling, Colo.

8304–C1–P–70—Western Tele-Communications, Inc. (New), Change geographic coordinates to latitude 40°38'31'' N., longitude 102°35'11'' W., change frequencies to 4150 MHz on azimuth 247°07' and to 3850 MHz on azimuth 42°36'. Station location: 2.3 miles east of Haxtun, Colo.

8305–C1–P–70—Western Tele-Communications, Inc. (New), Change geographic coordinates to latitude 40°56'18'' N., longitude 102°13'35'' W., change frequencies to 4110 MHz on azimuth 222°50' and to 3810 MHz on azimuth 61°37'. Station location: 5 miles south of Julesburg, Colo.

8306–C1–P–70—Western Tele-Communications, Inc. (New), Change station location to 3 miles northeast of Ogallala, Nebr. (latitude 41°09'44'' N., longitude 101°40'30'' W.), change frequencies to 4150 MHz on azimuth 241°58' and to 3850 MHz on azimuth 106°52'.

8307–C1–P–70—Western Tele-Communications, Inc. (New), Change station location to 15 miles southwest of North Platte, Nebr. (latitude 41°00'19'' N., longitude 101°00'00'' W.), change frequencies to 4110 MHz on azimuth 287°18' and to 3810 MHz on azimuth 141°19.

8309–C1–P–70—Western Tele-Communications, Inc. (New), Change station location to 8 miles south of Curtis, Nebr. (latitude 40°34'12'' N., longitude 100°32'39'' W.), change frequencies to 3930 MHz on azimuth 321°38' and to 3850 MHz on azimuth 87°22'.

8310–C1–P–70—Western Tele-Communications, Inc. (New), Change station location to 0.5 mile west of Elwood, Nebr. (latitude 40°35'30'' N., longitude 99°52'06'' W.), change frequencies to 4110 MHz on azimuth 267°49' and to 3810 MHz on azimuth 75°50'.

8311–C1–P–70—Western Tele-Communications, Inc. (New), Change location to 4 miles west of Kearney, Nebr. (latitude 40°43'20'' N., longitude 99°10'40'' W.), change frequencies to 4150 MHz on azimuth 256°17' and to 3850 on azimuth 93°56'.

8313–C1–P–70—Western Tele-Communications, Inc. (New), Change station location to Rosedale, 6 miles north of Hastings, Nebr. (latitude 40°40'56'' N., longitude 98°27'03'' W.), change frequencies to 3890 MHz on azimuth 274°24' and to 3810 MHz on azimuth 90°44'.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIER)—Continued

8314–C1–P–70—Western Tele-Communications, Inc. (New), Change station location to 4 miles north of Sutton, Nebr. (latitude 40°40'28'' N., longitude 97°50'40'' W.), change frequencies to 3930 MHz on azimuth 271°08' and to 3850 MHz on azimuth 80°11'.

8316–C1–P–70—Western Tele-Communications, Inc. (New), Change station location to Beaver Crossing, 10 miles south-southwest of Seward, Nebr. (latitude 40°45'42'' N., longitude 97°09'58'' W.), change frequencies to 4110 MHz on azimuth 260°38' and to 3810 MHz on azimuth 79°12'.

8317–C1–P–70—Western Tele-Communications, Inc. (New), Change station location to 4 miles east of Lincoln, Nebr. (latitude 40°50'58'' N., longitude 96°32'56'' W.), change frequencies to 4150 MHz on azimuth 259°36'; to 3930 MHz on azimuth 246°24', and to 3850 MHz on azimuth 90°08'.

8318–C1–P–70—Western Tele-Communications; Inc. (New), Change frequencies to 3790 MHz on azimuth 66°19'. Station location: 27th and Randolph Streets, Lincoln, NE.

8319–C1–P–70—Western Tele-Communications, Inc. (New), Change station location to 9 miles northeast of Wahoo, Nebr. (latitude 41°15'51'' N., longitude 96°27'28'' W.), change frequencies to 3710 MHz on azimuth 189°11'; to 6286.2 and 6345.5 MHz on azimuth 90°45' and add frequency 3790 MHz on azimuth 349°35' toward new point of communication at Knievel, Nebr.

8320–C1–P–70—Western Tele-Communications, Inc. (New), Change location to 1700 Farnam Street, Omaha, NE (latitude 41°15'28'' N., longitude 96°56'19'' W.), and change frequencies to 6093.5 and 6123.1 MHz on azimuth 271°06'.

8321–C1–P–70—Western Tele-Communications, Inc. (New), Change station location to Knievel, 7 miles southeast of West Point, Nebr. (latitude 41°45'12'' N., longitude 96°36'49'' W.), change frequencies to 3930 MHz on azimuth 166°43' and to 4150 MHz on azimuth 16°41'.

8322–C1–P–70—Western Tele-Communications, Inc. (New), Change geographic coordinates to latitude 42°10'14'' N., longitude 96°26'44'' W., change frequencies to 3810 MHz on azimuth 96°47' to 3890 MHz on azimuth 352°06'. Station location: 3 miles northeast of Walthill, Nebr.

8323–C1–P–70—Western Tele-Communications, Inc. (New), Change station location to 1.5 miles east of Sioux City, Iowa (latitude 42°28'45'' N., longitude 96°18'48'' W.), change frequencies to 3930 MHz on azimuth 197°41'.

8324–C1–P–70—Western Tele-Communications, Inc. (New), Change geographic coordinates to latitude 42°43'33'' N., longitude 96°33'00'' W.; change frequencies to 3930 MHz on azimuth 172°02' and to 4150 MHz on azimuth 350°30'. Station location: Elk Point, 7 miles south of Akron, Iowa.

8325–C1–P–70—Western Tele-Communications, Inc. (New), Change geographic coordinates to latitude 43°09'25'' N., longitude 96°38'55'' W.; change frequencies to 3810 MHz on azimuth 170°26' and to 4110 MHz on azimuth 359°30'. Station location: Moe, 8 miles northeast of Beresford, S. Dak.

8326–C1–P–70—Western Tele-Communications, Inc. (New), Change frequencies to 3850 MHz on azimuth 179°30'. Station location: 2.5 miles northeast of Sioux Falls, S. Dak. All other particulars same as reported on Public Notice dated June 22, 1970.
American Telephone & Telegraph Co. description for additional channels reported on Public Notice No. 532 dated Feb. 22, 1971. Delete the following: "and initial Type TL–2 and Lenkurt, 74B–1 plant maintenance channels."

4419–C1–P–71—American Telephone & Telegraph Co. (KBT49), Major amendment: Delete all particulars reported on Public Notice No. 532, dated Feb. 22, 1971, and add: C.P. to change frequency 6063.8 MHz to 6078.6 MHz toward Dodge City Junction, Kans., at 6.2 miles southeast of Minneola, Kans.

4420–C1–P–71—American Telephone & Telegraph Co. (KAM47), Major amendment: Frequency to be changed on path toward Minneola, Kans., is 6226.9 MHz in lieu of 11,035 MHz. All other particulars the same as reported on Public Notice No. 532, dated Feb. 22, 1971.

NOTICES

POINT-TO-POINT MICROWAVE RADIO SERVICE (NONTELEPHONE)—Continued

Major Amendment

8297–C1–P–70—Western Tele-Communications, Inc. (New), Delete proposed frequencies and add frequency 6286.2 MHz toward Taylorport and Sleepy Eye, Minn. Location: 1.8 miles southeast of Rush River, Minn.

8298–C1–P–70—Western Tele-Communications, Inc. (New), Delete proposed frequencies and add frequency 6034.2 MHz toward St. Paul and Rush River, Minn. Location: Taylorport, 3.8 miles south-southeast of Sharopee, Minn.

8299–C1–P–70—Western Tele-Communications, Inc. (New), Delete proposed frequencies and add frequency 6286.2 MHz toward Taylorport, Minn. Location: Corner of Emerald Street and University Avenue, St. Paul, MN.

(INFORMATIVE: Applicant is amending applications, Files Nos. 8292–C1–P–70 through 8299–C1–P–70 to change from frequency diversity to space diversity operation using hot standby transmitters.)

Major Amendment

6955–C1–P–71—Mountain Microwave Corp. (New), Change frequency to 11,645 MHz on azimuth 279°40'. Location: 3 miles northwest of Dodge City, Kans.

333–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station at Omaha, Nebr., 1700 Farnum Street, at latitude 41°15'28" N., longitude 95°56'19" W. Frequencies 5945.2, 5974.8, 6004.5, 6034.2, and 6063.8 on azimuth 271°06'. Frequencies 10,875 and 11,115 on azimuth 208°14'. Frequencies 10,875 and 10,795 on azimuth 269°10'. Frequencies 10,875 and 11,035 on azimuth 273°14'.

334–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station at WOW–TV, 3501 Farnum Street, Omaha, NE, at latitude 41°15'51" N., longitude 96°27'38" W. Frequency 11,485 on azimuth 89°09'.

335–C1–P–72—Mountain Microwave Corp. (New), C.P. for new fixed station at KMTV–TV, 2615 Farnum Street, Omaha, NE, at latitude 41°15'27" N., longitude 95°57'02" W. Frequency 11,485 on azimuth 88°14'.

336–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station at KETV–TV, 27th and Douglas Streets, Omaha, NE, at latitude 41°15'30" N., longitude 95°57'06" W. Frequency 11,485 on azimuth 93°13'.

337–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station near Wahoo, Nebr., at latitude 41°15'51" N., longitude 96°27'38" W. Frequencies 3950, 3970, 4080, 4050, and 4130 on azimuth 189°11'. Frequency 6404.8 on azimuth 90°45'.

338–C1–P–72—Mountain Microwave Corp. (New), C.P. for new fixed station near Lincoln, Nebr., at latitude 40°50'58" N., longitude 96°32'56" W. Frequencies 3990, 4010, 4070, 4090, and 4170 on azimuth 259°38'. Frequency 3770 on azimuth 9°08'. Frequencies 4010, 3990, and 4070 on azimuth 252°12'.

339–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station at KOLN–TV, Lincoln, Nebr., at latitude 40°49'18" N., longitude 96°39'45" W. Frequency 4110 on azimuth 72°07'.

340–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station near Seward, Nebr., at latitude 40°45'42" N., longitude 97°09'58" W. Frequencies 3950, 3970, 4080, 4050, and 4130 on azimuth 260°38'. Frequency 3930 on azimuth 79°12'.

341–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station near Sutton, Nebr., at latitude 40°40'28" N., longitude 97°50'40" W. Frequencies 3990, 4010, 4070, 4090, and 4170 on azimuth 271°08'. Frequency 3770 on azimuth 80°11'.

342–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station near Rosedale, Nebr., at latitude 40°40'55" N., longitude 98°27'03" W. Frequencies 3950, 3970, 4030, 4050, and 4130 on azimuth 274°24', Frequency 3730 on azimuth 90°44'. Frequency 4050, 4030, and 4110 on azimuth 120°54'.

343–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station at KHAS–TV near Hastings, Nebr., at latitude 40°39'06" N., longitude 98°23'04" W. Frequency 4150 on azimuth 300°56'.

344–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station near Kearney, Nebr., at latitude 40°43'20" N., longitude 99°10'40" W., Frequencies 3990, 4010, 4070, 4090, and 4170 on azimuth 256°17'. Frequency 3770 on azimuth 93°56', Frequency 4170, 3990, and 4070 on azimuth 161°54'.

POINT-TO-POINT MICROWAVE RADIO SERVICE (NONTELEPHONE)

321–C1–P–72—American Television Relay, Inc. (New), C.P. for a new station at KABC–TV, Prospect and Talmadge Streets, Los Angeles, CA, at latitude 34°06'12" N., longitude 118°16'54" W. Frequency 5960.0 MHz on azimuth 55°22'.

322–C1–P–72—American Television Relay, Inc. (New), C.P. for a new station at Mount Wilson, 3.5 miles northeast of Altadena, Calif., at latitude 34°13'36" N., longitude 118°03'59" W. Frequency 3990 MHz on azimuth 138°52'.

323–C1–P–72—American Television Relay, Inc. (KTTQ75), C.P. for a new point of communications at television station XETV in Mexico. Location: Santiago Peak, 11 miles southsoutheast of Corona, Calif., at latitude 33°42'42" N., longitude 117°31'46" W. Frequency 6175.0 MHz on azimuth 160°08'.

(INFORMATIVE: Applicant proposes to provide the signal of television station KABC–TV of Los Angeles to television station XETV in Tijuana, Mexico.)

332–C1–P–72—West Texas Microwave Co. (WHB27), C.P. to add point of communication at Dumas, Tex., using frequencies 11,265 and 11,345 MHz on azimuth 321°23'. Location: 10.5 miles northwest of Panhandle, Tex., at latitude 35°25'37" N., longitude 101°32'59" W.

(INFORMATIVE: Applicant proposes to provide the television signals of stations KTVT and KDTV to Continental Transmission Corp. in Dumas, Tex.)

359–C1–MP–72—KHC Microwave Corp. (WDD97), Modification of C.P. to change location to 2.5 miles south of La Belle, Tex., at latitude 29°50'25" N., longitude 94°09'41" W. Frequencies 6226.9 and 6286.2 MHz on azimuth 61°16'.

360–C1–MP–72—KHC Microwave Corp. (WDE80), Modification of C.P. to change location to 1 mile east of Groves, Tex., at latitude 29°59'22" N., longitude 93°50'53" W. Frequencies 6034.2 and 6074.8 MHz on azimuth 70°07'.

361–C1–MP–72—KHC Microwave Corp. (WDE81), Modification of C.P. to change location to Cameron Farms, 7 miles south-southeast of Vinton, La., at latitude 30°05'07" N., longitude 93°31'40" W. Frequencies 6226.9 and 6286.2 MHz on azimuth 71°21' and 313°20'.

6962–C1–P–71—Telecommunications, Inc. (WHA88), Change frequency 6390.0 MHz to 11,115 MHz toward Portland, Oreg. Location: 6 miles west-northwest of Scappoose, Oreg.

6964–C1–MP–71—Telecommunications, Inc. (KPER28), Change frequency 6271.4 MHz to 6212.0 MHz toward Silver Lake and Seattle, Wash.

6965–C1–MP–71—Telecommunications, Inc. (WHA90), Change location to 301 Galer Street, Seattle, WA, at latitude 47°37'55" N., longitude 122°20'59" W. Change azimuths toward Capitol Peak, KIRO–TV, KING–TV, and KOMO–TV to 219°31', 172°35', 155°13', and 172°28' respectively.

6966–C1–P–71—Telecommunications, Inc. (New), Change azimuth to 352°36' toward Seattle, Wash. Location: KIRO–TV, Seattle.

6967–C1–P–71—Telecommunications, Inc. (New), Change azimuth to 335°13' toward Seattle, Wash. Location: KING–TV, Seattle.

6968–C1–P–71—Telecommunications, Inc. (New), Change azimuth to 352°28' toward Seattle, Wash. Location: KOMO–TV, Seattle.

6971–C1–MP–71—Telecommunications, Inc. (WHA93), Change azimuth toward KIMA–TV to 277°34'. Location: 11 miles north of Sunnyside, Wash.

6972–C1–P–71—Telecommunications, Inc. (New), Change location to KAPP–TV, 35 South First Street, Yakima, WA, at latitude 46°36'04" N., longitude 120°32'30" W. Change azimuth to 106°36'.

6974–C1–P–71—Telecommunications, Inc. (New), Change azimuth to Steptoe Butte to 27°53'. Location: 5 miles east of Dayton, Wash.

6975–C1–MP–71—Telecommunications, Inc. (WHA96), Change location to Steptoe Butte, 3.2 miles northeast of Steptoe, Wash., at latitude 47°01'56" N., longitude 117°18'12" W. Change azimuth to 208°18' toward Dayton, Wash., and to 358°17' toward Browne Mountain, Wash.

6976–C1–MP–71—Telecommunications, Inc. (WHA97), Change point of communication from Rosalia to Steptoe Butte, Wash., on azimuth 178°16'. Location: Browne Mountain, 1.5 miles southeast of Spokane, Wash. All other particulars same as reported in Public Notice dated June 14, 1971.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIER)—Continued

345–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station near Axtell, Nebr., at latitude 40°29'38" N., longitude 99°04'48" W. Frequency 4110 on azimuth 341°57'.

346–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station near Elwood, Nebr., at latitude 40°35'30" N., longitude 99°52'06" W. Frequencies 3950, 3970, 4030, 4050, and 4130 on azimuth 267°49'. Frequency 3730 on azimuth 75°50'.

347–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station near Curtis, Nebr., at latitude 40°34'12" N., longitude 100°32'39" W. Frequency 3990, 4010, 4070, 4090, and 4170 on azimuth 321°38'. Frequency 3770 on azimuth 87°22'.

348–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station near North Platte, Nebr., at latitude 41°00'19" N., longitude 101°00'00" W., Frequencies 3950, 3970, 4030, 4050, and 4130 on azimuth 287°18". Frequency 3730 on azimuth 141°19'. Frequency 4050, 3950, and 4030 on azimuth 45°11'.

349–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station at KNOP–TV, North Platte, Nebr., at latitude 41°12'13" N., longitude 100°43'58" W. Frequency 4150 on azimuth 225°38'.

350–C1–P–72—Mountain Microwave Corp. (New), C.P. for a new fixed station near Ogallala, Nebr., at latitude 41°09'44" N., longitude 101°40'30" W. Frequencies 3990, 4010, 4070, 4090, and 4170 on azimuth 241°58'. Frequency 3770 on azimuth 106°52'.

FEDERAL POWER COMMISSION

[Docket No. RI72–34, etc.]

AMOCO PRODUCTION CO. ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

JULY 23, 1971.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act particularly sections 4 and 15, the Regulations pertaining thereto (18 CFR, Chapter I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the respondent or by the Commission. Each respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[1] Does not consolidate for hearing or dispose of the several matters herein.

APPENDIX A

RI72-36	Mobil Oil Corp	68	[1] 14	do		7- 7-71	7- 7-71	[2] Accepted			
	do	68	15	do	70,482	7- 7-71	----------	7- 8-71	[4] 14.07636	[4] 18.75	
	do	68	[1] 16	do		7- 7-71	8- 7-71	[5] Accepted			
RI72-37	Howard C. Johnson	1	2	Lone Star Gas Co. (North Dibble & Boyles Area, McClain County, Okla., other area).	232	6-24-71	----------	8-25-71	[6] 15.0	[6] 16.16	

[1] Unless otherwise stated, the pressure base is 15.025 p.s.i.a.
[2] Corrected by letter dated July 8, 1971.
[3] Amendment dated Apr. 23, 1971, which provides for increased rate applicable only to production from above the base of the Gray Sand Formation.
[4] Not used.
[5] Includes 1-cent tax reimbursement.
[6] Applicable only to gas produced from above the base of the Gray Sand.
[7] Contract dated Apr. 23, 1971, amending basic contract, providing for rate of 25 cents and 2 cents periodic increases every 4 years from date of initial deliveries applicable to gas produced from below the base of the Gray Sand.
[8] Accepted, to be effective on the dates shown in the "Effective Date" column.
[9] The pressure base is 14.65 p.s.i.a.
[10] Accepted, to become effective as of the date of filing with waiver of notice granted.

The purchaser, United, has tracked the rate increases involved here of Amoco, Pennzoil, and Mobil in its rate increase filing of November 13, 1970 which was suspended in Docket No. RP71-41. In these circumstances, good cause exists for waiving the 60 day notice period.

The proposed increased rates relate to sales in areas outside Southern Louisiana and do not exceed the corresponding rate limitation for increased rates in Southern Louisiana. The increases of Amoco, Pennzoil, and Mobil are therefore suspended for one day from the date of filing and Johnson's increase is suspended for 61 days from the date of filing.

All of the producers' proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR 2.56).

[Project No. 108, etc.]

NORTHERN STATES POWER CO. ET AL.

Notice of Expiration

JULY 27, 1971.

So that the Congress may have an adequate opportunity to decide whether upon the expiration of the licenses, to take over the projects under section 14 of the Federal Power Act, as amended (16 U.S.C. 807), and that the licensees for the projects and others may have adequate notice and opportunity to file timely applications for new licenses under section 15 of the act, as amended (16 U.S.C. 808), public notice is hereby given that the licenses issued for the designated and described projects on the appended list will expire on the dates specified.

KENNETH F. PLUMB,
Secretary.

TEXACO INC. ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

JULY 23, 1971.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Chapter I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the respondent or by the Commission. Each respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

* Unless otherwise stated, the pressure base is 14.65 p.s.i.a.
[1] Not used.
[2] Not used.
[3] Pursuant to Opinion No. 567 and Order No. 413.
[4] Not used.
[5] Letter dated June 23, 1971, whereby Atlantic advises that the "K D" Sand Reservoir was discovered prior to Oct. 1, 1968, and therefore does not qualify for higher ceiling.
[6] Applies only to sales from the "K J" Sand Reservoir.
[7] Letter dated June 15, 1971, whereby Cities Service advises that the "K D" Sand Reservoir was discovered prior to Oct. 1, 1968, and therefore does not qualify for higher ceiling.
[8] Increase to contract rate.
[9] Old gas-well gas.
[10] New gas-well gas.
[10a] Includes a reduction in price for B.t.u. content below 1,000 B.t.u. per cubic foot.
[11] Price reduced 0.06 cent for treating performed by buyer.
[12] No new gas-well gas sales at present time.
[13] Base rate subject to downward B.t.u. adjustment.
[14] Includes 1.5 cents tax reimbursement.
[15] Amendment dated May 10, 1971, provides for increased rate; provides for 3¢ tax reimbursement and provides that Phillips may file to any higher area rate established by the FPC.
[16] The pressure base is 15.025 p.s.i.a.
[17] Accepted, for filing as correcting the prior increased rate filings, subject to the existing suspension proceedings, in Dockets Nos. RI71-874 and RI71-844, respectively, and the prior orders issued March 19 and Mar. 26, 1971, are amended to reflect that gas from the "K D" sand reservoir is not entitled to the increased price of 23.5 cents.
[18] Accepted, to be effective as of the date shown in the "Effective Date" column.

The proposed increases filed by certain respondents for sales outside the Southern Louisiana are suspended for 5 months from the expiration of the 30-day statutory notice period or the contractually due date, whichever is later, because they exceed the corresponding rate filing limitations imposed in Southern Louisiana. The proposed increased rates in areas outside Southern Louisiana which do not exceed the corresponding rate limitation for increased rates in Southern Louisiana are suspended for a period ending 61 days from the date of filing or for 1 day from the contractually due date, whichever is later.

Atlantic Richfield Co. and Cities Service Oil Co. had previously filed proposed increases to 23.5 cents per Mcf applicable to gas produced from newly discovered reservoirs. The increases were suspended by orders issued March 26 and March 19, 1971, and made effective subject to refund in Dockets Nos. RI71-874 and RI71-844, respectively, as of April 16 and April 3, 1971, respectively. Both Atlantic and Cities Service now state that one of the reservoirs, the "KD" reservoir, previously claimed for third vintage status under its original filing, does not qualify for such status and therefore it is not entitled to the 23.5 cents price for gas sold from such reservoir. No amounts attributable to the increased rate have been paid for gas sold from such reservoir and consequently no refunds will be required. The letters are accepted as correcting the prior filings, subject to the existing suspension proceedings in Docketa Nos. RI71-874 and RI71-844, and the prior orders are amended accordingly.

Texaco, Inc. requests effective dates for which adequate notice was not given. Good cause has not been shown for granting these requests and they are denied.

All of the producers' proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR 2.56).

[Docket No. CS71-11, etc.]

TIPPERARY LAND & EXPLORATION CORP. ET AL.

Notice of Applications for "Small Producer" Certificates [1]

JULY 23, 1971.

Take notice that each of the applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before August 20, 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised it will be unnecessary for applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

GOODYEAR TIRE & RUBBER CO.

Nonbank Activities

The Goodyear Tire & Rubber Co., Akron, Ohio, has applied, pursuant to § 4(d) of the Bank Holding Company Act of 1956 (12 U.S.C. 1843(d)), for an exemption from the provisions of the Act limiting the nonbanking activities of a bank holding company. The Applicant controls The Goodyear Bank, Akron, Ohio.

Under section 4(d), the exemption may be granted "(1) to avoid disrupting business relationships that have existed over a long period of years without adversely affecting the banks or communities involved, or (2) to avoid forced sales of small locally owned banks to purchasers not similarly representative of community interests, or (3) to allow retention of banks that are so small in relation to the holding company's total interests and so small in relation to the banking market to be served as to minimize the likelihood that the bank's powers to grant or deny credit may be influenced by a desire to further the holding company's other interests."

Interested persons may express their views on this matter. The application may be inspected in Room 1020 of the Board's building or at the Federal Reserve Bank of Cleveland. Any request for a hearing on this matter should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

Any views or requests for a hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 30, 1971.

Board of Governors of the Federal Reserve System, July 29, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

MIDLANTIC BANKS INC.

Order Denying Acquisition of Bank Stock by Bank Holding Company

In the matter of the application of Midlantic Banks Inc., Newark, N.J., for approval of acquisition of 100 percent (less directors' qualifying shares) of the voting shares of the successor by merger to Citizens National Bank, Englewood, N.J.

There has come before the Board of Governors, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)), and § 222.3(a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by Midlantic Banks, Inc., Newark, N.J., a registered bank holding company, for the Board's prior approval of the acquisition of 100 percent (less directors' qualifying shares) of the voting shares of the successor by merger to Citizens National Bank, Englewood, N.J.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Comptroller of the Currency, and requested his views and recommendation. The Comptroller recommended approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on March 3, 1971 (36 F.R. 4081), providing an opportunity for interested persons to submit comments and views with respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired, and all those received have been considered by the Board.

It is hereby ordered, For the reasons set forth in the Board's Statement[1] of this date, that said application be and hereby is denied.

By order of the Board of Governors,[2] July 29, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

[FR Doc.71-11196 Filed 8-4-71;8:47 am]

[1] Filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of New York. Concurring Statement of Governors Mitchell and Sherrill also filed as part of the record and available upon request.

[2] Voting for this action: Vice Chairman Robertson and Governors Mitchell, Maisel, Brimmer, and Sherrill. Absent and not voting: Chairman Burns and Governor Daane.

SECURITIES AND EXCHANGE COMMISSION

[File No. 812-2949]

BANKERS LIFE COMPANY SEPARATE ACCOUNT B ET AL.

Notice of Application for Exemptions

JULY 30, 1971.

Notice is hereby given that Bankers Life Co. Separate Account B (Account B), a unit investment trust registered under the Investment Company Act of 1940, as amended (Act), Bankers Life Co. (Bankers Life), a mutual life insurance company incorporated under the laws of Iowa, and BLC Equity Services Corp. (BLESCO), 711 High Street, Des Moines, Iowa 50307 (herein after collectively called "Applicants") have filed an application pursuant to section 6(c) of the Act for an order exempting Applicants from the provisions of sections 22(d), 26(a), and 27(c)(2) of the Act. All interested persons are referred to the application, as amended, on file with the Commission for a statement of the representations contained therein, which are summarized below.

Account B is a separate account of Bankers Life established as the facility for issuing certain variable annuity contracts. Account B will offer group variable annuity contracts for use in connection with annuity purchase plans established pursuant to section 403(b) of the Internal Revenue Code (Code). Under Iowa insurance law and regulations, the assets maintained in Account B attributable to variable annuity contracts may not be charged with any liabilities arising out of any other business conducted by Bankers Life, and the income, gains or losses of Account B may be credited to or charged against the assets of Account B without regard to the other income, gains or losses of Bankers Life. All amounts credited to Account B pursuant to variable annuity contracts will be invested in shares of BLC Fund, Inc., a diversified open-end investment company registered under the Act.

Bankers Life has assets in excess of $2.048 billion and unassigned surplus and mandatory securities valuation reserves in excess of $101 million. BLESCO, a wholly owned subsidiary of Bankers Life, is a registered broker-dealer under the Securities Exchange Act of 1934 and is a member of the National Association of Securities Dealers, Inc. BLESCO is the principal underwriter of variable annuity contracts participating in Account B.

Applicants request exemptions from the following provisions to the extent set forth below:

Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter thereof shall sell any redeemable security issued by such company to the public except at a current offering price described in the prospectus. Applicants request the following exemptions from section 22(d):

(1) To permit the transfer of amounts accumulated under other contracts issued to group retirement plans qualified under section 403(b) of the Code by Bankers Life to group variable annuity contracts participating in Account B. A participant under such group variable annuity contract may also be a participant under a fixed-dollar annuity contract issued by Bankers Life (group fixed-dollar contract). If permitted by the applicable retirement plan and consented to by Bankers Life, such participant may transfer all or a portion of amounts accumulated under such group fixed-dollar contract without a sales charge to his account under the group variable annuity contract at any time not less than 1 month preceding his annuity commencement date. Usually Bankers Life will permit only one such transfer to be made by a participant in any 1-year period.

(2) Subject to the provisions of the group fixed-dollar contract, the beneficiary of a deceased participant may elect to have all or a portion of the proceeds available to him under the group fixed-dollar contract upon the death of a participant prior to the commencement of annuity payments transferred to a group variable annuity contract without a sales charge.

(3) If the holder of a group variable annuity contract participating in Account B elects to make coverage under such contract available to persons covered under another group contract issued by Bankers Life, such persons will be permitted to have the proceeds available to them under such other contract transferred without charge to accounts under the group variable annuity contract at any time not less than 1 month before their respective annuity commencement dates.

Applicants state that in all cases where a transfer from a group contract issued by Bankers Life is permitted, a sales charge will have already been paid with respect to the amount transferred. Furthermore, they contend that persons for whom such transfers are made will receive no preferential treatment since any group fixed-dollar contract issued concurrently with a group variable annuity contract will provide for a sales charge at least equal to the sales charge under the group variable annuity contract. Applicants represent that no selling expenses in connection with such transfers are anticipated and state that to require a charge would result in an accumulation of sales charges which would be unduly burdensome to persons wishing to effect such transfers.

Some group fixed-dollar contracts issued by Bankers Life, but not concurrently with a group variable annuity contract, provide for a sales charge which is lower than the charge under the group variable annuity contracts. In the event any such fixed-dollar contract is to be used as a contract from which transfers may be made to a group variable annuity contract without load, the owner of such contract will be required to agree, as a condition to the issuance of the group variable annuity contract, to an increase of the sales charge under the fixed-dollar contract so that the sales charge applicable to subsequent payments will equal the sales charge under the group variable annuity contract.

(4) Applicants also request exemption from section 22(d) to permit the crediting of divisible surplus without a sales charge to variable annuity contracts participating in Account B. Applicants assert that, as a mutual life insurance company, Bankers Life is obligated to ascertain, at least annually, divisible surplus and they anticipate that such surplus will arise if actual expenses are less than the charges for such expenses or if actual mortality experience is more favorable than that assumed in the annuity purchase rates used in connection with making monthly annuity payments. Any distribution of divisible surplus will be made by crediting additional units to the accounts maintained under variable annuity contracts or in such other manner as is provided in the contracts.

(5) Applicants request an additional exemption from section 22(d) to permit a beneficiary under a variable annuity contract participating in Account B to elect to have any death proceeds to which he is entitled applied to effect a variable annuity without a sales charge in lieu of payment in a single sum. Applicants assert that no significant selling expenses are anticipated in connection with the election of such option.

Sections 26(a) and 27(c)(2) of the Act, as here pertinent, provide in substance that a registered unit investment trust and any depositor and underwriter for such trust are prohibited from selling periodic payment plan certificates unless the proceeds of all payments other than the sales load are deposited with a qualified bank as trustee or custodian and held under an indenture or agreement containing specified provisions. Such agreement must provide, inter alia, that the bank (i) shall have possession of all property of the unit investment trust and shall segregate and hold the same in trust, (ii) shall not resign until the trust has been liquidated or a successor has been appointed, (iii) may collect from the income and, if necessary, from the corpus of the trust such fees for services performed and reimbursement of expenses incurred as are provided for in the agreement, and (iv) shall not be allowed as an expense any payment to the depositor or principal underwriter except a fee, not exceeding such reasonable amount as the Commission may prescribe, for performing bookkeeping and other administrative services delegated to the bank. Applicants request an exemption from these requirements on the grounds that the status of Bankers Life as a regulated insurance company and its obligations under the variable annuity contracts provide substantially the protection contemplated by these requirements.

In support of these requested exemptions, Applicants state that Bankers Life is subject to extensive supervision and control by the Iowa insurance regulatory authorities including periodic examination of its financial affairs. Such supervision and inspection is also applicable to Account B thus affording protection to contract owners and assuring performance by Bankers Life of its obligations to such owners. Applicants also assert that under Iowa insurance law and regulation, the assets of Account B attributable to variable annuity contracts are not chargeable with liabilities arising out of other business of Bankers Life. However, the general obligations of Bankers Life include all obligations under the variable annuity contracts in Account B. Applicants contend that such control, regulation, assets and surplus provide ample assurance of ability to meet obligations and afford the essential protection which the trusteeship or custodianship under sections 26(a) and 27(c)(2) is designed to provide.

Applicants have consented that the exemptions requested from sections 26(a) and 27(c)(2) may be made subject to the conditions (1) that the charges under the contracts for administrative services shall not exceed such reasonable amounts as the Commission shall prescribe, jurisdiction being reserved for such purpose, and (2) that the payment of sums and charges out of the assets of the Account shall not be deemed to be exempted from regulation by the Commission by reason of the requested order, provided that the Applicants' consent to this condition shall not be deemed to be a concession to the Commission of authority to regulate the payments of sums and charges out of such assets other than charges for administrative services, and Applicants reserve the right in any proceeding before the Commission or in any suit or action in any court to assert that the Commission has no authority to regulate the payment of such other sums or charges.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security or transaction from any provision or provisions of the Act, or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than August 12, 1971 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such

request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after such date as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the matter herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] THEODORE L. HUMES,
Associate Secretary.

BROAD STREET INVESTING CORP.

Notice of Filing of Application Exempting Sale by Open-End Company of Shares at Other Than Public Offering Price

JULY 28, 1971.

Notice is hereby given that Broad Street Investing Corp. (Applicant), 65 Broadway, New York, NY 10006, a Maryland corporation registered under the Investment Company Act of 1940 (Act) as an open-end diversified management investment company, has filed an application pursuant to section 6(c) of the Act requesting an order of the Commission exempting from the provisions of section 22(d) of the Act a transaction in which Applicant's redeemable securities will be issued at a price other than the current public offering price described in the prospectus, in exchange for the assets of Rose, Inc. All interested persons are referred to the application on file with the Commission for a statement of Applicant's representations which are summarized below.

Rose, Inc., an Oregon corporation, is a company all of the outstanding stock of which is owned beneficially by three persons, and is primarily engaged in investing, reinvesting and trading in securities. Applicant asserts that Rose, Inc., is excepted from the definition of an investment company by reason of the provisions of section 3(c)(1) of the Act.

Since its incorporation in 1955, Rose Inc. has been primarily in the business of investing and reinvesting its funds. Pursuant to an agreement between Applicant and Rose, Inc., substantially all of the cash and securities owned by Rose, Inc. with a value of approximately $760,049 as of May 14, 1971, will be transferred to Applicant in exchange for shares of Applicant's capital stock. The number of shares of Applicant to be issued is to be determined by dividing the aggregate market value (with certain adjustments as set forth in the application) of the assets of Rose, Inc. to be transferred to Applicant by the net asset value per share of the Applicant, both to be determined as of the valuation time, as defined in the agreements.

Since the exchange is expected to be tax free for Rose, Inc. and its stockholders, Applicant's cost basis for tax purposes for the assets acquired from Rose, Inc. will be the same as Rose, Inc.'s cost basis, rather than the price actually paid by Applicant for the assets. If the valuation under the agreement had taken place on May 14, 1971, Rose, Inc. would have received 48,000 shares of Applicant's stock.

When received by Rose, Inc., the shares of Applicant, which are registered under the Securities Act of 1933, are to be distributed to the Rose, Inc. stockholders on the liquidation of Rose, Inc. Applicant has been advised by the management of Rose, Inc. that the stockholders of Rose, Inc. have no present intentions of redeeming or otherwise transferring any of Applicant's shares following the proposed transactions.

The Applicant represents that no affiliation exists between Rose, Inc. or its officers, directors, or stockholders and Applicant, its officers or directors, and the agreement was negotiated at arm's length by the two companies. Applicant's Board of Directors approved the agreement as being in the best interests of its shareholders, taking all relevant considerations into account, including, among other things, the fact that the securities will be obtained without the payment of brokerage commissions.

Section 22(d) of the Act provides that registered investment companies issuing redeemable securities may sell their shares only at the current public offering price as described in the prospectus. The exchange contemplated by the agreement would be prohibited by section 22(d) as being a sale of a redeemable security by a registered investment company at a price other than a current offering price described in the prospectus, unless exempted by an order under section 6(c) of the Act. Section 6(c) permits the Commission, upon application, to exempt such a transaction if it finds that such an exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant contends that the proposed offering of its stock will comply with the provisions of the Act, other than section 22(d), and submits that the granting of the application would be in accordance with the established practice of the Commission, is necessary and appropriate in the public interest, and is consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than August 18, 1971, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] THEODORE L. HUMES,
Associate Secretary.

CONNECTICUT YANKEE ATOMIC POWER CO.

Notice of Proposed Issue and Sale of Notes to Banks

JULY 30, 1971.

Notice is hereby given that Connecticut Yankee Atomic Power Co. (Connecticut Yankee), Post Office Box 270, Hartford, CT 06101, an electric utility subsidiary company of Northeast Utilities and New England Electric System, registered holding companies, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6 and 7 of the Act as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Connecticut Yankee proposes to issue and sell to banks up to $7 million of its notes outstanding at any one time pursuant to a loan agreement with four participating banks. The banks which are participating in the loan agreement and the maximum commitment of each bank are as follows:

	Commitment
The Connecticut Bank and Trust Co., Hartford, Conn	$4,000,000
Hartford National Bank and Trust Co., Hartford, Conn	2,000,000
The Connecticut National Bank, Bridgeport, Conn	500,000
The First New Haven National Bank, New Haven, Conn	500,000
Total	$7,000,000

The notes will be issued from time to time no later than October 1, 1971, will be dated the date of issue, will mature on or before October 1, 1973, will bear interest at a rate of one-quarter of 1 percent above the prime rate (currently 6 percent) in effect from time to time at The Connecticut Bank and Trust Co., and may be prepaid at any time without premium. Under the loan agreement, Connecticut Yankee will pay a commitment fee of one-quarter of 1 percent per annum from the date of the loan agreement on the average daily unused amount of the total commitment thereunder through the earlier of October 1, 1971 or the date upon which the company gives written notice to the banks that no further borrowings will be effected under the loan agreement. No compensating balances are required under the loan agreement, and no closing or other related charges will be made by the participating banks. Connecticut Yankee expects to repay the notes from time to time in part from internally generated funds, and the balance will be refunded on or before October 1, 1973, with some form of long-term financing.

In connection with Connecticut Yankee's program to own the uranium required for its plant's initial fuel core, rather than continuing the present lease arrangement with the Atomic Energy Commission ("AEC"), Connecticut Yankee has entered into a contract with the AEC, for enrichment of uranium, which requires the company to supply the AEC with an equivalent amount of uranium in substitution for the uranium presently under lease and to pay the AEC an amount required to cover the cost of enrichment. Connecticut Yankee will obtain the uranium to be supplied to the AEC by borrowing a supply of uranium from a non-affiliated company. The proposed $7 million of borrowings from banks will be used to finance the enrichment charges to be paid by Connecticut Yankee to the AEC and other costs to be incurred in converting to private ownership including carrying charges of 4¾ percent per annum on the borrowed uranium. The borrowed uranium would be repaid with uranium presently committed or under contract for delivery to Connecticut Yankee on or before June 1, 1973.

The fees and expenses to be incurred in connection with the proposed notes are estimated at $4,000, including legal fees of $2,000. It is stated that the Connecticut Public Utilities Commission has jurisdiction over the proposed issue and sale of notes and that no other State and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. Connecticut Yankee requests that through December 31, 1971, the certificate of notification under Rule 24 regarding the proposed notes to be filed on a quarterly basis.

Notice is further given that any interested person may, not later than August 23, 1971, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] THEODORE L. HUMES,
Assistant Secretary.

CONTINENTAL VENDING MACHINE CORP.

Order Suspending Trading

JULY 29, 1971.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, 10 cents par value of Continental Vending Machine Corp., and the 6 percent convertible subordinated debentures due September 1, 1976 being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period July 30, 1971, through August 8, 1971.

By the Commission.

GENERAL PUBLIC UTILITIES CORP.

Notice of Posteffective Amendment to Declaration Regarding Cash Capital Contributions to Subsidiary Companies

JULY 30, 1971.

Notice is hereby given that General Public Utilities Corp. (GPU), 80 Pine Street, New York, New York 10005, a registered holding company, has filed a posteffective amendment to a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating section 12(b) of the Act and Rule 45 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, as amended, which is summarized below, for a complete statement of the proposed transactions.

By order dated March 29, 1971 (Holding Company Act Release No. 17068), this Commission permitted GPU to make cash capital contributions, from time to time up to December 31, 1971, to certain of its subsidiary companies. The proposed capital contributions were to be and will be utilized by the subsidiary companies for the purpose of financing their business as public-utility companies, including the construction of additional facilities and the increase of working capital. Such cash capital contributions will be credited by the recipients to their respective capital surplus accounts.

GPU now proposes that the amounts to be contributed to two of the subsidiary companies be increased as follows:

	Currently authorized	Proposed to be authorized
New Jersey Power & Light Co	$4,900,000	$10,500,000
Metropolitan Edison Co	34,800,000	52,100,000
Pennsylvania Electric Co	16,000,000	16,000,000
Waterford Electric Co	100,000	100,000
Total	55,800,000	78,700,000

The filing states that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions. GPU estimates that the fees and expenses as related to the post-effective amendment will be approximately $1,250.

Notice is further given that any interested person may, not later than August 16, 1971, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said amended declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing

thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended by said post-effective amendment or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] THEODORE L. HUMES, *Associate Secretary.*

[70-5046]

NATIONAL FUEL GAS CO. ET AL.

Notice of Proposed Issue and Sale of Notes

JULY 28, 1971.

Notice is hereby given that National Fuel Gas Co. (National), 30 Rockefeller Plaza, New York, NY 10020, a registered holding company, and four of its gas utility subsidiary companies, Iroquois Gas Corp. (Iroquois), Pennsylvania Gas Co. (Penn), the Sylvania Corp. (Sylvania) and United National Gas Co. (United), have filed an application-declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a), 6(b), 7, 9(a), 10, 12(b), and 12(f) of the Act and Rules 43 and 45 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, as amended, which is summarized below, for a complete statement of the proposed transactions.

National proposes to issue and sell from time to time through December 31, 1971, its unsecured promissory notes to the Chase Manhattan Bank, N. A. (Chase) in a maximum aggregate amount of $13,500,000 to be outstanding at any one time. The notes will mature on December 31, 1972, and will be prepayable in whole or in part without penalty, except that a premium of three-eighths of 1 percent must be paid if the prepayment results from borrowings from banks other than Chase. The notes will bear interest at the nominal prime rate in effect at Chase (currently 6 percent). It is stated that Chase requires prime rate borrowers to maintain 20 percent compensating balances, which results in an effective interest cost to National of 7.5 percent per annum, based upon a nominal rate of 6 percent. There will be no commitment fee or other charges to National.

National proposes to use the proceeds from the sale of its notes to Chase to acquire for cash $11 million principal amount of unsecured notes from Iroquois and $2,500,000 principal amount of unsecured notes from Sylvania, which notes, Iroquois and Sylvania currently propose to issue and sell to National. These notes will mature on December 31, 1972 and will bear interest at the prime rate of Chase in effect from time to time, such interest payable quarterly. The net proceeds derived from the sale of these long-term notes, together with funds available from current operations, will be used by the subsidiary companies to make additions to utility plant, to prepay notes to National, and to increase and replenish working capital.

Iroquois, United, and Penn also propose to issue and sell from time to time prior to December 31, 1971 to the banks named below short-term promissory notes in the respective aggregate amounts of $7 million for Iroquois, $7 million for United, and $3,500,000 for Penn. Each such note will be dated as of the date of issue, will mature not later than nine months thereafter, will bear interest at the prime commercial rate in effect on the issue date, and will be prepayable at any time, in whole or in part, without penalty. The proceeds derived from the sale of such short-term note borrowings from banks will be used to finance the cost of gas purchased and stored underground for current inventory purposes, and it is stated that such borrowings are expected to be repaid early in 1972 as gas is withdrawn from storage and sold. The maximum amount to be outstanding from each bank is as follows:

Iroquois:	
Marine Midland Trust Company of Western New York, Buffalo, N.Y.	3,290,000
Manufacturers & Traders Trust Co., Buffalo, N.Y.	3,150,000
Liberty National Bank & Trust Co., Buffalo, N.Y.	560,000
Total	7,000,000
Penn:	
Warren National Bank, Warren, Pa.	550,000
The First National Bank of Erie, Pa.	1,500,000
Marine National Bank, Erie, Pa.	600,000
Marine Midland Chautauqua National Bank, Jamestown, N.Y.	500,000
The Pennsylvania Bank & Trust Co., Warren, Pa.	350,000
Total	3,500,000
United:	
Bradford National Bank, Bradford, Pa.	300,000
Du Bois Deposit National Bank, Du Bois, Pa.	340,000
Elk County Bank & Trust Co., St. Marys, Pa.	300,000
Emporium Trust Co., Emporium, Pa.	170,000
First National Bank of Mercer County, Greenville, Pa.	200,000
First Seneca Bank & Trust Co., Oil City, Pa.	1,000,000
McDowell National Bank, Sharon, Pa.	600,000
Northwest Bank & Trust Co., Oil City, Pa.	1,000,000
The Pennsylvania Bank & Trust Co., Titusville, Pa.	700,000
Producers Bank & Trust Co., Bradford, Pa.	70,000
Mellon National Bank & Trust Co., Pittsburgh, Pa.	2,320,000
Total	7,000,000

The cost of the 1971 plant expansion programs for Iroquois, Penn., Sylvania, and United is $14 million, $2,417,000, $3,513,000 and $3 million, respectievly. It is stated that the fees and expenses in connection with the proposed notes are estimated at $1,000 for National, $4,700 for Iroquois, and $5,150 for Sylvania. It is also stated that the proposed issue and sale of long-term notes by Iroquois are subject to the jurisdiction of the Public Service Commission of New York, the State commission of the State in which Iroquois is organized and doing business; and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. National requests authority to the certificates under Rule 24 with respect to the short-term borrowings on a quarterly basis.

Notice is further given that any interested person may, not later than August 13, 1971, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] THEODORE L. HUMES, *Associate Secretary.*

[812-2847]

NORRIS GRAIN CO.

Notice of Application Exempting Transaction From Provisions

JULY 30, 1971.

Notice is hereby given that Norris Grain Co. (Norris), 141 West Jackson Boulevard, Chicago, IL 60604, an Illinois corporation, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 (Act) for an order exempting from the provisions of section 17(a) of the Act the purchases by Norris from New England Merchants National Bank of Boston (Merchants) and Chemical Bank of New York (Chemical), each acting separately on behalf of Waltham Resources Corp. (Resources) pursuant to irrevocable powers of attorney, of 690,000 and 10,000 shares of common stock of Waltham Industries Corp. (Industries), respectively, in accordance with the terms of the agreements referred to below.

Industries is a manufacturing corporation whose common stock is listed on the American Stock Exchange. On May 20, 1971, the American Stock Exchange halted trading in such stock and on July 19, 1971, trading in such stock on the American Stock Exchange was suspended following the filing by Industries on July 14, 1971, in the U.S. District Court for the Central District of California, of a petition for reorganization under Chapter X of the Bankruptcy Act. Norris owns 250,000 shares or approximately 12 percent of the common stock of Industries outstanding. Norris acquired these shares of Industries in November 1969 in connection with the sale by Norris to Industries of all of the outstanding stock of Seymour Foods, Inc. (Seymour).

Resources is a Delaware corporation substantially all of whose assets consist of 700,000 shares (approximately 31 percent) of the outstanding common stock of Industries. It therefore appears that Resources is an investment company under section 3(a)(3) of the Act. However, Resources has filed an application pursuant to section 3(b)(2) of the Act for an order declaring that it is not an investment company on the ground that it is primarily engaged through Industries in a business other than that of investing, reinvesting, owning, holding or trading in securities.

On February 19, 1970, the Commission issued an order (Investment Company Act Release No. 5982), upon application by Resources, temporarily exempting Resources from certain provisions of the Act pending final determination of Resources' application for a section 3(b)(2) order declaring that it is not an investment company. Such other proceeding is still pending and a final determination with respect to such application has not been made by the Commission. The order issued by the Commission on February 19, 1970, provided, as agreed to by Resources in its application, that during the temporary exemption period Resources and other persons in their relations and transactions with it shall, among other things, be subject to section 17(a) of the Act as though Resources were a registered investment company.

As a result of Resources' and Norris' holdings of Industries common stock described above, Industries is an affiliated person of Resources under section 2(a)(3) of the Act, and Norris is an affiliated person within the meaning of section 2(a)(3) of an affiliated person (Industries) of Resources, which is deemed for this purpose to be a registered investment company.

Section 17(a) of the Act, as here pertinent, makes it unlawful for an affiliated person (Norris) of an affiliated person (Industries) of a registered investment company (Resources) to purchase from such registered company any security or other property unless the Commission, upon application pursuant to section 17(b), grants an exemption from the provisions of section 17(a) after finding that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned and that the proposed transaction is consistent with the policy of such investment company and with the general purposes of the Act.

Section 6(c) of the Act provides, as here pertinent, that the Commission, by order upon application, may conditionally or unconditionally exempt any transaction from any provision of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

BACKGROUND OF PURCHASES

a. *From Merchants.* The application states that in September 1968, Resources borrowed $2,300,000 from Merchants to finance Resources' purchase of 690,000 shares of Industries common stock; and that in connection therewith, Resources issued to Merchants its demand promissory note in the principal amount of $2,300,000 (since increased to $2,425,000, as a result of interest), and pledged the 690,000 shares of Industries stock pursuant to a pledge agreement, which, in the event of default, gave Merchants an irrevocable power of attorney to dispose of the pledged stock to itself and others. The application also states that Merchants has demanded payment of the note with interest; and that upon default in payment Merchants on August 25, 1970, gave notice to Resources of its intention to sell the pledged shares of Industries stock at a private sale.

By an agreement between Merchants and Norris dated September 8, 1970, Merchants agreed to cause to be sold, and Norris agreed to purchase, the 690,000 shares of Industries common stock pledged with Merchants. On December 15, 1970, Norris, which, as previously noted, had sold all of the outstanding stock of Seymour to Industries in 1969, filed an action in the U.S. District Court for the Southern District of New York against Industries and certain other persons for rescission of the sale of the Seymour stock. Thereafter, on December 30, 1970, Norris and Merchants entered into an agreement supplementing the earlier agreement dated September 8, 1970. Both of these agreements are described more fully below.

b. *From Chemical.* The application states that in September 1969, Resources borrowed $75,000 from Chemical, and that Resources (i) issued to Chemical its demand promissory note in the principal amount of $75,000, bearing interest at 9 percent per annum, secured by the pledge of 10,000 shares of Industries common stock, and (ii) gave Chemical an irrevocable power of attorney to dispose of the pledged shares in the event of a default on Resources' note. In addition, the application states that Chemical made demand for payment of the note together with accrued interest; that Chemical informed Resources that, upon Resources' failure to pay its obligation in full, Chemical would take whatever steps would be necessary to realize on the collateral; that Resources has failed to pay and is in default; and that on January 6, 1971, Chemical and Norris entered into an agreement providing for the sale by Chemical and the purchase by Norris of the 10,000 shares of Industries common stock.

The application was originally filed prior to the purchases by Norris of the 700,000 shares of Industries stock. However, on April 30, 1971, and May 7, 1971, after informing the Staff of various problems facing Industries, Norris consummated the purchases of the 690,000 shares of Industries stock from Merchants and the 10,000 shares of Industries stock from Chemical, respectively. At each of those times, the respective parties entered into an escrow agreement which provides for reversal of each purchase in the event that the Commission denies the instant application.

TERMS OF THE PURCHASES

a. *From Merchants.* Pursuant to the agreements dated September 8, 1970, and December 30, 1970, between Norris and Merchants, Norris purchased and acquired from Merchants the 690,000 shares of Industries common stock for a total price of $2,518,500 ($3.65 per share) as follows:

Norris has delivered to Merchants for said shares a check for $20,885 and

Norris' promissory note dated September 8, 1970, in the amount of $2,497,615, payable 5 years after date, bearing interest from such date at the rate of one half percent per annum over the prime rate charged by Boston banks from time to time and payble quarterly. Norris has an option, in the event it meets a specified net worth test, to renew the $2,497,615 note for an additional period of 5 years at an annual interest rate of 1 percent over the prime rate of Boston banks.

Norris is to secure this promissory note by pledging 690,000 shares of Industries stock. Under the terms of the escrow agreement mentioned above, the 690,000 shares of Industries stock and Norris' pledge agreement relating thereto are being held in escrow pending Commission action on the instant application. In the event that the Commission issues the order requested, the pledge agreement and the 690,000 shares of Industries stock owned by Norris are to be delivered to Merchants. If the Commission does not issue the order requested, the 690,000 shares of Industries common stock are to be returned to Merchants and the pledge agreement is to be returned to Norris.

In addition, Norris has assigned, and Merchants has acquired, a $3,200,000 promissory note of Seymour in consideration of the payment by Merchants to Norris of $3,200,000. In this connection, Norris has delivered to Merchants a promissory note in the principal amount of $700,000 with interest at the rate of 7 percent per annum. Payment of principal and interest on such $700,000 note of Norris (on the installment basis specified in the note) is to be made only in the event and for so long as a default exists on the $3,200,000 note of Seymour. In the event that Merchants collects more than $2,500,000 in principal on the $3,200,000 note of Seymour (and more than the interest payable on such $2,500,000), Norris' obligations under the $700,000 note as to principal and interest is to be reduced by the amount of such excess payments.

In connection with the foregoing, Norris agreed to the dismissal with prejudice of the action commenced by it to rescind the sale of the common stock of Seymour to Industries, and such action has been dismissed with prejudice.

b. *From Chemical.* Under the terms of the agreement between Norris and Chemical dated January 6, 1971, Norris purchased from Chemical 10,000 shares of Industries common stock for the price of $36,500 ($3.65 per share).

In accordance with the terms of an escrow agreement, Norris has deposited $36,500 with an escrow agent which also holds 10,000 shares of Industries common stock owned by Norris. In the event that the Commission issues the order requested, the 10,000 shares of Industries stock are to be delivered to Norris and the $36,500 is to be delivered to Chemical. If the Commission does not issue the order requested, the stock is to be returned to Chemical and the $36,500 is to be returned to Norris.

SUPPORTING STATEMENTS

The application states that the purchase price of $3.65 per share of Industries common stock compared with a market price therefor of about $5 a share prior to the announcement of the proposed purchase and that the discount of about 30 percent from such market price represented by the $3.65 per share purchase price is customary with respect to purchases of unregistered shares acquired privately for investment.

The application also shows that on the basis of Industries' consolidated balance sheet as of December 26, 1970, Industries' common stock had a net worth equal to $.54 a share; and that the consolidated net worth of Industries' common stock at such date adjusted to eliminate intangibles of $5,310,000 represented a deficit of $1.86 a share.

The consolidated income statement of Industries and its subsidiaries for the year ended December 26, 1970, showed a consolidated net loss of $7,413,000, before extraordinary items, or a consolidated net loss of $3.35 a share; after extraordinary items the consolidated net loss amounted to $13,863,000 which was equal to a loss of $6.26 a share.

The unaudited income statement of Industries and its subsidiaries consolidated for the three months ended March 27, 1971, shows a net loss of $1,568,000 or a loss of $.71 per share of common stock.

Notice is further given that any interested person may, not later than August 18, 1971, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Norris at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

It is ordered, That the Secretary of the Commission shall send a copy of this notice by certified mail to New England Merchants National Bank of Boston, Chemical Bank of New York, and Waltham Resources Corp.

For the Commsision, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] THEODORE L. HUMES,
Associate Secretary.

[File No. 812–2979]

NWNL VARIABLE ANNUITY ACCOUNT B AND NORTHWESTERN NATIONAL LIFE INSURANCE CO.

Notice of Application for Exemptions

JULY 30, 1971.

Notice is hereby given that NWNL Variable Annuity Account B (Account B), a unit investment trust registered under the Investment Company Act of 1940 (Act), and Northwestern National Life Insurance Co. (NWNL Insurance), 20 Washington Avenue South, Minneapolis, MN 55440, Attention: William F. Spanton (hereinafter collectively called "Applicants") have filed an application pursuant to section 6(c) of the Act for an order exempting Applicants, to the extent noted below, from the provisions of sections 22(d), 26(a), and 27(c)(2) of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Account B is a separate account of NWNL Insurance established on April 22, 1970 as the facility for issuing certain variable annuity contracts. Under Minnesota insurance law, that portion of the assets maintained in Account B equal to the reserves and other contract liabilities with respect to the Account may not, to the extent so provided under the applicable contracts, be charged with any liability arising out of any other business conducted by NWNL Insurance. All amounts credited to Account B pursuant to variable annuity contracts will be invested in shares of NWNL Companion Fund, Inc., a diversified open-end investment company registered under the Act.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter thereof shall issue and sell any redeemable security to the public except at a current offering price described in the prospectus. Applicants request an exemption from section 22(d) to permit the transfer of funds from a participant's fixed dollar annuity account to the Separate Account for the participant's variable annuity account without the imposition of an additional sales or administrative charge. The contracts provide for accumulation of values and payments of benefits on a fixed dollar basis or a variable basis or combination of both. Applicants assert that the same deduction for sales and administrative charges are made from each purchase payment without regard to whether the net proceeds are supplied to provide fixed or variable benefits or a combination of both and, therefore, no unfair discrimination would result from such transfers.

Applicants request an additional exemption from section 22(d) to permit a participant's interests under a group variable annuity contract issued by the Insurance Company to be applied to the purchase of an individual variable annuity contract issued by the Company, without the imposition of an additional sales or administrative charge. Under certain circumstances where purchase payments are discontinued with respect to a participant under a group contract and if the applicable plan permits, a participant may elect, among other things, to have his interests under the group contract applied to the purchase of an individual contract. Applicants submit that to permit this to be done without the imposition of an additional sales or administrative charge would not disrupt the orderly distribution of the individual contracts nor create an unfair price discrimination, inasmuch as the election may be made only in specified situations where purchase payments are discontinued under the contract; the interests will have been accumulated under the group contract at the lower costs that it is anticipated will apply to group contracts; and no significant additional expense will be involved in the issuance of the individual variable annuity.

Applicants also request an exemption from section 22(d) to permit a contract beneficiary to elect, in lieu of a single sum payment, to apply a death benefit under the contract to provide for a variable annuity, without the imposition of an additional sales or administrative charge. Applicants represent that since a sales and administrative charge will have been made on the payments made under the contract, no additional compensation to agents and no significant additional expense will be involved in the issuance of the annuity.

Applicants further request an exemption from section 22(d) to permit the transfer of interests under a fixed dollar annuity contract issued by the Insurance Company to the Separate Account to be applied to a variable annuity contract, with the imposition of a transfer charge of $10 for each transfer so made but without the imposition of an additional sales or administrative charge. If not prohibited by the contract or the applicable plan, it is intended that such transfers be permitted with respect to contracts whereunder payments are intended to be subject to the provisions of sections 401(a) or 403(b) of the Code. Applicants assert that sales charges will already have been deducted from payments made under such contracts, and it is deemed appropriate to avoid duplication of such charge since the transfers are essentially a service to existing contract owners and do not involve selling efforts comparable to those for new contracts. However, there will be administrative costs in making such transfers, and it is proposed that a uniform $10 transfer charge be made to cover the cost of each transfer so made.

Finally Applicants request an exemption from section 22(d) to permit the Insurance Company to credit a part of its divisible surplus (resulting from an excess of charges over costs) to contract owners, on a nondiscriminatory basis according to each class of contract, and to permit contract owners to apply any such amounts received under the contracts during any accumulation period to the purchase of additional variable accumulation units in the Separate Account, without the imposition of an additional sales or administrative charge. As actual experience under the contracts becomes known, there may be excess amounts of charges over costs that become a part of the divisible surplus of the Insurance Company and any such excess applicable to a contract may be credited as the Board of Directors of the Insurance Company may determine. The exemption is requested to permit crediting of any excess to the contracts without additional charges.

Sections 26(a) and 27(c)(2), as here pertinent, provide in substance that a registered unit investment trust and any depositor of or underwriter for the trust are prohibited from selling periodic payment plan certificates unless the proceeds of all payments, other than the amount deducted for sales load are deposited with a qualified bank as trustee or custodian and held under an indenture or agreement containing in substance, the provisions required by sections 26(a) (2) and (3) for trust indentures for unit investment trusts. Section 26(a)(2) requires that the trustee or custodian segregate and hold in trust all securities and cash of the trust, and places certain restrictions on charges which may be made against the trust income and corpus, and excludes from expenses which the trustee or custodian may charge against the trust any payment to the depositor or principal underwriter, other than a fee not exceeding such reasonable amount as the Commission may prescribe for performing bookkeeping and other administrative services delegated to them by the trustee or custodian. Section 26(a)(3) governs the circumstances under which the trustee or custodian may resign. As a life insurance company, NWNL Insurance may not properly place the assets of Account B in trust in the hands of another. Applicants request exemptions from sections 26(a) and 27(c)(2) to permit the net purchase payments under the contracts allocated to the Accounts to be held by NWNL Insurance rather than providing for the deposit of such payments with a bank as custodian or trustee for holding under an agreement or indenture containing, in substance, the provisions required by sections 26(a) (2) and (3) of the Act.

In support of these requested exemptions, Applicants state that under the provisions of the Minnesota insurance laws, the Insurance Company is not permitted to hold itself out as a trustee of the property of the Separate Account and cannot place such property in trust in the hands of another. Applicant also submits that a custodianship is unnecessary under the circumstances. The Insurance Company is subject to extensive supervision and control by the Minnesota Commissioner of Insurance. Such control and supervision provide ample assurance against misfeasance and adequately protect the interests of the contract owners. Accordingly, such control and supervision afford the essential protection contemplated by sections 26(a) and 27(c)(2) and the need for a trustee or custodian does not exist. Moreover, Minnesota insurance laws provide that the assets held in the Separate Account equal to reserves and other contract liabilities shall not be chargeable with liabilities arising out of any other business the Insurance Company may conduct, but shall be held and applied exclusively for the benefit of the holders of the variable contracts for which the Separate Account was established. Further, the contractual obligations of the Insurance Company to the contract owners and participants under the variable annuity contracts cannot be abandoned until such obligations have been discharged, and the Insurance Company hereby affirms such obligations. In addition, Applicant asserts that the Insurance Company has substantial capital and surplus, which insure that it will be able to meet its obligations under the contracts.

Applicants have consented that the exemptions requested from sections 26 (a) and 27(c)(2) may be made subject to the conditions (1) that the charges under the contracts for administrative services shall not exceed such reasonable amounts as the Commission shall prescribe, jurisdiction being reserved to the Commission for such purpose, and (2) that the payment of sums and charges out of the assets of Account B shall not be deemed to be exempted from regulation by the Commission by reason of the requested order, provided that the Applicants' consent to this condition shall not be deemed to be a concession to the Commission of authority to regulate the payments of sums and charges out of such assets other than charges for administrative services, and Applicants reserve the right in any proceeding before the Commission or in any suit or action in any court to assert that the Commission has no authority to regulate the payment of such other sums or charges.

Section 6(c) authorizes the Commission conditionally or unconditionally to exempt any person, security or transaction or any class or classes of persons, securities, or transactions from the provisions of the Act or any rule or regulation thereunder, if and to the extent that

such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than August 12, 1971 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of service (by affiidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after such date as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the matter herein may be issued upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation pursuant to delegated authority.

[SEAL] THEODORE L. HUMES,
Associate Secretary.

[Notice 727]

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 2, 1971.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–72957. By order of July 30, 1971, the Motor Carrier Board approved the transfer to B & C Specialized Carriers, Inc., Indianapolis, Ind., of the operating rights in Certificates Nos. MC–111941 (Sub-No. 9), MC–111941 (Sub-No. 11), MC–111941 (Sub-No. 12), MC–111941 (Sub-No. 18), and MC–111941 (Sub-No. 19), issued June 13, 1967, January 3, 1968, March 7, 1969, May 17, 1971, and July 6, 1971, respectively, to Pierceton Trucking Company, Inc., Laketon, Ind., authorizing the transportation of precaste concrete, prefabricated steel, steel articles, cement slabs, and allied products, steel articles which because of size or weight require the use of special equipment, and materials, supplies, and equipment used therewith, and brick, from Indianapolis and Muncie, Ind., Danville, Ill., and Detroit, Mich., to points in Illinois, Indiana, Kentucky, Missouri, Ohio, Tennessee, West Virginia, Michigan, New York, Pennsylvania, Iowa, Minnesota, and Wisconsin, varying with the commodity involved. Alki E. Scopelitis, 815 Merchants Bank Building, Indianapolis, Ind. 46024, attorney for applicants.

No. MC–FC–72965. By order of July 29, 1971, the Motor Carrier Board approved the transfer to David Marcus, Inc., Brooklyn, N.Y., of the operating rights in Certificates Nos. MC–128252 (Sub-No. 1) and MC–128252 (Sub-No. 2), issued June 21, 1967 and February 18, 1969, respectively, to David Marcus doing business as Marcus Trucking, Brooklyn, N.Y., authorizing the transportation of electric lamps, electric lighting fixtures, and parts used in the manufacture of electric lamps and electric lighting fixtures from points in the New York, N.Y., commercial zone as defined to Great Neck and Hauppauge, N.Y., and from Great Neck and Hauppauge, N.Y., to points in New Jersey and Fairfield County, Conn. Arthur J. Piken, 1 Lefrak City Plaza, Flushing, N.Y. 11368, attorney for applicants.

No. MC–FC–72967. By order of July 29, 1971, the Motor Carrier Board approved the transfer to D & H Trucking, Inc., Sapulpa, Okla., of the operating rights in Certificates Nos. MC–34231 (Sub-No. 3) and MC–34231 (Sub-No. 7), issued February 12, 1959 and February 14, 1963 respectively to Raymond Nye, doing business as Raymond Nye Oil Field Trucking and Raymond Nye, Dorothy Ona Nye, Executrix, doing business as Raymond Nye Trucking, Bartlesville, Okla., authorizing the transportation of specified commodities between points in Arkansas, Colorado, Illinois, Missouri, Nebraska, New Mexico, Oklahoma, Texas, Wyoming, Kansas and Louisiana. Kirk Woodliff, Box 1090, Henryette, OK 74437, attorney for applicants.

No. MC–FC–72997. By order of July 29, 1971, the Motor Carrier Board approved the transfer to Wisconsin-Pacific Express, Inc., Sheboygan, Wis., of the operating rights in Certificate No. MC–47898, issued December 17, 1957 to Clark Cartage Co., Inc., Green Bay, Wis., authorizing the transportation of cheese between points in that part of Wisconsin north of a line beginning at Milwaukee, Wis., and extending to the mouth of the Wisconsin River. Edward Solie, Executive Building, Suite 100, 4513 Vernon Boulevard, Madison, WI 53705, attorney for applicants.

[Rev. S.O. 994; ICC Order 57, Amdt. 2]

PENN CENTRAL TRANSPORTATION CO.

Rerouting or Diversion of Traffic

Upon further consideration of ICC order No. 57 (Penn Central Transportation Co., George P. Baker, Richard C. Bond, Jervis Langdon, Jr., and Willard Wirtz, Trustees), and good cause appearing therefor:

It is ordered, That ICC order No. 57 be, and it is hereby, amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date.* This order shall expire at 11:59 p.m., August 31, 1971, unless otherwise modified, changed, or suspended.

It is further ordered, That this amendment shall become effective at 11:59 p.m., July 31, 1971, and that this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., July 30, 1971.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

[FR Doc.71–11226 Filed 8–4–71;8:50 am]

[Ex Parte MC–64; Gen. Temp. Order 7]

TEMPORARY AUTHORITY TO PERFORM MOTOR CARRIER SERVICES

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D.C., on the 2d day of August 1971.

The Interstate Commerce Commission having under consideration the urgent need for motor carrier services due to the cessation of normal railroad transportation occasioned by work stoppages, the national transportation policy, the public interest, and, among others, sections 202(a), 204(a)(6), and 210a(a) of the Interstate Commerce Act, and

It appearing, that due to a labor dispute, the common carriers by railroad are unable to transport passengers and property tendered to them; and that an emergency exists in all sections of the United States requiring immediate action on the part of the Commission to make provision for adequate transportation service in the interest of the public and the national defense;

It further appearing, that there exists and immediate and urgent need for additional motor carrier service to supplement temporarily the transportation facilities of the Nation for the movement of military and other freight, and passengers;

And it further appearing, that the present transportation emergency and immediate need for maximum utilization of motor carrier facilities, equipment, and service have made it necessary for the Commission to provide and authorize a more flexible method whereby motor carriers, and other persons, may obtain temporary authorizations to render the required motor service necessary in the public interest and to the national defense:

It is ordered, That pursuant to section 210a(a) of the Interstate Commerce Act (49 U.S.C. 310a(a)), all persons who shall apply to any regional director, assistant regional director, or district supervisor of the Commission's Bureau of Operations are hereby granted temporary authority to transport passengers or property by motor vehicle for a period of not more than 30 days to the extent and scope that such regional director or district supervisor shall certify that due

to the existing transportation emergency, there is an immediate and urgent need for the service applied for, and there is no available carrier service capable of meeting such need:

It is further ordered, That the grant of such temporary authority be, and it is hereby, conditioned upon satisfying the said regional director, assistant regional director, or district supervisor of full compliance by the grantee with all applicable statutory and Commission requirements concerning tariff publications, evidence of security for the protection of the public, and designation of agents for service of process, and further conditioned upon such tariff publications quoting rates, fares, and charges no lower than those of existing rail, water, or motor carriers in the territory in which the operations are to be authorized:

It is furthered ordered, That temporary authority granted pursuant to this order shall expire as of the first midnight after rail carrier service shall have been reinstituted, except as to passengers or property, the transportation of which was begun prior to that time:

It is further ordered, That this order shall become effective on the 2d day of August, 1971:

And it is further ordered, That notice of this order shall be given to motor carriers, other parties of interest, and to the general public by depositing a copy thereof in the Office of the Secretary of the Commission, Washington, D.C., and by filing a copy thereof with the Director, Office of the Federal Register.

By the Commission, Division 1.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 62]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

JULY 30, 1971.

The following applications are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER, issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the Special Rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's General Policy Statement Concerning Motor Carrier Licensing Procedures, published in the FEDERAL REGISTER, issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record.

The publications hereinafter set forth reflect the scope of the applications as filed by applicants, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

No. MC 4483 (Sub-No. 15), filed June 28, 1971. Applicant: MONSON DRAY LINE, INC., Route 1, Red Wing, MN 55066. Applicant's representative: A. R. Fowler, 2288 University Avenue, St. Paul, MN 55114. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Silos,* knocked down or in sections, and *component parts thereof,* including *silo loading and unloading equipment and equipment and materials incidental to the erection and completion of silos,* from Cannon Falls, Minn., to points in Iowa, Minnesota, and Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 7156 (Sub-No. 7), filed June 29, 1971. Applicant: WILLIAMS TRANSFER CO., a corporation, 135 North Cleveland Street (Post Office Box 706), Eugene, OR 97401. Applicant's representative: F. Leroy Sherman (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Iron and steel articles,* from Eugene, Oreg., to points in Humboldt, Del Norte, Siskiyou, Modoc, Trinity, Shasta, Lassen, Mendocino, Tehama, and Butte Counties, Calif., restricted to shipments in excess of 10,000 lbs. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Eugene or Portland, Oreg.

No. MC 7640 (Sub-No. 29), filed July 7, 1971. Applicant: BARNES TRUCK LINE, INC., 506 Mayo Street, Wilson, NC 27893. Applicant's representative: Harry J. Jordan, 1000 16th Street NW, Washington, DC 20036. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: (1) *Boards made from wood using wood chips, wood shavings or wood fiber, alone or in combination; with or without added binder; with surface unfinished or finished with decorative or protective materials and with or without accessories and supplies* used in the installation and/or application therefor, from points in Nash County, N.C., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Kentucky, Maryland, Massachusetts, Mississippi, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, West Virginia, and the District of Columbia; and (2) *materials, equipment, and supplies* used in the manufacture and distribution of the commodities described in (1) above, from points in Alabama, Connecticut, Delaware, Florida, Georgia, Kentucky, Maryland, Massachusetts, Mississippi, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, West Virginia, and the District of Columbia to points in Nash County, N.C. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Wilson, N.C., or Washington, D.C.

No. MC 8535 (Sub-No. 37), filed June 29, 1971. Applicant: GEORGE TRANSFER AND RIGGING COMPANY, INCORPORATED, 2700 Broening Highway, Baltimore, MD 21222. Applicant's representative: John Guandolo, 1000 16th Street NW, Washington, DC 20036. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: (1) *Boards made from wood using wood chips, wood shavings, or wood fiber, alone or in combination; with or without added binder; with surface unfinished or finished with decorative or protective materials and with or without accessories and supplies used in the installation and/or application thereof,* from points in Nash County, N.C., to points in Connecticut, Delaware, Kentucky, Maryland, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Virginia, and West Virginia; and (2) *materials, equipment, and supplies* used in the manufacture and distribution of the commodities described in (1) above, from points in Connecticut, Delaware, Kentucky, Maryland, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Virginia, and West Virginia to points in Nash County, N.C. NOTE: Applicant states it has been authorized to temporarily control through management Mack Brothers, Inc., in MC-F-11174, and its existing certificate, when joined with that of Mack Brothers, Inc., permits operations between Nash County, N.C., on the one hand, and, on the other, the following States: Maryland, Delaware, Pennsylvania, New Jersey, New York, Virginia, West Virginia, Kentucky, Ohio, and the District of Columbia. Applicant further states if any duplicating authority results, it will accept the imposition of a restriction prohibiting severance by sale or otherwise. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 11207 (Sub-No. 311), filed June 28, 1971. Applicant: DEATON, INC., 317 Avenue West, Post Office Box 938, Birmingham, AL 35201. Applicant's representative: A. Alvis Layne, 915 Pennsylvania Building, Washington, D.C. 20004. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Building materials* (except commodities in bulk), from Florence, Ky., to points in Alabama, Florida, Georgia, North Carolina, South Carolina, Tennessee, Mississippi, Arkansas, and Louisiana. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Tampa, Fla., or Atlanta, Ga.

No. MC 18738 (Sub-No. 40), filed July 7, 1971. Applicant: SIMS MOTOR TRANSPORT LINES, INC., 610 West 138th Street, Chicago, IL. Applicant's representative: Walter F. Jones, Jr., 601 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier,* by motor vehicle, over regular routes, transporting: *Steel coils,* between Greenfield and Indianapolis, Ind., over U.S. Highway 40, serving no intermediate points. NOTE: Applicant states no duplicate authority is sought. If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind.

No. MC 19227 (Sub-No. 156), filed June 23, 1971. Applicant: LEONARD BROS. TRUCKING CO., INC., 2595 Northwest 20th Street, Miami, FL 33152. Applicant's representative: William O. Turney, 2001 Massachusetts Avenue NW., Washington, DC 20036. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Commodities,* other than oilfield equipment, and except boats, which because of size or weight require the use of special equipment, between points in Texas, on the one hand, and, on the other, points in Alabama, Connecticut, Delaware, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, Wisconsin, and the District of Columbia. The purpose of this application is to seek authority to substitute Texas for Florida as the gateway on traffic moving between Texas and points north and west thereof, on the one hand, and, on the other, the above-designated States. Applicant presently holds authority between points in the State of Texas and points in the State of Florida, and between points in the State of Florida, on the one hand, and, points in each of the above-mentioned States on the other, under Docket No. MC 19227 (Sub-Nos. 43 and 32) respectively. NOTE: Applicant intends to tack through Texas, its operations to and from the States of California, Arizona, New Mexico, and Oklahoma. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 29120 (Sub-No. 126), filed July 1, 1971. Applicant: ALL-AMERICAN TRANSPORT INC., 1500 Industrial Avenue, Post Office Box 769, Sioux Falls, SD 57101. Applicant's representative: E. J. Dwyer (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over regular routes, transporting: *General commodities,* except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and hides and skins, serving Manchester, Mo., as an off-route point in connection with carrier's authorized regular route operations between Sioux Falls, S. Dak., and St. Louis, Mo., restricted against the transportation of shipments originating at or destined to Manchester, Mo., on the one hand, and, originating at or destined to St. Louis, Mo., and its commercial zone on the other. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Sioux Falls, S. Dak.

No. MC 29910 (Sub-No. 104), filed July 2, 1971. Applicant: ARKANSAS-BEST FREIGHT SYSTEM, INC., 301 South 11th Street, Fort Smith, AR 72901. Applicant's representatives: Thomas Harper and Tom Harper, Jr., Kelly Building, Post Office Box 43, Fort Smith, AR 72901. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Composition roofing shingles, asbestos siding, and asphalt cement,* from the plantsite of Bird Roofing Co., at Shreveport, La., to points in Missouri. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Shreveport, La., or Little Rock, Ark.

No. MC 31389 (Sub-No. 139), filed June 21, 1971. Applicant: McLEAN TRUCKING COMPANY, a corporation, 617 Waughtown Street, Box 213, Winston-Salem, NC 27102. Applicant's representative: Francis W. McInerny, 1000 16th Street NW., Washington, DC 20036. Authority sought to operate as a *common carrier,* by motor vehicle, over regular routes, transporting: *General commodities* except commodities of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, as follows: Between Orange and Williamstown, Mass., from Orange over Massachusetts Highway 2 to junction Massachusetts Highway 2A at or near Shelburn Falls, Mass., thence over Massachusetts Highway 2 to Williamstown and return over the same route, serving all intermediate points; between Springfield, Mass., and White River Junction, Vt., from Springfield over U.S. Highway 5 to White River Junction and return over the same route, serving all intermediate points; between junction U.S. Highway 5 and Massachusetts Highway 141, at Holyoke and Northampton, Mass., from junction U.S. Highway 5 and Massachusetts Highway 141 over Massachusetts Highway 141 to Easthampton, Mass., and thence over Massachusetts Highway 10 to Northampton and return over the same route, serving all intermediate points; between Bernardston, Mass., and Brattleboro, Vt., from Bernardston over Massachusetts Highway 10 to junction Massachusetts Highway 142, thence over Massachusetts Highway 142 to the Massachusetts-Vermont State line and thence over Vermont Highway 142 to Brattleboro and return over the same route, serving all intermediate points;

Between junction U.S. Highway 5 and Vermont Highway 12, near Bellows Falls, Vt., and Ascutney, Vt., from junction U.S. Highway 5 and Vermont Highway 12 over Vermont Highway 12 to the Connecticut River, thence across the Connecticut River to New Hampshire Highway 12, thence north over New Hampshire Highway 12 to the Connecticut River, thence across the Connecticut River to Vermont Highway 12 and thence over Vermont Highway 12 to Ascutney and return over the same route, serving all intermediate points and the off-route point of Claremont Junction, N.H.; between Dover, N.H., and Springvale, Maine, from Dover over New Hampshire Highway 9 via Somersworth, N.H., to the New Hampshire-Maine State line, thence over Maine Highway 9 via Berwick, Maine, to North Berwick, Maine, thence over Maine Highway 4 to junction Maine Highway 109 and thence over Maine Highway 109 to Springvale and return over the same route, serving all intermediate points; between Dover, N.H., and Wells, Maine, from Dover over unnumbered highway via Salmon Falls, N.H., to the New Hampshire-Maine State line, thence over unnumbered highway

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

to South Berwick, Maine, thence over Maine Highway 4 to North Berwick, Maine, and thence over Maine Highway 9 to Wells and return over the same route, serving all intermediate points; between Dover, N.H., and South Berwick, Maine, from Dover over New Hampshire Highway 4 to the New Hampshire-Maine State line and thence over Maine Highway 4 to South Berwick and return over the same route, serving all intermediate points;

Between Berwick and South Berwick, Maine, from Berwick over Maine Highway 236 to South Berwick and return over the same route, serving all intermediate points; between Dover, N.H., and Newburyport, Mass., from Dover over New Hampshire Highway 108 via Exeter, N.H., to junction New Hampshire Highway 150, thence over New Hampshire Highway 150 via Kensington, N.H., to the New Hampshire-Massachusetts State line, thence over Massachusetts Highway 150 to Amesbury, Mass., thence over unnumbered highway and "Chain Bridge" to junction Massachusetts Highway 113 and thence over Massachusetts Highway 113 to Newburyport and return over the same route, serving all intermediate points; between Dover and Manchester, N.H., from Dover over New Hampshire Highway 4 to Barrington, N.H., thence over New Hampshire Highway 9 to junction U.S. Highway 202, thence over U.S. Highway 202 via Northwood, N.H., to junction New Hampshire Highway 28 and thence over New Hampshire Highway 28 to Manchester and return over the same route, serving all intermediate points; between Durham and Northwood, N.H., from Durham over U.S. Highway 4 to Northwood and return over the same route, serving all intermediate points; between Manchester and Hampton, N.H., from Manchester over New Hampshire Highway 101 via Raymond, N.H., to Exeter, N.H., and thence over New Hampshire Highway 101C to Hampton and return over the same route, serving all intermediate points;

Between Boston and Middleton, Mass., from Boston over unnumbered highway via Malden, Melrose, Wakefield, and Lynnfield, Mass., to junction Massachusetts Highway 62 and thence over Massachusetts Highway 62 to Middleton and return over the same route, serving all intermediate points; between Boston and North Reading, Mass., and thence over unnumbered highway to North Reading, and return over the same route, serving all intermediate points, between Lynnfield and North Reading, Mass., from Lynnfield over unnumbered highways to North Reading and return over the same route, serving all intermediate points; between Boston and Wakefield, Mass., from Boston over Massachusetts Highway 38 to Woburn, Mass., and thence over Massachusetts Highway 128 to Wakefield and return over the same route, serving all intermediate points; between Woburn and Littleton Common, Mass., from Woburn over Massachusetts Highway 38 to Lowell, Mass., and thence over Massachusetts Highway 110 to Littleton Common and return over the same route, serving all intermediate points; between junction Massachusetts Highway 62 and Massachusetts Highway 38 (near Wilmington, Mass.), and junction Massachusetts Highway 62 and Massachusetts Highway 28, from junction Massachusetts Highways 62 and 38 over Massachusetts Highway 62 to junction Massachusetts Highway 28 and return over the same route, serving all intermediate points; between Boston and Orange, Mass., from Boston over Massachusetts Highway 2 to junction Massachusetts Highway 2A, thence over Massachusetts Highway 2A via Somerville, Arlington, Lincoln, Concord, East Acton, North Acton, Littleton, Ayer, Lunenburg, and Fitchburg, Mass., to junction Massachusetts Highway 2, thence over Massachusetts Highway 2 via Gardner, Phillipston, and Athol, Mass., to Orange and return over the same route, serving all intermediate points;

Between Phillipston and Athol, Mass., from Phillipston over U.S. Highway 202 to Baldwinville, Mass., and thence over unnumbered highways via Royalston, Mass., to Athol and return over the same route, serving all intermediate points; between Fitchburg and Baldwinville, Mass., from Fitchburg over Massachusetts Highway 12 via Ashburnham, Mass., to Winchendon, Mass., and thence over U.S. Highway 202 to Baldwinville and return over the same route, serving all intermediate points; between Gardner and Baldwinville, Mass., from Gardner over Massachusetts Highway 68 to Baldwinville and return over the same route, serving all intermediate points; between Gardner and South Ashburnham, Mass., from Gardner over Massachusetts Highway 101 to South Ashburnham and return over the same route, serving all intermediate points; between Gardner, Mass., and junction Massachusetts Highway 140 and Massachusetts Highway 12, from Gardner over Massachusetts Highway 140 to junction Massachusetts Highway 12 and return over the same route, serving all intermediate points; between Ayer and Fitchburg, Mass., from Ayer over unnumbered highway to North Leominster, Mass., thence over Massachusetts Highway 13 to Leominster, Mass., and thence over Massachusetts Highway 12 to Fitchburg and return over the same route, serving all intermediate points; between Littleton and Lunenburg, Mass., from Littleton over Massachusetts Highway 110 to Littleton Common, Mass., thence over Massachusetts Highway 119 to Groton, Mass., and thence over Massachusetts Highway 225 to Lunenburg and return over the same route, serving all intermediate points;

Between Concord and Littleton, Mass., from Concord over Massachusetts Highway 62 to Maynard, Mass., thence over Massachusetts Highway 27 via South Acton, Mass., to junction Massachusetts Highway 111, thence over Massachusetts Highway 111 to Boxborough, Mass., and thence over unnumbered highway to Littleton and return over the same route, serving all intermediate points; between Boston and Hudson, Mass., from Boston over U.S. Highway 20 via Watertown, Waltham, Weston, and Wayland, Mass., to Marlboro, Mass., and thence over Massachusetts Highway 85 to Hudson and return over the same route, serving all intermediate points; between Wayland and Hudson, Mass., from Wayland over unnumbered highway to Hudson and return over the same route, serving all intermediate points; between Waltham and Maynard, Mass., from Waltham over Massachusetts Highway 117 to Maynard and return over the same route, serving all intermediate points; between Concord, Mass., and junction Massachusetts Highway 126 and Massachusetts Highway 117, Concord over Massachusetts Highway 126 to junction Massachusetts Highway 117 and return over the same route, serving all intermediate points; between Waltham and Malden, Mass., from Waltham over Massachusetts Highway 60 via Belmont, Arlington, and Medford, Mass., to Malden and return over the same route, serving all intermediate points; between Amesbury and Salisbury, Mass., from Amesbury over Massachusetts Highway 110 to junction unnumbered highway and thence over unnumbered highway to Salisbury and return over the same route, serving all intermediate points;

Between Boston and North Chelmsford, Mass., from Boston over Massachusetts Highway 2A to junction Massachusetts Highway 4 and thence over Massachusetts Highway 4 to North Chelmsford and return over the same route, serving all intermediate points; between North Chelmsford and Forge Village, Mass., from North Chelmsford over unnumbered highway via Graniteville, Mass., to Forge Village and return over the same route, serving all intermediate points; between Maynard and Hudson, Mass., from Maynard over Massachusetts Highway 62 to Hudson and return over the same route, serving all intermediate points; between junction Massachusetts Highway 125 and Massachusetts Highway 28 and North Andover, Mass., from junction Massachusetts Highways 125 and 28 over Massachusetts Highway 125 to North Andover and return over the same route, serving all intermediate points; between Boston and Manchester, N.H., from Boston over U.S. Highway 3 to junction Massachusetts Highway 3A, thence over Massachusetts Highway 3A via Billerica, Lowell, and North Chelmsford, Mass., to junction U.S. Highway 3 and thence over U.S. Highway 3 via Nashua, N.H., to Manchester and return over the same route, serving all intermediate points; between Reading, Mass., and Manchester, N.H., from Reading over Massachusetts Highway 28 to the Massachusetts-New Hampshire State line and thence over New Hampshire Highway 28 to Manchester and return over the same route, serving all intermediate points; between Raymond and Fremont, N.H., from Raymond over New Hampshire Highway 107 to Fremont and return over the same route, serving all intermediate points; between Nashua and Wilton, N.H., from Nashua over New Hampshire Highway 101A to Milford, N.H., and thence over New Hampshire Highway 101 to Wilton and return over the same route, serving all intermediate points;

Between Winchendon, Mass., and Brattleboro, Vt., from Winchendon over Massachusetts Highway 12 to the Massachusetts-New Hampshire State line, thence over New Hampshire Highway 12 to Keene, N.H., thence over New Hampshire Highway 10 to Winchester, N.H., thence over New Hampshire Highway 119 via Hinsdale, N.H., to the Connecticut River and thence across the Connecticut River to Brattleboro and return over the same route serving all intermediate points; between Winchendon, Mass., and Keene, N.H., from Winchendon over U.S. Highway 202 to Peterborough, N.H., and thence over New Hampshire Highway 101 via Dublin and Marlboro, N.H., to Keene and return over the same route, serving all intermediate points; between Dublin, N.H., and junction unnumbered highway and New Hampshire Highway 101, from Dublin over unnumbered highway via Harrisville and Chesham, N.H., to junction New Hampshire Highway 101 and return over the same route, serving all intermediate points; between Peterborough and Greenfield, N.H., from Peterborough over U.S. Highway 202 to Tarbell, N.H., and thence over New Hampshire Highway 136 to Greenfield and return over the same route, serving all intermediate points; between Lowell, Mass., and Exeter, N.H., from Lowell over Massachusetts Highway 110 to Lawrence, Mass., thence over unnumbered highway to junction Massachusetts Highway 125, thence over Massachusetts Highway 125 to Haverhill, Mass., thence over Massachusetts Highway 110 to junction Massachusetts Highway 108, to the Massachusetts-New Hampshire State line and thence over New Hampshire Highway 108 to Exeter and return over the same route, serving all intermediate points and off-route points of Merrimac, Mass., and Atkinson, N.H.;

Between Boston, Mass., and Buxton, Maine, from Boston over U.S. Highway 1 via Cambridge, Somerville, Everett, Malden, Melrose, Saugus, Lynnfield, Peabody, Danvers, Newburyport, and Salisbury, Mass., Hampton and Portsmouth, N.H., and Wells, Maine, to Portland, Maine, thence over Maine Highway 25 to Gorham, Maine, and thence over Maine Highway 4 to Buxton and return over the same route, serving all intermediate points; between Everett and Newburyport, Mass., from Everett over Massachusetts Highway 1A via Chelsea, Revere, Saugus, Lynn, Salem, Beverly, and Newbury, Mass., to Newburyport, and return over the same route, serving all intermediate points and the off-route point of Marblehead, Mass.; between Chelsea and Salem, Mass., from Chelsea over Massachusetts Highway 107 via Revere and Saugus, Mass., to Salem and return over the same route, serving all intermediate points and the off-route point of Winthrop, Mass.; between Lynn and Danvers, Mass., from Lynn over unnumbered highways via Peabody, Mass., to Danvers and return over the same route, serving all intermediate points; between Salem and Peabody, Mass., from Salem over unnumbered highway to Peabody and return over the same route, serving all intermediate points; between Malden and Saugus, Mass., from Malden over Massachusetts Highway 60 to junction unnumbered highway, thence over unnumbered highway via Cliftondale, Mass., to Saugus and return over the same route, serving all intermediate points;

Between Portsmouth and Alton Bay, N.H., from Portsmouth over New Hampshire Highway 16 via Dover, N.H., to junction New Hampshire Highway 16A, thence over New Hampshire Highway 16A via Somersworth, N.H., to junction New Hampshire Highway 16, thence over New Hampshire Highway 16 to Rochester, N.H., thence over New Hampshire Highway 11 to junction unnumbered highway, thence over unnumbered highway via Farmington, N.H., to junction New Hampshire Highway 11 to Alton Bay and return over the same route, serving all intermediate points and the off-route points of East Rochester and Gonic, N.H.; between junction New Hampshire Highway 16 and New Hampshire Highway 16A, near Dover, N.H., and junction New Hampshire Highway 16 and New Hampshire Highway 16A, near Somersworth, N.H., from junction New Hampshire Highways 16 and 16A over New Hampshire Highway 16 to junction New Hampshire Highway 16A and return over the same route, serving all intermediate points; between Rochester and Milton, N.H., from Rochester over New Hampshire Highway 16 to Milton and return over the same route, serving all intermediate points and the off-route points of East Rochester and Gonic, N.H.; between Dover and Barrington, N.H., from Dover over New Hampshire Highway 4 to Barrington and return over the same route, serving all intermediate points; between Ashburnham and South Ashburnham, Mass., from Ashburnham over Massachusetts Highway 101 to South Ashburnham and return over the same route, serving all intermediate points; between Keene and Harrisville, N.H., from Keene over New Hampshire Highway 101 to junction unnumbered highway, thence over unnumbered highway via Chesham, N.H., to Harrisville and return over the same route, serving all intermediate points;

Between Concord and Plymouth, N.H., from Concord over U.S. Highway 3 to Plymouth and return over the same route, serving all intermediate points; between Concord and Laconia, N.H., from Concord over U.S. Highway 4 to junction New Hampshire Highway 106, thence over New Hampshire Highway 106 to Laconia and return over the same route, serving all intermediate points; between Tilton and Ashland, N.H., from Tilton over unnumbered highway (formerly portion of New Hampshire Highway 3B), to Sanbornton, N.H., thence over New Hampshire Highway 3B to Ashland and return over the same route, serving all intermediate points; between Franklin and Gaza, N.H., from Franklin over New Hampshire Highway 127 to Gaza and return over the same route, serving all intermediate points; between Concord, N.H., and White River Junction, Vt., from Concord over U.S. Highway 4 to White River Junction and return over the same route, serving all intermediate points; between Franklin and Andover, N.H., from Franklin over New Hampshire Highway 11 to Andover and return over the same route, serving all intermediate points; between West Andover and Mascoma, N.H., from West Andover over New Hampshire Highway 4A to Mascoma and return over the same route, serving all intermediate points; between White River Junction, Vt., and Littleton, N.H., from White River Junction over U.S. Highway 5 to Wells River, Vt., thence over U.S. Highway 302 to Littleton and return over the same route, serving all intermediate points; between Manchester and East Weare, N.H., from Manchester over New Hampshire Highway 114 to junction New Hampshire Highway 77 north of Weare, N.H., thence over New Hampshire Highway 77 via North Weare, N.H., to East Weare and return over the same route, serving all intermediate points and the off-route point of New Boston, N.H.;

Between Henniker and North Weare, N.H., from Henniker over New Hampshire Highway 114 to junction unnumbered highway, thence over unnumbered highway to North Weare and return over the same route, serving all intermediate points; between Danbury and Bristol, N.H., from Danbury over New Hampshire Highway 104 to Bristol and return over the same route, serving all intermediate points; between Franklin and Bristol, N.H., from Franklin over New Hampshire Highway 3A to Bristol and return over the same route, serving all intermediate points; between Milton and Intervale, N.H., from Milton over New Hampshire Highway 16 to Intervale and return over the same route, serving all intermediate points and the off-route point of Center Ossipee (Mountainview), N.H.; between West Ossipee, N.H., and junction New Hampshire Highways 113 and 16, from West Ossipee over unnumbered highway to Silver Lake, N.H., and thence over New Hampshire Highway 113 to junction New Hampshire Highway 16 and return over the same route, serving all intermediate points and the off-route point of Center Ossipee (Mountainview), N.H.; between junction New Hampshire Highway 16 and unnumbered highway, north of North Wakefield, N.H., and junction New Hampshire Highways 28 and 16, from junction New Hampshire Highway 16 and unnumbered highway over unnumbered highway to Ossipee, N.H., and thence over New Hampshire Highway 28 to junction New Hampshire Highway 16 and return over the same route, serving all intermediate points and the off-route point of Center Ossipee

(Mountainview), N.H.; between Sanbornville and Wolfeboro, N.H. from Sanbornville over New Hampshire Highway 109 to Wolfeboro Center, N.H., and thence over New Hampshire Highway 28 to Wolfeboro and return over the same route, serving all intermediate points and the off-route point of Center Ossipee (Mountainview), N.H.;

Between Wolfeboro Center and Ossipee, N.H., from Wolfeboro Center over New Hampshire Highway 28 to Ossipee all intermediate points and the off-route point of Center Ossipee (Mountainview), N.H.; between Beverly and Rockport Mass., from Beverly over Massachusetts Highway 22 to junction Massachusetts Highway 123, thence over Massachusetts Highway 128 to junction Massachusetts Highway 127 and thence over Massachusetts Highway 127 via Gloucester, Mass., to Rockport and return over the same route serving all intermediate points; between Beverly, Mass., and junction Massachusetts Highway 127 and Massachusetts Highway 128 from Beverly over Massachusetts Highway 127 to junction Massachusetts Highway 128 and return over the same route, serving all intermediate points; between Littleton and Berlin, N.H., from Littleton over New Hampshire Highway 116 to Whitefield, N.H., thence over U.S. Highway 3 to Groveton, N.H., thence over New Hampshire Highway 110 to Berlin and return over the same route, serving all intermediate points; between Whitefield and Berlin, N.H., from Whitefield over New Hampshire Highway 116 to junction U.S. Highway 2, thence over U.S. Highway 2 to junction New Hampshire Highway 16, thence over New Hampshire Highway 16 to Berlin and return over the same route, serving all intermediate points; between Lancaster, N.H., and junction U.S. Highway 2 and New Hampshire Highway 116 (near Jefferson, N.H.), from Lancaster over U.S. Highway 2 to junction New Hampshire Highway 116 and return over the same route, serving all intermediate points;

Between Intervale, N.H., and junction U.S. Highway 2 and New Hampshire Highway 16, from Intervale over New Hampshire Highway 16 to junction U.S. Highway 2 and return over the same route, serving all intermediate points; between Concord, N.H., and junction U.S. Highway 3 and New Hampshire Highway 28 (near Suncook, N.H.), from Concord over U.S. Highway 3 to junction New Hampshire 28 and return over the same route, serving all intermediate points and the off-route point of Suncook, N.H.; between junction New Hampshire Highway 106 and U.S. Highway 4 and junction U.S. Highway 4 and New Hampshire 28 (near Gossville, N.H.), from junction New Hampshire Highway 106 and U.S. Highway 4 over U.S. Highway 4 to junction New Hampshire 28 and return over the same route, serving all intermediate points; between Rochester, N.H., and junction U.S. Highway 202 and New Hampshire Highway 4 (near Barrington, N.H.), from Rochester over U.S. Highway 202 to junction New Hampshire Highway 4 and return over the same route, serving all intermediate points; between Leominster and Worcester, Mass., from Leominster over Massachusetts Highway 12 to Worcester and return over the same route, serving all intermediate points; between Westminster and West Boylston, Mass., from Westminster over Massachusetts Highway 140 to West Boylston and return over the same route, serving all intermediate points;

Between Ayer and West Boylston, Mass., from Ayer over Massachusetts Highway 110 to West Boylston and return over the same route, serving all intermediate points; between Holyoke and Athol, Mass., from Holyoke over U.S. Highway 202 to Athol and return over the same route, serving all intermediate points; between East Northfield, Mass., and Winchester, N.H., from East Northfield over Massachusetts Highway 10 to the Massachusetts-New Hampshire State line, thence over New Hampshire Highway 10 to Winchester and return over the same route, serving all intermediate points, and serving Braintree, Mass., in connection with the carrier's regular-route operations at Boston, Mass. NOTE: Applicant states it holds some duplicating authority in Massachusetts and will accept a restriction prohibiting severance of any duplicating by sale or otherwise. Applicant further states that the purpose of this application is to remove restrictions on certain of the rights to be acquired by applicant from Boston and Main Transportation Co. pursuant to the application in No. MC-F-11144. Those restrictions generally limit (1) service to points that are stations on the Boston & Maine Railroad or (2) service supplemental of rail service or to traffic having a prior or subsequent rail move. Certain tacking restrictions are also deleted and the commodity description has been made uniform throughout, eliminating the transportation of explosives and special equipment. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass., or Keene, N.H.

No. MC 32530 (Sub-No. 2), filed July 2, 1971. Applicant: FRED VANGENHEN, JR. (FRED A. VANGENHEN, ADMINISTRATOR), doing business as VANGENHEN AND SON, 1708 South Illinois Street, Belleville, IL 62221. Applicant's representative: Fred Vangenhen, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Minerolite*, from St. Louis, Mo., to Belleville, Ill. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 32882 (Sub-No. 61), filed July 2, 1971. Applicant: MITCHELL BROS. TRUCK LINES, 3841 North Columbia Boulevard, Box 17039, Portland, OR 97217. Applicant's representatives: Norman E. Sutherland, 1200 Jackson Tower, Portland, Oreg. 97205, and Ellis Chartier (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products*, from the plantsites and storage facilities of Potlatch Forest Industries, Inc., at Lewiston, Idaho, to points in Spokane County, Wash., ports of entry on the international boundary line between the United States and Canada in the States of Washington and Idaho and points in Oregon and Washington on and west of U.S. Highway 97. NOTE: Applicant states it will tack the requested authority to that issued in Sub 34, wherein it is authorized to serve California and Oregon. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg., or Seattle, Wash.

No. MC 48441 (Sub-No. 9), filed July 1, 1971. Applicant: CITY EXPRESS, INC., Post Office Box 418, 2006 North Bloomington Street, Streator, IL 61364. Applicant's representative: Robert H. Levy, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from Plymouth, Ind., and the plantsite and/or facilities of Pilgram Farms, Inc., in Allegan County, Mich., to points in Arkansas, Oklahoma, Texas, Louisiana, Mississippi, Alabama, and Arizona. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 50493 (Sub-No. 46), filed July 8, 1971. Applicant: P.C.M. TRUCKING, INC., 1063 Main Street, Orefield, PA 18609. Applicant's representative: J. William Cain, Jr., 2001 Massachusetts Avenue NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: (1) *Magnesium oxide*, in bulk, from Cape May, N.J., to Philadelphia, Pa.; (2) *bicarbonate of soda*, in bulk, from Syracuse, N.Y., to Philadelphia, Pa.; (3) *cobalt carbonate*, in bulk, from Wilmington, Del., to Philadelphia, Pa.; (4) *manganous oxide and ferrous sulphate*, in containers, from Baltimore, Md., to Philadelphia, Pa.; (5) *feed ingredients*, in containers, from Philadelphia, Pa., to points in Delaware, Maine, New Hampshire, Rhode Island, Vermont, West Virginia, and points in that part of Maryland on and east of a line beginning at the District of Columbia-Maryland State line and extending along U.S. Highway 1 to Baltimore, Md., and thence along U.S. Highway 40 to the Maryland-Delaware State line near Elkton, Md.; and (6) *salt*, from South Lansing, N.Y., to points in Pennsylvania, Delaware, Maryland, Virginia, West Virginia, and New York. NOTE: Applicant also holds contract carrier authority under MC 115859 and subs thereunder, therefore dual operations may be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Philadelphia, Pa.

No. MC 51146 (Sub-No. 225), filed June 23, 1971. Applicant: SCHNEIDER TRANSPORT & STORAGE, INC., 817 McDonald Street (Post Office Box 2298), Green Bay, WI 54306. Applicant's representatives: D. F. Martin (same address as applicant) and Charles Singer, 33 North Dearborn, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Dairy products*, from points in Fond du Lac, Sheboygan, Calumet, and Manitowoc Counties, Wis., to points in the United States (except Alaska and Hawaii) and (2) *equipment, materials, and supplies and returned shipments*, from the destination States outlined in (1) above to points in Fond du Lac, Sheboygan, Calumet, and Manitowoc Counties, Wis. NOTE: Applicant states that the requested authority could be tacked with various subs of MC 51146 and applicant will tack with its MC 51146 where feasible, applicant further states it has various duplicative items of authority under various subs, but does not seek duplicative authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 52110 (Sub-No. 123), filed July 2, 1971. Applicant: BRADY MOTORFRATE, INC., 2150 Grand Avenue, Des Moines, IA 50312. Applicant's representative: Cecil L. Goettsch, 11th Floor Des Moines Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and liquid commodities in bulk), from plantsites and storage facilities utilized by Beefland International, Inc., at Council Bluffs, Iowa, and Omaha, Nebr., to points in Pennsylvania, New York, New Jersey, Maryland, and West Virginia, restricted to traffic originating at the plantsite and storage facilities utilized by Beefland International, Inc., at Council Bluffs, Iowa, and Omaha, Nebr. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa, or Omaha, Nebr.

No. MC 53965 (Sub-No. 74), filed July 2, 1971. Applicant: GRAVES TRUCK LINE, INC., 739 North 10th, Salina, KS. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, KS 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts and articles distributed by meat packinghouses* as described in sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 and *foodstuffs*, when being transported with the above commodities (except commodities in bulk, in tank vehicles and hides), from the plantsite and/or storage facilities of Wilson Certified Foods, Inc., at or near Oklahoma City, Okla., to points in Colorado, Kansas, Missouri, Nebraska, Louisiana, and Texas, restricted to traffic originating at the plantsite and/or storage facilities of Wilson Certified Foods, Inc., at or near Oklahoma City, Okla., and destined to the above-named States. NOTE: If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla.

No. MC 62362 (Sub-No. 4) (Correction), filed May 26, 1971, published in the FEDERAL REGISTER, issue of July 9, 1971, corrected and republished as corrected, this issue. Applicant: ROYAL F. LYON, doing business as LYON TRANSFER, 1366 32d Avenue, Box 131, Columbus, NE 68601. Applicant's representative: J. Max Harding, 605 South 14th Street, Post Office Box 82028, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), (a) between Grand Island and Genoa, Nebr., over U.S. Highway 30 to Central City, thence over Nebraska Highway 14 to Fullerton, thence over Nebraska Highway 22 to Genoa, and return over the same route, serving the intermediate point of Fullerton, Nebr., and (b) serving the off-route point of Greeley, Nebr., in connection with applicant's regular route between Albion, Spalding, and Cedar Rapids, Nebr. NOTE: The purpose of this republication is to correctly set forth the origin point in (a) as *Grand Island* in lieu of Green Island. If a hearing is deemed necessary, applicant requests it be held at Omaha or Lincoln, Nebr.

No. MC 66101 (Sub-No. 1), filed June 23, 1971. Applicant: AFT SERVICES, INC., 303 South Street, Newark, NJ 07114. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading), between Stewart Air Force Base at or near Newburgh, N.Y., on the one hand, and, on the other, points in New Jersey and points in Westchester, Nassau, and Suffolk Counties, N.Y., and New York, N.Y., restricted to shipments having a prior or subsequent movement by aircraft. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Newark, N.J.

No. MC 73688 (Sub-No. 47), filed June 28, 1971. Applicant: SOUTHERN TRUCKING CORPORATION, 1500 Orenda Avenue, Post Office Box 7182, Memphis, TN 38107. Applicant's representative: Charles H. Hudson, Jr., 833 Stahlman Building, Nashville, TN 37201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plywood*, from the plantsite of Sumter Plywood Corp., at or near Livingston, Ala., to points in Arkansas, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala.

No. MC 76032 (Sub-No. 286), filed June 28, 1971. Applicant: NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver, CO 80223. Applicant's representative: John T. Coon (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including classes A and B explosives* (except household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between Barstow, Calif., and Las Vegas, Nev.: From Barstow over Interstate Highway 15 (U.S. Highway 91) to Las Vegas, and return over the same route, serving no intermediate points. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Las Vegas, Nev., or Los Angeles, Calif.

No. MC 85934 (Sub-No. 62), filed July 8, 1971. Applicant: MICHIGAN TRANSPORTATION COMPANY, a corporation, 3601 Wyoming, Dearborn, MI 48120. Applicant's representative: Martin J. Leavitt, 1800 Buhl Building, Detroit, MI 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Phosphatic fertilizer solution*, in bulk, in tank vehicles, from Gary, Ind., to the plantsite of Ford Motor Co., at Dearborn, Mich. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. No duplicate authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 98154 (Sub-No. 11), filed July 2, 1971. Applicant: BRUCE CARTAGE, INCORPORATED, 3460 East Washington Road, Saginaw, MI 48601.

Applicant's representative: Karl L. Gotting, 1200 Bank of Lansing Building, Lansing, MI 48933. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt with by retail department stores*, between Saginaw, Mich., and Grand Rapids, Mich., on the one hand, and, on the other, J. C. Penney stores and warehouses located at points in Michigan south of a line beginning at Lake Michigan and extending east along the north boundary of Manistee, Wexford, and Missaukee Counties, thence south along the east boundary of Missaukee County to the north boundary of Clare County, thence east along north boundary of Clare County and the north boundary of Gladwin County to the east boundary of Gladwin County, thence south along the east boundary of Gladwin and Midland Counties to a point due west of Kawkawlin, Mich., thence east along an imaginary line drawn east and west through Kawkawlin, Mich., to Saginaw Bay. Restriction: The operations authorized herein are subject to the following condition: Said operations are restricted against the transportation of traffic to or from stores and warehouses located in Monroe, Washtenaw, Oakland, Macomb, St. Clair, and Wayne Counties, Mich. Said operations are restricted to the transportation of traffic originating at Secaucus and Jersey City., N.J., and Statesville, N.C. NOTE: Applicant states it has the authority to transport the commodities requested herein except that the same is restricted against transportation of articles weighing in the aggregate of more than 500 pounds from one consignor at one location to one consignee at one location on any one day except traffic moving from Wauwautosa, Wis., which is not subject to said restriction. The purpose of this application is to eliminate such restrictions insofar as shipments are made to stores and warehouses of J. C. Penney Co. from the points of Secaucus and Jersey City, N.J., and Statesville, N.C. Applicant further states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Lansing or Detroit, Mich.

No. MC 99149 (Sub-No. 9), filed June 28, 1971. Applicant: MIDWAY MOTOR FREIGHT LINES, INC., 822 East Sixth Street, Little Rock, AR 72201. Applicant's representative: Charles J. Lincoln, 1550 Tower Building, Little Rock, AR 72201. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk or tank trucks and those requiring special equipment, (1) between Texarkana, Texas-Arkansas, and Shreveport-Bossier City, La.; from Texarkana to Shreveport-Bossier City, La., over U.S. Highway 71 and return, serving no intermediate points, and (2) between Hope, Ark., and Shreveport-Bossier City, La.; from Hope, Ark., over Arkansas State Highway 29 to the Arkansas-Louisiana State Highway 29 to the Arkansas-Louisiana State line, thence over Louisiana State Highway 3 to Shreveport-Bossier City, La., and return, serving no intermediate points. NOTE: If a hearing is deemed necessary, applicant requests it be held at Shreveport, La., or Texarkana, Ark.

No. MC 100666 (Sub-No. 193), filed June 28, 1971. Applicant: MELTON TRUCK LINES, INC., Post Office Box 7666, Shreveport, LA 71107. Applicant's representatives: Wilburn L. Williamson, 280 National Foundation Life Center, 3535 Northwest 58th, Oklahoma City, OK 73112, and Paul Caplinger (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe and fittings* (except oilfield commodities, as described by the Commission in *Mercer Extension-Oilfield Commodities*, 74 M.C.C. 459), from points in Calhoun County, Ark., to points in Alabama, Arkansas, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Ohio, Oklahoma, Tennessee, and Texas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark.

No. MC 102616 (Sub-No. 861), filed July 5, 1971. Applicant: COASTAL TANK LINES, INC., 215 East Waterloo Road, Akron, OH 44319. Applicant's representative: Carl E. Steiner, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Dry chemicals*, in bulk, from Midland, Bay City, and Ludington, Mich., to points in Connecticut, Massachusetts, New Jersey, and New York; and (2) *liquid chemicals*, in bulk, from Bay City and Ludington, Mich., to points in Connecticut, Massachusetts, New Jersey, New York, and Rhode Island. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., or Washington, D.C.

No. MC 102806 (Sub-No. 20), filed July 7, 1971. Applicant: PETROLEUM TRANSPORTATION, INC., 701 East Davis Street, Post Office Box 399, Gastonia, NC 28052. Applicant's representative: Carl L. Helms (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, in tank vehicles, from Tyner, Tenn., to points in Clay County, N.C. (including Hayesville, N.C.). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Charlotte, N.C.

No. MC 106497 (Sub-No. 58), filed June 28, 1971. Applicant: PARKHILL TRUCK COMPANY, a corporation, Post Office Box 912, Joplin, MO 64801. Applicant's representative: A. N. Jacobs, Post Office Box 113, Joplin, MO 64801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Road construction machinery and equipment* as described in Appendix VIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and (2) *parts, attachments, and accessories* of the items in (1) above, between Oklahoma City, Okla., and Canton, S. Dak., on the one hand, and, on the other, points in the United States (except Hawaii); (3) *hydraulic hammers and cutters*, and (4) *parts, attachments, and accessories* of the items in (3) above, between points in Denver, Colo., on the one hand, and, on the other, points in the United States (except Hawaii); (5) *stationary and portable asphalt plants and systems*, and (6) *parts, attachments, and accessories* of the items in (5) above, between Chattanooga, Tenn., on the one hand, and, on the other, points in the United States (except Hawaii); (7) *stationary and portable concrete plants and systems*, and (8) *parts, attachments, and accessories* of the items in (7) above, between Santa Clara, Calif., on the one hand, and, on the other, points in the United States (except Hawaii); (9) *road construction machinery and equipment* as described in Appendix VIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and (10) *parts, attachments, and accessories* of the items in (9) above, between points in the United States (except Hawaii), restricted to traffic originating at or destined to C.M.I. Corp. NOTE: Applicant states it holds "size or weight" authority under MC 106497 (Sub-No. 4), and that the requested authority could be tacked where "size or weight" commodities therein are involved, but indicates tacking is not foreseen, and therefore does not identify the points or territories which can be served through tacking. Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Denver, Colo.

No. MC 107107 (Sub-No. 411), filed June 25, 1971. Applicant: ALTERMAN TRANSPORT LINES, INC., 12805 Northwest 42d Avenue, Opa-Locka, FL 33054. Applicant's representative: Ford W. Sewell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs and food materials, and advertising and promotional materials* when related to and moving with foodstuffs and food materials, and *other perishable goods* (except commodities in bulk), in vehicles equipped with mechanical refrigeration, from Houston, and San Antonio, Tex., and points in Bosque, Collin, Cooke, Dallas, Denton, Ellis, Erath, Fannin, Grayson, Henderson, Hill, Hood, Hunt, Jack, Johnson, Kaufman, Navarro, Palo Pinto, Parker, Rains, Rockwall, Somervell, Tarrant, Van Zandt, and Wise Counties, Tex., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Maryland, Massachusetts, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Virginia, and the District of Columbia, restricted against the transportation of shipments from Fort Worth and Dallas, Tex., and points in their commercial zones, to points in Florida. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant also states the commodity listed as "other perishable goods" consist of items such as resins, shellacs, drugs, film, blood plasma, etc. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 107295 (Sub-No. 537), filed July 6, 1971. Applicant: PRE-FAB TRANSIT CO., a corporation, 100 South Main Street, Farmer City, IL 61842. Applicant's representatives: Dale L. Cox and Mack Stephenson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Buildings, complete, knocked down, or in sections; and roofing systems including beams, crossmembers, and all parts and accessories* used in the installation thereof, from Schriever, La., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 110563 (Sub-No. 69), filed July 2, 1971. Applicant: COLDWAY FOOD EXPRESS, INC., Ohio Building, Post Office Box 747, Sidney, OH 45365. Applicant's representative: Joseph M. Scanlan, 111 West Washington, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides, pelts, and commodities in bulk), from points in Indiana, Illinois, Missouri, Wisconsin, and Nebraska to the Armour-Dial, Inc., plant at Fort Madison, Iowa. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa, or Chicago, Ill.

No. MC 111170 (Sub-No. 164), filed June 24, 1971. Applicant: WHEELING PIPE LINE, INC., Post Office Box 1718, El Dorado, AR 71730. Applicant's representative: Don A. Smith, Post Office Box 43, Fort Smith, AR 72901. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinyl bromide*, from Bromet, Ark., to Decatur, Ala.; Houston, Tex.; New Orleans and Luling, La. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant seeks no duplicating authority. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark., or Memphis, Tenn.

No. MC 113828 (Sub-No. 192), filed July 6, 1971. Applicant: O'BOYLE TANK LINES, INCORPORATED, Post Office Box 30006, 5320 Marinelli Drive, Industrial Park, Rockville, MD 20852, Washington, D.C. 20014. Applicant's representatives: William P. Sullivant, Federal Bar Building West, 1819 H Street NW., Washington, DC 20006, and John F. Grimm (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and vegetable oils and fats*, in bulk, between points in Rockingham County, Va., on the one hand, and, on the other, points in North Carolina and South Carolina. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 114004 (Sub-No. 103), filed July 2, 1971. Applicant: CHANDLER TRAILER CONVOY, INC., 8828 New Benton Highway, Little Rock, AR 72209. Applicant's representative: W. G. Chandler, (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles in initial movements and *buildings*, in sections, mounted on undercarriages in initial movements, from points in Marion and Winston Counties, Ala., to points in the United States including Alaska, but excluding Hawaii. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala.

No. MC 114211 (Sub-No. 157), filed June 23, 1971. Applicant: WARREN TRANSPORT, INC., 324 Manhard, Post Office Box 420, Waterloo, IA 50704. Applicant's representative: Charles W. Singer, Suite 1625, 33 North Dearborn, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Tractors* (except those with vehicle beds, bed frames, and fifth wheels); (2) *equipment* designed for use on conjunction with tractors; (3) *agricultural, industrial, and construction machinery and equipment;* (4) *attachments* for the above-described commodities; (5) *internal combustion engines;* (6) *parts* of the above commodities when moving in mixed loads with such commodities; and (7) *materials*, equipment, and supplies used in the manufacture and distribution of the commodities described in (1) through (6) above, from the plant and warehouse sites of J. I. Case Co. at or near Racine, Wis., to points in Arkansas, Colorado, Iowa, Kansas, Louisiana, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, and Wyoming. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states that no duplicating authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 114835 (Sub-No. 13), filed June 10, 1971. Applicant: SOO LINE RAILROAD COMPANY, a corporation, Soo Line Building, Minneapolis, MN 55440. Applicant's representative: C. Harold Peterson, 804 Soo Line Building, Minneapolis, MN 55440. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, in trailers or containers, in substituted motor for rail service which is auxiliary to or supplemental of applicant's rail service, and involves a prior or subsequent movement by rail; (1) between Stevens Point, and Nekoosa, Wis.: From Stevens Point over U.S. Highway 51 to Plover, thence over Wisconsin State Highway 54 to Wisconsin Rapids, thence over Wisconsin State Highway 73 to Nekoosa, Wis., serving the intermediate points of Wisconsin Rapids and Port Edwards, Wis.; and (2) between Waukesha and Milwaukee, Wis.: From Waukesha over U.S. Highway 18 to Milwaukee; (a) alternate route; from Waukesha over U.S. Highway 18 to its junction with Interstate 94, thence over Interstate 94 to Milwaukee; (b) alternate route; from Waukesha over Wisconsin State Highway 59 to Milwaukee. Applicant states it seeks authority to operate in both directions over all highways listed above and that it shall not serve any point not a station on its line of railroad. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Madison or Milwaukee, Wis.

No. MC 115113 (Sub-No. 25), filed June 7, 1971. Applicant: IOWA PACKERS XPRESS, INC., Post Office Box 231, Spencer, IA 51301. Applicant's representative: Bill Husby (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat byproducts, and articles distributed by meat packinghouses* (except hides and commodities in bulk), as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from the plantsites and warehouse facilities utilized by American Beef Packers, Inc., located at/or near Omaha and Fremont, Nebr., and Oakland, Iowa, to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of

Columbia. Restriction: The service proposed herein is restricted to the transportation of traffic originating at the above-named origin points and destined to the above-named destinations. NOTE: If a hearing is deemed necessary, applicant requests it be held at Sioux City, Iowa, or Omaha, Nebr.

No. MC 115841 (Sub-No. 413), filed July 6, 1971. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., Post Office Box 168, Concord, TN 37720. Applicant's representatives: Roger M. Shaner (same address as applicant) and E. Stephen Heisley, 666 11th Street NW., Washington, DC 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anti-acid mints, gum, cough drop and foodstuffs*, from points in Connecticut, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island to points in Arkansas, Arizona, California, Louisiana, New Mexico, Oklahoma, Oregon, Texas, and Utah. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 116763 (Sub-No. 200), filed June 30, 1971. Applicant: CARL SUBLER TRUCKING, INC., North West Street, Versailles, OH 45380. Applicant's representative: H. M. Richters (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper, paper articles, and printed materials*, from Franklin, Va.; Chillicothe, Ohio; Millers Falls, Holyoke, and Adams, Mass.; Brainerd and Cloquet, Minn., to Miami, Fla. NOTE: Applicant states tacking possibilities may exist but it does not intend to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. No duplicate authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Miami, Fla.

No. MC 117606 (Sub-No. 2), filed June 21, 1971. Applicant: WEBB TRANSFER LINE, INC., Box 231, Shelbyville, KY 40065. Applicant's representative: Robert H. Kinker, 711 McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except livestock, classes A and B explosives, articles of unusual value, redried tobacco, empty tobacco containers, knocked down or assembled, tobacco handling and testing equipment and agricultural products, commodities in bulk, and those which because of size or weight require the use of special equipment), restricted to those declared surplus commodities by an agency of the U.S. Government, from U.S. Government installations and holding agencies for U.S. Government property at points in Arizona, California, Connecticut, Delaware, Florida, Idaho, Kansas, Louisiana, Maine, Massachusetts, Minnesota, Mississippi, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Dakota, Oklahoma, Oregon, Rhode Island, South Dakota, Texas, Utah, Vermont, Washington, Wisconsin, and Wyoming to points in Kentucky. Restriction: The above-described operations are limited to a transportation service to be performed under a continuing contract, or contracts with the Commonwealth of Kentucky, Department of Education, Division of Surplus Property. NOTE: Applicant holds common carrier authority under MC 76264 and subs thereunder, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky.

No. MC 117940 (Sub-No. 54) (Amendment), filed June 30, 1971, published in the FEDERAL REGISTER, issue of July 22, 1971, and republished as amended, this issue. Applicant: NATIONWIDE CARRIERS, INC., Post Office Box 104, Maple Plain, MN 55359. Applicant's representative: Marshall Becker, 530 Univac Building, 7100 West Center Road, Omaha, NE 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Candy and confectionery products;* (1) from Bethlehem, Pa., to Los Angeles and Oakland, Calif.; Denver, Colo.; Chicago, Ill.; Waterloo, Iowa; Minneapolis, Minn.; Omaha, Nebr.; Dallas, Tex.; and Seattle, Wash.; and (2) from New York, N.Y., to points in Illinois, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Ohio, and Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant holds contract carrier authority under MC 114789 and subs thereunder, therefore, dual operations and common control may be involved. The purpose of this republication is to redescribe the authority sought. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 118263 (Sub-No. 48), filed July 1, 1971. Applicant: COLDWAY CARRIERS, INC., Post Office Box 38, Clarksville, Ind. 47130. Applicant's representative: George M. Catlett, 703–706 McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats*, cooked, cured, or preserved, with or without vegetables, milk, egg, or fruit ingredients other than frozen (excluding hides and commodities in bulk, in tank vehicles), from the plantsite and warehouse facilities of Armour-Dial, Inc., located at Fort Madison, Iowa, to points in Illinois, Ohio, West Virginia, and Tennessee, restricted to traffic originating at the plantsite and warehouse facilities of Armour-Dial, Inc., at Fort Madison, Iowa, and destined to points in the States named; and (2) *meats, meat products, and meat byproducts and articles distributed by meat packinghouses*, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from points in the States of Illinois, Indiana, Minnesota, and Missouri to the plantsite and warehouse facilities of Armour-Dial, Inc., located at Fort Madison, Iowa, restricted to traffic originating within the States named and destined to the plantsite and warehouse facilities of Armour-Dial, Inc., at Fort Madison, Iowa. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Louisville, Ky.

No. MC 118745 (Sub-No. 11), filed July 7, 1971. Applicant: JOHN PFROMMER, INC., Post Office Box 307, Douglassville, PA 19518. Applicant's representative: Theodore Polydoroff, 1140 Connecticut Avenue NW., Washington, DC 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lime, limestone, and limestone products*, from the plantsites and warehouses of G. & W. H. Corson, Inc., at or near Plymouth Meeting, Pa., to points in Maryland, Delaware, Virginia, and the District of Columbia. Restriction: The operation authorized herein is limited to a transportation service to be performed under a continuing contract, or contracts, with G. & W. H. Corson, Inc., of Plymouth Meeting, Pa. NOTE: If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 118806 (Sub-No. 17), filed July 6, 1971. Applicant: ARNOLD BROS. TRANSPORT, LTD., 1101 Dawson Road, Winnipeg 6, MB, Canada. Applicant's representative: Charles W. Singer, 33 North Dearborn Street, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) (1) *Tractors* with or without attachments (except truck tractors); (2) *agricultural machinery and implements;* (3) *attachments* designed for use with the above commodities; and (4) *parts* of the above-described commodities when moving in mixed loads with such commodities, from the ports of entry on the international boundary line between the United States and Canada located in Michigan and New York to points in the United States (except points in Washington, Oregon, Nevada, California, Idaho, Utah, Arizona, New Mexico, Colorado, Wyoming, and Montana); and (B) (1) *tractors* with or without attachments (except truck tractors); (2) *agricultural machinery and implements;* (3) *internal combustion engines;* (4) *attachments* designed for use with the above commodities; and (5) *parts* of the above-described commodities when moving in mixed loads with such commodities, from Hopkins and Minneapolis, Minn., to the ports of entry on the international boundary line between the United States and Canada located in Michigan and New York. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 119619 (Sub-No. 59), filed July 12, 1971. Applicant: DISTRIBUTORS SERVICE CO., a corporation, 2000 West 43d Street, Chicago, IL 60609. Applicant's representative: Arthur J. Piken, 1 Lefrak City Plaza, Suite 1515, Flushing, N.Y. 11368. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, in vehicles equipped with mechanical refrigeration, from Goshen and Noblesville, Ind., to points in Nebraska, Minnesota, Iowa, Missouri, Wisconsin, Ohio, Pennsylvania, West Virginia, Virginia, Maryland, Delaware, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, and the District of Columbia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 119619 (Sub-No. 60), filed July 12, 1971. Applicant: DISTRIBUTOR SERVICE CO., a corporation, 2000 West 43d Street, Chicago, IL 60609. Applicant's representative: Arthur J. Piken, 160–16 Jamaica Avenue, Jamaica, NY 11432. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Edible meats, canned goods, glands, gelatins, tails, vegetables, oils, and vegetable oil shortening, and dairy products* (except in bulk), in vehicles equipped with mechanical refrigeration, from points in the St. Paul-Minneapolis, Minn., commercial zone, St. Cloud, St. Charles, Albert Lea, Faribault, Twin Lakes, and Worthington, Minn., and Portage, Marshfield, and Monroe, Wis., to points in Ohio, Indiana, and the Lower Peninsula of Michigan; and (2) *food stuffs* (except in bulk), in vehicles equipped with mechanical refrigeration, from Fairmont, Minn., to points in Ohio, Indiana, and the Lower Peninsula of Michigan, restricted to the transportation and traffic originating at the plant and warehouse facilities of or utilized by Armour Food Co. at the named origin points and destined to the points named. NOTE: If a hearing is deemed necesary, applicant requests it be held at Washington, D.C.

No. MC 119789 (Sub-No. 79), filed July 1, 1971. Applicant: CARAVAN REFRIGERATED CARGO, INC., Post Office Box 6188, Dallas, TX 75222. Applicant's representative: James T. Moore (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs and preservatives* (other than frozen), from Chambersburg and Pittsburgh, Pa., and Bowling Green and Fremont, Ohio, to points in Texas, Oklahoma, Louisiana, and Arkansas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa., Dallas, Tex., or Washington, D.C.

No. MC 119789 (Sub-No. 80), filed July 11, 1971. Applicant: CARAVAN REFRIGERATED CARGO, INC., Post Office Box 6188, Dallas, TX 75222. Applicant's representative: James T. Moore (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wheels, cogs, gears, or pinions*, from Lafayette, Ind., to San Jose, Calif. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif., Dallas, Tex., or Washington, D.C.

No. MC 123048 (Sub-No. 197), filed July 8, 1971. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., 1919 Hamilton Avenue, Racine, WI 53401. Applicant's representatives: Paul C. Gartzke, 121 West Doty Street, Madison, WI 53703, and Paul L. Martinson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Tractors* (except those with vehicle beds, bed frames, and fifth wheels); (2) *equipment* designed for use in conjunction with tractors; (3) *agricultural, industrial, and construction machinery and equipment;* (4) *attachments* for the above-described commodities; (5) *internal combustion engines;* (6) *parts* of the above-described commodities when moving in mixed loads; and (7) *materials, equipment, and supplies* used in the manufacture and distribution of the commodities described in (1) through (6) above, from the plant and warehouse sites of J. I. Case Co. at or near Racine, Wis., to points in the United States (except Hawaii). NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 123323 (Sub-No. 5), filed June 28, 1971. Applicant: ALASKA TRANSFER, INC., 330 West Ninth Street, Juneau, AK 99801. Applicant's representative: James B. Bradley, Post Office Box 1211, Juneau, AK 99801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except articles of unusual value and classes A and B explosives), between Haines and Juneau, Alaska, on the one hand, and, on the other, Seattle, Wash. NOTE: Applicant states that the requested authority can be tacked with its existing authority under MC 123323, and Subs 1 and 3 thereunder. If a hearing is deemed necessary, applicant requests it be held at Juneau, Alaska.

No. MC 123502 (Sub-No. 35), filed June 28, 1971. Applicant: FREE STATE TRUCK SERVICE, INC., 10 Vernon Avenue, Glen Burnie, MD 21061. Applicant's representative: Theodore Polydoroff, 1140 Connecticut Avenue NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement mill waste and stack dust* (except fly ash), in bulk, for pollution control or recycling purposes, between points in Maryland, Virginia, Pennsylvania, Delaware, and West Virginia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. No duplicating authority is sought. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 123987 (Sub-No. 2), filed, April 19, 1971. Applicant: JEWETT SCOTT TRUCK LINE, INC., Post Office Box 263, Mangum, OK 73354. Applicant's representative: Grady L. Fox, 222 Amarillo Building, Amarillo, TX 79101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Gypsum wallboard and plaster, lumber, joint treatment, and roofing*, from points in Jackson County, Okla., to points in Arkansas, Louisiana, Texas, Missouri, Illinois, Nebraska, Kansas, Colorado, New Mexico, Arizona, and Tennessee; (B) *raw materials* (rolls of paper, grain, flour, potash, glue, lignin pitch) used in manufacturing of gypsum wallboard, from points in Arkansas, Louisiana, Texas, Missouri, Illinois, Nebraska, Kansas, Colorado, New Mexico, Arizona, and Tennessee, to points in Jackson County, Okla.; (C) *lumber*, from points in Colfax County, N. Mex., to points in Oklahoma and Texas, and (2) *lumber* from points in Marion County, Tex., to points in Oklahoma. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Amarillo, Tex., or Oklahoma City, Okla.

No. MC 126838 (Sub.-No. 7), filed June 28, 1971. Applicant: EARNEST J. RUSH, JR., doing business as CLARENCE F. GUTHRIE HAULING SERVICE, Rural Delivery No. 2, Box 341, Canonsburg, PA 15317. Applicant's representative: John A. Pillar, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pulverized limestone*, from Benwood, W. Va., to points in Greene and Washington Counties, Pa., Belmont and Harrison Counties, Ohio, and Monongalia County, W. Va. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority.

If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Pittsburgh, Pa.

No. MC 126855 (Sub-No. 4), filed June 23, 1971. Applicant: STERLING TRUCKING, INC., 2 Kenny Place, Saddle Brook, NJ 07662. Applicant's representative: Morris Honig, 150 Broadway, New York, NY 10038. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cans and pails*, from Saddle Brook, N.J., to points in Indiana, Illinois, Michigan, Kentucky, North Carolina, South Carolina, Georgia, New Hampshire, and Vermont; and (2) *corrugated cardboard containers*, from Saddle Brook, N.J., to points in Kentucky, North Carolina, South Carolina, Georgia, and Vermont, under contract with Fein Container Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Newark, N.J.

No. MC 127539 (Sub-No. 23), filed June 17, 1971. Applicant: PARKER REFRIGERATED SERVICE, INC., 3533 East 11th Street, Tacoma, WA 98421. Applicant's representative: George R. LaBissoniere, 1424 Washington, Seattle, WA 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Umatilla County, Oreg., and Grant, Benton, Franklin, and Walla Walla Counties, Wash., to points in Oregon, California, and Washington, and Washoe County, Nev. NOTE: Applicant states it intends to tack at various counties in Washington and Oregon to perform a through service between points in Washington, Oregon, and California. Applicant now holds contract carrier authority under its No. MC 124593, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg.

No. MC 128375 (Sub-No. 61) (Amendment), filed June 21, 1971, published in the FEDERAL REGISTER, issue of July 22, 1971, and republished in part as amended, this issue. Applicant: CRETE CARRIER CORPORATION, 1444 Main, Post Office Box 249, Crete, NE 68333. Applicant's representative: Richard A. Peterson, 521 South 14th Street (Post Office Box 80806), Lincoln, NE 68501. NOTE: The purpose of this partial republication is to add Mississippi as a destination State.

No. MC 128404 (Sub-No. 3), filed July 6, 1971. Applicant: BLACKWOOD CRANE & TRUCK SERVICE, INC., 104 Busbee Road, Knoxville, TN 37920. Applicant's representative: James N. Clay, III, 2700 Sterick Building, Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron, steel, iron and steel products, refractory products, and items* used or useful in the production of iron, steel, and iron and steel products, between points in Loudon, Knox, and Anderson Counties, Tenn., on the one hand, and, on the other, Arkansas, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, Virginia, West Virginia, Kentucky, Ohio, Missouri, Indiana, Illinois, Michigan, and Pennsylvania. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Knoxville, Tenn.

No. MC 128539 (Sub-No. 5), filed July 1, 1971. Applicant: EAGLE TRANSPORT CORPORATION, 315 West Ridge Street, Post Office Box 4508, Rocky Mount, NC 27801. Applicant's representative: Robert M. Pearce, Post Office Box E, Bowling Green, KY 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Boards made from wood using wood chips, wood shavings or wood fiber, alone or in combination; with or without added binder; with surface unfinished or finished with decorative or protective materials and with or without accessories and supplies* used in the installation and/or application thereof, from points in Nash County, N.C., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, Vermont, West Virginia, and the District of Columbia; and (2) *materials, equipment, and supplies* used in the manufacture and distribution of the commodities described in (1) above, from points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, Vermont, West Virginia, and the District of Columbia, to points in Nash County, N.C. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 133655 (Sub-No. 47), filed July 6, 1971. Applicant: TRANS-NATIONAL TRUCK, INC., Post Office Box 4168, Amarillo, TX 79105. Applicant's representative: Charles W. Singer, 33 North Dearborn Street, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Description in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Beefland International's plantsite at Council Bluffs, Iowa, and storage facilities, to points in Alabama, Florida, Georgia, North Carolina, and South Carolina. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 133655 (Sub-No. 48), filed July 6, 1971. Applicant: TRANS-NATIONAL TRUCK, INC., Post Office Box 4168, Amarillo, TX 79105. Applicant's representative: Charles W. Singer, 33 North Dearborn Street, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Guymon, Okla., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and the District of Columbia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Amarillo, Tex.

No. MC 133777 (Sub-No. 5) (Amendment), filed March 24, 1971, published in the FEDERAL REGISTER, issue of April 22, 1971, and republished as amended, this issue. Applicant: METAL CARRIERS, INC., 400 West Main Street, Dallas, TX 75208. Applicant's representative: Clayte Binion, 1108 Continental Life Building, Fort Worth, Tex. 76102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap, nonferrous metals*, between points in Texas, on the one hand, and, on the other, points in Indiana, Kentucky, Mississippi, Alabama, and Louisiana. NOTE: Applicant states that the requested authority can be tacked with its existing authority, but applicant has no present intention to tack and therefore does not identify the points or territory which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Common control may be involved. The purpose of this republication is to reflect the change in the territorial scope of the application. If a hearing is deemed necessary, applicant requests it be held at Fort Worth or Houston, Tex.

No. MC 134145 (Sub-No. 6), filed July 6, 1971. Applicant: NORTH STAR TRANSPORT, INC., Post Office Box 51, Thief River Falls, MN 56701. Applicant's representative: Robert P. Sack, Post Office Box 6010, West St. Paul, MN 55118. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Snowmobiles and motorbikes and accessories*, from Roseau and Thief River Falls, Minn., to Anchorage, Alaska, under contract with Arctic Enterprises, Inc., and Polaris Industries.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Minneapolis-St. Paul, or Duluth, Minn.

No. MC 134145 (Sub-No. 7), filed July 13, 1971. Applicant: NORTH STAR TRANSPORT, INC., Post Office Box 51, Thief River Falls, MN 56701. Applicant's representative: Robert P. Sack, Post Office Box 6010, West St. Paul, MN 55118. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Materials, supplies, and equipment used in the manufacture of snowmobiles, boats, motorbikes, and racing vehicles* (except commodities in bulk), from points in California, Colorado, Connecticut, Idaho, Iowa, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, Montana, Nebraska, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, Texas, Washington, and Wisconsin, to Moorhead, Minn., under contract with Arctic Enterprises, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Fargo, N. Dak.

No. MC 134353 (Sub-No. 2), filed July 6, 1971. Applicant: PFEIFER TRANSFER CO., a corporation, 206 North Warpole Street, Upper Sandusky, OH 43351. Applicant's representative: Paul F. Berry, 88 East Broad Street, Columbus, OH 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fabricated structural steel and iron*, between Bellefontaine, Ohio, on the one hand, and on the other, points in Ohio, Indiana, Illinois, Kentucky, West Virginia, Virginia, Pennsylvania, Tennessee, Maryland, New York, Wisconsin, and points in Michigan south of U.S. Highway 21, under contract with Carter Steel & Fabricating Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 134368 (Sub-No. 3), filed June 25, 1971. Applicant: NATIONAL RENTAL SERVICE OF OSHKOSH, INC., Wittman Field, Oshkosh, Wis. 54901. Applicant's representative: E. J. Gerrity, Post Office Box 914, Appleton, WI 54911. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, between Outagamie County Airport, Appleton, Wis., and points in Calumet, Dodge, Fond du Lac, Green Lake, Marquette, Outagamie, Waupaca, Waushara, and Winnebago Counties, Wis., on shipments having a prior or subsequent movement by air. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at (1) Milwaukee, Wis.; (2) Madison, Wis.; or (3) Chicago, Ill.

No. MC 134536 (Sub-No. 2), filed July 14, 1971. Applicant: ETLES ALLEN HENRIES, doing business as CAROLINA SEAFOOD COMPANY, Main Street, Aurora, NC 27806. Applicant's representative: T. R. Thompson, Jr., North Carolina 33 bypass, Aurora, N.C. 27806. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials and supplies* used in shipping and packing seafood, including but not limited to boxes, cans, lids, crates, and binders, from Baltimore, Md., to points in that part of North Carolina east of U.S. Highway 17. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Raleigh or Washington, N.C.

No. MC 135004 (Sub-No. 2), filed July 1, 1971. Applicant: GRIFFIN MOBILE HOME TRANSPORTING COMPANY, a corporation, 3002 South Douglas Boulevard, Oklahoma City, OK 73150. Applicant's representative: David D. Brunson, 419 Northwest Sixth Street, Oklahoma City, OK 73102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers* designed to be drawn by passenger automobiles and *modular buildings*, from points of origin (which are points of manufacture) in Logan County, Okla., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla., Dallas, Tex., or Washington, D.C.

No. MC 135262 (Sub-No. 1), filed June 28, 1971. Applicant: VERNON E. RADATZ, Box 16, Rural Route No. 1, Byron, IL 61010. Applicant's representative: William C. Jackson, 611 Illinois National Bank Building, Rockford, Ill. 61101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Feed for livestock or poultry*, in bulk or bags, between Janesville, Wis., and points in Ogle County, Ill. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Rockford, Ill., or Chicago, Ill.

No. MC 135352 (Sub-No. 1), filed July 2, 1971. Applicant: VANDER HART TRANSFER & STORAGE, INC., 1207 Franklin Street, Pella, IA 50219. Applicant's representative: Kenneth F. Dudley, 611 Church Street, Post Office Box 279, Ottumwa, IA 52501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Tires*, from Memphis, Tenn., to Pella, Iowa, under contract with Schiebout Tire Co., Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa.

No. MC 135468 (Sub-No. 2), filed July 5, 1971. Applicant: N. S. TRUCKING, INC., 58–53 246 Crescent, Douglaston, NY 11363. Applicant's representative: Hylan Cooper, 450 Seventh Avenue, New York, NY 10001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Textiles*, between the office and warehouse facilities of Sacks Woolen Co., Inc., at East Hills, Long Island, N.Y., on the one hand, and, on the other, points in the New York, N.Y., commercial zone, on traffic having a prior or subsequent out of State movement. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 135512 (Sub-No. 1), filed July 7, 1971. Applicant: BUCK TRUCKING CORPORATION, 9314 Southwest 35th Avenue, Portland, Multnomah County, OR 97219. Applicant's representative: Seymour L. Coblens, 510 Corbett Building, Portland, Oreg. 97204. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Sand, gravel, and crushed rock*, between points in Multnomah County, Oreg., and points in Clark County, Wash., under contract with Willamette Hi-Grade Concrete Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg., or San Francisco, Calif.

No. MC 135582 (Sub-No. 2), filed June 28, 1971. Applicant: JAMES BOND TRUCKING COMPANY, INC., 12 East Hidalgo, Phoenix, AZ 85040. Applicant's representative: Earl H. Carroll, 363 North First Avenue, Phoenix, AZ 85003. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Concrete aggregate*, from Wahweap Creek, located approximately 3 miles northeast of Glen Canyon City, Utah, to the site of the Navajo Generating Station located adjacent to Page, Ariz., under contract with Salt River Project. NOTE: If a hearing is deemed necessary, applicant requests it be held at Phoenix, Ariz.

No. MC 135718, filed June 15, 1971. Applicant: BRANDON TRANSFER & STORAGE CO., INC., 2900 Tuxedo Avenue, West Palm Beach, FL. Applicant's representative: John P. Bond, 30 Giralda Avenue, Coral Gables, FL 33134. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Structural steel, contractors' machinery and equipment, and articles* requiring specialized handling or rigging because of size or weight; and *containers and trailers containing general commodities* other than self-propelled, whether loaded or empty, between Port Everglades, Fla., located in Broward County, Fla., on the one hand, and, on the other, points in Dade, Broward, and Palm Beach Counties, Fla. NOTE: If a hearing is deemed necessary, applicant requests it be held at Miami or Fort Lauderdale, Fla.

No. MC 135721 (Correction), filed June 14, 1971, published in the FEDERAL REGISTER issue of July 22, 1971, and republished as corrected this issue. Applicant: BRUCE FIELDS AND GLEN PIATT, a partnership, North Third Street, Union City, TN 38261. Applicant's representative: Glen Piatt (same address as applicants). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Gasolines, diesel fuel, and kerosene*,

in bulk, in tank vehicles, from the Shell Oil Co. terminal at Paducah, Ky., to the bulk storage facilities of Fields Oil Co., Inc., at Paris, Tenn., restricted to transportation originating at the plantsite of Shell Oil Co. Terminal, Paducah, Ky., and terminating at the destination of Fields Oil Co., Inc., Paris, Tenn., under contract with Fields Oil Co., Inc. NOTE: The purpose of this republication is to show the authority sought as contract in lieu of common and the destination of Paris, Tenn., in lieu of Paris, Tex., as was erroneously published. If a hearing is deemed necessary, applicant requests it be held at Nashville or Memphis, Tenn.

No. MC 135774, filed June 21, 1971. Applicant: PAIGE TRUCKING CORP., 106 John Street, Brooklyn, NY 11201. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Candy and/or confectionery, materials, equipment, and supplies* used or useful in the manufacturing and sale of candy and/or confectionery, between Salt Lake City, Utah; Emeryville, Calif.; Hopkins, Minn.; Chicago, Ill.; St. Louis, Mo.; Omaha, Nebr.; Syracuse, N.Y.; Norwood, Mass.; Pittsburgh, Pa.; Moline, Ill.; Jersey City, N.J.; Brooklyn, N.Y.; Farmington, N. Mex.; and Kansas City, Mo.; under contract with Y & S Candies, Inc. of Brooklyn, N.Y. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or New York, N.Y.

No. MC 135784, filed June 28, 1971. Applicant: GABE D. ANDERSON, JR., doing business as BARGE-TRUCK TRANSPORT, Post Office Box 99, Bovina, TX 79007. Applicant's representatives: Grady L. Fox, 222 Amarillo Building, Amarillo, Tex. 79101, and Charles F. Avcock, 402 Third Avenue, Farwell, TX 79325. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, having a prior or subsequent movement by water, between points in Oklahoma, Texas, Kansas, Missouri, Nebraska, New Mexico, and Colorado. NOTE: If a hearing is deemed necessary, applicant requests it be held at Amarillo, Tex., or Oklahoma City, Okla.

MOTOR CARRIER OF PASSENGERS

No. MC 135775, filed June 23, 1971. Applicant: SCHAUMBURG TRANSPORTATION CO., INC., 133 North Roselle Road, Schaumburg, IL 60172. Applicant's representative: Robert H. Levy, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage and skiing equipment, and musical instruments* in the same vehicles, in charter and special operation; (1) between points in Cook, Du Page, Kane, and McHenry Counties; and (2) between Cook, Du Page, Kane, and McHenry Counties, Ill., on the one hand, and, on the other, points in Indiana, Wisconsin, and Michigan. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

APPLICATION FOR FREIGHT FORWARDER

No. FF-410 (SANTA FE AIR FREIGHT COMPANY FREIGHT FORWARDER APPLICATION), filed July 19, 1971. Applicant: SANTA FE AIR FREIGHT COMPANY, a corporation, 80 East Jackson Boulevard, Chicago, IL 60604. Applicant's representative: John C. Palmer, Jr. (same address as applicant). Authority sought under section 410, part IV of the Interstate Commerce Act, for a permit to institute operation as a freight forwarder, in interstate or foreign commerce, through use of the facilities of common carriers by railroad, air, motor vehicle, and express in the transportation of: *General commodities* (except explosives (classes A and B), commodities which because of size and weight are not conducive to air shipment, unaccompanied baggage, or motor vehicles), between points in the United States and in international commerce, restricted to shipments having a prior or subsequent movement by air.

APPLICATION FOR WATER CARRIER

No. W-630 (Sub-No. 36) (A. L. MECHLING BARGE LINES, INC.—Extension—PACIFIC COAST), filed July 21, 1971. Applicant: A. L. MECHLING BARGE LINES, INC., 51 North Desplaines Street, Joliet, IL 60431. Applicant's representatives: J. Richard Hommrich (same address as applicant) and S. S. Eisen, 370 Lexington Avenue, New York, NY 10017. By application filed July 21, 1971, applicant seeks a revised certificate to include operations as a common carrier by water, in interstate or foreign commerce, by non-self-propelled vessels with the use of separate towing vessels, in the transportation of *nuclear generating* (supply) *systems, all component parts thereof, and related equipment*, from Key West, and Tampa, Fla., and New Orleans, La., to ports and points along the Pacific Coast and tributary waterways in California, Oregon, and Washington. NOTE: Applicant seeks no duplicating authority.

APPLICATION FOR BROKERAGE LICENSE

No. MC 130150, filed July 1, 1971. Applicant: PLATT & PLATT, INC., doing business as RUBY PLATTS PERSONALIZED TRAVEL SERVICE, 6712 Westbrook Road, Baltimore, MD 21215. For a license (BMC-5) to engage in operations as a *broker* at Baltimore, Md., in arranging for transportation in interstate or foreign commerce of *passengers and their baggage*, in round-trip all expense tours, in special and charter operations, beginning and ending at Baltimore, Md., and points in Baltimore County, Md., and extending to points in Maryland, Delaware, Pennsylvania, West Virginia, Virginia, New York, New Jersey, and the District of Columbia.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Notice of Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Bureau of Mines

[30 CFR Part 28]

FUSES FOR USE WITH DIRECT CURRENT IN PROVIDING SHORT-CIRCUIT PROTECTION FOR TRAILING CABLES IN COAL MINES

Notice of Proposed Rule Making

Section 306(b) of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 801, 83 Stat. 742) provides that short-circuit protection for trailing cables used in coal mines shall be provided by an automatic circuit breaker or other no less effective device approved by the Secretary of the Interior.

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior under section 508 of the Act, and 36 Stat. 369, as amended, 37 Stat. 681, 30 U.S.C. 3, 5, and 7, it is proposed that Subchapter D of Chapter I, Title 30, Code of Federal Regulations be amended by adding a new Part 28, as set forth below, which prescribes the requirements for testing and approval of fuses for use with direct current in providing short-circuit protection, no less effective than automatic circuit breakers, for trailing cables in coal mines.

Interested persons may submit written comments, suggestions, or objections to the Director, Bureau of Mines, Washington, D.C. 20240, no later than 45 days following publication of this notice in the FEDERAL REGISTER.

ROGERS C. B. MORTON,
Secretary of the Interior.

JULY 28, 1971.

Subpart E—Construction, Performance and Testing Requirements

Sec.
28.40 Construction and performance requirements; general.
28.41 Testing requirements; general.

AUTHORITY: The provisions of this Part 28 issued under secs. 306(b) and 508 of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 801, 83 Stat. 742), and 36 Stat. 369, as amended, 37 Stat. 681, 30 U.S.C. 3, 5, and 7.

Subpart A—General Provisions

§ 28.1 Purpose.

The purpose of the regulations contained in this Part 28 is: (a) To established procedures and prescribe requirements which must be met in filing applications for the approval of fuses for use with direct current in providing short-circuit protection for trailing cables in coal mines, or the approval of changes or modifications of approved fuses; (b) to specify minimum performance requirements and to prescribe methods to be employed in conducting inspections, examinations, and tests to determine the effectiveness of fuses for use with direct current in providing short-circuit protection for trailing cables in coal mines; and (c) to provide for the issuance of certificates of approval or modifications of certificates of approval for fuses which have met the minimum requirements for performance and short-circuit protection set forth in this part.

§ 28.2 Approved fuses.

On and after ----[1], fuses shall be considered to be approved for use with direct current in providing short-circuit protection for trailing cables in coal mines only where such fuses are: (1) The same in all respects as those fuses which have been approved after meeting the minimum requirements for performance and short-circuit protection prescribed in this Part 28; and (2) maintained in an approved condition.

§ 28.3 Installation, use, and maintenance of approved fuses.

Approved fuses shall be installed and maintained in accordance with the specifications prescribed by the manufacturer of the fuses, and shall be selected and used in accordance with the standards prescribed for short-circuit protective devices for trailing cables in Part 75, and Part 77, Subchapter O of this chapter.

§ 28.4 Definitions.

As used in this part—

(a) "Applicant" means an individual, partnership, company, corporation, association, or other organization that designs, manufactures, assembles, or fabricates, or controls the design, manufacture, assembly, or fabrication of a fuse, and who seeks to obtain a certificate of approval for such fuse.

(b) "Approval" means a certificate or formal document issued by the Bureau stating that an individual fuse or combination of fuses has met the minimum requirements of this Part 28, and that the applicant is authorized to use and attach an approval label or other equivalent marking to any fuse manufactured, assembled, or fabricated in conformance with the plans and specifications upon which the approval was based, as evidence of such approval.

(c) "Approved" means conforming to the minimum requirements of this Part 28.

(d) "Bureau" means the U.S. Bureau of Mines, Department of the Interior.

(e) "Fuse" means a device, no less effective than an automatic circuit breaker, for use with direct current which provides short-circuit protection for trailing cables in coal mines by interrupting an excessive current in the circuit.

Subpart B—Application for Approval

§ 28.10 Application procedures.

(a) Each applicant seeking approval of a fuse for use with direct current in providing short-circuit protection for trailing cables shall arrange for submission, at his own expense, the number of fuses necessary for testing to Westinghouse Electric Corp., High Voltage Test Laboratory, East Pittsburgh, Pa. 15112, or General Electric Co., High Voltage Laboratory, 7500 Lindbergh Boulevard, Philadelphia, Pa. 19155, or any other nationally recognized independent testing laboratory capable of performing the examination, inspection, and testing requirements of this part.

(b) The applicant shall insure, at his own expense, that the examination, inspection, and testing requirements of this part are properly and thoroughly performed by the independent testing laboratory of his choice.

(c) Upon satisfactory completion by the independent testing laboratory of the examination, inspection, and testing requirements of this part, the results of such examination, inspection, and tests shall be certified by both the applicant and the laboratory and shall be sent for evaluation of such results to the Bureau of Mines, Health and Safety Technical Support Center, 4800 Forbes Avenue, Pittsburgh, PA 15213. Attention: Approval and Testing.

(d) The certified results of the examinations, inspections, and tests required by this part and submitted to the Bureau shall be accompanied by a check, bank draft, or money order in the amount of $55 for each fuse size and type payable to the order of the U.S. Bureau of Mines.

[1] This amendment shall become effective 60 days following the date of promulgation in the FEDERAL REGISTER.

(e) The certified results of the examinations, inspections, and tests required by this part and submitted to the Bureau for evaluation shall be accompanied by a proposed plan for quality control which meets the minimum requirements set forth in subpart D of this part.

(f) Each applicant shall deliver to the Bureau, at his own expense, three fuses of each size and type which may be necessary for evaluation of the examination, inspection, and test results by the Bureau.

(g) Applicants or their representatives may visit or communicate with Approval and Testing in order to discuss the requirements for approval of any fuse, or to obtain criticism of proposed designs; no charge shall be made for such consultation and no written report shall be issued by the Bureau as a result of such consultation.

Subpart C—Approval

§ 28.20 Certificates of approval; scope of approval.

(a) The Bureau shall issue certificates of approval pursuant to the provisions of this subpart only for individual, completely fabricated fuses which have been examined, inspected, and tested as specified in § 28.10, and have been evaluated by the Bureau to ensure that they meet the minimum requirements prescribed in this part.

(b) The Bureau shall not issue an informal notification of approval.

§ 28.21 Certificates of approval; contents.

(a) Each certificate of approval shall contain a description of the fuse and a classification of its current-interrupting capacity and current rating.

(b) The certificate of approval shall specifically set forth any restrictions or limitations on the use of the fuse in providing short-circuit protection for trailing cables.

(c) Each certificate of approval shall be accompanied by a reproduction of the approval label or marking design, as appropriate, to be employed by the applicant with each approved fuse as provided in § 28.23.

(d) No test data or specific laboratory findings will accompany any certificate of approval, however, the Bureau will release analyses of pertinent test data and specific findings upon receipt of a written request by the applicant.

(e) Each certificate of approval shall reference the quality control plan as specified in § 28.31.

§ 28.22 Notice of disapproval.

(a) If, upon completion of the evaluation by the Bureau required to be conducted in accordance with § 28.10, it is determined that the fuse does not meet the minimum requirements set forth in this part, the Bureau shall issue a written notice of disapproval to the applicant.

(b) Each notice of disapproval shall be accompanied by all available findings with respect to the defects of the fuse for which approval was sought with a view to the possible correction of any such defects.

(c) The Bureau shall not disclose, except to the applicant upon written request, any data, findings, or other information with respect to any fuse for which a notice of disapproval is issued.

§ 28.23 Approval labels or markings; approval of contents; use.

(a) Full-scale reproductions of approval labels or markings, as appropriate, and a sketch or description of their method of application and position on the fuse, together with instructions for the installation, use, and maintenance of the fuse shall be submitted to the Bureau for approval.

(b) Approval labels shall, where appropriate, bear the seal of the U.S. Bureau of Mines, the applicant's name and address, the restrictions, if any, placed upon the use of the fuse by the Bureau, and an approval number.

(c) Legible reproductions or abbreviated forms of the label or markings approved by the Bureau shall be attached to or printed on each fuse.

(d) Each fuse shall be marked with the rating of the underwriters Laboratories, Inc.

(e) The Bureau shall, where necessary, notify the applicant when additional labels, markings, or instructions will be required.

(f) Approval labels or markings shall only be used by the applicant to whom they were issued.

(g) The use of any Bureau approval labels or marking obligates the applicant to whom it is issued to maintain or cause to be maintained the approved quality control sampling procedure and the acceptable quality level for each characteristic tested, and to guarantee that it is manufactured according to the drawings and specifications upon which the certificate of approval is based.

§ 28.24 Withdrawal of certificates of approval.

The Bureau reserves the right to rescind, for cause, any certificate of approval issued pursuant to the provisions of this part.

§ 28.25 Changes or modifications of approved fuses; issuance of modification of certificate of approval.

(a) Each applicant may, if he desires to change any feature of an approved fuse, obtain a modification of the original certificate of approval issued by the Bureau for such fuse by filing an application for modification in accordance with the provisions of this section.

(b) Applications shall be submitted as specified in § 28.10 for an original certificate of approval, with a request for a modification of the existing certificate to cover any proposed change or modification.

(c) The application for modification, together with the examination, inspection, and tests results prescribed by § 28.10 shall be examined and evaluated by the Bureau to determine if the proposed modification meets the requirements of this part.

(d) If the proposed modification meets the requirements of this part, a formal modification of approval will be issued, accompanied, where necessary, by reproductions of revised approval labels or markings.

Subpart D—Quality Control

§ 28.30 Quality control plans; filing requirements.

As a part of each application for approval or modification of approval submitted pursuant to this part, each applicant shall file with the Bureau a proposed quality control plan which shall be designed to assure the quality of short-circuit protection provided by the fuse for which approval is sought.

§ 28.31 Quality control plans; contents.

(a) Each quality control plan shall contain provisions for the management of quality, including; (1) requirements for the production of quality data and the use of quality control records; (2) control of engineering drawings, documentations, and changes; (3) control and calibration of measuring and test equipment; (4) control of purchased material to include incoming inspection; (5) lot identification, control of processes, manufacturing, fabrication, and assembly work conducted in the applicant's plant; (6) audit or final inspection of the completed product; and, (7) the organizational structure necessary to carry out these provisions.

(b) Each provision for final inspection in the quality control plan shall include a procedure for the selection of a sample of fuses and the components thereof for testing, developed from MIL–STD–105D, "Sampling Procedures and Tables for Inspection by Attributes," or from MIL–STD–414, "Sampling Procedures and Tables for Inspection by Variables for Percent Defective," or an approved equivalent sampling procedure, or a combination of sampling procedures.

(c) The sampling plan shall include a list of the characteristics to be tested by the applicant or his agent.

(d) The characteristics listed in accordance with paragraph (c) of this section shall be classified according to the potential effect of such defect and grouped into the following classes:

(1) *Critical.* A defect that judgment and experience indicate is likely to result in a condition immediately hazardous to life for individuals depending on the fuse;

(2) *Major A.* A defect, other than critical, that is likely to result in failure to the degree that the fuse does not provide any short-circuit protection, or a defect that reduces protection and is not detectable by the user;

(3) *Major B.* A defect, other than Major A, that is likely to result in reduced short-circuit protection, and is detectable by the user; and

(4) *Minor.* A defect that is not likely to materially reduce the usability of the

fuse for its intended purpose, or a defect that is a departure from established standards and has little bearing on the effective use or function of the fuse.

(e) The quality control inspection test method to be used by the applicant or his agent for each characteristic required to be tested shall be described in detail.

(f) Each item manufactured shall be 100 percent inspected for defects in all critical characteristics and all defective items shall be rejected.

(g) The Acceptable Quality Level (AQL) for each major or minor defect so classified by the applicant shall be:

(1) Major A—1.0 percent;
(2) Major B—2.5 percent; and
(3) Minor—4.0 percent.

(h) Except as provided in paragraph (i) of this section, inspection level II as described in MIL–STD–105, or inspection level IV as described in MIL–STD–414, shall be used for major and minor characteristics and 100 percent inspection for critical characteristics.

(i) Subject to the approval of the Bureau, where the quality control provisions for raw material, processes, manufacturing, and fabrication inspection are adequate to ensure control of finished article quality, destructive testing of finished articles may be conducted at a lower level of inspection than that specified in paragraph (h) of this section.

§ 28.32 Proposed quality control plans; approved by the Bureau.

(a) Each sample quality control plan submitted in accordance with this subpart shall be reviewed by the Bureau to determine its effectiveness in ensuring the quality of short-circuit protection provided by the fuse for which an approval is sought.

(b) If the Bureau determines that the sample quality control plan submitted by the applicant will not ensure adequate quality control, the Bureau shall require the applicant to modify the procedures and testing requirements of the plan prior to approval of the plan and issuance of any certificate of approval.

(c) Approved quality control plans shall constitute a part of and be incorporated into any certificate of approval issued by the Bureau, and compliance with such plans by the applicant shall be a condition of approval.

§ 28.33 Quality control records; review by the Bureau; recission of approval.

(a) The applicant shall keep quality control inspection records sufficient to carry out the procedures required in MIL–STD–105(d) or MIL–STD–414, or an approved equivalent sampling procedure.

(b) The Bureau reserves the right to have its representatives inspect the applicant's quality control test methods, equipment, and records, and to interview any employee or agent of the applicant in regard to quality control test methods, equipment, and records.

(c) The Bureau reserves the right to rescind, for cause, any certificate of approval where it finds that the applicant's quality control test methods, equipment, or records do not ensure effective quality control over the fuse for which the approval was issued.

Subpart E—Construction, Performance, and Testing Requirements

§ 28.40 Construction and performance requirements; general.

(a) The Bureau shall issue approvals for fuses for use with direct current in providing short-circuit protection for trailing cables, when such fuses have met the minimum construction, performance, and testing requirements set forth in this subpart.

(b) All fuses submitted to the Bureau for approval shall be designed on sound engineering and scientific principles, constructed of suitable materials, and evidence good workmanship.

(c) Fuses may be single-element or dual-element in type, however they shall be capable of interrupting any current within a range from the ampere rating of the fuse under consideration for approval up to 20,000 amperes.

(d) The Bureau shall accept the fuse ampere rating as specified in the Underwriters Laboratories, Inc., standard for alternating current fuses (UL–198).

(e) Fuses shall be capable of completely interrupting a current within 30 milliseconds after initial current interruption, and shall not show any evidence of restriking after 30 milliseconds.

(f) The blown fuse shall show only superficial damage.

(g) The fuse holder shall remain intact and shall readily accept and retain a replacement fuse.

§ 28.41 Testing requirements; general.

(a) The open circuit voltage of the test circuit shall be 300 volts d.c., or 600 volts d.c., depending on the voltage rating of the fuse being tested.

(b) Time constant of the circuit (defined as $T=L/R$, where T is the time in seconds, L is the inductance in henries, and R is the resistance in ohms) shall be as follows:

(1) For 10,000 amperes and greater currents, $T=0.016$ seconds or more;
(2) For 1,000 amperes to 10,000 amperes, $T=0.008$ seconds or more;
(3) For 100 amperes to 1,000 amperes, $T=0.006$ seconds or more; and
(4) For less than 100 amperes, $T=0.002$ seconds or more.

(c) Test currents shall be as follows:

(1) 200 percent of rated current for fuses having less than 200 ampere rating, or 300 percent of rated current for fuses having greater than 200 ampere rating;
(2) 900 percent of rated current;
(3) 10,000 amperes; and
(4) 20,000 amperes.

(d) The voltage shall continue to be applied for at least 30 seconds after completion of circuit interruption.

(e) Five fuses of each case size shall be tested at each test current specified in paragraph (c) of this section, with the value of the fuse being the maximum value for the case size.

(f) Three of each lot of five fuses shall be preconditioned at 95±5 percent R H for not less than 5 days immediately prior to testing; and the other two fuses of each lot of five shall be preconditioned by heating to 90° C. for 24 hours, and tested within 1 hour after removal from the preconditioning chamber.

(g) At least 3 of each lot of 5 fuses shall be tested in a fuse holder of a trolley-tap type.

[30 CFR Part 29]

PORTABLE COAL DUST/ROCK DUST SAMPLERS, AND CONTINUOUS DUTY, WARNING LIGHT, PORTABLE METHANE DETECTORS FOR USE IN COAL MINES

Notice of Proposed Rule Making

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior under section 508 of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 801; 83 Stat. 742), and 36 Stat. 369, as amended, 37 Stat. 681, 30 U.S.C. 3, 5, and 7, it is proposed that Subchapter D of Chapter I, Title 30, Code of Federal Regulations be amended by adding a new Part 29, as set forth below, which prescribes the requirements for testing and approval by the Bureau of Mines of portable coal dust/rock dust samplers, and continuous duty, warning light, portable methane detectors for use in coal mines. Since the incombustible content of combined coal dust, rock dust, and other mine dust is prescribed by section 304(d) of the Federal Coal Mine Health and Safety Act of 1969, a need exists for a portable sampler which can be used to efficiently and accurately measure the incombustible content of mine dusts. In addition, a continuous duty, warning light, portable methane detector capable of being activated by a methane-air mixture having a methane concentration of 1.0 percent ±0.2 percent, would be a valuable safeguard against loss of life due to methane explosion.

Interested persons may submit written comments, suggestions, or objections to the Director, Bureau of Mines, Washington, D.C. 20240 no later than 45 days following publication of this notice in the FEDERAL REGISTER.

ROGERS C. B. MORTON,
Secretary of the Interior.

JULY 28, 1971.

Subpart A—General Provisions

Sec.
29.1 Purpose.
29.2 Approved portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors.
29.3 Use and maintenance of approved portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors.
29.4 Definitions.

Subpart B—Application for Approval

29.10 Application procedures.
29.11 Contents of application.
29.12 Delivery of samplers and detectors by applicant; requirements.

Subpart C—Fees

Sec.
29.20 Examination, inspection, and testing of portable coal dust/rock dust samplers, and continuous duty, warning light, portable methane detectors; fees.
29.21 Additional fees; payment by applicant prior to approval.

Subpart D—Approval

29.30 Certificates of approval; scope of approval.
29.31 Certificates of approval; contents.
29.32 Notice of disapproval.
29.33 Approval labels and markings; approval of contents; use.
29.34 Rescission of certificates of approval.
29.35 Changes or modification of approved samplers and detectors; issuance of modification of certificate of approval.
29.36 Delivery of changed or modified approved sampler or detector.

Subpart E—Quality Control

29.40 Quality control plans; filing requirements.
29.41 Quality control plans; contents.
29.42 Proposed quality control plans; approval by the Bureau.
29.43 Quality control records; review by the Bureau; rescission of approval.

Subpart F—General Construction and Performance Requirements

29.50 Construction and performance requirements; general.
29.51 General construction requirements.
29.52 Component parts; minimum requirements.
29.53 Test requirements; general.
29.54 Pretesting by applicant; approval of test methods by the Bureau.
29.55 Conduct of examinations, inspections, and tests by the Bureau; assistance by applicant; observers; recorded data; public demonstrations.
29.56 Withdrawal of applications; refund of fees.

Subpart G—Portable Coal Dust/Rock Dust Samplers; Performance and Testing Requirements

29.60 Minimum performance requirements.
29.61 Testing requirements.

Table A—Specifications for Sampling Materials Used for Coal Dust/Rock Dust Sampler Testing (Percentages by Weight; Particle Size ±2 Percent).

Table B—Specifications for Standard Samples and Inspectors' Samples Used for Coal Dust/Rock Dust Sampler Testing (Percentages by Weight with Allowable Variations of ±2 Percent).

Subpart H—Continuous Duty, Warning Light, Portable Methane Detectors; Performance and Testing Requirements

29.70 Minimum performance requirements.
29.71 Warning light; performance requirements.
29.72 Accessory quantitative meter; minimum requirements.
29.73 Operative period.
29.74 Calibration adaptors.
29.75 Visual indicator device.
29.76 Testing requirements.

AUTHORITY: The provisions of this Part 29 issued under sec. 508 of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 801, 83 Stat. 742), and 36 Stat. 369, as amended, 37 Stat. 681, 30 U.S.C. 3, 5, and 7.

Subpart A—General Provisions

§ 29.1 Purpose.

The purpose of the regulations contained in this Part 29 is: (a) To establish procedures and prescribe requirements which must be met in filing applications for the approval of portable coal dust/rock dust samplers for use in measuring the incombustible content of mine dusts, and the approval of continuous duty, warning light, portable methane detectors for use in providing a visual signal of the presence of a methane-air mixture having a methane concentration of 1.0 percent ± 0.2 percent, or the approval of changes and modifications of approved portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors; (b) to specify minimum performance requirements and to prescribe methods to be employed in conducting inspections, examinations, and tests to determine the effectiveness of these instruments; and (c) to provide for the issuance of certificates of approval or modifications of certificates of approval for portable coal/rock dust samplers and continuous duty, warning light, portable methane detectors which have met the minimum requirements for performance set forth in this part.

§ 29.2 Approved portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors.

On and after ____[1], portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors shall be considered to be approved for use in coal mines where such instruments are: (a) The same in all respects as those portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors which have been approved as meeting the minimum requirements for performance prescribed in this Part 29; and (b) maintained in an approved condition.

§ 29.3 Use and maintenance of approved portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors.

Approved portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors shall be operated and maintained in accordance with the specifications prescribed by the manufacturer of such instruments, and in accordance with the applicable provisions of Part 75 and Part 77, Subchapter O of this chapter.

§ 29.4 Definitions.

As used in this part—

(a) "Applicant" means an individual, partnership, company, corporation, association, or other organization that designs, manufactures, assembles, or fabricates, or controls the design, manufacture, assembly, or fabrication of a portable coal dust/rock dust sampler or a continuous duty, warning light, portable methane detector, and who seeks to obtain a certificate of approval for such monitor or detector.

(b) "Approval" means a certificate or formal document issued by the Bureau stating that an individual portable coal dust/rock dust sampler or an individual continuous duty, warning light, portable methane detector has met the applicable minimum requirements of this Part 29, and that the applicant is authorized to use and attach an approval label or plate on any portable coal dust/rock dust sampler or continuous duty, warning light, portable methane detector manufactured, fabricated, or assembled in conformance with the plans and specifications upon which the approval was based, as evidence of such approval.

(c) "Approved" means conforming to the minimum requirements of this Part 29.

(d) "Bureau" means the U.S. Bureau of Mines, Department of the Interior.

(e) "Coal dust" means particles of coal that can pass a No. 20 sieve.

(f) "Coal Mine" means an area of land and all structures, facilities, machinery, tools, equipment, shafts, slopes, tunnels, excavations, and other property, real or personal, placed upon, under, or above the surface of such land by any person, used in, or to be used in, or resulting from, the work of extracting in such area bituminous coal, lignite, or anthracite from its natural deposits in the earth by any means or method, and the work of preparing the coal so extracted, and includes custom coal preparation facilities.

(g) "Coal mine dust" means solid particles with sizes ranging from submicroscopic to microscopic, including but not limited to coal dust and rock dust.

(h) "Continuous duty, warning light, portable methane detector" means a portable, self-contained instrument, containing a red warning light which flashes in the presence of methane-air mixtures having methane concentrations of 1.0 percent ± 0.2 percent.

(i) "Portable coal dust/rock dust sampler" means a portable, self-contained instrument, capable of indicating the incombustible content of coal mine dust over a range of from 50 percent to 100 percent incombustible.

(j) "Rock dust" means pulverized limestone, dolomite, gypsum, anhydrite, shale, adobe, or other inert material, preferably light colored, 100 per centum of which will pass through a sieve having twenty meshes per linear inch and 70 per centum or more of which will pass through a sieve having two hunderd meshes per linear inch; the particles of which when wetted and dried will not cohere to form a cake which will not be dispersed into separate particles by a light blast of air; and which does not contain more than 5 per centum of combustible matter or more than a total of 4 per centum of free and combined silica (SiO_2), or, where the Secretary finds that

[1] This amendment shall become effective 60 days following the date of promulgation in the FEDERAL REGISTER.

such silica concentrations are not available, which does not contain more than 5 per centum of free and combined silica.

(k) "Work of preparing the coal" means the breaking, crushing, sizing, cleaning, washing, drying, mixing, storing, and loading of bituminous coal, lignite, or anthracite, and such other work of preparing such coal as is usually done by the operator of the coal mine.

Subpart B—Application for Approval

§ 29.10 Application procedures.

(a) Inspection, examination, and testing leading to the approval of portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors shall be undertaken by the Bureau only pursuant to written applications which meet the minimum requirements set forth in this Subpart B.

(b) Applications shall be submitted in duplicate to Approval and Testing, Bureau of Mines, 4800 Forbes Avenue, Pittsburgh, PA 15213, and shall be accompanied by a check, bank draft, or money order in the amount specified in Subpart C of this part payable to the order of the U.S. Bureau of Mines.

(c) Except as provided in §§ 29.54, 29.61(e), and 29.76(b), the examination, inspection, and testing of all portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors shall be conducted at Approval and Testing, Bureau of Mines, Pittsburgh, Pa. 15213, or at the Bruceton, Pa. facility of Approval and Testing.

(d) Applicants, manufacturers, or their representatives may visit or communicate with Approval and Testing in order to discuss the requirements for approval of any portable coal dust/rock dust sampler, continuous duty, warning light, portable methane detector or the proposed designs thereof. No charge shall be made for such consultation and no written report shall be issued by the Bureau as a result of such consultation.

§ 29.11 Contents of application.

(a) Each application for approval shall contain a complete written description, including operating instructions in duplicate, of the sampler or detector for which approval is requested together with a set of drawings, in duplicate, showing full details of construction of the instrument.

(b) Drawings shall include title, number, and date; any revision dates shall be shown on the drawings, and the purpose of each revision being sought shall be shown on the drawing or described on an attachment to the drawing to which it applies.

(c) Each application for approval shall contain a proposed plan for quality control which meets the minimum requirements set forth in Subpart E of this part.

(d) Each application shall contain a statement that the sampler or detector has been pretested by the applicant as prescribed in § 29.54.

(e) Where any form of radioactivity is employed in the sampler or detector, the applicant shall submit:

(1) Evidence of compliance with all State regulations with respect to radiation and the use of radioactive materials; and

(2) Evidence of compliance with the requirements set forth in Title 10, Code of Federal Regulations.

§ 29.12 Delivery of samplers and detectors by applicant; requirements.

(a) Each applicant shall, when an application is filed pursuant to § 29.10, deliver at his own expense, three assembled samplers or detectors, less the radioactive source, and component parts, to Approval and Testing, Bureau of Mines, Pittsburgh, Pa. 15213. The radioactive source shall be inserted in the instrument by the applicant following testing of the electrical components of such instrument, if additional testing is deemed necessary.

(b) Samplers, detectors, and component parts submitted for approval must be made from specified materials, on regular production tooling, with no operations included which will not be incorporated in regular production processing.

(c) One completely assembled sampler or detector approved under the provisions of this part may be retained by the Bureau as a laboratory exhibit; the remaining instruments will be returned to the applicant following the issuance of such approval.

(d) Where a sampler or detector fails to meet the requirements for approval set forth in this part, all instruments and components delivered intact in accordance with this section may be returned to the applicant at his own expense, upon written request within 30 days after notice of disapproval.

Subpart C—Fees

§ 29.20 Examination, inspection, and testing of portable coal dust/rock dust samplers, and continuous duty, warning light, portable methane detectors; fees.

Except as provided in § 29.21, the following fees shall be charged by the Bureau for the examination, inspection, and testing of portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors:

(a) Examining and recording drawings and specifications prior to inspection, examination and testing	$110
(b) Intrinsic-safety investigation and test under Part 18 of this chapter (Bureau of Mines Schedule 2G)	105
(c) Inspection and explosion testing	175

§ 29.21 Additional fees; payment by applicant prior to approval.

(a) The Bureau reserves the right to conduct any examination, inspection, or test it deems necessary to determine the quality and effectiveness of any sampler, detector, or component, and to assess the cost of such examinations, inspections, or tests against the applicant prior to the issuance of any approval for the instrument examined, inspected or tested.

(b) The fees charged for the additional examination, inspection, and testing of samplers, detectors, and components shall be at the rate of $100 per day for each man day required to be expended by the Bureau.

(c) Upon completion of all examinations, inspections, and tests of samplers, detectors, and components, the Bureau shall advise the applicant in writing of the total cost assessed and the additional amount, if any, which must be paid to the Bureau as a condition of approval.

(d) The Bureau shall refund any overpayment to the applicant upon the issuance of any approval or notice of disapproval.

Subpart D—Approval

§ 29.30 Certificates of approval; scope of approval.

(a) The Bureau shall issue certificates of approval pursuant to the provisions of this subpart only for individual, completely assembled portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors which have been examined, inspected, and tested, and meet the minimum requirements set forth in Subparts G and H, as applicable.

(b) The Bureau shall not issue an informal notice of approval.

§ 29.31 Certificates of approval; contents.

(a) The certificate of approval shall contain a description of the sampler or detector for which it is issued as provided in this part.

(b) The certificate of approval shall specifically set forth any restrictions or limitations, if any, on use of the instrument.

(c) Each certificate of approval shall be accompanied by a list of drawings and specifications, which shall be incorporated by reference and maintained by the applicant. The plans and specifications listed in each certificate of approval shall set forth in detail the design and construction requirements which shall be maintained by the applicant during commercial production of the instrument.

(d) Each certificate of approval, shall, when necessary, be accompanied by a reproduction of the approval label design to be employed by the applicant with each approved instrument as provided in § 29.33.

(e) No test data or specific laboratory findings will accompany any certificate of approval, however, the Bureau will release pertinent test data and specific findings upon written request by the applicant.

(f) Each applicant shall be required to maintain an exact duplicate of the drawings and specifications incorporated in each certificate of approval in accordance with paragraph (c) of this section.

(g) Each certificate of approval shall also contain a description of or reference to the quality control plan as specified in § 29.42.

§ 29.32 Notice of disapproval.

(a) If, upon the completion of the examinations, inspections, and tests required to be conducted in accordance with the provisions of this part, it is found that the sampler or detector does not meet the minimum requirements set forth in this part, the Bureau shall issue a written notice of disapproval to the applicant.

(b) Each notice of disapproval shall be accompanied by all pertinent data or findings with respect to the defects of the instrument for which approval was sought with a view to the possible correction of any such defects.

(c) The Bureau shall not disclose, except to the applicant upon written request, any data, findings or other information with respect to any instrument for which a notice of disapproval is issued.

§ 29.33 Approval labels and markings; approval of contents; use.

(a) Samples or full-scale reproductions of approval plates, labels, and markings and a sketch or description of their method of application and position on the instrument, together with instructions for the use and maintenance of the instrument shall be submitted to the Bureau for approval.

(b) Approval labels shall bear the seal of the U.S. Bureau of Mines, the applicant's name and address, the restrictions or limitations placed upon the use of the instrument by the Bureau, an approval number assigned by the Bureau, and other information necessary for identification of the instrument.

(c) The Bureau shall, where necessary, notify the applicant when additional labels, markings or instructions will be required.

(d) Approval labels and markings shall only be used by the applicant to whom they were issued.

(e) Legible reproductions or abbreviated forms of the label approved by the Bureau for use on each sampler and detector shall be affixed, attached to, or printed on the instrument at a location where it can be easily seen.

(f) The use of any Bureau approval label obligates the applicant to whom it is issued to maintain or cause to be maintained the approved quality control sampling schedule and the acceptable quality level for each characteristic tested, and to guarantee that it is manufactured according to the drawings and specifications upon which the certificate of approval is based.

(g) Each sampler and detector shall be labeled distinctly to show the name of the applicant, and the name and letters or numbers by which the instrument is designated for trade purposes, and the serial number or approximate date of manufacture.

§ 29.34 Rescission of certificates of approval.

The Bureau reserves the right to rescind, for cause, any certificate of approval issued pursuant to the provisions of this part.

§ 29.35 Changes or modification of approved samplers and detectors; issuance of modification of certificate of approval.

(a) Each applicant may, if he desires to change any feature of an approved sampler or detector, obtain a modification of the original certificate of approval issued by the Bureau for such instrument by filing an application for such modification in accordance with the provisions of this section.

(b) Applications shall be submitted as for an original certificate of approval, with a request for a modification of the existing certificate to cover any proposed change.

(c) The application shall be accompanied by appropriate drawings and specifications, and by a proposed quality control plan which meets the requirements of Subpart E of this part.

(d) The application for modification, together with the accompanying material, shall be examined by the Bureau to determine whether testing will be required.

(e) The Bureau shall inform the applicant of the fee required for any additional testing and the applicant will be charged for the actual cost of any examination, inspection, or test required, and such fees shall be submitted in accordance with the provisions of Subpart C of this part.

(f) If the proposed change or modification meets the requirements of this part, a formal modification of certification will be issued, accompanied, where necessary, by a list of new and revised drawings and specifications covering the change(s) and reproductions of revised approval labels.

§ 29.36 Delivery of changed or modified approved sampler or detector.

An approved sampler or detector for which a formal modification of certification has been issued shall be delivered by the applicant to the Bureau of Mines, Approval and Testing, 4800 Forbes Avenue, Pittsburgh, PA 15213, as soon as it is commercially produced.

Subpart E—Quality Control

§ 29.40 Quality control plans; filing requirements.

As a part of each application for approval or modification of approval submitted pursuant to this part, each applicant shall file with the Bureau a proposed quality control plan which shall be designed to assure the quality of the instrument for which approval is sought.

§ 29.41 Quality control plans; contents.

(a) Each quality control plan shall contain provisions for the management of quality, including: (1) Requirements for the production of quality data and the use of quality control records; (2) control of engineering drawings, documentations, and changes; (3) control and calibration of measuring and test equipment; (4) control of purchased material to include incoming inspection; (5) lot identification, control of processes, manufacturing, fabrication, and assembly work conducted in the applicant's plant; (6) audit or final inspection of the completed product; and (7) the organizational structure necessary to carry out these provisions.

(b) Each provision for final inspection in the quality control plan shall include a procedure for the selection of a sample of instruments and the components thereof for testing, developed from MIL-STD-105D, "Sampling Procedures and Tables for Inspection by Attributes," or from MIL-STD-414, "Sampling Procedures and Tables for Inspection by Variables for Percent Defective," or an approved equivalent sampling procedure, or a combination of sampling procedures.

(c) The sampling plan shall include a list of the characteristics to be tested by the applicant or his agent.

(d) The characteristics listed in accordance with paragraph (c) of this section shall be classified according to the potential effect of such defect and grouped into the following classes:

(1) *Critical.* A defect that judgment and experience indicate is likely to result in a condition immediately hazardous to life for individuals using or depending upon the instrument;

(2) *Major A.* A defect, other than critical, that is likely to result in failure to the degree that the instrument does not provide any protection or utility, or a defect that reduces protection or utility and is not detectable by the user;

(3) *Major B.* A defect, other than Major A, that is likely to result in reduced protection or utility, and is detectable by the user; and

(4) *Minor.* A defect that is not likely to materially reduce the utility of the instrument for its intended purpose, or a defect that is a departure from established standards and has little bearing on the effective use or operation of the instrument.

(e) The quality control inspection test method to be used by the applicant or his agent for each characteristic required to be tested shall be described in detail.

(f) Each item manufactured shall be 100 percent inspected for defects in all critical characteristics and all defective items shall be rejected.

(g) The Acceptable Quality Level (AQL) for each major or minor defect so classified by the applicant shall be:

(1) Major A—1.0 percent;

(2) Major B—2.5 percent; and

(3) Minor—4.0 percent.

(h) Except as provided in paragraph (i) of this section, inspection level II as described in MIL-STD-105, or inspection level IV as described in MIL-STD-414, shall be used for major and minor characteristics and 100 percent inspection for critical characteristics.

(i) Subject to the approval of the Bureau, where the quality control plan

provisions for raw material, processes, manufacturing, and fabrication inspection are adequate to ensure control of finished article quality, destructive testing of finished articles may be conducted at a lower level of inspection than that specified in paragraph (h) of this section.

§ 29.42 Proposed quality control plans; approval by the Bureau.

(a) Each sample quality control plan submitted in accordance with this subpart shall be reviewed by the Bureau to determine its effectiveness in ensuring the quality of protection or utility provided by the instrument for which an approval is sought.

(b) If the Bureau determines that the sample quality control plan submitted by the applicant will not ensure adequate quality control, the Bureau shall require the applicant to modify the procedures and testing requirements of the plan prior to approval of the plan and issuance of any certificate of approval.

(c) Approved quality control plans shall constitute a part of and be incorporated into any certificate of approval issued by the Bureau, and compliance with such plans by the applicant shall be a condition of approval.

§ 29.43 Quality control records; review by the Bureau; recission of approval.

(a) The applicant shall keep quality control inspection records sufficient to carry out the procedures required in MIL–STD–105d or MIL–STD–414, or an approved equivalent sampling procedure.

(b) The Bureau reserves the right to have its representatives inspect the applicant's quality control test methods, equipment, and records, and to interview any employee or agent of the applicant in regard to quality control test methods, equipment, and records.

(c) The Bureau reserves the right to rescind, for cause, any certificate of approval where it finds that the applicant's quality control test methods, equipment, or records do not insure effective quality control over the instrument for which the approval was issued.

Subpart F—General Construction and Performance Requirements

§ 29.50 Construction and performance requirements; general.

(a) The Bureau shall accept applications and issue approvals for portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors which have met the applicable minimum requirements set forth in this Part 29.

(b) In addition to the types of samplers and detectors described in paragraph (a) of this section, the Bureau will accept applications and issue approvals for other portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors; however, the Bureau reserves the right to require, as a condition of such approval, any minimum construction and performance requirements it deems necessary for approval of such instruments, as specified in § 29.53(b).

§ 29.51 General construction requirements.

All portable coal dust/rock dust samplers and continuous duty, warning light, portable methane detectors accepted by the Bureau for examination, inspection, and testing shall be designed on sound engineering and scientific principles, constructed of suitable materials, and evidence good workmanship.

§ 29.52 Component parts; minimum requirements.

(a) The components of each instrument accepted by the Bureau for examination, inspection, and testing and approved for use where permissibility is required shall meet the requirements for permissibility and intrinsic safety set forth in Part 18, Subchapter D of this chapter (Bureau of Mines Schedule 2G).

(b) The components of each instrument shall be:

(1) Designed and constructed to prevent creation of any hazard to the user; and

(2) Assembled to permit easy access for inspection, cleaning, and repair of functional parts.

(c) Replacements parts shall be constructed to maintain the effectiveness of the instrument.

§ 29.53 Test requirements; general.

(a) Each instrument and its components shall, when tested by the applicant and the Bureau, meet the applicable performance and test requirements set forth in Subparts G and H of this part.

(b) In addition to the minimum requirements set forth in Subparts G and H of this part the Bureau reserves the right to require, as a further condition of approval, any additional or other minimum requirements it deems necessary to establish the quality, effectiveness, and safety of any instrument.

(c) Where it is determined after receipt of an application that additional or other minimum requirements will be required for approval, the Bureau will notify the applicant in writing of these additional requirements stating generally its reasons for imposing additional requirements and conducting additional or other examinations, inspections or tests.

§ 29.54 Pretesting by applicant; approval of test methods by the Bureau.

(a) Prior to any application for approval or modification of approval, the applicant shall conduct, or cause to be conducted, examinations, inspections, and tests of sampler or detector performance which are equal to or exceed the severity of those conducted by the Bureau.

(b) With the application, the applicant shall provide a statement to the Bureau showing the types and results of the examinations, inspections, and tests required under paragraph (a) of this section and state that the monitor or detector meets the minimum requirements of Subparts G or H of this part, as applicable. Evidence of test results shall be retained on file by the applicant and submitted, upon request, to the Bureau.

(c) Where the Bureau has determined that the examinations, inspections, and tests specified by the applicant are acceptable, the Bureau will prove them in writing.

(d) The Bureau may, upon written request by the applicant, provide drawings and descriptions of its test equipment and otherwise assist the applicant in establishing a test laboratory or securing the services of a testing agency.

§ 29.55 Conduct of examinations, inspections, and tests by the Bureau; assistance by applicants; observers; recorded data; public demonstrations.

(a) All examinations, inspections, and tests conducted pursuant to Subparts G and H of this part will be under the sole direction and control of the Bureau.

(b) The Bureau may as a condition of approval, require the assistance of the applicant or his agents during the assembly, disassembly, or preparation of any instrument or instrument component prior to testing or in the operation of such instrument during testing.

(c) Only Bureau personnel, persons assisting the Bureau pursuant to paragraph (b) of this section, and such other persons as may be mutually agreed upon by the Bureau and the applicant as observers, shall be present during any examination, inspection, or test conducted prior to the issuance of an approval by the Bureau for the instrument under consideration.

(d) Applicants shall be solely responsible for any agent or observer present during any examination, inspection, or test, and each applicant shall hold the Bureau harmless against any claim for damage to the instrument being tested and against any claim for personal injury suffered by any agent of the applicant or observer admitted by mutual agreement.

(e) The Bureau shall hold as confidential any analyses, drawings, specifications, or materials submitted by the applicant and shall not disclose any principles or patentable features of such equipment.

(f) As a condition of each approval issued for any sampler or detector, the Bureau reserves the right, following the issuance of such approval, to conduct such public tests and demonstrations of the approved instrument as it deems appropriate.

§ 29.56 Withdrawal of applications; refund of fees.

(a) Any applicant may, upon a written request submitted to the Bureau, withdraw any application for approval of any sampler or detector.

(b) Upon receipt of a written request for the withdrawal of an application, the Bureau shall determine the total amount due for services already performed during the course of any examinations, inspections, or tests conducted pursuant to such application. The total amount due shall be determined in accordance with the provisions of § 29.21 and assessed against the fees submitted by the applicant. If the total amount assessed is less than the fees submitted, the Bureau shall refund the balance together with a statement of the charges made for services rendered.

(e) Each sampler for which an approval is sought shall be subjected to field testing in underground coal mines with varied operating conditions prior to issuance of a certificate of approval.

TABLE A

Specifications for Sampling Materials Used for Coal Dust/Rock Dust Sampler Testing (Percentages by Weight; Particle Size ±2 percent).

1. Bruceton mine coal, Pittsburgh Seam, 6 percent to 8 percent ash, 100 percent through U.S. No. 100 sieve, 70 percent through U.S. No. 200 sieve.
2. Pocahontas low volatile, low ash coal, 5 percent to 6 percent ash, less than 0.7 percent total sulfur, 70 percent through U.S. No. 200 sieve.
3. Pittsburgh Seam high ash, high sulfur coal, run-of-mine, 100 percent through U.S. No. 20 sieve and 20 percent through U.S. No. 200 sieve.
4. Pyrite, coal-type pyrite, 90 percent or better FeS., 70 percent through U.S. No. 200 sieve.
5. $MgCO_3$, analytical grade, powdered, 70 percent through U.S. No. 200 sieve.
6. Ash, mineral matter content of 50 to 80 percent from preparation plant refuse, less than 5 percent pyrite, 70 percent through U.S. No. 200 sieve.
7. Limestone, West Virginia grade from Morgantown area, 99 percent $CaCO_3$, 70 percent through U.S. No. 200 sieve.
8. Dolomite, approximately 41 percent $MgCO_3$, 70 percent through U.S. No. 200 sieve.
9. Gypsum, 46.5 percent $CaSO_4 \cdot H_2O$, 70 percent through U.S. No. 200 sieve.
10. Traction sand, 100 percent through U.S. No. 20 sieve.

TABLE B

Specifications for Standard Samples and Inspectors' Samples Used for Coal Dust/Rock Dust Sampler Testing (Percentages by Weight with Allowable Variations of ±2 percent)

STANDARD SAMPLES

1. Bruceton coal and limestone to form 55, 65, 75, and 85 percent incombustible (ash and limestone plus 0.3 to 0.6 percent inherent moisture).
2. Bruceton coal and dolomite to 55, 65, 75, and 85 percent incombustibles.
3. Bruceton coal and gypsum to 55, 65, 75, and 85 percent incombustibles.
4. Pocahontas coal and limestone to 55, 65, 75, and 85 percent incombustibles.
5. Pocahontas coal and dolomite to 55, 65, 75, and 85 percent incombustibles.
6. Pittsburgh seam coal and limestone to 55, 65, 75, and 85 percent incombustibles.
7. Pittsburgh seam coal and dolomite to 55, 65, 75, and 85 percent incombustibles.
8. Moisture added to sample 6 of 65 percent incombustibles resulting in 70 percent incombustibles.
9. Moisture added to sample 6 of 55 percent incombustibles resulting in 65 percent total incombustibles.
10. Pyrite added to sample 1 resulting in 56 percent incombustibles.
11. Pyrite added to sample 4 resulting in 66 percent incombustibles.
12. Pyrite added to sample 6 resulting in 76 percent incombustibles.
13. $MgCO_3$ added to sample 1 resulting in 58 percent incombustibles.
14. $MgCO_3$ added to sample 2 resulting in 68 percent incombustibles.
15. $MgCO_3$ added to sample 3 resulting in 78 percent incombustibles.
16. Ash added to sample 6 resulting in 60 percent incombustibles.
17. Ash added to sample 6 resulting in 70 percent incombustibles.
18. A mixture consisting of ash, 45 percent Pittsburgh coal, and 25 percent limestone.
19. Sand added to sample 1 resulting in 60 percent incombustibles.
20. Sand added to sample 1 resulting in 65 percent incombustibles.
21. Sand added to sample 1 resulting in 75 percent incombustibles.
22. Flammable hydraulic oil added to sample 1 resulting in 50 percent incombustibles.
23. Flammable hydraulic oil added to sample 1 resulting in 45 percent incombustibles.

INSPECTORS' SAMPLES

1. A group of 25 samples shall be chosen from samples taken by Bureau inspectors during their regular mine surveys of rock dust sufficiency.
2. The type of rock dust and coal present in the mine from which such samples were taken shall be made available for purposes of calibration.
3. Where the quantity of individual samples is insufficient to supply the sample volume required for testing, composite samples of adequate volume will be used.

Subpart G—Portable Coal Dust/Rock Dust Samplers; Performance and Testing Requirements

§ 29.60 Minimum performance requirements.

(a) Portable coal dust/rock dust samplers shall be self-contained units, practical in operation, portable, and suitable for service in underground coal mines.

(b) The sampler shall be equipped with a quantitative indicating device that is capable of indicating the incombustible content of coal mine dusts over the range of from 50 percent to 100 percent incombustible.

§ 29.61 Testing requirements.

(a) Portable coal dust/rock dust samplers shall be tested to ensure that they meet the specific requirements set forth in paragraphs (a) (1), (2), (3), and (4), (c) (1) and (2), and (d) (3) of § 22.7 of Part 22, Subchapter D of this chapter (Bureau of Mines Schedule 8C).

(b) The sampling materials listed in Table A shall be used in testing the capability of the indicating device of the portable coal dust/rock dust sampler to measure incombustible content as specified in § 29.60(b) of this part.

(c) The indicating device of the sampler being tested shall be within ±3.0 percent of the chemically determined incombustible content for 80 percent of the standard samples and inspector's samples listed in Table B.

(d) In preparing sampling materials for testing, all sampling materials shall be:

(1) Air equilibrated to 0.3–0.6 percent water;

(2) Mixed in a sigma blade mixer, or the equivalent thereof, only when dry, for not less than 20 minutes and not longer than 30 minutes;

(3) Moisture will be added, when necessary, in 10 percent excess to allow for evaporation loss, by an atomizing sprayer over a tray sample with a maximum depth of 1 inch, then reblended in a sigma mixer, or equivalent, and equilibrated for at least 1 week;

(4) Carefully mixed to minimize segregation or degradation;

(5) Stored in moisture- and air-tight containers to prevent oxidation and drying; and,

(6) Analyzed for percent incombustible content within ±1 percent, by chemical analysis.

Subpart H—Continuous Duty, Warning Light, Portable Methane Detectors; Performance and Testing Requirements

§ 29.70 Minimum performance requirements.

(a) Continuous duty, warning light, portable methane detectors shall be self-contained units, practical in operation, portable and suitable for service in underground coal mines.

(b) The detector shall be equipped with an indicating device that contains a warning light designed and constructed to flash in the presence of a methane-air mixture having a methane concentration of 1.0 percent ±0.2 percent.

§ 29.71 Warning light; performance requirements.

(a) Warning lights contained in the indicating devices of detectors shall:

(1) Provide a solid angle of illumination of not less than 180° with respect to the horizontal;

(2) If incandescent, employ lamps of no less than 0.2 candlepower; or

(3) If light-emitting diodes (LED's), have sufficient intensity to be discernible in the working place of an underground coal mine; and,

(4) Be red in color.

(b) The flash rate of the warning light shall be approximately one flash per second, and the duty cycle shall be sufficiently long to attract attention.

§ 29.72 Accessory quantitative meter; minimum requirements.

(a) In addition to the warning lights described in § 29.71 of this part, an accessory meter may be installed on a continuous duty, warning light, portable methane detector, to serve as a quantitative indicator of the presence of methane.

(b) Where a quantitative accessory meter is installed on a detector, it shall meet the minimum requirements for performance and accuracy set forth in

§ 22.7(d)(2) of Part 22 of this chapter (Bureau of Mines Schedule 8C).

§ 29.73 Operative period.

Detectors shall be tested to insure that they operate effectively over a 10-hour period (a) without requiring battery replacement or recharging, and (b) without loss of initial accuracy.

§ 29.74 Calibration adaptors.

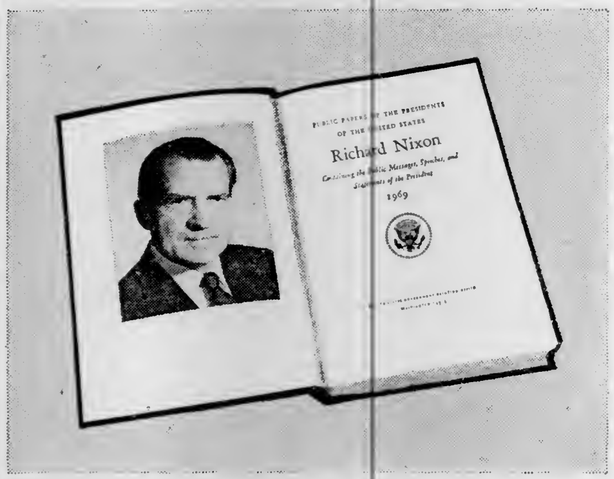
(a) Each detector shall be equipped with an adaptor that checks the overall response of the instrument to a premixed, methane-air mixture, having a concentration of not less than 1.5 percent or more than 3 percent, by volume.

(b) Adaptors shall be compatible with methane calibrating kits marketed for methane monitor calibration.

§ 29.75 Visual indicator device.

Each detector shall be equipped with a device capable of giving a visual indication of the operative condition of the battery and the electrical circuitry employed in the detector.

§ 29.76 Testing requirements.



(a) Continuous duty, warning light, portable methane detectors shall be tested to insure that they meet the specific requirements set forth in paragraph (a), subparagraph (b) (1), (3), (4), and (5), and paragraphs (c), and (e) of section 22.7, Subchapter D of this chapter (Bureau of Mines Schedule 8C).

(b) Each detector for which an approval is sought shall be subjected to field testing in underground coal mines with varied operating conditions prior to issuance of a certificate of approval.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

MINIMUM WAGES—Labor Dept. determination for Federal and Federally assisted construction in specified localities; effective 8–6–71 14542

SECURITIES—SEC amendments of reporting requirements for issuers of securities quoted on NASDAQ; effective 9–1–71 14465

BREAD—FDA amendment of identity standard permitting use of papain preparations 14468

ANTIBIOTICS—
FDA revocation of provisions for certification of certain combination drugs (2 documents) 14470
FDA proposed revocation of exemption from certification for certain penicillin and bacitracin drugs; comments within 30 days 14469

PESTICIDES—
EPA establishment of tolerances (3 documents); effective 8–6–71 14471
EPA notice of petition for establishment of tolerances (3 documents) and exemptions (1 document) 14471

RETAILERS—Labor Dept. amendment of list of establishments; effective 8–6–71 14466

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

MILITARY PERSONNEL—DoD amendment on privacy of communications with members of Congress 14466

DISABILITY BENEFITS—VA amendments on required medical evidence; effective 8–2–71 14467

FROZEN CRANBERRIES—USDA proposed grade standards; comments within 30 days 14474

CHERRIES—USDA proposed amendment to canned red tart pitted cherry grade standards; comments by 12–31–71 14473

UNION REPRESENTATION ELECTIONS—FRS proposals on preelection code of conduct, election conduct and policy statement (2 documents); comments by 9–7–71 14479

MOTOR CARRIER SAFETY—DoT proposal on coupling and towing of certain articulated vehicles; comments by 11–15–71 14477

WILDERNESS AREA—Interior Dept. notice of public hearing on 10–7–71 14488

COAL MINE SAFETY—Interior Dept. announcement of public meetings; comments by 11–22–71 14488

DRUG EVALUATIONS—FDA conclusions on effectiveness (5 documents), labeling requirements (1 document) and adulteration (1 document) 14477

NEW DRUG APPLICATIONS—FDA withdrawal of approval for certain products not on the market; effective 8–6–71 14477

COTTON TEXTILES—Interagency Textile Admin. Comm. notices extending restraints on imports from Ceylon and Mexico (2 documents) 14526

ANTIDUMPING—Customs Bur. notice of investigation on certain imports from Czechoslovakia 14483

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 213—EXCEPTED SERVICE

Department of the Interior

Section 213.3312 is amended to show that one position of Special Assistant to the Assistant to the Secretary and Director of Communications is excepted under Schedule C.

Effective on publication in the FEDERAL REGISTER (8–6–71), subparagraph (29) is added to paragraph (a) of § 213.3312 as set out below.

§ 213.3312 Department of the Interior.

(a) *Office of the Secretary.* • • •

(29) One Special Assistant to the Assistant to the Secretary and Director of Communications.

• • • • • •

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954–58 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.71–11269 Filed 8–5–71;8:47 am]

PART 213—EXCEPTED SERVICE

Department of the Interior

Section 213.3312 is amended to show that two additional positions of Special Assistant to the Assistant Secretary for Fish and Wildlife and Parks are excepted under Schedule C.

Effective on publication in the FEDERAL REGISTER (8–6–71), subparagraph (5) of paragraph (a) of § 213.3312 is amended as set out below.

§ 213.3312 Department of the Interior.

(a) *Office of the Secretary.* • • •

(5) Four Special Assistants to the Assistant Secretary for Fish and Wildlife and Parks and one Confidential Assistant (Administrative Assistant) to each of the four Assistant Secretaries for Mineral Resources, Public Land Management, Water and Power Development, and Fish and Wildlife and Parks.

• • • • • •

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954–58 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 71–WE–39]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

Correction

In F.R. Doc. 71–10319 appearing at page 13374 in the issue for Wednesday, July 21, 1971, the reference to "longitude 117°2'55" W." in the description of the Victorville, Calif., control zone (§ 71.171) should read "longitude 117°22'55" W.".

[Airspace Docket No. 71–CE–41]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

Correction

In F.R. Doc. 71–10285 appearing on page 13374 in the issue for Wednesday, July 21, 1971, the reference to "VORTAC 067°" in the 15th line of the description of the Vichy, Mo., transition area (§ 71.181) should read "VORTAC 059°".

[Docket No. 11276; Amdt. 768]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAP's) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAP's for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260–3, 8260–4, or 8260–5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97–696 (35 F.R. 5610).

SIAP's are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20590. Copies of SIAP's adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAP's may be purchased from the FAA Public Document Inspection Facility, HQ–405, 800 Independence Avenue SW., Washington, DC 20590, or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $125 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.11 is amended by establishing, revising or canceling the following L/MF–ADF(NDB)–VOR SIAPs, effective September 2, 1971:

Richmond, Ind.—Richmond Municipal Airport; ADF–1, Amdt. 2; Canceled.
Yuma, Ariz.—Yuma MCAS/Yuma International Airport; ADF 1, Original Canceled.

2. Section 97.15 is amended by establishing, revising, or canceling the following VOR/DME SIAP's, effective September 2, 1971:

Omaha, Nebr.—Eppley Airfield; VOR/DME No. 1, Amdt. 3; Canceled.

3. Section 97.23 is amended by establishing, revising, or canceling the following VOR–VOR/DME SIAP's, effective September 2, 1971:

Augusta, Ga.—Daniel Field; VOR–A, Amdt. 9; Revised.
Bloomington, Ill.—Bloomington-Normal Airport; VOR Runway 11, Amdt. 2; Revised.
Bloomington, Ill.—Bloomington-Normal Airport; VOR Runway 21, Amdt. 8; Revised.
Bloomington, Ill.—Bloomington-Normal Airport; VOR Runway 29, Amdt. 2; Revised.
Burlington, Vt.—Burlington International Airport; VOR Runway 1, Amdt. 6; Revised.
Butte, Mont.—Silver Bow County Airport; VOR–A, Amdt. 7; Revised.
Butte, Mont.—Silver Bow County Airport; VOR–B, Amdt. 4; Revised.
Chadron, Neb.—Chadron Municipal Airport; VOR–A, Amdt. 6; Revised.
Chadron, Neb.—Chadron Municipal Airport; VOR Runway 20, Original; Established.
Columbia, Mo.—Municipal Airport; VOR Runway 17, Amdt. 8; Canceled.
Danville, Ill.—Vermilion County Airport; VOR Runway 21, Amdt. 4; Revised.
Eveleth, Minn.—Eveleth-Virginia Municipal Airport; VOR Runway 27, Amdt. 4; Revised.
Gallup, N. Mex.—Senator Clarke Field; VOR Runway 6, Amdt. 1; Revised.
Grand Rapids, Minn.—Grand Rapids Municipal Airport; VOR Runway 34, Amdt. 1; Revised.
Gulfport, Miss.—Gulfport Municipal Airport; VOR Runway 31, Amdt. 8; Revised.
Jackson, Mich.—Reynolds Municipal Airport; VOR Runway 23, Amdt. 8; Revised.
Kalispell, Mont.—Glacier Park International Airport; VOR Runway 29, Amdt. 3; Revised.
Omaha, Neb.—Eppley Airfield; VOR Runway 32L, Amdt. 3; Revised.
Richmond, Ind.—Richmond Municipal Airport; VOR Runway 5, Amdt. 3; Revised.
Richmond, Ind.—Richmond Municipal Airport; VOR Runway 23, Amdt. 3; Revised.
South Haven, Mich.—South Haven Municipal Airport; VOR Runway 22, Amdt. 2; Revised.
Swainsboro, Ga.—Emanuel County Airport; VOR Runway 13, Original; Canceled.
Topeka, Kans.—Philip Billard Municipal Airport; VOR Runway 22, Amdt. 11; Revised.
Urbana, Ill.—Illini Airport; VOR–A, Amdt. 3; Revised.
Wichita, Kans.—Beech Factory Airport; VOR–A, Amdt. 4; Revised.
August. Ga.—Bush Field; VOR/DME–A, Amdt. 14; Revised.
Butte, Mont.—Silver Bow County Airport; VOR/DME–A, Amdt. 1; Revised.
Danville, Ill.—Vermilion County Airport; VOR/DME Runway 3, Amdt. 2; Revised.
Rochester, Minn.—Rochester Municipal Airport; VOR/DME Runway 20, Amdt. 6; Revised.

4. Section 97.25 is amended by establishing, revising or canceling the following LOC–LDA SIAP's, effective September 2, 1971:

Topeka, Kans.—Philip Billard Municipal Airport; LOC(BC) Runway 31, Amdt. 11; Revised.
Flint, Mich.—Bishop Airport; LOC(BC) Runway 27L, Amdt. 4; Revised.
Omaha, Neb.—Eppley Airfield; LOC (BC) Runway 32L, Amdt. 9; Revised.

5. Section 97.27 is amended by establishing, revising or canceling the following NDB/ADF SIAP's, effective September 2, 1971:

Akron, Ohio—Akron-Canton Airport; NDB Runway 1, Amdt. 19; Revised.
Augusta, Ga.—Bush Field; NDB Runway 17, Amdt. 7; Revised.
Augusta, Ga.—Bush Field; NDB Runway 35, Amdt. 18; Revised.
Boone, Ia—Boone Municipal Airport; NDB Runway 14, Amdt. 2; Revised.
Burlington, Vt.—Burlington International Airport; NDB Runway 15, Amdt. 12; Revised.
Chadron, Neb.—Chadron Municipal Airport; NDB Runway 20, Amdt. 6; Revised.
Columbus, Ind.—Columbus Municipal Airport; NDB Runway 5, Amdt. 1; Revised.
Grand Rapids, Mich.—Kent County Airport; NDB Runway 8, Original; Established.
Jackson, Mich.—Reynolds Municipal Airport; NDB Runway 23, Amdt. 1; Revised.
Omaha, Neb.—Eppley Airfield; NDB Runway 14R, Amdt. 17; Revised.
Pratt, Kans.—Pratt Municipal Airport; NDB Runway 17, Amdt. 2; Revised.
Robinson, Ill.—Robinson Municipal Airport; NDB Runway 17, Amdt. 2; Revised.
Topeka, Kans.—Philip Billard Municipal Airport; NDB Runway 13, Amdt. 21; Revised.

6. Section 97.29 is amended by establishing, revising, or canceling the following ILS SIAP's, effective July 15, 1971:

Anchorage, Alaska—Anchorage International Airport; ILS Runway 6L, Amdt. 18; Canceled.

7. Section 97.29 is amended by establishing, revising, or canceling the following ILS SIAP's, effective September 2, 1971:

Akron, Ohio—Akron-Canton Airport; ILS Runway 1, Amdt. 23; Revised.
Augusta, Ga.—Bush Field; ILS Runway 35, Amdt. 17; Revised.
Burlington, Vt.—Burlington International Airport; ILS Runway 15, Amdt. 13; Revised.
Flint, Mich.—Bishop Airport; ILS Runway 9R, Amdt. 3; Revised.
New Orleans, La.—New Orleans International (Moisant) Airport; ILS Runway 10, Amdt. 24; Revised.
Omaha, Nebr.—Eppley Airfield; ILS Runway 14R, Amdt. 17; Revised.
Topeka, Kans.—Philip Billard Municipal Airport; ILS Runway 13, Amdt. 22; Revised.
Traverse City, Mich.—Cherry Capital Airport; ILS Runway 28, Amdt. 1; Canceled.

8. Section 97.31 is amended by establishing, revising, or canceling the following Radar SIAP's, effective September 2, 1971:

Wichita, Kans.—Beech Factory Airport; Radar–2, Amdt. 1; Revised.
Wichita, Kans.—Piper Airpark; Radar–3, Amdt. 1; Revised.
Wichita, Kans.—Rawdon Field; Radar–4, Amdt. 1; Revised.

(Secs. 307, 313, 601, 1110, Federal Aviation Act of 1958; 49 U.S.C. 1438, 1354, 1421, 1510; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c), 5 U.S.C. 552(a)(1))

Issued in Washington, D.C., on July 28, 1971.

R. S. SLIFF,
Acting Director,
Flight Standard Service.

NOTE: Incorporation by reference provisions in §§ 97.10 and 97.20 (35 F.R. 5610) approved by the Director of the Federal Register on May 12, 1969.

[FR Doc.71–11120 Filed 8–5–71;8:45 am]

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release 34–9255]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

Notice of Changes in Outstanding Securities Quoted on NASDAQ Interdealer Quotation System

On February 17, 1971, in Securities Exchange Act Release No. 9077, and in the FEDERAL REGISTER for February 24, 1971, at 36 F.R. 3431, the Securities and Exchange Commission published a proposal to adopt, under the Securities Exchange Act of 1934 (the "Act"), Rules 13a–17 (17 CFR 240.13a–17) and 15d–17 (17 CFR 240.15d–17) and a new reporting Form 10–C (17 CFR 249.310c). The Commission has considered the comments and suggestions received and has adopted the new rules and reporting form effective September 1, 1971.

The new rules and related form will provide in substance that any issuer of securities registered under section 12(g) or subject to section 15(d) of the Act, upon being notified that a class of its securities is to be quoted on the National Association of Securities Dealers, Inc. (NASD) NASDAQ interdealer quotation system, shall thereafter report on Form 10–C any aggregate net change with respect to the amount of securities of the class outstanding which exceeds 5 percent. These rules would also provide that a report on Form 10–C be made by any issuer of securities quoted on the NASDAQ system if it changes its corporate name. In either event reports on Form 10–C are required to be filed no later than 10 days after the change is affected. Provision has also been made in the form for filing a copy of the report directly with the NASD. The NASD is presently using its own form to get this information on a voluntary basis from such issuers.[1] Comparable information is already required by the major securities exchanges.

These rules do not require the reporting of any new information or events by issuers of publicly traded securities. The corporate events covered by the new rules normally are and would continue to be required to be reported on a more detailed basis with the Commission under existing reporting rules. By requiring this initial report, however, the NASD will be provided with more timely notice of information which it needs for administration of the NASDAQ system and in its program for publication of daily price indexes for over-the-counter securities quoted on the system. The report has been changed to require the filing of four (instead of two) copies with the Commission and to make clear that 5 percent changes effectuated through stock splits or reverse splits are to be reported.

The NASDAQ system provides for the first time a real-time automated quotation service for approximately 2,500 over-the-counter securities to offices of brokers, retail traders, and market makers throughout the country. It is expected that this system and its indexes will provide new sources of important information to both broker-dealers and the investing public concerning the over-the-counter markets.

Commission action. The Securities and Exchange Commission, acting pursuant to the provisions of the Securities Exchange Act of 1934 and particularly the authority conferred by sections 13(a), 15(d), and 23(a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors and to insure fair dealing, hereby amends Part 240 and 249 of Chapter II of Title 17 of the Code of Federal Regulations as indicated below, effective September 1, 1971.

I. Part 240 of Title 17 of the Code of Federal Regulations is amended by adding thereunder new §§ 240.13a–17 and 240.15b–17 to read as follows:

§ 240.13a–17 Reports on Form 10–C by issuers of securities quoted on the NASDAQ interdealer quotation system.

(a) Every issuer having securities registered pursuant to section 12(g) of the Act, upon being notified by a national securities association registered pursuant to section 15A of the Act that any class of its securities is to be quoted on an interdealer quotation system which is sponsored and governed by the rules of such association, shall thereafter report in the time and in the manner specified in Form 10–C, any aggregate increase or decrease in the amount of securities of such class outstanding which exceeds 5 percent of the amount of the class outstanding as last reported. The obligation of an issuer to report pursuant to this paragraph with respect to a class of its securities shall continue until notification is received from such association that the security will no longer be quoted on such an interdealer quotation system.

(b) Issuers having a class of securities quoted on such an interdealer quotation system shall also report in the manner and time specified in Form 10–C changes in their corporate name. The obligation to report pursuant to this paragraph shall continue until notification is received from the national securities association that the security is no longer quoted on such an interdealer quotation system.

(c) Nothing in paragraph (a) or (b) of this section shall be construed, however, to relieve issuers of the duty to file any other report required under the Act or rules promulgated thereunder with respect to such changes.

§ 240.15b–17 Reports on Form 10–C by issuers of securities quoted on the NASDAQ interdealer quotation system.

(a) Every issuer subject to section 15(d) of the Act, upon being notified by a national securities association registered pursuant to section 15A of the Act that any class of its securities is to be quoted on an interdealer quotation system which is sponsored and governed by the rules of such association, shall thereafter report in the time and in the manner specified in Form 10–C any aggregate increase or decrease in the amount of securities of such class outstanding which exceeds 5 percent of the amount of the class outstanding as last reported. The obligation of an issuer to report pursuant to this paragraph with respect to a class of its securities shall continue until notification is received from such association that the security will no longer be quoted on such an interdealer quotation system.

(b) Issuers having a class of securities quoted on such an interdealer quotation system shall also report in the manner and time specified in Form 10–C changes in their corporate name. The obligation to report pursuant to this paragraph shall continue until notification is received from the national securities association that the security is no longer quoted on such an interdealer quotation system.

(c) Nothing in paragraph (a) or (b) of this section shall be construed, however, to relieve issuers of the duty to file any other report required under the Act or rules promulgated thereunder with respect to such changes.

II. Part 249 of Title 17 is amended by adding thereunder a new § 249.310c, and by reserving for future use §§ 249.310a and 249.310b, to read as follows:

§ 249.310c Form 10–C for report by issuers of securities quoted on NASDAQ interdealer quotation system, pursuant to section 13 or 15(d) of the Act.

This form shall be filed, as required by § 240.13a–17 or § 240.15d–17 of this chapter, by any issuer of securities which are registered under section 12(g) of the Act or which are subject to section 15(d) of the Act, after such issuer has been notified that any class of its securities is to be quoted on the NASDAQ interdealer quotation system, reporting thereon any aggregate increase or decrease in the amount of its securities which change exceeds 5 percent of the amount of the class outstanding as last reported or any change in the name of the corporation. This report shall be filed not later than 10 days after the first date on which such change in outstanding securities or corporate name has occurred, and such obligation to file reports

[1] The NASD will continue to provide, after the adoption of these rules, copies of the forms which may be used for filing with the NASD. The NASD will also continue to furnish NASDAQ issuers with forms for submitting the information required under Commission rule 10b–17. For the details of this requirement see Securities Exchange Act of 1934, Release No. 9192 (36 F.R. 11513).

shall continue until notification is received by the issuer from the NASDAQ interdealer quotation system that the securities in question will no longer be quoted on such system. The obligation to file this report shall not relieve any issuer of the duty to file any other report required under the Act or the rules and regulations promulgated thereunder.

Copies of Form 10–C have been filed with the Office of the Federal Register, and additional copies of such Form may be obtained on request from the Securities and Exchange Commission, Washington, D.C. 20549.

Incorporation by reference approved by the Director of the Office of the Federal Register on August 5, 1971.

(Sec. 13(a), 48 Stat. 894, sec. 4, 78 Stat. 569, 15 U.S.C. 78m(a); sec. 15(d), 48 Stat. 895, sec. 3, 49 Stat. 1377, sec. 6, 78 Stat. 570, 15 U.S.C. 78o(d))

By the Commission.

[SEAL] THEODORE L. HUMES,
Associate Secretary.

Title 28—JUDICIAL ADMINISTRATION

Chapter I—Department of Justice

[Order 464–71]

PART 45—STANDARDS OF CONDUCT

Reporting of Outside Interests

Department of Justice regulations relating to standards of conduct of employees include a requirement that employees occupying certain designated positions report their outside financial interests. This order changes the listing of positions for the Administrative Divison to reflect organzational changes in that Division.

By virtue of the authority vested in me by 28 U.S.C. 509, 510, and 5 U.S.C. 301, § 45.735–22(c)(2) is amended by deleting from the list of positions in subdivision (xiii) the position of "Chief, Headquarters Internal Audit Unit" and by adding at the end of the list the position of "Director, Office of Management Support."

Dated: July 31, 1971.

JOHN N. MITCHELL,
Attorney General.

[FR Doc.71–11299 Filed 8–5–71;8:50 am]

Title 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 779—THE FAIR LABOR STANDARDS ACT AS APPLIED TO RETAILERS OF GOODS OR SERVICES

Characteristics and Examples and Partial List of Establishments

Pursuant to the Fair Labor Standards Act of 1938 (29 U.S.C. 201 et seq.), Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp. p. 1004) and Secretary's Orders 13–71 and 15–71 (36 F.R. 8755 and 8756) I hereby amend Part 779 of Title 29 of the Code of Federal Regulations by deleting the entry "valet shops" from the last sentence of § 779.318(a) and from the list of establishments in § 779.320.

The procedural and effective date requirements of section 4 of the Administrative Procedure Act (5 U.S.C. 553) do not apply as this amendment is concerned solely with interpretive rules. I do not believe such procedure and delay will serve a useful purpose here. Accordingly, this amendment shall become effective upon publication in the FEDERAL REGISTER (8–6–71).

1. As amended, § 779.318(a), Title 29, Code of Federal Regulations, reads as follows:

§ 779.318 Characteristics and examples of retail or service establishments.

(a) Typically a retail or service establishment is one which sells goods or services to the general public. It serves the everyday needs of the community in which it is located. The retail or service establishment performs a function in the business organization of the Nation which is at the very end of the stream of distribution, disposing in small quantities of the products and skills of such organization and does not take part in the manufacturing process. (See, however, the discussion of section 13(a)(4) in §§ 779.346 to 779.350.) Such an establishment sells to the general public its food and drink. It sells to such public its clothing and its furniture, its automobiles, its radios and refrigerators, its coal and its lumber, and other goods, and performs incidental services on such goods when necessary. It provides the general public its repair services and other services for the comfort and convenience of such public in the course of its daily living. Illustrative of such establishments are: Grocery stores, hardware stores, clothing stores, coal dealers, furniture stores, restaurants, hotels, watch repair establishments, barber shops, and other such local establishments.

* * * * * *

2. As amended, § 779.320, Title 29, Code of Federal Regulations, reads as follows:

§ 779.320 Partial list of establishments whose sales or service may be recognized as retail.

Antique shops.
Auto courts.
Automobile dealers' establishments.
Automobile laundries.
Automobile repair shops.
Barber shops.
Beauty shops.
Bicycle shops.
Billiard parlors.
Book stores.
Bowling alleys.
Butcher shops.
Cafeterias.
Cemeteries.
China, glassware stores.
Cigar stores.
Clothing stores.
Coal yards.
Confectionery stores.
Crematories.
Dance halls.
Delicatessen stores.
Department stores.
Drapery stores.
Dress-suit rental establishments.
Drug stores.
Dry goods stores.
Embalming establishments.
Farm implement dealers.
Filling stations.
Floor covering stores.
Florists.
Funeral homes.
Fur repair and storage shops.
Fur shops.
Furniture stores.
Gift, novelty and souvenir shops.
Grocery stores.
Hardware stores.
Hosiery shops.
Hotels.
Household appliance stores.
Household furniture storage and moving establishments.
Household refrigerator service and repair shops.
Infants' wear shops.
Jewelry stores.
Liquor stores.
Luggage stores.
Lumber yards.
Masseur establishments.
Millinery shops.
Musical instrument stores and repair shops.
Newsstands.
Paint stores.
Public parking lots.
Photographic supply and camera shops.
Piano tuning establishments.
Public baths.
Public garages.
Radio and television stores and repair shops.
Recreational camps.
Reducing establishments.
Restaurants.
Roadside diners.
Scalp-treatment establishments.
Shoe repair shops.
Shoeshine parlors.
Sporting goods stores.
Stationery stores.
Taxidermists.
Theatres.
Tourist homes.
Trailer camps.
Undertakers.
Variety shops.
Watch, clock and jewelry repair establishments.

(52 Stat. 1060; 29 U.S.C. 201–219)

Signed at Washington, D.C., this 29th day of July 1971.

HORACE E. MENASCO,
Administrator, Wage and Hour Division, U.S. Department of Labor.

Title 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

SUBCHAPTER B—PERSONNEL; MILITARY AND CIVILIAN

PART 93—PRESERVATION OF PERSONAL PRIVACY OF MEMBERS OF THE ARMED FORCES

Privacy and Confidentiality of Communications

The following revision to Part 93 has been approved:

Section 93.2 has been amended by adding a new paragraph (f). Amended § 93.2 now reads:

§ 93.2 Policy.

* * * * *

(f) To insure the privacy and confidentiality of communications concerning or between military personnel and Members of the Congress of the United States, a member's personnel file shall not be coded, annotated, or otherwise marked to indicate that congressional interest has been generated by the member exercising his rights under 10 U.S.C. 1034 or expressed on his behalf.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Administration).

[FR Doc.71–11303 Filed 8–5–71;8:52 am]

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

[CGFR 71–72A]

PART 110—ANCHORAGE REGULATIONS

Los Angeles and Long Beach Harbors, Calif.

Recent dredging of the Long Beach Channel has caused a slight realinement of the channel and subsequent encroachment into Anchorage Area "C", as defined in 33 CFR 110.214(a)(3). The narrative description of Anchorage Area "C" remains unchanged, however one point in the geographic description must be changed.

Since this amendment is minor in nature and affects the safety of navigation, I find that notice of proposed rule making and public procedure thereon are not necessary or in the public interest and the amendment may be made effective in less than 30 days after publication in the FEDERAL REGISTER.

Accordingly, § 110.214(a)(3) is amended by changing the 11th coordinate by striking out "Latitude 33°44'00.0", Longitude 118°12'14.0" " and inserting "Latitude 33°44'12.5", Longitude 118°12'33.0" " in place thereof.

(Sec. 7, 38 Stat. 1053, as amended, sec. 6(g)(1)(A), 80 Stat. 937; 33 U.S.C. 471, 49 U.S.C. 1655(g)(1)(A); 49 CFR 1.46(c)(1), 33 CFR 1.05–1(c)(1)(35 F.R. 8279))

Effective date. This amendment shall become effective on the date of its publication in the FEDERAL REGISTER (8–6–71).

Dated: August 2, 1971.

R. E. HAMMOND,
Rear Admiral, U.S. Coast Guard, Chief, Office of Operations.

[FR Doc.71–11261 Filed 8–5–71;8:47 am]

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 3—ADJUDICATION

Subpart A—Pensions, Compensation, and Dependency and Indemnity Compensation

LIBERALIZATION OF REQUIRED MEDICAL EVIDENCE

The amendment to the following sections eliminates need for a confirming Veterans Administration examination in connection with medical evidence from various sources submitted in support of a claim for disability benefits where the medical evidence is adequate for rating purposes and provides for continuation of compensation based on determinable static disability where claimant fails to report for examination.

1. Section 3.326 is revised to read as follows:

§ 3.326 Examinations.

(a) Where the reasonable probability of a valid claim is indicated in any claim for disability compensation or pension, whether as an original claim, a reopened claim, or a claim for increase, including claims for benefits under the situations set forth in § 3.351 (d) and (e) and for benefits based on the need of a veteran or widow for regular aid and attendance, a Veterans Administration examination will be authorized.

(b) "Reasonable probability" may be concluded from the facts of the situation including medical and lay evidence and from the observations of the rating board made upon personal appearance by the claimant before it. The term "reasonable probability" will be interpreted liberally to permit simultaneous development of evidence including requests for examinations and for service records. The requirement of the term may be satisfied by the statement of a private physician. Evidence solely to establish permanent and total disability will not be required in claims for pension under 38 U.S.C. 521 if the veteran has attained the age of 65 years.

(c) Any hospital report and any examination report from a military hospital or from a State, county, municipal, or other government hospital or recognized private institution which indicates reasonable probability of a valid claim and which contains descriptions, including diagnoses and clinical and laboratory findings, adequate for rating purposes, of the condition of the organs and body systems for which claim is made may be deemed to be the "Veterans Administration examination", referred to in paragraph (a) of this section. However, rating action which would result in denying monetary benefits to a former prisoner of war will not be made without a complete physical examination conducted at a Veterans Administration hospital or outpatient clinic.

(d) A statement from a private physician may be accepted for rating the pension claim of a veteran or widow without further examination where it includes clinical manifestations and substantiation of diagnosis by findings of diagnostic techniques generally accepted by medical authorities, such as pathological studies, X-rays and laboratory tests as appropriate, and is otherwise adequate for rating purposes.

2. In § 3.327, paragraph (b)(1) and the introductory portion of paragraph (c) preceding subparagraph (1) are amended to read as follows:

§ 3.327 Reexaminations.

* * * * *

(b) *Compensation cases*—(1) *Scheduling reexaminations.* It is required that at least one Veterans Administration examination be made in every case in which compensation benefits are awarded. For this purpose any hospital report and any examination report from a military hospital or from a State, county, municipal, or other government hospital or recognized private institution which contain descriptions, including diagnoses and clinical and laboratory findings, adequate for rating purposes, of the condition of the organs and body systems for which claim is made may be deemed to be included in the term "Veterans Administration examination". Assignment of a prestabilization rating requires reexamination within the second 6 months period following separation from service. Following initial Veterans Administration examination, or any scheduled future or other examination, reexamination, if in order, will be scheduled within not less than 2 years nor more than 5 years within the judgment of the rating board, unless another time period is elsewhere specified.

* * * * *

(c) *Pension cases.* In non-service-connected cases in which the permanent total disability has been confirmed by reexamination or by the history of the case, or with obviously static disabilities, further reexaminations will not be requested. In other cases further examination will not be requested routinely and will be accomplished only if considered necessary based upon the particular facts of the individual case.

* * * * *

3. In § 3.655, paragraph (b) is amended to read as follows:

§ 3.655 Failure to report for Veterans Administration examination.

* * * * *

(b) *Adjustment for static disabilities and for prestabilization ratings.* If the veteran has one or more compensable static disabilities verified by a Veterans' Administration examination and without adequate reason fails to report for examination, including periods of hospital observation, the awards to the veteran

and to any dependents will be amended to pay an amount based solely on the degree of disability of such static disabilities effective the day following the date of last payment. If the veteran has a disability or disabilities for which a prestabilization rating has been assigned, the minimum evaluation provided by the 1957 Looseleaf Edition of the Schedule for Rating Disabilities, 1945 (§ 4.40 et seq. of this chapter) will be assigned for each disability clearly established by the evidence of record and such disabilities will be considered static for the purpose of the award procedures of the foregoing sentence.

* * * * *

4. Immediately following § 3.655, the cross references are amended to read as follows:

CROSS REFERENCES: Abandoned claims. See § 3.158.

Claimants required to report when requested. See § 3.329.

Resumption of rating when veteran subsequently reports for Veterans' Administration examination. See § 3.330.

Examination; failure to report. See § 3.501(h).

(72 Stat. 1114; 38 U.S.C. 210)

These VA regulations are effective the date of approval.

Approved: August 2, 1971.

By direction of the Administrator.

[SEAL] RUFUS H. WILSON,
Associate Deputy Administrator.

[FR Doc.71-11300 Filed 8-5-71;8:50 am]

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 101—Federal Property Management Regulations

SUBCHAPTER D—PUBLIC BUILDINGS AND SPACE

PART 101-20—ASSIGNMENT AND UTILIZATION OF SPACE

Subpart 101-20.48—GSA Regional Offices

REGIONAL BOUNDARIES AND REGIONAL OFFICE LOCATIONS

This amendment provides a list of GSA regional offices, an updated description of the areas they serve, and their current mailing addresses.

Section 101-20.4801 is revised to read as follows:

§ 101-20.4801 GSA regional offices.

GSA region	Area served	Mailing address
1	Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont.	General Services Administration, Post Office and Courthouse, Boston, Mass. 02109.
2	New Jersey, New York, Puerto Rico, and the Virgin Islands.	General Services Administration, 26 Federal Plaza, New York, N.Y. 10007.
3	Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, and West Virginia.	General Services Administration, Region 3, Washington, D.C. 20407.
4	Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee.	General Services Administration, 1776 Peachtree Street NW., Atlanta, GA 30309.
5	Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin.	General Services Administration, 219 South Dearborn Street, Chicago, IL 60604.
6	Iowa, Kansas, Missouri, and Nebraska.	General Services Administration, 1500 East Bannister Road, Kansas City, MO 64131.
7	Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.	General Services Administration, 819 Taylor Street, Fort Worth, TX 76102.
8	Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming.	General Services Administration, Building 41, Denver Federal Center, Denver, CO 80225.
9	Arizona, California, Hawaii, and Nevada.	General Services Administration, 49 Fourth Street, San Francisco, CA 94103.
10	Alaska, Idaho, Oregon, and Washington.	General Services Administration, GSA Center, Auburn, Wash. 98002.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. This regulation is effective July 1, 1971.

Dated: July 30, 1971.

ROBERT L. KUNZIG,
Administrator of General Services.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 17—BAKERY PRODUCTS

Bread Identity Standard; Papain Preparations

In the matter of amending the standard of identity for bread (21 CFR 17.1) to permit the optional use of papain preparations obtained from papaya with provision for a suitable, harmless carrier:

Two comments, both favorable, were submitted in response to the notice of proposed rule making in the above-identified matter that was published in the FEDERAL REGISTER of February 3, 1971 (36 F.R. 1909), and was based on a petition submitted by CPC International, Inc., International Plaza, Englewood Cliffs, N.J. 07632.

The petition, the comments, and other relevant information having been considered, the Commissioner of Food and Drugs concludes that adopting the proposal as set forth below will promote honesty and fair dealing in the interest of consumers.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to the Commissioner (21 CFR 2.120): *It is ordered,* That § 17.1(a)(6)(ii) be revised to read as follows:

§ 17.1 Bread, white bread, and rolls, white rolls, or buns, white buns; identity; label statement of optional ingredients.

(a) * * *

(6) * * *

(ii) Harmless preparations of enzymes obtained from *Aspergillus oryzae,* bromelain preparations obtained from pineapple, or papain preparations obtained from papaya, any of which may be added in a suitable, harmless carrier but the quantity of any such carrier shall be no greater than reasonably necessary to effect a uniform mixture of the enzymes with the flour used.

* * * * *

Due to cross-references, this amendment to the standard for bread (§ 17.1) upon becoming effective will be applicable to the standards for enriched bread, milk bread, raisin bread, and whole wheat bread (§§ 17.2 through 17.5).

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing and such objections must be supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in six copies.

Effective date. This order shall become effective 60 days after its date of publication in the FEDERAL REGISTER, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be given by publication in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371)

Dated: July 23, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

PART 148n—OXYTETRACYCLINE

PART 148p—POLYMYXIN

PART 148r—TYROTHRICIN

Antibiotics in Combination With Other Drugs for Nasal Use

In the FEDERAL REGISTER of August 21, 1970 (35 F.R. 13400), the Commissioner of Food and Drugs announced (DESI 7561) the conclusions of the Food and Drug Administration following evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, regarding the following preparations:

1. Neo-Delta-Cortef 0.1 percent Nasal Spray containing 1 milligram prednisolone acetate, 5 milligrams neomycin sulfate (equivalent to 3.5 milligrams neomycin base), and 2.5 milligrams phenylephrine hydrochloride per milliliter; The Upjohn Co., 7171 Portage Road, Kalamazoo, Mich. 49002 (NDA 10-206).

2. Neo-Cortef 1.5 percent Nasal Spray containing 15 milligrams hydrocortisone acetate, 5 milligrams neomycin sulfate (equivalent to 3.5 milligrams neomycin base), and 2.5 milligrams phenylephrine hydrochloride per milliliter; The Upjohn Co. (NDA 9-512).

3. Neo-Cortef 0.5 percent Nasal Spray containing 5 milligrams hydrocortisone acetate, 5 milligrams neomycin sulfate (equivalent to 3.5 milligrams neomycin base), and 2.5 milligrams phenylephrine hydrochloride per milliliter; The Upjohn Co. (NDA 9-837).

4. Nasal Suspension Hydrospray containing 1 milligram hydrocortisone, 2.5 milligrams phenylephrine hydrochloride, 7.5 milligrams phenylpropanolamine hydrochloride, and 5 milligrams neomycin sulfate (equivalent to 3.5 milligrams neomycin base) per milliliter; Merck Sharp & Dohme, Division of Merck & Co., Inc., West Point, Pa. 19486 (NDA 9-853).

5. Nasal Spray Neo-Hydeltrasol containing 1 milligram prednisolone 21-phosphate (as prednisolone sodium phosphate), 2.5 milligrams phenylephrine hydrochloride, 7.5 milligrams phenylpropanolamine hydrochloride, and 5 milligrams neomycin sulfate (equivalent to 3.5 milligrams neomycin base) per milliliter; Merck Sharp & Dohme, Division of Merck & Co., Inc. (NDA 11-136).

6. Biomydrin-F Nasal Spray with Hydrocortisone containing 0.2 milligram hydrocortisone acetate, 1 milligram neomycin sulfate (equivalent to 0.66 milligram neomycin base), 0.05 milligram gramicidin, 10 milligrams thonzylamine hydrochloride, 2.5 milligrams phenylephrine hydrochloride, and 0.5 milligram thonzonium bromide per milliliter; Warner-Chilcott Laboratories, Division of Warner-Lambert Pharmaceutical Co., 201 Tabor Road, Morris Plains, N.J. 07950 (NDA 9-842).

7. Trisocort Spraypak containing 0.2 milligram hydrocortisone, 5 milligrams hydroxyamphetamine hydrobromide, 1.25 milligrams phenylephrine hydrochloride 0.05 milligram gramicidin, neomycin sulfate (equivalent to 0.6 milligram neomycin base) and polymyxin B sulfate (equivalent to 2000 units polymyxin B) per milliliter; Smith, Kline and French Laboratories, 1500 Spring Graden Street, Philadelphia, Pa. 19101 (NDA 9-538).

8. Biomydrin Antibiotic Nasal Solution, Nasal Spray, and Nasal Drops containing 1 milligram neomycin sulfate (equivalent to 0.66 milligram neomycin base), 0.05 milligram gramicidin, 10 milligrams thonzylamine hydrochloride, 2.5 milligrams phenylephrine hydrochloride, and 0.5 milligram thonzonium bromide per milliliter; Warner-Chilcott Laboratories, Division Warner-Lambert Pharmaceutical Co. (NDA 8-584).

9. Spectrocin Nasal Spray containing neomycin sulfate equivalent to 0.8 milligram neomycin base, 0.05 milligram gramicidin, and 2.5 milligrams phenylephrine hydrochloride per milliliter; E. R. Squibb & Sons, 909 Third Avenue, New York, N.Y. 10022 (ND 8-328).

10. Drilitol Solution and Drilitol Spraypak containing 2 milligrams methapyrilene hydrochloride, 0.05 milligram gramicidin, polymyxin B sulfate equivalent to 500 units polymyxin B, and 10 milligrams hydroxyamphetamine hydrobromide per milliliter; Smith, Kline and French Laboratories (NDA 7-561).

11. Aerodrin Nasal Solution and Aerodrin Nasal Spray containing 5000 units polymyxin B sulfate, 5 milligrams methoxamine hydrochloride, and 5 milligrams neomycin sulfate (equivalent to 3.5 milligrams neomycin base) per milliliter; Burroughs Wellcome and Co. (USA), Inc., 1 Scarsdale Road, Tuckahoe, N.Y. 10707 (NDA 8-715).

The Food and Drug Administration (1) concluded there is a lack of substantial evidence, within the meaning of the Federal Food, Drug and Cosmetic Act, that these drugs are effective as fixed combinations for the uses recommended or suggested in their labeling and that each component of the combination drugs contributes to the total effects claimed for such drugs and (2) stated that the topical use of neomycin in such preparations exposes the patient, without evidence of effectiveness, to the potential risk of sensitization or precipitation of allergic reaction.

The Commissioner announced his intention to initiate proceedings to revoke the antibiotic drug regulations providing for certification or release of the above-listed antibiotic combinations and any other antibiotic drugs in combination with vasconstrictors, decongestants, antihistamines, or steroids for nasal administration in man.

Interested persons who might be adversely affected by removal of these drugs from the market were invited to submit within 30 days after said publication date any pertinent data bearing on the proposal to revoke the antibiotic drug regulations. No data were received in response thereto.

For the listed products, the conditions of certification are described in §§ 141.7, 141.21, 141.28, 141i.40, 141i.42, 141i.43, and 148p.7. In addition §§ 141a.14, 141c.215, 141e.405, 141e.414, 141e.424, 146a.32, 146c.215, 146e.405, 146e.414, 146e.424, 141i.41, 148n.16, and 148r.6 described the conditions for certification of antibiotics in combination with other drugs for nasal use. The data submitted in support of these preparations and similar preparations on release though not evaluated by Academy, have been reviewed by the Food and Drug Administration and have been found to lack substantial evidence of effectiveness.

Accordingly, the Commissioner concludes (1) that the antibiotic drug regulations should be amended to revoke provision for certification or release of such

antibiotic drugs and (2) that all outstanding certificates or releases heretofore issued for such drugs should also be revoked.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1050–51, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under authority delegated to the Commissioner (21 CFR 2.120), Chapter I of Title 21 is amended by revoking §§ 141a.14, 141c.215, 141e.405, 141e.414, 141e.424, 146a.32, 146c.215, 146e.405, 146e.414, 146e.424, 148i.7, 148i.21, 148i.28, 148i.40, 148i.41, 148i.42, 148i.43, 148n.16, 148p.7, and 148r.6, and all antibiotic certificates issued under those regulations are also revoked.

Any person who will be adversely affected by the removal of any such drug from the market may file objections to this order, request a hearing, and show reasonable grounds for the hearing. The statement of reasonable grounds and request for a hearing shall be submitted in writing within 30 days after publication hereof in the FEDERAL REGISTER, shall state the reasons why the antibiotic drug regulations should not be so amended, and shall include a well-organized and full-factual analysis of the clinical and other investigational data the objector is prepared to prove in support of his objections.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing. When it clearly appears from the data incorporated into, or referred to, by the objections and from the factual analysis in the request for a hearing that no genuine issue of fact precludes the action taken by this order, the Commissioner will enter an order on these data, making findings and conclusions on such data.

If a hearing is requested and justified by the objections, the issues will be defined and a hearing examiner named to conduct the hearing. The provisions of Subpart F of 21 CFR Part 2 shall apply to such hearing, except as modified by 21 CFR 146.1(f), and to judicial review in accordance with section 701 (f) and (g) (21 U.S.C. 371 (f) and (g)) of the Federal Food, Drug, and Cosmetic Act.

Objections and requests for a hearing should be filed (preferably in quintuplicate) with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–62, 5600 Fishers Lane, Rockville, Md. 20852. Received objections and requests for a hearing may be seen in the above office during regular business hours, Monday through Friday.

Effective date. This order shall become effective 40 days after its date of publication in the FEDERAL REGISTER. If objections are filed, the effective date will be extended as necessary for time to rule thereon. In so ruling, the Commissioner will specify another effective date and how the outstanding stocks of the affected drugs are to be handled.

(Secs. 502, 507, 52 Stat. 1050–51, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357)

Dated: July 21, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.71-11290 Filed 8-5-71;8:49 am]

PART 141c—CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

Combination Drug Containing Tetracycline With Vasoconstrictor and Hydrocortisone

In the FEDERAL REGISTER of December 24, 1968 (33 F.R. 19204), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration following evaluation of reports from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, regarding the following preparation: Achromycin Nasal Suspension containing tetracycline hydrochloride, hydrocortisone acetate, and phenylephrine hydrochloride; marketed by Lederle Laboratories, Division of American Cyanamid Co., Pearl River, N.Y. 10965.

The Academy evaluated this drug as ineffective as a fixed combination for its labeled indications, having found that documented evidence was unavailable showing that such combination offers advantages over conventional decongestant therapy. The Food and Drug Administration concurred and concluded there is a lack of substantial evidence that each component of the combination makes a contribution to the total effect the drug preparation is purported or represented to have under the conditions of use prescribed, recommended, or suggested in its labeling.

Interested persons who might be adversely affected by removal of the drug from the market were invited to submit, within 30 days after publication of said notice, pertinent data bearing on the proposal to revoke the antibiotic drug regulations providing for certification of the drug. In response, Lederle Laboratories submitted material which has been evaluated and found to contain no new clinical data. Accordingly, the Commissioner concludes that the pertinent regulations should be revoked and that all outstanding certificates heretofore issued for such drug should also be revoked.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1050–51, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under authority delegated to the Commisioner (21 CFR 2.120), Parts 141c and 146c are amended by revoking § 141c.226 *Tetracycline and vasoconstrictor suspension* and § 146c.226 *Tetracycline and vasoconstrictor suspension; tetracycline and _____ (the blank being filled in with the established name of the vasoconstrictor) suspension.* All antibiotic certificates issued under these regulations are also revoked.

Any person who will be adversely affected by removal of any such drug from the market may file objections to this order, request a hearing, and show reasonable grounds for the hearing. The statement of reasonable grounds and request for a hearing shall be submitted in writing within 30 days after publication hereof in the FEDERAL REGISTER, shall state the reasons why the antibiotic drug regulations should not be so amended, and shall include a well-organized and full-factual analysis of the clinical and other investigational data the objector is prepared to prove in support of his objections.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing. When it clearly appears from the data incorporated into or referred to by the objections and from the factual analysis in the request for a hearing that no genuine issue of fact precludes the action taken by this order, the Commissioner will enter an order on these data, making findings and conclusions on such data.

If a hearing is requested and justified by the objections, the issues will be defined and a hearing examiner named to conduct the hearing. The provisions of Subpart F of 21 CFR Part 2 shall apply to such hearing, except as modified by 21 CFR 146.1(f), and to judicial review in accord with sections 701 (f) and (g) of the Federal Food, Drug, and Cosmetic Act (35 F.R. 7250, May 8, 1970).

Objections and requests for a hearing should be filed (preferably in quintuplicate) with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–62, 5600 Fishers Lane, Rockville, Md. 20852. Received objections and requests for a hearing may be seen in the above office during regular business hours, Monday through Friday.

Effective date. This order shall become effective 40 days after its date of publication in the FEDERAL REGISTER. If objections are filed, the effective date will be extended for such period of time necessary to rule thereon. In so ruling, the Commissioner will specify another effective date and how the outstanding stocks of the affected drugs are to be handled.

(Secs. 502, 507, 52 Stat. 1050–51, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357)

Dated: July 21, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.71-11291 Filed 8-5-71;8:50 am]

Chapter III—Environmental Protection Agency

PART 420—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Acetic Acid and Propionic Acid

A petition (PP 1F1143) was filed by Celanese Chemical Co., 245 Park Avenue, New York, NY 10017, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act as amended (21 U.S.C. 346a), proposing establishment of tolerances for residues of the fungicides acetic acid at 14,000 parts per million and propionic acid at 6,000 parts per million in or on the raw agricultural commodities grains of barley, corn, oats, sorghum, and wheat from postharvest application. Subsequently, the petitioner amended the proposed tolerances to 12,000 parts per million for acetic acid and 8,000 parts per million for propionic acid.

Part 120, Chapter I, Title 21 was redesignated Part 420 and transferred to Chapter III (36 F.R. 424).

Based on consideration given data submitted in the petition and other relevant material, it is concluded that:

1. The pesticides are useful for the purpose for which the tolerances are being established.

2. The proposed usage is not reasonably expected to result in residues of the intact acids in eggs, meat, milk, and poultry.

3. The tolerances established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs of the Environmental Protection Agency (36 F.R. 9038), Part 420 is amended by adding the following two new sections to Subpart C:

§ 420.303 Acetic acid; tolerances for residues.

Tolerances are established for residues of the fungicide propionic acid in or on the grains of barley, corn, oats, sorghum, and wheat at 12,000 parts per million from postharvest application. These grains are for use only as animal feeds.

§ 420.304 Propionic acid; tolerances for residues.

Tolerances are established for residues of the fungicide propionic acid in or on the grains of barley, corn, oats, sorghum, and wheat at 8,000 parts per million from postharvest application. These grains are for use only as animal feeds.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, 1626 K Street NW., Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (8–6–71).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: July 30, 1971.

LOWELL E. MILLER,
Acting Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.71-11259 Filed 8-5-71;8:47 am]

PART 420—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Triphenyltin Hydroxide

A petition (PP 8F0700) was filed by Thompson-Hayward Chemical Co., Post Office Box 2383, Kansas City, KS 66110, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of a tolerance for negligible residues of the fungicide triphenyltin hydroxide in or on the raw agricultural commodity peanuts at 0.05 part per million.

Subsequently, the petitioner amended the petition by proposing additional tolerances at 0.05 part per million for negligible residues of triphenyltin hydroxide in the kidney and liver of cattle, goats, hogs, horses, and sheep and a food additive tolerance of 0.4 part per million for residues of triphenyltin hydroxide in or on peanut hulls.

Prior to December 2, 1970, the Secretary of Agriculture certified that this fungicide is useful for the purposes for which tolerances are being established, and the Fish and Wildlife Service of the Department of the Interior advised that it has no objection to the tolerances.

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The proposed usage is not reasonably expected to result in residues of the fungicide in eggs, meat (except kidney and liver of cattle, goats, hogs, horses, and sheep), milk and poultry. The uses are classified in the category specified in section 420.6(a)(3), except as noted for kidney and liver, for which tolerances are being established.

2. A tolerance of 0.4 part per million under section 408 rather than under section 409 is appropriate for residues in or on peanut hulls.

3. The tolerances established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2) 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs of the Environmental Protection Agency (36 F.R. 9038), Section 420.236 is revised to read as follows:

§ 420.236 Triphenyltin hydroxide; tolerances for residues.

Tolerances are established for residues of the fungicide triphenyltin hydroxide in or on raw agricultural commodities as follows:

0.4 part per million in or on peanut hulls.

0.1 part per million (negligible residue) in or on sugar beets (but not tops).

0.05 part per million (negligible residue) in or on pecans, peanuts, and potatoes.

0.05 part per million (negligible residue) in the kidney and liver of cattle, goats, hogs, horses, and sheep.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, 1626 K Street NW., Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (8–6–71).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: July 30, 1971.

LOWELL E. MILLER,
Acting Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.71-11305 Filed 8-5-71;8:51 am]

PART 420—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

N-(Mercaptomethyl)phthalimide S-(O,O-Dimethyl Phosphorodithioate)

A petition (PP 0F0978) was filed by Stauffer Chemical Co., 1200 South 47th

Street, Richmond, CA 94804, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act as amended (21 U.S.C. 346a), proposing establishment of a tolerance for residues of the insecticide *N* - (mercaptomethyl) phthalimide *S* - (*O,O* - dimethyl phosphorodithioate and its oxygen analog *N*-(mercaptomethyl) -phthalimide *S*-(*O,O* - dimethyl phosphorothioate) in or on the raw agricultural commodity potatoes at 0.1 part per million (negligible residue).

Part 120, Chapter I, Title 21 was redesignated Part 420 and transferred to Chapter III (36 F.R. 424). The Fish and Wildlife Service of the Department of the Interior advised that it has no objection to the tolerance.

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The pesticide is useful for the purpose for which the tolerance is being established.

2. The proposed usage on potatoes is not reasonably expected to result in residues of the insecticide in eggs, meat, milk, and poultry. The usage is classified in the category specified in § 420.6 (a)(3). The proposed usage would not add any residue to that resulting in meat and fat of meat of cattle, goats, hogs, and sheep from previously established uses.

3. The tolerance established by this order will protect the public health but is not considered a negligible residue.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs of the Environmental Protection Agency (36 F.R. 9038), § 420.261 is amended by inserting the following paragraph after paragraph "0.2 part per million • • •":

§ 420.261 *N*-(Mercaptomethyl)phthalimide *S*-(*O,O*-dimethyl phosphorodithioate) and its oxygen analog; tolerances for residues.

• • • • •

0.1 part per million in or on potatoes.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, 1626 K Street NW., Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objection. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (8–6–71).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: July 30, 1971.

LOWELL E. MILLER,
Acting Deputy, Assistant Administrator for Pesticides Programs.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Part 52]

CANNED RED TART PITTED CHERRIES

Proposed Standards for Grades [1]

Notice is hereby given that the U.S. Department of Agriculture is considering an amendment to the U.S. Standards for Grades of Canned Red Tart Pitted Cherries (7 CFR 52.771–52.783). These grade standards are issued under authority of the Agricultural Marketing Act of 1946 (sec. 205, 60 Stat. 1090 as amended; 7 U.S.C. 1624) which provides for the issuance of official U.S. Grades to designate different levels of quality for the voluntary use by producers, buyers, and consumers. Official grading services are also provided under this Act upon request and upon payment of a fee to cover cost of such services. All persons who desire to submit written views, data, or arguments for consideration in connection with the proposed amendment should file the same in duplicate, not later than December 31, 1971, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250. All written submissions made pursuant to this notice will be available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR, 1.27(b)).

Statement of consideration leading to the proposed amendment. A request was made by the Michigan Canners and Freezers Association to the U.S. Department of Agriculture asking that a field study be conducted to determine if need existed to adjust the minimum drained weight (No. 10 size containers, water pack) recommended in the USDA grade standards.

It was suggested that modern growing and packing practices—including larger and softer fruit, mechanical harvesting, shorter water soaking, rapid filling operations, higher temperatures, and continuous cookers—made it increasingly difficult to meet the drained weight now recommended for this size can. It was also suggested that overfilling containers in order to attain the recommended drained weight only increased the number of crushed cherries. Such crushed cherries do not return to plump and full cherries after remanufacture and are objected to by users of these cherries, principally pie makers.

A USDA sponsored study was carried out during the 1970 packing season. This study included the influences of controlled fill weights on subsequent drained weights as well as process capability with respect to attainable drained weights.

Analyses of the data collected indicate that a downward adjustment of recommended minimum drained weight from 74.0 ounces (sample average) for No. 10 size containers is justified and that the lower drained weight sample average would not result in underfilled containers.

The study and the data also suggest that the entire problem of proper fill of container might ultimately be better resolved by the use of a statistically sound fill weight procedure and/or drained weight procedure involving statistically sound limits.

In consideration of the results of the study the Department now proposes amendments to the U.S. Standards for Grades of Canned Red Tart Pitted Cherries which include both fill weight and drained weight procedures.

Preparation is needed for putting the proposed procedures into effect. Therefore a period until December 31, 1971, is allowed for study and comment by interested persons.

The proposed amendment is as follows:

1. In the table of contents—the second center heading would be changed to read, "Liquid Media, Fill of Container, Drained Weights, and Fill Weights", and the title of § 52.775 would be changed to read "Recommended drained weights and recommended fill weights".

2. In the text—§ 52.775 would be revised to read:

§ 52.775 Recommended minimum drained weights and recommended fill weights.

(a) *Recommended drained weights.* (1) *General.* The minimum drained weight recommendations for the various container sizes and types of packing media in Table No. 1 are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purposes of these grades.

(2) *Method for ascertaining drained weight.* The drained weight of canned red tart pitted cherries is determined by emptying the contents of the container upon a U.S. Standards No. 8 circular sieve of proper diameter containing 8 meshes to the inch (0.0937 inch ±3 percent, square openings) so as to distribute the product evenly. Without shifting the product, incline the sieve to about 17 to 20 degrees angle to facilitate drainage and allow to drain for 2 minutes. The drained weight is the weight of the sieve and cherries less the weight of the dry sieve. A sieve 8 inches in diameter is used for the equivalent of No. 3 size cans (404 x 414) and smaller, and a sieve 12 inches in diameter is used for containers larger than the equivalent of the No. 3 size can.

(3) *Compliance with recommended drained weights.* A lot of canned red tart pitted cherries is considered as meeting the minimum drained weight recommendations if the following criteria are met:

(i) The average of the drained weights from all the sample units in the sample meets the recommended average drained weight (designated as "Avg." in Table No. I); and

(ii) The number of sample units which fail to meet the recommended minimum drained weight for individuals (designated as "Indv." in Table No. I) does not exceed the applicable acceptance number specified in Table No. I (a).

(b) *Recommended fill weights.* (1) *General.* The minimum fill weight recommendations for the various container sizes in Table No. I (b) are not incorporated in the grades of the finished product since fill weight, as such, is not a factor of quality for the purpose of these grades.

(2) *Method for ascertaining fill weight.* The fill weight of canned red tart pitted cherries is determined in accordance with the U.S. Department of Agriculture's procedures for determining fill weights as applicable to processed fruits and vegetables.

(3) *Definitions of terms and symbols.* "Subgroup" means a group of sample units representing a portion of a sample.

$\overline{X}_{min}$ means the minimum lot average fill weight.

$LWL_{\overline{X}}$ means the lower warning limit of subgroup averages.

$LRI_{\overline{X}}$ means the lower reject limit for subgroup averages.

LWL means the lower warning limit for individual fill weight measurements.

LRL means the lower reject limit for individual fill weight measurements.

$\overline{R}$ means a specified average range value.

R_{max} means a specified maximum range for subgroup.

(d) *Subgroup size.* The subgroup size for the determination of fill weights shall be 5 sample units.

(5) *Sampling frequency.* (i) A shift of 5 hours or less. Draw at least one subgroup per code approximately every 40 minutes.

(ii) A shift of more than 5 hours. Draw at least one subgroup per code approximately every 50 minutes.

(iii) A shift of unknown length. Draw at least one subgroup per code approximately every 45 minutes.

(6) *Compliance with recommended fill weights.* Compliance with the recommended fill weights for canned red tart pitted cherries shall be in accordance with the acceptance criteria specified in the U.S. Department of Agriculture's "Variable Control Chart Plan" as applicable to processed fruits and vegetables and related products.

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

TABLE NO. I—RECOMMENDED MINIMUM DRAINED WEIGHTS FOR CANNED RED TART PITTED CHERRIES

Containers size or designation	Packed in water		Packed in sirup or slightly sweetened water	
	Individual [1]	Average [2]	Individual [1]	Average [2]

[7 CFR Part 52]

FROZEN CRANBERRIES

Proposed Standards for Grades [1]

Notice is hereby given that the U.S. Department of Agriculture is considering the issuance of U.S. Standards for Grades of Frozen Cranberries. This new grade standard would be issued under authority of the Agricultural Marketing Act of 1946 (sec. 205, 60 Stat. 1090, as amended 7 U.S.C. 1624), which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers, and consumers. Official grading services are also provided under this Act upon request and upon payment of a fee to cover the cost of such service.

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same in duplicate not later than 30 days after publication hereof in the FEDERAL REGISTER, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250. All written submittals made pursuant to this notice will be available for public review at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Statement of consideration leading to the proposed standards. There is, at present, no U.S. Standards for Grades of Frozen Cranberries.

The Cranberry Institute, representing a large portion of the cranberry industry, requested that the Department establish U.S. Standards for Grades of Frozen Cranberries.

Available information indicates that approximately one-half of the current cranberry production is stored, moved, and used in the frozen state. The percentage of the cranberry pack that is frozen has increased from approximately one-fourth to approximately one-half in the last 3 years.

The Department agrees that it would be appropriate to establish U.S. Standards for Grades of Frozen Cranberries, to facilitate the marketing of this product.

The standard as here proposed would cover three quality grades above Substandard: U.S. Grade A (or U.S. Fancy) and U.S. Grade B (or U.S. Choice) and U.S. Grade C (or U.S. Standard).

The following quality factors would be rated on a scoring system: Color, Defects, and Character.

The proposed standards are as follows:

PRODUCT DESCRIPTION AND GRADES

Sec.
52.6281 Product description.
52.6282 Grades of frozen cranberries.

SAMPLE UNIT SIZE

52.6283 Sample unit size.

FACTORS OF QUALITY

52.6284 Ascertaining the grade of a sample unit.
52.6285 Ascertaining the rating for the factors which are scored.
52.6286 Color.
52.6287 Defects.
52.6288 Character.

LOT COMPLIANCE

52.6289 Ascertaining the grade of a lot.

SCORE SHEET

52.6290 Score sheet for frozen cranberries.

AUTHORITY: The provisions of this subpart issued under sec. 205, 60 Stat. 1090, as amended, 7 U.S.C. 1624.

PRODUCT DESCRIPTION AND GRADES

§ 52.6281 Product description.

Frozen cranberries is the product prepared from the sound, mature berries of the commonly cultivated American cranberry plant. The product is prepared by sorting and cleaning to assure a wholesome product. The prepared product is frozen and stored at temperatures necessary for preservation.

§ 52.6282 Grades of frozen cranberries.

(a) "U.S. Grade A" or "U.S. Fancy" is the quality of frozen cranberries that:

(1) Possess a good color;

(2) Are practically free from defects;

(3) Possess a good character;

(4) Possess a normal flavor and odor;

(5) Are of similar varietal characteristics;

(6) Have no grit or silt present that affects the appearance or edibility of the product; and that score not less than 90 points when scored in accordance with the scoring system outlined in this subpart. Frozen cranberries of this grade may contain not more than 5 percent, by count, of berries that are less than thirteen thirty-seconds of an inch in diameter.

(b) "U.S. Grade B" or "U.S. Choice" is the quality of frozen cranberries that:

(1) Possess a reasonably good color;

(2) Are reasonably free from defects;

(3) Possess a reasonably good character;

(4) Possess a normal flavor and odor;

(5) Are of similar varietal characteristics;

(6) Have no grit or silt present that affects the appearance or edibility of the product; and that score not less than 80 points when scored in accordance with the scoring system outlined in this subpart. Frozen cranberries of this grade may contain not more than 5 percent, by count, of berries that are less than nine thirty-seconds of a inch in diameter.

(c) "U.S. Grade C" or "U.S. Standard" is the quality of frozen cranberries that:

(1) Possess a fairly good color;

(2) Are fairly free from defects;

(3) Possess a fairly good character;

(4) Possess a normal flavor and odor;

(5) Have not more than a trace of grit or silt present that slightly affects the appearance or edibility of the product; and that score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(d) "Substandard" is the quality of frozen cranberries that fail to meet the requirements of "U.S. Grade C".

SAMPLE UNIT SIZE

§ 52.6283 Sample unit size.

For purposes of evaluating quality factors, the sample unit size is 12 ounces of cranberries.

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

FACTORS OF QUALITY

§ 52.6284 Ascertaining the grade of a sample unit.

(a) *General.* The factors of color, defects, and character shall be evaluated immediately after the product is thawed.

(b) *Factors not rated by score points.*

(1) Flavor and odor.

(2) Size.

(c) *Definitions.* (1) "Normal flavor and odor" means that the product is free from objectionable flavors and objectionable odors of any kind.

(2) "Diameter" means the greatest dimension measured at right angles to a line from stem to blossom end of the berry.

(d) *Factors rated by score points.* The relative importance of each scoreable factor is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

	Points
Color	50
Defects	30
Character	20
Total score	100

§ 52.6285 Ascertaining the rating for the factors which are scored.

The essential variations, within each scoreable factor, are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "45 to 50 points" means, 45, 46, 47, 48, 49, or 50 points).

§ 52.6286 Color.

(a) *General.* The color of frozen cranberries refers to:

(1) The characteristic color, the varying degrees of dark red, red, pink, light pink, tan, yellowish green, and green areas of the outer surface of the individual cranberry; and

(2) The uniformity of the individual sample unit when viewed as a mass.

(b) *Definitions.* (1) "Well colored" means that 90 percent or more of the surface of the individual cranberry is a pink or red color characteristic of the variety.

(2) "Fairly well colored" means that 75 percent or more of the surface of the individual cranberry is a pink or red color characteristic of the variety.

(3) "Poorly colored" means that less than 75 percent of the surface of the individual cranberry is a pink or red color characteristic of the variety, provided it has some pink or red color.

(4) "Uncolored" means the surface of the individual cranberry is light yellow to light green and possesses no area of pink or red color.

(c) *(A) classification.* Frozen cranberries that possess a good color may be given a score of 45 to 50 points. "Good color" means that (1) color variation within the sample unit does not more than slightly affect the appearance and (2) the individual cranberries are well colored, except that the number of fairly well colored and poorly colored cranberries in the sample unit does not exceed 15 (fifteen) of which not more than 3 (three) may be poorly colored and none of the cranberries are uncolored.

(d) *(B) classification.* Frozen cranberries that possess a reasonably good color may be given a score of 40 to 44 points. "Reasonably good color" means that (1) color variation within the sample unit does not materially affect the appearance and (2) the individual cranberries are well colored, except that the number of fairly well colored and poorly colored and uncolored cranberries in the sample unit does not exceed 30 of which not more than 10 may be poorly colored and 5 may be uncolored. Frozen cranberries that fall into this classification shall not be graded above U.S. Grade B regardless of the total score for the product (this is a limiting rule).

(e) *(C) classification.* Frozen cranberries that possess a fairly good color may be given a score of 35 to 39 points. "Fairly good color" means that (1) color variation within the sample unit does not seriously affect the appearance and (2) the individual cranberries are fairly well colored, except that the number of poorly colored and uncolored cranberries in the sample unit does not exceed 60. Frozen cranberries that fall into this classification shall not be graded above U.S. Grade C regardless of the total score for the product (this is a limiting rule).

(f) *(SStd) classification.* Frozen cranberries that fail to meet the requirements for U.S. Grade C may be given a score of 0 to 34 points and shall not be graded above substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.6287 Defects.

(a) *General.* The factor of defects refers to the degree of freedom from harmless extraneous material, fine stems, minor blemishes, and major blemishes, and from any other defects which affect the appearance or edibility of the product.

(b) *Definitions.* (1) "Harmless extraneous material" means vegetable material such as vines and leaves that is part of the cranberry plant or its immediate environment and that may be reasonably expected to become incorporated in the frozen product.

(2) "Minor blemish" means damage such as discoloration or damage caused by sunscald, pathological, mechanical, or other means which exceeds the area of a circle one-eighth inch in diameter or which slightly affects the appearance or edibility of the individual cranberry.

(3) "Major blemish" means damage such as discoloration or damage caused by sunscald, pathological, mechanical, or other means which exceeds the area of a circle one-quarter inch in diameter or which materially affects the appearance or edibility of the individual cranberry.

(c) *(A) classification.* Frozen cranberries that are practically free from defects may be given a score of 27 to 30 points. "Practically free from defects" means that in the sample unit there may be present: (1) Not more than one-eighth square inch of harmless extraneous material; (2) not more than a total of 15 major and minor blemishes, including no more than 7 that may be major blemishes; and (3) not more than 4 fine stems three-quarter inch or more in length. Notwithstanding the foregoing allowances, any defect(s) that may be present, singly or in combination, whether or not specifically mentioned, does not more than slightly affect the appearance or edibility of the product.

(d) *(B) classification.* Frozen cranberries that are reasonably free from defects may be given a score of 24 to 26 points. "Reasonably free from defects" means that in the sample unit there may be present: (1) Not more than one-fourth square inch of harmless extraneous material; (2) not more than a total of 25 major and minor blemishes, including no more than 10 that may be major blemishes; and (3) not more than 4 fine stems three-fourths inch or more in length. Notwithstanding the foregoing allowances, any defect(s) that may be present, singly or in combination, whether or not specifically mentioned, does not materially affect the appearance or edibility of the product. Frozen cranberries that fall into this classification shall not be graded above U.S. Grade B regardless of the total score for the product (this is a limiting rule).

(e) *(C) classification.* Frozen cranberries that are fairly free from defects may be given a score of 21 to 23 points. "Fairly free from defects" means that in the sample unit there may be present: (1) Not more than one-half square inch of harmless extraneous material; and (2) not more than a total of 35 major and minor blemishes, including no more than 15 that may be major blemishes. Notwithstanding the foregoing allowances, any defect(s) that may be present, singly or in combination, whether or not specifically mentioned, does not seriously affect the appearance or edibility of the product. Frozen cranberries that fall into this classification shall not be graded above U.S. Grade C regardless of the total score for the product (this is a limiting rule).

(f) *(SStd) classification.* Frozen cranberries that fail to meet the requirements for U.S. Grade C may be given a score of 0 to 22 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.6288 Character.

(a) *(A) classification.* Frozen cranberries that possess good character may be given a score of 18 to 20 points. "Good character" means that the cranberries may be slightly soft to moderately firm with not more than 10 cranberries in the sample unit that are mushy or hard.

(b) *(B) classification.* Frozen cranberries that possess reasonably good character may be given a score of 16 or

17 points. "Reasonably good character" means that the cranberries may be slightly soft to moderately firm with not more than 20 cranberries in the sample unit that may be mushy or hard. Frozen cranberries that fall into this classification shall not be graded above U.S. Grade B regardless of the total score for the product (this is a limiting rule).

(c) (C) *classification.* Frozen cranberries that possess fairly good character may be given a score of 14 or 15 points. "Fairly good character" means that the cranberries may be very soft to very firm with not more than 60 cranberries in the sample unit that are mushy or hard. Frozen cranberries that fall into this classification shall not be graded above U.S. Grade C regardless of the total score for the product (this is a limiting rule).

(d) (*SStd*) *classification.* Frozen cranberries that fail to meet the requirements for U.S. Grade C may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

LOT COMPLIANCE

§ 52.6289 Ascertaining the grade of a lot.

The grade of a lot of frozen cranberries covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 to 52.87).

MILK IN THE MINNEAPOLIS-ST. PAUL AND SOUTHEASTERN MINNESOTA-NORTHERN IOWA (DAIRYLAND) MARKETING AREAS

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreements and Orders

Notice is hereby given of a public hearing to be held in the Sapphire Room of the Radisson South, 7800 Normandale Boulevard, Bloomington, MN, beginning at 10 a.m., local time, on August 17, 1971, with respect to proposed amendments to the tentative marketing agreements and to the orders, regulating the handling of milk in the Minneapolis-St. Paul and Southeastern Minnesota-Northern Iowa (Dairyland) marketing areas.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions in each of the aforesaid marketing areas which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreements and to the orders.

Evidence also will be taken to determine whether emergency marketing conditions exist that would warrant omission of a recommended decision under the rules of practice and procedure (7 CFR Part 900.12(d)) with respect to proposal No. 2.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposals to Amend the Minneapolis-St. Paul Order Proposed by M-W Association:

Proposal No. 1. Review and adjust the rate charged pursuant to § 1068.92 by deleting the word "four-tenths" and replacing it with "three-fourths".

Proposal No. 1. Review and adjust the performance requirements for supply plants in § 1068.9(b) by deleting in the first proviso the month of "August" and adding the month of "November", and by deleting the figure "40 percent" and substituting the figure "30 percent".

Proposal No. 3. Provide for diversions from pool plants by adding a new section entitled "Diverted milk." to read as follows:

Diverted milk. "Diverted milk" means for any month, milk produced by a dairy farmer which a handler pursuant to § 1068.13 caused to be moved from the farm to a nonpool plant if such milk is claimed to be producer milk and the conditions of paragraphs (a) and (b) are met.

(a) During the months of September, October, and November, a cooperative association handler may divert for its account 10 percent of its total receipts provided that a minimum of three deliveries per month from each producer member are delivered to a pool plant. During the months of December through August such handler may divert as producer milk 25 percent of its total receipts to a nonpool plant with the same proviso as listed in this sub-section above.

(b) If milk receipts from dairy farmers are diverted in excess of the quantities allowed pursuant to paragraph (a) of this section, the diverting handler shall specify the dairy farmers whose milk was overdiverted. If the diverting handler does not specify the dairy farmers whose milk was overdiverted, only the milk of dairy farmers which is received at a pool plant during the month shall be producer milk for such month.

Proposal No. 4. Amend § 1068.44 by deleting § 1068.44(d) which concerns mileage limitations on transfer of milk to a nonpool plant.

Proposed by Mid-America Dairymen, Inc.:

Proposal No. 5. Change the location differentials in §§ 1068.55 and 1068.82 as follows:

Location of plant (miles)	*Amount of deduction (cents)*
Less than 40	0
40 but less than 50	6.0
50 but less than 60	7.5
60 but less than 70	9.0
Each additional 10 miles or fraction thereof in excess of 70 miles, an additional	1.5

Proposals to Amend the Southeastern Minnesota-Northern Iowa (Dairyland) Order Proposed by Associated Milk Producers, Inc.:

Proposal No. 6. Amend § 1061-11(a)(2) by changing the figures "15" and "20" percent contained therein to "30" and "40" percent, respectively.

Proposal No. 7. Amend § 1061.11(b) by changing "15" percent contained therein to "30" percent.

Proposal No. 8. In § 1061.11(b), insert betweeen the words "to" and "pool" on the fifth line the words "and physically unloaded into".

Proposal No. 9. In § 1061.11(b), add subparagraph (3) to read as follows:

(3) For the purpose of determining the percentage specified in the introductory paragraph the quantity of fluid milk products moved shall be a net quantity assignable at pool distributing plants computed by subtracting from the quantity of fluid milk products received from a supply plant, but not to exceed such quantity, the amounts described in subdivisions (i) and (ii) of this subparagraph. If fluid milk products are received from more than one supply plant such net quantity assignable shall be prorated among such supply plants in accordance with the total receipts from such plants.

(i) The quantity of bulk milk and skim milk transferred from the distributing plant to pool supply plants plus any such bulk shipments to nonpool plants as Class II milk on the day of and the day following the date of the receipt from the supply plant.

(ii) If milk is diverted from the distributing plant on the date of the receipt from the supply plant, the quantity so diverted, except any diversion of milk (not to exceed 3 days' production of any individual producer) made because of any emergency situation such as a breakdown of trucking equipment or hazardous road conditions shall not be subtracted if such emergency is reported to the market administrator.

Proposal No. 10. Delete old language in § 1061.30(a)(3) and insert:

(3) Fluid milk products physically received from other pool plants, including a separate statement of the net receipts from each supply plant computed pursuant to § 1061.11(b)(3), except during the months of February through August no such separate statement need be made if receipts from supply plants are from only plants that were pool plants during the prior months of September through November.

Proposed by the Dairy Division, Consumer and Marketing Service:

Proposal No. 11. In § 1068.46(a)(6) change the reference (3)(i) to (4)(i).

Proposal No. 12. Delete handlers from the pool computation only if they have not paid the market administrator. (Order No. 68.)

Proposal No. 13. Eliminate the possibility of double charge on milk moving from a pool plant to an unregulated supply plant and then to a pool plant. (Order No. 68.)

Proposal No. 14. Make such changes as may be necessary to make the entire marketing agreements and orders for each market conform with any amendments that may result from this hearing.

Copies of this notice of hearing and the order may be procured from Market Administrator, Sanford A. Balgaard, 7703 Normandale Road, Room 100, Minneapolis, MN 55435; Market Administrator, John B. Rosenbury, 909 Sixth Street NW, Rochester, MN 55901; or from the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250 or may be there inspected.

Signed at Washington, D.C., on August 2, 1971.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

Food and Drug Administration

[21 CFR Parts 146a, 146e]

ANTIBIOTIC DRUGS

Proposed Revocation of Exemption From Certification for Certain Penicillin and Bacitracin Drugs

Certification of antibiotics was established in 1945 when section 507 of the Federal Food, Drug, and Cosmetic Act was added. This section included a provision by which antibiotics could be exempted from batch certification when such certification is shown to be unnecessary.

The Drug Amendments of 1962 (Public Law 87-781) provided several amendments to the existing antibiotic drug section of the act. Among these amendments were expanded considerations to be used in determining whether or not an antibiotic drug or class of antibiotic drugs is suitable to be exempted from the requirement of certification. The legislative history makes it clear that Congress has given the Food and Drug Administration a mandate to carefully consider the past performance with respect to analysis in determining whether or not batches of antibiotics have consistently met the certification requirements and whether or not manufacturers of such antibiotics could be continually expected to meet certification requirements.

During the early 1950's crystalline penicillin G for injection, buffered crystalline penicillin G for injection, and bacitracin ointment were exempted from certification on the basis that these products, at that time, met the requirements for an exemption from certification.

During the past several years, the Food and Drug Administration has accumulated data showing that some batches of penicillin currently exempt from certification have been found to be nonsterile and otherwise defective. Some of these batches have been implicated by adverse reactions in humans. In addition, many batches of bacitracin ointment analyzed by the Food and Drug Administration have been found to be subpotent.

Since these problems of nonsterile, subpotent, and otherwise defective batches may be developing into a continuing pattern, the Commissioner of Food and Drugs proposes to amend the existing antibiotic drug regulations in the public interest by deleting the exemption from certification of certain antibiotic drugs.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes to amend Parts 146a and 146e of the antibiotic drug regulations as follows:

1. By revoking paragraph (f) from § 146a.24 *Sodium penicillin* • • •.

2. By revoking paragraph (f) from § 146a.37 *Buffered crystalline penicillin.*

3. By revoking paragraph (f) from § 146e.402 *Bacitracin ointment; zinc bacitracin ointment.*

Interested persons may, within 30 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: July 26, 1971.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

[FR Doc.71-11288 Filed 8-5-71;8:49 am]

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[49 CFR Part 393]

[Docket No. MC-9; Notice No. 71-17]

COUPLING DEVICES AND TOWING METHODS

Notice of Proposed Rule Making

The Director of the Bureau of Motor Carrier Safety is considering a revision of § 393.70 of the Motor Carrier Safety Regulations, dealing with coupling and towing of articulated vehicles (other than vehicles used in driveaway-towaway operations), and an amendment to § 393.71 of the Motor Carrier Safety Regulations, which would update and clarify a reference to the Society of Automotive Engineers' Standard on trailer couplings for driveaway-towaway operations of passenger car trailers.

These proposals arise out of an advance notice of proposed rule making which the Federal Highway Administrator issued in Docket No. MC-9 on January 17, 1969 (34 F.R. 1056). Entitled "Coupling Systems," the advance notice dealt with a broad range of proposals for rulemaking in the area of connections between towed vehicles and towing vehicles. While the advance notice was outstanding, two rulemaking proceedings dealing with Air Brake Line Coupler and Electrical Connectors, instituted under the authority of the National Traffic and Motor Vehicle Safety Act of 1966, were also being conducted. Those proceedings involved Dockets Nos. 70-18 and 69-25

of the National Highway Traffic Safety Administration. Comments filed in the NHTSA dockets have been studied by the Bureau of Motor Carrier Safety. In addition, the Bureau has, of course, given careful consideration to the comments in response to its own advance notice.

The Director has concluded that wide-ranging rulemaking action in the area of truck- and truck tractor-to-trailer- air and electrical couplings is not appropriate at the present time. However, he has also concluded that the time is ripe for action on a narrower set of changes to improve the existing regulations governing coupling systems of combination vehicles.

This notice proposes a reorganization of the rules presently found in § 393.70 of the Motor Carrier Safety Regulations, in order to make them more easily comprehensible and to make the format of the section more logical. Hence, a large number of editorial revisions is proposed, and renumbering of the paragraphs within the section will also be considered. The principal substantive changes under consideration are as follows:

1. The material now found in § 393.70 (a) would be revised to recognize the fact that modern and sound practices of mounting fifth wheels discourage the use of U-bolt mountings because they may cause frame damage. Although U-bolt mounting systems are no longer generally recommended, the Director does not propose to prohibit them, so long as they are installed in such a way as to provide adequate strength and security and do not cause cracking, warping, or deformation of the frame. (Society of Automotive Engineers' publication SP-354, "Parameters for Proposed Fifth Wheel Coupler Installation Practices," describes preferred fifth wheel mounting systems and sets forth criteria for their proper installation. It is a recommended guide to sound practice.)

2. The Director is proposing that fifth wheels, king pins, and coupling devices for towing full trailers manufactured after January 1, 1973 must be visibly and permanently marked with the maximum gross load rating of the manufacturer of the device. The purpose of the marking requirement is threefold. First, it will serve as the manufacturer's certification that the towing device can, in normal operation, tow any weight that does not exceed the rated maximum gross load. Second, the marking will provide users with information upon which they can base their choices of towing devices that will be adequate for whatever loads they may tow, both now and in the future. Finally, the marking requirement will help insure that adequate towing devices will be used on combination vehicles operating on public highways. To achieve this last objective, the Director is proposing to prohibit a career operating a vehicle manufactured after January 1, 1973 from towing a gross weight greater than the maximum load rating of the coupler installed on the vehicle.

3. The Director is proposing to require that fifth wheel king pins manufactured after January 1, 1973 must meet the dimensional, performance, and positioning requirements set forth in section 2.1 of the Truck Trailer Manufacturers Association Recommended Practice RP No. 6(68)-69, "Trailer Hitches and Connections". The purpose of this proposal is to insure that minimum requirements for king pin strength are met and to encourage the safe coupling of truck tractors to semitrailers and converter dollies by providing for proper installation and uniform location of king pins.

4. To promote greater safety in case of tow-bar failure or disconnection, the Director proposes to eliminate the provision for any attachment of safety devices to a pintle hook manufactured after January 1, 1973.

5. As noted above, the proposal would update requirements for trailer couplings used in driveaway-towaway operations of passenger car trailers by adopting the rules found in Society of Engineers Standard No. J684c, as revised in July 1970.

In consideration of the foregoing, the Director, Bureau of Motor Carrier Safety, proposes to revise § 393.70 and to amend § 393.71 of the Motor Carrier Safety Regulations (Subchapter B of Chapter III in Title 49, CFR) as set forth below.

Interested persons are invited to submit written data, views, or arguments pertaining to the proposals. Comments must identify the docket number and notice number set forth above and must be submitted in three copies to the Director, Bureau of Motor Carrier Safety, Washington, D.C. 20591. All comments received before the close of business on November 15, 1971 will be considered before further action is taken. All comments will be available for examination in the public docket of the Bureau of Motor Carrier Safety, Room 4136, 400 Seventh Street SW., Washington, DC, before and after the closing date for comments.

This notice of proposed rule making is issued under the authority of section 204 of the Interstate Commerce Act, as amended, 49 U.S.C. 304, section 6 of the Department of Transportation Act, 49 U.S.C. 1655, and the delegations of authority at 49 CFR 1.48 and 389.4.

Issued on July 30, 1971.

ROBERT A. KAYE,
Director,
Bureau of Motor Carrier Safety.

I. Section 393.70 of the Motor Carrier Safety Regulations would be revised to read as follows:

§ 393.70 Coupling devices and towing methods, except for driveaway-towaway operations.

(a) *All coupling systems.*—(1) *Tracking.* When two or more vehicles are operated in combination, the coupling devices connecting the vehicles shall be designed, constructed, and installed, and the vehicles shall be designed and constructed, so that each towed vehicle will follow in the path of the vehicle that tows it. When the combination is operated in a straight line on a level, smooth, paved surface, the track of the towed vehicle must not deviate more than 3 inches to either side of the track of the vehicle that tows it.

(2) *Adequacy of towing device.* The gross weight towed by the fifth wheel lower half, kingpin, or a towing device used to tow a full trailer, if that device was manufactured after January 1, 1973, must not exceed the maximum gross load of that device as certified by its manufacturer pursuant to this section.

(b) *Fifth wheel assemblies.*—(1) *Mounting.*—(i) *Lower half.* The lower half of a fifth wheel mounted on a truck tractor or converter dolly must be secured to the frame of that vehicle with properly designed brackets, mounting plates or angles and properly tightened bolts of adequate size and grade, or devices that provide equivalent security. The installation shall not cause cracking, warping, or deformation of the frame. The installation must include a device for positively preventing the lower half of the fifth wheel from shifting on the frame to which it is attached.

(ii) *Upper half.* The upper half of a fifth wheel must be fastened to the motor vehicle with at least the same security required for the installation of the lower half on a truck tractor or converter dolly.

(2) *Locking.* Every fifth wheel assembly must have a locking mechanism. The locking mechanism, and any adapter used in conjunction with it, must prevent separation of the upper and lower halves of the fifth wheel assembly unless a positive manual release is activiated. The release may be located so that the driver can operate it from the cab. If a motor vehicle manufactured after December 31, 1952 has a fifth wheel designed and constructed to be readily separable, the fifth wheel locking devices shall apply automatically on coupling.

(3) *Location.* The lower half of a fifth wheel shall be located so that, regardless of the condition of loading, the relationship between the kingpin and the rear axle or axles of the towing motor vehicle will properly distribute the gross weight of both the towed and towing vehicles on the axles of those vehicles, will not unduly interfere with the steering, braking, and other maneuvering of the towing vehicle, and will not otherwise contribute to unsafe operation of the vehicles comprising the combination. The upper half of a fifth wheel shall be located so that the weight of the vehicles is properly distributed on their axles and the combination of vehicles will operate safely during any turning maneuver.

(4) *Performance and certification.*—(i) *Fifth wheel lower halves.* A fifth wheel lower half manufactured after January 1, 1973, must be permanently marked with the maximum gross load rating by the manufacturer of the fifth wheel, certifying that, in normal operation, the fifth wheel can safely tow a gross weight equal to the gross load rating. The marking must—

(*a*) Be readily visible;

(*b*) Be located on the fifth wheel lower half near the locking release mechanism; and

(*c*) Have no adverse effect on the fifth wheel's strength.

(ii) *Fifth wheel king pin.* A fifth wheel king pin manufactured after January 1, 1973 shall conform to the dimensional, location, and performance requirements specified in § 2.1 of the Truck Trailer Manufacturers Association Recommended Practice RP No. 6 (68)-69, "Trailer Hitches and Connections."[1] The king pin must be permanently marked with its manufacturer's maximum gross load rating, certifying that the king pin conforms to the requirements of this subdivision and can, in normal operation, safely tow a gross weight equal to the gross load rating. The marking must be readily visible when the king pin is not connected to a fifth wheel lower half and must not adversely affect the king pin's strength.

(c) *Towing of full trailers*—(1) *General performance requirements.* A full trailer must be equipped with a tow-bar and a means of attaching the tow-bar to the towing and towed vehicles. The tow-bar and the means of attaching it must be—

(i) Structurally adequate for the weight being drawn;

(ii) Properly and securely mounted;

(iii) Without excessive slack but with sufficient play to allow for universal action of the connection; and

(iv) Provided with a locking device that prevents accidental separation of the towed and towing vehicles. The mounting of the trailer hitch (pintle hook or equivalent mechanism) on the towing vehicle must include reinforcement or bracing of the frame sufficient to produce strength and rigidity of the frame and to prevent its undue distortion.

(2) *Certification.* Every tow-bar, tow-bar eye, pintle hook, or other similar mechanism used to tow a full trailer manufactured after January 1, 1973 must be permanently marked with its maximum gross load rating by the manufacturer of the mechanism, certifying that, in normal operation, the mechanism can safely tow a trailing weight equal to the gross load rating. The marking must—

(i) Be readily visible when the mechanism is installed on a vehicle; and

(ii) Have no adverse effect on the strength of the tow-bar, tow-bar eye, pintle hook, or other device.

(d) *Safety devices in case of tow-bar failure or disconnection.* Every full trailer and every converter dolly used to convert a semitrailer to a full trailer must be coupled to the frame, or an extension of the frame, of the motor vehicle which tows it with one or more safety devices to prevent the towed vehicle from breaking loose in the event the tow-bar fails or becomes disconnected. The safety device must meet the following requirements:

(1) The safety device must not be attached to the pintle hook or any other device on the towing vehicle to which the tow-bar is attached. However, on a motor vehicle manufactured prior to January 1, 1973, the safety device may be attached to the towing vehicle at a place on a pintle hook forging or casting if that place is independent of the pintle hook.

(2) The safety device must have no more slack than is necessary to permit the vehicles to be turned properly.

(3) The safety device, and the means of attaching it to the vehicles, must have an ultimate strength of not less than the gross weight of the vehicle or vehicles being towed.

(4) The safety device must be connected to the towed and towing vehicles and to the tow-bar in a manner which prevents the tow-bar from dropping to the ground in the event it fails or becomes disconnected.

(5) Except as provided in subparagraph (6) of this paragraph, if the safety device consists of safety chains or cables, the towed vehicle must be equipped with either two safety chains or cables or with a bridle arrangement of a single chain or cable attached to its frame or axle at two points as far apart as the configuration of the frame or axle permits. The safety chains or cables shall be either two separate pieces, each equipped with a hook or other means for attachment to the towing vehicle, or a single piece leading along each side of the two-bar from the two points of attachment on the towed vehicle and arranged into a bridle with a single means of attachment to be connected to the towing vehicle. When a single length of cable is used, a thimble and twin-base cable clamps shall be used to form the forward bridle eye. The hook or other means of attachment to the towing vehicle shall be secured to the chains or cables in a fixed position.

(6) If the towed vehicle is a converter dolly with a solid tongue and without a hinged tow-bar or other swivel between the fifth wheel mounting and the attachment point of the tongue eye or other hitch device—

(i) Safety chains or cables, when used as a safety device for that vehicle, may consist of either two chains or cables or a single chain or cable used alone;

(ii) A single safety device, including a single chain or cable used alone as the safety device, must be in line with the centerline of the trailer tongue; and

(iii) The device may be attached to the converter dolly at any point to the rear of the attachment point of the tongue eye or other hitch device.

(7) Safety devices other than safety chains or cables must provide strength, security of attachment, and directional stability equal to, or greater than, safety chains or cables installed in accordance with subparagraphs (5) and (6) of this paragraph.

(8) When two safety devices, including two safety chains or cables, are used and are attached to the towing vehicle at separate points, the points of attachment on the towing vehicle shall be located equally distant from, and on opposite sides of, the centerline of the towing vehicle. Where two chains or cables are attached to the same point on the towing vehicle, and where a bridle or a single chain or cable is used, the point of attachment must be on the longitudinal centerline of the towing vehicle. A single safety device, other than a chain or cable, must also be attached to the towing vehicle at a point on its longitudinal centerline.

II. Section 393.71(h)(8) of the Motor Carrier Safety Regulations would be revised to read as follows:

§ 393.71 Coupling devices and towing methods, driveway-towaway operations.

* * * * *

(h) *Requirements for tow-bars.* Tow-bars shall comply with the following requirements—

* * * * *

(8) *Passenger car-trailer couplings.* Trailer couplings used for driveaway-towaway operations of passenger car trailers shall conform to Society of Automotive Engineers Standard No. J684c, "Trailer Couplings and Hitches—Automotive Type", July 1970.

[FR Doc.71-11248 Filed 8-5-71;8:46 am]

FEDERAL RESERVE SYSTEM

[12 CFR Part 269]

POLICY ON UNIONIZATION AND COLLECTIVE BARGAINING FOR THE FEDERAL RESERVE BANKS

Objections to Elections Procedure

The Board of Governors, pursuant to the authority conferred by 12 U.S.C. 248 proposes to add a new subparagraph (f) to § 269.5.

The proposed subparagraph would protect employees from any interference with their making a fair and free choice in selecting or rejecting a bargaining representative even if such interference does not constitute an unfair labor practice within the meaning of § 269.6 and (2) would authorize the Federal Reserve System Labor Relations Panel to establish an expedited procedure to process charges of interference, to promulgate rules to guide the conduct of all parties, and to provide appropriate remedies when interference has been found to have affected the outcome of the election.

The proposed subparagraph is set forth below:

§ 269.5 Elections.

. . . . . .

(f) (1) If at any time prior to an election, employees of a Federal Reserve Bank evidence substantial interest in representation by a union, whether or not a 30-percent interest has yet been shown, it shall be encumbent on the Bank, a union, and all others to refrain from any conduct, action or policy that interferes with, restrains or impedes employees from making a fair and free choice in selecting or rejecting a bargaining representative.

(2) A Bank, a union, or employees are not precluded from exercise of the free speech privileges of § 269.6(c) but such exercise may properly be held to be contrary to the intent of this section even if the conduct, action, or policy in question does not constitute an unfair labor practice under § 269.6(a), (1), (2), or (3) or § 269.6(b), (1) or (2) of this policy.

(3) The Federal Reserve System Labor Relations Panel may promulgate expedited procedures for prompt disposition of allegations that a violation of this section has affected the outcome of the election.

(4) The Panel may determine whether there has been a violation of this section and may render appropriate interpretations of this section, and may set forth as guidelines the circumstances the Panel believes necessary for a fair and free election by a Code of Preelection Conduct or by decision in specific cases.

(5) In the event of a proven violation of this section by a Bank, by a union, or by other individuals or organizations the Panel may take appropriate remedial action such as the setting aside of the resuts of an election and the ordering of a new election.

To aid in the consideration of this matter by the Board of Governors, interested persons are invited to submit relevant data, views or arguments. Any such comments or materials should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than September 7, 1971.

By order of the Board of Governors, July 27, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

PREELECTION AND ELECTION CONDUCT

Notice of Proposed Policy Statement and Proposed Rule Making

The Federal Reserve System Labor Relations Panel proposes to adopt a "Preelection Code of Conduct" and "Rules and Regulations Pertaining to Election Conduct" if the Board of Governors of the Federal Reserve System adopts its proposed new § 269.5(f) of its Policy on Unionization and Collective Bargaining for the Federal Reserve Banks.

The "Preelection Code of Conduct" would set forth as a matter of policy a general guide to acceptable conduct by a Reserve Bank, a union, or others relating to the selection or rejection by employees of an exclusive bargaining representative.

The need for the issuance of such a guide is premised on the unique approach the Panel contemplates in applying the "objections to election procedure" that would be permitted by the adoption of the proposed amendment to the Board's Policy. Just as the Policy reflects approaches from both the private sector and the Federal sector, objections to an election would be viewed according to criteria somewhere between those applied under the National Labor Relations Act and the attitude of strict neutrality applied by Federal executive agencies under Executive Order 11491.

In addition, the proposed Rules and Regulations Pertaining to Election Conduct would (1) establish an objection to election procedure by which charges of misconduct may be quickly judged and remedies, if appropriate, be made, and (2) create procedures for correlating and coordinating such matters with the rules pertaining to unfair labor practices, as set forth in Part 292.

Both the proposed Code of Preelection Conduct and the Rules and Regulations Pertaining to Election Conduct are set forth below.

To aid in the consideration of this matter by the Panel, interested persons are invited to submit relevant data, views, or arguments. Any such comments or material should be submitted in writing to the Secretary, Federal Reserve System Labor Relations Panel, 20th Street and Constitution Avenue NW., Washington, DC 20551, to be received not later than September 7, 1971.

By order of the Federal Reserve System Labor Relations Panel, July 27, 1971.

[SEAL] PAUL M. METZGER,
Secretary.

PREELECTION CODE OF CONDUCT

AUTHORITY: This "Preelection Code of Conduct" is issued under section 269.5(f)(4) of the Board of Governors' Policy on Unionization and Collective Bargaining for the Federal Reserve Banks, 12 CFR 269.5(f).

Introduction. This is a general guide to acceptable conduct by a Bank, by a union, or by others after a substantial interest has been shown by employees that they may wish to be represented by a union, whether or not a 30-percent interest has yet been shown, and continuing until an election has been held and the results have been announced by the American Arbitration Association.

Nonacceptable conduct by a Bank, by a labor organization, or by others can result in an unfair labor practice (§ 269.6 (a), (1), (2), or (3) or § 269.6(b), (1) or (2) of the Policy on Unionization and Collective Bargaining for the Federal Reserve Banks (hereinafter referred to as the "Policy")) or interference in a fair election short of an unfair labor practice (§ 269.5(f)), or both.

This is not intended to be applicable to § 269.5(b) (determination by an Arbitrator under AAA auspices as to whether a 30-percent interest in a union exists in a disputed situation) or to § 269.5(c) (conduct of an election by the AAA) except that prohibited practices are not sanctioned at such times. It is primarily intended to apply to conduct of the parties outside either of the above noted specific events.

It is manifestly impossible to set forth anything more than general and incomplete guides. Detailed applications and interpretations can arise only within the context of the facts of a specfic union organizational campaign. However, it is hoped that these guides will be of assistance to the parties.

General basis for appraisal. The unfair labor practice provisions of the Policy in conjunction with § 269.6(c) (the so-called free speech provision of the Policy) are intended to be interpreted and applied as respects unfair labor practice charges in essentially the same manner that the National Labor Relations Board (hereinafter referred to as the NLRB) and the courts have applied the generally comparable language of the National Labor Relations Act (hereinafter referred to as the NLRA).

The interference with a fair election section of the Policy is intended to be interpreted and applied so as to establish standards of preelection conduct consistent with the unique position of Federal Reserve Banks within a private sector—public sector spectrum. Rulings by the NLRB under the election provisions of the NLRA (sec. 9) will provide general guidance for minimum standards of conduct. Greater restraint in the exercise of free speech by a Reserve Bank than may be permissible under the NLRA will be required by reason of the general practice of management neutrality in the public sector. However, a Bank position of strict neutrality will not be required. In short, application of § 269.5 (f) will provide a Federal Reserve standard of conduct in between the private sector (NLRA) and Federal executive agencies (Executive Order No. 11491).

In any disputed case, the Federal Reserve System Labor Relations Panel [hereinafter referred to as the "Panel"] will emphasize the totality of conduct of a party. Necessarily, specific allegations of nonacceptable conduct will need to be appraised separately and the various segments then examined to obtain a composite picture. Discussion of some likely facets of a total picture that follow should not lead to undue emphasis on any one aspect of a disputed situation.

Most of the more explicit generalizations to be noted hereafter will deal with interference with a free election except that an unfair labor practice might also occur if there is adequate evidence of "threat of reprisal or force, or promise of benefit," in exercise of the free speech provision.

Expression of general point of view. If a Bank should prefer to deal with its employees without a union, the Bank is not prevented from expression of its opinion. § 269.6(c) affords the Bank that right.

However, a Bank should avoid couching its opinion under an "employee's own best interest" umbrella. The basic concept of a free election is that each employee should make his own decision as to what is to his best interest. It is difficult, if not impossible, for a Bank to emphasize such a general umbrella approach without implying that it intends, as a matter of general policy, to be less liberal if a union is recognized. If a Bank actually contemplates such a policy, it would be "a threat or reprisal—or promise of benefit." If there is no such contemplated Bank policy, it is nevertheless difficult to avoid leaving employees with that impression.

A union will attempt to influence employees by an approach as to their best interests.

This may appear to a Bank to be a "double standard". In a theoretical sense it is. However, it is implicit in a preelection situation. A Bank may be attempting to preserve the status quo—operation without a union. The past and current labor relations policy of the Bank—be it good, bad, or indifferent—is a known and experienced policy. If it is good, it may suffice to maintain the status quo. If it is not good, the NLRA makes it improper in the private sector to try to make it good during the course of an election campaign. In either event, a union is trying to sell a new policy, something unknown. Of even greater importance, a Bank has certain potential and actual power over employees. A union has no power whatever, until and unless it gets recognized, and it is limited even in that event.

Factual statements. A Bank may clarify and emphasize its existing wages, benefits, and working conditions and may make comparisons with similar provisions elsewhere. It may also indicate its known expectations for the near future provided that such future prediction is factual and is based on considerations having nothing to do with the current threat of unionization.

A union may make similar comparisons with wages, benefits and working conditions elsewhere and it may outline its hopes and aspirations for the Bank employees if it should be recognized. However, it should be particularly careful not to misrepresent the areas now subject to mandatory bargaining.

It is unlikely that either a Bank or a union will be completely unbiased in presentation of such matters. Neither party is likely to emphasize facts that are negative to its own position.

However, both parties have a strong obligation to adhere to facts and to avoid deception, trickery, deceit or misrepresentation.

Who said it? Appraisal of any exercise of free speech must necessarily give cognizance to its source.

An oral statement or written document originating from a high-ranking Bank official may be more significant than the same thing said or written by a low-ranking supervisor.

Similarly, the source of an oral or written comment on the union side may be taken into account.

This is not to say that lower-ranking individuals on either side have license to say or do anything. Responsibility exists for all participants. Nor can either party properly put in the mouths or pens of lesser-ranking individuals a concerted type of campaign that would be improper if it should originate openly at a higher level in the organization. Moreover, as respects some matters, lower-ranking supervision may, in fact, have greater power over employees than higher-ranking officials of a Bank.

Written communications. A Bank may send letters or distribute other written communications to employees or post notices so long as such material conforms to the intent of these general guides.

A union may similarly communicate with employees. Since a union has inherent disadvantage in this respect, the following arrangements should apply.

Upon proper request, a Bank should provide adequate bulletin board space for use by the union to post such materials.

Upon proper request, a Bank should allow distribution of union materials on Bank premises during nonworking hours under conditions that will not interfere with the work of the Bank or violate reasonable security regulations and that are generally consistent and validly applied in a nondiscriminatory manner with distribution of the Bank's own preelection materials, if any, or with other relevant rules, if any, regrading distribution of other materials.

After a union has proven a 30-percent interest and upon proper request, a Bank should furnish with reasonable promptness to responsible union officials copies of names and addresses of all Bank employees likely to be eligible to vote in an election.

Oral solicitation. Employees of the Bank, eligible to vote in the election, may engage in prounion or antiunion discussion of the election issues on Bank premises during nonworking time, subject in either event to reasonable rules to protect security and to avoid interference with the work of the Bank and provided further that the Bank permits no discriminatory handling as respects the different types of discussion.

Scheduled meetings. A Bank may schedule a meeting or meetings on Bank premises during working hours or nonworking hours, the purpose of such meetings being to communicate orally to employees its facts and positions that may be consistent with these general guides. However, attendance at such meetings shall not be compulsory and no stigma or consequence shall accompany nonattendance of any employee. Most important, the size of the meeting, the location of the meeting, and other relevant circumstances shall assure that no atmosphere of coercion or undue pressure exists.

Normally, it is probable that a union will not want or need to hold meetings on Bank premises and a union would have no rights to hold meetings on Bank premises in the absence of Bank meetings noted above. However, if a Bank exercises its rights noted in the preceding paragraph and if it can be shown that a union would be seriously disadvantaged as to location of a meeting place to reply to such a Bank meeting, the Bank should allow the union to use Bank facilities for a union meeting or meetings to be addressed by union officials during nonworking hours immediately following or preceding working hours. Attendance at such meetings would be noncompulsory and the general tone and atmosphere should be similar to that noted for a Bank meeting.

24-hour and 12-hour rules. No meetings of either type discussed in the foregoing section should be held on Bank premises within a 24-hour period immediately prior to the scheduled time for casting the first ballot.

Moreover, to afford the most favorable atmosphere for a free election, there should normally be no distribution of new Bank or new union literature on or immediately adjacent to Bank premises within the 12 hours prior to the scheduled time for casting the first ballot.

Racial overtones. Neither a Bank nor a union may exercise rights of free speech in a manner that would imply racial discrimination or incite racial feelings or prejudices.

Outside interference. Activities of third parties or of individuals, not attributable to either a Bank or a union involved in the election, that are violative of these general guides and that are not refuted effectively by the party or parties that such activities may appear to aid, may be grounds for setting aside an election.

PART 291—RULES AND REGULATIONS PERTAINING TO ELECTION CONDUCT

Sec.

291.100 Filing of objections.
291.200 Answer.
291.300 Investigation and hearing.
291.400 Exceptions.
291.500 Decision of the panel.
291.600 Relationship to unfair labor practice procedure.
291.700 Objections to conduct of the election.

AUTHORITY: The provisions of this Part 291 are issued under section 269.5(f)(3) of the Board of Governors' Policy on Unionization and Collective Bargaining for the Federal Reserve Banks, 12 CFR 269.5(f).

§ 291.100 Filing of objections.

(a) Within 5 days after the tally of the ballots has been furnished, any party in interest may file with the Secretary of the Panel an original and five copies

of objections to conduct affecting the results of the election, pursuant to § 269.5 of this chapter.

(b) Such objections shall contain a specific statement of the reasons therefor and evidence in support thereof.

(c) Any filing must be timely whether or not challenged ballots are sufficient in number to affect the results of the election.

(d) The party filing objections shall immediately serve copies of the objections on the other parties and shall submit proof of service thereof to the Secretary of the Panel.

§ 291.200 Answer.

(a) An answer, containing a complete but concise statement of facts refuting the objections, may be filed with the Secretary of the Panel within 5 working days from service of the objections.

(b) The original and five copies of the answer, together with proof of service, shall be filed with the Panel and one copy of the answer shall be served on each party.

§ 291.300 Investigation and hearing.

(a) Within 5 working days after the answer to objections has been filed, the Panel may refer the matter to the National Center for Dispute Settlement of the American Arbitration Association (hereinafter the Center) to conduct an investigation or hearing or both. If there is no issue of fact the Panel may rule on the basis of the pleadings.

(b) If no answer has been timely filed, the Panel shall direct the Center to conduct an investigation or hearing or both.

(c) A recommendation by the Center, based on an administrative investigation, that a hearing should not be held is subject to exceptions on the same basis as a hearing officer report. (See § 291.400)

(d) Under exceptional circumstances, the Panel may order a hearing to be held without investigation and may conduct the hearing rather than referring it to the Center.

(e) A determination by the Center that a hearing should be held is not subject to appeal to the Panel.

(f) Any hearing pursuant to this section shall be conducted on an informal basis and all measures compatible with justice and equity shall be employed to bring the matter speedily to hearing, to hear the parties and to render a decision. The rules pertaining to the hearing shall be the same as those applicable to hearings under Part 292, of this chapter (Charges of Unfair Labor Practices) insofar as they may be applicable under such circumstances and except as otherwise provided in this part, and shall be subject to such time limits as the hearing officer may establish; provided however, that the hearing officer's recommendation shall be transmitted to the Panel within 10-working days after his receipt of the official transcript of the hearing.

(g) The objecting party shall bear the burden of proof regarding all matters alleged in its objections to conduct affecting the results of the election, except as otherwise provided in the Panel's "Preelection Code of Conduct".

(h) Matters discovered during investigation or hearing, although not specifically alleged as objections, may nevertheless be considered as grounds for setting aside an election.

§ 291.400 Exceptions.

(a) If the hearing is conducted by the Panel its decision shall be final and binding on the parties.

(b) If the hearing is conducted by the Center, any party may file with the Panel exceptions to the hearing officer's report within 10 working days from service of that report upon the party.

(c) The original and five copies of the exceptions, together with proof of the service thereof, shall be filed with the Panel, and one copy of the exceptions shall be served on each party.

(d) If no exceptions are filed, the decision of the Center shall be final and binding upon the parties.

(e) Answering briefs to exceptions or briefs in support of the hearing officer shall be accepted only under such conditions and time limitations as the Panel may establish.

(f) Requests for extensions of time shall be granted only under extraordinary circumstances.

§ 291.500 Decision of the Panel.

(a) If no objections are filed within the time set forth above, the Panel shall notify the American Arbitration Association (hereinafter the AAA) that it may issue to the parties a certification of the results of the election, including certification of representative, where appropriate, subject to the resolution of any other election disputes which would be pending before other tribunals pursuant to § 269.5 of this chapter.

(b) The Panel shall similarly notify the AAA if it finds, or if the Center finds and no exceptions are timely filed, that there was not conduct sufficient to affect the outcome of the election.

(c) If the Panel finds, or if the Center finds and no exceptions are timely filed, that there was conduct which interfered with the free and fair choice by the employees, the Panel shall direct that the election be set aside and a new election held at such time as the AAA finds appropriate. If a new election is held, the labor organization or organizations previously on the ballot shall not be required to make a new showing of interest and no additional intervenors shall be permitted on the ballot. The Panel may provide such other remedies as may be appropriate to deal with the effects of any election interference found or to prevent future interference.

§ 291.600 Relationship to unfair labor practice procedure.

(a) The Panel may treat any unfair labor charges as objections and may process such objections under the procedures set forth herein if such charges have met the 5-day filing requirement for objections as set forth in § 291.100.

(b) If a party files both objections to an election and unfair labor practice charges arising out of the same circumstances, the Panel may consolidate the matter and deal with both aspects under the unfair labor practice procedure, even though separate findings may ultimately be made.

(c) Where appropriate, the Panel may sever an unfair labor practice charge and process that part of the charge that would constitute objections to an election through the procedure set forth in this part.

§ 291.700 Objections to conduct of election.

Objections to the conduct of the election, as distinguished from conduct affecting the results of the election, shall not be resolved by the Panel, but shall be resolved by the AAA in accordance with its election rules or in accordance with such election agreement as may be applicable to that election. Decisions rendered by the AAA or by other tribunals consented to in an election agreement, shall not be subject to appeal to the Panel.

Notices

DEPARTMENT OF STATE

Agency for International Development

[Delegation of Authority 92]

COORDINATOR, SUPPORTING ASSISTANCE BUREAU, AND DIRECTOR, OFFICE OF EAST ASIA DEVELOPMENT PROGRAMS

Delegation of Authority

Pursuant to the authority delegated to me by Delegation of Authority No. 104, as amended, dated November 3, 1961 (26 F.R. 10608) from the Secretary of State, and in furtherance of my decision relating to the establishment of a Supporting Assistance Bureau in the Agency for International Development, as announced in A.I.D. General Notice of July 1, 1971, it is hereby ordered as follows:

SECTION 1. Each of the following delegations of authority is amended by inserting among the titles of the officers named in those delegations, the titles of the following officers: "Coordinator for Supporting Assistance" and "Director, Officer of East Asia Development Programs."

A. Delegation of Authority No. 5, dated December 29, 1961 (27 F.R. 449), as amended, with respect to Loan Agreements;

B. Delegation of Authority No. 17, dated April 12, 1963 (27 F.R. 5914), as amended, with respect to Authority to Sign Contracts;

C. Delegation of Authority No. 19, dated October 3, 1962 (27 F.R. 10374), as amended, with respect to Participating Agency Service Agreements;

D. Delegation of Authority No. 23, dated December 28, 1962 (28 F.R. 563), as amended, relating to the Agricultural Trade Development and Assistance Act of 1954, as amended;

E. Delegation of Authority No. 27, dated April 15, 1963, as amended, relating to Personnel;

F. Delegation of Authority No. 38, dated April 10, 1964 (29 F.R. 5280), relating to Project Agreements, Trust Fund Agreements, and Grants to International Organizations;

G. Delegation of Authority No. 40, dated April 17, 1964 (29 F.R. 5695), relating to Waivers of Procurement Source Requirements;

H. Delegation of Authority No. 41, dated May 8, 1964 (29 F.R. 6892), relating to the Furnishing of Services and Commodities pursuant to section 607 of the Foreign Assistance Act of 1961, as amended;

I. Delegation of Authority No. 43, dated June 12, 1964 (29 F.R. 8122), relating to the Acceptance of Donated Non-military Property and Services pursuant to section 635(d) of the Foreign Assistance Act of 1961, as amended;

J. Delegation of Authority No. 75, dated January 11, 1968 (33 F.R. 919), relating to Certifications under section 611(e) of the Foreign Assistance Act of 1961, as amended; and

K. Delegation of Authority No. 88, dated November 4, 1970 (35 F.R. 17675) relating to Housing Guaranties.

SEC. 2. There is hereby delegated to the Coordinator for Supporting Assistance, and the Director, Office of East Asia Development Programs, with respect to the countries or areas which are within the responsibility of these officers, all those authorities or functions which are conferred on A.I.D. Assistant Administrators in any regulation (published or unpublished), manual order, policy directives or determinations, manual circular or circular airgram or instruction or communication of any nature.

SEC. 3. The authorities made available to the Coordinator for Supporting Assistance and the Director, Office of East Asia Development Programs, may be delegated successively according to the terms of the delegations of authority set forth in sections 1 and 2 of this Delegation of Authority. Notwithstanding the terms of A.I.D. Delegation of Authority No. 75, the Coordinator for Supporting Assistance may redelegate to the Deputy Coordinator for Supporting Assistance the authorities contained in said Delegation of Authority No. 75.

SEC. 4. Currently effective redelegations of authority issued by the Assistant Administrators for East Asia and Vietnam are hereby continued in effect according to their terms until modified or revoked by appropriate authority.

SEC. 5. This Delegation of Authority shall be effective immediately.

Dated: July 29, 1971.

JOHN A. HANNAH,
Administrator.

DEPARTMENT OF THE TREASURY

Bureau of Customs

HAT BODIES OF FUR, NOT ON SKIN, FROM CZECHOSLOVAKIA

Antidumping Proceeding Notice

AUGUST 4, 1971.

On June 24, 1970, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), indicating a possibility that hat bodies of fur, not on the skin, from Czechoslovakia are being, or likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. et seq.).

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the Bureau of Customs is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information from all sources is as follows: The information received tends to indicate that the prices of the merchandise sold for exportation to the United States are less than the prices of such or similar merchandise sold for exportation to the United States by a country not having controlled economy.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

[SEAL] EDWIN F. RAINS,
Acting Commissioner of Customs.

Internal Revenue Service

DARRELL D. ALLEN, JR.

Notice of Granting of Relief

Notice is hereby given that Darrell D. Allen, Jr., 1747 North Oneida Street, Appleton, WI, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on February 25, 1969, in the Outagamie County Court, Branch No. 2, county of Appleton, Wis., of a crime punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Darrell D. Allen, Jr., because of such conviction, to ship, transport, or receive in interstate of foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such conviction, it would be unlawful for Darrell D. Allen, Jr., to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Darrell D. Allen, Jr.'s, application and:

(1) I have found that the conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code, and delegated to me by 26 CFR 178.144: *It is ordered*, That, Darrell D. Allen, Jr., be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the conviction hereinabove described.

Signed at Washington, D.C., this 28th day of July 1971.

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

[FR Doc.71-11325 Filed 8-5-71;8:52 am]

JAMES H. BEARDSLEY II

Notice of Granting of Relief

Notice is hereby given that James H. Beardsley II, 919 Spring St., Charles, MO, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on July 12, 1963, in the Circuit Court of Potosi, Washington County, Mo., of a crime punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for James H. Beardsley II, because of such conviction, to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such conviction, it would be unlawful for James H. Beardsley II, to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered James H. Beardsley II's application and:

(1) I have found that the conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code, and delegated to me by 26 CFR 178.144: *It is ordered*, That James H. Beardsley, II, be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the conviction hereinabove described.

Signed at Washington, D.C., this 28th day of July 1971.

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

[FR Doc.71-11326 Filed 8-5-71;8:52 am]

JAMES W. BEVAN

Notice of Granting of Relief

Notice is hereby given that James W. Bevan, 236 East Beale Street, Kingman, AZ, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his convictions on January 10, 1964, in the 22d Judicial District Court, St. Tammany, La., July 25, 1952, in the Military Court of Anchorage, Alaska, of crimes punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for James W. Bevan because of such convictions, to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such convictions, it would be unlawful for James W. Bevan to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered James W. Bevan's application and:

(1) I have found that the convictions were made upon charges which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the convictions and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code, and delegated to me by 26 CFR 178.144: *It is ordered*, That James W. Bevan be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the convictions hereinabove described.

Signed at Washington, D.C., this 22d day of July 1971.

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

[FR Doc.71-11327 Filed 8-5-71;8:53 am]

JOHNNY CHURCH

Notice of Granting of Relief

Notice is hereby given that Johnny Church, 2933 Burnside, Detroit, MI 48212, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his convictions on January 15, 1930, in the Wayne County, Mich., Circuit Court and on June 19, 1930, in the city of Detroit, Mich., Recorder's Court, of crimes punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Johnny Church because of such convictions, to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such convictions, it would be unlawful for Johnny Church to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Johnny Church's application and:

(1) I have found that the convictions were made upon charges which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the convictions and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code, and delegated to me by 26 CFR 178.144: *It is ordered*, That Johnny Church be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the convictions hereinabove described.

Signed at Washington, D.C., this 22d day of July 1971.

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

ARCHIBALD C. CHURCHILL

Notice of Granting of Relief

Notice is hereby given that Archibald C. Churchill, 2-A Parker Avenue, Cortland, NY., has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on August 25, 1942, in the Mecklenburg County Superior Court, North Carolina, of a crime punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Archibald C. Churchill because of such conviction, to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such conviction, it would be unlawful for Archibald C. Churchill to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Archibald C. Churchill's application and:

(1) I have found that the conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code, and delegated to me by 26 CFR 178.144: *It is ordered*, That Archibald C. Churchill be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the conviction hereinabove described.

Signed at Washington, D.C., this 23d day of July 1971.

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

[FR Doc.71-11330 Filed 8-5-71;8:53 am]

Signed at Washington, D.C., this 29th day of July 1971.

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

ROGER ALTON DENNISON

Notice of Granting of Relief

Notice is hereby given that Roger Alton Dennison, 33 Stone Street, Manchester, CT, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on November 10, 1967, in the Hartford County Superior Court, Hartford, Conn., of a crime punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Roger Alton Dennison because of such conviction, to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such conviction, it would be unlawful for Roger Alton Dennison to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Roger Alton Dennison's application and:

(1) I have found that the conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code, and delegated to me by 26 CFR 178.144: *It is ordered*, That Roger Alton Dennison be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the conviction hereinabove described.

Signed at Washington, D.C., this 23d day of July 1971.

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

BERNARD MARIO MAYFLOWER

Notice of Granting of Relief

Notice is hereby given that Bernard Mario Mayflower, 3733 De Veaux Street,

THEODORE R. HUTSENPILLER

Notice of Granting of Relief

Notice is hereby given that Theodore R. Hutsenpiller, 714 Blaw Avenue, Blawnox, PA, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his convictions on March 11, 1940, by the Quarter Sessions Court, in and for the county of Allegheny, Pittsburgh, Pa., and October 23, 1940, by the Quarter Sessions Court, in and for the county of Allegheny, Pittsburgh, Pa., of crimes punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Theodore R. Hutsenpiller because of such convictions, to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such convictions, it would be unlawful for Theodore R. Hutsenpiller to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Theodore R. Hutsenpiller's application and:

(1) I have found that the convictions were made upon charges which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the convictions and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code, and delegated to me by 26 CFR 178.144: *It is ordered*, That Theodore R. Hutsenpiller be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the convictions hereinabove described.

Signed at Washington, D.C., this 28th day of July 1971.

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

[FR Doc.71-11331 Filed 8-5-71;8:53 am]

Niagara Falls, NY, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on June 13, 1954, in the Circuit Court for the county of Roscommon, Mich., of a crime punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Bernard M. Mayflower because of such conviction, to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such conviction, it would be unlawful for Bernard M. Mayflower to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Bernard M. Mayflower's application and:

(1) I have found that the conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code, and delegated to me by 26 CFR 178.144: *It is ordered*, That Bernard Mario Mayflower be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the conviction hereinabove described.

Signed at Washington, D.C., this 29th day of June 1971.

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

FRANK VERNON NILES

Notice of Granting of Relief

Notice is hereby given that Frank Vernon Niles, 406 West Buffalo Avenue, Tampa, FL, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on July 23, 1937, in the Circuit Court, Highlands County, Fla., of a crime punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Frank Vernon Niles because of such conviction, to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such conviction, it would be unlawful for Frank Vernon Niles to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Frank Vernon Niles' application and:

(1) I have found that the conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code, and delegated to me by 26 CFR 178.144: *It is ordered*, That Frank Vernon Niles be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the conviction hereinabove described.

Signed at Washington, D.C., this 29th day of July 1971.

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

[FR Doc.71-11333 Filed 8-5-71;8:53 am]

LOUIS SMITH

Notice of Granting of Relief

Notice is hereby given that Louis Smith, 627 North Fourth Street, Saginaw, MI, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on May 13, 1949, in the Recorder's Court of the city of Detroit, Mich., of a crime punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Louis Smith because of such conviction, to ship, transport, or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such conviction, it would be unlawful for Louis Smith to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Louis Smith's application and:

(1) I have found that the conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code, and delegated to me by 26 CFR 178.144: *It is ordered*, That Louis Smith be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the conviction hereinabove described.

Signed at Washington, D.C., this 29th day of July 1971.

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

[FR Doc.71-11334 Filed 8-5-71;8:53 am]

ROBERT C. SWARTWOOD

Notice of Granting of Relief

Notice is hereby given that Robert C. Swartwood, 3 Green Street, Binghamton, NY, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on October 10, 1946, in the Broome County Court, New York, of a crime punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Robert C. Swartwood because of such conviction, to ship, transport, or receive in interstate or foreign commmerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such conviction, it would be unlawful for Robert C. Swartwood to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Robert C. Swartwood's application and:

(1) I have found that the conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code, and delegated to me by 26 CFR 178.144: *It is ordered*, That Robert C. Swartwood be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the conviction hereinabove described.

Signed at Washington, D.C., this 22d day of July 1971.

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

[FR Doc.71-11335 Filed 8-5-71;8:53 am]

WALTER W. WALLERMAN

Notice of Granting of Relief

Notice is hereby given that Walter W. Wallerman, 708½ North Bateman Street, Appleton, WI, has applied for relief from disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms incurred by reason of his conviction on May 4, 1965, in Outagamie Court, Branch 2, Appleton, Wis., of a crime punishable by imprisonment for a term exceeding 1 year. Unless relief is granted, it will be unlawful for Walter Wallerman because of such conviction, to ship, transport or receive in interstate or foreign commerce any firearm or ammunition, and he would be ineligible for a license under chapter 44, title 18, United States Code, as a firearms or ammunition importer, manufacturer, dealer, or collector. In addition, under title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (82 Stat. 236; 18 U.S.C., Appendix), because of such conviction, it would be unlawful for Walter Wallerman to receive, possess, or transport in commerce or affecting commerce, any firearm.

Notice is hereby given that I have considered Walter Wallerman's application and:

(1) I have found that the conviction was made upon a charge which did not involve the use of a firearm or other weapon or a violation of chapter 44, title 18, United States Code, or of the National Firearms Act; and

(2) It has been established to my satisfaction that the circumstances regarding the conviction and the applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest.

Therefore, pursuant to the authority vested in the Secretary of the Treasury by section 925(c), title 18, United States Code, and delegated to me by 26 CFR 178.144: *It is ordered*, That Walter Wallerman be, and he hereby is, granted relief from any and all disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, or possession of firearms and incurred by reason of the conviction hereinabove described.

Signed at Washington, D.C., this 28th day of July 1971.

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ARIZONA

[Group 488]

Notice of Filing of Plats of Survey

JULY 29, 1971.

Plats of Survey of the lands described below will be officially filed in the Arizona State Office, Phoenix, Ariz., effective at 10 a.m., on September 3, 1971:

1. GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 28 N., R. 20 W.,
Sec. 1, lots 1, 2, 3, 4, S½N½, and S½;
Sec. 2, lots 1, 2, 3, 4, S½N½, and S½;
Sec. 3, lots 1, 2, 3, 4, S½N½, and S½;
Sec. 4, lots 1, 2, 3, 4, S½N½, and S½;
Sec. 5, lots 1, 2, 3, 4, S½N½, and S½;
Sec. 6, lots 1 to 7, inclusive, S½NE¼, SE¼NW¼, E½SW¼, and SE¼;
Sec. 7, lots 1, 2, 3, 4, E½W½, and E½;
Secs. 8, 9, 10, 11, 12, 15, and 17;
Sec. 18, lots 1, 2, 3, 4, E½W½, and E½;
Sec. 19, lots 1, 2, 3, 4, E½W½, and E½;
Secs. 20, 21, 22, 27, 28, and 29;
Sec. 30, lots 1, 2, 3, 4, E½W½, and E½;
Sec. 31, lots 1, 2, 3, 4, E½W½, and E½;
Secs. 33, and 34.

The areas described aggregate 16,606.45 acres of public land.

The lands described above range from nearly level to mountainous. The soil is rocky and gravelly to sandy clay loam. The vegetation consists of Joshua trees, creosote bush, cacti and grass. There are no settlers in this township and no water was noted throughout the surveyed areas. The lands are used primarily for grazing.

2. GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 27 N., R. 21 W.,
Sec. 1, lots 1, 2, 3, 4, S½N½, and S½;
Sec. 2, lots 1, 2, 3, 4, S½N½, and S½;
Sec. 3, lots 1, 2, 3, 4, S½N½, and S½;
Sec. 4, lots 1, 2, 3, 4, S½N½, and S½;
Sec. 5, lots 1, 2, 3, 4, S½N½, and S½;
Sec. 6, lots 1 to 7, inclusive, S½NE¼, SE¼NW¼, E½SW¼, and SE¼;
Sec. 7, lots 1, 2, 3, 4, E½W½, and E½;
Sec. 8, lots 1 to 6 inclusive, N½NE¼, NW¼, N½SW¼, SW¼SW¼, and SE¼SE¼;
Secs. 9, 10, and 11;
Secs. 14, 15, 16, and 17;
Sec. 18, lots 1, 2, 3, 4, E½W½, and E½;
Sec. 19, lots 1, 2, 3, 4, E½W½, and E½;
Secs. 20, 21, 22, 23, 26, 27, 28, and 29;
Sec. 30, lots 1, 2, 3, 4, E½W½, and E½,
Sec. 33, lots 1, 2, 3, N½, N½S½, and SE¼SE¼;
Secs. 34 and 35.

The areas described aggregate 18,462.60 acres of public land.

The lands described above range from nearly level to mountainous. The soil is rocky and gravelly to sandy clay loam. The vegetation consists of creosote bush, cacti and grass. The lands are used primarily for outdoor recreation, mining and grazing.

3. The lands described in paragraph 2 are opened to petition, application and selection, as outlined in paragraph 4 below. No application for these lands will be allowed under the nonmineral public land laws, unless or until the lands have been classified. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

4. Subject to any existing valid rights and the requirements of applicable law, the lands described in paragraphs 1 and 2 are thereby opened to filing of petition-application and selection in accordance with the following:

a. Applications and selections under the nonmineral public land laws, and offers under the mineral leasing laws may be presented to the Division of Technical Services, Arizona State Office, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs.

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications and selections under the nonmineral public land laws presented prior to 10 a.m. on September 3, 1971, will be considered as simultaneously filed at that hour. Rights under such applications and selections and offers filed after that hour will be governed by the time of filing.

5. Persons claiming preference rights based upon settlement, statutory preference, or equitable claims must enclose properly executed statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

KENNETH F. HANSEN,
Acting Chief, Division of Technical Services.

Fish and Wildlife Service

MOOSEHORN NATIONAL WILDLIFE REFUGE

Notice of Public Hearing Regarding Wilderness Proposal

Notice is hereby given in accordance with provisions of the Wilderness Act of September 3, 1964 (Public Law 88–577; 78 Stat. 890–896; 16 U.S.C. 1131–1136), that a public hearing will be held beginning at 7 p.m. on October 7, 1971, at the Calais Memorial High School Auditorium, Calais, Maine, on a proposal leading to a recommendation to be made to the President of the United States by the desirability of including the Moosehorn Wilderness proposal within the National Wilderness Preservation System. The wilderness proposal consists of approximately 5,630 acres within Moosehorn National Wildlife Refuge, and is located in Washington County, State of Maine.

A brochure containing a map and information about the Moosehorn Wilderness proposal may be obtained from the Refuge Manager, Moosehorn National Wildlife Refuge, Box X, Calais, Maine 04619, or the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Mass. 02109.

Individuals or organization may express their oral or written views by appearing at this hearing, or they may submit written comments for inclusion in the official record of the hearing to the Regional Director at the above address by November 8, 1971.

M. A. MARSTON,
Acting Director, Bureau of Sport Fisheries and Wildlife.

Office of the Secretary

COAL MINE HEALTH AND SAFETY

Departmental Survey

The Secretary of the Interior has directed the Office of Hearings and Appeals to conduct a series of public meetings for the purpose of compiling information with respect to the Department of the Interior's implementation and enforcement of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. sec. 801 et seq. (Supp. V, 1969). It is the responsibility of the Office of Hearings and Appeals to assemble all facts, views, and relevant data regarding the administration and enforcement of the Act by the Bureau of Mines as well as suggestions and recommendations to make the Department's administration of the Act more effective. The first public meetings were held in Washington on July 1 and 2, 1971. The next public meeting has been scheduled for Denver, Colo., August 26 and 27 (36 F.R. 13410, July 21, 1970).

Notice is hereby given that public meetings will be held in Lexington, Ky., Charleston, W. Va., Pittsburgh and Harrisburg, Pa.

The Lexington, Ky., public meeting will commence at 9:30 a.m. on September 16 and 17, in the Crystal Ballroom, Phoenix Hotel, 120 East Main Street, Lexington, KY 40507. The Charleston, W. Va., meeting will commence at 9:30 a.m. on October 7 and 8, 1971, in the Federal Building Courtroom, Fifth Floor, 500 Quarrier Street, Charleston, WV. The Pittsburgh-Harrisburg, Pa., meeting will commence in Pittsburgh at 9:30 a.m. on October 20 and 21 in the Mellon Institute Auditorium, 4450 Fifth Avenue, Pittsburgh, PA (Bellefield Street entrance), and in Harrisburg at 9:30 a.m. on October 22, 1971, in the Harrisburg Area Community College Auditorium, College Center Building, Room 107, 3300 Cameron Road, Harrisburg, PA.

All interested individuals, including miners, representatives of miners, labor officials, coal mine operators, associations, equipment manufacturers, mining engineers, mining educators, State mining officials, elected officials, and other public officials, who wish to speak at the Lexington, Ky., meeting are requested to contact the Director, Office of Hearings and Appeals, 4015 Wilson Boulevard, Arlington, VA 22203 (telephone 703–557–1500), by 5 p.m. September 10, 1971. Those who wish to speak at the Charleston, W. Va., meeting are requested to contact the Director at the above address by 5 p.m. October 1, 1971; those who wish to speak at the Pittsburgh-Harrisburg meeting should contact the Director at the above address by 5 p.m. October 15, 1971.

Verbal statements at the meeting will be limited to 10 minutes. Verbal statements may be supplemented by a more complete written statement at the meeting or mailed to the Director as provided below.

Written comments from those unable to attend the meetings and from those wishing to supplement their oral presentation at a meeting should be addressed to the Director, Office of Hearings and Appeals, at the above address. All written statements and comments received by the Director on or before November 22, 1971, will be included in the survey submitted to the Secretary.

To the extent that time is available after presentation of the verbal statements by those who have given advance notice, the Director will give others present an opportunity to be heard.

This multiple notice is used to afford the public opportunity to choose the most convenient location and date. Additional public meetings, if any, will be announced in the press and FEDERAL REGISTER.

Dated: July 30, 1971.

JAMES M. DAY,
Director, Office of Hearings and Appeals.

Maximum Monthly Allowable Income Standards and Basis of Coupon Issuance; 48 States and District of Columbia

Correction

In F.R. Doc. 71–10633 appearing at page 14118 in the issue of Thursday, July 29, 1971, the headings for the first table in the second column should read as follows:

MONTHLY COUPON ALLOTMENTS AND PURCHASE REQUIREMENTS—48 STATES AND DISTRICT OF COLUMBIA—Continued

Monthly net income	For a household of—			
	1 person	2 persons	3 persons	4 persons
	The monthly coupon allotment is—			
	$32	$60	$88	$108
	And the monthly purchase requirement is—			

[FSP No. 1971–2]

FOOD STAMP PROGRAM

Maximum Monthly Allowable Income Standards and Basis of Coupon Issuance; Alaska

Correction

In F.R. Doc. 71–10634 appearing at page 14118 in the issue of Thursday, July 29, 1971, in the "Monthly net income" column of the first table, the third entry from the bottom now reading "$420 to $499.99" should read "$420 to $449.99".

Packers and Stockyards Administration

UNION STOCK YARDS

Deposting of Stockyards

It has been ascertained, and notice is hereby given, that the livestock market named herein, originally posted on the respective date specified below as being subject to the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), no longer come within the definition of a stockyard under said Act and is, therefore, no longer subject to the provisions of the Act.

Name, location of stockyard, and date of posting
Union Stock Yards, Chicago, Illinois, Nov. 1, 1921.

Notice or other public procedure has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impracticable and contrary to the public interest. There is no legal warrant or justification for not deposting promptly a stockyard which is no longer within the definition of that term contained in the Act.

The foregoing is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER (8–6–71).

(42 Stat. 159, as amended and supplemented; 7 U.S.C. 181 et seq)

Done at Washington, D.C., this 3d day of August 1971.

G. H. HOPPER,
Chief, Registrations, Bonds, and Reports Branch, Livestock Marketing Division.

Bureau of International Commerce

[Case 413]

J. A. GOLDSCHMIDT S.A.

Order Denying Export Privileges

In the matter of J. A. Goldschmidt S.A., 149 rue Saint-Honore, Paris 1, France, respondent.

By charging letter dated September 10, 1969, the Director, Investigations Division, Office of Export Control, charged the above respondent with violations of the Export Control Act of 1949 as amended.[1] It is alleged that on or about November 25, 1968 the respondent reexported from France to Cuba 12,000 tons of U.S.-origin triple superphosphate (a fertilizer, hereinafter referred to as TSP) valued at approximately $425,000; that respondent knew or had reason to know at the time the TSP was so reexported that it was of U.S. origin and that U.S. law prohibited such reexportation without first obtaining authorization from the U.S. Government which respondent did not obtain. It is charged that such conduct was in violation of §§ 374.1 and 387.6 of the U.S. Export Control Regulations.

The charging letter was duly served on respondent. The respondent appeared by counsel and filed an answer. The answer admitted the reexportation of the TSP from France to Cuba but denied that respondent knew or had reason to know that the TSP was of U.S. origin.

[1] This act has been succeeded by the Export Administration Act of 1969, Public Law 91–184, approved Dec. 30, 1969, 50 U.S.C. App. sec. 2401–2413. Section 13(b) of the new Act provides, "All outstanding delegations, rules, regulations, orders, licenses, or other forms of administrative action under the Export Control Act of 1949 • • • shall, until amended or revoked remain in full force and effect, the same as if promulgated under this Act".

A hearing was held before the Compliance Commissioner on October 13, 1970. Documentary evidence was submitted by both sides and one witness appeared on behalf of respondent. Both sides submitted additional evidence after the hearing which was made part of the record. Both sides submitted briefs which have been considered.

The Compliance Commissioner has submitted to the undersigned a report which summarizes essential portions of the evidence and considers the arguments made by the parties as to evaluating the evidence. The report also includes findings of fact, conclusions, and a recommendation as to the sanction that should be imposed.

After considering the record, I adopt as my own the following findings of fact made by the Compliance Commissioner:

Findings of fact. 1. The respondent, J. A. Goldschmidt S.A., hereinafter at times referred to as Goldschmidt, is a French corporation with a place of business in Paris, and is engaged as a trader and broker in various commodities including cereals, meat, basic agricultural foodstuffs, and agricultural chemicals. In the transaction in question it was engaged in trading in a chemical fertilizer, triple superphosphate, hereinafter referred to as TSP.

2. At the time here material, Leon Battino was employed by respondent as a trader. As such it was his function to sell products for the firm and to find sources of supply. His special area of competence was Latin American countries, including Cuba. Throughout the transaction herein described Battino acted within the scope of his employment as an employee of respondent.

3. Sometime prior to September 1968 Battino negotiated a contract with a customer in Cuba to supply it with 20,000 tons of TSP.

4. During September 1968 Battino negotiated with the firm Etablissements Gardinier (Gardinier) also a French firm, with its main office in a suburb of Paris, to purchase a quantity of TSP to be used by respondent in fulfilling its contract with its Cuban customer. Gardinier is a manufacturer of and a dealer in agricultural chemicals. It has several plants in France.

5. On the basis of the negotiations referred to in the previous finding, Goldschmidt insisted that Gardinier had made a firm contract to furnish 20,000 tons of TSP and Gardinier was pressed by Goldschmidt to furnish the material. Gardinier was unable to supply the TSP from its own stock or facilities or from French sources. It sought to obtain the material elsewhere. After negotiating through a Swiss representative of a U.S. supplier, Gardinier entered into a contract with the said U.S. supplier to purchase 10,000 to 12,000 tons of TSP. Gardinier having found a source of supply for this quantity of TSP, on October 1, 1968 agreed to sell to respondent a like quantity of TSP. A formal contract was subsequently entered into between the parties.

6. On September 25, 1968, while Gardinier was negotiating to obtain the U.S.-origin TSP, it informed Battino by Telex that it could no longer guarantee delivery of this merchandise because of the impending strike of dockers in the United States. (There was a longshoremen's strike in the United States on October 1 and 2, 1968. Its imminence was widely publicised prior thereto. Legislation requiring the strikers to return to work was invoked and they returned to work from Oct. 3 to Dec. 21, 1968.) This information was sufficient to alert Battino to the fact that Gardinier was negotiating to obtain U.S.-origin TSP to carry out its undertaking with Goldschmidt.

7. In the course of conversations in October 1968 one of the principals of Gardinier who was negotiating with Goldschmidt informed Battino that the TSP it was supplying was of U.S. origin. Subsequently, sometime before November 5, 1968, Battino acknowledged to the supply director of Gardinier, who also participated in the negotiations, that he (Battino) knew the TSP was of U.S. origin. Battino stated that this was Gardinier's problem and required Gardinier to furnish a certificate that the TSP it was furnishing was of French origin.

8. Gardinier did furnish a certificate dated November 5, 1968, issued by Chamber of Commerce of Bayonne that the TSP in question was of French origin or manufacture. The TSP after its arrival in France was not altered or processed in any way nor was it mixed with any other ingredient. It was not of French origin or manufacture and respondent knew or had reason to know this prior to November 5, 1968. The respondent knew or had reason to know prior to November 5, 1968, that the TSP in question was of U.S. origin.

9. The TSP in question was exported from the United States on October 16, 1968. It was delivered to the respondent at the port of Bordeaux, France on October 28, 1968. Approximately 10,500–11,000 metric tons were stored temporarily at dockside. Approximately 10,200 metric tons of the meterial were laden on board a vessel and shipped by respondent to Cuba on November 25, 1968, arriving in Cuba about a month later.

10. The respondent at all times here material knew that it was in violation of the U.S. Export Control Regulations to reexport the U.S.-origin TSP in question to Cuba. The respondent did not obtain authorization from any branch of the U.S. Government to ship the TSP in question from France to Cuba.

Based on the foregoing I have concluded that respondent in violation of §§ 374.1 and 387.6 of the U.S. Export Control Regulations, reexported from France to Cuba triple superphosphate which it knew was of U.S. origin and that such reexportation was made without authorization from the Office of Export Control which authorization respondent knew was required by said regulations.

In support of its position that respondent knew or had reason to know of the U.S. origin of the material before it was shipped to Cuba, the Government relies heavily on three affidavits respectively by Xavier Gardinier, Francois Gardinier, and Jean Constantin. The Gardiniers are principals in the Gardinier firm and Constantin is its supply director. The Gardinier firm purchased the TSP in question from a U.S. supplier and sold it to respondent with knowledge that respondent intended to export it to Cuba. The substance of these affidavits is that in October 1968 Francois Gardinier informed Battino that the TSP it was furnishing came from the United States and that Battino acknowledged to Constantin that he knew that the TSP was of U.S. origin. Battino emphatically denied these assertions.

In commenting on this evidence and respondent's arguments with respect thereto the Compliance Commissioner stated:

> The respondent contends that the evidence supporting the charge contained in the above mentioned affidavits of the three Gardinier officials is not entitled to credence. In support of this contention the respondent argues several points: These individuals engaged in illegal or improper conduct in connection with the transaction; they attempted to conceal their illegal conduct from government officials; (the evidence shows that Constantin asked Battino to remove the certificate of origin from Goldschmidt's files to prevent it being seen by French officials who were investigating Exchange Control frauds). The evidence from these "accomplices" who have been promised favorable treatment or leniency, should be received with skepticism; and the credibility of the affidavits is destroyed by their inconsistencies.
>
> I have considered all of the points argued by respondent. I do not find that there are such inconsistencies or contradictions in the affidavits as to destroy their credibility. I find that during the course of the conversations in October 1968, regarding the TSP in question, Francois Gardinier informed Battino that the TSP was of U.S. origin. I further find that in the course of the negotiations Battino acknowledged to Constantin that he (Battino) knew that the TSP was of U.S. origin.
>
> In evaluating the evidence furnished by the Gardiniers and Constantin, I have taken into account the fact that the Gardinier firm has acknowledged its culpability in the transaction. In so doing and in return for the individuals connected with the firm giving evidence in connection with the case, it is apparent that the Investigations Division promised Gardinier that it would recommend more lenient treatment than might otherwise be the case.
>
> The evidence given by the Gardiniers and Constantin implicating Goldschmidt in the transaction is appropriately considered in the category of evidence given by an accomplice.
>
> It is well established by many court decisions that the testimony of accomplices is not of the most satisfactory character and is attended with serious infirmities and such testimony must be closely scrutinized and accepted with caution. Such testimony need not be disregarded and the mere fact that the accomplice has been promised favorable treatment or leniency does not require that the testimony not be considered.

In making the above findings as to Battino's knowledge of the U.S. origin of the TSP, I have had well in mind the principles which are to be used in evaluating the evidence furnished by accomplices.

In addition to the evidence from the Gardinier officials there is corroborating evidence which shows that Goldschmidt knew or should have known that the TSP was of U.S. origin.

The corroborating evidence was the reference to the impending strike of dock workers in the United States, referred to in Finding 6.

On the matter of sanction the Compliance Commissioner said:

> This violation was committed by a responsible employee of respondent. It was not an inadvertent reexportation of U.S.-origin goods, but rather it was a violation that was committed with full knowledge. The illegal reexportation of more than 10,000 metric tons of fertilizer was involved for which respondent paid the equivalent of close to $540,000. Presumably the sale price to its customer was in excess of this amount. The commodity was not one to be used for military purposes, but in this large quantity it could make a significant contribution to the economic potential of Cuba. Since October 1960 it has been the policy of this Government to prohibit exportations to Cuba which would contribute to this purpose.
>
> Sanctions are imposed in cases of this type primarily for remedial purposes—to bring about compliance with the applicable law and regulations and to serve as a deterrent to respondent and others engaged in dealing in exportations from the United States. Among the factors to be considered in imposing a sanction are the nature of the violation and the effect that a denial order will have on respondent's operations. An appropriate sanction in this case and one that is consistent with sanctions that have been imposed in other cases where the violation was of a comparable nature is to deny respondent all U.S. export privileges for 9 months and thereafter to place it on probation for the balance of 3 years. I recommend such a sanction.

Now, after considering the record in the case and the report and recommendation of the Compliance Commissioner and being of the opinion that his recommendation as to the sanction that should be imposed is fair and just and calculated to achieve effective enforcement of the law: *It is hereby ordered:*

I. All outstanding validated export licenses in which respondent appears or participates in any manner or capacity are hereby revoked and shall be returned forthwith to the Bureau of International Commerce for cancellation.

II. Except as qualified in Part IV hereof, the respondent for a period of 3 years from the effective date of this order is hereby denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States, in whole or in part, or to be exported, or which are otherwise subject to the export regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction, either in the United States or abroad, shall include participation: (a) As a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control documents; (d) in the carrying on of negotiations with respect to, or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data; (e) in the financing, forwarding, transporting or other servicing of such commodities or technical data.

III. Such denial of export privileges shall extend not only to the respondent, but also to its successors, representatives, agents, and employees, and also to any person, firm, corporation, or other business organization with which it now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith.

IV. Nine months after the effective date hereof, without further order of the Bureau of International Commerce, the respondent shall have its export privileges restored conditionally and thereafter for the remainder of the denial period the respondent shall be on probation. The conditions of probation are that the respondent shall fully comply with all requirements of the Export Administration Act of 1969, as amended, and all regulations, licenses, and orders issued thereunder.

V. Upon a finding by the Director, Office of Export Control or such other official as may be exercising the duties now exercised by him, that the respondent has knowingly failed to comply with the requirements and conditions of this order or with any of the conditions of probation said official without notice, when national security or foreign policy considerations are involved, or with notice if such considerations are not involved, by supplemental order may revoke the probation of said respondent, revoke all outstanding validated export licenses to which said respondent may be a party and deny to said respondent all export privileges for the remaining period of the order. Such supplemental order shall not preclude the Bureau of International Commerce from taking such further action for any violation as it shall deem warranted. On the entry of a supplemental order revoking respondent's probation without notice it may file objections and request that such order be set aside and may request an oral hearing as provided in § 388.16 of the Export Control Regulations, but pending such further proceedings the order of revocation shall remain in effect.

VI. During the time when the respondent or other persons within the scope of this order are prohibited from engaging in any activity within the scope of Part II hereof, no person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of International Commerce, shall do any of the following acts, directly or indirectly, in any manner or capacity, on behalf of or in any association with the respondent or other persons denied export privileges within the scope of this order, or whereby said respondent or such other persons may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for the respondent or other persons denied export privileges within the scope of this order; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

This order shall become effective on August 5, 1971.

Dated: July 28, 1971.

RAUER H. MEYER,
Director, Office of Export Control.

[Case 422]

LES ETABLISSEMENT GARDINIER

Order Denying Export Privileges

In the matter of Les Etablissement Gardinier, 5 rue du Commandant Pilot, Neuilly-sur-Seine, France, respondent.

By charging letter dated September 10, 1969, the Director, Investigations Division, Office of Export Control, charged the above respondent with violations of the Export Control Act of 1949 and regulations thereunder.[1] The respondent filed an answer and appeared by counsel.

In substance, it is charged that respondent purchased from a Swiss agent of a New York firm 12,000 tons of triple superphosphate (a fertilizer hereinafter called TSP) to be used in fulfillment of a contract it had with the Parisian company J.A. Goldschmidt S.A (hereinafter Goldschmidt); that respondent knew that the TSP was of U.S. origin; that respondent knew that Goldschmidt intended to reexport the TSP to Cuba; that respondent in order to avoid direct connection in the purchase of the TSP had another firm act as intermediary purchaser; that the TSP was shipped from the United States to France on October 28, 1968, and was sold and delivered by respondent to Goldschmidt; that on November 25, 1968, Goldschmidt reexported the TSP to Cuba; that respondent knew that U.S. law prohibited delivery of the TSP to Cuba without prior authorization from the U.S. Government. It is charged that respondents violated §§ 387.2, 387.3, 387.4, and 387.6 of the Export Control Regulations.

Pursuant to § 388.10 of the Export Control Regulations, with agreement of the Director, Investigations Division, the respondent submitted to the compliance Commissioner a proposal for the issuance of a consent order. In the consent proposal the respondent waived all right to an oral hearing before the compliance Commissioner, consented to the issuance of an order to be entered by the Director, Office of Export Control, and waived all rights of administrative appeal from and judicial review of such order. The respondent did not deny the charges and made certain admissions.

The Compliance Commissioner reviewed the facts in the case and the consent proposal and he has approved the consent proposal with modifications acceptable to respondent and he recommended that it be accepted. He made findings of fact, based in part on respondent's admissions, and in addition, based on evidence adduced by the Investigations Division. After considering the record, I adopt the findings of fact as my own.

Findings of fact. 1. The respondent Les Etablissments Gardinier is a French corporation with offices in Neuilly-sur-Seine (near Paris) France. The company is engaged in manufacturing, importing and selling chemical fertilizers. It has several plants in France.

2. The principal officials of the firm are Francois Gardinier and his brother Xavier Gardinier. At the time here material Jean Constantin was employed by the firm as Director of Supplies.

3. In September 1968 Francois Gardinier and Jean Constantin, on behalf of respondent, negotiated with the firm J. A. Goldschmidt S.A. of Paris; France (Goldschmidt) to supply it with 20,000 tons of TSP which respondent knew Goldschmidt intended to reexport to Cuba. At the outset Gardinier intended to supply the TSP from the production of one of its plants in France. For various reasons Gardinier was unable to supply the material from this source. Gardinier informed Goldschmidt that it could not supply the material and Goldschmidt replied that it had undertaken an obligation with its Cuban customer based on assurances from Gardinier and it (Goldschmidt) insisted that Gardinier had made a binding contract.

4. Francois Gardinier and Constantin considered that the Gardinier firm was obligated to furnish the material to Goldschmidt.

5. To obtain the TSP to fulfill its contract, Gardinier on October 1, 1968 entered into a contract with a Swiss firm, which was an agent of a U.S. supplier of TSP, to purchase 10,000 to 12,000 tons of U.S.-origin TSP for delivery at Le-Havre, France.

6. On the same day (Oct. 1, 1968) Gardinier and Goldschmidt agreed that the amount of TSP that Gardinier would have to supply would be reduced to between 10,000 and 12,000 tons.

7. Gardinier, in order to cover its direct connection in the purchase of the U.S.-origin TSP which it knew was destined for Cuba, arranged to have another firm in France appear as purchaser from the U.S. vendor. Gardinier paid said firm for its services. The said intermediary firm on instructions from Gardinier sold the TSP to Goldschmidt.

8. The U.S. supplier of the TSP exported approximately 12,000 tons of the material from the United States on October 16, 1968. The discharge port was changed from LeHavre to Bordeaux, France. The cargo of TSP was unloaded at Bordeaux on October 28, 1968. On instructions from Goldschmidt approximately 10,200 metric tons of the material was, on November 25, 1968, loaded on a Cuban vessel and reexported to Cuba.

9. Gardinier knew that the TSP it agreed to purchase and which, through the intermediary above referred to, it did purchase from the Swiss agent of the U.S. firm was of U.S. origin and that the Goldschmidt firm intended to reexport said material from France to Cuba. Gardinier also knew that such reexportation would be in violation of the U.S. Export Control Regulations.

Based on the foregoing, I have concluded that respondent violated the following sections of the Export Control Regulations: § 387.4, in that it sold and disposed of commodities exported from the United States with knowledge that said commodities would be reexported from France to Cuba contrary to the prohibitions in said regulations with respect to such reexportation; § 387.6, in that without specific authorization from the Office of Export Control it disposed of commodities to a party for use in violation and contrary to the provisions of the Export Control Regulations.

I have considered the record in the case and the recommendation of the Compliance Commissioner. The consent proposal as modified is hereby accepted. Being of the view that the following order is calculated to achieve effective enforcement of the law and the purposes thereof: *It is hereby ordered:*

I. All outstanding licenses in which the respondent Les Etablissement Gardinier appears or participates in any manner are hereby revoked and shall be returned forthwith to the Bureau of International Commerce for cancellation.

II. Except as qualified in Part IV hereof, the respondent for a period of 3 years from the effective date of this order is hereby denied all privileges of participating, directly or indirectly, in a manner or capacity, in any transaction,

[1] This act has been succeeded by the Export Administration Act of 1969, Public Law 91-184, approved Dec. 30, 1969, 50 U.S.C. App. sec. 2401-2413. Section 13(b) of the new Act provides, "All outstanding delegations,' rules, regulations, orders, licenses, or other forms of administrative action under the Export Control Act of 1949 * * * shall, until amended or revoked remain in full force and effect, the same as if promulgated under this Act".

involving commodities or technical data exported from the United States in whole or in part, or to be exported, or which are otherwise subject to the Export Control Regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction either in the United States or abroad shall include participation: (a) As a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control documents; (d) in the carrying on of negotiations with respect to, or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data; (e) in the financing, forwarding, transporting, or other servicing of such commodities or technical data.

Nothing in this order shall be construed to affect matters relating to exceptions which may be granted as set forth in letter of even date to respondent.

III. Such denial of export privileges shall extend not only to respondent but also to its successors, representatives, agents, partners, and employees and to any person, firm, corporation, or other business organization with which it now or hereafter may be related by affiliation, ownership, control, position of responsibility or other connection in the conduct of trade or services connected therewith.

IV. Six months after the effective date of this order the privileges denied to the respondent shall be restored conditionally and thereafter said respondent shall be on probation for the remainder of the denial period. The condition of probation is that respondent shall fully comply with all requirements of the Export Administration Act of 1969 and all regulations, licenses and orders issued thereunder, including this order.

V. Upon a finding by the Director, Office of Export Control or such other official as may be exercising the duties now exercised by him, that the respondent has knowingly failed to comply with the requirements and conditions of this order or with any of the conditions of probation said official without notice, when national security or foreign policy considerations are involved, or with notice if such considerations are not involved, by supplemental order may revoke the probation of said respondent, revoke all outstanding validated export licenses to which said respondent may be a party and deny to said respondent all export privileges for the remaining period of the order. Such supplemental order shall not preclude the Bureau of International Commerce from taking such further action for any violation as it shall deem warranted. On the entry of a supplemental order revoking respondent's probation without notice it may file objections and request that such order be set aside and may request an oral hearing as provided in § 388.16 of the Export Control Regulations, but pending such further proceedings the order of revocation shall remain in effect.

VI. During the time that respondent is prohibited from engaging in any activity within the scope of Part II hereof, no person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of International Commerce, shall do any of the following acts, directly or indirectly, in any manner or capacity, on behalf of or in any association with the respondent or whereby said respondent may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for the respondent; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

This order is to be effective on August 1, 1971.

Dated: July 28, 1971.

RAUER H. MEYER,
Director, Office of Export Control.

[FR Doc.71-11213 Filed 8-5-71;8:45 am]

Office of the Secretary

[Dept. Organization Order 30-5B]

OFFICE OF TELECOMMUNICATIONS

Organization and Functions

This material supersedes the material appearing at 35 F.R. 15177 of September 29, 1970.

SECTION 1. *Purpose.* .01 This order prescribes the organization and assignment of functions within the Office of Telecommunications.

.02 This revision establishes an Assistant Director for Program Development and Evaluation (paragraph 3.03 of this order), and an Administrative Officer (paragraph 3.04) both of which are in the Office of the Director. It also establishes a Policy Support Division (section 7) and makes minor changes in the mission and functions of the Institute for Telecommunication Sciences (section 6).

SEC. 2. *Organization structure.* The organization structure and line of authority of the Office of Telecommunications shall be as depicted in the attached organization chart. (A copy of the organization chart is on file with original of this document with the Office of the Federal Register.)

SEC. 3. *Office of the Director.* .01 The Director, as the head of the Office of Telecommunications, shall direct and be responsible for all operations of the organization.

.02 The Deputy Director shall assist the Director in directing the Office and perform the functions of the Director during his absence.

.03 The Assistant Director for Program Development and Evaluation shall initiate and maintain a formal program planning and evaluation system for the Office of Telecommunications, including such functions as: Supervised planning and development of future programs for all elements of the Office; establish management, evaluation, report, and control standards and procedures for all elements; evaluate past performance of all elements; review current performance of all elements; and coordinate the management of all program activities which involve more than one line division.

.04 The Administrative Officer shall:

a. Provide analysis and assistance for the Director toward developing or improving the management systems of the Office, and

b. Be the principal assistant and advisor to the Director on administration management and support functions, including: procurement, accounting, budgeting, personnel services, property management, security, emergency planning and civil defense, office services (such as mail, messenger, communications, and duplicating) and office management (such as records and forms management).

SEC. 4. *Frequency Management Support Division.* The Frequency Management Support Division shall provide centralized technical and administrative support for coordination of Federal frequency uses and assignments and such other services and administrative functions, including the maintenance of necessary files and data bases, responsive to the needs of the Director of the Office of Telecommunications Policy in the Executive Office of the President, in the performance of his responsibilities for the management of the radio spectrum.

SEC. 5. *Telecommunications Analysis Division.* The Telecommunications Analysis Division shall:

a. Conduct technical and economic research and analysis of a long term, continuing nature to provide information and alternatives for the resolution of policy questions, including studies leading to the more efficient allocation and utilization of telecommunications resources;

b. Provide forecasts of technological developments affecting telecommunications and estimate their significance; and

c. Provide advisory services in telecommunications to agencies of Federal, State, and local governments.

SEC. 6. *Institute for Telecommunication Sciences.* The Institute for Telecommunication Sciences shall provide the scientific, engineering, and technological competence necessary to the functions of the Office of Telecommunications. As such, it shall:

a. Serve as the central Federal agency for research on the transmission of radio waves;

b. Acquire, analyze, and disseminate data and perform research in general on the description and prediction of electromagnetic wave propagation, on the nature of electromagnetic noise and interference, and on methods for the more efficient use of the electromagnetic spectrum for telecommunication purposes;

c. Prepare and issue predictions of electromagnetic wave propagation conditions and warnings of disturbances in those conditions:

d. Conduct research and analysis on radio systems characteristics, and operating techniques affecting the utilization of the radio spectrum in coordination with specialized, related research and analysis performed by other Federal agencies in their areas of responsibility;

e. Conduct research and analysis in the general field of telecommunication sciences in support of other Government agencies as required; and

f. Develop methods of measurement of system performance and standards of practice for telecommunication systems.

SEC. 7. *Policy Support Division.* The Policy Support Division shall:

a. Provide economic and policy studies in support of the Office of Telecommunications Policy; and

b. Perform such other analysis as is required to support Office of Telecommunications Policy.

Effective date: July 22, 1971.

LARRY A. JOBE,
Assistant Secretary for Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. FDC-D-259; various NDA's]

NEW-DRUG APPLICATIONS

Notice of Withdrawal of Approval

A notice of opportunity for hearing was published in the FEDERAL REGISTER on January 13, 1971 (36 F.R. 454), extending to each holder of a "deemed approved" new-drug application listed herein, and to any interested person who might be adversely affected, an opportunity for hearing on the proposal of the Commissioner of Food and Drugs to issue an order under the provision of section 505 (e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of such applications and all approved amendments and supplements thereto.

The objective of this action is to close a large number of new-drug files on drugs that have been discontinued or were never marketed. Withdrawal of approval of these applications is not for the purpose of classifying the products as new drugs or of applying the efficacy provisions of the Act to drugs of the same composition marketed by other firms.

The applicants listed below have either indicated that they will not avail themselves of the opportunity for a hearing or have not filed a written appearance of election within 30 days as provided by said notice for the new-drug applications listed herein. The failure to file such an appearance is construed as an election by such persons not to avail themselves of the opportunity for hearing.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505(e), 52 Stat. 1053, as amended; 21 U.S.C. 355(e)), and under authority delegated to the Commissioner (21 CFR 2.120), approval of the following new-drug applications, including all amendments and supplements thereto, is hereby withdrawn on the grounds that the applicants have repeatedly failed to make reports under section 505(j) of the Act (21 U.S.C. 355(j)) and 130.13 and 130.35 (e) and (f) of the new-drug regulations (21 CFR 130.13 and 130.35).

[DESI 2282]

NONRADIOPAQUE DIAGNOSTIC DRUGS

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drugs:

1. Mannitol Injection, containing mannitol; Merck Sharp & Dohme, Division of Merck & Co., Inc., West Point, Penna. 19486 (NDA 5-620).

2. Sodium Aminohippurate Injection; Merck Sharp & Dohme, Division of Merck & Co., Inc. (NDA 5-619).

3. Evans Blue Injection; General Diagnostics Division, Warner-Chilcott Laboratories, 201 Tabor Road, Morris Plains, N.J. 07950 (NDA 8-041).

4. Insulin for Injection; U.S. Standard Products Division of Arnar-Stone Laboratories, Inc., 601 East Kensington Road, Mount Prospect, Ill. 60056 (NDA 2-282).

These drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new-drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. A new-drug application is required from any person marketing such drugs without approval.

The Food and Drug Administration is prepared to approve new-drug applications and supplements to previously approved new-drug applications under conditions described in this announcement.

I. MANNITOL FOR INJECTION

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that mannitol for injection is effective for: Measurement of glomerular filtration rate; use as an irrigating solution in transurethral resection; and as a test dose to determine the diuretic response to mannitol in oliguric patients.

B. *Form of drug.* Mannitol preparations are in sterile aqueous solution form suitable for parenteral administration.

C. *Labeling conditions.* 1. The label bears the statement "Caution: Federal law prohibits dispensing without prescription."

2. The drug is labeled to comply with all requirements of the Act and regulations. Its labeling bears adequate information for safe and effective use of the drug and is in accord with the guidelines for uniform labeling published in the FEDERAL REGISTER of February 6, 1970. The "Indications" section is as follows:

INDICATIONS

For measurement of glomerular filtration rate; for use (when diluted) as an irrigating solution in transurethral resection; as a test dose to determine the diuretic response to mannitol in oliguric patients.

D. *Marketing status.* Marketing of the drug may continue under the conditions described in items VI and VII of this announcement.

II. SODIUM AMINOHIPPURATE INJECTION

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that sodium aminohippurate injection is:

1. Effective for estimation of effective renal plasma flow and as a research procedure for the measurement of the functional capacity of the renal tubular secretory mechanism.

2. Possibly effective for estimation of cardiac output.

B. *Form of drug.* Sodium aminohippurate preparations are in sterile aqueous solution form suitable for parenteral administration.

C. *Labeling conditions.* 1. The label bears the statement "Caution: Federal law prohibits dispensing without prescription."

2. The drug is labeled to comply with all requirements of the Act and regulations. Its labeling bears adequate information for safe and effective use of the drug and is in accord with the guidelines for uniform labeling published in the FEDERAL REGISTER of February 6, 1970. The "Indications" section is as follows:

INDICATIONS

For estimation of effective renal plasma flow and as a research procedure for the measurement of the functional capacity of the renal tubular secretory mechanism.

D. *Marketing status.* Marketing of the drug may continue under the conditions described in items VI and VII of this announcement except that the possibly effective referenced in paragraph V may continue to be used as described therein.

III. EVANS BLUE INJECTION

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that Evans Blue Injection is effective for measurement of circulating blood volume.

B. *Form of drug.* Evans Blue preparations are in sterile aqueous solution form suitable for parenteral administration.

C. *Labeling conditions.* 1. The label bears the statement "Caution: Federal law prohibits dispensing without prescription."

2. The drug is labeled to comply with all requirements of the Act and regulations. Its labeling bears adequate information for safe and effective use of the drug and is in accord with the guidelines for uniform labeling published in the FEDERAL REGISTER of February 6, 1970. The "Indications" section is as follows:

INDICATIONS

For measurement of circulating blood volume.

D. *Marketing status.* Marketing of the drug may continue under the conditions described in items VI and VII of this announcement.

IV. INULIN FOR INJECTION

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that inulin for injection is effective for measurement of glomerular filtration rate.

B. *Form of drug.* Inulin preparations are in sterile aqueous solution form suitable for parenteral administration.

C. *Labeling conditions.* 1. The label bears the statement "Caution: Federal law prohibits dispensing without prescription."

2. The drug is labeled to comply with all requirements of the Act and regulations. Its labeling bears adequate information for safe and effective use of the drug and is in accord with the guidelines for uniform labeling published in the FEDERAL REGISTER of February 6, 1970. The "Indications" section is as follows:

INDICATIONS

For measurement of glomerular filtration rate.

D. *Marketing status.* Marketing of the drug may continue under the conditions described in items VI and VII of this announcement.

V. INDICATIONS PERMITTED DURING EXTENDED PERIOD FOR OBTAINING SUBSTANTIAL EVIDENCE

The indication for which sodium aminohippurate is described in paragraph II A 2 above as possibly effective (not included in the labeling conditions in paragraph II C) may continue to be used for 6 months following the date of this publication to allow additional time within which holders of previously approved applications or persons marketing the drug without approval may obtain and submit to the Food and Drug Administration data to provide substantial evidence of effectiveness.

To be acceptable for consideration in support of the effectiveness of a drug, any such data must be previously unsubmitted, well-organized, and include data from adequate and well-controlled clinical investigations (identified for ready review) as described in § 130.12(a)(5) of the regulations published in the FEDERAL REGISTER of May 8, 1970 (35 F.R. 7250). Carefully conducted and documented clinical studies obtained under uncontrolled or partially controlled situations are not acceptable as a sole basis for the approval of claims of effectiveness, but such studies may be considered on their merits for corroborative support of efficacy and evidence of safety.

VI. PREVIOUSLY APPROVED APPLICATIONS

A. Each holder of a "deemed approved" new-drug application (i.e., an application which became effective on the basis of safety prior to October 10, 1962) for such drug is requested to seek approval of the claims of effectiveness and bring the application into conformance by submitting supplements containing:

1. Updating information as needed to make the application current in regard to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of the new-drug application form FD–356H to the extent described for abbreviated new-drug applications, § 130.4(f), published in the FEDERAL REGISTER of April 24, 1970 (35 F.R. 6574). (One supplement may contain all the information described in this paragraph.)

B. Such supplements should be submitted within the following time periods after the date of publication of this notice in the FEDERAL REGISTER:

1. Sixty days for revised labeling—the supplement should be submitted under the provisions of § 130.9 (d) and (e) of the new-drug regulations (21 CFR 130.9) which permit certain changes to be put into effect at the earliest possible time.

2. Sixty days for updating information.

C. Marketing of the drug may continue until the supplemental applications submitted in accord with the preceding subparagraphs A and B are acted upon, provided that within 60 days after the date of this publication, the labeling of the preparation shipped within the jurisdiction of the Act is in accord with the labeling conditions described in this announcement. (It may continue to include the indication referenced in paragraph V for the period stated.)

VII. NEW APPLICATIONS

A. Any other person who distributes or intends to distribute such drug which is intended for the conditions of use for which it has been shown to be effective, as described above, should submit an abbreviated new-drug application meeting the conditions specified in § 130.4(f)(1) and (2), published in the FEDERAL REGISTER of April 24, 1970 (35 F.R. 6574). Such applications should include proposed labeling which is in accord with the labeling conditions described herein.

B. Distribution of any such preparation currently on the market without an approved new-drug application may be continued provided that:

1. Within 60 days from the date of publication of this announcement in the FEDERAL REGISTER, the labeling of such preparation shipped within the jurisdiction of the Act is in accord with the labeling conditions described herein. (It may continue to include the indication referenced in paragraph V for the period stated.)

2. The manufacturer, packer, or distributor of such drug submits, within 60 days from the date of this publication, a new-drug application to the Food and Drug Administration.

3. The applicant submits within a reasonable time additional information that may be required for the approval of the application as specified in a written communication from the Food and Drug Administration.

4. The application has not been ruled incomplete or unapprovable.

VIII. UNAPPROVED USE OR FORM OF DRUG

A. If the article is labeled or advertised for use in any condition other than those provided for in this announcement, it may be regarded as an unapproved new drug subject to regulatory proceedings until such recommended use is approved in a new-drug application, or is otherwise in accord with this announcement.

B. If the article is proposed for marketing in another form or for a use other than the use provided for in this announcement, appropriate additional information as described in § 130.4 or § 130.9 of the regulations (21 CFR 130.4, 130.9) may be required, including results of animal and clinical tests intended to show whether the drug is safe and effective.

A copy of the Academy's report has been furnished to each firm referred to above. Any other interested person may obtain a copy by request to the Food and Drug Administration, Press Relations Office (CE–200), 200 C Street SW., Washington, D.C. 20204.

Communications forwarded in response to this announcement should be identified with the reference number DESI 2282, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Maryland 20852:

Supplements (Identify with NDA number): Office of Scientific Evaluation (BD–100), Bureau of Drugs.

Original abbreviated new-drug applications (identify as such): Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

This notice is issued pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: July 12, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

[DESI 7504; Docket No. FDC–D–329; NDA 7–504, etc.]

CORTICOTROPIN FOR PARENTERAL USE

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following corticotropin drugs for parenteral administration:

1. Preparations containing corticotropin zinc hydroxide:

a. Cortrophin-Zinc Suspension; Organon, Inc., 375 Mount Pleasant Avenue, West Orange, N.J. 07052 (NDA 9–854).

2. Preparations containing corticotropin:

a. Purified Cortrophin Gel; Organon, Inc. (NDA 8–975).

b. ACTH Steri-Vials; Parke, Davis and Co., Joseph Campau at the River, Detroit, Mich. 48232 (NDA 8–317).

c. ACTH Gel; The Wilson Laboratories, 4221 South Western Boulevard, Chicago, Ill. 60609 (NDA 8–362).

d. Corticotropin Solution; The Wilson Laboratories (NDA 7–747).

e. ACTH Gel; The National Drug Co., Division of Richardson-Merrell, Inc., 4663 Stenton Avenue, Philadelphia, Pa. 19144 (NDA 8–553).

f. ACTH Solution; The National Drug Co. (NDA 7–727).

g. H. P. Acthar Gel; Armour Pharmaceutical Co., Division, Armour and Co., 401 North Wabash Avenue., Chicago, Ill. 60690 (NDA 8–372).

h. Acthar; Armour Pharmaceutical Co. (NDA 7–504).

i. Depo-ACTH; The Upjohn Co., 7171 Portage Road, Kalamazoo, Mich. 49001 (NDA 9–694).

j. Duracton; Nordic Biochemicals, Inc., Post Office Box 224, Holliston, Mass. 01746 (NDA 10–565).

The drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in, and to update previously approved applications providing for such drugs. A new drug application is required from any person marketing such drugs without approval.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that these drugs are:

1. Effective or probably effective for the indications described in the labeling conditions which follow; the probably effective indications are congenital idiopathic hypoglycemia; control of certain severe or incapacitating allergic conditions, e.g., angioedema and urticaria, intractable to adequate trials of conventional treatment; pulmonary emphysema where bronchospasm or bronchial edema plays a significant role; to tide the patient over a critical period in the course of such disease as ulcerative colitis, Crohn's disease, and intractable sprue; and in infectious mononucleosis.

2. Lacking substantial evidence of effectiveness for their recommended use in functional hypopituitarism; thyroiditis; orchitis; hypoglycemia; gout; chronic bursitis; myositis; fibrositis; drug sensitivities; certain drug hypersensitivities; drug sensitivity reactions; penicillin reactions; allergies; snake bite; anogenital pruritus; acute ocular inflammation; acute secondary glaucoma; silicosis; idiopathic thrombocytopenic purpura; aplastic anemia; agranulocytosis; iodiopathic hemolytic anemia; acute hemolytic anemia; acquired hemolytic jaundice; erythroblastosis fetalis; post vaccination encephalitis; inflammatory diseases of the skin; certain blood dyscrasias; hyperemesis gravidarum; postpartum psychosis; alcoholism and delirium tremens; neuritis; nontuberculous bacterial meningitis; viral meningitis; peritonitis; heat sickness; radiation sickness; burns; and cancer.

3. Except for the indications referred to above, these drugs are regarded as possibly effective for their labeled indications.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new-drug applications and abbreviated supplements to previously approved new-drug applications under conditions described herein.

1. *Form of drug.* These preparations are in sterile aqueous solution, aqueous suspension, gel, or lyophilized powder form suitable for parenteral administration.

2. *Labeling conditions.* a. The labels bear the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drugs are labeled to comply with all requirements of the Act and regulations. The labeling bears adequate information for safe and effective use of the drug and is in accord with the guidelines for uniform labeling published in the FEDERAL REGISTER of February 6, 1970. The "Indications" section is as follows:

INDICATIONS

(*Name of drug*) is indicated for diagnostic testing of adrenocortical function.

(*Name of drug*) has limited therapeutic value in those conditions responsive to corticosteroid therapy; however, corticosteroid therapy is considered to be the treatment of choice. (*Name of drug*) may be employed in the following disorders:

Rheumatic disorders:
As adjunctive therapy for short-term administration (to tide the patient over an acute episode or exacerbation) in—
Psoriatic arthritis.
Rheumatoid arthritis.
Ankylosing spondylitis.
Acute and subacute bursitis.
Acute nonspecific tenosynovitis.
Acute gouty arthritis.

Collagen diseases:
During an exacerbation or as maintenance therapy in selected cases of—
Systemic lupus erythematosus.
Systemic dermatomyositis (polymyositis).
Acute rheumatic carditis.

Dermatologic diseases:
Pemphigus.
Bullous dermatitis herpetiformis.
Severe erythema multiforme (Stevens-Johnson syndrome).
Exfoliative dermatitis.
Severe psoriasis.

Allergic states:
Control of severe or incapacitating allergic conditions intractable to adequate trials of conventional treatment—
Seasonal or perennial allergic rhinitis.
Bronchial asthma.
Contact dermatitis.
Atopic dermatitis.
Serum sickness.

Ophthalmic diseases:
Severe acute and chronic allergic and inflammatory processes involving the eye and its adnexa such as—
Allergic conjunctivitis.
Keratitis.
Herpes zoster ophthalmicus.
Iritis.
Diffuse posterior uveitis and choroiditis.
Optic neuritis.
Sympathetic ophthalmia.

Respiratory diseases:
Symptomatic sarcoidosis.
Loeffler's syndrome not manageable by other means.
Berylliosis.

Hematologic disorders:
Acquired (autoimmune) hemolytic anemia.

Neoplastic diseases:
For palliative management of—
Leukemias and lymphomas in adults.
Acute leukemia of childhood.

Edematous state:
To induce a diuresis or a remission of proteinuria in the nephrotic syndrome without uremia of the idiopathic type or that due to lupus erythematosus.

Miscellaneous:
Tuberculous meningitis with subarachnoid block or impending block when concurrently accompanied by appropriate antituberculous chemotherapy.
Trichinosis of neurologic or myocardial involvement. Corticotropin may also be useful in the following conditions:

Metabolic disorder:
Congenital idiopathic hypoglycemia.

Allergic States:
Control of severe or incapacitating allergic conditions intractable to adequate trials of conventional treatment—
Angioedema.
Urticaria.

Respiratory diseases:
Pulmonary emphysema where bronchospasm or bronchial edema plays a significant role.

Gastrointestinal diseases:
To tide the patient over a critical period of the disease in—
Ulcerative colitis.
Crohn's disease.
Intractable sprue.

Hematologic disorders:
Infectious mononucleosis.

3. *Marketing status.* Marketing of such drugs may be continued under the conditions described in the notice entitled "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study," published in the FEDERAL REGISTER July 14, 1970 (35 F.R. 11273), as follows:

a. For holders of "deemed approved" new-drug applications (i.e., an application which became effective on the basis of safety prior to October 10, 1962), the submission of a supplement for revised labeling, and abbreviated supplement for updating information, and adequate data to show the biologic availability of the

drug in the formulation which is marketed as described in paragraphs (a)(1)(i), (ii), and (iii) of the notice of July 14, 1970. For preparations claiming sustained action, timed release or other delayed or prolonged effect, such data should show that the drug is available at a rate of release which will be safe and effective.

b. For any person who does not hold an approved or effective new-drug application, the submission of an abbreviated new-drug application, to include adequate data to assure biologic availability of the drug in the formulation which is or is intended to be marketed, as described in paragraph (a)(3)(ii) of that notice. For preparations claiming sustained action, timed release or other delayed or prolonged effect, such data should show that the drug is available at a rate of release which will be safe and effective.

c. For any distributor of the drug, the use of labeling in accord with this announcement for any such drug shipped within the jurisdiction of the Act as described in paragraph (b) of that notice.

d. For indications for which the drug has been classified as probably effective (included in the "Indications" section above) and possibly effective (not included in the "Indications" section), continued use as described in (c), (d), (e), and (f) of that notice.

C. *Opportunity for a hearing.* 1. The Commissioner of Food and Drugs proposes to issue an order under the provisions of section 505(e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of all new drug applications and all amendments and supplements thereto providing for the indications for which substantial evidence of effectiveness is lacking as described in paragraph A.2 of this announcement. An order withdrawing approval of the applications will not issue if such applications are supplemented, in accord with this notice, to delete such indications. Promulgation of the proposed order would cause any such drug for human use offered for the indications for which substantial evidence of effectiveness is lacking, to be a new drug for which an approved new-drug application is not in effect. Any such drug then on the market would be subject to regulatory proceedings.

2. In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner will give the holders of any such applications, and any interested person who would be adversely affected by such an order, an opportunity for a hearing to show why such indications should not be deleted from the labeling. A request for a hearing must be filed within 30 days after the date of publication of this notice in the FEDERAL REGISTER.

3. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing, together with a well-organized and full factual analysis of the clinical and other investigational data the objector is prepared to prove in a hearing. Any data submitted in response to this notice must be previously unsubmitted and include data from adequate and well controlled clinical investigations (identified for ready review) as described in § 130.12(a)(5) of the regulations published in the FEDERAL REGISTER of May 8, 1970 (35 F.R. 7250). Carefully conducted and documented clinical studies obtained under uncontrolled or partially controlled situations are not acceptable as a sole basis for approval of claims of effectiveness, but such studies may be considered on their merits for corroborative support of efficacy and evidence of safety.

4. If a hearing is requested and is justified by the response to this notice, the issues will be defined, a hearing examiner will be named, and he shall issue a written notice of the time and place at which the hearing will commence.

A copy of the NAS–NRC report has been furnished to each firm referred to above. Any other interested person may obtain a copy by request to the Food and Drug Administration, Press Relations Office (CE–200), 200 C Street SW., Washington, D.C. 20204.

Communications forwarded in response to this announcement should be identified with the reference number DESI 7504, directed to the attention of the following appropriate office, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD–100), Bureau of Drugs.
Original abbreviated new-drug applications (identify as such): Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.
Request for Hearing (identify with Docket number): Hearing Clerk, Office of General Counsel (GC–1), Room 6–62, Parklawn Building.
All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

This notice is issued pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: July 1, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

[DESI 8279]

NALORPHINE HYDROCHLORIDE INJECTION

Drugs for Human Use; Drug Efficacy Study Implementation

In a notice published in the FEDERAL REGISTER of May 21, 1969 (34 F.R. 7995), the Commissioner of Food and Drugs announced his conclusions pursuant to evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on Injection Nalline Hydrochloride Adult Concentration and Injection Nalline Hydrochloride for Neonatal Use (nalorphine hydrochloride) (NDA 8–279); Merck Sharp & Dohme, Division of Merck & Co., Inc., West Point, Pa. 19486. The announcement stated that the drugs were regarded as effective for certain indications and possibly effective for their prophylactic indications.

The possibly effective indications have been reclassified as lacking substantial evidence of effectiveness in that no new evidence of effectiveness was submitted. Merck Sharp & Dohme, holder of the only new-drug application for nalorphine hydrochloride injection supplemented NDA 8–279 to delete from labeling all indications other than those regarded effective, and the supplement has been approved.

Any such preparation on the market with labeling bearing indications for which substantial evidence of effectiveness is lacking may be subject to regulatory proceedings.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: July 22, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

[DESI 8940]

TOPICAL CREAM CONTAINING PYRILAMINE MALEATE, BENZOCAINE, HEXACHLOROPHENE, AND CETRIMONIUM BROMIDE

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on:

Hyrocain Cream containing pyrilamine maleate, benzocaine, hexachlorophene, and cetrimonium bromide; American Pharmaceutical Co., 120 Bruckner Boulevard, New York, N.Y. 10454 (NDA 8–940).

The drug is regarded as a new drug (21 U.S.C. 321(p)). The effectiveness classification and marketing status are described below.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that this drug is possibly effective for its recommended uses to help prevent infection in minor cuts, burns, and abrasions; as an aid to healing; and for the relief of itching due to sunburn, poison ivy, and diaper rash.

B. *Marketing status.* Marketing of such drug with labeling which recommends or suggests its use for indications for which it has been classified as possibly effective may be continued for 6 months as described in paragraphs (d), (e), and (f) of the notice "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study," published in the FEDERAL REGISTER, July 14, 1970 (35 F.R. 11273).

A copy of the Academy's report has been furnished to the firm referred to above. Any other interested person may obtain a copy by request to the Food and Drug Administration, Press Relations Office (CE–200), 200 C Street SW., Washington, D.C. 20204.

Communications forwarded in response to this announcement should be identified with the reference number DESI 8940, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD–100), Bureau of Drugs.
Original new-drug applications: Office of Scientific Evaluation (BD–100), Bureau of Drugs.
All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–5), Bureau of Drugs.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act. (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

[DESI 9523]

TETRAHYDROZOLINE NASAL SOLUTIONS

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on Tyzine Nasal Solution and Spray (NDA 9–523), and Tyzine Pediatric Nasal Drops (NDA 9–941) containing tetrahydrozoline hydrochloride; marketed by Pfizer Laboratories Division, Chas. Pfizer and Co., Inc., 235 East 42d Street, New York, New York 10017.

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new-drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. A new-drug application is required from any person marketing such drug without approval.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that tetrahydrozoline hydrochloride is effective for decongestion of the nasal and nasopharyngeal mucosa.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new-drug applications and abbreviated supplements to previously approved new-drug applications under conditions described herein.

1. *Form of drug.* Tetrahydrozoline hydrochloride preparations are in aqueous solution form suitable for nasal administration.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the Act and regulations. The labeling bears adequate information for safe and effective use of the drug and is in accord with the guidelines for uniform labeling published in the FEDERAL REGISTER of February 6, 1970. The "Indications" section is as follows:

INDICATIONS

For decongestion of nasal and nasopharyngeal mucosa.

3. *Marketing status.* Marketing of such drugs may be continued under the conditions described in the notice entitled "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study," published in the FEDERAL REGISTER, July 14, 1970 (35 F.R. 11273), as follows:

a. For holders of "deemed approved" new-drug applications (i.e., an application which became effective on the basis of safety prior to October 10, 1962), the submission of a supplement for revised labeling and an abbreviated supplement for updating information as described in paragraphs (a)(1)(i) and (iii) of the notice of July 14, 1970.

b. For any person who does not hold an approved or effective new-drug application, the submission of an abbreviated new-drug application as described in paragraph (a)(3)(i) of that notice.

c. For any distributor of the drug, the use of labeling in accord with this announcement for any such drug shipped within the jurisdiction of the Act as described in paragraph (b) of that notice.

A copy of the Academy's report has been furnished to the firm referred to above. Any other interested person may obtain a copy by request to the Food and Drug Administration, Press Relations Office (CE–200), 200 C Street SW., Washington, D.C. 20204.

Communications forwarded in response to this announcement should be identified with the reference number DESI 9523, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Maryland 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD–100), Bureau of Drugs.
Original abbreviated new-drug applications (identify as such): Drug Efficacy Study Implementation Project Office (BD–5), Bureau of Drugs.
All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–5), Bureau of Drugs.

This notice is issued pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

[DESI 0040 NV]

CERTAIN DRUG PRODUCTS CONTAINING NEOMYCIN AND SULFONAMIDES

Notice of Drugs Deemed Adulterated

An announcement concerning the products Neo-Plus Tablets (modified) with Triple Sulfas, Neo-Plus Tabsules (modified), and Neo-Plus Toytabs (modified), with Triple Sulfas was published in the FEDERAL REGISTER of May 5, 1970 (35 F.R. 7088). The announcement set forth the findings of the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, and the Food and Drug Administration stating that available information does not establish that the drugs are effective for their intended use in the treatment of diarrhea in young farm animals, dogs, and cats. Haver-Lockhart Laboratories, Post Office Box 676, Kansas City, MO 64141, the manufacturer of the above-listed drugs, was provided 6 months in which to submit adequate documentation in support of the labeling used.

Since publication of said announcement, the Food and Drug Administration has received no information in support of the efficacy of said drugs. Therefore, notice is given to Haver-Lockhart Laboratories and all interested persons that all stocks of the above-listed drugs within the jurisdiction of the Federal Food, Drug, and Cosmetic Act are deemed to be adulterated within the meaning of section 501(a)(5) of the act and are subject to appropriate regulatory action.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 501(a)(5), 512, 52 Stat. 1049, as amended, 82 Stat. 343–351; 21 U.S.C. 351(a)(5), 360b) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: July 23, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.71–11296 Filed 8–5–71;8:50 am]

[DESI 12108; Docket No. FDC–D–316; NDA 12–108]

CETRIMONIUM BROMIDE VAGINAL AEROSOL FOAM

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on Vega-Spray Vaginal Aerosol Foam containing cetrimonium bromide; Menlo Park Laboratories, Inc., Edison, New Jersey 08817 (NDA 12–108).

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new-drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. A new-drug application is required from any person marketing such drug without approval.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that this preparation is effective for use as a vaginal cleanser and lacks substantial evidence of effectiveness as labeled for use as a bacteriocidal agent against both gram-positive and gram-negative organisms.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new-drug applications and abbreviated supplements to previously approved new-drug applications under conditions described herein.

1. *Form of drug.* This preparation is in aerosol foam form suitable for vaginal instillation.

2. *Labeling conditions.* a. The drug is labeled to comply with all requirements of the Act and regulations. The labeling bears adequate directions and warnings under which a layman can use the drug safely and for the purpose for which it is intended.

b. The statement of identity which includes the general pharmacological category or the principal intended action required by § 1.102a (21 CFR 1.102a) shall appear in bold face type on the principal display panel.

c. The indication for use shall be: For use as a vaginal cleanser.

3. *Marketing status.* Marketing of such drugs may be continued under the conditions described in the notice entitled "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study," published in the FEDERAL REGISTER, July 14, 1970 (35 F.R. 11273), as follows:

a. For holders of "deemed approved" new-drug applications (i.e., an application which became effective on the basis of safety prior to October 10, 1962), the submission of a supplement for revised labeling and an abbreviated supplement for updating information as described in paragraphs (a)(1) (i) and (iii) of the notice of July 14, 1970.

b. For any person who does not hold an approved or effective new-drug application, the submission of an abbreviated new-drug application as described in paragraph (a)(3)(i) of that notice.

c. For any distributor of the drug, the use of labeling in accord with this announcement for any such drug shipped within the jurisdiction of the Act as described in paragraph (b) of that notice.

C. *Opportunity for a hearing.* 1. The Commissioner of Food and Drugs proposes to issue an order under the provisions of section 505(e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of all new-drug applications and all amendments and supplements thereto providing for the indications for which substantial evidence of effectiveness is lacking as described in paragraph A of this announcement. An order withdrawing approval of the applications will not issue if such applications are supplemented in accord with this notice, to delete such indications. Any related drug for human use, not the subject of an approved new-drug application, may be affected by this action.

2. In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner will give the holders of any such applications, and any interested person who would be adversely affected by such an order, an opportunity for a hearing to show why such indications should not be deleted from labeling. A request for a hearing must be filed within 30 days after the date of publication of this notice in the FEDERAL REGISTER.

3. A request for a hearing may not rest upon mere allegations or denials but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing, together with a well-organized and full-factual analysis of the clinical and other investigational data that the objector is prepared to prove in a hearing. Any data submitted in response to this notice must be previously unsubmitted and include data from adequate and well-controlled clinical investigations (identified for ready review) as described in § 130.12(a)(5) of the regulations published in the FEDERAL REGISTER of May 8, 1970 (35 F.R. 7250). Carefully conducted and documented clinical studies obtained under uncontrolled or partially controlled situations are not acceptable as a sole basis for approval of claims of effectiveness, but such studies may be considered on their merits for corrobarative support of efficacy and evidence of safety.

4. If a hearing is requested and is justified by the response to this notice, the issues will be defined, a hearing examiner will be named, and he shall issue a written notice of the time and place at which the hearing will commence.

A copy of the Academy's report has been furnished to the firm referred to above. Any other interested person may obtain a copy by request to the Food and Drug Administration, Press Relations Office (CE–200), 200 C Street SW., Washington D.C. 20204.

Communications forwarded in response to this announcement should be identified with the reference number DESI 12108, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Maryland 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD–100), Bureau of Drugs.
Original abbreviated new-drugs application (identify as such): Drug Efficacy Study Implementation Project Office (BD–5), Bureau of Drugs.
Request for Hearing (identify with Docket number): Hearing Clerk, Office of General Counsel (GC–1), Room 6–62, Parklawn Building.
All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–5), Bureau of Drugs.

Received requests for a hearing may be seen in the office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: July 12, 1971.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc. 71–11292 Filed 8–5–71; 8:50 am]

CIVIL AERONAUTICS BOARD

[Docket No. 22628; Order 71–7–189]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Fare Matters

Issued under delegated authority July 30, 1971.

An agreement has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of Joint Conference 1–2–3 of the International Air Transport Association (IATA), and adopted by mail vote. The agreement has been assigned the above-designated CAB agreement number.

The agreement, which is procedural in character, corrects an inadvertent situation which would have the effect of denying special group fares to ship's crews over the polar routing between Europe and Asia.

The Board, by Orders 71–2–59, 71–3–87, and 71–4–103, disapproved, as being unjustly discriminatory, certain IATA resolutions which established special fares for the transportation of ship's crews. For the same reason we tentatively find that the subject agreement is adverse to the public interest and in violation of the Act insofar as air transportation is concerned.

Pursuant to the authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14,

It is ordered, That:

Action on Agreement CAB 22546 be and hereby is deferred with a view toward eventual disapproval insofar as air transportation is concerned.

Persons entitled to petition the Board for review of this order, pursuant to the Board's regulations, 14 CFR 385.50, may, within 10 days after the date of service of this order, file such petitions in support of or in opposition to our proposed action herein.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.71–11310 Filed 8–5–71;8:51 am]

ENVIRONMENTAL PROTECTION AGENCY

CIBA AGROCHEMICAL CO. AND NOR-AM AGRICULTURAL PRODUCTS, INC.

Notice of Filing of Pesticide and Food Additive Petitions

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 408(d)(1), 409(b)(5), 68 Stat. 512, 72 Stat. 1786; 21 U.S.C. 346a(d)(1), 348(b)(5)), notice is given that a pesticide petition (PP 1F1171) has been jointly filed by Ciba Agrochemical Co., Division of Ciba-Geigy Corp., Post Office Box 1105, Vero Beach, FL 32960, and Nor-Am Agricultural Products, Inc., 11710 Lake Avenue, Woodstock, IL 60098, proposing establishment of tolerances (21 CFR Part 420) for combined residues of the insecticide *N'*-(4-chloro-*o*-tolyl)-*N,N*-dimethylformamidine and its metabolites containing the 4-chloro-*o*-toluidine moiety (calculated as the parent insecticide) from application of the insecticide as the free base or as the hydrochloride salt in or on the raw agricultural commodities cherries, nectarines, and peaches at 5 parts per million; plums (fresh prunes) at 4 parts per million; and walnuts at 0.25 part per million.

Notice is also given that the firms have filed a related food additive petition (FAP 1H2661) proposing establishment of a food additive tolerance (21 CFR Part 121) of 15 parts per million for residues of this insecticide in or on dried prunes from application of the insecticide to the growing raw agricultural commodity plums.

The analytical method proposed in the pesticide petition for determining the insecticide residues is a procedure in which the residue is hydrolyzed to *p*-chlorotoluidine, steam distilled, and extracted into isooctane. The extract is then diazotized and coupled with *N*-ethyl-1-naphthylamine to produce a purple dye which is determined colorimetrically at 535 nanometers.

Dated: July 30, 1971.

LOWELL E. MILLER,
Acting Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.71–11307 Filed 8–5–71;8:51 am]

CIBA-GEIGY CORP.

Notice of Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 2F1178) has been filed by Ciba-Geigy Corp., Post Office Box 1090, Vero Beach, FL 32960, proposing establishment of tolerances (21 CFR Part 420) for negligible residues of the herbicide *p*-nitrophenyl 2-nitro-4-(trifluoromethyl) phenylether and its metabolites *p*-nitrophenyl 2-amino-4-(trifluoromethyl) phenylether and *p*-nitrophenol in or on the raw agricultural commodities peanuts, peanut hulls, and peanut vine hay at 0.2 part per million.

The analytical method proposed in the petition for determining residues of the herbicide is a gas chromatographic procedure utilizing an electron-capture detector.

Dated: July 30, 1971.

LOWELL E. MILLER,
Acting Deputy, Assistant Administrator for Pesticides Programs.

[FR Doc.71–11308 Filed 8–5–71;8:51 am]

GAF CORP.

Notice of Filing of Petition Regarding Pesticide Chemicals

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 1F1128) has been filed by GAF Corp., 140 West 51 Street, New York, NY 10020, proposing establishment of an exemption from the requirement of a tolerance for residues of the following surfactants as inert ingredients in pesticide formulations applied to growing crops or to raw agricultural commodities after harvest:

1. α-Dinonylphenyl-*omega*-hydroxypoly(oxyethylene) produced by the condensation of 1 mole of dinonylphenol (nonyl group is a propylene trimer isomer) with an average of 4–14 moles of ethylene oxide.

2. Mixtures of corresponding mono- and dihydrogen phosphate esters.

The analytical method proposed in the petition for determining residues of the surfactants is a colorimetric procedure in which the residue is extracted with distilled water and the aqueous solution is extracted with ethyl ether. After removal of the ether, the residue is reacted with ammonium cobaltothiocyanate at 20° C. to form a blue complex which is then extracted into chloroform from a salt solution and its absorbance measured using a spectrophotometer.

Dated: July 30, 1971.

LOWELL E. MILLER,
Acting Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.71–11306 Filed 8–5–71;8:51 am]

PPG INDUSTRIES, INC.

Notice of Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 1F1175) has been filed by PPG Industries, Inc., 1 Gateway Center, Pittsburgh, Pa. 15222, proposing establishment of a tolerance (21 CFR Part 420) for residues of the plant regulator CIPC (isopropyl *N*-(3-chlorophenyl carbamate) in or on the raw agricultural commodity sweetpotatoes at 50 parts per million from postharvest application.

The analytical method proposed in the petition for determining residues of the plant regulator is a gas-liquid chromatographic procedure with electron-capture detection.

Dated: July 30, 1971.

LOWELL E. MILLER,
Acting Deputy Assistant Administrator for Pesticides Programs.

FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License 626; No. 71–58]

COLAMERICA CO., INC.

Order of Revocation; Discontinuance of Proceeding

This proceeding was instituted to determine whether respondent Colamerica Co., Inc., continued to qualify as an independent ocean freight forwarder. Respondent, through one of its corporate officers, has subsequently indicated that it is no longer engaged in the business of forwarding and in fact surrendered its license to the Commission on June 28, 1971.

Accordingly, it is ordered, That Independent Ocean Freight Forwarder License No. 626, issued in the name of Colamerica Co., Inc., is revoked effective June 28, 1971.

It is further ordered, That a copy of this order be published in the FEDERAL

REGISTER and that proceedings in this matter be discontinued.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[FR Doc.71-11321 Filed 8-5-71;8:52 am]

[Independent Ocean Freight forwarder License 1001]

L. GRODWOHL & SON

Order of Revocation

On May 28, 1971, the Commission received notification that William Fischer, doing business as L. Grodwohl & Son, 33 Rector Street, New York, NY, wished to have its Independent Ocean Freight Forwarder License No. 1001 canceled on the condition that the Independent Ocean Freight Forwarder License No. 16, issued to Major Forwarding Co., Inc., be amended to include L. Grodwohl & Son as a division of the firm. The request was approved subject to the filing of an amended surety bond reflecting the name change. The bond has now been received and Independent Ocean Freight Forwarder License No. 16 has been reissued in the name of Major Forwarding Co., Inc., and L. Grodwohl & Son, a division of Major Forwarding Co., Inc., effective July 28, 1971.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) section 7.04(g) (dated September 29, 1970):

It is ordered, That the Independent Ocean Freight Forwarder License No. 1001 of William Fischer, doing business as L. Grodwohl & Son, Inc. be and is hereby revoked effective July 28, 1971, without prejudice to reapplication for a license at a later date.

It is further ordered, That a copy of this order be published in the FEDERAL REGISTER and served upon William Fischer, doing business as L. Grodwohl & Son, 44 Trinity Place, New York, NY 10006.

AARON W. REESE,
Managing Director.

ITALY, SOUTH FRANCE, SOUTH SPAIN, PORTUGAL/U.S. GULF AND PUERTO RICO CONFERENCE

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Stanley O. Sher, Esq., Bebchick, Sher & Kushnick, 919 18th Street NW., Washington, DC 20006.

Agreement No. 9522-17 modifies Article 9 of the above-named conference agreement by providing for autonomous ratemaking authority within each separate geographic section into which the Conference is divided.

Dated: August 3, 1971.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.71-11318 Filed 8-5-71;8:52 am]

ITALY, SOUTH FRANCE, SOUTH SPAIN, PORTUGAL/U.S. GULF AND PUERTO RICO CONFERENCE

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of application to permanently approve a temporary modification to Agreement No. 9522 filed by:

Stanley O. Sher, Esq., Bebchick, Sher & Kushnick, 919 18th Street NW., Washington, DC 20006.

The parties to the above-named conference have filed an application for permanent approval of Agreement No. 9522-11 which was previously approved by the Commission on April 15, 1969, for a period of 1 year, and subsequently extended until further order of the Commission. This Agreement modifies the basic conference agreement as follows:

1. Adds Puerto Rico to its geographic scope.

2. Includes Olives from Spain to Puerto Rico within its ratemaking authority.

3. Divides the geographic scope of the Conference into five (5) separate sections and designates them as the Italian, French, Spanish, Portuguese, and Puerto Rican sections.

4. Provides that qualified carriers may join one or more of these sections upon payment of stipulated fees and deposits.

5. Establishes an additional rate committee to deal with Puerto Rican rates.

6. Clarifies the procedures for apportioning Conference expenses.

Dated: August 3, 1971.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

ITALY, SOUTH FRANCE, SOUTH SPAIN, PORTUGAL/U.S. GULF AND PUERTO RICO CONFERENCE

Notice of Petition Filed

Notice is hereby given that the following petition has been filed with the Commission for approval pursuant to section 14b of the Shipping Act, 1916, as amended (75 Stat. 762, 46 U.S.C. 814).

Interested parties may inspect a copy of the current contract form and of the petition, reflecting the changes proposed to be made in the language of said contract, at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015 or at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to the proposed changes and the petition, including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, 1405 I Street NW., Washington, DC 20573, within 10 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed modification of the contract form and/or the approved contract system shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the petition (as indicated hereinafter), and the statement should indicate that this has been done.

Notice of applications to modify exclusive patronage (Dual Rate) contract system filed by:

Stanley O. Sher, Esq., Bebchick, Sher & Kushnick, 919 18th Street NW., Washington, DC 20006.

The above-named conference has filed applications pursuant to section 14b of the Shipping Act, 1916, to divide its currently approved dual rate system into four separate geographic areas with separate contracts and to establish, for a period of 18 months, a fifth area and contract covering service to the Island of Puerto Rico.

Dated: August 3, 1971.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Project No. 1363]

GILA AND SALT RIVER MERIDIAN, ARIZONA

Order Vacating Withdrawals

JULY 28, 1971.

Application has been filed by the Forest Service, U.S. Department of Agriculture, for vacation of the power withdrawals, in their entirety, for transmission line, Project No. 1363, pertaining to the following described lands:

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 16 N., R. 3 E.,
Sec. 9.
T. 17 N., R. 3 E.,
Secs. 25, 34, 35, 36.
T. 17 N., R. 4 E.,
Secs. 13, 14, 21, 22, 23, 24, 28, 29, 30.
T. 17 N., R. 5 E.,
Secs. 1, 2, 8, 9, 10, 11, 17, 18.
T. 17 N., R. 6 E.,
Secs. 4, 5, 6.
T. 18 N., R. 6 E.,
Secs. 1, 12, 13, 24, 25, 26, 34, 35.
T. 19 N., R. 6 E.,
Secs. 25, 36.
T. 18 N., R. 7 E.,
Secs. 8, 17, 20, 29.
T. 19 N., R. 7 E.,
Secs. 5, 6, 7, 17, 18, 20, 29.
T. 20 N., R. 7 E.,
Secs. 5, 7, 17, 29, 31, 32.
T. 21 N., R. 7 E.,
Secs. 19, 30, 31.

Portions totaling about 240 acres of the above-described sections were withdrawn pursuant to the filing by the Arizona Power Corp. on February 11, 1936, of an application for license and on September 16, 1936, of an amendatory application for license for Project No. 1363. Notices of land withdrawal for the project were given to the General Land Office (now Bureau of Land Management) by Commission letters dated April 30, 1936, and September 29, 1936.

Project No. 1363 consisted of a 44 kv. wood pole transmission line which extended about 42 miles from the Tapco steam plant near Clarkdale, Ariz., to a point near Flagstaff, Ariz. The license for the project was issued to the Arizona Power Corp. for the period of May 14, 1937, to July 3, 1978. On July 9, 1951, the Arizona Power Co., successor licensee by consolidation with the Arizona Power Corp., filed an application for surrender of the license. The application for surrender was filed pursuant to the Commission's letter of September 10, 1947, as supplemented May 29, 1951, which advised the licensee that the transmission line was not a primary line as defined in section 3(11) of the Federal Power Act. The Commission accepted the surrender of the license for the project by order issued November 16, 1951. The line is now owned by the Arizona Public Service Co. and is operated at 69 kv. under authority of a Forest Service special use permit.

The Commission finds:

The withdrawals for Project No. 1363 serve no useful purpose and should be vacated in their entirety.

The Commission orders:

The withdrawals of the subject lands pursuant to the applications for Project No. 1363 are hereby vacated in their entirety.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.71-11263 Filed 8-5-71;8:48 am]

[Docket No. DA-599-Idaho]

PAYETTE RIVER BASIN, IDAHO

Lands Withdrawn in Power Site Reserves

JULY 30, 1971.

The Geological Survey has reviewed the waterpower withdrawals in the Payette River Basin, Idaho, and recommended the revocation of the above-designated Power Site Reserves insofar as they pertain to lands described in the attached "Land List", thereby requiring Commission consideration under section 24 of the Federal Power Act.

The lands in Power Site Reserve No. 207, dated October 14, 1911, lie within the suggested Bogus Creek and Cabarton Reservoir sites on the North Fork Payette River. The lands within the Bogus Creek site were patented prior to the withdrawal, consequently, the withdrawal is ineffective insofar as it pertains to these lands. The Bureau of Reclamation has constructed a large reservoir (Cascade) immediately upstream from the Cabarton site, and the development of this site is now considered unnecessary. Consequently the lands therein

should be released from power withdrawal.

The lands in Power Site Reserve No. 214, dated October 19, 1911, were patented prior to the withdrawal, consequently, the withdrawal is ineffective insofar as it pertains to these lands.

The lands in Power Site Reserve No. 259, dated April 16, 1912, lie adjacent to the main stem of the Payette River about 2 miles upstream from the backwater limit of the Bureau of Reclamation's Black Canyon Reservoir and were withdrawn for possible conduit location which is flexible. There are no known active plans for hydroelectric development involving these lands.

The lands in Power site Reserve No. 461, dated October 27, 1914, were patented on April 19, 1917, without a power reservation, consequently, the withdrawal serves no useful purpose insofar as it pertains to these lands.

The Commission finds:

The withdrawals no longer serve a useful purpose and it has no objection to the revocation of Power Site Reserves Nos. 207, 214, 259, and 461 insofar as they pertain to the subject lands described in the attached "Land List."

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

LAND LIST

BOISE MERIDIAN, IDAHO

1. Lands to be released from Power Site Reserve No. 207 (about 361.75 acres):
T. 12 N., R. 3 E.,
Sec. 35, lot 8.
T. 13 N., R. 4 E.,
Sec. 8, lot 13;
Sec. 8, lots 3, 6;
Sec. 17, lot 10 and unsurveyed island;
Sec. 20, lot 11;
Sec. 29, lots 2, 5, 10;
Sec. 30, lots 7, 9, 11;
Sec. 31, unsurveyed island.
2. Lands to be released from Power Site Reserve No. 214 (about 80 acres):
T. 11 N., R. 3 E.,
Sec. 23, NE¼NW¼;
Sec. 34, SE¼NE¼.
3. Lands to be released from Power Site Reserve No. 259 (about 120 acres):
T. 7 N., R. 1 E.,
Sec. 13, S½SW¼;
Sec. 14, SE¼SE¼.
4. Lands to be released from Power Site Reserve No. 461 (about 39.99 acres):
T. 7 N., R. 1 W.,
Sec. 24, lot 6.

[FR Doc.71-11277 Filed 8-5-71;8:48 am]

[Docket No. RP72-4]

COLORADO INTERSTATE GAS CO.

Order Providing for Hearing and Suspending Proposed Tariff Sheets

JULY 30, 1971.

Colorado Interstate Gas Co. (CIG) filed changes in its FPC Gas Tariff, pursuant to section 4 of the Natural Gas Act and § 154.63 of the Commission's regulations thereunder, to be effective August 1, 1971.[1] The proposed tariff revisions would increase charges for jurisdictional sales and services by $9,383,510 per annum based on operations for the 12 months ended March 31, 1971, as adjusted.

This filing reflects a general increase in CIG's rates charged to its jurisdictional customers, except for its proposed S-1 rate schedule, which is presently under suspension, and its PS-1 rate schedule; which, under the terms of its settlement in Docket No. RP70-8, may not be increased prior to November 1, 1972. That settlement, which was approved by the Commission by order issued August 14, 1970, further provides that CIG should not file for a general increase in its jurisdictional rates which will become effective prior to January 1, 1972. CIG states that it makes this filing with expectation that the proposed increased rates will be suspended for the full five-month statutory period.

CIG states the principal reasons for the change are increases (1) in cost related to gas supply, (2) taxes, (3) operation and maintenance expense and (4) in the cost of capital. The company further states that the increase in the cost of capital requires that it be allowed a rate of return of 9 percent on its jurisdictional activities as reflected in the proposed change.

Copies of the proposed tariff changes were served on CIG's customers and interested state commissions. By notice issued July 13, 1971, and published in the FEDERAL REGISTER on July 19, 1971 (36 F.R. 13297), interested parties were invited to file comments on or before July 26, 1971.

In making its proposed filing, the company does not request a purchase gas adjustment clause, but does request that language be included in any suspension order to allow tracking with respect to future supplier increases equivalent to those used in suspension orders wherein alternate tariffs proposing purchase gas adjustment clauses were requested and rejected. The company further states it had relied upon obtaining additional supplies from El Paso Natural Gas Co., for which El Paso requested a certificate in Dockets Nos. CP69-345 and CP70-137, but which has not yet been issued. Waiver of § 154.63(f), Schedule H(1)3 is requested, since there have been no objections to the certificate proposal and it is expected that the certificate will be issued. In computing its Federal income taxes for the proposed filing, CIG has chosen to continue to flow-through to its customers the benefits of liberalized depreciation. The company states this decision is without prejudice to its right in any future proceedings to claim normalized income taxes.

The rate filing indicates that the requested overall rate of return of 9 percent yields a return on equity of 14.39 percent, based on the claimed capitalization of 52 percent debt and 48 percent common equity. Review of the rate filing indicates that certain issues are raised which will require development in evidentiary proceedings. The proposed increased rates and charges have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

At the prehearing conference hereinafter ordered, we contemplate that all parties will be fully prepared to discuss a stipulation of noncontroverted facts, the definition of issues to be tried, as well as any other substantive and procedural problems involved in this proceeding. The parties are expected to fully effectuate the intent of § 2.59 of the Commission's rules of practice and procedure. In the exercise of authority delegated to him under § 1.27 of the rules, the Presiding Examiner, in the exercise of his discretion, may set dates for service of testimony and exhibits by Staff and intervenors, the rebuttal evidence of the applicant and the commencement of cross-examination, which will serve to proceed with such hearing as expeditiously as feasible.

The Commission finds:

It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that:

(1) The Commission enter upon a hearing concerning the lawfullness of the rates and charges contained in CIG's FPC Gas Tariff, as proposed to be amended herein, and that the proposed tariff sheets listed in Footnote 1 above be suspended and the use thereof be deferred as herein provided; and

(2) the disposition of this proceeding be expedited in accordance with the procedures set forth below.

The Commission finds:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Chapter I), a public hearing be held commencing with a prehearing conference on October 5, 1971, at 10 a.m., e.d.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, concerning the lawfulness of the rates, charges, classifications, and services contained in CIG's FPC Gas Tariff, as proposed to be amended herein.

(B) Pending such hearing and decision thereon, CIG's revised tariff sheets listed in Footnote 1 above are hereby suspended and the use thereof is deferred until January 1, 1972, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) On or before November 1, 1971, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any and all intervenors shall be served on or before November 15, 1971. Any rebuttal evidence by CIG shall be served on or before December 1, 1971. Cross-examination of the evidence shall commence on December 15, 1971. The Presiding Examiner, upon a showing of good cause, may grant such extensions of time as he deems appropriate.

(D) The aforementioned requested waiver of § 154.63(f), Statement H(1)3 is granted.

(E) During the pendency of this proceeding, and prior to the determination of this issue, CIG will not be precluded from requesting permission to track supplier rate increases which increase the purchased gas cost filed by CIG in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. E-7172]

SOUTHWESTERN POWER ADMINISTRATION

Order Temporarily Extending Confirmation and Approval of Rates and Charges

JULY 30, 1971.

This order temporarily extends to not later than August 31, 1971, the Commission's approval of the following system rate schedules and contractual rates and charges of Southwestern Power Administration (SWPA):

SYSTEM RATE SCHEDULES

F-1, Firm Power.
P-2 (Revised), Peaking Power.
IC, Interruptible Capacity.
EE, Excess Energy.
ES, Emergency Service.

CONTRACTUAL RATES AND CHARGES

Oklahoma Gas and Electric Co. and Public Service Co. of Oklahoma (Contract No. Ispa-356), and Southwestern Electric Power Co. (Contract No. 14-02-001-782).

The Commission by order issued May 28, 1970, Docket No. E-7172 (43 FPC 804), approved all of SWPA's rate schedules and contractual rates and charges listed above except Rate Schedule ES which was approved by letter to the Assistant Secretary of the Interior dated December 4, 1970, Docket No. E-7579, all for the period terminating not later than May 31, 1971. The Secretary of the Interior (Secretary), acting on behalf of SWPA, filed with the Commission, on March 15, 1971, pursuant to section 5 of the Flood Control Act of 1944 (58 Stat. 887, 890), a request in Docket No. E-7172 for approval of certain proposed rate schedules and proposed changes in contractual rates and charges for a period of three years beginning June 1, 1971. Written notice of the Secretary's request was given to affected customers of SWPA and other interested persons. Notice was also published in the FEDERAL REGISTER on April 24, 1971 (36 F.R. 7766) stating that any person desiring to make comments or suggestions for the Commission's consideration with respect to the proposed rate schedules or changes in contractual rates and charges should submit the same in writing to the Commission on or before May 10, 1971.

Several customers of SWPA sought time beyond May 10, 1971, to submit comments or suggestions in this proceeding. Accordingly, the Commission by order issued May 10, 1971, in Docket No. E-7172 extended the time for submission of comments or suggestions to and including June 1, 1971. By that order the Commission also temporarily extended to and including July 30, 1971, its approval of SWPA's currently applicable system rate schedules and the contractual rates and charges listed above for the purpose of affording opportunities to (1) SWPA to respond to the comments or suggestions which might be filed by its customers and (2) our Staff to review such comments or suggestions and responses.

Comments objecting to the Secretary's pending request for the long-term rate approval, referred to above, have been filed by certain customers of SWPA and responses to such objections have been filed by SWPA. It appears that time beyond July 30, 1971, will be needed by our Staff to complete its review of those objections and responses. We are, therefore, extending our approval of SWPA's current system rate schedules and contractual rates and charges mentioned above to August 31, 1971, or to such earlier date as we may act on the merits in this matter.

The Commission further finds:

The extension of approval of current rates and charges, as hereinafter provided, will not be incompatible with the public interest.

The Commission orders:

The confirmation and approval of SWPA's Rate Schedules P-1, P-2 (Revised), IC, EE, and ES and the contractual rates and charges contained (1) in SWPA's contract with Oklahoma Gas and Electric Co. and Public Service Company of Oklahoma (Contract No. Ispa-356) and (2) in SWPA's contract with Southwestern Electric Power Co. (Contract No. 14-02-001-782), as set forth in the Commission's order issued May 28, 1970, Docket No. E-7172 and the Commission's letter to the Assistant Secretary of the Interior, dated December 4, 1970, Docket No. E-7579, referred to above, are hereby temporarily extended to and including August 31, 1971 or to such earlier date as the Commission may act.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.71-11280 Filed 8-5-71;8:48 am]

[Docket No. RP71-137]

EL PASO NATURAL GAS CO.

Order Providing for Hearing, Suspending Proposed Tariff Sheets, Providing Hearing Procedure, Permitting Tracking of Increased Purchased Gas Costs and Requiring Filing of Undertaking

JULY 30, 1971.

El Paso Natural Gas Co. (El Paso), on June 30, 1971, tendered for filing proposed changes in its FPC Gas Tariff, contained in First Revised Volume No. 3,[1] designed to supersede the presently effective Original Volume No. 3 of its tariff, to become effective on July 31, 1971. The purpose of the filing is: (1) to increase jurisdictional revenues in the amount of $15,846,896 annually for its Northwest Division System based on volumes for the test period, 12 months ended February 28, 1971, as adjusted; and (2) to establish a new tariff for service to distributor and pipeline customers served by its Northwest Division System.

El Paso states that the principal reason for the proposed rate increase is an increase in the cost of purchased gas due to a new gas supply contract with Westcoast Transmission Co., Ltd., designated the "Sumas IV Contract", which is scheduled to become effective on November 1, 1971. This contract will increase deliveries on the Northwest Division System by 225,000 Mcf daily. El Paso states that the increased rates which it proposes would produce a return for its Northwest Division System of approximately 8.5 percent, whereas the cost of service for the test period includes a return of 9 percent, which El Paso says is fair and reasonable. El Paso explains that the jurisdictional cost of service reflected in its Statement I-b includes costs related to facilities which will be required to meet the market requirements of El Paso's Northwest Division System for the 1971-72 heating season but which, as of the date of the tender of its filing, have not been authorized by the Commission.

The tariff changes proposed in El Paso's filing contain substantial revisions and rate structure simplification, including continuation of combined billing under Rate Schedule ODL-1, the elimination of Rate Schedules DL-1, DI-1, S-1, and MDS-1, equating of priority and rate levels for interruptible rate schedules and modifications in Rate Schedule IOS-1. Modifications are also proposed in the determination of deliveries and unauthorized overrun provisions which became effective on March 31, 1971, in Docket No. RP71-14.

El Paso also seeks authorization to increase its Northwest Division System rates from time to time, after effectiveness of the basic increase in rates which is the subject of the filing, by tracking

[1] The tariff sheets included in this volume are Original Sheet Nos. 1, 2, 3, 10 through 29, 40 through 55, 60 through 71 and 80 through 83.

filings made through December 31, 1972, to reflect increased purchased gas costs which may be sustained by the Northwest Division System.

El Paso requests that the tendered First Revised Volume No. 3, including the proposed increased rates, be suspended only until November 1, 1971, or the date of initial deliveries under the Sumas IV Contract, whichever is later, for the reason that the more significant of the proposed tariff changes are premised on, and their effectiveness designed to be coordinated with, initiation of deliveries by Westcoast under the new Sumas IV Contract. Of 17 interventions received only the "Public Service Group" objects to El Paso's request for suspension of the filing for less than 5-month statutory period. In support of this objection this petitioner states that if El Paso's filing is suspended until November 1, 1971, it will be necessary for petitioner to file for two rate increases with State commissions within a 60-day period, one related to a tracking of El Paso's increase by petitioner's principal pipeline supplier's and the other to recover a further increase of that pipeline supplier, to become effective January 1, 1972. It appears that the annual aggregate increase to the Public Service Group of its supplier's filings will be the same whether El Paso's filing is suspended for the full statutory period or not and that the only harm to petitioner of a shortened suspension period for El Paso's filing is one of convenience, namely the filing of two rate increases instead of one. We find this is not to be a sufficient reason to support the objection when weighed against the fact that suspension of El Paso's filing for 5 months would require El Paso to absorb substantial increases in purchased gas costs for the 2-month period, November 1, 1971, to January 1, 1972.

We will also allow El Paso to track supplier rate changes on its Northwest Division System from the end of the suspension period provided herein through December 31, 1972, as hereinafter provided. By order issued this date, we are amending Ordering Paragraph (E) of the order issued October 30, 1970, in Dockets Nos. RP71–13 and RP71–14 so as to terminate the tracking authority granted with respect to the Northwest Division System in Docket No. RP71–14 on a date coincident with effectiveness of the tracking authority granted herein.

Review of the rate filing indicates that issues are raised which require development in evidentiary proceedings. The proposed tariff changes, including the proposed increased rates, have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the provisions contained in El Paso's FPC Gas Tariff, as proposed to be amended herein, and that the tariff sheets contained in proposed First Revised Volume No. 3 of El Paso's tariff be suspended, and the use thereof be deferred as herein provided.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the disposition of this proceeding be expedited in accordance with the provisions set forth below.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 5 thereof, the Commission's rules of practice and procedure, and the regulations Under the Natural Gas Act (18 CFR Chapter I), a public hearing commencing with a prehearing conference shall be held on November 16, 1971, at 10 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street, NW., Washington, DC. 20426 concerning the lawfulness of the rates, charges, classifications, and services contained in El Paso's FPC Gas Tariff, as proposed to be amended herein.

(B) Pending such hearing and decision thereon, the tariff sheets contained in El Paso's proposed First Revised Volume No. 3 of its tariff are hereby suspended, and the use thereof deferred, until November 1, 1971, or the date of initial deliveries under the Sumas IV Contract, whichever is later, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) El Paso may, from time to time until December 31, 1972, file with the Commission as a part of its FPC Gas Tariff, First Revised Volume No. 3, a revised tariff sheet necessary to reflect increases or decreases in its rates, the first of which increases to be effective no earlier than the effective date of Original Sheet No. 10 and the rates identified therein, based upon increases or decreases in the cost of El Paso's Northwest Division System purchased gas, subject to the conditions as hereinafter described and computed in accordance with the provisions of this Paragraph (C):

(1) Increases or decreases in El Paso's rates made pursuant to Paragraph (C) shall only reflect (i) those changes in the cost of gas purchased by El Paso from those fields and from those gas supply sources presently connected to El Paso's Northwest Division System and identified in Statement H(1), Schedule H(1)–3.1 of El Paso's filing at Docket No. RP71–137 and under those FPC Gas Rate Schedules (and Small Producer Contracts) of El Paso's Northwest Division System suppliers now on file with this Commission and identified in Statement H(1), Schedule H(1)–3.2, sheets 245 through 417, 440 through 451, and 514 and 516, of El Paso's said filing in Docket No. RP71–137, and (ii) those changes in the cost of gas purchased by El Paso under the Canadian supplier purchase contracts with Westcoast Transmission Co. Ltd. (Westcoast), dated October 10, 1969, as amended, pertaining to purchases at Sumas and dated September 23, 1960, as amended, pertaining to purchases at Kingsgate on file with this Commission, provided, however, that only those increases under the Northwest Division System supplier rate schedules, or any decreases therein, ordered by the Commission, together with any increases or decreases in the cost of gas purchased under such Canadian supplier purchase contracts arising from (i) changes in the price to be paid by El Paso for gas purchased under the Sumas Contract of October 10, 1969, as amended, and (ii) changes in the buying rate of Canadian currency in terms of U.S. currency under the Kingsgate Contract of September 23, 1969, as amended, shall be used in the computation of increases or decreases in El Paso's rates made pursuant to Paragraph (C);

(2) No change in El Paso's Northwest Division System rates shall be made hereunder until the net change in the annualized cost of purchased gas for the Northwest Division System under the supplier rate schedules and Canadian supplier purchase contracts, determined as herein provided, causes a total Northwest Division System change in purchased gas costs of at least one-tenth of 1 cent (0.1 cent) per Mcf (at 14.73 psia) based upon El Paso's test period Northwest Division System total gas sales;

(3) The amount of any net change in the annualized cost of purchased gas for El Paso's Northwest Division System shall be the sum of the amounts calculated in accordance with Paragraphs (C)(4) and (C)(5) below;

(4) The amount of any net change in the annualized cost of purchased gas for purposes of this Paragraph (C)(4) shall be the difference between the amounts computed under Paragraphs (C)(4) (a) and (b) below:

(a) The annualized cost of gas purchased by El Paso for its Northwest Division System under each supplier rate schedule determined by application of the rate then in effect thereunder to the volume of domestic gas purchased during the 12-month period ending not less than 60 days nor more than 90 days preceding the effective date of the increase or decrease, for each supplier rate schedule reflected in Statement H(1), Schedule H(1)3.2 of El Paso's said filing in Docket No. RP71–137; and

(b) The annualized cost of gas purchased by El Paso for its Northwest Division System determined by application of the last rates under supplier rate schedules used for a change in gas sales rates to the volumes prescribed in the immediately preceding subparagraph (a);

(5) The amount of any net change in the annualized cost of purchased gas for the purpose of this Paragraph (C)(5) shall be the sum of the amounts computed under Paragraphs (C)(5) (a) and (b) below:

(a) The amount of any net change in the annualized cost of gas purchased by El Paso from Westcoast under the Sumas Contract of October 10, 1969, as amended, shall be calculated by multiplying 251,393,750 Mcf by the difference between (i) the unit cost of gas per Mcf expressed in U.S. cents per Mcf rounded to the nearest hundredth of a cent billed by Westcoast to El Paso each month under such contract adjusted, however, to reflect the unit cost which would have been billed had the quantities billed for such month been equal to a 95 percent use of the contract demand under the Sumas Contract for such month and (ii) for the purposes of the initial change in sales rates made under this paragraph (C), the rate of 32.47 cents [2] and for subsequent changes, in the last unit cost of such gas used for a change in sales rates under this Paragraph (C).

(b) The amount of any net change in the annualized cost of gas purchased by El Paso from Westcoast under the Kingsgate contract of September 23, 1960, as amended, shall be calculated by multiplying the amount of $126,800 [3] by the results of deducting 99.27 U.S. cents from the rate of exchange used to convert U.S. to Canadian currency on the most current monthly invoice from Westcoast. However, for changes in rates made subsequent to the initial change in sales rates made hereunder, there shall be deducted from the amount determined by multiplying the amount of $126,800 by the results of deducting 99.27 U.S. cents from the last previous rate of exchange used for a change in sales rates under this Paragraph (C);

(6) The amount per Mcf of any change in rates hereunder shall be determined by dividing the amount of any net change in the annualized cost of purchased gas determined in accordance with this Paragraph (C) by 441,368,706 Mcf.[4] Such change in rates shall be uniformly applied to all rate schedules contained in Volume No. 3 of El Paso's FPC Gas Tariff and as to those rate schedules containing demand and commodity rates in the commodity component thereof;

(7) No filing made pursuant to this Paragraph (C) shall utilize increased supplier rates which are not actually effective, or with respect to which any requisite motion to place such rates in effect has not been filed with the Commission, provided that El Paso's filings utilizing such increased supplier rates shall not provide for an effective date prior to the day on which any such suspended supplier increases become effective by motion;

(8) Revised tariff sheets filed in accordance with this Paragraph (C) shall become effective 30 days after filing or such later date as El Paso proposes; and

(9) If, as a result of any final order of the Commission, not stayed by the Commission or the courts, El Paso shall receive refunds, including interest, under any supplier rate schedule, applicable to increased rates collected thereunder which have been reflected in changes in El Paso's Northwest Division System rates hereunder, El Paso shall refund the jurisdictional portion of all refunds received to its jurisdictional customers, without further interest, upon accumulation of $200,000 or more, except for the final refund which shall be made if, but only if, the total amount remaining refundable is $10,000 or more.

(D) As a condition of this order, El Paso shall execute and file in triplicate with the Secretary of this Commission, within 20 days of the date of this order, its written agreement and undertaking to comply with the terms of paragraph (C)(9) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from its Board of Directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the First Revised Volume No. 3 tariff and upon all parties of recording in this proceeding as follows:

Agreement and undertaking of El Paso Natural Gas Co. to comply with the terms and conditions of paragraph (C)(9) of the Federal Power Commission's order issued ----------, 1971, at Docket No. RP71–137.

In conformity with the requirements of the order issued ----------, 1971, at Docket No. RP71–137, El Paso Natural Gas Co. hereby agrees and undertakes to comply with the terms and conditions of Paragraph (C)(9) of said order and has caused this agreement and undertaking to be executed and sealed in its name by its officer, thereupon duly authorized in accordance with the terms of the Resolution of its Board of Directors, a certified copy of which is appended hereto this ------ day of ----------, 1971.

EL PASO NATURAL GAS CO.
By----------

Attest:

Secretary

(E) At the hearing on November 16, 1971, El Paso's prepared testimony (Statement P), together with its entire rate filing as submitted and served on June 30, 1971, as supplemented on July 19, 1971, shall be admitted to the record as El Paso's complete case-in-chief, as provided by Section 154.63(e)(1) of the Commission's Regulations Under the Natural Gas Act, and Order No. 254, 28 FPC 495, subject to appropriate motions, if any, by parties to the proceeding.

(F) Following the admission of El Paso's complete case-in-chief, the parties shall proceed to effectuate the intent and purpose of § 2.59 of the Commission's rules of practice and procedure and of this order, as set forth above.

(G) On or before November 30, 1971, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any and all intervenors shall be served on or before December 14, 1971. Any rebuttal evidence by El Paso shall be served on or before January 4, 1972. Cross-examination of the evidence shall commence on January 18, 1972. The Presiding Examiner, upon a showing of good cause, may grant such extensions of time as he deems appropriate.

(H) A Presiding Examiner to be designated by the Chief Examiner for that purpose (see Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding; shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.71–11285 Filed 8–5–71;8:49 am]

[2] The unit rate of 32.47 cents per Mcf represents El Paso's test year cost of Canadian gas purchased under the Sumas Contract of $81,620,332 divided by the Sumas volume of 251,393,750 (725,000 Mcf/d times 365 days times 95 percent load factor). (All volumes and rates are stated at 14.9 p.s.i.a.) See Statement H(1), Schedule No. H(1)–3.1, sheet 12 of 13, of El Paso's filing at Docket No. RP71–137.

[3] The cost of Canadian gas purchased under the Kingsgate Contract included in the test period cost of service is $13,897,258 U.S. dollars. Of such sum, $1,309,757 is payable in U.S. dollars and not subject to currency adjustment, leaving $12,587,501 to be converted to Canadian dollars at the exchange rate of 99.27 U.S. cents. Each 1 cent of change from 99.27 U.S. cents is calculated by (100.27÷99.27) −1×$12,587,501 which equals $126,800 for each 1 cent of change in the exchange rate of 99.27 U.S. cents. (See Statement H(1), Schedule No. H(1)–3.1, sheet 12 of 13, of El Paso's filing at Docket No. RP71–137.)

[4] The test period Northwest Division System total gas sales. (See Statement G, sheet 1 of 3, line 9, column (e).)

[Dockets Nos. E–7562, E–7655; Project No. 176]

ESCONDIDO MUTUAL WATER CO. ET AL.

Order Permitting Intervention, Instituting Investigation, and Consolidating Dockets for Hearing

JULY 30, 1971.

By order issued April 14, 1971, we instituted an investigation and set for hearing the matters raised in the complaint filed by the Secretary of the Interior in Docket No. E–7562. In that proceeding intervention was granted to the Rincon, La Jolla, and San Pasqual Bands of Mission Indians, whose reservations are affected by Project No. 176.

On April 1, 1971, Escondido Mutual Water Co., licensee for Project No. 176, filed application for a new license (minor) for the project, and by letter dated May 28, 1971, licensee indicated that Exhibits K, L, R, and S for the new license application would be filed by July 15, 1971, and that information specified in section 16.6 of the Commission's regulations under the Federal Power Act would be filed by September 1, 1971. Exhibits K, L, R, and S were filed on July 15, 1971.

On June 25, 1971, and July 20, 1971, San Diego Gas and Electric Co., as major purchaser of electricity generated by Project No. 176, petitioned to intervene in the proceeding on the application for new license for Project No. 176, and the proceeding in Docket No. E–7562, respectively.

On June 24, 1971, the Secretary of the Interior filed a petition to intervene in

the relicense proceeding in Project No. 176 and a motion to consolidate the proceeding on the application for relicense with the proceeding in Docket No. E–7562. In support of the petition to intervene as trustee for and on behalf of the La Jolla, Rincon, San Pasqual, Pala, and Pauma Bands of Mission Indians, the Secretary of the Interior alleges that some of the tribal lands of the bands are presently being occupied and used and certain water rights are being exercised by the licensee in connection with its operation of Project No. 176. In support of the motion to consolidate proceedings, the Secretary states that certain facts and issues involved in the relicense proceeding are substantially identical to the facts and issues involved in the complaint proceeding in Docket No. E–7562 and a consolidation will result in a considerable saving for all parties concerned.

On June 25, 1971, the Rincon, La Jolla, and San Pasqual Bands of Mission Indians filed a petition to intervene in the relicense proceeding for licensed Project No. 176 and a motion to consolidate that proceeding with the proceeding in Docket No. E–7562, also stating that facts and issues involved in the two proceedings overlap and that a consolidation would result in savings to the parties.

On July 6, 1971, licensee filed an answer to the petitions to intervene and motions to consolidate filed in the relicense application for Project No. 176 and offered no objection to consolidation of the proceeding on the relicense application with that proceeding in Docket No. E–7562.

By letter dated June 7, 1971, the Rincon, La Jolla, and San Pasqual Bands of Mission Indians stated their objection to the licensee's proposed schedule for filing exhibits and additional information. In his letter of June 22, 1971, the Secretary of the Interior offered similar objections and requested that, if the license application exhibits are to be filed later than previously scheduled, an extension of time beyond the September 20, 1971, date for filing of testimony in Docket E–7562 be granted.

The Secretary of the Interior, in both the original filing in Docket E–7562 and the petition to intervene in the relicense application for Project No. 176, states that Vista Irrigation District of Vista, Calif., exercises joint possession, operation, and control of facilities of Project No. 176 without license or other valid authority. In the filing of June 24, 1971, the Secretary of the Interior states that waters utilized by Project No. 176 are stored and controlled upstream from the project by Henshaw Dam and Reservoir owned and operated by Vista Irrigation District without a license, and that no new license can be issued for Project No. 176 without Vista Irrigation District as a colicensee. In these circumstances, we believe it to be appropriate to institute an investigation in Docket No. E–7655, to consider the extent, if any, that Vista Irrigation District is involved in the operation of Project 176, and the occupancy of Indian lands or other lands of the United States.

We believe that the matters to be considered in the three proceedings are sufficiently related that they can best be considered in a consolidated proceeding and, therefore, we are ordering that the proceedings in Docket No. E–7655 and Project No. 176 be consolidated with the proceeding in Docket No. E–7562.

Inasmuch as the consolidated proceeding will involve preparation of additional testimony, the request for additional time for filing initial testimony will be referred to the Presiding Examiner for appropriate action.

The Commission finds:

(1) Participation by the San Diego Gas & Electric Co. in the proceeding in Docket No. E–7562 and the proceeding on the relicense application for Project No. 176 may be in the public interest.

(2) Participation by the Secretary of the Interior and the Rincon, La Jolla, and San Pasqual Bands of Mission Indians in the proceeding on the relicense application for Project No. 176 may be in the public interest.

(3) It is appropriate and in the public interest that an investigation and hearing be instituted pursuant to the provisions of the Federal Power Act, particularly sections 4(e), 4(g), 10(e), 14, 15, 23(b), 306, 307, 308, and 309 thereof, to consider the extent, if any, that Vista Irrigation District is involved in the operation of Project No. 176 and the occupancy of Indian lands or other lands of the United States.

(4) It is appropriate and in the public interest that the proceedings in Docket No. E–7655, and Project No. 176 be consolidated for hearing with the proceeding in Docket No. E–7562.

The Commissioner orders:

(A) An investigation is hereby instituted in Docket No. E–7655, to consider the matters concerning Vista Irrigation District as specified in finding (3) above, and the Secretary of the Commission shall have a copy of this order served on Vista Irrigation District of Vista, Calif.

(B) The above-named petitioners are permitted to intervene in this proceeding, subject to the rules and regulations of this Commission: *Provided, however,* That the participation of such intervenors shall be limited to the matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene: *And provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that such intervenors, or any of them might be aggrieved by any order entered in this proceeding.

(C) Pursuant to the authority contained in, and subject to the jurisdiction conferred upon the Federal Power Commission by the Federal Power Act particularly sections 4(e), 4(g), 10(e), 14, 15, 306, 307, 308, and 309 thereof, and the Commission's rules of practice and procedure, the matters referred to in finding (4) above, are consolidated for hearing, and a public hearing thereon shall be held at such time and place as shall be designated by the Presiding Examiner.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.71–11286 Filed 8–5–71;8:49 am]

[Docket No. CP72–19]

LONE STAR GAS CO.

Notice of Application

JULY 30, 1971.

Take notice that on July 23, 1971, Lone Star Gas Co. (applicant), 301 South Harwood Street, Dallas, TX 75201, filed in Docket No. CP72–19 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities for the rendition of natural gas service to the Lakeside Village Mobile Home Park (Lakeside), Wichita County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, applicant proposes to construct and operate a tap and regulator station at approximate station 193+15 on its 18-inch Line A located about 0.04 mile north of Wichita Falls in Wichita County, and to use these facilities in conjunction with a natural gas distribution system for the rendition of initial natural gas service to Lakeside. Applicant states that Lakeside is an unincorporated community, presently under construction wherein the estimated third year peak day and annual natural gas requirements will be 280 Mcf and 10,500 Mcf respectively. The estimated cost of the tap and regulating facilities is $1,437, which cost applicant states will be financed from working capital.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 23, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.71–11281 Filed 8–5–71;8:49 am]

[Docket No. RP72–11]

NORTH PENN GAS CO.

Notice of Proposed Changes in Rates and Charges

JULY 30, 1971.

Take notice that on July 12, 1971, North Penn Gas Co. (North Penn) filed revised tariff sheets to its FPC Gas Tariff (20th Revised Sheets Nos. 4 and 5 to its FPC Gas Tariff First Revised Volume No. 1), to be effective as of August 11, 1971. The proposed changes would increase jurisdictional revenues by approximately $90,000 based on operations for the 12-month period ended May 31, 1971. North Penn states that the purpose of the filing is to track the rate increases of its suppliers—Consolidated Gas Supply Co., Transcontinental Gas Pipeline Co. and Tennessee Gas Pipeline Co.

Any person desiring to be heard or to make protest with respect to said filing should on or before August 5, 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestant parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The filing is available at the Commission's office for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.71–11275 Filed 8–5–71;8:48 am]

[Dockets Nos. RP71–13, RP71–14]

EL PASO NATURAL GAS CO.

Order Amending Order Permitting Tracking of Supplier Rate Increases

JULY 30, 1971.

El Paso Natural Gas Co. (El Paso), on June 2, 1971 and on June 30, 1971, filed in Dockets Nos. RP71–13 and RP71–14, respectively, a motion for modification of the Commission's order, issued October 30, 1970 in these consolidated proceedings, insofar as it gives El Paso authority to file rate increases and decreases to reflect increases or decreases in the cost of purchased gas for both its Southern Division System (Docket No. RP71–13) and for its Northwest Division System (Docket No. RP71–14).

El Paso's proposed modification of the order in Docket No. RP71–13 would extend the expiration date of El Paso's tracking authority for its Southern Division System from December 31, 1971, to December 31, 1972, and would eliminate the 0.67 cents per Mcf limitation on aggregate net increases which El Paso may file to track increased purchased gas costs on its Southern Division System. El Paso's proposed modification of the October 30, 1970 order in Docket No. RP71–14 would move the expiration date of El Paso's tracking authority from December 31, 1971 up to November 1, 1971, the effective date of the tracking authority which El Paso requests in its rate increase filing in Docket No. RP71–137, or to such later date as the Sumas IV Contract becomes effective, in order to avoid an overlap of the tracking authorization which it seeks in Docket No. RP71–137 on the tracking authority provided in Docket No. RP71–14.

In support of its motion in Docket No. RP71–13, El Paso states that subsequent to issuance of the Commission's order of October 30, 1970, several unforeseen events leading to potential future supplier rate increases, as fully described in its motion, have exposed El Paso to substantial increases in the cost of purchased gas for its Southern Division System. El Paso asserts that the total amount of these increases cannot be accurately computed at the present time, as several of the supplier increases are contingent upon future occurrences. The major portion of the possible future increases in purchased gas costs relate to (1) the unilateral increase in price by El Paso's supplier Aztec Oil and Gas Co. in Docket No. RI71–744 to become effective August 1, 1971, and the numerous other price increases to El Paso which may result from the Aztec filing due to the activation of favored nations clauses in the contracts of other suppliers, and (2) the price increases which may result if the moratorium provisions of the Commission's Opinion No. 586[1] are stayed or the opinion is set aside on court appeal. El Paso states that it cannot file to track these increases under its current tracking authority because either the supplier increases involved represent amounts over and above the 0.67 cents per Mcf, which it is authorized to track, and/or the supplier increases will not become effective until after December 31, 1971.

Answers to El Paso's motion in Docket No. RP71–13 were filed by intervenors Pacific Gas and Electric Co. (PG&E), San Diego Gas and Electric Co., Southwest Gas Corp., and the Public Utilities Commission of California. None of these parties object to allowing El Paso to track changes in purchased gas costs as a general proposition. However, in general they oppose El Paso's motion on the grounds that a substantial portion of the future increases in purchased gas costs which El Paso seeks authority to track are uncertain as to likelihood of occurrence and amount. Their objections are principally directed to the fact that the unilateral price increase of Aztec, to become effective August 1, 1971, will activate favored nations clauses in numerous other supplier contracts of El Paso, thereby resulting in cost increases to El Paso of presently indeterminable amounts. Objection is also made to allowing El Paso to track any supplier price increases which might result from a stay of the moratorium provision of Opinion No. 586, the Hugoton-Anadarko Area Rate Proceeding or court reversal of that opinion. PG&E takes the position that El Paso's motion should not be granted until the matter has been thoroughly considered in hearing before the Commission. PG&E contends that it would be contrary to the public interest to permit an increase by Aztec Oil and Gas Co., covering a rather minor volume of gas, to result in a multimillion-dollar increase due to the triggering of favored nation clauses without a thorough factual exploration of possible alternative solutions. The California Commission urges that if the Commission modifies its order permitting tracking as requested by El Paso, it concurrently set the Aztec increase for hearing and expeditious disposition.

Based upon our review of El Paso's motion in Docket No. RP71–13 and the answers thereto, it is our opinion that El Paso should be permitted the tracking authorization which it seeks. It is our established policy to allow natural gas pipeline companies to file rate changes in order to track the changes in rates of their suppliers, and consistent with this policy El Paso was granted this tracking authorization for its Southern Division System in Docket No. RP69–20. The authorization was extended in Dockets Nos. RP70–11 and RP71–13. The fact that the future possible increased gas costs which El Paso now seeks to track are uncertain as to probability of occurrence and exact amount at the present time is not, in our opinion, a reason to deny El Paso the tracking authorization which it seeks. The intervenors have not shown how they would be injured by reason of the fact that the magnitude of future supplier increases for which El Paso seeks tracking authorization are not known at the present time. El Paso's customers will be protected for the reason that El Paso is not permitted to track any supplier rate increase which does not actually become effective. This is provided in the October 30, 1970 order and El Paso, in its motion, does not propose any modification of this provision. The customers are further protected by reason of the provision contained in paragraph (C)(1) of the October 30, 1970 order which requires El Paso to flow-through any refunds which it may receive from any of its suppliers applicable to supplier increases

[1] Hugoton-Anadarko Area Rate Proceeding.

which it has reflected in its rates under its tracking authority and to reduce its rates to reflect supplier rate reductions. This assurance that any amounts in excess of the rates ultimately allowed its suppliers will be flowed through by El Paso adequately protects the public interest.

We do not believe that PG&E has shown sufficient reasons for us to order a hearing on this matter and, in any event, it does not appear that there are any evidentiary facts to be adduced which are necessary to a disposition of El Paso's motion. With regard to PG&E's contention that possible alternative solutions might be explored we believe that the tracking which we have authorized in Docket No. RP71–13 is the appropriate method for El Paso to employ and, as stated above, it gives ample protection to El Paso's customers. PG&E's suggestion that El Paso could refuse to pay Aztec's increased price and thus avoid the triggering of the favored nations clauses in other contracts would have El Paso refuse to pay the filed rate. Apart from the fact that this would no doubt subject El Paso to a lawsuit, this Commission could not sanction such action as El Paso is required to pay the rate which Aztec has on file with the Commission. Aztec's increased price will be collected subject to refund and the increases of other El Paso suppliers which may result from Aztec's filing due to activation of favored nations clauses will be subject to Commission review and suspension. Any amounts in excess of the price levels ultimately determined as proper by the Commission for Aztec and other suppliers which El Paso receives as refunds will be flowed-through to El Paso's customers in accordance with El Paso's obligation as set forth above. El Paso is also required to reduce its rates to reflect any rate reductions of Aztec and other suppliers.

No answers or objections have been received to El Paso's motion in Docket No. RP71–14. Since we are this same date issuing an order granting El Paso the tracking authorization which it requests in Docket No. RP71–137, effective November 1, 1971 (or the date of initial deliveries under the Sumas IV Contract, whichever is later), it is appropriate to amend our October 30, 1970 order to terminate the tracking authorized therein for the Northwest Division System as of the effective date of the tracking authorized in Docket No. RP71–137.

The Commission finds:

For the reasons stated herein, it is appropriate and necessary in the public interest that the October 30, 1970 order issued in Dockets No. RP71–13 and RP 71–14 be amended in accordance with the modifications proposed by El Paso in its motions filed on June 2, 1971 in Docket No. RP71–13 and on June 30, 1971 in Docket No. RP71–14.

The Commission orders:

(A) Ordering paragraph (C) of the Commission's order issued October 30, 1970, which relates to El Paso's tracking authorization on its Southern Division System in Docket No. RP71–13 is amended to change the termination date for the tracking authorization from December 31, 1971 to December 31, 1972, and to delete the limitation on the tracking authorization of 0.67 cents per Mcf. Ordering paragraph (C), as amended, provides in pertinent part as follows:

(C) El Paso may, from time to time until December 31, 1972, file with the Commission as a part of its FPC Gas Tariff, Original Volume No. 1, and as to Rate Schedules FS–34, and FS–35 of Original Volume 2A, revised tariff sheets necessary to reflect increases or decreases in its rates, the first of such increases to be effective no earlier than March 31, 1971, based upon increases or decreases in the cost of El Paso's purchased gas for its Southern Division subject to the conditions as hereinafter described and computed in accordance with the following provisions of this paragraph (C):

(1) Increases or decreases in El Paso's rates made pursuant to paragraph (C) shall reflect only those changes in the cost of gas purchased by El Paso from those fields and from those gas supply sources presently connected to El Paso's Southern Division System and identified in Statement H(1), Schedule No. H(1)–3.1 of El Paso's filing in Docket No. RP71–13 and under those FPC gas rate schedules of El Paso's Southern Division System suppliers now on file with this Commission and identified in Statement H(1), Schedule No. H(1)–3.2, sheets 8 through 310, 324 through 356, and 362 through 425 of that filing, provided, however, that only those increases under the Southern Division System supplier rate schedules, or any decreases therein, ordered by the Commission shall be used in the computation of increases or decreases in El Paso's rates made pursuant to paragraph (C).

• • • • •

(4) The amount of any net change in the annualized cost of purchased gas for El Paso's Southern Division System shall be determined as the difference between the annualized cost of purchased gas, computed in accordance with the immediately preceding subparagraph (3), and the amount that would have been paid as determined by application of the last supplier rate used for a change in rates hereunder to the volume prescribed in subparagraph (3). The amount per Mcf of any change in rates hereunder shall be determined by dividing the annual amount of the above change in costs by El Paso's total Southern Division System sales made during the 12-month period used to determine the annualized cost of purchased gas under the immediately preceding subparagraph (3). Such change in rates shall be uniformly applied to all rate schedules affected by El Paso's filing herein and in the commodity component of Rate Schedule G of El Paso's FPC Gas Tariff, Original Volume No. 1.

• • • • •

(B) Ordering paragraph (E) of the October 30, 1970 order which relates to El Paso's tracking authorization on the Northwest Division System, is amended to change the termination date of the tracking authorization from December 31, 1971, to the effective date of the tracking authority granted in Docket No. RP71–137, but in no event beyond December 31, 1971. Ordering paragraph (E), as amended, provides in pertinent part as follows:

(E) El Paso may, from time to time until the effective date of the tracking authority granted in Docket No. RP71–137, but in no event beyond December 31, 1971, file with the Commission as a part of its FPC Gas Tariff, Original Volume No. 3, revised tariff sheets necessary to reflect increases or decreases in its rates, the first of which increases to be effective no earlier than March 31, 1971, up to a level equal to the rates set forth in the proposed revised Northwest Division System tariff sheets identified in footnote 1 above, based upon increases or decreases in the cost of El Paso's Northwest Division System purchased gas, subject to the conditions as hereinafter described and computed in accordance with the following provisions of this paragraph (E):

• • • • •

By the Commission.

[Docket No. CP72–21]

INDUSTRIAL GAS CORP.

Notice of Application

JULY 30, 1971.

Take notice that on July 27, 1971, Industrial Gas Corp. (applicant), Post Office Box 1473, Charleston, WV 25325, filed in Docket No. CP72–21 an application pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(b) of the regulations under said Act, for a certificate of public convenience and necessity authorizing the construction, during the 12-month period commencing September 1, 1971, and operation of certain natural gas facilities to enable applicant to take into its pipeline system supplies of natural gas which will be purchased in the general area of its existing system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the purpose of this budget-type application is to augment its ability to act with reasonable dispatch in contracting for and connecting to its pipeline system supplies of natural gas in various producing areas generally coextensive with said system.

The total cost of the facilities proposed herein is not to exceed $50,000, with no single project costing in excess of $12,500.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 23, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP72–20]

SHENANDOAH GAS CO.

Notice of Application

JULY 30, 1971.

Take notice that on July 26, 1971, Shenandoah Gas Co. (applicant), 1100 H Street NW., Washington, DC 20005, filed in Docket No. CP72–20 an application pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(c) of the regulations under said Act, for a certificate of public convenience and necessity authorizing the construction, during the 12-month period commencing on the date of Commission authorization, and operation of certain natural gas sales and transportation facilities to enable applicant to make sales of natural gas to consumers located in proximity to its pipeline system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the purpose of this budget-type application is to enable it more economically to render initial natural gas service to proposed residential, commercial and industrial consumers located adjacent to its certificated pipeline system without the extension of distribution facilities from communities to which it now renders natural gas service.

The total cost of the facilities proposed will not exceed $100,000, which cost applicant states will be financed by open account advances from its parent company, the Washington Gas Light Co.

The application also states that any new firm direct sales initiated through use of the facilities proposed will not exceed in maximum daily volume 10 percent of applicant's unallocated daily capacity existing at the beginning of the authorization period.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 23, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Projects 2243, 2273]

PACIFIC NORTHWEST POWER CO. AND WASHINGTON PUBLIC POWER SUPPLY SYSTEM

Notice of Further Extension of Time

JULY 28, 1971.

On July 23, 1971, the Environmental Defense Fund, Inc., filed a motion for a further extension of time to and including August 27, 1971, within which to file briefs on exceptions to the Presiding Examiner's initial decision issued on February 23, 1971, in the above-designated proceeding. The motion also requests that the time for filing comments on the Commission Staff's environmental impact statement be extended to and including August 27, 1971, to coincide with the date for filing comments on the applicants' environmental impact statement.

Upon consideration, notice is hereby given that the time is further extended to and including August 10, 1971, within which briefs on exceptions and comments on Commission Staff's environmental impact statement, may be filed by all participants. Anyone wishing to comment on the applicants' environmental impact statement may file comments by August 10, 1971.

[Docket No. CP72–22]

TENNESSEE GAS PIPELINE CO.

Notice of Application

AUGUST 2, 1971.

Take notice that on July 27, 1971, Tennessee Gas Pipeline Co., a division of Tenneco Inc. (applicant), Post Office Box 2511, Houston, TX 77001, filed in Docket No. CP72–22 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction of certain natural gas transmission facilities offshore, Louisiana, and the operation thereof for the receipt and transportation of natural gas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it has contracted to purchase from Texaco, Inc. (Texaco), natural gas produced from Texaco's interest at Block 54, South Pass Block 54 Field, offshore Louisiana. Applicant estimates that it will purchase initially approximately 30,000 Mcf of natural gas per day.

To facilitate the receipt of this additional natural gas, applicant proposes to construct approximately 10.5 miles of 12.75-inch pipeline and appurtenant facilities. This pipeline will extend from Texaco's Outer Continental Shelf G–1606 A Platform in a northwesterly direction to an interconnection with applicant's Main Line Valve 526A–703 on its South Pass Block 42 Line. The estimated cost of the facilities proposed herein is $2,834,300, which cost applicant states will be financed by the use of general funds or revolving credit.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 23, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a

petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-8]

TENNESSEE NATURAL GAS LINES, INC.

Notice of Proposed Change in Rates and Charges

AUGUST 2, 1971.

Take notice that on July 13, 1971, Tennessee Natural Gas Lines, Inc. (Tennessee Natural), tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1, to track increases in purchased gas costs from its supplier, Tennessee Gas Pipeline Co. which are proposed to become effective as of August 1, 1971, in Docket No. RP72-1. The tendered filing designated as 10th Revised Sheet No. 4, is proposed to supersede rates currently in effect subject to further order in Dockets Nos. RP71-11 and RP71-58. The increased rates reflected in the filing are stated to increase Tennessee Natural's revenues from jurisdictional customers by approximately $76,500 per year based on sales volumes realized during the calendar year 1970. The company requests waiver of the rules to permit an effective date of August 1, 1971, coincident with the proposed increase from its supplier. The above-stated data was contained in a notice issued July 29, 1971, styled Dockets Nos. RP71-11 and RP71-58. The proper styling is as here shown, Docket No. RP72-8.

Any person desiring to be heard or to make protest with reference to said tender should on or before August 13, 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file applications to intervene in accordance with the Commission's rules. The tender is on file with the Commission and available for public inspection.

MARY B. KIDD,
Acting Secretary.

FEDERAL RESERVE SYSTEM

FIRST SEBANCO, INC.

Order Denying Action To Become Bank Holding Company

In the matter of the application of First Sebanco, Inc., Glendive, Mont., for approval of action to become a bank holding company through the acquisition of 50.4 percent of the voting shares of First Security Bank of Glendive, Glendive, Mont.

There has come before the Board of Governors, pursuant to section 3(a)(1) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(1)), and § 222.3(a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by First Sebanco, Inc., Glendive, Mont. (Applicant), for the Board's prior approval of action whereby Applicant would become a bank holding company through the acquisition of 50.4 percent of the voting shares of First Security Bank of Glendive, Glendive, Mont. (Bank).

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Superintendent of Banks of the State of Montana and requested his views and recommendation. The Superintendent recommended approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on April 22, 1971 (36 F.R. 7623), providing an opportunity for interested persons to submit comments and views with respect to the proposed transaction. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. The time for filing comments and views has expired and all those received have been considered by the Board:

It is hereby ordered, For the reasons set forth in the Board's Statement[1] of this date, that said application be and hereby is denied.

By order of the Board of Governors,[2] July 29, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

[FR Doc.71-11253 Filed 8-5-71;8:46 am]

HUNTINGTON BANCSHARES, INC.

Order Approving Acquisition of Bank Stock by Bank Holding Company

In the matter of the application of Huntington Bancshares, Inc., Columbus, Ohio, for approval of acquisition of 80 percent or more of the voting shares of The Woodville State Bank, Woodville, Ohio.

There has come before the Board of Governors, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)) and § 222.3(a) of Federal Reserve Regulation Y (12 CFR 22.3(a)), an application by Huntington Bancshares, Inc. (Applicant), Columbus, Ohio, a registered bank holding company, for the Board's prior approval of the acquisition of 80 percent or more of the voting shares of The Woodville State Bank (Bank), Woodville, Ohio.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Superintendent of Banks for the State of Ohio, and requested his views and recommendation. The Superintendent indicated that he had no objection to approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on June 15, 1971 (36 F.R. 11539), providing an opportunity for interested persons to submit comments and views with respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired and all those received have been considered.

The Board has considered the application in the light of the factors set forth in section 3(c) of the Act, including the effect of the proposed acquisition on competition, the financial and managerial resources and future prospects of the Applicant and the banks concerned, and the convenience and needs of the communities to be served, and finds that:

Applicant, the third largest bank holding company and sixth largest banking organization in Ohio, has eight subsidiary banks with aggregate deposits of approximately $762 million, representing 3.5 percent of total commercial bank deposits in the State. (All banking data are as of December 31, 1970 and reflect holding company formations and acquisitions approved through June 30, 1971.) Consummation of the proposal herein would increase Applicant's share of commercial bank deposits in the State by an insignificant amount.

Bank (over $14 million of deposits), with about 11 percent of deposits in its market, is the only bank in Woodville and the fifth largest of six banks located in Sandusky County (which approximates the relevant banking market).

Applicant's two subsidiaries located closest to Bank are respectively 18 miles northwest of Woodville and 15 miles southwest of Woodville, the former in Lucas County and the latter in Wood County. It appears that there is no significant competition between Bank and either of these two banks or any of Applicant's other subsidiary banks, nor does it appear likely that such competition will develop in the future in the light of the facts presented, notably the distances separating Bank from Applicant's subsidiaries, the number of banks located in the intervening areas, and the restrictive provisions of the Ohio law on branch banking. There appears to be little likelihood that Applicant would establish a de novo office in the area served by The Woodville State Bank. Thus, it appears that consummation of Applicant's proposal would neither eliminate any meaningful existing competition nor foreclose significant potential competition. Affiliation with Applicant may enable Bank to compete more aggressively with the larger banks in the market, and may encourage the opening of new branches in Sandusky County, which would have a procompetitive effect.

On the basis of the record before it, the Board concludes that consummation of the proposed acquisition would not have an adverse effect on competition in any relevant area. The financial and managerial resources and prospects of Applicant, its subsidiaries, and The Woodville State Bank are regarded as consistent with approval. Applicant proposes to assist Bank in developing a branch system throughout Sandusky County, offering trust services through Applicant's lead bank and increasing lending services by encouraging utilization of participation loans with Applicant's present subsidiaries. Thus, considerations relating to the convenience and needs of the communities involved lend some support to approval of the application. It is the Board's judgment that the proposed transaction would be in the public interest, and that the application should be approved:

It is hereby ordered, On the basis of the Board's findings summarized above, that said application be and hereby is approved; *Provided*, That the acquisition so approved shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

By order of the Board of Governors,[2] July 30, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

[FR Doc.71-11252 Filed 8-5-71;8:46 am]

PHMFG CORP.

Order Revising and Reissuing Order Exempting Certain Loans by Banks From Securities Credit Regulations

There has come before the Board of Governors, pursuant to section 7(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78g(d)) and § 207.1(f)(3) of Federal Reserve Regulation G (12 CFR 207.1(f)(3)) and § 221.2(l) of Federal Reserve Regulation U (12 CFR 221.2(l)), the application of PHMFG Corp., Washington, D.C. (Applicant), a corporation organized and existing under the laws of the District of Columbia, for a further modification of the Board's Order dated April 2, and modified on May 11, 1971 (the "Order"). The Order exempted from securities credit regulations certain bank loans for the purpose of providing capital to the corporate successor to the business of F. I. duPont, Glore Forgan & Co., a registered broker/dealer and member firm of the New York Stock Exchange. Such successor is referred to herein as "duPont".

As required by § 207.1(f)(3) of Regulation G and § 221.2(l) of Regulation U, the Board has obtained certification by the Securities Investor Protection Corporation ("SIPC") that circumstances exist as to the financial condition of duPont which make it appropriate for the exemption to be granted. The Board has considered the application in the light of the factors set forth in section 7(d) of the Act and in addition has obtained such certification by the SIPC.

On the basis of the information set forth in the application, or otherwise available, the Board finds that:

(1) Applicant has concluded a loan agreement with a group of banks pursuant to which it may borrow in the aggregate amount of up to $50 million (bank loans).

(2) The proceeds of all bank loans and any proceeds drawn under the bank letters of credit as described in finding (5) hereinbelow are required to be made available to duPont for capital purposes.

(3) Applicant may transfer its rights as a creditor of duPont to a limited partnership (Parent Partnership) organized under the laws of the State of Texas, in which Messrs. H. Ross Perot, Morton H. Meyerson, and Milledge A. Hart, III are the general partners. Applicant is wholly owned by such partnership.

(4) $20 million in bank loans has been drawn down under such loan agreement and additional moneys will be drawn down as needed.

(5) Parent Partnership may obtain two successive bank letters of credit, each in the amount of $15 million, which will be made available to duPont for capital purposes; the second letter of credit will not be issuable as long as any portion of the first letter of credit is outstanding or as long as any proceeds drawn under the first letter of credit remain owing.

Upon consideration of all the circumstances, the Board concludes that an exemption from securities credit regulations for the purpose of providing the susbtantial infusion of capital into duPont, as contemplated by Applicant and/or Parent Partnership would be appropriate in the public interest and for the protection of investors. Accordingly, the Order is hereby revised and it is hereby ordered that the transactions described above are exempted from the securities credit regulations provided:

(1) The maximum principal amount of the bank loan or loans by Applicant under the loan agreement shall not exceed $50 million in the aggregate.

(2) The maximum principal amount of the bank letters of credit obtained by Parent Partnership and made available to duPont for capital purposes shall not exceed $15 million at any one time.

(3) When any transaction or transactions occur that result in a net withdrawal of capital from duPont by Applicant or by Parent Partnership, the proceeds of such withdrawal less the net amount of Federal, State, and local income tax directly attributable to such transaction or transactions shall be used to reduce or retire said bank loan or loans or any indebtedness resulting from said bank letters of credit.

(4) Applicant or Parent Partnership or a successor controlled by Mr. H. Ross Perot or his estate shall become and remain a controlling person of duPont as long as all or any portion of said bank loan or loans, said bank letters of credit or any indebtedness resulting from such letters of credit is outstanding other than any portion attributable to such income tax.

(5) This order shall expire when all the said bank loan or loans have been repaid in full and the said bank letters of credit have terminated and any indebtedness resulting from said letters of credit has been repaid in full but in no event later than May 11, 1979.

(6) The remaining portion of the bank loan or loans may be drawn down as needed but in no event later than 6 months prior to May 11, 1979.

(7) One of the said bank letters of credit shall be drawn down by November 1, 1971 and the other may be drawn upon as needed but in no event later than 6 months prior to May 11, 1979.

This order revises the Board's Orders dated April 2, 1971, and May 11, 1971.

By order of the Board of Governors, July 29, 1971.

[SEAL] KENNETH A. KENYON,
Deputy Secretary.

INTERAGENCY TEXTILE ADMINISTRATIVE COMMITTEE

CERTAIN COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN CEYLON

Entry or Withdrawal From Warehouse for Consumption

JULY 30, 1971.

On July 28, 1971, the U.S. Government, in furtherance of the objectives of, and under the terms of, the Long-Term Arrangement Regarding International Trade in Cotton Textiles, done at Geneva on February 9, 1962, including Article 6(c) thereof relating to nonparticipants, informed the Government of Ceylon that it was renewing for an additional 12-month period beginning August 3, 1971, and extending through August 2, 1972, the restraint on imports into the United States of cotton textile products in Category 60, produced or manufactured in Ceylon. Pursuant to Annex B, paragraph 2, of the Long-Term Arrangement the level of restraint for this 12-month period is 5 percent greater than the level of restraint applicable to this category for the preceding 12-month period.

There is published below a letter of July 30, 1971, from the Chairman of the President's Cabinet Textile Advisory Committee to the Commissioner of Customs, directing that the amount of cotton textile products in Category 60, produced or manufactured in Ceylon, which may be entered or withdrawn from warehouse for consumption in the United States for the 12-month period beginning August 3, 1971, be limited to the designated level.

STANLEY NEHMER,
Chairman, Interagency Textile Administrative Committee, and Deputy Assistant Secretary for Resources.

PRESIDENT'S CABINET TEXTILE ADVISORY COMMITTEE

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226.

JULY 30, 1971.

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, including Article 6(c) thereof relating to nonparticipants, and in accordance with the procedures outlined in Executive Order 11052 of September 28, 1962, as amended by Executive Order 11214 of April 7, 1965, you are directed to prohibit, effective August 3, 1971, and for the 12-months period extending through August 2, 1972, entry into the United States for consumption and withdrawal from warehouse for consumption, of cotton textile products in Category 60, produced or manufactured in Ceylon, in excess of a level of restraint for the period of 19,355 dozen.

In carrying out this directive, entries of cotton textile products in Category 60, produced or manufactured in Ceylon, which have been exported to the United States from Ceylon prior to August 3, 1971, shall, to the extent of any unfilled balances, be charged against the level of restraint established for such goods during the period August 3, 1970, through August 2, 1971. In the event that the above level of restraint has been exhausted by previous entries, such goods shall be subject to the level set forth in this letter.

A detailed description of Category 60 in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on January 17, 1968 (33 F.R. 582), and amendments thereto on March 15, 1968 (33 F.R. 4600).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Ceylon and with respect to imports of cotton textiles and cotton textile products from Ceylon have been determined by the President's Cabinet Textile Advisory Committee to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the notice provisions of 5 U.S.C. 553 (Supp. V. 1965-69). This letter will be published in the FEDERAL REGISTER.

Sincerely,

MAURICE H. STANS,
Secretary of Commerce, Chairman, President's Cabinet Textile Advisory Committee.

[FR Doc.71-11338 Filed 8-5-71;8:54 am]

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN MEXICO

Entry or Withdrawal From Warehouse for Consumption

JULY 30, 1971.

On June 29, 1971, the U.S. Government, in furtherance of the objectives of, and under the terms of, the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concluded a new comprehensive bilateral cotton textile agreement with the Government of Mexico concerning exports of cotton textiles and cotton textile products from Mexico to the United States over a 5-year period beginning on May 1, 1971.

Pending the establishment of a visa system governing the entry into the United States of cotton textile products in Categories 28 through 63 and 64 (excluding knit fabrics), the limits applicable to these categories, at the request of the Government of Mexico, are established for the 4-month period, beginning May 1, 1971 and extending through August 31, 1971.

There is published below a letter of July 30, 1971, from the Chairman of the President's Cabinet Textile Advisory Committee to the Commissioner of Customs, directing that the amounts of cotton textiles and cotton textile products in Categories 28 through 63 and 64 (excluding knit fabrics), produced or manufactured in Mexico, which may be entered or withdrawn from warehouse for consumption in the United States for the period indicated, be limited to designated levels. This letter and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, as extended, but are designed to assist only in the implementation of certain of its provisions.

STANLEY NEHMER,
Chairman, Interagency Textile Administrative Committee, and Deputy Assistant Secretary for Resources.

PRESIDENT'S CABINET TEXTILE ADVISORY COMMITTEE

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226.

JULY 30, 1971.

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of June 29, 1971, between the Governments of the United States and Mexico, and in accordance with Executive Order 11052 of September 28, 1962, as amended by Executive Order 11214 of April 7, 1965, you are directed to prohibit, effective August 1, 1971, and for the 4-month period beginning May 1, 1971 and extending through August 31, 1971, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 28 through 63 and 64 (excluding knit fabrics), produced or manufactured in Mexico, in excess of the designated levels of restraint set forth below.

The overall level of restraint for Categories 28 through 63 and 64 (excluding knit fabrics) shall be 891,282 square yards equivalent. There was attached to the directive of April 28, 1969, from the Chairman of the President's Cabinet Textile Committee, concerning cotton textiles and cotton textile products from Mexico, a table of the rates of conversion into square yard equivalents of Categories 28 through 64 which may be used in implementing this part of this directive.

Within this overall level of restraint for Categories 28 through 63 and 64 (excluding knit fabrics), the following specific levels of restraint shall apply:

Category	4-Month level of restraint
63	44,564 pounds.
64 (excluding knit fabrics)[1]	132,072 pounds (of which not more than 38,461 pounds shall be in zipper tapes, T.S.U.S.A. No. 347.340).

Within the overall level of restraint for Categories 28 through 63, and 64 (excluding knit fabrics), each category without a specific level of restraint is subject to a consultation level of 141,795 square yards equivalent. If appropriate, future directions concerning these categories will be made to you by letter from the Chairman of the Interagency Textile Administrative Committee.

In carrying out this directive, cotton textiles and cotton textiles products produced or manufactured in Mexico and which have been exported to the United States from Mexico prior to May 1, 1971, shall to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the period May 1, 1970, through April 30, 1971. In the event that any level of restraint for the period ending April 30, 1971, has been exhausted by previous entries, such goods shall be subject to the directives set forth in this letter.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of June 29, 1971, between the Governments of the United States and Mexico which provide in part that within the aggregate limit, the group limit on Group III may be exceeded by not more than 5 percent; within the aggregate and applicable group limits, limits on certain categories may be exceeded by not more than 5 percent; for the limited carryover of short-falls in certain categories to the next agreement years; and for administrative arrangements. Any appropriate adjustments pursuant to the provisions of the bilateral agreement referred to above, will be made to you by letter from the Chairman of the Interagency Textile Administrative Committee.

A detailed description of the categories in terms of TSUSA numbers was published in the FEDERAL REGISTER on January 17, 1968 (33 F.R. 583), and amendments thereto on March 15, 1968 (33 F.R. 4600).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Mexico and with respect to imports of cotton textiles and cotton textile products from Mexico have been determined by the President's Cabinet Textile Advisory Committee to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the notice provisions of 5 U.S.C. 553 (Supp. V, 1965-69). This letter will be published in the FEDERAL REGISTER.

Sincerely,

MAURICE H. STANS,
Secretary of Commerce, Chairman, President's Cabinet Textile Advisory Committee.

[1] All of Category 64 except T.S.U.S.A. Nos. 345.1020, 345.1040, 346.4560, 353.5014, and 359.1040.

SECURITIES AND EXCHANGE COMMISSION

INDIANA & MICHIGAN POWER CO. AND INDIANA & MICHIGAN ELECTRIC CO.

Notice of Proposed Capital Contributions to Newly-Organized Subsidiary Company, Issue of Long-Term Notes to Banks by Said Subsidiary Company and Related Transactions

AUGUST 2, 1971.

Notice is hereby given that Indiana & Michigan Electric Co. (I&M), 2101 Spy Run Avenue, Fort Wayne, IN 46801, an electric utility subsidiary company of American Electric Power Co., Inc. (AEP), a registered holding company, and its newly-organized subsidiary company, Indiana & Michigan Power Co. (Generating Company), Post Office Box 458, Bridgman, MI 49106, have jointly filed a declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a), 7, and 12 of the Act as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Generating Company is a new company incorporated under the laws of Michigan for the purpose of (i) acquiring, completing the construction of, owning, and operating the Donald C. Cook Nuclear, Generating Plant (Nuclear Plant), which I&M is presently constructing at Bridgman, Mich., and (ii) selling, upon commencement of operation of the Nuclear Plant, all of the electric power and energy generated by that plant to I&M. Pursuant to an order of the Commission dated May 20, 1971 (Holding Company Act Release No. 17135), Generating Company will acquire from I&M, and I&M will transfer and assign to Generating Company, (i) all of the property owned by I&M at the Nuclear Plant and (ii) all of I&M's right, title, and interest in any contracts, agreements, and property in connection with equipment or other facilities for the Nuclear Plant. In exchange therefor, I&M will acquire 1,500,000 shares of Generating Company's $1 par value common stock, for an aggregate consideration of not less than $70 million, and interest-bearing notes in an aggregate face amount equal to the difference between the purchase price and the consideration for the common stock, with such amount of notes not to exceed $130 million. The Nuclear Plant will be made up of two 1,100,000-kilowatt nuclear generating units and associated equipment and facilities and is presently expected to cost a total of not less than $480 million. Unit No. 1 is to be placed in commercial operation in 173 and Unit No. 2 in 1974.

I&M now proposes a financing program for Generating Company which includes: (1) the issuance and sale from time to time by Generating Company to 16 banking institutions of its notes pursuant to a bank loan agreement in an aggregate face amount up to $200 million to mature on September 30, 1977, (ii) capital contributions by I&M not exceeding $130 million to Generating Company effected by substituting common stock equity for subordinated notes previously issued by Generating Company to I&M, and (iii) the execution and performance by I&M and Generating Company of a power agreement pursuant to which Generating Company will agree to make available to I&M all of the power (and the energy associated therewith) available at the Nuclear Plant and I&M will agree to pay to Generating Company amounts at least sufficient to enable Generating Company to pay its operating expenses and expenses related to payment of its indebtedness and taxes. In addition I&M and Generating Company propose to enter into a capital funds agreement, pursuant to which I&M will supply or cause to be supplied to Generating Company amounts of capital in addition to amounts heretofore authorized and proposed herein as will be necessary to complete construction of and permit commercial operation of the Nuclear Plant.

The proposed notes to banks will bear interest at a rate per annum equal to one-fourth of 1 percent plus the prime commercial loan rate in effect from time to time at Manufacturers Hanover Trust Co. (Manufacturers) and, after the earliest of (i) December 31, 1974, (ii) the date on which the bank to which such note was originally issued shall have made loans in an amount equal to its commitment, or (iii) the date of commercial operation of the second unit of

the Nuclear Plant, the rate per annum will be increased until maturity to equal one-half of 1 percent plus Manufacturers' prime commercial loan rate. Generating Company will also be obligated to pay to each bank substitute interest computed at the rate of one-half percent on the daily average unused amount of the commitment for such bank, such obligation to pay substitute interest commencing July 6, 1971, and terminating on the earliest of (i), (ii), and (iii) above. The notes may be prepaid in whole or in part at any time without premium or penalty, unless such prepayment is made from the proceeds of, or in anticipation of, a borrowing by Generating Company from banking institutions at a rate of interest equal to or less than the then applicable interest rate on the notes, in which event Generating Company will be obligated to pay a premium in an amount equivalent to interest at the rate of one-fourth of 1 percent per annum on the amount of such prepayment from the date thereof to September 30, 1977. The bank loan agreement provides that all indebtedness of Generating Company to I&M outstanding at the time of the initial loans by the banks will be subordinated to the notes. It is stated that the effective cost of borrowing to Generating Company under the bank loan agreement, after the full $200 million has been borrowed, would be 7.65 percent per annum, assuming compensating balances maintained with each of the banks in an amount equal to 15 percent of the loans, and assuming the currently effective prime commercial rate of Manufacturers of 6 percent. The proceeds from the issue of the notes will be utilized by Generating Company for construction of the Nuclear Plant, the acquisition of equipment, materials and supplies for the Nuclear Plant, and other corporate purposes.

It is also proposed that I&M will from time to time either (i) donate amounts to Generating Company as cash capital contributions and concurrently receive payments, not exceeding $130 million in the aggregate, on account of the principal of the subordinated notes issued by Generating Company or (ii) donate to Generating Company as a capital contribution subordinated notes originally issued by Generating Company to I&M.

Under the capital funds agreement, I&M will supply, or cause to be supplied, such amounts of capital (including the capital contributions above) as may be required from time to time to maintain stockholder's equity at or above 35 percent of Generating Company's capitalization, and such amounts of capital, in addition to (i) the capital made available to Generating Company by I&M as the purchase price of the Nuclear Plant and (ii) an amount equal at any time in question to the amount of funds made available to Generating Company under the bank loan agreement, as shall be required in order for Generating Company to continue to own, and to complete construction of the Nuclear Plant, to provide for preoperating and other expenses of Generating Company, to permit the commercial operation of the two steam-electric generating units in the Nuclear Plant, and to permit the continuation of such commercial operation after the commencement thereof. I&M requests authorization to make cash capital contributions from time to time to Generating Company in such amounts as I&M is obligated to make under the capital funds agreements. Any securities of Generating Company issued and sold to and acquired by I&M will require further authorization of this Commission.

I&M and Generating Company further propose to enter into a Power Agreement, pursuant to which Generating Company will make available, or cause to be made available, to I&M all power (and the energy associated therewith) available at the Nuclear Plant, and I&M will pay to Generating Company in consideration for the right to receive all such power and energy such amounts from time to time as, when added to amounts received by Generating Company from all other sources, will at least be sufficient to enable Generating Company to pay, when due, all of its operating and other expenses, including (i) any amount which Generating Company may be required to pay on account of any interest on all indebtedness for borrowed money issued or assumed by Generating Company and on account of the stated maturities of, and/or all required sinking fund payments and other regular amortization requirements applicable to, such indebtedness and (ii) such additional amount as is necessary after any required provision for taxes on, or measured by, income to enable Generating Company to pay required dividends on any preferred stock which it may issue and such amount as will represent a fair return on the common stock equity of Generating Company as may be permitted by governmental regulatory authorities having jurisdiction in the premise.

The declaration states that Generating Company intends, subject to approval by this Commission and other requisite regulatory authority, to issue and sell permanent, long-term debt or equity securities to the public from time to time, the proceeds of which will be utilized for construction or to prepay the bank notes issued under the bank loan agreement, and it also intends, to the extent that such bank notes remain outstanding on September 30, 1977, to pay such bank notes then outstanding from internal cash resources and from the issuance and sale of such other permanent, long-term debt or equity securities as this Commission and the Michigan Public Service Commission may then authorize.

It is stated that the issuance of the bank notes is subject to authorization by the Michigan Public Service Commission and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. It is also stated that the capital funds agreement and the power agreement will be filed with the Public Service Commission of Indiana in which State I&M is incorporated and doing business, for that Commission's information as required by law, but no authorization of that Commission is required in connection therewith. It is further stated that the power agreement contemplates that I&M and Generating Company will subsequently enter into a further agreement or agreements for the sale by Generating Company of power (and the energy associated therewith) available at the Nuclear Plant to I&M and that such agreement or agreements will be filed by Generating Company with the Federal Power Commission as a rate schedule under the Federal Power Act. The fees and expenses to be incurred in connection with the proposed transactions are to be filed by amendment.

Notice is further given that any interested person may, not later than August 20, 1971, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] THEODORE L. HUMES,
Associate Secretary.

ASSIGNMENT OF HEARINGS

AUGUST 3, 1971.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC-125874 S-7, DBA Jack Rabbit Express, assigned September 13, 1971, at the Florida Public Service Commission, 5720 Southwest 17th Street, Miami, FL.

MC134884 Sub 1, Farwest Furniture Transport, Inc., assigned September 27, 1971, in Room 13025, 450 Golden Gate Avenue, San Francisco, CA.

MC80430 Sub 131, Gateway Transportation Co., Inc. assigned October 5, 1971 in Room 651, U.S. Courthouse, 801 Broadway, Nashville, TN.

MC124692 Sub 57, Sammons Trucking, application dismissed.

FD 26804, Boston and Maine Corp. (Robert W. Meserve, Paul W. Cherington, and Charles W. Bartletts, Trustees), abandonment between Concord and Lincoln, Merrimack, Belknap, and Grafton Counties, N.H., assigned September 20, 1971, in Room 418, Federal Building, 55 Pleasant Street, Concord, N.H., and September 23, 1971, at the St. Joseph Parish Hall, Lincoln, N.H.

MC 124078 Sub 476, Schwerman Trucking Co., and MC 125474 Sub 29, Bulk Haulers, Inc., reassigned September 21, 1971, at Washington, D.C., at the Offices of the Interstate Commerce Commission, instead of August 23, 1971.

MC 117574 Subs 184 and 191, Daily Express, Inc., assigned October 18, 1971, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 107576 Sub 20, Silver Wheel Freightlines, Inc., now assigned September 13, 1971, at Salem, Oreg., canceled and reassigned to September 13, 1971, in the Elizabethan Room, Davenport Hotel, West 807 Sprague Street, Spokane, WA.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 341]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 2, 1971.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 55898 (Sub-No. 47 TA), filed July 23, 1971. Applicant: HARRY A. DECATO, doing business as DECATO BROS. TRUCKING CO., Heater Road, Lebanon, NH 03766. Applicant's representative: Andre J. Barbeau, 795 Elm Street, Manchester, NH 03101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Brick*, on pallets or strapped in cubes, on reinforced platform trailers equipped with straddle-type self-unloading devices, from Lebanon, N.H., to points in Maine, Vermont, Massachusetts, Connecticut, Rhode Island, New York, and New Jersey, for 180 days. Supporting shipper: Densmore Brick Co., Inc., Lebanon, N.H. 03766. Send protests to: District Supervisor Ross J. Seymour, Bureau of Operations, Interstate Commerce Commission, 424 Federal Building, Concord, N.H. 03301.

No. MC 89684 (Sub-No. 76 TA), filed July 23, 1971. Applicant WYCOFF COMPANY INCORPORATED, 360 South Second West Street, Salt Lake City, UT 84101. Applicant's representative: Harry D. Pugsley, 400 El Paso Gas Building, Salt Lake City, UT 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Construction supplies, materials, and equipment parts*, excluding explosives and poisonous articles, from Salt Lake City, Utah, and points in Utah within 50 miles thereof, to Flagstaff, Ariz., serving all intermediate points in Arizona, between Page and Flagstaff, Ariz., that are located on U.S. Highway 89, including Page and Flagstaff, over U.S. Highway 89, serving as an off-route point the Navajo Power Plant located approximately 5 miles from Page, Ariz., restricted to shipments not exceeding 1,000 pounds in weight, for 180 days. NOTE: Applicant states it does intend to tack the authority here applied for to other authority held by it, MC-89684 Sub-No. 63, and/or to interline with other carrier. Supporting shippers: Foulger Equipment Co., 1361 South Second West Street, Post Office Box 87, Salt Lake City, UT 84110; Hafer's Inc., 1563 South Second West Street, Post Office Box 1438, Salt Lake City, UT 84110; Bennett Ford (Truckland) 13th South at Third West, Salt Lake City, UT 84101; The Howard P. Foley Co., 510 West First North Street, Salt Lake City, UT 84116; Arnold Machinery Co., Inc., 2975 West 21st South, Post Office Box 2220, Salt Lake City, UT 84110. Send protests to: John T. Vaughan, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 5239 Federal Building, Salt Lake City, Utah 84111.

No. MC 94403 (Sub-No. 2 TA), filed July 26, 1971. Applicant: GAGNON & SONS MOVERS, INC., Post Office Box 247, Fort Fairfield, ME 04742. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods* as defined by the Interstate Commerce Commission, from Fort Fairfield, Maine, to points in Aroostook, Penobscot, Piscataquis, and Somerset Counties, Maine, from points in Aroostook, Piscataquis and Somerset Counties, Maine to Fort Fairfield, Maine, for 180 days. NOTE: Applicant states it does intend to tack the authority in MC 94403 Sub-No. 1. Supporting shipper: Department of the Army, Office of the Judge Advocate General, Washington, D.C. 10310. Send protests to: Donald G. Weiler, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 307, 76 Pearl Street, Post Office Box 167, PSS, Portland, ME 04112.

No. MC 114562 (Sub-No. 8 TA), filed July 27, 1971. Applicant: CROMARTIE TRANSPORT CO. a corporation, Post Office Box 123 (420 Shipyard Boulevard), Wilmington, NC 28401. Applicant's representative: L. M. Cromartie (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Blackstrap molasses* (liquid feed supplement), from Wilmington, N.C., to points in Virginia, for 180 days. Supporting shipper: American Molasses Company of North Carolina, 15 West Queen Street, Wilmington, NC. Send protests to: Archie W. Andrews, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Post Office Box 26896, Raleigh, NC 27611.

No. MC 116544 (Sub-No. 126 TA), filed July 26, 1971. Applicant: WILSON

BROTHERS TRUCK LINE, INC., 700 East Fairview Street, Post Office Box 636, Carthage, MO 64836. Applicant's representative: Robert Wilson (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Dairy products* as described in section B of appendix I to the report in the *Description in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Norfolk, Nebr., and Sabetha, Kans., to points in Georgia and Florida, for 180 days. Supporting shipper: Breakstone Sugar Creek Foods, 450 East Illinois Street, Chicago, IL 60611. Send protests to: John V. Barry, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1100 Federal Office Building, 911 Walnut Street, Kansas City, MO 64106.

No. MC 119701 (Sub-No. 2 TA), filed July 26, 1971. Applicant: CAPITOL EXPRESS, INC., Rural Route No. 1, Smyrna, DE 19977. Applicant's representative: Howard G. Slaughter (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Water*, in plastic containers, from Middletown, Del., to points in Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia, for 180 days. Supporting shipper: R. H. Hough, Manager Plastic Products, Haskon Plastic Products Division, Hercules, Inc., Post Office Box 257, Middletown, DE 19709. Send protests to: Paul J. Lowry, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 227 Old Post Office Building, Salisbury, Md. 21801.

No. MC 124111 (Sub-No. 30 TA), filed July 26, 1971. Applicant: OHIO EASTERN EXPRESS, INC., 302 West Perkins Avenue, Sandusky, OH 44127. Applicant's representative: A. Charles Tell and J. P. McMahon, 100 East Broad Street, Columbus, OH 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen and perishable foodstuffs*, in vehicles equipped with mechanical refrigeration, from Solon, Ohio, to points in Pennsylvania, New York, Virginia, Massachusetts, Michigan, West Virginia, Connecticut, Washington, D.C., commercial zone, New Jersey, and the following points: Augusta and Portland, Maine, Seaford, and Milford, Del., Providence, R.I., White River Junction and Montpelier, Vt., Concord, Portsmouth, and Manchester, N.H., and Baltimore and Halethorpe, Md., for 180 days. Supporting shipper: Stouffer Foods, 5750 Harper Road, Solon, OH 44139. Send protests to: Keith D. Warner, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 5234 Federal Office Building, 234 Summit Street, Toledo, OH 43604.

No. MC 126625 (Sub-No. 10 TA), filed July 26, 1971. Applicant: MURPHY SURF-AIR TRUCKING COMPANY, INC., Blue Grass Field, Lexington, Ky. 40501. Applicant's representative: Ben H. Combs, 310 Citizens-Union National Bank Building, Lexington, Ky. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, having a prior or subsequent movement by air, between points in Warren County, Ky., on the one hand, and, the Metro Airport near Nashville, Tenn., on the other, for 180 days. NOTE: Applicant intends to tack the authority here applied for to authority held by it under Docket No. MC 122625 Sub No. 5. Supporting shipper: Aero Special Air Freight of Metro Airport, Nashville, Tenn. Send protests to: R. W. Schneiter, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 222 Bakhaus Building, Lexington, Ky. 40505.

No. MC 127003 (Sub-No. 2 TA), filed July 26, 1971. Applicant: JOHN W. LANKFORD, Rural Free Delivery 1, Pocomoke City, MD 21851. Applicant's representative: John W. Lankford (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Beer*, from Williamsburg, Va., to points in Wicomico and Worcester Counties, Md., *empty bottles and containers*, from points in Worcester Counties, Md., to Williamsburg, Va., for 180 days. Supporting shipper: Aubrey C. Dennis, Jr., President, Dennis Beer Wholesalers, Inc., 501 Williams Street, Berlin, MD 21811. Send protests to: Paul J. Lowry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 227 Old Post Office Building, Salisbury, Md. 21801.

No. MC 128409 (Sub-No. 1 TA), filed July 26, 1971. Applicant: HAROLD A. MILLER, 1516 12th Street South, Moorhead, MN 56560. Applicant's representative: A. R. Fowler, 2288 University Avenue, St. Paul, MN 55114. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Steel storage tanks*, from Moorhead, Minn., to points in North Dakota, for 180 days. Supporting shipper: Morthwest Oil Equipment, Inc., 1619 First Avenue North, Moorhead, MN 56560. Send protests to: J. H. Ambs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Post Office Box 2340, Fargo, ND 58102.

No. MC 129184 (Sub-No. 7 TA), filed July 26, 1971. Applicant: KENNETH L. KELLAR, Post Office Box 449, Blaine, WA 98230. Applicant's representative: Joseph O. Earp, 411 Lyon Building, Seattle, WA 98104. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquor*, alcoholic, from West Palm Beach, Fla., to Baltimore, Md., (2) *liquor*, alcoholic and *malt beverages*, from New Orleans, La., to West Palm Beach, Fla., for 180 days. Supporting shipper: Exports, Inc., Post Office Box 449, Blaine, WA 98230. Send protests to: E. J. Casey, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 6130 Arcade Building, Seattle, WA 98101.

No. MC 133065 (Sub-No. 16 TA), filed July 26, 1971. Applicant: ECKLEY TRUCKING AND LEASING, INC., Post Office Box 156, Mead, NE 68041. Applicant's representative: Gailyn L. Larsen, Box 80806, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Salvage rail track, salvage switches, salvage plates, salvage ties, salvage spikes and related salvage materials*, between points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming, under continuing contract with A & K Railroad Materials, Inc., for 180 days. Supporting shipper: Morris Kulmer, A & K Railroad Materials, Inc., Freeport Center, Clearfield, Utah 80416. Send protests to: Max H. Johnston, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 320 Federal Building and Courthouse, Lincoln, NE 68508.

No. MC 134073 (Sub-No. 11 TA), filed July 26, 1971. Applicant: GENOVA TRANSPORT, INC., 484 Clayton Road, Williamstown, NJ 08094. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Containers, container ends, caps, and covers*, from Lemoyne, Pa., Cambridge and Hurlock, Md., to Williamstown and Glassboro, N.J., under contract with National Fruit Product Co., and Violet Packing Co. and Ron-Son Mushroom Products, Inc., for 180 days. Supporting shippers: National Fruit Product Co., Inc., Glassboro, N.J.; Violet Packing Co., 123 Railroad Avenue, Williamstown, NJ 08094; Ron-Son Mushroom Products, Inc., Ellis Street and Deptford Road, Glassboro, NJ 08028. Send protests to: Richard M. Regan, Interstate Commerce Commission, Bureau of Operations, 428 East State Street, Room 204, Trenton, NJ 08608.

No. MC 134323 (Sub-No. 17 TA), filed July 26, 1971. Applicant: JAY LINES, INC., 6210 River Road, Post Office Box 1644, Amarillo, TX 79105. Applicant's representative: Gailyn L. Larsen, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Household appliances, furnaces, air cleaners and conditioners, humidifiers, dehumidifiers and related items* (except those items which, because of size or weight, require the use of special equipment), from the plantsite and warehouse facilities of Fedders Corp., in Middlesex County, N.J., to points in Texas, Louisiana, Missouri, Arkansas, Kansas, Colorado, Oklahoma, and New Mexico, for 180 days. Supporting shipper: Robert C. McArthur, General Traffic manager, Fedders Corp., Edison, N.J. 08817. Send protests to: Haskell E. Ballard, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Box H-4395, Herring Plaza, Amarillo, TX 79101.

No. MC 135405 (Sub-No. 1 TA), filed July 26, 1971. Applicant: WILLIAM E. SWIFT, doing business as SWIFT TRANSPORTATION CO., Post Office Box 6173, 4833 W. Louver Buckeye Road, Phoenix, AZ 85005. Applicant's representative: Ernest D. Salm, 3846 Evans Street, Los Angeles, CA 90027. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *Raw paper stock*, from Zee, La., and Pasadena, Tex., to Phoenix, Ariz., for 180 days. Supporting shipper: W.A. Krueger Co., 2802 West Palm Lane, Phoenix, AZ 85009. Send protests to: Andrew V. Baylor, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 3427 Federal Building, 230 North First Avenue, Phoenix, AZ 85025.

No. MC 135153 (Sub-No. 8 TA), filed July 23, 1971. Applicant: GREAT OVERLAND, INC., Post Office Box 1417, Dodge City, KS 67801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as defined by the Commission (except those commodities in bulk, and hides), from the plantsite of Swift & Co., at or near Guymon, Okla., to points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, New York, Connecticut, New Jersey, Delaware, Pennsylvania, Maryland, Virginia, West Virginia, and the District of Columbia, for 90 days. Supporting shipper: Swift Fresh Meats Co., a division of Swift & Co., 115 West Jackson Boulevard, Chicago, IL 60604. Send protests to: M. E. Taylor, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 501 Petroleum Building, Wichita, Kans. 67202.

No. MC 135284 (Sub-No. 1 TA), filed July 26, 1971. Applicant: FLEETWOOD TRANSPORTATION CORP., 6585 Kinne Road, Dewitt, NY 13214. Applicant's representative: J. A. Kundtz, National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and, in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, from Fleetwood, Berks County, Pa., on the one hand, and, on the other, points in Pennsylvania, New York, New Jersey, Maryland, Delaware, and the District of Columbia, under continuing contract or contracts with Agfoods, Inc., for 180 days. Supporting shipper: Agfoods, Inc., Post Office Box 324, 130 East Locust Street, Fleetwood, PA 19522. Send protests to: District Supervisor Morris H. Gross, Interstate Commerce Commission, Bureau of Operations, Room 104 O'Donnell Building, 301 Erie Boulevard, West Syracuse, NY 13202.

No. MC 135654 (Sub-No. 1 TA), filed July 26, 1971. Applicant: WILLIAM A. MAXSON, doing business as MAXSON MILK TRANSPORT, Pittsford, Mich. 49271. Applicant's representative: L. Russell Heuman, 410 South Jackson Street, Jackson, MI 49201. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Plastic articles*, from Jonesville, Mich., to Winston-Salem, N.C., and Linden, N.J., under a continuing contract with Mark I Molded Plastics, Jonesville, Mich., for 180 days. Supporting shipper: Mark I Molded Plastics, Jonesville, Mich. 49250. Send protests to: C. R. Flemming, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 225 Federal Building, Lansing, Mich. 48933.

No. MC 135802 TA, filed July 26, 1971. Applicant: GEORGE F. FITZHUGH, doing business as FITZHUGH TRUCKING, 9907 Seventh Avenue, Everret, WA 98204. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Plumbing supplies*, from points in California to points in Washington, for 180 days. Supporting shipper: Keller Supply Co., 3209 17th Avenue West, Seattle, WA 98119. Send protests to: E. J. Casey, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 6130 Arcade Building, Seattle, Wash. 98101.

No. MC 135803 TA, filed July 26, 1971. Applicant: WALLACE TRANSPORT, Post Office Box 212, Planada, CA. Applicant's representative: David J. Merchant, 310 Sansome Street, San Francisco, CA 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Groceries and other commodities dealt in and consigned to wholesale or retail grocery establishments; foods and food products* requiring temperature control service; *meats, meat products* including *cooked and cured meats, meat byproducts, and articles distributed by meat packinghouses; dairy products; and fish and agricultural commodities*, otherwise exempt under section 203(b)(6) of the Interstate Commerce Act, in mixed shipments with regulated commodities, between points in California, excluding pickup and delivery service, both of which occur totally within (1) the cities of Alameda, Albany, Berkeley, Emeryville, El Cerrito, Hayward, Piedmont, Richmond, Oakland, San Leandro, South San Leandro, San Francisco, and South San Francisco; the commercial zones of Los Angeles County and /or Los Angeles Harbor; and between all points in California on the one hand, and all points in Washoe County, Nev., on the other hand, for 180 days. Supporting shippers: Ernest G. (Gerry) Ayers, Post Office Box 3101, Eureka, CA 95501; Butcher Boy Food Products, Inc., Post Office Box 5647, Riverside, CA 93507; Del Pero—Mondon Meat Co., 1109 Chestnut Street, Marysville, CA 95901; Don's Distributing Co., Post Office Box 269, Stockton, CA; Leo's Quality Foods, 1850 West Slauson Avenue, Los Angeles, CA 90047; Patterson Frozen Foods, Inc., Post Office Box 428, Patterson, CA 95363; Ukiah Food Products, 205 Clara Avenue, Ukiah, CA 94482; C. M. Hyde Co., 144 West Lake Avenue, Watsonville, CA 95076; Farmer John Meats, 3049 East Vernon Avenue, Los Angeles, CA 90058, and Rosco Nursery, Post Office Box 863, Anderson, CA. Send protests to: Claud W. Reeves, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 450 Golden Gate Avenue, Box 36004, San Francisco, CA 94102.

By the Commission.

[Notice 342]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 3, 1971.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 74238 (Sub-No. 2 TA), filed July 26, 1971. Applicant: KRIEGSMAN TRANSFER COMPANY, 278 Koch Street, Pekin, IL 61554. Applicant's representative: Robert M. Kaske (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, defined by the Commission, between points in Illinois on the one hand and points in Colorado, Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Ohio, Pennsylvania, Tennessee, and Wisconsin on the other, for 150 days. Supporting shipper: Stern Brothers, Bergen Mall, Paramus, N.J. 07652. Send protests to: District Supervisor David J. Kiernan, Bureau of Operations, Interstate Commerce Commission, 324 U.S. Post Office Building, 135 High Street, Hartford, CO 06101.

No. MC 123805 (Sub-No. 6 TA), filed July 26, 1971. Applicant: G. H. LOMAX, Rural Route No. 1, 1519 Wellman, Hannibal, MO 63401. Applicant's representative: Thomas P. Rose, Jefferson Building, Jefferson City, Mo. 75101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alfalfa meal and/or alfalfa pellets*, in bags or in bulk, from Marion County Milling Co., plant on Missouri Highway No. 168 4 miles north of Hannibal, Mo., to points in Illinois and Indiana, for 180 days. Supporting shipper: Marion County Milling Co., Post Office Box 957, Hannibal, MO 63401. Send protests to: Vernon V. Coble, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1100 Federal Office Building, 911 Walnut Street, Kansas City, MO 64106.

No. MC 124708 (Sub-No. 35 TA), filed July 26, 1971. Applicant: MEAT PACKERS EXPRESS, INC., 222 South 72d Street, Omaha, NE 68114. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), from Denison and Iowa Falls, Iowa, to points in Arizona, California, Nevada, Oregon, and Washington, for 180 days. Supporting shipper: Farmland Foods, Inc., Post Office Box 403, Denison, IA 51442. Send protests to: Carroll Russell, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 711 Federal Office Building, Omaha, Nebr. 68102.

No. MC 128486 (Sub-No. 4 TA) (Correction), filed June 16, 1971, published FEDERAL REGISTER issues June 29, 1971, and July 29, 1971, respectively, and corrected this issue. Applicant: LILY TRANSPORT LINES, INC., 25 Denby Road, Allston, MA 02134. Applicant's representative: Frank J. Weiner, 6 Beacon Street, Boston, MA 02108. NOTE: The purpose of this partial republication is to reflect the correct Sub-No. 4 TA, in lieu of Sub-No. 3 TA, shown erroneously in previous publication. The rest of the notice remains the same.

No. MC 133426 (Sub-No. 2 TA) filed July 23, 1971. Applicant: B & T TRUCKING & LEASING, INC., 8240 Beachwood Road, Baltimore, MD 21222. Applicant's representative: Charles McD. Gillian, Jr., 113 Montrose Avenue, Baltimore, MD 21228. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Boxes*, wooden, from Sparrows Point, Md., to Milton, N.Y., and points in New York within 25 miles of Milton, N.Y., *damaged or rejected shipments on return*, for 120 days. Supporting shipper: A. P. Caltrider, President, The Nelson Co. The Quadrangle, Village of Cross Keys, Baltimore, Md. 21210. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 814–B Federal Building, Baltimore, Md. 21201.

No. MC 134375 (Sub-No. 4 TA), filed July 23, 1971. Applicant: ELDON GRAVES, doing business as ELDON GRAVES TRUCKING, 17 West Washington Avenue, Yakima, WA 98903. Applicant's representative: Philip G. Skofstad, 4410 Northeast Fremont, Portland, OR 97213. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper products*, from points in Yakima County, Wash., to points in Hood River and Jackson Counties, Oreg., and points in Idaho, for 180 days. Supporting shipper: L. P. Michelsen Co., Inc., Post Office Box 614, Yakima, WA 98901. Send protests to: District Supervisor W. J. Huetig, Interstate Commerce Commission, Bureau of Operations, 450 Multnomah Building, 319 Southwest Pine Street, Portland, OR 97204.

No. MC 135748 (Sub-No. 1 TA) (Amendment), filed July 14, 1971, published FEDERAL REGISTER July 27, 1971, amended and corrected in part as amended this issue. Applicant: WILLIAM L. CORNELIUS AND ELLEEN S. CORNELIUS, a partnership, doing business as: C & C TRUCK SERVICE, 5992 South St. Paul Way, Littleton, CO 80121. Applicant's representative: Marion F. Jones, 420 Denver Club Building, Denver, Colo. 80202. NOTE: The purpose of this partial republication is to add the restriction in *bales only* to the commodity description. The rest of the notice remains the same.

No. MC 135761 (Sub-No. 1 TA) (Correction), filed July 15, 1971, published FEDERAL REGISTER July 28, 1971, corrected and republished in part as corrected this issue. Applicant: CABANO TRANSPORT LTEE, 365 Chemin Teniscouata, Riviere-du-Loupe, Quebec. Applicant's representative: Me Adrien R. Paquette, 200 St. James Street West, Montreal, PQ., Canada. NOTE: The purpose of this partial republication is to reflect the correct MC No. 135761 (Sub-No. 1 TA), in lieu of MC No. 135761 TA, shown erroneously in previous publication. The rest of the notice remains the same.

No. MC 135766 (Sub-No. 1 TA), filed July 23, 1971. Applicant: MICHAEL WOOD, Fairfield, Maine 04937. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry cement*, in bulk, in tank-type vehicles, from port of entry between the United States and Canada, at or near Jackman, Maine, to Sidney, Maine, for 150 days. Supporting shipper: Blue Rock Industries, Inc., Sidney, Maine. Send protests to: Donald G. Weiler, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 307, 76 Pearl Street, Post Office Box 167, PSS, Portland, ME 04112.

No. MC 135804 TA, filed July 27, 1971. Applicant: DIRKS EXPRESS, INC., 802 Black Hawk, Reinbeck, IA 50669. Applicant's representative: Larry D. Knox, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Butter*, from Hudson and Sully, Iowa, to Chicago, Ill., and its commercial zone, and *materials, equipment, and supplies*, used in the manufacture, preparation, or sale of dairy products, from Chicago, Ill., and its commercial zone to points in Sully and Hudson, Iowa, under continuing contract with Land O' Lakes, Inc., Minneapolis, Minn., for 180 days. Supporting shipper: Land O' Lakes, Inc., 614 McKinley Place, Minneapolis, MN 55440.

Send protests to: Ellis L. Annett, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 677 Federal Building, Des Moines, Iowa 50309.

No. MC 135805 TA, filed July 23, 1971. Applicant: EVERETT L. SCHRADER, 114 North Second Avenue, Villisca, IA 50864. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sand and gravel*, from Richfield, Nebr., and 10 miles thereof, to points in Montgomery, Page, Taylor, and Adams Counties, Iowa, for 180 days. Supporting shippers: Clarinda Coal & Concrete Co., Clarinda, Iowa 51632; Hawkeye Lumber Co., Red Oak, Iowa 51566; Pratt Construction Co., Red Oak, Iowa 51566; Fullerton Lumber Co., Red Oak, Iowa 51566. Send protests to: Carroll Russell, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 705 Federal Office Building, Omaha, Nebr. 68102.

By the Commission.

[Notice 728]

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 3, 1971.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–72875. By order of July 30, 1971, the Motor Carrier Board approved the transfer to Champion Auto Repair Service, Inc., Hudson, N.H. of Certificate No. MC–123870, issued January 19, 1970, to McCallum Motors, Inc., Hudson, N.H., authorizing the transportation of: Wrecked or disabled motor vehicles, by wrecker-type equipment, between points in New Hampshire, on the one hand, and, on the other, points in Maine, Vermont, Massachusetts, Connecticut, Rhode Island, and New York. Andre J. Barbeau, 795 Elm Street, Room 510 Manchester, NH 03101, attorney for applicants.

No. MC–FC–73001. By order of July 29, 1971, the Motor Carrier Board approved the transfer to Charles W. Napierski, doing business as Catawese Coach Lines, Rural Delivery No. 2, Catawissa, PA 17820, of the operating rights in Certificate No. MC–116370, issued October 3, 1957, to Harry Leon Sill and Elizabeth L. Sill, a partnership, Rural Delivery No. 2, Towanda, PA 17820, authorizing the transportation of passengers and their baggage in the same vehicle in round-trip special and charter operations, beginning and ending at Towanda, Pa., and points in Bradford County, Pa., within 15 miles of Towanda, and extending to New York, N.Y.

No. MC–FC–73026. By order of July 29, 1971, the Motor Carrier Board approved the transfer to Intercity Bus Lines, Inc., Roanoke, Va., of Certificate of Registration No. MC–121647 issued May 19, 1969, to Henry Marvin Fields, doing business as Fields Bus Line, Roanoke, Va., evidencing a right to engage in transportation in interstate or foreign commerce corresponding in scope to the grant of authority in certificate of public convenience and necessity No. P–2389 dated November 19, 1968, issued by the State Corporation Commission of Virginia. Jno C. Goddin, 200 West Grace Street, Richmond, VA 23220, attorney for applicants.

No. MC–FC–73028. By order of July 29, 1971, the Motor Carrier Board approved the transfer to G. Margaret Scharff, doing business as Scharff Motor Freight, 2210 East Portland Road, Newberg, OR 97132, of the operating rights in Nos. MC–30046 (Sub-No. 3) and MC–30046 (Sub-No. 7), issued August 8, 1961, and December 22, 1965, respectively, to H. A. Scharff, doing business as Scharff Motor Freight, same address, Newberg, Oreg., authorizing the transportation of lumber, sawdust, wood chips, hogfuel, planer shavings, and wood residuals, from specified points in Oregon to named points in Washington, and lumber products, from Vancouver, Wash., to points in Multnomah, Washington, and Yamhill Counties, Oreg.

No. MC–FC–73031. By order of July 29, 1971, the Motor Carrier Board approved the transfer of Couzens Cartage, Inc., Chicago, Ill., of Permit No. MC–84268 issued August 5, 1943, to Jefferson Park Warehouse Co., Inc., Chicago Ill., authorizing the transportation of: Such merchandise as is dealt in by chain grocery and food business houses, and equipment, supplies used in connection therewith, between points in a specified area of Illinois. H. R. Begley, attorney, 72 West Adams Street, Chicago, IL 60603.
